## MEMBERS OF THE CABINET

(Formed by the Rt. Hon. Tony Blair, MP, May 2005)

Prime Minister, First Lord of the Treasury and Minister for the Civil Service—The Rt. Hon. Tony Blair, MP
Deputy Prime Minister and First Secretary of State—The Rt. Hon. John Prescott, MP
Chancellor of the Exchequer—The Rt. Hon. Gordon Brown, MP
Secretary of State for Foreign and Commonwealth Affairs—The Rt. Hon. Jack Straw, MP
Secretary of State for Work and Pensions—The Rt. Hon. David Blunkett, MP
Secretary of State for Environment, Food and Rural Affairs—The Rt. Hon. Margaret Beckett, MP
Secretary of State for Transport and Secretary of State for Scotland—The Rt. Hon. Alistair Darling, MP
Secretary of State for Defence—The Rt. Hon. John Reid, MP
Leader of the House of Commons and Lord Privy Seal—The Rt. Hon. Geoffrey Hoon, MP
Secretary of State for Health—The Rt. Hon. Patricia Hewitt, MP
Secretary of State for Culture, Media and Sport—The Rt. Hon. Tessa Jowell, MP
Parliamentary Secretary to the Treasury—The Rt. Hon. Hilary Armstrong, MP
Secretary of State for the Home Department—The Rt. Hon. Charles Clarke, MP
Secretary of State for Northern Ireland and Secretary of State for Wales—The Rt. Hon. Peter Hain, MP
Minister without Portfolio—The Rt. Hon. Ian McCartney, MP
Leader of the House of Lords and President of the Council—The Rt. Hon. The Baroness Amos
Secretary of State for Constitutional Affairs and Lord Chancellor—The Rt. Hon. The Lord Falconer of Thoroton, QC
Secretary of State for International Development—The Rt. Hon. Hilary Benn, MP
Secretary of State for Trade and Industry—The Rt. Hon. Alan Johnson, MP
Secretary of State for Education and Skills—The Rt. Hon. Ruth Kelly, MP
Minister of Communities and Local Government—The Rt. Hon. David Miliband, MP
Chancellor of the Duchy of Lancaster—The Rt. Hon. John Hutton, MP
Chief Secretary to the Treasury—The Rt. Hon. Des Browne, MP

## DEPARTMENTS OF STATE AND MINISTERS

**Office of the Deputy Prime Minister**—
Deputy Prime Minister and First Secretary of State—The Rt. Hon. John Prescott, MP
Ministers of State—
Minister of Communities and Local Government—The Rt. Hon. David Miliband, MP
Minister for Local Government—Phil Woolas, Esq, MP
Minister for Housing and Planning—Yvette Cooper, MP
Parliamentary Under-Secretaries of State—
Jim Fitzpatrick, MP
Baroness Andrews, OBE

**Cabinet Office**—
Chancellor of the Duchy of Lancaster—The Rt. Hon. John Hutton, MP
Minister without Portfolio—The Rt. Hon. Ian McCartney, MP
Parliamentary Under-Secretary of State—
Jim Murphy, Esq, MP

**Constitutional Affairs**—
Secretary of State—The Rt. Hon. The Lord Falconer of Thoroton, QC
Minister of State—
The Rt. Hon. Harriet Harman, QC, MP
Parliamentary Under-Secretaries of State—
The Baroness Ashton of Upholland
Bridget Prentice, MP

**Culture, Media and Sport**—
Secretary of State for Culture, Media and Sport and Minister for Women—The Rt. Hon. Tessa Jowell, MP
Minister of State—
Minister for Sport and Tourism—The Rt. Hon. Richard Caborn, MP
Parliamentary Under-Secretaries of State—
David Lammy, Esq, MP
James Purnell, MP

**Defence**—
SECRETARY OF STATE—The Rt. Hon. John Reid, MP
MINISTER OF STATE—
The Rt. Hon. Adam Ingram, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Don Touhig, Esq, MP
The Lord Drayson
**Education and Skills**—
SECRETARY OF STATE—The Rt. Hon. Ruth Kelly, MP
MINISTERS OF STATE—
Minister for Schools—The Rt. Hon. Jacqui Smith, MP
Minister for Higher Education and Lifelong Learning—Bill Rammell, MP
Minister for Children and Families—The Rt. Hon. Beverley Hughes, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Maria Eagle, MP
Phil Hope, MP
The Lord Adonis
**Environment, Food and Rural Affairs**—
SECRETARY OF STATE—The Rt. Hon. Margaret Beckett, MP
MINISTER OF STATE—
Minister for Climate Change and the Environment—Elliot Morley, Esq, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Ben Bradshaw, Esq, MP
The Lord Bach
Jim Knight, MP
**Foreign and Commonwealth Affairs**—
SECRETARY OF STATE—The Rt. Hon. Jack Straw, MP
MINISTERS OF STATE—
Minister for the Middle East—Dr. Kim Howells, MP
Minister for Europe—The Rt. Hon. Douglas Alexander, MP
Minister for Trade—Ian Pearson, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—
The Lord Triesman
**Health**—
SECRETARY OF STATE—The Rt. Hon. Patricia Hewitt, MP
MINISTERS OF STATE—
Rosie Winterton, MP
The Rt. Hon. Jane Kennedy, MP
The Lord Warner
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Caroline Flint, MP
Liam Byrne, Esq, MP
**Home Office**—
SECRETARY OF STATE—The Rt. Hon. Charles Clarke, MP
MINISTERS OF STATE—
Minister for Policing, Security and Community Safety—The Rt. Hon. Hazel Blears, MP
Minister for Criminal Justice and Offender Management—The Rt. Hon. Baroness Scotland of Asthal, QC
Minister for Immigration, Citizenship and Nationality—Tony McNulty, Esq, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Paul Goggins, MP
Fiona Mactaggart, MP
Andy Burnham, MP
**International Development**—
SECRETARY OF STATE—The Rt. Hon. Hilary Benn, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—Gareth Thomas, Esq, MP
**Law Officers' Department**—
ATTORNEY-GENERAL—The Rt. Hon. Lord Goldsmith, QC
SOLICITOR-GENERAL—Mike O'Brien, QC, MP
ADVOCATE-GENERAL FOR SCOTLAND—The Baroness Clark, QC
**Leader of the House of Commons**—
LEADER OF THE HOUSE OF COMMONS AND LORD PRIVY SEAL—The Rt. Hon. Geoffrey Hoon, MP
DEPUTY LEADER OF THE HOUSE OF COMMONS—Nigel Griffiths, MP

**Northern Ireland Office**—
SECRETARY OF STATE—The Rt. Hon. Peter Hain, MP
MINISTERS OF STATE—
The Rt. Hon. Lord Rooker
David Hanson, Esq, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—
Angela E. Smith, MP
Shaun Woodward, Esq, MP

**Paymaster General's Office**—
PAYMASTER GENERAL—The Rt. Hon. Dawn Primarolo, MP

**Privy Council Office**—
LORD PRESIDENT OF THE COUNCIL AND LEADER OF THE HOUSE OF LORDS—The Rt. Hon. The Baroness Amos

**Scotland Office**—
SECRETARY OF STATE—The Rt. Hon. Alistair Darling, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE
David Cairns, MP

**Trade and Industry**—
SECRETARY OF STATE —The Rt. Hon. Alan Johnson, MP
MINISTERS OF STATE—
Minister for Industry and the Regions—The Rt. Hon. Alun Michael, MP
Minister for Energy—Malcolm Wicks, MP
Minister for Trade—Ian Pearson, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Lord Sainsbury of Turville (Minister for Science and Innovation)
Gerry Sutcliffe, Esq, MP (Minister for Employment Relations, Consumers and Fair Markets)
Barry Gardiner, MP (Minister for Competitiveness)
Meg Munn, MP (Minister for Women and Equality)

**Transport**—
SECRETARY OF STATE—The Rt. Hon. Alistair Darling, MP
MINISTER OF STATE—
Dr. Stephen Ladyman, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Derek Twigg, MP
Karen Buck, MP

**Treasury**—
PRIME MINISTER, FIRST LORD OF THE TREASURY AND MINISTER FOR THE CIVIL SERVICE—The Rt. Hon. Tony Blair, MP
CHANCELLOR OF THE EXCHEQUER—The Rt. Hon. Gordon Brown, MP
CHIEF SECRETARY—The Rt. Hon. Des Browne, MP
PAYMASTER GENERAL—The Rt. Hon. Dawn Primarolo, MP
FINANCIAL SECRETARY—John Healey, MP
ECONOMIC SECRETARY—Ivan Lewis, Esq, MP
PARLIAMENTARY SECRETARY—The Rt. Hon. Hilary Armstrong, MP
LORDS COMMISSIONERS—
Joan Ryan, MP
Gillian Merron, MP
Veron Coaker, Esq, MP
Tom Watson, Esq, MP
David Watts, Esq, MP
ASSISTANT WHIPS—
Frank Roy, Esq, MP
Ian Cawsey, Esq, MP
Alan Campbell, Esq, MP
Claire Ward, MP
Parmjit Dhanda, MP
Tony Cunningham, Esq, MP
Kevin Brennan, Esq, MP

**Wales Office**—
SECRETARY OF STATE—The Rt. Hon. Peter Hain, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—
Nick Ainger, MP

**Work and Pensions**—
SECRETARY OF STATE—The Rt. Hon. David Blunkett, MP
MINISTERS OF STATE—
Minister for Employment and Welfare Reform—The Rt. Hon. Margaret Hodge, MP
Minister for Pensions Reform—Stephen Timms, Esq, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Lord Hunt of Kingsheath, OBE
Anne McGuire, MP
James Plaskitt, Esq, MP

**Her Majesty's Household**—
LORD CHAMBERLAIN—The Rt. Hon. The Lord Luce, GCVO, DL
LORD STEWARD—The Duke of Abercorn, KG
MASTER OF THE HORSE—The Lord Vestey
TREASURER—The Rt. Hon. Bob Ainsworth, MP
COMPTROLLER—The Rt. Hon. Thomas McAvoy, MP
VICE-CHAMBERLAIN—John Heppell, Esq, MP
CAPTAIN OF THE HONOURABLE CORPS OF GENTLEMEN-AT-ARMS—The Rt. Hon. The Lord Grocott
CAPTAIN OF THE QUEEN'S BODYGUARD OF THE YEOMAN OF THE GUARD—The Lord Davies of Oldham
LORDS IN WAITING—The Lord Bassam of Brighton, The Lord Evans of Temple Guiting CBE, The Lord McKenzie
BARONESSES IN WAITING—The Baroness Farrington of Ribbleton, The Baroness Crawley, The Baroness Royall of Blaisdon

---

SECOND CHURCH ESTATES COMMISSIONER, REPRESENTING CHURCH COMMISSIONERS— Sir Stuart Bell, MP

---

# HOUSE OF COMMONS

THE SPEAKER—The Rt. Hon. Michael J. Martin, MP

CHAIRMAN OF WAYS AND MEANS—The Rt. Hon. Sir Alan Haselhurst, MP

FIRST DEPUTY CHAIRMAN OF WAYS AND MEANS—Mrs. Sylvia Heal, MP

SECOND DEPUTY CHAIRMAN OF WAYS AND MEANS—Sir Michael Lord, MP

CHAIRMEN'S PANEL—
David Amess, Esq, MP, Janet Anderson, MP, Miss Anne Begg, MP, Joe Benton, Esq, MP, John Bercow, MP, Sir John Butterfill, MP, Martin Caton, Esq, MP, Christopher Chope, Esq, MP, Derek Conway, MP, Frank Cook, MP, John Cummings, Esq, MP, Mrs. Janet Dean, MP, The Rt. Hon. Eric Forth, MP, Roger Gale, Esq, MP, Mike Hancock, Esq, MP, Jimmy Hood, Esq, MP, Mrs. Joan Humble, MP, Eric Illsley, Esq, MP, David Marshall, Esq, MP, Edward O'Hara, Esq, MP, Bill Olner, Esq, MP, Greg Pope, Esq, MP, David Taylor, Esq, MP, The Rt. Hon. Ann Widdecombe MP, David Wilshire, Esq, MP, Ann Winterton, MP, Sir Nicholas Winterton, MP

HOUSE OF COMMONS COMMISSION—
The Rt. Hon. The Speaker (Chairman), The Rt. Hon. Geoffrey Hoon, MP, Chris Grayling, MP, Sir Stuart Bell, MP, Sir Patrick Cormack, MP, FSA, Nick Harvey, MP

SECRETARY OF THE COMMISSION—David Natzler

ASSISTANT SECRETARY—Tom Goldsmith

ADMINISTRATION ESTIMATE AUDIT COMMITTEE—
Chris Grayling, MP (Chairman), Nick Harvey, MP, Sir Thomas Legg, KCB, QC, David Taylor, FCA

SECRETARY OF THE AUDIT COMMITTEE—Dr. Mark Egan

BOARD OF MANAGEMENT—
Roger Sands, (Chief Executive), George Cubie, CB (Clerk of Committees, Department of the Clerk of the House), Peter Grant Peterkin, CB, OBE (Serjeant at Arms), John Pullinger (Librarian), Andrew Walker (Director of Finance and Administration), Lorraine Sutherland (Editor of the Official Report), Sue Harrison (Director of Catering Services)

SECRETARY OF THE BOARD OF MANAGEMENT—Robert Twigger

SPEAKER'S SECRETARY—Angus Sinclair

SPEAKER'S COUNSEL—John Vaux

SPEAKER'S CHAPLAIN—Rev. Canon Robert Wright

MEDICAL ADVISER TO THE SPEAKER—Dr. Ron Zeegen, OBE, FRCP, MRCS, DObst, RCOG

PARLIAMENTARY COMMISSIONER FOR STANDARDS—Sir Philip Mawer

PARLIAMENTARY SECURITY CO-ORDINATOR—Peter Mason

# Written Ministerial Statements

*Monday 4 July 2005*

## TREASURY

### Public Expenditure

**The Chief Secretary to the Treasury (Mr. Des Browne):** The Treasury will publish the 2004-05 "Public Expenditure Provisional Outturn" White Paper on Wednesday 20 July.

The White Paper is an annual report to Parliament on the provisional outturn for public expenditure. It focuses on spending within departmental expenditure limits (DEL) and annually managed expenditure (AME), including information on individual supply estimates and administration costs limits.

The outturn figures are described as provisional because they may be revised when Department's final accounts are published.

A copy of the White Paper will be available in the Libraries of both Houses and will be accessible on the Treasury website.

## TRADE AND INDUSTRY

### BP Decarbonised Fuel Project (Scotland)

**The Minister for Energy (Malcolm Wicks):** The cleaner use of fossil fuels, including $CO_2$ capture and storage and hydrogen, offer important options for the future UK and international sustainable energy mix. The project announced by BP and its partners on 30 June is one of a number of potential innovative project opportunities that offer the prospect of demonstrating cleaner fossil fuel technologies, driving forward the next generation of plant.

The Government recognise the importance of incentives in encouraging the development of cleaner fossil fuel energy technologies. In this regard, the Government recently published their carbon abatement technologies strategy and its response to the UK hydrogen strategic framework, which involves a combined package of £40 million for funding demonstrations of emerging low-carbon technologies including carbon abatement technologies and hydrogen and fuel cells. Further, the Government are also examining how they might support the development of carbon capture and storage in the climate change programme review, including the potential for new economic incentives. The Government will in parallel continue work to resolve the regulatory and legal issues related to $CO_2$ capture and storage.

# Written Ministerial Statements

*Tuesday 5 July 2005*

## TREASURY

### HM Revenue and Customs (Enforcement Activity)

**The Financial Secretary to the Treasury (John Healey):** In light of the judgments by Mr. Justice Crane in the case of Operation Venison on 24 June and by the Court of Appeal in the cases of Operation Hellvellyn and others on 4 July, I am announcing today that HMRC has agreed with the Independent Police Complaints Commission (IPCC) that they will oversee an investigation into the criticism in Mr. Justice Crane's judgment of actions of individual officers in Operation Venison.

I can also announce that HM inspectorate of constabulary (HMIC) will begin in September a full programme of inspection to examine informant handling, controlled deliveries and disclosure, including the issues raised in the judgments of Operation Venison and Operation Hellvellyn and others.

At the same time, the director of the independent Revenue and Customs Prosecutions Office (RCPO) is examining whether or not other cases may be affected by the court judgments.

The Government take the criticisms of HMRC and HMRC officers contained in the Venison and Hellvelyn judgments very seriously. We are committed to ensuring that the issues raised in such cases are fully investigated.

For this reason, and to ensure that HMRC systems and practice match the best standards of law enforcement elsewhere, I can confirm that since I informed the House on 29 September 2004 of our intention to establish independent scrutiny arrangements for HMRC following the report of Mr. Justice Butterfield, the Government have legislated to:

- establish an independent Revenue and Customs Prosecution Office, accountable directly to the Attorney General;
- extend the remit of the Independent Police Complaints Commission to allow investigation of serious complaints and allegations against HMRC staff; and
- extend the remit of HM Inspectorate of Constabulary to investigate HMRC's lawenforcement procedures and practice.

The IPCC-led investigation and the HMIC inspection that I am announcing today are the first use of this comprehensive independent scrutiny framework.

These newly legislated arrangements with the IPCC, HMIC and RCPO mean HMRC is now served by a fully independent prosecutions office and is being made subject to the same standards of independent scrutiny, inspection and complaints investigation as are already established for the police.

This framework for external scrutiny goes further than Mr. Justice Butterfield's recommendations, so that HMRC and ministers are empowered to ensure the independent, timely and expert investigation of problems arising in serious criminal cases. Where appropriate in such cases, we will make use of these arrangements in the future.

### The Economy

**The Financial Secretary to the Treasury (John Healey):** The Chancellor of the Exchequer announced in the Budget that, owing to the sustained volatility in the oil market, the annual inflation only increase in main fuel duties would be deferred until 1 September.

Following sustained pressure from G8 Finance Ministers, OPEC have committed to increasing quotas by up to 1 million barrels a day by September.

But in the short-term uncertainty, and the risk of price volatility, remains high, with oil trading last week at above $59 per barrel.

The Government will not go ahead with the planned inflation increase on 1 September—including for rebated oils, biofuels and road fuel gases—and will review the position again at the time of the pre-Budget report.

## CONSTITUTIONAL AFFAIRS

### Legal Aid

**The Parliamentary Under-Secretary of State for Constitutional Affairs (Bridget Prentice):** My right hon. Friend the Secretary of State for Constitutional Affairs and Lord Chancellor has made the following statement in the other place today:

"I have today published a paper outlining Government proposals to reform the provision of legal aid in England and Wales.

Legal aid is one of the cornerstones of a fair and decent society. It provides the means to guarantee that all citizens can enforce their rights and are held accountable for fulfilling their responsibilities; it ensures that people accused of a crime get a proper defence; and safeguards vulnerable and disadvantaged people so they are not denied access to justice because of their inability to pay for it.

The paper "A Fairer Deal For Legal Aid", analyses the development of legal aid services, including the substantial increase in spending on legal aid in criminal cases at the expense of civil law cases. The paper sets out the Government's vision for legal aid, based on a system that:

- Provides advice and representation to defendants, in a way that is proportionate to the issues at stake;
- Supports the objectives of the criminal justice system, by helping to ensure timely and effective procedures and trials;
- Provides a more effective service for people involved in civil disputes.

The Government will take steps to address the disproportionate amount of money spent on defending high-cost criminal cases and redistribute funding so that

all criminal cases are dealt with swiftly and fairly and ensure greater flexibility to provide more civil help and advice to those who need it. This will include:

Tougher judicial management of larger, complex cases;

A new review board, with members from across the criminal justice system, to examine previous cases and identify improvements for the future;

Better management of large volumes of evidence—including better use of technology;

A comprehensive review of how fraud cases are brought to justice;

Closer cooperation between the defence and prosecution in the police station;

Letting defendants know their sentence discount, should they plead guilty;

An independent review by Lord Carter of Coles, which will produce a plan by early 2006 identifying how to improve procurement of publicly funded legal services.

Copies of the paper have been placed in the Libraries of both Houses. It is also available on the Department for Constitutional Affairs' website www.dca.gov.uk."

## DEFENCE

### Falcon Secure Trunk Communication System

**The Minister of State, Ministry of Defence (Mr. Adam Ingram):** Today I am pleased to announce that BAE Systems Insyte has been selected as the preferred bidder for the FALCON Secure Trunk Communication System (increment A). The Ministry of Defence will now enter detailed negotiations with BAE Systems Insyte to determine the basis for the main investment decision at which point cost and formal in-service date will be set.

FALCON is one of the key equipment capabilities at the heart of our drive to develop network enabled capability and will provide advanced communication capabilities suitable for our armed forces in the 21st century.

Work on FALCON will also underpin British industry's position at the forefront of communications technology worldwide.

## FOREIGN AND COMMONWEALTH AFFAIRS

### Council of Europe's Charter for Regional or Minority Languages

**The Minister for Europe (Mr. Douglas Alexander):** I have today arranged for copies of the second report on the implementation of the Council of Europe's charter for regional or minority languages to be placed in the Library of the House.

The report details the measures taken by the Government and the devolved Administrations to fulfil the UK's obligations under the charter for Welsh, Scottish Gaelic, Irish, Scots, Ulster Scots, Cornish and Manx Gaelic.

The report is also available on the website of the Foreign & Commonwealth Office at www.fco.gov.uk/otherdocuments

## HEALTH

### Independent Mental Capacity Advocate Service

**The Minister of State, Department of Health (Ms Rosie Winterton):** I am announcing today the publication of the consultation on the "Independent Mental Capacity Advocate service".

During the passage of the Mental Capacity Bill Ministers committed to consulting with interested stakeholders on the operation and details of the Independent Mental Capacity Advocate (IMCA) service. This new service was introduced in the Mental Capacity Act 2005 to support and represent the most vulnerable people who lack capacity in serious decisions about medical treatment and accommodation.

The consultation document "Consultation on the Independent Mental Capacity Advocate service", covers operational and implementation details, the role and functions of the IMCA, definitions of serious medical treatment and options on whether to extend the service to other groups and situations. The consultation will inform implementation on the Mental Capacity Act 2005 planned for April 2007.

The consultation will run until 30 September 2005 and applies to England only. Copies of the consultation paper and the accessible version have been placed in the Library and are also available from the Department's website at: www.dh.gov.uk.

### National Health Service Foundation Trusts

**The Secretary of State for Health (Ms Patricia Hewitt):** The Healthcare Commission (the statutory name of which is the Commission for Healthcare Audit and Inspection) has today published the outcome of a review of national health service foundation trusts, copies of which are available in the Library.

The review was commissioned by the then Secretary of State for Health (Dr. Reid) on 19 November 2003, *Official Report*, column 826 and has examined the experiences, challenges and issues for those trusts that became NHS foundation trusts on 1 April 2004 and 1 July 2004. In particular, the review considered the effects that NHS foundation trusts had on access to and quality of healthcare and relationships within local health economies, and the impact of the new governance arrangements and obstacles faced by NHS foundation trusts.

The outcome of the review is encouraging. I am pleased that NHS foundation trusts have made a good start to providing better quality services to NHS patients. While it is early days NHS foundation trusts are making good progress in developing new services and improving accountability. The Healthcare Commission review found that NHS foundation trusts have:

increased the ability to plan and develop new services and improving accountability to their local populations;

used their financial freedoms to gain access to capital investment and make quicker decisions to accelerate improvements to services, for example, offering specialist services in the community;

increased local public and patient involvement by successfully recruiting members and electing members to the boards;

mostly maintained their finances well within a more rigorous framework of financial management;

maintained standards of care in terms of access to and quality of care; and

maintained positive relationships with local commissioners and other local providers.

I also welcome the fact that some of the concerns about NHS foundation trusts have not materialised, for example NHS foundation trusts:

have not destabilised local health services, for example by using unfair competition to attract staff;

have not "cherry picked" patients who are easier to treat;

have continued to invest in staff education and training;

have in the majority of cases continued to worked in partnership with other NHS services and organisations in the local health community.

There is much we can learn as we move forward with change that is centred around making NHS services more responsive to the needs of NHS patients in the twenty-first century.

I should like to thank the Healthcare Commission for conducting this thorough review and producing its report to a short timetable. The introduction of NHS foundation trusts changes greatly the way in which healthcare is managed and delivered through the NHS. Such trusts are designed to sustain, and not displace the core NHS principles of universality and equity; with access based on clinical need and free at the point of use. The Government will also consider fully the lessons from this review for the continuing development of NHS foundation trusts.

## SOLICITOR GENERAL

### Revenue and Customs Prosecutions Office

**The Solicitor-General (Mr. Mike O'Brien):** My right hon. and learned Friend the Attorney-General has made the following written ministerial statement:

"I refer to the statement made today by my hon. Friend the Financial Secretary concerning Operation Venison, Operation Hellvellyn and others.

In the light of criticisms made of a prosecutor in Operation Venison, the director of the independent Revenue and Customs Prosecutions Office (RCPO) has removed that person from operational duty. In addition the director is urgently considering whether any other cases may be affected by the Venison judgment".

## TRADE AND INDUSTRY

### Government Chemist Review 2004

**The Minister for Energy (Malcolm Wicks):** The eighth annual review of the Government Chemist has been received. The review will be laid before the Scottish Parliament and copies will be placed in the Libraries of both Houses plus those of the devolved Administrations in Wales and Northern Ireland.

# Written Ministerial Statements

*Wednesday 6 July 2005*

## DEFENCE

### "Future Capabilities" Command Paper

**The Secretary of State for Defence (John Reid):** The "Future Capabilities" Command Paper published in July 2004 sets out the Ministry of Defence's proposals for modernising the force structure and capabilities of the armed forces to ensure that they are able to meet the security challenges on the 21st century. I am today publishing the Government's formal response to a report by the previous Defence Select Committee on the "Future Capabilities" proposals, issued in March 2005. Copies of the response will be placed in the Library of the House.

The Ministry of Defence welcomes the report and the Committee's support for our programme of modernisation. The Ministry of Defence's response provides detailed answers to all of the report's specific conclusions and recommendations. Our emphasis as we implement the "Future Capabilities" proposals across the Department continues to be on enhancing the flexibility, resilience and capabilities of the armed forces in order that they are well-prepared to face up to the most likely operational demands of the future.

## HOME DEPARTMENT

### Zimbabwe (Immigration Removals)

**The Secretary of State for the Home Department (Mr. Charles Clarke):** On 27 June I made a statement on the return of failed asylum seekers to Zimbabwe and I would now like to update the House on returns to Zimbabwe and on the situation of those who are currently refusing food.

As I set out in my previous statement, the Home Office assesses cases on their individual merits, providing protection to those who need it and seeking to remove from the UK those who do not. Each case is considered thoroughly before removal proceeds and any new information or representations are examined accordingly.

There have also been reports in the media of alleged ill-treatment of those who have been returned to Zimbabwe. We do not routinely monitor the treatment of individuals once removed from the UK as I made clear in my earlier statement. But our assessment of the situation on the ground is constantly monitored from a wide variety of sources, including the Foreign and Commonwealth Office, media reports and UK Government contacts with NGOs on the ground.

On 5 July there were 106 Zimbabweans being detained across the removal estate, 33 of whom have refused four or more consecutive meals. Food is available to all hunger strikers and they are seen daily by a medical practitioner to check their condition. None of them has been hospitalised at this stage.

As I stated before we shall also continue our efforts, bilaterally and with our international partners, to press the Government of Zimbabwe to end human rights abuses and restore democracy and the rule of law, so that all Zimbabweans can return safely to help build a prosperous and stable country.

### Proceeds of Crime Act

**The Parliamentary Under-Secretary of State for the Home Department (Paul Goggins):** I am pleased to announce that the third annual report of the appointed person under the Proceeds of Crime Act 2002 has been laid before Parliament. The appointed person is an independent person who scrutinises the use of the new search power introduced to support the law enforcement agencies to seize and forfeit criminal cash.

The report gives the appointed person's opinion as to the circumstances and manner in which the search powers conferred by the Act are being exercised. I am pleased that the appointed person, Andrew Clarke, has expressed satisfaction at the operation of the search power in its third year.

Over £36 million was seized under these powers last year. The power continues to be a welcome addition in the fight against crime and the report shows that its operation has been, and will continue to be, closely monitored.

## INTERNATIONAL DEVELOPMENT

### Polio Eradication

**The Secretary of State for International Development (Hilary Benn):** I am today announcing that the UK will provide £60 million to eradicate polio by end 2005/early 2006, and to boost the effort to ensure the world stays polio free thereafter. The UK will immediately and unilaterally plug the remaining funding gap of £20 million ($36 million) so that polio can be eradicated. The UK will also give another £40 million in 2006–08 towards the cost of vaccinating over 500 million children to ensure polio can never break out again.

The money will go towards: providing vaccines and immunisation; paying health workers to carry out the immunisation programme; investing in laboratories to ensure the right vaccine is available for the different strains of the virus; and putting in place systems to identify new cases and provide help as soon as possible.

The international community's fight against polio has been one of the real success stories in the global campaign to combat poverty. In 1982, polio was eradicated in the UK, but was still a major cause of death and paralysis amongst children in developing countries. In 1988, the World Health Assembly announced the Global Polio Eradication Initiative (PEI)—a worldwide programme of action to fight the disease. Seventeen years ago, there were 350,000 cases reported. Last year there were 1,255 cases—a fall of over 99 per cent. The funding I have announced today will,

together with other contributions already made, fulfil a longstanding G8 pledge to fully fund the final effort to eradicate the disease.

But it is important that the international community does not stop at eradication. Ensuring polio never breaks out again will cost over £400 million between 2006 and 2008. That is why today I have also announced that we will contribute £40 million to this post-eradication effort. I am calling on others to do the same.

## NORTHERN IRELAND

### Royal Ulster Constabulary George Cross Foundation

**The Secretary of State for Northern Ireland (Mr. Peter Hain):** I have today placed before this House a copy of the third annual report of the Royal Ulster Constabulary GC Foundation which was sent to me under Article 8(2) of the Royal Ulster Constabulary GC Foundation Regulations 2002.

Copies of the report have been placed in the Library of the House.

## PRIME MINISTER

### Senior Salaries Report

**The Prime Minister (Mr. Tony Blair):** I have today laid before both Houses the report by the Review Body on Senior Salaries on Pay for Standing Committee Chairmen in the House of Commons (Cm6566). Copies are available in the Vote Office and the Library of the House. I am grateful to John Baker and the members of the Review Body for their work. The Government have noted their recommendations. Implementation of these recommendations will be a matter for decision by Parliament.

# Written Ministerial Statements

*Thursday 7 July 2005*

## DEFENCE

### Harrier Detachment Afghanistan: Update

**The Secretary of State for Defence (John Reid):** The United Kingdom is committed to helping the Afghan people rebuild their country as a stable, prosperous and democratic nation free from the twin threats of terrorism and the opium industry. We deliver a significant part of that help through the contribution made by our armed forces to both the US-led coalition and the NATO-led International Security Assistance Force (ISAF). Since October 2004 that contribution has included a detachment of six Harrier GR7 aircraft based in Kandahar in southern Afghanistan. Currently drawn from No. 4 Squadron, Royal Air Force, the detachment provides a rapid and flexible reconnaissance capability, an air presence to reassure the Afghan people of their security and the capacity to strike against the Taliban and the remnants of Al Qaeda in Afghanistan. Throughout its deployment, the detachment has carried out all these tasks with distinction, has produced a disproportionately high operational effect and has deservedly won praise from both the NATO and the coalition authorities.

The detachment was due to withdraw at the end of June. However, we are currently refining, with our allies and partners, the requirements of the international military forces in Afghanistan, including that for air support. I have concluded that it would be premature to withdraw the Harrier detachment at this stage. I have therefore extended the deployment of the Harrier GR7 detachment for a further two months until the end of August 2005.

### ABRO Trading Fund Key Targets for 2005–06

**The Minister of State, Ministry of Defence (Mr. Adam Ingram):** The Chief Executive of ABRO has been set the following Key Targets for Financial Year 2005–06.

KEY TARGET 1: FINANCIAL PERFORMANCE. To achieve at least a 3.5 per cent. Return On Capital Employed (ROCE).

KEY TARGET 2: TURNOVER. To achieve a turnover figure of at least £128 million in Financial Year 2005–06.

KEY TARGET 3: SCHEDULE ADHERENCE. To meet customer agreed targets for delivery schedules on Critical Programme lines.

KEY TARGET 4: EFFICIENCY. To achieve a value added per employee target of at least £38,000.

KEY TARGET 5: WINNING WORK. To achieve a total closing order book of at least £141 million for Financial Year 2005–06

## DEPUTY PRIME MINISTER

### Council Tax Capping 2005–06

**The Minister for Local Government (Mr. Phil Woolas):** On 23 March, my right hon. Friend the Member for Greenwich and Woolwich (Mr. Raynsford) made a statement to the House, announcing that the Government was "designating", under the Local Government Finance Act 1992, nine local authorities which had set excessive budgets for 2005–06, with a view to capping them in year (*Official Report*, columns 883–92).

The authorities were given 21 days in which to challenge the maximum budgets we proposed to set for them in 2005–06 and to provide us with information we had requested. All nine authorities challenged their proposed maximum budgets and Ministers have met delegations from all nine authorities to hear their cases in person.

Having carefully considered the representations made to us, both orally and in writing, and having taken into account all relevant information, I can now announce how we intend to proceed.

I am laying before the House today for its approval, a draft order setting the following maximum budgets for eight of the designated authorities in 2005–06.

| *Designated Authority* | *Maximum Budget* |
|---|---|
| Aylesbury Vale | £18,363,000 |
| Daventry | £7,779,000 |
| Hambleton | £7,397,000 |
| Huntingdonshire | £15,160,000 |
| Mid Bedfordshire | £11,193,000 |
| North Dorset | £5,912,000 |
| Runnymede | £8,193,000 |
| South Cambridgeshire | £11,350,000 |

In all but one of these cases, the maximum budget is the same as we proposed in March. The exception is South Cambridgeshire, for which we are setting a higher cap than originally proposed to provide the authority with more time in which to end its reliance on surplus balances. Our expectation is that by using a combination of savings and reserves this year and beyond, it will be able to budget prudently in future. I am satisfied that all the authorities will be able to provide a good service and deliver all of their statutory functions within the revised maximum budgets.

I am cancelling the designation of Sedgemoor District Council and nominating the authority instead with a proposed notional budget for 2005–06 of £11,974,169. This is the authority's actual budget for 2005–06 less special expenses in the Bridgwater area. We accept that the authority made a genuine mistake in thinking that special expenses did not count against its budget for capping purposes and in believing that its council tax increase was within the "less than five per cent." average which the Government had said that they were expecting nationally. This does not mean that the authority has been "let off". The setting of the proposed notional budget, which is subject to the consideration of any challenge made by the authority, would mean that the authority could not include these special expenses in the baseline against which future increases were measured for capping purposes. This does not set a precedent for our treatment of special expenses in future

capping rounds and authorities should be in no doubt that these legally form part of an authority's own budget requirement

We are writing to all nine authorities today informing them of our decisions. Subject to approval by the House of the draft order laid before it today, the eight designated authorities will need to set revised budget requirements for 2005–06 and rebill their council tax payers for a lower council tax for 2005/06. Sedgemoor District Council now has 21 days in which to challenge its notional budget.

We are keeping our promise to act on excessive council tax increases. Given that we have increased funding to local government by 33 per cent. in real terms since 1997, and that all authorities have received formula grant increase either in line with or above inflation in all of the last three years, there is no excuse for excessive council tax increases. We will not hesitate to use our capping powers in future years to deal with excessive increases if this proves necessary.

## HEALTH

### NHS Dentistry Reforms

**The Minister of State, Department of Health (Ms Rosie Winterton):** Last year Harry Cayton, the national director for patients and the public, led a working group that reviewed charges for National Health Service dental treatment. Representatives of patients and consumers and dentists were among those who made a substantial contribution to the work of the group. We have been considering the group's report against the background of the changing patterns of treatment in personal dental services (PDS) contracts that are being piloted in parts of the country.

I have accepted the working group's recommendation for a new system of patient charges based on three bands, related to the complexity of the treatment provided. The new system will be:

fairer, reducing the maximum cost of NHS dental treatment by more than half and maintaining the existing exemptions for children under 18, new mothers and those on income related benefits. (These exemptions cover 25 per cent. of all adult treatments provided by the NHS);

simpler, for both patients and dentists, moving from 400 individual charges to three price bands; and

clearer, so that patients know how much they are being charged and what treatment they will receive for their money on the NHS.

The new system will also provide good oral health for patients and reduce the burdens of administering the dental charge system for dentists. It will not increase the proportion of revenue raised from patients' charges.

Today I am launching a three-month public consultation process on the draft regulations for the new patient charges system. The new arrangements will apply throughout England.

I am placing copies of the consultation document in the Library. During October, we will analyse the responses to this consultation. Before the Christmas recess, draft regulations will be presented to both Houses for affirmative resolution. The new system will come into effect in April 2006.

Alongside the proposed changes to NHS charges, I will be publishing an outline of a new contract for NHS dentists. This will encourage the promotion of good oral health and pay dentists for the overall service they provide to patients, rather than on a "fee for service" basis. I will shortly be making available the draft regulations on these new contractual arrangements. Before laying the regulations before Parliament, we will be discussing their content with the profession, NHS management and other key stakeholders—so that effective, workable local contracts can be agreed in order to deliver our commitment to modernise the general dental services (GDS) contract by April 2006. The regulations will include important changes to the current terms of service including compliance with recent guidelines from the National Institute for Clinical Excellence on recall intervals for patients.

Both the new system of patient charges and the new contract for dentists build on the steps we have already taken to improve dental care for NHS patients, including investing £368 million in dental services in England. In the last six months:

We have recruited the equivalent of 849 dentists towards our target of recruiting the equivalent of 1,000 by October 2005. This has been achieved through domestic and international recruitment and making available additional capacity from existing dentists to NHS patients.

Alongside this, we are funding 170 extra training places for dentists in England—a 25 per cent. increase compared with 2004–05, supported by capital investment of £80 million over four years to improve facilities in dental schools.

The NHS locally has been working hard to recruit dentists and the "Keeping in Touch" scheme is supporting dentists back to practise after a career break.

We have also speeded up the process for people waiting to take the international qualifying exam (IQE), which enables dentists from non-EU countries to practise in England. One hundred and ninety-nine candidates passed the IQE in 2004 compared with 81 in 2003.

PDS pilots have expanded from 3,500 dentists in 1,300 dental practices to over 6,000 dentists in 2,200 practices. The proportion of dentists now in PDS is 30 per cent. These dentists are enjoying new ways of working that are also proving popular with patients.

Taken together, these actions will improve both the short and longer-term supply of dentists for the NHS.

Against the background of these developments, we have been reviewing the position of PDS contracts. The new ways of working in PDS have benefited patients and dentists alike and from next April will be available to all dentists under the new GDS contract. I have therefore decided that it is best for most of those dentists who have not already moved across to a new contract to do so next April through the new GDS, rather than in piecemeal fashion between now and then. In this way, we can ensure that the lessons of best practice in PDS have been fully learned and that we obtain value for money for the taxpayer under the new GDS contract.

We will be talking to key stakeholders about these developments. The Department of Health will process applications which it has already received and a number of other exceptional applications between now and next April. Significant numbers of dentists will have moved across to PDS before April 2006. However, the majority will still need to transfer to new contractual arrangements at that point. We are looking to primary

care trusts to engage with those dentists in the coming months and secure their commitment to NHS dentistry under the reformed system.

I can now confirm that the date for full implementation of these dental reforms will be 1 April 2006.

## NORTHERN IRELAND

### Fourth Report by Justice Oversight Commissioner

**The Secretary of State for Northern Ireland (Mr. Peter Hain):** The Government has received and welcomed the fourth report from the Justice Oversight Commissioner, the Rt. Hon. The Lord Clyde, on the progress achieved in implementing the recommendations of the Review of the Criminal Justice System in Northern Ireland. Consistent with his terms of reference, the report was submitted to the Attorney-General, Bridget Prentice, Minister for the Northern Ireland Court Service, and me in June.

Lord Clyde concludes that the overall picture in recent months is one of major advance. This included, amongst other things, the establishment of the new Public Prosecution Service, the creation of an independent Judicial Appointments Commission and the appointment of new lay magistrates. Lord Clyde commends the significant advances made during the last six months and states that this achievement is to the credit and congratulations of all the criminal justice agencies that have contributed to the progress. The Government warmly endorses these conclusions.

Copies of the Commissioner's report have been placed in the Library.

## TRADE AND INDUSTRY

### National Minimum Wage: Low Pay Commission Remit and Enforcement Initiatives

**The Parliamentary Under-Secretary of State for Trade and Industry (Mr. Gerry Sutcliffe):** I am pleased to announce that the Government has today written to the Low Pay Commission setting out the terms of reference for their 2006 Report.

The Commission is asked in particular to:

consider whether the October 2006 upratings of the adult and development rates recommended in their 2005 Report remain appropriate in the light of economic circumstances and the other factors identified as relevant in that Report, and if not make any recommendations for change;

review the level of the 16–17 year old rate, keeping in mind the position of the youth labour market and the incentives for young people to participate in education and training;

review the operation of the accommodation offset and if appropriate make recommendations for any changes needed to the regulations; and

review the treatment of benefits in kind, including where those benefits are offered as part of a salary sacrifice arrangement.

The Government will review the position on the older workers' Development Rate and the way the exemption applies to older apprentices, working closely with the Commission, in good time for these issues to be addressed—if appropriate—in the forthcoming age discrimination regulations.

The Government has asked the Commission to report to the Prime Minister and the Secretary of State for Trade and Industry by the end of February 2006. Copies of the terms of reference have been placed in the Libraries of both Houses.

I am also pleased to announce that the Government has appointed Heather Wakefield of Unison as a new employee member of the Commission. I would like to welcome Heather to the Commission and also take this opportunity to pass on my thanks to Baroness Margaret Prosser for her contribution in this post over the last five years.

### Review of Sustainable Construction

**The Minister for Industry and the Regions (Alun Michael):** I am today launching a review of the Government's strategy for sustainable construction. The current strategy was developed in the late 1990s and published by the then Department of the Environment, Transport and the Regions in 2000. Since then there have been significant policy developments relating to construction that are not reflected in this strategy. The purpose of reviewing the strategy is to provide a framework to guide future Government policies where they are relevant to construction. It will focus on the principle of Sustainable Development to which the Government as a whole is signed up.

Sustainable Development involves balancing and integrating the economic, social and environmental considerations that are relevant to any policy or decision. The review will indicate how, under this umbrella of sustainable development, Government and industry are responding to the challenges of sustainable construction through a sustainable, innovative and productive economy that delivers high levels of employment; and a just society that promotes social inclusion, sustainable communities and personal wellbeing. It will also set out how this is being done in ways that protect and enhance the physical and natural environment, and use resources and energy as efficiently as possible.

I expect the review to be complete and published by spring 2006.

## TRANSPORT

### Crossrail—Responses to the Consultation on the Environmental Statement

**The Parliamentary Under-Secretary of State for Transport (Derek Twigg):** On 23 May the Secretary of State announced that our invitation to the public of 22 February 2005 to comment on the Crossrail Environmental Statement was to be extended to 10 June.

In accordance with our commitment to present to the House and publish all comments received, we are publishing today a Command Paper Responses to the Government's Consultation on the Crossrail Bill Environmental Statement.

Copies of the report are being placed today in the Library of the House. The Paper can also be found on the Department for Transport website at www.dft.gov.uk

A Supplementary Environmental Statement (SES) was published on 26 May. The Department for Transport have invited comments on the SES, and those should be submitted by 8 July 2005. Comments on the SES should be sent to Tim Neate, Consultation Manager, Major Projects Division 3, Zone 2/08, 76 Marsham Street, London, SWIP 4DR (e-mail: crossrail@dft.gsi.gov.uk). All comments received will be presented to Parliament and published.

## WORK AND PENSIONS

### Annual Report by the President of Appeal Tribunals 2004–05

**The Parliamentary Under-Secretary of State for Work and Pensions (Mrs. Anne McGuire):** We are pleased to publish today the fifth report by the President of appeal tribunals on the standard of decisions made on behalf of the Secretary of State in cases which come before appeal tribunals. The major reasons given for appeal tribunals overturning or amending decisions were because new evidence was produced at the hearing or the tribunal took a different view of the same evidence. The President maintains the view that an improvement in the attendance of Presenting Officers at tribunal hearings would provide the Department with immediate feedback on the standards of decision making.

The President has acknowledged there has been an improvement in the way decision makers weigh and view the evidence available to them but the problem remains that that most decisions are overturned because additional evidence is produced at the hearing.

The President has identified three areas he thinks the agencies need to address; pre-empting the need for additional evidence, the weighing and manner in which medical evidence is used and the quality and content of medical reports. We welcome the President's report which provides an independent view of the standard of Secretary of State decision making in cases coming to the appeal tribunal.

Copies of the report have been placed in the Library

# Written Ministerial Statements

*Tuesday 12 July 2005*

## TREASURY

### ECOFIN

**The Chancellor of the Exchequer (Mr. Gordon Brown):** I will chair the first Economic and Financial Affairs Council (ECOFIN) of the UK presidency on 12 July 2005. Items on the agenda are:

The UK work programme of the ECOFIN Council, which outlines the UK Government's priorities for ECOFIN over the UK presidency, including provisional ECOFIN agendas—and as part of which Ministers will discuss the full and rapid implementation of the EU action plan against terrorism. Copies of the work programme have been placed in the Libraries of both Houses;

Financing for development, where Ministers continue to discuss how best to deliver the resources necessary to meet the millennium development goals, ahead of the September UN summit;

Economic regeneration of the West Bank and the Gaza Strip, where the Council will consider options for EU support at an historic time for the Middle East Peace Process;

EC budget: roadmap to an integrated control framework, where Commissioner Kallas will present his plans on financial management of the EC budget; and

Implementation of the Stability and Growth Pact, where Council will consider an opinion on the stability programme of Portugal. ECOFIN will then discuss a Council decision under Article 104(6) and Council recommendation under Article 104(7) on the excessive deficit procedure for Italy.

I will also address the Economic and Monetary Affairs Committee of the European Parliament.

## CONSTITUTIONAL AFFAIRS

### Legal Services Ombudsman/Legal Services Complaints Commissioner

**The Parliamentary Under-Secretary of State for Constitutional Affairs (Bridget Prentice):** Yesterday, the legal services ombudsman laid the fourteenth annual report and copies have been placed in the Libraries of both Houses.

Yesterday, the legal services complaints commissioner laid the first annual report, and copies have been placed in the Libraries of both Houses.

## DEFENCE

### Defence Select Committee Reports (Government Responses)

**The Minister of State, Ministry of Defence (Mr. Adam Ingram):** The Government have today published by Command Paper their responses to the Defence Committee's reports on Duty of Care and the Armed Forces Bill. Copies of both responses have been placed in the Library of the House.

We take responsibilities for recruits extremely seriously and have carefully considered the Committee's recommendations, together with those of the adult learning inspectorate in their report "Safer Training" which identified a number of common themes.

Our priority is to deliver cultural change within the training organisation and create a regime that values trainees as individuals where responsibility for their welfare is accepted at all levels. We have committed ourselves to a longer term partnership with the ALI who will continue to undertake inspections of our training establishments, the results of which will assist us in ensuring a process of continuous improvement. We have also recently signed an agreement with the Equal Opportunities Commission setting out a range of measures to prevent and deal with sexual harassment in the armed forces, which will be monitored by the Commission.

A comprehensive redress procedure already exists whereby complaints can be taken higher up the chain of command, and support is available from outside the chain of command for those who need it. I accept, however, that there is a case for introducing an independent element to the complaints system. We are considering this further ahead of the introduction of the Armed Forces Bill planned for later this year and will bring forward proposals at that time.

The Committee recommended that we consider raising the recruiting age for all three services to 18. However, the services need to attract those under 18 in order to compete effectively in an increasingly competitive employment market and any move to increase the minimum recruiting age would have an acute impact on the Services' ability to meet their recruiting targets and hence operational commitments. By recruiting from this age group, the services provide valuable and constructive training and employment to many young people.

The Government welcome the Committee's report on the forthcoming Armed Forces Bill as part of an ongoing process of pre-legislative scrutiny. The Bill is due to be introduced towards the end of the year. The Government's response to the Committee's specific recommendations must be seen against the background of the requirement for a separate system of service law, which is fair, consistent and expeditious. We believe such a system is vital to the operational effectiveness of the armed forces and particularly welcome the Committee's acknowledgement of this point in its report.

## FOREIGN AND COMMONWEALTH AFFAIRS

### British Council

**The Secretary of State for Foreign and Commonwealth Affairs (Mr. Jack Straw):** The British Council, although not a Government Department, receives a substantial grant-in-aid from the Foreign and Commonwealth Office. The Council regularly organises or sponsors exhibitions overseas of works of art loaned from National Galleries and private collections in the United Kingdom. It provides certain assurances or guarantees in respect of loss or damage while these works are on loan.

In the six months ending on 30 March 2005, the British Council provided such assurances to eight national lenders and undertakings to 85 private lenders. The value of the contingent liabilities outstanding on 30 March 2005 in respect of private lenders was £18,830,698. No liabilities to National Galleries existed at that date.

## HEALTH

### Human Tissue Act

**The Minister of State, Department of Health (Ms Rosie Winterton):** A consultation document for regulations to be made under the Human Tissue Act 2004 has been published today. Copies of the consultation document have been placed in the Library and on the Department's website at:

www.dh.gov.uk/Consultations/LiveConsultations/fs/en

## PRIME MINISTER

### Intelligence and Security Committee

**The Prime Minister (Mr. Tony Blair):** Following appropriate consultation and in accordance with section 10 of the Intelligence and Security Act 1994, I have appointed the following as members of the Intelligence and Security Committee:

The right hon. Paul Murphy MP (Chair)
Ben Chapman MP
George Howarth MP
Dari Taylor MP
The Baroness Ramsay of Cartvale
The right hon. Michael Mates MP
The right hon. James Arbuthnot MP
Mr. Richard Ottaway MP
The right hon. Alan Beith MP

## TRADE AND INDUSTRY

### Employment Tribunals Service 2004–05 (Performance Targets)

**The Parliamentary Under-Secretary of State for Trade and Industry (Mr. Gerry Sutcliffe):** The Employment Tribunals Service has published its annual report and accounts for 2004–05 today. Copies have been laid before Parliament and will be placed on the ETS website at www.ets.gov.uk.

In 2004–05, the Employment Tribunals Service met and exceeded the following targets:

*Quality*

75 per cent. of single employment tribunal cases to a first hearing within 26 weeks of receipt

Minimum to be achieved by all offices in relation to above target: 65 per cent.

85 per cent. of employment tribunal decisions issued within four weeks of the final hearing

85 per cent. of employment tribunal users satisfied with the service offered by ETS

75 per cent. of appeals to EAT to a first hearing within 26 weeks of receipt

*Efficiency*

3 per cent. real terms reduction in employment tribunal administrative unit costs

In addition to these key targets, the ETS also met the following targets:

*Finance*

Pay 100 per cent. of invoices within 30 days of receipt of goods or services or a valid invoice, whichever is the later

*Questions delegated to the chief executive*

Reply within 10 working days to all letters from Members of Parliament delegated for the chief executive's reply.

# Written Ministerial Statements

*Wednesday 13 July 2005*

## TREASURY

### Cash Ratio Deposits

**The Chief Secretary to the Treasury (Mr. Des Browne):** Under the cash ratio deposit (CRD) scheme, banks and building societies place non-interest bearing deposits at the Bank of England. The Bank invests these deposits and uses the income earned to fund the costs of the Bank's sterling liquidity, monetary policy and financial stability operations, which benefit sterling deposit-takers. The Bank of England Act 1998 placed the scheme on a statutory footing with effect from 1 June 1998.

As a result of significant changes the Bank of England will make to its operations in sterling money markets from next year, in particular the introduction of remunerated voluntary deposits which banks and building societies will be able to place with the Bank, the Treasury proposes to amend the definition of eligible liabilities for CRDs.

These proposed amendments principally seek to ensure that voluntary deposits would not count as an offset within the calculation of eligible liabilities on which CRDs are based thereby avoiding an unnecessary reduction in the Bank's CRD income.

The proposal requires a change to secondary legislation under the Bank of England Act 1998 and also requires the Treasury to consult those who are likely to be materially affected by the change and other persons it sees fit. This consultation has begun as of today and will conclude at the end of September.

## CONSTITUTIONAL AFFAIRS

### Judicial Diversity

**The Parliamentary Under-Secretary of State for Constitutional Affairs (Bridget Prentice):** My right hon. and noble Friend, the Secretary of State and Lord Chancellor, Lord Falconer of Thoroton, has made the following written ministerial statement in the other place today, 13 July 2005:

> "I am announcing today a number of steps I am taking, as part of my judicial diversity programme, to increase the diversity of the judiciary in England and Wales.
>
> It is critical that the judiciary is reflective of the society it serves, in order that the public can have full confidence in the justice system. Judicial diversity is a priority because it makes a real and positive difference to the administration of justice. It means harnessing the talent and ability of all those who would make good judges if they were able or willing to apply, enabling us to be sure that the best are being appointed. It will enable every person with the right qualifications and qualities to be certain that they have an equal opportunity to be appointed on merit, whatever their background. It will also assure the public that the judges have a real understanding of the problems facing people from all sectors of society with whom they come into contact.
>
> I have therefore decided to legislate as soon as parliamentary time allows to broaden the pool of those eligible for judicial appointment. The legislation will amend the eligibility requirements so that fellows of the Institute of Legal Executives and registered Patent Agents and Trade Mark Attorneys, as well as barristers and solicitors, will in future be able apply for appointment for appropriate judicial posts (i.e. those district bench and tribunal-level posts for which their skills and experience particularly fit them; or specialist intellectual property appointments in the Patents Court, Patents County Court and specialist tribunals, in the case of the intellectual property practitioners). There will also be a power for the Lord Chancellor, after consultation with the Lord Chief Justice and the Judicial Appointments Commission, to amend by secondary legislation the qualifications needed for particular judicial offices in order to widen eligibility.
>
> After considering a range of views on this subject, I have reached the conclusion that the current statutory eligibility entitlement has the disadvantages of being both too restrictive (because it is unnecessarily long) and insufficiently precise (because time elapsed since qualification is not a meaningful measure of an individual's experience or skills). Indeed, under the law as it stands, it is unnecessary ever to have exercised rights of audience in order to become eligible for judicial appointments. The current statutory requirement will be replaced with a requirement for a specified number of years' post-qualification legal experience. The specified number of years will be reduced from seven or ten (according to the judicial post concerned) to five or seven.
>
> Magistrates are vital to the operation of the justice system. The Government value the work which magistrates do, and we will be bringing forward proposals later this year on supporting magistrates more fully. In line with that approach, I want to make a particular change in terms of improving judicial diversity. In recognition of the significant court experience gained by magistrates when sitting, I am also making a limited exception to the established policy that no-one is appointed to salaried judicial office without first having served in a fee-paid post. In future, those barristers and solicitors who are also justices of the peace will be able to count their magistrates sittings in lieu of fee-paid service when they apply for a salaried judicial appointment. This change will not require legislation. We will be consulting further on its detailed implementation.
>
> The eligibility changes will enable a wider range of people, with the appropriate skills and experience, to apply for judicial appointment. These proposals are about eligibility to apply for judicial office, which is of course separate from the question of appointment. Those who do apply will face a rigorous, competitive, competence-based selection process. Appointments are made, and will continue to be made, solely on merit.
>
> I am also taking other action to encourage greater diversity in the judiciary. My Department is working to raise awareness of the possibility of judicial appointment and the range of posts available by, for example, extending the judicial work-shadowing scheme to include district judges (magistrates courts) as well as circuit judges and district judges; advertising widely in the press and on websites; sending out regular e-newsletters; organising events aimed at specific under-represented groups (the first of which, a highly successful event aimed at women, took place in Manchester on 28 and 29 June); and piloting a scheme to encourage individuals to apply for appointment.

My Department is continuing to work on the other components of the judicial diversity programme, and I expect to make a further announcement in the autumn. I believe that these are important initiatives which, together, will make a real contribution to greater diversity in the judiciary, and will set a new and more flexible framework which will help the Judicial Appointments Commission from next year in widening the range of people who apply for judicial appointments".

## CULTURE, MEDIA AND SPORT

### Awards for All Grants

**The Secretary of State for Culture, Media and Sport (Tessa Jowell):** Following the discovery by the Big Lottery Fund of irregularities in certain grant applications in September 2004, the investigations team of the fund, the police and the Charity Commission have conducted extensive investigations into suspected multiple application fraud. Lottery funds were safeguarded by immediately suspending payments on suspect grants.

A number of arrests have been made and both criminal and civil proceedings are likely to follow. It would not be appropriate, therefore, for me to describe in detail the nature of the alleged fraud. However, I can say that what is suspected is a systematic fraud targeting a number of charitable and public grant makers, including the Awards for All programme operated by the former community fund on behalf of six lottery distributors.

Although the scale of the suspected fraud is uncertain and will not be clear until the end of the investigation, I have now been provided with sufficient financial information to make a statement to Parliament.

The current best estimate of the amount of grants at risk awarded through the Awards for All programme on behalf of each distributor is as follows:

| | |
|---|---|
| Arts Council England | £297,000 |
| Community fund | £1,005,000 |
| Heritage Lottery fund | £202,000 |
| Millennium Commission | £21,000 |
| New Opportunities fund | £584,000 |
| Sport England | £498,000 |
| Total | £2,607,000 |

The Big Lottery fund has reviewed its systems and put in place additional controls which will significantly reduce the risk of similar fraud in future. The fund will strike an appropriate balance between preventing abuse of lottery funds and running an application process which minimises delays and bureaucracy for small community organisations seeking funding.

The knowledge gained in this investigation is being shared with other funders and the Charity Commission.

## DEFENCE

### Met Office

**The Parliamentary Under-Secretary of State for Defence (Mr. Don Touhig):** The key targets have been set for the chief executive of the Met Office for the financial year 2005–06. The targets are designed to drive change to create an environment for growth, whilst delivering value for money. Further information can be found in the Met Office's annual report and accounts which will be published by September 2005.

*Key Performance Target 1. Return on Capital Employed.*

To achieve a Return on Capital Employed of at least 3.5 per cent.

*Key Performance Target 2. Forecast Accuracy.*

To demonstrate an improvement of 1 per cent. in the underpinning numerical weather prediction capability. And to achieve minimum levels of accuracy on next-day forecasts for a representative selection of UK cities as follows: maximum temperature (83 per cent.), minimum temperature (78 per cent.), and precipitation (85.5 per cent.).

*Key Performance Target 3. Support to Wider Government Goals.*

As a basis for delivering future efficiencies, to define in costed-output terms the services to be provided to key central Government Departments; and to agree formal customer-supplier agreements with each such Department. In addition, to pilot with MOD a new incentive pricing mechanism which allows the benefits of cost-reductions to be shared between both organisations.

*Key Performance Target 4. Profitability.*

To achieve a profit contribution of £2.8 million from the Met Office's work for commercial customers.

*Key Performance Target 5. Our people.*

As a baseline improving the management of people, to establish a benchmark for staff perception of the Met Office leadership, and the level of satisfaction with the implementation of the corporate plan.

### Far East Prisoners of War

**The Parliamentary Under-Secretary of State for Defence (Mr. Don Touhig):** On 12 July, the Parliamentary Commissioner for Administration laid before Parliament her special report on the complaint of Professor Hayward in respect of the far east prisoner of war and civilian internee ex-gratia payment scheme. The report makes a number of criticisms of the Government's handling of the scheme, a number of which are accepted but some of which we reject.

The Commissioner's report is critical of the way the scheme was introduced and announced. This criticism is accepted. A considerable amount of work had been undertaken on scoping the scheme before its inception but, because all parties involved wished the payments to be made as quickly as possible due to the age of potential claimants, the scheme was announced before all the criteria governing eligibility had been fully developed.

The wording used in this House on 7 November 2000 in announcing which former civilian internees would be covered by the scheme was "British civilians who were interned". This was clarified in March 2001 to allow decisions to be made on claims where the applicability of the original criteria was unclear. However, no clear announcement was made at this time of the birthlink eligibility criterion for civilian internees. The words used in November 2000 led Professor Hayward to think that, as a former British civilian internee, he was covered by

the scheme. This expectation was ended when his claim was subsequently rejected as he did not meet the birthlink criterion.

We accept that the way the scheme was introduced and announced led to distress for Professor Hayward himself and for some other people in a similar position. There was no intention to cause such distress but we accept that it is real. The fact that this occurred is profoundly regretted and I would like to take this opportunity to apologise for it.

The people to whom this apology is made are those who:

were held by the Japanese during the second world war in the far east as British civilian internees; and

submitted their applications between the announcement of the Scheme on 7 November 2000 and the public announcement of the clarified criteria on 11 July 2001; and

whose claim was rejected because they (or their deceased spouse who was interned) was not born in the UK and did not have a parent or grandparent born here; and

whose claim met all the other relevant criteria.

I sincerely apologise to these people and will now be examining whether I should express this apology in a tangible form and how most quickly to identify and contact those affected.

The Parliamentary Commissioner made a number of criticisms and recommendations on other aspects of the Government's handling of the scheme, notably relating to the birthlink criterion itself, which we do not accept. This criterion, on which Professor Hayward's application was rejected, is the subject of judicial review in which judgment was handed down on 7 July. This judgment is now being considered and it would not be appropriate to make further comment until the final outcome of the case is known. However, pending this outcome, the ex-gratia payment scheme has been suspended in relation to former civilian internees and their surviving spouses: claims may continue to be submitted but none will be considered meanwhile.

### Defence Science and Technology Laboratory

**The Minister of State, Ministry of Defence (Mr. Adam Ingram):** The chief executive of the defence science and technology laboratory (Dstl) has been set the following key targets for the financial year 2005–06:

Maintain and by the end of a three-year period show an increase in score for scientific and engineering capability in the technical benchmarking exercise from 67 per cent. in 2002–03 to 72 per cent. in 2005–06—moderated by external assessors agreed with MOD's chief scientific adviser.

Identify and agree with MOD's chief scientific adviser the top 10 Dstl capability needs, their alignment with the future programme and the required MOD funding by March 2006.

By the end of a three-year period show a linear improvement of at least 1.5 per cent. on the financial year 2004-05 customer satisfaction score of 75.4 per cent. for service provision.

Implement a process for identifying and publicising Dstl's major achievements during the year.

Achieve health and safety executive approval of the category four microbiology containment facility by 31 October 2005.

Define the scope, structure and funding requirements of a new defence and security research and development centre and, subject to new funding being available from customers, prepare a specific proposal for its creation.

Achieve planned progress to meet the completion date of 2008 for the transfer of Dstl onto three core sites at Porton Down, Portsdown West and Fort Halstead. The key milestones for 2005–06 are: appointment of the preferred bidder (August 2005); negotiate with the preferred bidder a reduction in facilities management costs for Dstl of at least 15 per cent. from August 2006; sign contract (March 2006).

By December 2005, complete the detailed design and build phases of the new integrated corporate applications system (iCAS) that will deliver all Dstl's business information requirements from 2006–07.

Maintain the average charge rate for manpower for 2005–06 and beyond below that for 2001–02 uplifted by GDP deflator.

Achieve a ROCE of at least 3.5 per cent. averaged over the period 2004–05 to 2008–09 and a MOD dividend of £3 million in 2005–06.

## DEPUTY PRIME MINISTER

### Local Government Pension Scheme

**The Minister for Local Government (Mr. Phil Woolas):** In light of the statutory consultation exercise conducted between 1 April and 31 May, it has been concluded that it would be appropriate to revoke the Local Government Pension Scheme (Amendment) (No.2) Regulations 2004. The Local Government Pension Scheme (Amendment) Regulations 2005 which make the revocation will have retrospective effect from 1 April 2005 and will come into force on 3 August 2005.

As required by the statutes which govern the scheme's provisions, a statutory consultation exercise has been undertaken with interested parties in England and Wales. Careful consideration has been given to the representations submitted in response to that consultation exercise. Many of those stakeholders who opposed revocation raised the question of costs and how taking such a step might impact on the scheme, and then create fresh pressures on local authorities' budgets if no suitable mitigating measures were put in place. That point is recognised and the Government fully intend to deal with it.

Representatives of the local government employers and trades unions have been invited by the Deputy Prime Minister to develop realistic and costed measures by the autumn to fully meet any costs arising from the decision to revoke the Local Government Pension Scheme (Amendment) (No.2) Regulations 2004.

To assist in that process and, as a measure to ensure the continued stability of the Scheme, an amendment is also being made by the Local Government Pension Scheme (Amendment) Regulations 2005 to provide each LGPS administering authority the vires to request an interim valuation of their pension fund, as at 31 March 2005. In the meantime, and as part of that process, LGPS pension funds, funding strategy statements will be undergoing review, as currently required by the scheme's regulations, and appropriate changes made to their deficit recovery periods can be taken into account by their actuaries.

Taking account of these costing exercises, the Deputy Prime Minister intends to ensure that his statutory responsibilities for the on-going solvency of the scheme are fully met. New regulations will identify the way forward to ensure that the local government pension scheme funds remain solvent, without additional calls

on employers' contributions, or on Government. Consultations on these necessary further regulations to address the costs of revocation will take place in time for them to take effect from 1 April 2006.

The framework now provided by the LGPS tri-partite committee will ensure effective and co-ordinated progress on the development of the scheme. It is imperative for its affordability and sustainability that the effect of revocation is managed prudently and with regard to the need to ensure on-going solvency and viability. All the stakeholders in England and Wales with an interest in the scheme will wish to work to that end.

## FOREIGN AND COMMONWEALTH AFFAIRS

### Parliamentary Scrutiny (EU Business)

**The Minister for Europe (Mr. Douglas Alexander):** The Government have decided upon a new approach to provide better and more timely information to both Parliament and the European Scrutiny Committees about the agendas and outcomes of EU Council of Ministers meetings.

The new system should promote a greater transparency of EU business within both Houses. The principal elements of the new system, which will take immediate effect in order to capture the first Councils of our presidency, are:

Scrutiny focused material will, as before, continue to be provided to the clerks of the two Scrutiny Committees as early as possible before Council of Ministers meetings;

Written ministerial statements will be provided to Parliament no later than the day before a formal Council to provide as much information about the items on the agenda, why they are on the agenda, and what the UK as holders of the EU presidency hopes the Council will achieve. After the presidency, the statements will revert to setting out the national stance on each item. Written statements will not be produced before informal Councils. A copy of the statement will be sent to the Chairmen of both Scrutiny Committees;

Written ministerial statements will be produced within five working days of each Council. During the UK's presidency, statements on formal Councils will set out what the UK as presidency has delivered, and will replace, in the Commons and Lords respectively, the current system involving a parliamentary question and ministerial letter. Only after the presidency will the statements revert to setting out what the UK stance was in discussions. When reporting after an informal Council the statement will be of a more general nature and will not highlight member states' positions, including the UK's. A copy of each statement will be sent to the Chairmen of each Scrutiny Committee;

During parliamentary recesses, Ministers will revert to writing to the Chairmen of both Committees in place of written statements and arrange for copies of the letters to be sent to the Libraries of both Houses.

## HEALTH

### Draft Mental Health Bill

**The Minister of State, Department of Health (Ms Rosie Winterton):** The Government response [Cm 6624] to the report of the Joint Committee on the Draft Mental Health Bill [HL paper 79–1, HC 95–1] published on 23 March 2005 has been published today. Copies are available in the Library.

## HOUSE OF COMMONS

### Security Arrangements (Palace of Westminster)

**The Leader of the House of Commons (Mr. Geoffrey Hoon):** Following the advice of the security service and the Metropolitan Police given in the joint review of security at the Palace of Westminster, the concrete blockers around the perimeter will shortly be replaced with more effective steel barriers. Current vehicle access arrangements will remain unchanged. These measures were approved by the Joint Committee on Security on 4 July, and are made with the agreement of Mr. Speaker.

Further related measures will be taken during the summer recess. By the time the House returns in October, entry to Peer's car park and Black Rod's Garden will be possible only from the direction of Parliamentary square. Vehicles exiting these areas will only be able to turn left towards Lambeth bridge. Pedestrian access will remain unaffected. These measures will significantly enhance Parliament's security.

## ATTORNEY-GENERAL

### Crown Prosecution Service

**The Solicitor-General (Mr. Mike O'Brien):** The annual report of the Crown Prosecution Service has been published and was laid before Parliament yesterday. Copies have been placed in the Libraries of both Houses.

## TRADE AND INDUSTRY

### EU Telecom Council

**The Minister for Industry and the Regions (Alun Michael):** I represented the UK at the EU Telecoms Council, which is part of the Transport, Telecommunications and Energy Council, in Luxembourg on 27 June, when the Council considered two issues of interest to the UK. These were the Commission's communication on the i2010 strategy and the world summit on the information society (WSIS).

Commissioner Reding presented her i2010 communication on future policy for information and communication technologies (ICT) in the context of the re-launched Lisbon agenda. She summarised the three main themes of the i2010 strategy as the creation of an open and competitive market for the digital economy, greater investment in ICT R and D and e-inclusion policies. She also emphasised that much of the i2010 strategy is for implementation at the national level and is covered by the integrated guidelines for the national reform plans which will be put forward in October.

In a full round table, all member states endorsed the Commission's approach on the i2010 strategy, with many emphasising that ICT was fundamental to competitiveness and job creation, and others endorsing the explicit linkage to Lisbon through the mechanism of the national reform plans. One member state expressed concerns about the scope of the i2010 which includes broadcasting. A number of member states noted the dependence of the ICT R&D budget on overall budgetary discussions. Two member states also noted the need for a high-level steering mechanism to ensure proactive follow-up to the goals of the i2010 strategy. For the UK, I emphasised the importance of implementing the existing regulatory framework in order to support open and competitive markets and the need to encourage new technologies and services in order to support the re-launched Lisbon agenda.

In discussions of the world summit on the information society (WSIS), all member states emphasised the importance of the EU speaking with one voice at the summit in Tunis in November, a view which was strongly endorsed by the Commission.

There was one outstanding point of discussion on the wording of the proposed Council conclusions. These conclusions will set out the EU's approach in the final preparatory phase of the summit. One member state, with some support from others, was keen to see a reference to an international entity which would oversee the existing public-private internet governance structures in the US. Compromise wording was agreed following constructive co-operation between the UK and this member state in the margins of the Council meeting. This wording removed references to a specific entity while reflecting shared views on the relevance of existing international organisations and the need for a bottom-up public/private partnership with scope for governmental input.

## TRANSPORT

### Passenger and Goods Vehicle (Recording Equipment) Regulations 2005

**The Minister of State, Department for Transport (Dr. Stephen Ladyman):** The Passenger and Goods Vehicle (Recording Equipment) Regulations 2005 were laid before Parliament today and will come into force on 5 August 2005. These new regulations will amend existing arrangements for the enforcement of European drivers' hours rules in order to:

> "reflect the imminent introduction of new technology for recording drivers' activities—the digital tachograph—as provided for by European Regulation 2135/98/EC, and,
>
> tighten up existing powers in the light of experience."

To accompany the new regulations, we have also published a regulatory impact assessment. Copies have been placed in the Libraries of both Houses.

The new regulations will affect the operators and drivers of heavy commercial vehicles. They do not introduce any new drivers' hours limits and their effect on law abiding drivers and operators will be negligible. Indeed, such drivers and operators should benefit competitively from better enforcement against law-breakers.

The Government will review the new regulations and associated guidance in 12 to 18 months' time in the light of practical experience.

# Written Ministerial Statements

*Thursday 14 July 2005*

## TREASURY

### National Statistics

**The Financial Secretary to the Treasury (John Healey):** The National Statistics annual report for 2004–05 is being published and laid before the House today. Copies are available in the Libraries of both Houses. The report can also be obtained free on the National Statistics website.

## CABINET OFFICE

### Departmental Evidence and Response to Select Committees

**The Chancellor of the Duchy of Lancaster (Mr. John Hutton):** I have today placed in the Libraries of both Houses copies of updated guidance to officials from Government Departments and agencies on "Departmental Evidence and Response to Select Committees". The Government are grateful to the Liaison Committee for their contribution to the updated guidance.

## DEPUTY PRIME MINISTER

### Planning Inspectorate

**The Minister for Housing and Planning (Yvette Cooper):** I have today laid before the House a copy of the planning inspectorate's annual report and accounts for 2004–05. Copies of the report have been made available in the Libraries of both Houses.

The report gives an overview of the performance of the inspectorate and demonstrates the importance of a credible, accessible planning tribunal service which is open, transparent and impartial. It also highlights the ways in which it is contributing to the Government's planning reform agenda.

I have also agreed with Carwyn Jones that, for 2005–06, the Inspectorate's targets for its main areas of casework should remain unchanged.

## EDUCATION AND SKILLS

### New Maintenance Grant and Student Loan Rates

**The Minister for Higher Education and Lifelong Learning (Bill Rammell):** Following the outcome of our financial modelling, I am now able to confirm household income thresholds for the new maintenance grant, which is to be introduced to help low income students enter and continue in higher education from 2006–07. Those students with household income of £17,500 or less will receive the full £2,700 maintenance grant. Students with household income between £17,501 up to £37,425 will receive a partial grant. We therefore anticipate that around 30 per cent. of new, full-time students will qualify for the full £2,700 grant, with 50–55 per cent. qualifying for a full or partial grant in 2006–07. Furthermore, the element of the new grant which is to be paid in substitution for the maintenance loan has now been set at £1,200.

I can also confirm that student loan rates in the 2006–07 academic year will be as follows:

*Full year rates:*

Students living at home: £3,415

Students living away from home, in London: £6,170

Students living away from home, outside London: £4,405

*Final year rates:*

Students living at home: £3,085

Students living away from home, in London: £5,620

Students living away from home, outside London: £4,080

This honours the commitment on loan rates made to the House by my right hon. Friend the Member for Norwich South (Mr. Clarke), in his statement of 8 January 2004.

These arrangements will be enacted in Regulations which are expected to be laid before Parliament in January.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Laboratory Strategy

**The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Mr. Ben Bradshaw):** My noble Friend, the Lord Bach, has agreed to the future direction of DEFRA's laboratory strategy, which aims to deliver a long term sustainable future for DEFRA's laboratories: the Central Science Laboratory (CSL), the Veterinary Laboratories Agency (VLA) and the Centre for Environment, Fisheries and Aquaculture Science (CEFAS).

DEFRA's laboratories have an international reputation for excellence. They play an important role for DEFRA by providing scientific capacity and the evidence base for policy development. DEFRA will continue to rely on the support they provide, so it is important that the strategy delivers a sustainable future for their work. A new group, the "Laboratories Strategy Group" (LSG) has been formed to develop and oversee the programme of work necessary to take the strategy forward. The LSG is chaired by Lynton Barker (non executive) and reports to DEFRA's management board.

As part of the laboratory strategy, DEFRA is working with the Biotechnology and Biological Sciences Research Council (BBSRC) on a joint study to consider the future relationship between VLA and the Institute of Animal Health (IAH). Objectives of the study are to achieve financial sustainability, exploit synergies between the two organisations and ensure the continuation of critical research and other scientific services.

### Veterinary Medicines Directorate

**The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Mr. Ben Bradshaw):** The 2004–05 annual report and accounts for the Veterinary Medicines Directorate will be laid before Parliament today. Copies will be available in the Library of the House.

### Floods (Carlisle and the North)

**The Minister for Climate Change and the Environment (Mr. Elliot Morley):** I am pleased to place copies of the reports by the Environment Agency and that collated by the Government Office for the North-West in the Library of the House.

I welcome these reports on how the flooding in Carlisle and across the north of the country in January was handled. I hope that they will provide people in Carlisle in particular with a picture of how local services coped and the lessons they have taken away.

A major storm produced exceptional amounts of rain over a 36 hour period, leading to overtopping of defences and flooding of some 3,000 properties. Two lives were lost and many residents were evacuated. I had the opportunity to see for myself the floods' devastating effects.

These reports show how flooding came from both the rivers and from surface water routes. This combination can result from very heavy, localised rain falling over short periods of time—it was also a feature of recent flooding in North Yorkshire. In our new strategy for flood risk management, "Making Space for Water", we have announced our intention to undertake some integrated urban drainage pilots to investigate how these complex issues can be better managed in the future.

The conditions as experienced in January also make the provision of timely warnings extremely difficult, for example in some parts of Carlisle where flooding from surface water sources preceded overtopping of the river defences. Nevertheless, the Environment Agency is reviewing with other bodies involved what improvements can be made to warning systems.

For our part we are taking forward the recommendations in these reports on strengthening resilience to flooding events through improved cross government and agency co-ordination under a new flood emergencies capability programme, which will look at the key issues that local responders have identified as needing further attention. The reports identify a number of areas where the local emergency services and other responders can themselves build on the experiences of January this year and it is important that we should take on these lessons more widely, so building our overall capability for managing flood emergencies in the future.

It is also important that all services, utilities, business and householders who are at risk should do what they can to strengthen their resilience to flooding, especially as we are likely to see a greater frequency of such events in future years given the expected impact of climate change.

In addition, the Environment Agency has already announced plans to promote a flood defence scheme for Carlisle. The agency has revised the plans it had in mind before the flooding occurred in the light of the events of January, and start of work on the new defences is scheduled for spring 2006.

## NORTHERN IRELAND

### Life Sentence Review Commissioners and Sentence Review Commissioners

**The Secretary of State for Northern Ireland (Mr. Peter Hain):** I have today arranged for the annual reports of the Life Sentence Review Commissioners and the Sentence Review Commissioners to be laid in the House. Copies of the reports have been placed in the Libraries of both Houses.

### Police Ombudsman

**The Secretary of State for Northern Ireland (Mr. Peter Hain):** The police ombudsman for Northern Ireland's annual report for 2004–05 is published today. Copies will be available in the Libraries of both Houses.

### Performance Targets: Health and Social Services Estate Agency (Health Estates)

**The Parliamentary Under-Secretary of State for Northern Ireland (Mr. Shaun Woodward):** The targets, which have been set for 2005–06, are based on the strategic aims and objectives of the agency as set out in section 4 of its corporate and business plan. The targets are in line with the Department's policy of seeking to improve the service provided to the agency's clients in terms of both quality and value for money and I am satisfied that they present a demanding challenge for the agency. A copy of the corporate and business plan will be placed in the Libraries of both Houses.

The targets are as follows:

*Quality*

1. 95 per cent. of the service provided by the agency's client support staff to external clients to be regarded as satisfactory, of which 35 per cent. of the service to be regarded as either very good or excellent.
2. 95 per cent. of the service provided by the agency's project management staff to external clients to be regarded as satisfactory, of which 35 per cent. of the service to be regarded as either very good or excellent.
3. 95 per cent. of the service provided by the agency's trust consultancy support staff to external clients to be regarded as satisfactory, of which 35 per cent. of the service to be regarded as either very good or excellent.
4. 95 per cent. of the service provided by the agency's specialist engineering staff to external clients to be regarded as satisfactory, of which 35 per cent. of the service to be regarded as either very good or excellent.

*Throughput/Service Delivery*

5. Complete testing against health service guidance and relevant British and European standards and issue test reports to the authorised person in respect of 98 sterilisers and washer disinfectors by 31 March 2006, based on 98 machines in operation at 1 April 2005 and on a testing resource of four fully qualified decontamination testing staff being available over the target period.
6. Issue all medical device/equipment alerts with an "Immediate Action" level of urgency designation initiated by the Medicines and Healthcare products Regulatory

Agency (MHRA) within three working days on receipt of final MHRA alert (provided that no further consultation is involved).

7. Issue all medical device/equipment alerts with an "Action" level of urgency designation initiated by the Medicines and Healthcare products Regulatory Agency (MHRA) within five working days on receipt of final MHRA alert (provided that no further consultation is involved).

8. Develop and issue for consultation an environmental cleanliness strategy, cleaning specifications and an assessment tool by June 2005 and undertake an independent assessment of environmental cleanliness based on the cleaning specifications by October 2005.

*Financial Management*

9. Ensure that the agency lives within its running cost allocation for the year.

10. Demonstrate that the full costs of the agency are recouped, on a notional basis, through the service level agreement with the Department.

## SOLICITOR-GENERAL

### HM Crown Prosecution Service Inspectorate

**The Minister of State, Department for Constitutional Affairs (Ms Harriet Harman):** The annual report of HM Crown Prosecution Service Inspectorate has today been published and laid before Parliament. Copies have been placed in the Libraries of both Houses.

## TRADE AND INDUSTRY

### Draft Employment Equality (Age) Regulations 2006

**The Secretary of State for Trade and Industry (Alan Johnson):** Today I am launching our consultation on draft regulations that will for the first time outlaw age discrimination in employment and vocational training. The *Coming of Age* consultation will end on 17 October 2005. Subject to parliamentary approval we intend that the legislation should come into force on 1 October 2006, implementing the final strand of the European Employment Directive (Council Directive 2000/78/EC).

Age discrimination prevents people of all ages from realising their full potential in the workplace. This in turn prevents employers from getting the best performance out of their business and delivering the best service to their customers. We have consulted over a number of years on our plans for legislation in this area. We have said throughout that tackling age discrimination is good for business, good for individuals and good for society.

Age discrimination legislation has far-reaching consequences. It touches on every aspect of the employment relationship either directly when there are specific age-based practices, or indirectly when length of service is involved. It ranges over recruitment, promotion, pay, employment conditions, dismissal, retirement, and occupational pensions. We believe that the policies reflected in the draft Employment Equality (Age) Regulations ensure that individuals benefit from important new rights and opportunities, whilst allowing business to operate productively but fairly.

In December 2004 we announced how we would be implementing the legislation in relation to retirement ages. For many businesses this will require a considerable adjustment. Those that set their retirement age below the default age of 65 will have to justify it or change it. We announced also that employers would have a new duty to consider requests from employees to continue working longer. We are confident that this will have the same success as the existing right that parents have to request flexible working, and that it will further change the retirement culture in this country.

Retirement should not come as an unexpected surprise. The new duty to consider procedure, therefore, will include new requirements to facilitate planned retirement. Employers will be required to notify employees—at least six months in advance and in writing—of the intended date of retirement and that they can ask to work beyond it. This will avoid uncertainty over retirement and ensure that employees can consider their options in advance, allowing them to plan properly for what is a significant change in their lives.

However, growing numbers of firms are already successfully planning their work force without fixed retirement ages, and in the longer term the Government's aim is to move to a position where business does not need to rely on a default retirement age. In 2011 we will review whether the justification for having a default age of 65 still stands. As we said when we announced the retirement age decision last year, failing to provide for a default age could have adverse effects on occupational pensions and other benefits, and many businesses need it for work force planning purposes. We made it clear that the review will be firmly grounded in evidence. It will look at, among other things, the evidence on longevity, and employment patterns of older workers. If the evidence shows that we no longer need the default retirement age we will abolish it.

We will also extend employment rights by removing the current upper age limit for unfair dismissal and redundancy rights. This means that older workers will get the same rights to claim unfair dismissal or to receive a redundancy payment as younger workers. However, retirement will not constitute unfair dismissal if it is on or after 65 (or a lower retirement age, if justified) and the employer has followed the duty to consider procedure. We will also be taking steps to gauge stakeholder opinion on changes to the method of calculation of statutory redundancy payments.

Many rules in occupational pension schemes are age-based and necessary for their proper operation. The regulations will effectively exempt most age-related rules. Scheme managers will be able to retain age-related rules for which we have not made specific provision, provided they can objectively justify them. The aim is to ensure that age discrimination legislation does not undermine the provision of occupational pensions, or interfere unduly with their normal operation, whilst at the same time ensuring that unjustified age-related practices do not continue.

Length of service is often used as a criterion for pay, and for non-pay benefits. This could amount to indirect discrimination if some age groups were more likely to have the necessary length of service than others. Such an

approach to pay and other benefits is used widely to motivate staff, reward loyalty, and recognise experience. In those circumstances, therefore, such benefits are likely to be objectively justified. Our aim is, as far as possible, to ensure their continuation, while making plainly unjustified practices open to challenge. The regulations, therefore, provide for exemptions as far as possible—with a specific exemption for length of service requirements of five years or less, and a general provision for longer periods. Length of service requirements that mirror similar requirements in statutory schemes will also be allowed—for example, a contractual redundancy scheme based on length of service but with more generous entitlement than required by law.

An age-based approach in respect of other employment practices will be lawful only if the employer can satisfy the stiff test of objective justification. Decisions about recruitment, selection and promotion, for example, should normally be based on candidates' skills and abilities, but there might be exceptional circumstances when an employer can justify age requirements. The legislation will allow for this.

The *Coming of Age* consultation document that accompanies the draft regulations explains what the regulations will cover, why we have taken the approach that we have, and what the legislation will mean in practice. This will help businesses, providers of vocational training, and individuals to prepare for their new responsibilities and rights.

I have arranged for copies of the consultation paper and other related documents to be placed in the Libraries of both Houses.

## WORK AND PENSIONS

### Employment and Social Policy Ministers Meeting (Belfast)

**The Parliamentary Under-Secretary of State for Work and Pensions (James Plaskitt):** On 7 and 8 July, my right hon. Friend the Secretary of State for Work and Pensions hosted a meeting of EU employment and Social Policy Ministers in Belfast, to discuss how member states might raise employment levels and improve social inclusion. The event, which launched our six-month presidency of the Employment, Social Policy, Health and Consumer Affairs (ESPHCA) Council, used a mix of workshops, plenary sessions and visits to promote exchange of ideas and sharing of best practice.

My right hon. Friend stressed how Ministers, in the context of demographic change, had a shared interest in raising employment rates and improving social inclusion. This formed part of the wider debate on how to modernise the European social model. Ministers and the commissioner welcomed the opportunity to share best practice.

Ministers visited one of two sites in socially disadvantaged parts of Belfast: a jobs and benefits centre on the Shankill Road and the Springvale training centre. Ministers learnt about the practical steps the UK was taking to tackle the problems of unemployment and social exclusion. Ministers attended one of three parallel workshops looking at practical measures to raise employment levels and improve social inclusion for a particular target group: young people, older workers and the economically inactive.

In the workshop and plenary discussions there was general agreement on foundations of the European social model and with my right hon. Friend the Prime Minister's view that the social model needed to be modernised. There was also agreement about the importance of Ministers getting together to share best practice and committing to action at the European level.

As is customary, the meeting of Ministers was preceded on 7 July by a meeting between the Council Troika (Ministers from the current and next two presidencies, Austria and Finland), the social partners, the Commission and the European Parliament, which discussed the same theme. I deputised for my right hon. Friend the Secretary of State as chair at those discussions, which also voiced broad support for the Prime Minister's wish to modernise the European social model.

### Asbestos-related Diseases

**The Minister for Employment and Welfare Reform (Margaret Hodge):** The Industrial Injuries Advisory Council report (Cm 6553) has been published. After careful consideration I have accepted all the recommendations. Amending legislation will be laid before Parliament.

In brief the changes are as follows. In the case of Prescribed Disease D8 primary carcinoma of the lung the following easements are introduced:

Prescribed Disease D8 is extended to include lung cancer where no asbestosis is present but where there is evidence of substantial occupational exposure and the requirement to demonstrate pleural thickening is removed. Where the disease is diagnosed and the occupational criteria are met claims will be paid at 100 per cent. from the outset;

the diagnosis of diffuse pleural thickening for Prescribed Disease D9 is modified to make diagnosis easier.

The report has been placed in the Library, and copies are available to hon. Members from the Vote Office.

# Written Ministerial Statements

*Monday 18 July 2005*

## TREASURY

### Tax and Benefit Reference Manual

**The Paymaster General (Dawn Primarolo):** Copies of the 2005–06 edition of the Tax Benefit Reference Manual (TBRM) are today being deposited in the House of Commons Library.

HM Treasury publishes the TBRM annually. It is a technical manual detailing the tax and benefit system, describing both the current and historic regimes. There are also tables of time series covering tax and benefit rates, numbers of tax payers and benefit claimants, VAT and duty rates and the tax burden on specimen households.

## CABINET OFFICE

### Choice and Voice in the Reform of Public Services

**The Chancellor of the Duchy of Lancaster (Mr. John Hutton):** The Government have today published their response to the Public Administration Select Committee's report on choice, voice and the public services.

The Government welcome the Public Administration Select Committee's report and see the Committee's comment and recommendations as a valuable contribution to the debate on how public services can be further improved.

I am placing copies of the Government's response in the Library.

## DEFENCE

### Review Board for Government Contracts

**The Minister of State, Ministry of Defence (Mr. Adam Ingram):** The Government have accepted the findings of the Review Board for Government Contracts as detailed in their report of the 2005 annual review of the profit formula for non-competitive Government contracts. I will place a copy of the report in both Libraries of the House.

## DEPUTY PRIME MINISTER

### Planning

**The Minister for Housing and Planning (Yvette Cooper):** This statement announces three new planning policy documents which the Office of the Deputy Prime Minister (ODPM) is publishing today:

A policy consultation paper "Planning for Housing Provision" which sets out a proposed new approach to planning for housing provision, in response to recommendations in the "Barker review of housing supply" published in March 2004.

A consultation paper on a proposed new green belt direction, as foreshadowed in the ODPM five-year strategy "Homes for All", published in January 2005.

A new circular on planning obligations, following the consultation launched in November 2004.

ODPM is also publishing today research on the use of planning obligations to deliver affordable housing.

Alongside these documents ODPM is also publishing jointly with HM Treasury a document setting out the importance of the Government's housing agenda for achieving the UK's social and economic priorities and for delivering stability and opportunity.

Copies of these documents are being placed in the Libraries of the House.

*Planning for Housing Provision*

In April 2003 the Government commissioned Kate Barker to carry out a review of issues underlying the lack of supply and responsiveness of housing supply in the UK. Demand for housing has increased over the last 30 years, driven by demographic trends and rising incomes. Yet the supply of new housing has fallen by 30 per cent. compared to 30 years ago.

The Barker review of housing supply report, "Delivering stability: Securing our future housing needs", published in March 2004, made a number of recommendations relevant to the planning system, in particular, its ability to release appropriate land for housing in an effective and timely manner. Planning was seen as a key constraint on the delivery of housing. The revision of current policy on planning for housing, set out in planning policy guidance note 3: housing (PPG3), was regarded as a priority, in order to improve delivery of sufficient homes and to achieve housing targets more effectively.

The Government agree with the Barker review proposition that the planning system must be able to deliver sufficient land, in the right places, to meet need and be more responsive to demand. If plans fail to deliver appropriate land for housing, house prices will continue to increase, there will continue to be worsening affordability, and key workers will continue to seek in vain for homes near their jobs. Equally, if the planning system fails to address low demand, the difficulties faced by communities, in terms of abandonment and crime, will increase.

The challenge for the planning system is to find the right way to respond flexibly to housing market pressures, in order to achieve social justice, and sustainable development. The Government believe that consideration of housing market pressures must be part of the planning system, so that it can operate swiftly and effectively, in the public interest.

ODPM is therefore publishing today a consultation paper "Planning for Housing Provision" which sets out the Government's objectives for delivering a better supply of housing through the planning system. Improving housing supply and access to housing is critical to improving affordability in the long term and securing the wider benefits that housing brings to the economy and society. The consultation paper proposes

a new policy approach to ensuring that appropriate land is allocated in plans to meet the need for housing, respond more effectively to changes in demand, and promote consumer choice. It also continues the priority given to brownfield development. It provides for different approaches in areas such as the Thames Gateway which are designated for high levels of housing growth compared to other areas where the level of new housing needs to be carefully managed. It promotes longer term planning as well as much more rapid reviews of plans where demand changes. The Government will respond to the other recommendations of the Barker review by the end of the year.

This consultation will be an important input to a new planning policy statement on planning for housing (PPS3). In the autumn Government will consult on a new draft PPS3 which will set out the broad national policy framework for planning for housing. The aim will be to ensure that the planning system is used to its maximum effect to ensure that everyone has the opportunity of a decent home, which they can afford, within a community which is sustainable and in which they want to live and work.

The new draft PPS3 will also draw on the consultation paper "Planning for Mixed Communities" published by the Office of the Deputy Prime Minister in January 2005, and the responses to it.

*Consultation Draft of a New Green Belt Direction*

The Government recognise the need to protect the green belt in taking forward new development. It has set a target for each region to maintain or increase the area of green belt designated in local plans. As a demonstration of the continuing importance the Government attach to the protection of the openness of the green belt, and to the prevention of urban sprawl, the ODPM is also publishing today a consultation paper on a proposed new town and country planning (green belt) direction.

This new direction would, for the first time, specifically require that planning applications for inappropriate development of certain types and scale in the green belt, which local planning authorities are minded to approve, should be referred to the First Secretary of State. While the Secretary of State would continue to use his powers of intervention selectively, the new direction would ensure that he has the opportunity to consider whether to call in for a public inquiry and his own determination, the more significant and potentially most harmful development proposals in the green belt.

*Planning obligations*

The system of planning obligations is important in delivering essential infrastructure and other matters necessary to ensure all new development is sustainable in planning terms. However, planning obligations have in the past been responsible for delays in the system. The ODPM is today publishing a new circular on planning obligations—circular 05/2005—aimed at speeding up the system, so as to support the delivery of development, including new housing.

In November 2004 the ODPM published a draft revised circular on planning obligations. This led to a very fruitful consultation period in which 279 respondents contributed their views in writing and discussions were held in regional seminars and bilateral meetings.

The overarching aims of the new circular are to increase transparency, predictability, accountability and speed in the negotiation of planning obligations, and to promote the good practice that already exists in many local authorities. It also brings planning obligations into line with the new arrangements established by the Planning and Compulsory Purchase Act 2004, and provides a firmer policy basis for the provision of affordable housing through planning obligations.

The final version of the circular makes a number of changes from the draft for the sake of clarity and precision, and introduces some new procedural guidance but the policy scope of planning obligations remains the same.

The circular will be supported by the publication of good practice guidance on the use of planning obligations later this year. A standard legal document for planning agreements and unilateral undertakings will accompany this guidance.

The revision of planning obligations policy is intended to improve the existing system. In the meantime, the Government are continuing to examine Kate Barker's recommendations for a planning-gain supplement and associated changes to the system of planning obligations, made in the final report of her review of housing supply. The Government will announce their full response to the Barker report by the end of the year.

*Value for money of delivering affordable housing through section 106 agreements*

In November 2003, ODPM commissioned the university of Cambridge to undertake a study on the value for money of delivering affordable housing through the planning system i.e. through section 106 agreements. The aim was to provide evidence on how much affordable housing is being delivered through planning obligations and how it is being funded. The study also examined how far providing affordable housing in this way contributes to mixed communities.

The study confirms the importance of using planning obligations in the delivery of affordable housing. The research indicates that as developers and local authorities are becoming more familiar with using planning obligations, the system is improving. The study also found that delivering affordable housing in this way makes a valuable contribution to the Government's aim of mixed communities, in particular by providing access to land in high value areas.

However, the research also suggests that there is room for improvement. The main drawbacks of the current system are perceived to be the delays in negotiation and the resulting costs. The new circular on planning obligations aims to address some of these issues.

## EDUCATION AND SKILLS

### Youth Matters Green Paper

**The Secretary of State for Education and Skills (Ruth Kelly):** The Green Paper "Youth Matters" has today been laid before Parliament.

"Youth Matters" addresses key issues relating to the way in which we provide opportunities, challenge and support to our teenagers. The proposals in "Youth Matters" build on the ambition of "Every Child Matters" that all young people should achieve five key outcomes—being healthy, staying safe, enjoying and achieving, making a positive contribution, and achieving economic well-being.

We should not lose sight of the fact that most young people are doing well, achieving more at school and going on to further study. We need to support these young people with more and better information, advice and guidance, which takes into account how jobs are changing and our proposed 14–19 curriculum reforms, and which is delivered in a way that suits young people including through the use of modern technologies.

We also want to provide a wider choice of positive activities for young people to do when they are not in school, college or work and we want to encourage more young people to get involved in volunteering. It is a fundamental part of our proposals that young people and their parents should have a greater influence over the things that are provided for them locally. Proposals include supporting local authorities to develop a card for young people which will give them discounts on activities and could be credited with amounts that young people can spend on their choice of sports and other constructive activities. We also propose a new youth opportunity fund to be spent at young people's discretion on projects to improve things to do and places to go in their area.

We want to improve the way in which we support young people with specific needs and problems including providing them with a nominated lead professional who will be a single point of contact and making sure that support is provided in a coordinated, convenient and integrated way.

But we should also recognise that some young people have problems and some get involved in antisocial behaviour and crime. This can have a negative impact on their own life chances and affects the view the wider community has of all young people. Those who fail to behave well should be supported in improving their behaviour but should not benefit from the proposed discount card until they do so.

A copy of the Green Paper will be available in the Libraries of both Houses and will be accessible on the Department for Education and Skills website.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Agriculture and Fisheries Council

**The Secretary of State for Environment, Food and Rural Affairs (Margaret Beckett):** I will chair the agriculture items during the first Agriculture and Fisheries Council of the UK presidency on 18 July. My hon. Friend, the Under-Secretary of State for Environment, Food and Rural Affairs (Mr. Bradshaw), will chair the fisheries item.

I will begin by setting out the presidency work programme for the next six months. It includes amongst other things, sugar reform, the EU's rural development strategic guidelines, forest law enforcement, governance and trade (FLEGT), avian influenza, welfare of broiler chickens and a range of proposals to progress the sustainability of the fisheries industry.

The Commissioner for Health and Consumer Protection will then present to the Council his proposal for a directive laying down minimum rules for the protection of chickens kept for meat production.

The Fisheries Commissioner will follow with the only fisheries point on the agenda: emergency measures to protect anchovy in the Bay of Biscay, referred to the Council by France.

The Agriculture Commissioner will then present the EU strategic guidelines on rural development. This is simply a presentation of the proposal to the Council with no discussion at this stage.

There will be a lunch at which the Agriculture Commissioner will provide an update on WTO agricultural negotiations.

The afternoon session will be devoted to the first Council policy debate on reform of the common market organisation in sugar, following the publication of the Commission's reform proposal on 22 June. Ministers will be invited to respond to the following questions:

> Is the voluntary restructuring scheme combined with a larger price cut preferable to a smaller price cut and mandatory quota cuts as proposed in the Commission communication of July 2004?
>
> Do you support a reform that gives a long-term perspective by lasting until the 2014–15 marketing year?
>
> Are the Commission proposals for compensation fair and balanced in line with recent CAP reforms?

There is only one point under any other business at the request of the Dutch delegation on definition of fresh poultry meat and origin labelling.

## HEALTH

### NHS Complaints

**The Minister of State, Department of Health (Jane Kennedy):** The report of the committee of inquiry into how the national health service handled allegations about the conduct of William Kerr and Michael Haslem, two former psychiatrists who practised in Yorkshire [Cm 6640] is being published today. Copies have been placed in the Library. This is one of the three inquiries announced in June 2001 by the then Secretary of State for Health, the right hon. Member for Darlington (Mr. Milburn). The reports of the other two inquiries, to consider how the NHS handled allegations about the conduct of Richard Neale, a former gynaecologist; and Clifford Ayling, a former general practitioner, were published last September.

The Government would like to thank Nigel Fleming, the chairman of the inquiry, and the two members of his panel, Ros Alstead and Ruth Lesirge, for their thorough and thoughtful handling of undoubtedly sensitive issues. The Government are also grateful to those

former patients of William Kerr and Michael Haslam who came forward and provided evidence to the inquiry which must, at times, have been very difficult and painful.

We will consider the conclusions and recommendations of this report very carefully together with those of the fifth Shipman report, the Clifford Ayling report and the Richard Neale report and will provide our response to them all later this year.

### Independent Regulator of NHS Foundation Trusts

**The Parliamentary Under-Secretary of State for Health (Mr. Liam Byrne):** My noble Friend the Minister of State (Lord Warner) has made the following written ministerial statement today.

"The annual report and accounts for Monitor (the statutory name of which is the independent regulator of NHS foundation trusts) HC 195, was laid before Parliament today. Copies are available in the Library".

## HOME DEPARTMENT

### United Kingdom Passport Service

**The Parliamentary Under-Secretary of State for the Home Department (Andy Burnham):** The United Kingdom Passport Service annual report and accounts 2004–05 has been published today and copies have been placed in the Library of the House.

### Zimbabwe (Immigration Removals Update)

**The Secretary of State for the Home Department (Mr. Charles Clarke):** On 27 June I made a statement on the return of failed asylum seekers to Zimbabwe and on 6 July I updated the House on that issue. I would like to provide a further update on returns to Zimbabwe.

Our policy on enforcing the return of failed asylum seekers to Zimbabwe has not changed. We remain of the view that the correct way to operate a fair but credible asylum system is to consider each asylum claim on its individual merits, to grant protection to those who need it, and to seek to remove those who do not and who have no other basis of stay in the country, and who will not leave voluntarily. This is true of all claims, whatever the nationality of the claimant.

The courts have set a hearing on 4 August to consider the evidence provided by the Refugee Legal Centre relating to the treatment of failed asylum seekers upon their return to Zimbabwe. We welcome the opportunity this will provide for all the objective information relating to their treatment to be assessed. Pending the 4 August hearing, out of respect and courtesy to the clearly expressed wishes of the court, we have agreed not to enforce the removal of Zimbabwean failed asylum seekers to Zimbabwe.

This Government continue to have grave concerns about the human rights situation in Zimbabwe, and continue to press for an end to abuses. We will continue to provide protection through the asylum system for Zimbabweans with a well founded fear of persecution.

## TRADE AND INDUSTRY

### Chemical Weapons Act 1996

**The Secretary of State for Trade and Industry (Alan Johnson):** I am pleased to announce that in accordance with the requirements of section 33 of the Chemical Weapons Act 1996, I have laid a report on its operation during 2004 in the Libraries of both Houses.

### Audit Regulation

**The Secretary of State for Trade and Industry (Alan Johnson):** I have received the annual reports for the year 2004 from the five recognised supervisory bodies for company auditors: a combined report from the Institutes of Chartered Accountants in England and Wales, Scotland and Ireland, and one each from the Association of Certified Chartered Accountants and the Association of Authorised Public Accountants. Copies of the reports have been placed in the Libraries of both Houses.

Schedule 11 of the Companies Act 1989 sets out the requirements which a body must meet to be eligible for recognised supervisory body status. These include requirements to have adequate arrangements for monitoring and enforcing compliance with its rules relating to membership and eligibility (e.g. holding an appropriate qualification, being a fit and proper person, working to technical and ethical standards, maintaining competence), discipline and investigation of complaints. In these reports, the recognised bodies inform the Government about their activities in relation to these arrangements.

In January 2003, we announced a number of changes to the regulatory regime of the accountancy and audit professions, including the establishment of a new independent inspection unit, located within the Financial Reporting Council, and a Professional Oversight Board for Accountancy (POBA), to take over, from this Department, my functions under Part II of the Companies Act 1989 in respect of the recognised supervisory bodies. I am pleased to report that these bodies are now established and in operation. The delegation of these powers is dependent on legislation being passed by Parliament, a process that has been delayed due to other pressures on parliamentary time. Legislation will be laid before Parliament before the summer recess. In the meantime my Department continues to have responsibility for oversight of the recognised supervisory bodies.

## WORK AND PENSIONS

### Housing Benefit (Local Authority Investigative Powers)

**The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt):** On 10 March 2005 the Government published the consultation paper "Local Authority Investigative Powers Regulatory Reform Order". This set out our proposals to reduce burdens on local authorities by using powers in the Regulatory Reform Act 2001. The proposed changes would enable local authorities to tackle benefit fraud more effectively by giving them clear powers to investigate and prosecute offences against national social security benefits alongside local ones.

The consultation closed on 10 June 2005 a summary of responses to the consultation has been placed in the Library.

We received 48 responses to the consultation document, the overwhelming majority of which were in favour of the proposals. Our intention was to resolve this issue by use of a Regulatory Reform Order. From the responses we have received it has become clear that the powers that we could provide for local authorities by using a Regulatory Reform Order would be inadequate for their effective use. We have, therefore, decided not to proceed with the Regulatory Reform Order but to make the legislative changes that local authorities need alongside wider reforms to housing benefit announced in the Queen's speech. This should not significantly delay our plans to implement these changes, and we remain committed to seeking a swift resolution to this issue.

## Pensions National Strategy Report

**The Minister for Pensions Reform (Mr. Stephen Timms):** The national strategy report on adequate and sustainable pensions NSR) is the key instrument in the open method of coordination process for pensions and was presented to the EU Commission on 15th July 2005. The report has been placed in the Library.

The open method of coordination in pensions was launched by the Laeken European Council in December 2001. Its aim is to support member states in meeting common objectives and thus moving towards the Lisbon objectives. These objectives are designed to ensure that Europe can be the most competitive, knowledge based economy by 2010.

Within the NSR, there are 11 objectives, which are arranged in three key themes: safeguarding the capacity of systems to meet their social objectives (i.e. adequacy); maintaining their financial sustainability; and meeting changing needs of society (i.e. modernisation).

This national strategy report is an update for the EU Commission on the UKs progress since the initial report in 2002. It has been drafted with consultation across and within Government Departments and non-Government organisations. It is a re-statement of the UK Government's current policies. It does not include any information not in the public domain already, it does not signal any state pension reform and contains only pre-existing data to support the 11 objectives.

The report:

points to a very sustainable public expenditure on pensions over the next half century;

tells of a new improved, more customer focused approach to service delivery;

explains changes to the legal framework to provide flexibility and security in private pensions; and

explains that the introduction of pension credit has had a very positive effect on pensioner income.

# Written Ministerial Statements

*Tuesday 19 July 2005*

## CABINET OFFICE

### Government Car and Despatch Agency

**The Parliamentary Under-Secretary of State for the Cabinet Office (Mr. Jim Murphy):** I have today laid before Parliament the Government Car and Despatch Agency annual report and accounts 2004–05, copies of which are available in both Libraries of the House.

## TREASURY

### Holocaust Victims (Tax Exemptions)

**The Paymaster General (Dawn Primarolo):** The Government propose to bring forward legislation in the next available Finance Bill to exempt from tax certain payments made in relation to bank accounts of holocaust victims, as described below.

The HM Revenue and Customs extra-statutory concession, A100, introduced on 8 May 2000, provides a tax exemption for compensation payments made by UK banks under their scheme called "Restore UK". The scheme is designed to identify and compensate claimants to dormant accounts opened by holocaust victims and frozen during World War II under the Trading with the Enemy Act.

Since the introduction of the extra-statutory concession it has come to light that comparable payments may be made to holocaust victims or their heirs in respect of moneys held by the banks of other countries. For example, claims may be made by victims or targets of Nazi persecution or their heirs through the Claims Resolution Tribunal (CRT) for Dormant Accounts in Switzerland in respect of moneys deposited in Swiss banks in the period before and during the Second World War. The CRT was established as a consequence of the Holocaust Victims Assets Litigation in America.

The CRT awards made to the holocaust victims or their heirs and any comparable payments made by the banks of other countries are outside the scope of ESC A100, because it is available only for payments made under the "Restore UK" scheme run by UK banks.

Following discussions between the Association of Jewish Refugees and HMRC, the Government propose to bring forward legislation in the next available Finance Bill. The legislation will exempt from income tax and capital gains tax payments made to holocaust victims or their heirs when they are broadly comparable to the awards made under the "Restore UK" scheme run by UK banks. This will include any amount designed to cover interest and inflation by increasing the account balance to make it a fairer reflection of the amount originally deposited. The exemption will be available whenever the award or payment was made, so long as the criteria set out in the legislation are met.

The proposal is that there will be a provision in the legislation so that anyone who has included a qualifying payment in their self assessment tax return and paid tax will be able to reclaim the tax, even if the normal time limit for amending the assessment has passed.

The proposed legislation will also clarify the effect of the exemption for inheritance tax (IHT) purposes. Present-day recipients of these payments often derive their claim through intervening potential claimants who are now dead. The existing extra-statutory concession aims to ensure that the IHT affairs of these predecessors need not be re-opened because an account has been rediscovered. The Government propose that, when the accounts of holocaust victims or their heirs are rediscovered and compensation payments are made in respect of them, legislation in the Finance Bill will include an exemption from death duties for intervening potential claimants who died before the respective award scheme was opened for claims.

At the same time as bringing forward legislation to provide a tax exemption for compensation payments that are broadly comparable to the "Restore UK" scheme, the Government propose to take the opportunity to put on a statutory footing the exemption currently available under ESC A100 for payments made by UK banks. So that too will be included in the proposed legislation.

UK building societies may participate in the "Restore UK" scheme and ESC A100 applies to any compensation payments made by them to holocaust victims or their heirs. The proposed exemption will include payments by the building societies of other countries.

More information about the proposed tax exemption and guidance for anyone who thinks they may be able to claim back tax already paid on an exempt award is in the news release published by HM Revenue and Customs today at www.hmrc.gov.uk/individuals/holocaust.htm/

### Public Expenditure

**The Chief Secretary to the Treasury (Mr. Des Browne):** In June 1997, the incoming Government launched a comprehensive spending review (CSR). The CSR was the most fundamental and in-depth examination of Government spending and priorities ever attempted. Moving beyond the short-termism engendered by the old annual planning cycle and building on the platform of stability provided by the new fiscal code, the CSR set long-term aims and objectives for each Department and put in place a public expenditure and performance management framework within which these long-term ambitions could be achieved.

The CSR set the Government's priorities for the long-term: sustainable growth and employment; fairness and opportunity; efficient and modern public services. To support this longer-term approach to public spending, the CSR introduced a series of key reforms to modernise the public expenditure framework including firm three-year departmental spending plans, separate current and

capital budgets, and outcome-focused public service agreements to support delivery and improve departmental accountability.

The CSR allocated significant additional resources, backed by reform, to the Government's key priority areas, with over 50 per cent. of the increase in departmental expenditure limits and local authority spending being allocated to education and health. In the ten years to 2007–08, subsequent Reviews in 2000, 2002 and 2004 have built on the objectives, reforms and priorities first established in the CSR.

The framework for managing public expenditure established by the CSR has also proved robust. Three year spending plans have been set and delivered in successive spending reviews. The separate management of current and capital spending has allowed public sector net investment to rise from 0.8 per cent. of GDP in 1996–97 to 2.2 per cent. by 2007–08.

Over the last decade the Government have shown how one can deliver a strong economy and sound public finances at the same time as sustained and substantial growth in investment in public services. Looking forward, there are new challenges Britain will need to address in order to lock in these benefits for the decade to come, including:

a rapid increase in the old age dependency ratio as the "baby boom" generation reaches retirement age;

the intensification of cross-border economic competition as the balance of international economic activity shifts toward rapidly growing emerging markets such as China and India;

an acceleration in the pace of innovation and technological diffusion and a continued increase in the knowledge-intensity of goods and services;

continued global uncertainty with ongoing threats of international terrorism and global conflict; and

increasing pressures on our natural resources and global climate from rapid economic and population growth in the developing world and sustained demand for fossil fuels in advanced economies.

These changes will have fundamental and far-reaching implications for public services and will require innovative policy responses, coordination of activity across departmental boundaries and sustained investment in key areas. While reaffirming the Government's commitment to their key objectives and building on the long-term framework the Government have put in place, it is right that the Government should periodically re-examine their public spending allocations in fundamental ways.

With the start of the next spending review period coming a decade after the first, the Government propose to launch a second comprehensive spending examining what the investments and reforms initiated to date have delivered and what further steps must be taken to ensure that Britain is fully equipped to meet the challenges of the decade ahead. This review will:

take a zero based approach to assessing the effectiveness of Departments' existing spending in delivering the outputs to which they are committed;

examine the key long-term trends and challenges that will shape the next decade and assess how public services will need to respond; and

look at how the public expenditure framework can best embed and extend ongoing efficiency improvements and support the long-term investments needed to meet these challenges.

The review will complement the work of the long-term reviews already underway into the future of transport, skills, pensions and local services.

A report will be made on these public spending challenges in 2006. The Government will report on the next three-year spending review covering 2008–09, 2009–10 and 2010–11 in 2007 and will hold departmental allocations to the agreed figure already announced for 2007–08.

## Terrorist Finance

**The Chancellor of the Exchequer (Mr. Gordon Brown):** Last week's attack on London was an affront to all democracies. Just as there should be no safe haven for those who perpetrate terrorism, so there should no hiding place for those who finance terrorism. To deliver this requires action in the UK, across Europe and globally.

*Within the UK*

Blocking terrorists' access to the financial system is a critical preventive measure; and freezing funds already in the system prevents those funds being used to perpetrate atrocities. In the UK, our financial institutions have to date frozen over £370,000 in forty five accounts. In order better to integrate efforts within the UK to disrupt terrorist finance, I can announce that the Treasury has established an inter-departmental asset freezing working group to identify and vet appropriate targets for asset freezing action under Treasury powers.

While four years ago just 30,000 reports of suspicious transactions relating to terrorist financing and money laundering were sent to the National Criminal Intelligence Service, last year 150,000 suspicious transaction reports were made. Of those relating to terrorist finance, between 20 to 30 per cent. subsequently either led to a longer-term investigation, or contributed substantially to an existing investigation. It is essential that the suspicious transactions regime be both proportionate and effective. The Home Secretary and I have asked Sir Stephen Lander to report by March 2006 on how these investigations of suspicious transactions can be best pursued under the new Serious and Organised Crime Agency.

I am today making £20 million available from the Reserve to the Home Office for the exceptional costs of support to victims and of policing and other activities arising from the attacks in London on 7 July. The help for victims will include money for compensation through the criminal injuries compensation scheme and funds to cover the donation to the London Bombings Relief Charitable Fund which the Home Secretary announced yesterday.

*European agenda*

Last week, European Finance Ministers reaffirmed that there will no hiding place for those who finance terrorism. Europe has found common cause in our shared battle against terrorism.

As EU president, we will work closely with all member states, the Commission, European Parliament and the EU counter-terrorism co-ordinator to implement the action plan against terrorism we agreed after the Madrid bombings.

Our first priority will be to deny terrorists access to financial resources—ensuring that terrorist assets are identified and isolated quickly and effectively;

We will also seek to conclude work on the money laundering and payments systems in order to safeguard the integrity of the financial system from abuse;

The European Union has made an undertaking to offer other countries who need it advice and technical assistance to build up anti-terrorist finance capacity; and

We will also work with the Commission to undertake an assessment of the EU's own performance in implementing the financial action task force's special recommendations to combat terrorist financing.

*Globally*

In order to make our fight against terrorist finance as global as the threat of terrorism itself, I have asked that international cooperation be redoubled:

Britain will support improved technical assistance to those countries that need to enhance their counter terrorist capacity, so that no country will offer a hiding place for terrorist finance;

Under the UK G8 presidency, a group of financial experts has developed a programme of reforms to ensure that we identify and isolate terrorist funds on a global basis. I will ask this group to report on its progress to Finance Ministers in September;

As EU president, the UK will host an EU-US conference of terrorist finance experts in October to identify key recommendations for future action; and

We are currently working with our security council partners to establish a new resolution to succeed UNSCR 1267 against al-Qaeda, to update and reassert the international response against the threat of international terrorism.

We will report back to the House on our efforts to safeguard the financial system from abuse by terrorists and other criminals at the time of the pre-Budget report.

### International Monetary Fund

**The Chancellor of the Exchequer (Mr. Gordon Brown):** I am today publishing the sixth annual report to Parliament on UK operations at the IMF, "A Stronger Global Economy—The UK and the IMF 2004–05". Copies are available in the Library of the House.

## CONSTITUTIONAL AFFAIRS

### Family Proceedings

**The Minister of State, Department for Constitutional Affairs (Ms Harriet Harman):** My noble Friend the Baroness Ashton of Upholland, Parliamentary Under-Secretary of State, has made the following written ministerial statement in the other place today:

"With the agreement of my right hon. and learned Friend the Secretary of State for Constitutional Affairs, I am pleased to inform the House that I have today placed in the Libraries of both Houses a copy of the response to the public consultation on disclosure of information in family proceedings cases involving children. Statutory instruments have also been laid today specifying the circumstances in which information can be disclosed from family proceeding cases involving children.

Members will recall that there have been a number of difficulties about what information can be received from individuals and constituents and what members of both Houses may then do with that information to advise or assist. Accordingly I would like to make a statement about the effect of these rules; particularly, in terms of how they allow Members to fulfil their vital role in helping and advising those involved in family proceedings.

Further to my right hon. and learned Friend Harriet Harman QC, MP's statement to the House on 14 October 2004, the proposed legislative amendments have now been made by section 62 of the Children Act 2004, which came into force on 12 April 2005. This means that:

Section 97 (2) Children Act 1989 has been amended so that it is no longer a criminal offence to publish information which identifies or is likely to identify a child as being involved in family proceedings, or the address or school of such a child; so long as publication is not made to the general public or a section of it (including the media).

Section 12 (4) of the Administration of Justice Act 1960 has been amended so that disclosure of certain information is no longer a contempt of court where rules of court specify that such disclosures can be made.

A series of amendments have been made to current rule making powers to clarify that rules can be made specifying the circumstances in which disclosure may be made.

The Government consulted on the proposed content of the rules of court. The consultation period closed on 23 March 2005. The responses have helped to shape the final content of the rules. The rules will come into force on 31 October 2005. Guidance will be published ahead of that date so that the various providers and recipients of information from family proceedings involving children heard in private will know what they are entitled to do with that information.

The implications for Members of both Houses are that:

A party to family proceedings involving children heard in private will be able to communicate to a Member the text or a summary of the whole or part of a judgment given in those proceedings. Members can also receive court orders, as that had been permitted since legislative amendments came into force on 12 April 2005. Members may use the information received for the purposes stated in the rules only. For Members, this means that once the text or summary of a judgment has been received, the Member may use that information for the purposes of giving advice, investigating any complaint or raising any question of policy or procedure. Members may of course refer the information to other appropriate bodies or agencies to fulfil the purpose. If it appears that further information is required, an application to the court will need to be made."

## DEFENCE

### Gulf Veterans

**The Parliamentary Under-Secretary of State for Defence (Mr. Don Touhig):** As part of the Government's continuing commitment to investigate Gulf veterans' illnesses openly and honestly, data on the mortality of veterans of the 1990–91 Gulf conflict are regularly published. The most recent figures for the period 1 April 1991 to 30 June 2005, were published on 14 July 2005 as a National Statistic on the Defence Analytical Services Agency website.

The data for Gulf veterans are compared to that of a control group known as the "Era cohort" which is made up of armed forces personnel of a similar profile in terms of gender, service, regular/reservists status and rank, who were not deployed to the Gulf. The "Era" group has been adjusted for a small difference in the age-profile of those aged 40 years and over, to ensure appropriate comparisons.

Key points to note in the data are:

There were 720 deaths among the Gulf veterans and 735 in the age-adjusted Era comparison group.

The 720 deaths among Gulf veterans compare with approximately 1,150 deaths which would have been expected in a similar sized cohort taken from the general population of the UK with the same age and gender profile. This reflects the strong emphasis on fitness when recruiting and retaining service personnel.

These statistics continue to confirm that UK veterans of the 1990–91 Gulf conflict do not suffer an excess of overall mortality compared with service personnel that did not deploy.

I will place copies of the full Notice in the Library of the House and it can also be viewed at www.dasa.mod.uk

### Atomic Weapons Establishment

**The Secretary of State for Defence (John Reid):** The Government made clear last year on 21 July 2004, *Official Report*, column 348 their commitment to maintaining the effectiveness and safety of the nuclear deterrent including making the necessary investment in the facilities at the Atomic Weapons Establishment at Aldermaston and Burghfield. To that end agreement has been reached with AWE Management Ltd. (AWE ML) to take forward a programme of investment in sustaining key skills and facilities at the Atomic Weapons Establishment. This will include the provision of necessary extra supporting infrastructure. Local planning authorities will be consulted on this work in the normal way, under the provisions of the Planning and Compulsory Purchase Act 2005.

The purpose of this investment of some £350 million over each of the next three years is to ensure that we can maintain the existing Trident warhead stockpile throughout its intended in-service life. In the absence of the ability to undertake live nuclear testing given that the UK has signed and ratified the Comprehensive Test Ban Treaty, it is necessary to invest in the facilities at AWE which will provide assurance that the existing Trident warhead stockpile is reliable and safe.

## DEPUTY PRIME MINISTER

### Building Regulations (Fire Safety)

**The Parliamentary Under-Secretary of State, Office of the Deputy Prime Minister (Jim Fitzpatrick):** I am delighted to announce that today we have launched a four-month consultation on potential changes to the fire safety aspects of the building regulations (part B) which set the design standards for new and altered buildings. Research reports that underpin the consultation have also been published.

The consultation covers a wide range of issues, including the use of sprinklers and door-closing devices, changes to the guidance on domestic loft conversions and increased measures to assist firefighters dealing with fires in tall buildings.

The consultation document sets out proposed changes to both the building regulations and the supporting guidance in approved document B. The potential changes would affect future building work in England and Wales—typically the erection, extension or material alteration of a building. Separate legislation applies in Scotland and Northern Ireland.

The review has drawn upon recent experience and takes into account the findings of relevant research and the results of comprehensive stakeholder engagement. It has considered fire safety in all types of premises including dwellings, residential care homes and warehouses. It has also considered the important role that sprinklers and other types of fire protection measures may have, particularly if the provision is targeted at buildings where the occupants are most vulnerable to fire. The proposed changes would help to ensure an even higher level of fire safety for both building occupants and firefighters.

However, any changes must be fully justified and taken forward in a robust and efficient manner. To this end we are also seeking further evidence to support a number of the proposals, particularly in terms of the costs and benefits that they may have. A partial regulatory impact assessment detailing the impacts of the proposals has been published as part of the consultation package.

Copies of the consultation paper will be placed in the Libraries of both Houses and the research reports can be accessed via www.bre.co.uk/adb/.

### Local Government Finance

**The Minister for Local Government (Mr. Phil Woolas):** I am pleased to announce the broad outline of how the Government intend to implement three-year finance settlements for local government.

The move to three-year settlements will provide greater financial certainty and stability for local government, council tax payers, businesses and other local partners. Three-year settlements will provide local government with the same certainty and planning horizons that departments already benefit from through our reformed public spending system. They will be a vehicle for greater long term coordination across central government towards local government services. The benefits for local people should be improved service delivery and greater stability in future council tax.

In December, ODPM published a consultation paper, "Three-year Revenue and Capital Settlements", which sought views on the Government's proposals for the implementation of three-year settlements for local government in England. The consultation fulfilled a commitment in the 2004 building regulations to consult on these proposals with local government and other stakeholders with a view to agreeing settlements for 2006–07 and 2007–08 during 2005. The consultation ended on 11 March 2005. Some 186 responses were received and they broadly welcomed the principle of introducing three-year allocations for revenue and

capital funding. A summary of responses was published on 30 June and copies have been placed in the Libraries of both Houses.

The consultation paper stated the Government's intention to move to three-year settlements for local government by the end of the current Parliament. The first settlement, to be announced in autumn 2005, will cover the two remaining years of building regulations 04 (2006–07 and 2007–08). From 2008–09, three-year settlements will be fully aligned with the spending review cycle.

Following consideration of the consultation responses, implementation will proceed along the following broad principles:

A move to greater certainty in forward indications of local authority council tax levels. This will be based on further discussions with local government to ensure maximum forward looking information for council tax payers.

Specific revenue grants will generally be allocated on a three-year forward basis.

For formula and revenue grant, we will align all aspects of three-year settlements with the existing spending review round, with firm three-year allocations being announced for the first full spending review cycle after three-year settlements are introduced. To make these settlements more forward looking, stable and predictable we will use projections of changes in population and council tax base; and will not, except in entirely exceptional cases, retrospectively amend any year's settlement.

Capital funding, whether in the form of grant or supported borrowing, will generally be allocated on a three-year forward basis with exceptions for some small bid-based programmes, funding for emergencies and funding for large one-off projects.

The formulae proposed for the 2006–07 housing revenue account subsidy (HRAS) Determination will remain unchanged for the 2007–08 HRAS determination. Stock and other data about individual authorities will as usual be updated for 2007–08 by means of the base data return to be issued in 2006.

To ensure local authorities and council tax payers gain the maximum benefits of three-year settlements, Government Departments will work to ensure that their funding is either moved to a firm three-year basis or designed to offer authorities as much forward certainty as possible. The principles outlined above will be applied by government departments, in conjunction with local government, as they finalise the details of the settlement in the run up to its announcement in the autumn.

**The Minister for Local Government (Mr. Phil Woolas):** The priority goal for Government policy on local government finance is stability and certainty so that Local Authorities, their partners and the public have reasonable expectations of income and expenditure levels and trends.

To that end I am today moving that policy forward with the introduction of three year settlements for local government. It is an opportune time to review the basis on which we distribute formula grant to local authorities in England. Formula grant underpins the provision of a wide range of local services and is not hypothecated, so that decisions on local priorities can be made by local authorities. We have already introduced a degree of stability in the formulae for grant distribution; these were last changed for 2003–04, and we made clear then that we would not change the underlying methodology for a period of three years. From 2006–07, we therefore have the opportunity to change the distribution system.

We want to take this opportunity to consider four main issues. First, the formulae that we use to distribute grant are designed to reflect the relative circumstances of local authorities, as well as the policy or operational context for local authority services. There have been developments over the years which mean that some formulae are simply out of date in that, for example, they still use old data such as that from the 1991 census.

Secondly, we need to establish a firm basis for the introduction of three year settlements for local government. As part of that agenda, we need to find ways of making the finance settlements more forward looking to reflect growth in population.

Thirdly, we are examining ways of distributing grant that do not involve—or appear to involve—second-guessing councils' spending and taxation decisions, to clarify accountability and responsibility for local choices.

Finally, the system needs to reflect the change that is taking place in Government funding for schools.

Following the last review of grant distribution formulae, the Government have run a number of research projects and have been working with local government and other interested parties to consider possible changes to the formulae which could be introduced once the freeze had ended. The official level Settlement Working Group, consisting of representatives from all types of local authority in England along with interested parties from central Government, has considered some 75 technical papers together with research reports over that period. Separate technical groups have examined the formulae for the Police, Fire and Rescue services. I am grateful to all those who assisted the Government whether by contributing to these discussions or helping with the research and survey work.

Following on from that work, the Government are now launching public consultation on options for change to the formula grant system. I am today publishing the consultation document on the ODPM website at:

http://www.local.odpm.gov.uk/finance/0607/consult/index.htm.

Copies have been placed in the Vote Office and the Library of the House. We look forward to receiving views on our proposals. The consultation period will close on 10 October and the Government will then decide on the shape of the formula grant system from 2006–07 onwards.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Pesticides Safety Directorate

**The Minister for Climate Change and the Environment (Mr. Elliot Morley):** The 2004–05 annual report and accounts for the Pesticides Safety Directorate will be laid before Parliament today. Copies will be available in the Library of the House.

## FOREIGN AND COMMONWEALTH AFFAIRS

### General Affairs and External Relations Council

**The Minister for Europe (Mr. Douglas Alexander):** The General Affairs and External Relations Council (GAERC) will be held on 18–19 July in Brussels. My right hon. Friend the Foreign Secretary and I will represent the UK.

The Foreign Secretary will make a short intervention at the start of the GAERC on the London bombings.

The agenda items are as follows:

*Presidency Work Programme*

The Foreign Secretary will give a brief presentation on the GAERC work programme over the next six months. This is an information point only. His presentation will include a brief comment on presidency plans for the future financing negotiation and the future of Europe dossiers. Other key dossiers are: Africa/development, enlargement, UN summit, WTO ministerial and various EU summits (with India, China, Russia, Ukraine and Canada).

*Enlargement*

The Foreign Secretary will debrief partners on the most recent meeting of the Croatia taskforce where there was further consideration of Croatian co-operation with the international criminal tribunal for the former Yugoslavia. There was no change in the assessment. The Foreign Secretary will confirm our intention to return to this dossier in September. Commissioner Rehn will present the Commission's draft negotiating mandate for Turkey to the Council. We do not expect a substantive discussion.

*UN Millennium Review Summit*

Commissioner Ferrero-Waldner will present the Commission's communication on UN reform to the Council. Conclusions reiterating the EU's strong support for a successful UN Millennium review summit outcome are expected to be agreed. These will cover the full range of EU priorities at the UN on development, security and human rights.

*Syria/Lebanon*

Syria will be discussed over lunch and will include a briefing from Terje Roed-Larsen, the UN Secretary-General's special envoy on the implementation of UN Security Council Resolution (UNSCR) 1559. As presidency we will underline the importance on the full implementation of UNSCR 1559 and 1595; support the new Lebanese Government; and call on Syria to contribute to regional stability in Lebanon, Iraq and on the middle east peace process (MEPP).

*Middle East Peace Process (MEPP)*

High Representative Solana will debrief the Council on his recent (10–14 July) visit to the region. We then expect discussion to focus on disengagement (due to begin on 17 August). As presidency, our priorities remain to work to ensure that disengagement proceeds as smoothly as possible and that Gaza should be left economically viable. In this context, we will call for continued EU support to the work of Jim Wolfensohn, quartet special envoy on disengagement. As presidency, we will also highlight the importance of increased coordination between Israel and the Palestinian Authority on disengagement and continue to urge both sides to continue to implement their road map and Sharm el-Sheikh commitments.

*Iran*

The Council will hold a brief discussion of the results of the presidential election, EU/Iran relations and the E-3 process. As presidency, we will call for a continuation of the existing foreign policy towards Iran and continuation of E-3 dialogue.

*Zimbabwe*

The Council will discuss the crackdown by the authorities in Zimbabwe, which has destroyed housing and targeted informal traders. As presidency, we will be aiming for the agreement of Council conclusions, which make clear the EU's condemnation of these events and include consensus on the need to maintain EU pressure.

*Preparation of the EU-China Summit*

The EU-China summit will take place in Beijing on 5 September. The GAERC will discuss preparations for the summit. As presidency, we will update partners on the progress of negotiations with the Chinese. The GAERC will provide an opportunity for partners to feed in their thoughts and to discuss the EU China Joint statement which will record the summit conclusions and set out aspirations for deepening the EU's relationship with China.

*Uzbekistan*

There will be a brief discussion and the Council is expected to reiterate its concern over the situation in Uzbekistan and to condemn the Uzbek authorities' refusal to allow an independent international inquiry into the recent events in Andizhan. At the 13 June GAERC the Uzbek authorities were given until the end of June to allow for an international inquiry. With this deadline now passed, the EU will be considering a range of restrictive measures.

*World Trade Organisation (WTO)*

There will be a brief discussion by the Council. Peter Mandelson will report back to Foreign Ministers on the mini-ministerial in Dalian (12–13 July) and will give an assessment of how preparations are going in the run up to the end-July WTO General Council in Geneva. The main trade discussion will however take place during the informal trade ministers' dinner on 18 July.

*AOB—Estonia/Russia Border Treaty*

The Estonians have asked for the Estonia/Russia border treaty to be placed on the agenda. They will outline to partners why the ratification of this treaty has stalled and how they hope to take matters forward with the Russian Federation. We do not envisage any substantial discussion.

### Hong Kong

**The Minister for Trade (Ian Pearson):** The latest report on the implementation of the Sino-British Joint Declaration on Hong Kong was published today and copies have been placed in the Library of the House. A copy of the report is also available on the Foreign and

Commonwealth Office website at: www.fco.gov.uk. The report covers the period from 1 January to 30 June 2005 and includes a foreword by my right hon. Friend the Foreign Secretary. I commend the report to the House.

## HEALTH

### Health Bodies (Annual Reports/Accounts)

**The Minister of State, Department of Health (Jane Kennedy):** I have received the annual report of the Medicines Commission for 2004, which has been laid before Parliament today in accordance with the requirements of section 5(2) of the Medicines Act 1968.

Bound volumes have been placed in the Library containing the 2004 reports of the Medicines Commission, the Committee on Safety of Medicines, the Advisory Board on the Registration of Homoeopathic Products, the British Pharmacopoeia Commission, the Independent Review Panel on Advertising, the Independent Panel for the Borderline Products and the Veterinary Products Committee.

I am glad to acknowledge the valuable work done by the distinguished members of the Medicines Act advisory bodies and thank them for the time and effort dedicated in the public interest to this important work.

### Meat Hygiene Service

**The Parliamentary Under-Secretary of State for Health (Caroline Flint):** The 2004–05 annual report and accounts for the Meat Hygiene Service was laid before Parliament today.

Copies will be placed in the Library, but formal printing and publication will not take place for another six to nine weeks, pending preparation of a version in the Welsh language, as required by the Welsh Language Act.

**The Minister of State, Department of Health (Jane Kennedy):** For the health service bodies listed as follows, their annual accounts and any accompanying comptroller and auditor general reports have today been laid before the House of Commons pursuant to section 98(1C) of the National Health Service Act 1977. Copies have been placed in the Library.

Counter Fraud and Security Management Service

Dental Practice Board

Dental Vocational Training Authority

Family Health Services Appeal Authority

Health Development Agency

Health Protection Agency

Mental Health Act Commission

National Blood Authority

National Clinical Assessment Authority

National Institute for Clinical Excellence

National Patient Safety Agency

NHS Information Authority

NHS Logistics Authority

NHSU

Prescription Pricing Authority

UK Transplant

## HOME DEPARTMENT

### Prison Service

**The Parliamentary Under-Secretary of State for the Home Department (Fiona Mactaggart):** The Prison Service's latest annual report and accounts, setting out the Service's performance during 2004–2005 will be laid today and copies will be placed in the Library.

### Immigration

**The Minister for Immigration, Citizenship and Nationality (Mr. Tony McNulty):** In February 2005, the Government published "Controlling our Borders: Making migration work for Britain", a five-year strategy for immigration and asylum. I would like to update the House today on progress in three key areas: the development of a points-based scheme for managed migration; the introduction of new policies on limited leave, active review, and settlement for refugees; and the commencement of citizenship tests for new UK citizens.

We are publishing today a consultation document, "Selective Admission: making migration work for Britain", which is the next step in development of a single points-based system for all routes to work, train and study in the UK. There is no doubt that skilled migrants continue to make a substantial contribution to our prosperity. Migration helps to fill gaps in the labour market, especially in public services such as health and education, and increases investment, innovation and entrepreneurship in the UK. International students contribute significantly to our education system and account for some £5 billion in exports value a year. We have to ensure that the system is focused towards those with the skills and talent this country needs, so migration works for Britain.

The existing system is complicated and has developed over many decades. It needs to be simplified so that the general public can understand clearly the basis on which migrants are admitted, and why; so that employers, educational institutions and applicants find it swift, unbureaucratic and value for money; and so that decision-makers find it straightforward to administer. The key tests for the system are that it should be operable, robust against abuse, objective, flexible to our changing economic circumstances, cost effective, transparent, useable and compatible with EU and international legislation.

In order to keep the system robust against abuse, a key principle is that all those who benefit from migration, not just the Government but also employers, educational institutions and migrants themselves, should play a part in helping to ensure that it is not abused. We are consulting on a system of sponsorship which should help to ensure that we only admit those who meet our criteria, that people stick to the terms of their leave to enter while they are here and leave when

they are supposed to. In some high risk cases we could require financial bonds from migrants against their return home.

The proposed framework for the new system is that there should be five tiers of entry to the UK to work, train or study:

Tier 1, highly skilled and investors;

Tier 2, skilled workers with job offers, and workers meeting specific overseas requirements;

Tier 3, specific low-skill schemes to meet short term shortages;

Tier 4, students; and

Tier 5, other temporary categories, visiting workers, selected development schemes to meet shortages, and youth mobility/ cultural exchange.

While ensuring that the system is robust against abuse and that our borders our strengthened, we aim to make it easier for employers to access the skills and experience they need and for educational institutions to attract genuine international students. The current two stage process for work permit employment will be replaced by a single application overseas, or in the UK, supported by a self-assessment programme on the web and in leaflets.

The consultation document has been placed in the Vote Office and the Library. The consultation period closes on 7 November 2005. During the consultation period we shall be engaging in a number of workshops and other events to encourage a widespread and constructive debate. During this period more work will be done to gather evidence and to undertake comprehensive impact assessments. We plan to publish the outcome of the consultation and firm proposals for a reformed managed migration system in spring 2006.

I am also announcing today that from 30 August onwards refugees will be granted five years limited leave in the first instance, rather than immediate settlement as at present. If there is a significant and non-temporary change in conditions in a country, we would consider whether this should, in line with the Convention's cessation clauses, trigger a case by case review of the position of all or some refugees from that country with limited leave. We would inform Parliament whenever we concluded that such a change justifying an individual review of cases had occurred.

As is currently the case, any leave granted to refugees may be subject to review if the refugee, through their own actions, brings themselves within the scope of the 1951 Geneva Refugee Convention's exclusion or cessation clauses. Refugees will continue to be entitled to use public services and to claim key mainstream benefits.

Resettled refugees are in a different position from refugees who arrive in the UK as asylum seekers. They have often been outside their country of origin for many years and have no prospect of returning there. As a result of this special position, I consider it appropriate to allow resettled refugees to retain an immediate right to settlement.

From 30 August onwards, beneficiaries of humanitarian protection will be granted five years limited leave, rather than three as a present. Similar policies on review will apply to them as to refugees with limited leave and they will also, from 30 August, benefit from immediate family reunion.

I am also now able to give further details of the introduction of tests of knowledge of life in the United Kingdom to be taken by people applying for naturalisation as British citizens. In my statement of 15 June I announced that these tests would be introduced in the autumn of this year, and would be offered by Ufi Ltd at some 90 Learn Direct centres throughout the United Kingdom. I can now confirm that the tests will be introduced on 1 November this year: every person who applies for naturalisation as a British citizen on or after that date and is not exempt by reason of age or disability will need to present a certificate showing that they have passed the life in the UK test or that they have attended an English language course which incorporates approved teaching materials on citizenship in the United Kingdom. These arrangements will supersede the provisions for testing applicants' knowledge of the English language which were introduced last year.

The fee for the test will be £40, payable direct to Ufi Ltd in addition to the fee payable for a naturalisation application. Special arrangements will be made for those seeking citizenship who are resident in the Channel Islands or the Isle of Man. Details of these, and further information on how to apply to take the life in the UK test and what it will contain, will shortly be available on the Home Office's website.

## NORTHERN IRELAND

### Racial Equality Strategy

**The Parliamentary Under-Secretary of State for Northern Ireland (Angela E. Smith):** My right hon. Friend the Minister of State, Northern Ireland Office has made the following ministerial statement:

"This statement sets out how I intend to take forward a Racial Equality Strategy for Northern Ireland.

This statement is all the more timely following the appalling attacks in London of 7 July. These attacks were an attack on all of us. The bombs did not discriminate and people of all faiths and none and people of all racial groups have been victims. At this time, we should remember that communities in the United Kingdom have more that unites them than divides them.

Government are determined that the atrocities will not be allowed to create tension between our communities. The Good Relations Policy and Strategic Framework, with its vision of a shared and inclusive society, which was published on 21 March 2005 and the Racial Equality Strategy provide solid foundations for a future shared between and within the communities of Northern Ireland—both old and new. They provide a sound basis for a society where relationships are rooted in mutual recognition and tru

The Government's vision for Northern Ireland is of a society in which racial diversity is supported, understood, valued and respected: a society where racism in any of its forms is not tolerated and where we live together as a society and enjoy equality of opportunity and equal protection.

The publication of the strategy today sets a framework for Government and all sections of civil society in Northern Ireland to contribute to achieving that vision. The framework will allow us:

to tackle racial inequalities in Northern Ireland and to open up opportunity for all;

to eradicate racism and hate crime; and

together with A Shared Future—Policy and Strategic Framework for Good Relations in Northern Ireland, to initiate actions to promote good race relations.

It sets out six shared aims that will point the strategic direction for action by Departments, agencies and wider society, working individually and together, to make a significant difference to the lives of people from minority ethnic backgrounds. The aims of the strategy are: eliminating racism, equality of protection; equality of service provision; participation; dialogue and capacity building.

The strategy will be taken forward through an action plan that will be developed by the Government in collaboration with the Racial Equality Forum.

Government will lead by example. It will set the pace to promote racial equality through a strong public policy agenda. Ultimately, however, sustained and deeper progress depends on political stability. It will require leadership at political, civic and community levels.

Copies of the Racial Equality Strategy for Northern Ireland have been placed in the Libraries of both Houses and are also available on the website www.ofmdfmni.gov.uk/raceequality."

### Equality Commission

**The Secretary of State for Northern Ireland (Mr. Peter Hain):** I am pleased to announce today the appointment of Bob Collins as the new chief commissioner of the Equality Commission for Northern Ireland. I am also appointing four new commissioners—Bryan Johnston, James Knox, Professor Eithne McLaughlin and Elaine Waterson.

The appointments follow an open process based on merit. The new chief commissioner will take up the post from 1 August 2005, succeeding Dame Joan Harbison, whose term of office concludes on 31 July 2005. The terms of office of three other commissioners, Alan Henry, Ann Hope and Ruth Lavery also conclude on that date. The four new commissioners will also take up post from 1 August, joining the 13 existing commissioners.

The Equality Commission for Northern Ireland is a key institution of the Belfast agreement and plays a vital role in protecting and promoting equality in Northern Ireland. I am grateful for the great commitment and expertise that Dame Joan and the other departing commissioners have brought to the Commission. I am particularly grateful to Dame Joan for her work in establishing the Commission from the four equality bodies that preceded it and for seeing the Commission through its formative years so effectively.

I am confident that the new appointees will continue their good work and ensure that the Commission continues to carry out its important duties effectively.

### Prison Service

**The Parliamentary Under-Secretary of State for Northern Ireland (Mr. Shaun Woodward):** I have placed copies of the Northern Ireland Prison Service's annual report and accounts for 2004–05 in the Libraries of both Houses.

The annual report details that the service met nine of its 11 key targets. It also outlines that of the comprehensive programme of 28 development objectives set for the service, 15 were achieved, five were partially achieved and substantial progress made towards meeting the remaining eight.

| *Key Business Area* | *Key Targets* | *Outturn* |
|---|---|---|
| *Security* | No escape for top and high-risk prisoners. | MET—No escapes in this category. |
| | No more than three escapes per 1,000 medium and low risk prisoners. | MET—One escape in September 2004. |
| *Safety* | The number of staff assaulted by prisoners is less than a ratio of five per 100 prisoners. | MET—Outturn for the year was 0.6 per 100 prisoners. |
| | The number of prisoners assaulted by prisoners is less than a ratio of six per 100 prisoners. | MET—Outturn for the year was 0.9 per 100 prisoners. |
| *Regimes and reducing re-offending* | An average of at least 18 hours constructive activity per week for each sentenced prisoner. | NOT MET—17.4 hours per week achieved. |
| | An average of at least nine hours constructive activity per week for each remand prisoner. | MET—9.5 hours per week achieved. |
| | To ensure 82.5 per cent. of prisoners serving six months or more are working to a resettlement plan and that 95 per cent. of lifers work to a resettlement plan, including preparation of the plan, in the first six months from sentence. | MET—Outturn of 86.7 per cent. for determinate prisoners and 96.3 per cent. for life sentence prisoners. |
| *Staff and developing the service* | Deliver at least 85 per cent. of the planned training days associated with the agreed corporate training priorities. | NOT MET—The final end of year overall percentage was 77 per cent. |
| | Reduce the rate of absenteeism to an annual average of no more than 19 days per head. | MET—Average staff sickness days per head was 16. |
| *Finance, corporate governance and improving business performance* | Ensure the average cost per prisoner place does not exceed the target to be agreed with HM Treasury. | MET—The Prison Service met its 2004–05 CPPP target of £86,800 as agreed with Treasury. The actual 2004–05 CPPP outturn was £85,935. |
| | Lay the Annual Report and Audited Accounts before Parliament prior to the summer recess. | MET—Annual Report and Audited Accounts laid before Parliament on 20 July 2004. |

## SOLICITOR GENERAL

### Serious Fraud Office

**The Solicitor-General (Mr. Mike O'Brien):** The annual report of the Serious Fraud Office has today been published and laid before Parliament. Copies have been placed in the Libraries of both Houses.

## TRADE AND INDUSTRY

### Coal Authority

**The Minister for Energy (Malcolm Wicks):** I have laid before the House a copy of the Coal Authority report and accounts for 2004–05.

## TRANSPORT

### Highways Agency

**The Minister of State, Department for Transport (Dr. Stephen Ladyman):** The Highways Agency annual report and accounts for 2004–05 is published today in accordance with section seven of the Government Resources and Accounts Act 2000. Copies of the report have been placed in the Libraries of both Houses. Copies are available from the Vote Office.

### Rail Freight

**The Secretary of State for Transport (Mr. Alistair Darling):** As prosperity and the demand for goods grow, efficient freight transport is increasingly vital to the UK economy. The Railways Act 2005 has placed responsibility for rail freight in England with the Department for Transport and, with the repeal of section 206 of the Transport Act 2000, the SRA's 2001 Rail Freight Strategy will cease to be in force. It is important, therefore, that the Government restate clearly their objectives for rail freight.

The Ten Year Plan for Transport, published in 2000, forecast potential growth in rail freight of up to 80 per cent. to 2010. This was interpreted by many as a target, though we had always made it clear that actual growth would depend on a number of factors—in particular, the success of rail freight operators in winning business in highly competitive markets.

In fact, although it is now recognised that the 80 per cent. forecast is unlikely to be met, growth in the rail freight market has been impressive. Rail freight is a thriving and competitive private sector industry, and since privatisation (1995), levels of freight moved have increased by 55 per cent. (measured in tonne km). Rail freight's market share also increased over the same period from 8.5 per cent. to 11.5 per cent.

The Government welcome this growth and wish to see it continue. Our clear policy aim is to see goods being moved in a sustainable way, which maximises benefits to the economy and to society. For instance, because they generally have less impact on society than road transport, rail and water freight can bring substantial benefits. In 2004–05, the rail freight industry moved the equivalent of over 7 million lorry journeys and saved 1.43 billion lorry kilometres, delivering significant reductions in pollution and congestion. We believe rail therefore has a crucial role to play in goods transport alongside other modes, and we wish to see freight travelling by rail instead of road wherever this makes most sense.

This aim can be delivered most effectively by a competitive and dynamic private sector rail freight industry, and this is borne out by the growth since privatisation, which has been driven by real on-rail competition throughout the industry, including several new entrants to the market. We will not dictate to the industry how it should run its business or become involved in operational issues. Where disputes occur with other parts of the railway, they should be resolved through established rail industry dispute procedures.

But the Government do have a role to play and a relationship with the rail freight industry. Rail freight companies run on the same tracks as the publicly specified passenger railway, so the Government have to be mindful of their needs. And the Government recognise and wishes to encourage the important environmental and economic benefits that rail freight can bring.

We will therefore ensure that our policies and regulations do not put unnecessary obstacles in the way of future growth; we will continue to provide financial support where it is affordable and offers the greatest environmental, congestion and safety benefits when assessed alongside support for other modes; and we will ensure that in specifying the passenger railways, we recognise and take into account the consequences of our decisions upon the rail freight industry.

To achieve this, we will:

*Continue to support the principle of incremental access charges for freight operators*

Rail freight's ability to compete against road and other modes is dependent upon stable and affordable charging for access to the network. The Government support this and believe it is best achieved through the principle of freight operators paying charges which reflect only the costs that they impose upon the network (in line with the charging principles set out in EU Directive 2001/14). We will therefore work with the rail industry to ensure this remains the case—for instance, providing clear guidance if and when the level of freight charges is reviewed by the ORR.

*Work with the freight industry to understand its needs when setting the strategy for the rail network, and to provide the greatest possible certainty of access*

In order for rail freight companies and their customers to invest, they need certainty about where and when they can run trains on the network. The Government will work with the industry to develop robust demand forecasting and modelling tools, and to ensure that it understands the needs of the freight industry when developing its high level output specification and other key policies. We will ensure that our appraisal methodologies treat freight and passenger interests equitably, and we have also committed through the Railways Act to ensuring that appropriate compensation will be provided should the contractual interests of freight companies or others be impaired by changes in outputs. In addition, we welcome Network Rail's decision to produce a national freight utilisation strategy, which will act as a key input to the route utilisation strategies, and also the ORR's recently published policy that UK freight operators should be eligible for access contracts of up to ten years (and longer in exceptional circumstances).

*Ensure grant funding is targeted to deliver the maximum benefits in terms of reducing congestion, pollution and accidents*

From 2007-08, the Government's funding programmes for rail freight, including the reopened freight facilities grant, will be incorporated alongside water and road freight grant programmes into a cross-modal Sustainable Distribution Fund. This will prioritise funding across all three modes to favour those grants that offer the maximum benefits for the money being spent. In the meantime, the Department will consider in consultation with the industry the most appropriate future form for Company Neutral Revenue Support and other grant programmes (which may include opening funding to flows originating from the Channel Tunnel) within the Sustainable Distribution Fund, and seek renewed state aids clearance.

*Work to ensure that regional and local planning decisions reflect Government priorities relating to the sustainable movement of goods*

We wish to see private sector investment in major rail freight facilities, such as intermodal terminals, continue. It is not appropriate for the Government to promote individual schemes—it is for the private sector to develop proposals and progress them through the necessary approvals including planning consent. But the Government do want due account to be taken of our policy goals for the sustainable movement of goods. This does not imply an active role in individual cases, but if necessary we will be ready to act to ensure decision makers are better informed particularly in the application of planning guidance. We will also be ready to consider changes to planning guidance where appropriate.

*Work with the industry and Network Rail to establish how freight growth can be accommodated on the network*

The ORR is currently carrying out work in conjunction with Network Rail to establish the baseline capability of the network. Once that has been completed, we will consider with the industry how we can support, fund and accommodate change. This could be through reallocations of capacity within the existing network which make sense for both passengers and freight, incorporating incremental freight benefits into planned renewals, or considering how freight-specific enhancements might be taken forward by either the private sector or, in the long-term, the Government (subject to strict affordability and value for money criteria).

*Work with the devolved administrations, and with the EC to ensure a consistent UK—and Europe-wide approach to rail freight*

Rail freight is a cross-border business. The Railways Act gave increased powers to support rail freight to the devolved administrations, and we will work with them (and with other partners such as TfL and the Passenger Transport Executives) to ensure that policies relating to rail freight across the UK are consistent. We will also continue to work with the EC to liberalise access to the wider European rail freight market and increase competition, including through the Channel Tunnel.

## Transport Modelling (South-East)

**The Minister of State, Department for Transport (Dr. Stephen Ladyman):** I have today placed in the Libraries of both Houses a report on modelling work commissioned by the Department for Transport to look at the impact of projected levels of development and population and economic growth on the transport networks in the wider south-east at a strategic level in 2016. The report "Wider South-East Regional Research Study" can also be obtained from the Department's website.

## M6 Capacity

**The Minister of State, Department for Transport (Dr Stephen Ladyman):** On the 6 July last year the Secretary of State announced a consultation on the issue of building a new expressway to run parallel with the M6 between Birmingham and Manchester as an alternative to the widening proposal announced to the House in December 2002.

The consultation, which sought views on whether the Highways Agency should carry out more detailed development work and a feasibility study, closed on 21 October 2004. Approximately 9,500 responses from a range of stakeholders were analysed. A breakdown of the responses has been placed in the Library of the House.

The M6 is an important transport artery linking the midlands and the north-west. An investment of £7.6 billion has been made to upgrade the west coast main line, part of which runs through this artery. However, the Government have accepted the need for more road capacity, as shown by the midlands to Manchester multi-modal study. The issue is how best that capacity can be provided taking full account of the impact of construction—through a widening scheme, or via an expressway running broadly parallel to the existing route.

Providing additional capacity to the M6 between Birmingham and Manchester, whether in the form of widening the existing motorway or a tolled expressway, will require a huge investment. It is vital that we examine the options carefully and choose the right way to provide the capacity needed.

The Secretary of State has considered the views expressed in the consultation. While it is clear that there is no consensus in favour of the expressway proposition, the option is no more than an outline at this stage. More evidence on the widening and expressway propositions is needed before a decision on a preferred option can be taken.

I have therefore asked the Highways Agency to carry out detailed development work on the expressway and a feasibility study to compare the impacts of the costs and benefits of the expressway with those of widening. Both expressway and widening options will be worked up in parallel. The next stage is a decision on which option to take to public inquiry, following further consultation on the options. I have asked the Highways Agency to provide further advice with a view to taking that decision next year. Whichever option is chosen, the financial, economic and environmental appraisal work to be carried out over the coming year will be required

before we can publish draft orders setting out our proposals. The Highways Agency will consult and work with local stakeholders and the statutory environmental agencies during the detailed development work.

The work on widening will examine the technological and physical practicalities of locking in the benefits of that additional capacity. This will involve considering a number of measures, which could be used individually or in combination, such as access management; segregated lanes for priority traffic; speed controls; and pricing on the new capacity.

The expressway would take around a year longer to bring to public inquiry than the widening proposal, because of the need to appoint a concessionaire. However, this additional time would be made up during construction, because the expressway would be built alongside the existing motorway. In contrast, widening the existing motorway would involve extensive traffic management during construction, which would lengthen the construction timescales by about a year. Our current best estimate is that work on the widening scheme could start on the ground in 2011 with the scheme opening to traffic in 2016; and that work on the expressway could start on the ground in 2012 with the scheme opening to traffic in 2016. This is in line with the estimated delivery date of the widening as reported by the midlands to Manchester multi-modal study.

## WORK AND PENSIONS

### Benefit Fraud Inspections Council

**The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt):** On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI inspection report on Cherwell district council was published today and copies have been placed in the Library.

In 2003–04 Cherwell district council administered some £22 million in housing benefits, about 36 per cent. of its gross revenue expenditure. The council takes a strong stance against benefit fraud. The benefits investigation team is committed to delivering a professional, high-quality service and is well supported by Members and senior managers.

The good practices identified in the report include:

- comprehensive guidance for investigators and administration staff, including a code of conduct for investigators;
- an electronic fraud referral form and development of an on-line fraud awareness training package;
- good relationships with the council's benefits staff and the Department for Work and Pensions' Counter-Fraud Investigation Service;
- a high success rate in the prosecution of joint investigation cases.

However, the council did not fully comply with the Department's security against fraud and error scheme nor follow the Department's guidance in some interviews under caution. The report also notes that:

- internal audit has not audited the benefits investigation team for seven years;
- no formal risk assessment of fraud referrals is undertaken;
- the council does not always follow its own policy criteria when deciding on the most appropriate sanction to offer or document the reasons for not following it;
- management checks are not carried out consistently and comprehensively, and all action taken during an investigation is not always recorded on the file in accordance with the Department's guidance.

My right hon. Friend the Secretary of State is considering the report and may ask the council for its proposals in response to BFI's findings.

**The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt):** On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI inspection report on Doncaster metropolitan borough council was published today and copies have been placed in the Library.

In 2003–04 Doncaster metropolitan borough council administered some £68 million in housing benefits, about 12 per cent. of its gross revenue expenditure. The council gives a high priority to combating benefit fraud and complies with all significant aspects of the security against fraud and error scheme. The council's investigations team is well supported by members and managers. BFI found a number of good practices, including:

- an experienced and well trained investigation team;
- a comprehensive suite of process control documents;
- a comprehensive fraud management IT system with a well developed reporting facility;
- promoting good quality fraud referrals from a variety of sources, particularly the visits team,the benefits team and the Department's Counter-Fraud Investigation Service;
- setting and achieving demanding sanctions' targets.

The council is providing a high standard counter-fraud service which performs well. For example, from April to December 2004 eight cases were successfully prosecuted and 30 formal cautions and 48 administrative penalties were raised. BFI is concerned, however, that the council do more to gather sufficient evidence in every case leading to an interview under caution. My right hon. Friend the Secretary of State is considering the report and may ask the council for its proposals in response to BFI's findings.

**The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt):** On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI inspection report on Wrexham county borough council was published today and copies have been placed in the Library.

In 2004–05 Wrexham county borough council administered some £27 million in housing benefits, about 11 per cent. of its gross revenue expenditure. The council's anti-fraud section was committed to detecting and preventing benefit fraud. A number of good practices were identified, including:

- interviews under caution are witnessed in a high proportion of the cases that were sampled;
- all the fraud investigation officers have had professionalism in security training;
- appropriate and fully documented use of authorised officers' powers.

However, senior management must ensure that all staff are aware of and fully understand the policies and procedures relating to their area of work. The report notes that there is a lack of understanding as to how the council's sanctions policy should be applied, and this has resulted in some sanctions being applied that did not comply with the policy or the Department's guidance.

The lack of a systematic checking regime means that the council can only have limited assurance on the quality of its counter-fraud activities. Improvements are also required in the quality and quantity of management information collected and analysed.

My right hon. Friend the Secretary of State is considering the report and may ask the council for its proposals in response to BFI's findings.

**The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt):** On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI inspection report on East Staffordshire borough council was published today and copies have been placed in the Library.

In 2003–04 East Staffordshire borough council administered some £16 million in housing benefits, about 40 per cent. of its gross revenue expenditure. Although the council was not at standard for any of the seven functional areas of performance standards it was providing a fair towards good service in housing benefit and council tax benefit administration and counter-fraud activities.

The council had a clear vision and had initiated a major business transformation programme during 2003–04 to radically improve the way it delivered its benefits service. This programme had culminated in the introduction of new IT systems for its benefits and council tax administration and a document image processing system.

As well as implementing new processes and procedures, East Staffordshire Borough Council improved performance. It cut the processing of new claims from an average of 89 days in 2002–03 to an impressive 33 days. A high standard of personal service was being provided to customers by professional, knowledgeable and courteous staff. Readily accessible customer information helped to ensure customer enquiries were dealt with promptly. However, this was let down by very little activity being undertaken to encourage benefit take-up. East Staffordshire borough council had recognised this as an area for improvement and planned to increase customer consultation and take-up initiatives in the future.

However, the council had not made full use of available management information and this and inadequate management checking meant there was limited assurance about the accuracy of claims processed.

Efforts to counter fraud were also improving. The requirements of the verification framework were being met. A number of sanctions, including successful prosecutions and administrative penalties, had been applied. However, more needs to be done to sustain improvement, including the sifting of referrals and management checks on investigations and the use of a wider range of overpayment recovery methods.

My right hon. Friend the Secretary of State is considering the report and may ask the council for its proposals in response to BFI's findings.

**The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt):** On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI inspection report on Maldon district council was published today and copies have been placed in the Library.

In 2004–05 Maldon district council administered some £11million in housing benefits, about 50 per cent of its gross revenue expenditure. The council is committed to tackling benefit fraud and its counter-fraud work was well supported by members and senior managers. Demanding targets for fraud work were set and achieved. Investigations were subjected to a thorough checking regime and there was a clear process for authorising and applying sanctions. The council had a good working relationship with the Department's counter-fraud investigation service and had successfully undertaken joint investigations leading to sanctions. The Police and Criminal Evidence Act 1984 was strictly adhered to and surveillance activity carried out in accordance with legislation. But the council was not fully complying with the security against fraud and error scheme in that a clear admission to the offence was not obtained before the offer of a caution to the customer.

Investigations resulting in administrative penalties and prosecutions were carried out to a high standard, and interviews under caution were conducted in accordance with the relevant legislation.

My right hon. Friend the Secretary of State is considering the report and may ask the council for its proposals in response to BFI's findings.

**The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt):** On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI inspection report on Shepway district council was published today and copies have been placed in the Library.

In 2003–04 Shepway district council administered some £30 million in housing benefits, about 48 per cent. of its gross revenue expenditure. The council is keen to take a strong stance against benefit fraud. The work of the fraud team is well supported by members, the chief executive and senior officers.

Good practices include:

- a code of conduct for counter-fraud investigators;
- well trained and experienced fraud staff;
- authorised officers are registered with the Department and are working well, within the legislation;
- all surveillance is authorised and reviewed regularly;
- excellent publicity for the prosecutions that the council has undertaken.

However, BFI found weaknesses in the investigation process and in the management of the fraud team, including:

- interviews under caution were very brief, with poor interviewing techniques being used in some cases;
- errors and omissions in both the case log notes and paperwork;

the council's sanction criteria are too vague to be applied consistently and reasons for variance are not always fully documented;

surveillance was not always proportionate or effective;

management checks are not carried out, and all action taken during an investigation is not always recorded on the file in accordance with the Department's guidance.

The council recognises the need to improve practices in those areas and has asked for support from BFI's performance development team.

My right hon. Friend the Secretary of State is considering the report and may ask the council for its proposals in response to BFI's findings.

**The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt):** On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI inspection report on North West Leicestershire district council was published today and copies have been placed in the Library.

In 2004–05 North West Leicestershire district council administered some £13 million in housing benefits, about 28 per cent. of its gross revenue expenditure. There was commitment at all levels within the council to deter and prevent fraud. The work of the council's benefits inquiry unit was well supported by members and managers and BFI found a number of good practices.

BFI was impressed with the commitment shown by the benefits inquiry unit to combat benefit fraud. It had raised a large number of sanctions in relation to the number of staff and its caseload. However, there were delays in informing suspects of the outcome of the investigation, and no formal management checking of cases. Overall, the council was tackling fraud effectively.

My right hon. Friend the Secretary of State is considering the report and may ask the council for its proposals in response to BFI's findings.

**The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt):** On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI inspection report on North Norfolk District Council was published today and copies have been placed in the Library.

In 2003–04, North Norfolk district council administered some £18 million in housing benefits, about 32 per cent of its gross revenue expenditure. Overall, although the council did not meet any of the seven functional areas of performance standards, it was providing a fair standard in housing benefit and council tax benefit administration and counter-fraud activities.

Surveys by the council showed high levels of customer satisfaction in terms of the physical reception facilities, the quality of advice available and improvements in the speed of the service. But the council had been striving to cope with a backlog of work since June 2004 and processing delays meant performance was below the standards required to decide new claims and changes of circumstances.

The council's counter-fraud work was under-resourced. The council operated from December 2003 until September 2004 without any investigators and had not achieved any successful prosecutions. Overpayments arose because notified changes of circumstances were not dealt with promptly and overpayment recovery was ineffective. Management information necessary to monitor the level and age of housing benefit debt was not collected.

My right hon. Friend the Secretary of State is considering the report and may ask the council for its proposals in response to BFI's findings.

**The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt):** On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI inspection report on Berwick-upon-Tweed borough council was published today and copies have been placed in the Library.

In 2003–04, Berwick-upon-Tweed borough council administered some £5.6 million in housing benefits, about 30 per cent, of its gross revenue expenditure. The council gives high priority to combating benefit fraud and is committed to complying with all aspects of the security against fraud and error scheme. The counter-fraud investigation team works hard to deliver a professional and high quality service. The team is well supported by the leader of the council, members, the chief executive and senior managers.

The report notes a number of good practices, including:

good working relations with key stakeholders;

a high standard of recording and filing of documentation in case files;

a high percentage of referrals investigated;

accurate subsidy claims that fully comply with Departmental guidance;

vigorous recovery of fraud overpayments and administrative penalties.

However, some important weaknesses were identified:

poor interviewing techniques;

delays in investigation activity;

interviews under caution not fully complying with legislation and Departmental guidance;

no systematic management checking regime;

The council demonstrated its commitment to improve performance by revising some procedures during the on-site phase of the inspection, including the management of formal cautions, and by acknowledging that other areas need improvement.

My right hon. Friend the Secretary of State is considering the report and may ask the council for its proposals in response to BFI's findings.

### Disability Rights Commission

**The Parliamentary Under-Secretary of State for Work and Pensions (Mrs. Anne McGuire):** The Disability Rights Commission's annual report and accounts 2004–05 have been published today and laid before Parliament. The DRC's annual report of its activities in the last accounting year amply demonstrates its continuing success in its important work to eliminate discrimination against disabled people; to promote equal opportunities; to encourage good practice and to keep the working of the Disability Discrimination Act and the DRC Act under review.

# Written Ministerial Statements

*Wednesday 20 July 2005*

## CABINET OFFICE

### Better Regulation Bill

**The Chancellor of the Duchy of Lancaster (Mr. John Hutton):** A copy of the consultation document on proposals for a Better Regulation Bill is today being placed in the House Library and on the website of the Cabinet Office Better Regulation Executive at:

http://www.cabinetoffice.gov.uk/regulation/better_regulation_bill/index.asp.

The consultation exercise will run from 20 July to 12 October.

The proposals will make it simpler to remove or amend outdated, unnecessary or over complicated legislation, and make it easier to streamline regulatory structures in the private sector.

The Bill will also help deliver the Better Regulation Task Force "Less is More" recommendations for administrative burdens reductions and rolling simplification programmes across Whitehall. It will also enable the delivery of some of the Hampton report recommendations for reform of the regulators.

## TREASURY

### Ten-Year Science and Innovation Investment Framework

**The Financial Secretary to the Treasury (John Healey):** HM Treasury, the Department of Trade and Industry and the Department for Education and Skills are today publishing "The ten-year Science and Innovation Investment Framework Annual Report 2005". Alongside this, HM Treasury, HM Revenue and Customs and the Department of Trade and Industry are also publishing "Supporting growth and innovation: enhancing the R & D tax credit". Copies of both documents are available in the Library of the House.

## CONSTITUTIONAL AFFAIRS

### MCSI Inspection of Court Services Annual Report for 2004–05

**The Minister of State, Department for Constitutional Affairs (Ms Harriet Harman):** The MCSI Inspection of Court Services annual report for 2004–05 has been laid before Parliament today. This document gives full details of MCSI's performance for that year. Copies of the report have been placed in the Libraries of both Houses.

### Legal Services Commission Annual Report 2004–05

**The Parliamentary Under-Secretary of State for Constitutional Affairs (Bridget Prentice):** The Legal Services Commission (LSC) has today published its annual report for the financial year 2004–05 which includes its statement of annual accounts.

Paragraph 14 of schedule 1 to the Access to Justice Act 1999 requires the Legal Services Commission to provide to the Secretary of State, as soon as possible after the end of each financial year, a report on how it has:

funded services from the Community Legal Service (CLS) Fund,

funded services as part of the Criminal Defence Service (CDS) and

exercised its other functions.

Sub-paragraph 14(3) requires the Secretary of State to lay a copy of the annual report before each House of Parliament, and for the LSC to publish it.

## DEFENCE

### Aircraft Environmental Noise

**The Parliamentary Under-Secretary of State for Defence (Mr. Don Touhig):** The House will be aware from recent Adjournment debates that military flying activity is essential if we are to maintain operational capability. However, we also take our commitment to minimise, as far is reasonably practicable, the impact of noise on local communities. We have therefore conducted a study on aircraft environmental noise. The report is today being placed in the Library of the House and is published on the Ministry of Defence website at:

http://www.mod.uk/linked_files/dsc/env/aen_report.pdf.

We will continue to strive for a fair balance between our need to fly and the effect of aircraft noise on local communities.

### BFPO Key Targets

**The Minister of State for the Armed Forces (Mr. Adam Ingram):** The Key Targets have been set for the Chief Executive of BFPO for the Financial Year 2005–06. The targets are as follows:

*Key Target 1.* To provide a 100 per cent. secure Defence Courier Service (DCS) for the carriage of Protectively Marked Material (PMM). This target is broken down into the following sub targets:

PI 1: 100 per cent. of packages to reach the required destination.

PI 2: 100 per cent. availability of the DCS capability.

*Key Target 2.* To provide a secure Defence Courier Service for the carriage of Protectively Marked Material (PMM) operating within timescales for scheduled and special items at not less than 98.7 per cent. of that agreed with customers.

*Key Target 3.* To provide a resilient and dependable service for the controlled and specialised handling of Defence Official Mails by operating at least 96 per cent. of deliveries within scheduled timings, agreed with customers.

*Key Target 4.* To meet 96 per cent. of the requirements negotiated and agreed with customers for the transit times for delivery and collection at Defence Mail Centres (DMCs). This target is broken down into the following sub targets:

PI 1: 96 per cent. of mail delivered to DMC by Defence Mail Service (DMS)/Parcelforce (PF)/ Royal Mail (RM) to be sorted and ready for delivery within one hour and ten minutes of receipt.

PI 2: 96 per cent. of mail delivered to DMCs by DMS/PF/RM to be delivered to local customers the same day.

PI 3: 98 per cent. of mail delivered/collected into DMCs from local customers before 1500 hours to be sorted within one hour and ten minutes of receipt.

*Key Target 5.* To meet 95 per cent. of the agreed customer requirement for the movement of private and official mails from BFPO London to authorised overseas destinations within agreed timescales. This target is broken down into the following sub targets:

PI 1: 95.5 per cent. or more of deliveries of private and official mail to static locations world-wide (less British Forces Germany) within agreed timescales.

PI 2: 98 per cent. or more of deliveries of private and official mail to British Forces Germany within agreed timescales.

PI 3: 93.5 per cent. or more of deliveries of private and official mail to Operational and exercise locations within agreed timescales.

PI 4: 95.5 per cent. or more of deliveries of private and official mail to HM Ships within agreed timescales.

*Key Target 6.* Total year-on-year Direct Resource Departmental Expenditure Limit cost growth to be no more than Defence inflation less 1 per cent. This is an efficiency measure for continuous improvement whilst maintaining an effective level of service to our customers in accordance with the Service Level Agreements.

## Military Low Flying

**The Parliamentary Under-Secretary of State for Defence (Mr. Don Touhig):** The amount of low flying training carried out in the UK Low Flying System (UKLFS) during the training year April 2004 to March 2005 was the minimum required for aircrew to reach and maintain their ability to fly at low level. The number of low flying training hours booked in the UKLFS (excluding the Rotary Wing Dedicated user Areas, where different booking arrangements apply) was 46,678 hours, a slight increase of 1,616 hours in comparison with the previous training year. This increase can be mostly attributed to the need by helicopter aircrew to convert to use of the Apache Attack helicopter, and the Merlin helicopter. The level of Operational Low Flying by fixed wing aircraft reduced by over 25 per cent. when compared to the last training year.

The Ministry of Defence is committed to ensuring that low flying training across the UK is spread as widely as is practically possible across the UK so that no single area is too burdened. However, due to a variety of reasons, population distribution and geographical and climate restrictions, it is unavoidable that some areas of the country may experience more activity than others.

I have today placed in the Library of the House a report giving a detailed account of the low flying training that has taken place in the UK Low Flying System for the training year April 2004 to March 2005.

Additional copies of *The Pattern of Military Low Flying Across the UK 2004–05* are available on request from the following address:

Directorate of Air Staff
Complaints and Enquiries Unit
Ministry of Defence
Level 5 Zone H
Main Building
Whitehall
London SW1A 2HB

Alternatively it can be viewed on the MOD's website: www.mod.uk/issues/lowflying.

## Watchkeeper

**The Secretary of State for Defence (John Reid):** Networked enabled capability is the way we intend to improve our operational effectiveness on the battlefield through more efficient and effective sharing and exploitation of information by our armed forces, both with each other and with our coalition partners. We have recognised that unmanned aerial vehicles—UAVs—have the potential to contribute significantly though their ability to provide persistent surveillance of the battlefield, providing UK commanders with accurate, timely and high quality imagery to support decision making.

Last year my predecessor announced the selection of Thales Defence Ltd as the preferred bidder for the WATCHKEEPER tactical UAV programme. We have now negotiated an affordable solution with the company and I am pleased to announce today that we can move forward to the demonstration and manufacture phase of this important programme, subject to finalisation of a contract with Thales, worth around £700 million. We plan to deliver this capability incrementally from 2010.

Thales Defence Ltd is an international company directly employing some 11,000 people in the UK. It leads a strong international team including Elbit Systems Ltd, Cubic Defence and Boeing. Thales will lead on systems integration and bring considerable experience in sensors and command and control systems to the programme. Thales have confirmed their intention to complete the bulk of production in the UK, so this announcement is very good news for UK industry. The company estimates that up to 2,000 UK jobs, in Crawley, Leicester and across the UK, will be created or sustained and with export success this could rise further.

The WATCHKEEPER system is a new capability that will provide an all-weather, day and night capability. By integrating long endurance unmanned air vehicles, advanced sensor payloads and ground control facilities we will be able to direct surveillance and reconnaissance activities from the ground, putting fewer

lives at risk, gather information, enhance our target acquisition ability and cue weapon systems in a hostile environment.

This decision to fund a contract for the development and manufacture phase of this programme is a major step forward and demonstrates significant progress in the delivery of new capability and the migration towards NEC. Our evaluation of Thales' bid has been extremely thorough and we have engaged fully with the company to ensure we obtain the best value for money and the right equipment for our armed forces.

### RAF Training Group Defence Agency

**The Parliamentary Under-Secretary of State for Defence (Mr. Don Touhig):** The commander-in-chief, Royal Air Force Personnel and Training Command has set the chief executive of the Training Group Defence Agency the following targets for Financial Year 2005–06:

*Key Target 1*

*Output—RAF Initial Flying Training*

To recruit and train the required number of Royal Air Force aircrew to the standards required for entry to operational conversion unit training and other specialist flying training courses.

To compensate for the variations in the individual pipelines, successful achievement will be assumed if the total number of graduations is within 5 per cent. of target requirement. This KT subsumes the need for separate KTs for each of the specialisations. Individual Targets continue to be set for each specialisation for the next four years and are monitored through the Training Group Performance Management Plan.

| | |
|---|---|
| Commissioned aircrew Outturn | 5% of target requirement |
| Non-Commissioned Aircrew Outturn | 5% of target requirement |
| Overall Outturn | 5% of target requirement |

*Key Target 2*

*Output—RAF Initial Ground Training*

To recruit and train the required number of Royal Air Force personnel to the standards required to undertake ground appointments.

To compensate for variations in the individual recruiting and training pipelines, successful achievement of this target will be assumed if the total number of graduations is +/− 5% of the target.

| | |
|---|---|
| Overall Outturn | 5% target requirement |
| Officer Basic Specialist Training | 5% of target requirement |
| Airman Basic Specialist Training | 5% of target requirement |

*Key Target 3*

*Output—Defence Initial Ground Training*

To train the required number of Royal Navy and Army personnel to the standards required to undertake ground appointments.

To compensate for variations in the individual recruiting and training pipelines, successful achievement of this target will be assumed if the total number of graduations is +/− 5% of the target.

| | |
|---|---|
| Overall Outturn | 5% of target requirement |
| Officer Basic Specialist Training | 5% of target requirement |
| Ors Basic Specialist Training | 5% of target requirement |

*Key Target 4*

*Output—Defence Flying Training*

To train aircrew of the Royal Navy and Army to standards for entry operational conversion unit training and other specialist flying training courses, as well as providing training places for international students.

| | |
|---|---|
| RAF | 560 |
| RN | 164 |
| Army | 305 |
| Tri-Service | 95 |
| International | 111 |
| Total | 1,235 |

*Key Target 5*

*Output—Defence Ground Training*

To train personnel of the 3 Services to the standard required for career development and to undertake ground appointments.

| | |
|---|---|
| RAF | 17,077 |
| RN | 2,585 |
| Army | 7,413 |
| Total | 27,075 |

*Key Target 6*

*Quality of Output*

To underpin the military effectiveness of the Royal Air Force by the timely provision of military personnel trained to the standards agreed with the Agency's customers.

*Key Target 7*

*Efficiency*

To reduce the average cost of training by improving first time and overall pass rates.

## EDUCATION AND SKILLS

### Gateways to the Professions Report

**The Minister for Lifelong Learning, Further and Higher Education (Bill Rammell):** I am able to inform the House that the Secretary of State for Education and Skills has received a copy of Sir Alan Langlands' report examining the gateways to the professions.

Sir Alan Langlands was appointed by the Secretary of State for Education and Skills (Mr. Clarke) last year, following the debate on the Higher Education Bill, to act as an independent person to oversee the report. The announcement about his appointment and the terms of reference was made in a statement to the House on 12 February 2004. Sir Alan was asked to examine how the public sector and the professions can sustain and improve recruitment opportunities for graduates, especially those who do not qualify for the full

£3,000 support that will be available in grants and bursaries under our plans to introduce variable fees from 2006. He was asked to put forward recommendations on actions that can be taken by employing organisations to provide clear and accessible gateways for all graduates who want to pursue such careers and which will benefit the recruitment needs of these sectors.

Sir Alan formally started his work on 1 July 2004, following Royal Assent of the Higher Education Bill, and I am extremely grateful to him for submitting his report within the timescale agreed. Sir Alan has agreed that his report should be published, along with the Government's response, in the autumn.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Annual Review of Controls on Imports of Animal Products

**The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Mr. Ben Bradshaw):** As required under the Animal Health Act 1981 (as amended by the Animal Health Act 2002) the Government will publish today a review of controls on the import of animal products for the financial year 2004–05. We welcome the opportunity to report on progress made in the past year.

This has been delivered by continuing to follow the three key principles of: investment in enforcement; securing better public engagement and awareness; and gaining a greater understanding of the risks.

DEFRA continues to work closely with HM Revenue and Customs, the Food Standards Agency, and Local/Port Health Authorities to provide a joined-up approach to risk based targeting of enforcement, and intelligence sharing. There continues to be a significant increase in seizures of illegally imported animal products when compared to previous years.

Successful specific targeted phases of publicity activity to raise awareness of the restrictions on the import of products of animal origin, both at home and abroad, have been undertaken as part of our overall ongoing campaign.

The Government continue to develop their approach to managing the risk posed by illegal imports, and examine risk across the board, including legal and illegal imports, EU and third country trade, and live animals to get a picture of relative risk, to help determine future enforcement strategy.

Copies of the review will be placed in the Libraries of both Houses and on the DEFRA "personal food imports" website at: www.defra.gov.uk/animalh/illegali. Hard copies will be available on request.

## FOREIGN AND COMMONWEALTH AFFAIRS

### Afghanistan/UK Enduring Relationship

**The Secretary of State for Foreign and Commonwealth Affairs (Mr. Jack Straw):** I wish to inform the House that my right hon. Friend the Prime Minister and His Excellency Hamid Karzai, President of the Islamic Republic of Afghanistan, signed a joint declaration of an enduring relationship between the UK and Afghanistan on 19 July, a copy of which I have placed in the Library of the House.

### 2004 Annual Report on Strategic Arms Controls

**The Minister for the Middle East (Dr. Kim Howells):** The 2004 annual report on Strategic Export Controls will be published at 1400 today as a Command Paper. Copies will be placed in the Library of the House. The report includes information on licensing decisions made during 2004 as well as describing UK policy and international developments in export control regimes.

The annual report on Strategic Export Controls is an innovation of this Government. Our defence export licensing system is one of the most rigorous and open regimes in the world and the annual report symbolises our commitment to accountability and transparency. Since 2004 the Government have also produced quarterly reports. This will be the Government's eighth annual report (the first report was published in 1997). The report will be available on the Foreign and Commonwealth Office website (www.fco.gov.uk) and also published through the stationery office. This year, due to the increasing volume of information on strategic exports that is being published by the Government, the annual report will be available on a CD ROM. This CD will also include quarterly reports in 2004, information on licence refusals and further information on trade licences issued.

### Wilton Park's Annual Report and Accounts

**The Secretary of State for Foreign and Commonwealth Affairs (Mr. Jack Straw):** Wilton Park is an academically independent executive agency of the Foreign and Commonwealth Office. Its annual report and accounts for 2004–05 is published today.

Highlights of the last year include: the greatest ever number of conferences held by Wilton Park—58; an increase in the number of overseas conferences, including the first ones held in the Arab world and sub-Saharan Africa; continued high ratings from participants of the value of Wilton Park conferences (although these were slightly below a demanding target).

Wilton Park's performance against agreed targets for 2004–05 is shown below.

| | *2004–05 Target* | *2004–05 Performance* |
|---|---|---|
| Total income | £3.9 million | £3.7 million |
| Excellent rating for programmes | 57 per cent. | 54.5 per cent. |
| Excellent rating for administration | 89 per cent. | 84.2 per cent. |

Targets for 2005–06 are:

*Target 1:* Wilton Park should achieve an average "excellent" rating for their programme higher than the previous year's rating of 54.5 per cent.

*Target 2:* The impact of Wilton Park conferences on policy and opinion should receive the positive endorsement of its Academic Council and the FCO.

*Target 3:* Wilton Park should recover all its running costs from conference and commercial income. Total planned income for 2005–06 is £4.2 million

## HEALTH

### Commission for Patient and Public Involvement in Health

**The Minister of State, Department of Health (Ms Rosie Winterton):** The 2004–05 annual report for the Commission for Patient and Public Involvement in Health, HC194, was laid before Parliament today. Copies are available in the Library.

### NHS Estates and Facilities Management Development Agency Annual Report and Accounts

**The Minister of State, Department of Health (Jane Kennedy):** We have received the NHS Estates and Facilities Management Development Agency annual report and accounts 2004–05 and copies have today been laid in accordance with the requirements of section 5 of the Exchequer and Audit Departments Act 1921.

The report describes the agency's performance against key tasks and targets and incorporates its accounts for that year.

Copies of the annual report and accounts 2004–05 have been placed in the Library.

### Variant CJD

**The Parliamentary Under-Secretary of State for Health (Caroline Flint):** Further to the statements made to the House by the then Secretary of State my right hon. Friend the Member for Airdrie and Shotts (John Reid), on 17 December 2003 and 16 March 2004 (and the written statements of 22 July 2004 and 9 September 2004) concerning variant Creutzfeldt-Jakob disease (vCJD) and blood, I wish to provide a further update on this subject.

Following cases of possible transmission of vCJD by blood transfusion, we have already put in place a series of precautionary public health measures.

In December 2003 we put in place arrangements for contacting recipients of blood from donors who went on to develop vCJD so that any necessary action could be taken.

Since April 2004 we have excluded anyone who has received a blood transfusion since January 1980 from donating blood.

In September 2004 we announced arrangements to identify and notify patients who had received certain batches of UK manufactured plasma products.

In the light of further advice I have received from two of my Department's expert committees, the CJD Incidents Panel (CJDIP) and the Committee on Microbiological Safety of Blood, Tissues and Organs (MSBTO), I am now announcing further public health precautions in relation to a small group of blood donors whose blood has been transfused to people who later developed vCJD.

The Chief Medical Officer, Sir Liam Donaldson, had asked the expert committees to consider the implications for donors where a recipient of their blood had developed vCJD. The recommendations of the committees are based on an assessment of risk undertaken by the Department of Health's analysts. The risk assessment is being published on the Department's website.

There are 110 donors in the UK whose blood was given to three people who later developed vCJD and for whom this blood might be a possible source of their infection. The advice of the committees is that, although we do not know whether these cases of vCJD could be related to the blood that they received, we should take precautionary steps to inform and support the individual blood donors concerned and to safeguard public health.

As an extension to the current precautionary measures, these people are being contacted by the National Blood Service and advised not to donate blood, tissues or organs. Current donors from this group of 110 are being contacted today and offered expert advice and support. The National Blood Service will contact the GPs of lapsed donors, that is those who have not donated blood during the last five years, and make arrangements to contact these people as soon as practicable.

The committees have also advised that the donors in question should be considered at risk of vCJD for wider public health purposes and that the donors and their clinicians should be informed of their risk status and asked to implement the public health precautions currently specified by the CJD Incidents Panel. This means that they should inform doctors, nurses and dentists of their status if they present for surgery or other invasive medical procedures.

These public health precautionary measures are the same as those applied to any patients considered by the CJDIP to be at risk of vCJD, including the individuals notified following the previous statements to the House.

There is another group of people for whom further public health precautions may need to be considered. This group is all the other recipients of blood from the currently identified group of 110 donors (estimated to be up to 3,000 individuals). At present, these people are already excluded from blood donation themselves by the measures implemented in April 2004. I have asked for additional expert advice on this group and I will take further action if necessary.

Blood donors should be assured that it is not possible to contract vCJD by giving blood. Blood donors are highly committed to helping others and we greatly value their contribution. The NHS depends on their continued commitment to donating blood which saves lives every day in this country.

The vast majority of the over two million current blood donors will not be involved in this new safety measure and need take no action. However, current and past blood donors who are concerned can contact the National Blood Service helpline on 0845 7711711. People who have received blood donations and other members of the public who are concerned should contact NHS Direct on 0845 850 9850.

As with our actions to date on the possible transmission of vCJD, we continue to follow a highly precautionary approach.

### Health Trainers

**The Parliamentary Under-Secretary of State for Health (Caroline Flint):** In the White Paper "Choosing Health" we announced the introduction of health trainers, a new type of personal health support in the public health workforce. From 2006 national health service accredited health trainers will be giving support to people who want it in areas of highest need.

Many people have difficulty in changing to a healthier way of life. There is a great deal of advice and information available and exhortations to change often from distant national bodies and others, but equally often with little recognition of the realities of everyday life. There is support but it is patchy, fragmented and does not fit with their lives. It may be available at the wrong time of day or only accessible to people who speak and read English well, and access is unequal and erratic. Health trainers are designed to address these problems.

Heath trainers will be visible and accessible to local people through living and working in the communities they serve providing "support from next door". They will engage local people where they are to be found, for example, mothers at the children's centre, customers at the local pharmacy, members of the tenants' association. Their task is to motivate individuals to set personal goals for improving their health, by developing personal health plans using a core set of skills based on health psychology and a good understanding of what works. They will support people to carry out their plans, for example, accompanying a woman to a breast screening appointment; encouraging a teenage mother to go to the children's centre by arranging to meet her; planning a walking route with a 50 year old man. They will identify barriers with individuals to healthier choices and help find individual solutions by listening, empathising and sharing experiences. They will be able to "signpost" people to local services that can support their healthier choices, through their detailed knowledge of the local area. Health trainers may refer individuals on, but will also encourage, motivate and support them to use what is available, for example information about the local smoking cessation service, and then go with them to the first session.

In February the Government published the cash allocations for the NHS for 2006–07 and 2007–08 including additional cash to help to fund "Choosing Health" initiatives such as school nurses, community matrons and health trainers.

Those in greatest need were also allocated more money. In November, the Government announced the creation of 88 spearhead primary care trusts, which are those most in urgent need of action to tackle health deprivation and reduce inequalities in life expectancy and infant mortality. These areas have received a higher level of funding than other areas, making the allocation much fairer.

Primary care trusts and their partners, especially the spearhead primary care trusts, are planning to recruit, train, and fund health trainers from April 2006 when this funding comes on stream. In preparation for that I am announcing today 12 early adopter partnerships in 2005–06, led by the NHS, to develop and test elements of the recruitment. training and employment package and local models of service provision.

From September, these early adopters will begin to trial a draft set of core competencies and job descriptions prepared by my department and the sector skills council "Skills for Health". The early adopters will identify suitable local people who, for the most part are already carrying out roles with some similarity to health trainers, assess them against the competencies, provide training to address gaps and then deploy them in local communities.

During 2005–06 we will be providing all early adopters with additional funding to support them in this work and other primary care trusts with funding support totalling £5 million. Every primary care trust which expressed an interest in being an early adopter will receive £25,000 and the early adopters themselves up to £200,000. The early adopters have been selected following expressions of interest from over 130 primary care trusts and their local partners. These are shown in the following table.

## NHS Purchasing and Supply Agency: Annual Report and Accounts

**The Minister of State, Department of Health (Jane Kennedy):** The NHS Purchasing and Supply Agency's annual report and accounts has been published today and copies have been placed in the Library.

## Sexual Health and HIV (Select Committee Report)

**The Parliamentary Under-Secretary of State for Health (Caroline Flint):** The Government's response to the Third Report of the House of Commons Health Select Committee, on New Developments in Sexual Health and HIV/AIDS Policy, Cm 6649, has been published today.

Copies have been placed in the Library.

# HOME DEPARTMENT

## Criminal Records Bureau Annual Report and Accounts

**The Parliamentary Under-Secretary of State for the Home Department (Andy Burnham):** I announce that copies of the 2004–05 annual report and accounts for the Criminal Records Bureau have been placed in the Library of the House today. Arrangements are now in hand for their publication.

## Lord Carlile's Report on the Terrorism Act 2000

**The Secretary of State for the Home Department (Mr. Charles Clarke):** Lord Carlile of Berriew QC prepared a report on the operation in 2004 of the Terrorism Act 2000, which I laid before the House on 26 May 2005.

I am grateful to Lord Carlile for his detailed report and I have considered his recommendations folly. Following consultation within my department and with other relevant departments and agencies I am pleased to place my response to Lord Carlile's recommendations in the House Library today.

# INTERNATIONAL DEVELOPMENT

## Niger

**The Secretary of State for International Development (Hilary Benn):** I am very concerned about the deepening nutritional crisis in Niger, and I spoke yesterday to Jan Egeland, the UN's Emergency Relief Co-ordinator about what needs to be done.

DFID was one of the first donors to respond to the UN Flash Appeal issued in May, when we gave £0.5 million to the World Food Programme. Following a DFID humanitarian assessment mission to Niger, we have now given a further £1.5 million to humanitarian NGOs providing emergency feeding and medical care. Our total contribution (£2 million) is equivalent to 22 per cent. of the original UN appeal and will deliver emergency nutritional therapy for up to 30,000 malnourished children, health care for up to 700,000 people, and food assistance for up to 250,000 people.

After a slow start, there is now a substantial humanitarian operation underway. I am urging other donors to work together with the Government of Niger and humanitarian agencies to ensure that needs are met and lives are saved as quickly as possible.

## NORTHERN IRELAND

### Ordnance Survey of Northern Ireland

**The Minister of State, Northern Ireland Office (Mr. David Hanson):** I have today arranged for the Ordnance Survey of Northern Ireland Corporate Plan 2005–08 and Business Plan 2005–06 document to be placed in the Libraries of both Houses. This document will also be made available on the Ordnance Survey of Northern Ireland website at www.osni.gov.uk

### Independent Assessor of Military Complaints Procedures (Annual Report)

**The Parliamentary Under-Secretary of State for Northern Ireland (Mr. Shaun Woodward):** I have today arranged for copies of Jim McDonald's annual report for 2004 to be placed in the Libraries of both Houses.

The report of the independent assessor continues to provide valuable reassurances to both the public and the Government that the Army's complaints procedures stand scrutiny. I welcome Mr. McDonald's report and I will consider it carefully. I will respond in due course.

### Report and Financial Statements of Strategic Investment Board Limited

**The Parliamentary Under-Secretary of State for Northern Ireland (Angela E. Smith):** My hon. Friend the Minister of State for Northern Ireland (Lord Rooker) has made the following ministerial statement:

> "Copies of the report and financial statements of Strategic Investment Board Ltd. for the year ended 31 March 2005 incorporating the auditor's report have been deposited in both Libraries of both Houses".

### Youth Justice Agency of Northern Ireland Annual Report and Accounts for 2004–05

**The Minister of State, Northern Ireland Office (Mr. David Hanson):** I have placed copies of the Youth Justice Agency's annual report and accounts for 2004–05 in the Libraries of both Houses.

This is the Agency's second annual report since its inception on 1 April 2003. It achieved all eight of its key performance targets and 20 of its [illegible] development objectives.

### Independent Monitoring C[illegible] Report on Paramilitary [illegible]

**The Secretary of State for North[illegible]and (Mr. Peter Hain):** On 24 May 2005 I laid [illegible] Parliament and published the 5th report from the Independent Monitoring Commission (IMC).

As required by the agreement that established it, the Commission reported on the nature and levels of ongoing paramilitary activity and other criminality including that undertaken by the Ulster Volunteer Force. The Commission concluded that the Progressive Unionist Party had not done as much as it should in exerting influence to prevent such activities. The Commission recommended that I should continue the financial measures against the Progressive Unionist Party.

I have considered carefully the IMC's report and I have today written to the Progressive Unionist Party to advise them that I am minded to remove for a period of 12 months the party's entitlement to financial assistance payable to political parties in Northern Ireland. I have provided the PUP with seven days from today to make representations to me. At the end of that period I will take into account any such representations made to me and will reach a final decision.

## SOLICITOR-GENERAL

### Army Prosecutions

**The Solicitor-General (Mr. Mike O'Brien):** My right hon. Friend the Attorney-General has made the following written ministerial statement.

"In my statement of 14 June 2004, *Official Report*, columns WS 22–23, I undertook to inform the House by way of written statement when any further charges are laid against British servicemen arising from incidents in Iraq. The Army Prosecuting Authority has directed that seven individuals should stand trial by court martial for various offences. The offences and the names of those individuals are set out below.

The allegations against the servicemen relate to incidents in Basra, from 13 to 15 September 2003. It is alleged that seven servicemen committed a number of offences against Iraqi detainees who had been arrested following a planned operation. One of the detainees, Baha Da'oud Salim Musa, was allegedly killed and inhumanely treated by one of these servicemen. The same serviceman is also alleged to have inhumanely treated other detainees and committed acts tending and intended to pervert the course of justice. It is further alleged that two other servicemen inhumanely treated the internees, who sustained injuries following repeated assaults. One further serviceman is alleged to have assaulted a detainee. The three remaining servicemen are charged with negligently performing their duties or neglecting to perform a duty, contrary to the Army Act 1955.

The cases against all seven servicemen were reviewed by prosecutors of the independent Army Prosecuting Authority who applied the evidential and public interest criteria set out in the code for crown prosecutors. The Army Prosecuting Authority, following advice from highly experienced counsel, is satisfied that there is a realistic prospect of convicting all defendants and that the prosecutions are in the public interest.

These offences have been directed to be tried before a court martial rather than the civilian courts.

The men who have been directed by the Army Prosecuting Authority to stand trial and who have been informed of the charges against them are:

> Corporal Donald Payne (34) of the Queen's Lancashire Regiment, attached to 1st Battalion The Kings Regiment, based at Catterick, charged with three offences of: (i) manslaughter; (ii) inhuman treatment of persons; and, (iii) perverting the course of justice.

Lance Corporal Wayne Ashley Crowcroft (21) of the Queen's Lancashire Regiment, currently based in Cyprus, charged with inhuman treatment of persons.

Private Darren Trevor Fallon (22) of the Queen's Lancashire Regiment, currently based in Cyprus, charged with inhuman treatment of persons.

Sergeant Kelvin Lee Stacey (28), of the Queen's Lancashire Regiment, currently based in Cyprus charged with assault occasioning actual bodily harm, alternatively common assault.

Warrant Officer Mark Lester Davies (36) of the Intelligence Corps based in Preston, charged with neglecting to perform a duty.

Major Michael Edwin Peebles (34) of the Intelligence Corps, based at Northwood, charged with negligently performing a duty.

Colonel Jorge Emmanuel Mendonca (41) late of Queen's Lancashire Regiment, based at Northwood, charged with negligently performing a duty".

### Army Prosecutions (No. 2)

**The Solicitor-General (Mr. Mike O'Brien):** My right hon. Friend the Attorney-General has made the following written ministerial statement.

"In my statement of 14 June 2004, *Official Report*, columns WS 22–23, I undertook to inform the House by way of written statement when any further charges are laid against British servicemen arising from incidents in Iraq. The Army Prosecuting Authority has directed that four individuals should stand trial by court martial for the offence of the manslaughter of Ahmed Kareem, an Iraqi civilian.

The allegation against the servicemen relates to an incident in Basra, on 8 May 2003. It is alleged that the four servicemen detained four suspected looters of whom Mr. Kareem was one. The servicemen allegedly punched and kicked the looters before forcing them into the Shat Al-Basra Canal. Mr. Kareem could not swim and drowned.

The cases against all four servicemen were reviewed by prosecutors of the independent Army Prosecuting Authority who applied the evidential and public interest criteria set out in the code for crown prosecutors. The Army Prosecuting Authority, following advice from highly experienced counsel, is satisfied that there is a realistic prospect of convicting all defendants and that the prosecutions are in the public interest.

The servicemen who have been directed by the Army Prosecuting Authority to stand trial before a court martial have already been informed of the charges by the Army are:

Sergeant Carle Nicholas Selman, (38) currently serving with the Scots Guards, currently in Germany.

Guardsman Martin McGing, (21) with the Irish Guards, currently based in London.

Guardsman Joseph McCleary, (23) with the Irish Guards, based in London.

One serviceman, a Lance Corporal (21), with the Irish Guards, has yet to be informed of the charge against him. Once he has been notified, I will set out his name in a further written statement, which I will lay before the House at the earliest opportunity.

No date has yet been set for the trial or preliminary hearings in this matter".

## TRADE AND INDUSTRY

### Company Law Reform

**The Minister for Industry and the Regions (Alun Michael):** I would like to draw the attention of the House to the explanatory statement that has been placed in both Libraries of the House on the subject of company law reform. This statement is also available at www.dti.gov.uk/cld/facts/clr.htm.

The Government's approach to the development of its proposals in this area has been extremely inclusive, and I am very grateful for the support and input of those who have contributed to the various consultation exercises. This is the final phase of our consultation process providing an opportunity for stakeholders to comment on some further aspects on our planned Company Law Reform Bill.

In addition to giving additional detail on how we will give expression to the policies set out in our White Paper "Company Law Reform" (March 2005) the explanatory statement explains how we will take forward elements of the proposed EC directive on audit and provisions for the oversight of the actuarial profession announced in the Budget.

We intend to place further detail on the DTI website at www.dti.gov.uk/cld/facts/clr.htm as it becomes available.

## TRANSPORT

### London Gateway Port

**The Parliamentary Under-Secretary of State for Transport (Derek Twigg):** I am today setting out my position on the proposals submitted by P & O to develop a new container port at the old Shellhaven oil refinery site in Thurrock, Essex. I am minded to approve the proposals, subject to satisfaction on a number of outstanding issues including the provision of additional highway capacity in the area.

This position, and the reasons for it, are set out in the minded letter my Department has issued today. It follows a public inquiry in 2003 into the application for approval for the port development, and also into an application from P & O and Shell UK Ltd in respect of an adjacent commercial and logistics centre. The inquiry inspector recommended last year in favour of both proposals, subject to conditions including the provision of extra highway capacity in the area to accommodate traffic likely to be generated by the two developments in combination.

The Office of the Deputy Prime Minister is today issuing a parallel minded to approval for the commercial and logistics centre.

The Government fully recognise the nation's and industry's needs for additional container port capacity in order to meet future economic demand. However, it is important that any new development, particularly on this large scale, be sustainable in a manner consistent with Government policy. We need to be sure, in particular, that the impacts of the full development on the area's highway network can be accommodated, and that any measures proposed to mitigate those impacts are not only adequate but also likely to be carried out.

The Government are therefore inviting the promoters over the next three months to discuss with the relevant highway authorities the means of addressing future highway capacity. We are hopeful that the relevant parties will then be able to agree on a way forward.

A copy of the Department's letter to the applicants for the port has been placed in the House Library.

**Financial Planning Guidelines for Local Transport Plans**

**The Parliamentary Under-Secretary of State for Transport (Ms Karen Buck):** I am today publishing a consultation document setting out how I propose to allocate funding, other than for major schemes, to local transport authorities outside London during the second local transport plan period.

The document proposes a new formula for the allocation of the integrated transport block, together with transitional arrangements to safeguard authorities from sudden change. This formula has been developed in consultation with authorities and is designed to ensure that funding allocations are fair and transparent.

Two modifications are also proposed to improve the operation of the existing formula for distributing highway maintenance funds, and the document includes draft guidance on the reports which local authorities will be planning on their first local transport plans.

The Department is seeking views by 12 October. I am placing a copy of the document in the House of Commons Library.

**A303 Trunk Road (Stonehenge)**

**The Minister of State, Department for Transport (Dr Stephen Ladyman):** Plans to upgrade the A303 trunk road passing Stonehenge and to improve the setting of this outstanding World Heritage Site have a long history. In July 1998, after extensive assessment of alternative options, the Government announced the inclusion in the targeted programme of trunk road improvements of the A303 Stonehenge improvement as an "exceptional environmental scheme". Following further studies and consultations, a preferred route was announced in June 1999 for improvements to 12.4 km of the A303 running from the countess roundabout in the east to Berwick Downs in the West. The scheme provided for dualling of the route and included a bypass of the village of Winterbourne Stoke and a 2km cut-and-cover tunnel past Stonehenge.

Following further consultations with English Heritage and the National Trust, a number of alternative tunnel options were evaluated and on 10 December 2002 the Government announced that they would proceed with further consideration of a 2.1 km tunnel (extending the tunnel by 100 metres compared with the preferred route announcement) and that the tunnel would be bored rather than cut-and-cover, thereby providing significant additional environmental benefits.

The public inquiry into this proposed scheme was held between 17 February and 11 May 2004. The inspector's report was received in January 2005 and the Government have been considering it carefully. The inspector, having considered all the representations and submissions from objectors, was satisfied that the case for the scheme had been made and has recommended that the scheme orders should be made, subject to a number of minor modifications. In particular, he was satisfied with:

- the line of the published scheme;
- all the proposed slip and side road changes required to implement the scheme;
- the requirements of the traffic prohibition orders restricting certain classes of traffic from using the tunnel and some of the new roads; and
- the acquisition of all the land and interests necessary to carry out the published scheme.

However, there has been a material change in the estimated scheme costs since the scheme went to public inquiry and which was not part of the inspector's considerations. The Highways Agency's evidence to the public inquiry indicated that the construction cost of the scheme would be £192 million. After allowing for additional factors including land, preparation and supervision costs this translates into a total outturn scheme cost of £284 million, assuming a construction start date of spring 2005.

In addition, following the completion of the public inquiry, the Highways Agency has carried out further detailed assessments of the ground conditions through which the tunnel would be bored. These have confirmed the scale of two significant factors along the line of the proposed tunnel:

- very large quantities of phosphatic (soft, weak) chalk;
- a high water table, with the groundwater potentially rising to the surface at times of heavy rainfall where the tunnel passes below a shallow valley to the south of Stonehenge.

These factors would significantly complicate the tunnelling process and extend the overall construction period of the scheme. Together with certain other factors which serve to increase tunnel costs, including more rapid increases in construction cost inflation than had previously been anticipated, the Highways Agency's latest estimate of the outturn cost of the scheme has now risen to some £470 million. For consistency with earlier estimates, this figure also assumes a construction start date of spring 2005. Slippage in the start date beyond spring 2005 will have further increased the estimated cost in line with continuing inflation in construction costs.

This represents a significant change to the basis on which the Government originally decided to progress this scheme. Our recognition of the importance of Stonehenge as a World Heritage Site remains unchanged but given the scale of the cost increase we have to re-examine whether the scheme still represents value for money and the best option for delivering improvements to the A303 and the setting of Stonehenge. The Government therefore plan to carry out a detailed review of the options, consulting relevant environmental interests including, in particular, English Heritage and the National Trust, before taking a final decision on the inspector's report. The review will also consider the implications of delaying the Stonehenge scheme for the delivery of improvements proposed for other single carriageway sections of the A303 further to the west.

I have placed copies of the inspector's report in the Library of the House.

## WORK AND PENSIONS

### New Deal for Disabled People

**The Minister for Employment and Welfare Reform (Margaret Hodge):** The New Deal for Disabled People will be extended for a further year to 31 March 2007. This will provide continuity of support to priority customers and allow emerging evaluation evidence, from this and other initiatives, to be taken into consideration in the development of future provision.

All existing job brokers will have the opportunity to bid to participate in the extended programme, details of which will be published in the autumn.

### Child Support Scheme

**The Secretary of State for Work and Pensions (Mr. David Blunkett):** This quarterly report is to update the House on progress of the Child Support Agency. It covers the period from March to June 2005 and contains improved management information. The last report formed part of the Government's response to the Work and Pensions Select Committee's Second Report of the Session 2004–05 and covered performance up to February 2005.

The Agency is currently administering cases under new and old schemes, across two computer systems. At the end of June 2005, the Agency's caseload stood at around 1.4 million cases. Of these, 950,000 cases were being administered under the old child support scheme (270,000 of which were on the new computer system having migrated from the old computer system because they were linked in some way to a new application) and 480,000 were being administered under the new scheme. Around 12,000 new scheme cases are being administered clerically as they are un-progressable on the new computer system.

Since the inception of the new scheme in March 2003 the Agency has received 680,000 potential new scheme applications, of which 420,000 have been cleared. The remaining 260,000 are at various stages of the work in progress, representing a marginal reduction since March as a result of efforts by the Agency to focus on its backlogs. In addition, there are 78,000 old scheme cases awaiting an assessment, a reduction from 130,000 in June 2004.

In June 2005, as a result of the Agency's intervention, 390,000 parents with care (equating to 520,000 children) were in receipt of maintenance via the collection service, or had a maintenance direct arrangement in place. Despite the problems with the administration of the new scheme the proportion of parents with a new scheme calculation who receive maintenance is higher (54 per cent.) than if they had been assessed under the old scheme (46 per cent.).

During the period March 2005 to June 2005 overall Agency case compliance remained stable at 70 per cent. This is also the case for old scheme compliance at 72 per cent. New scheme compliance, at 66 per cent. in June 2005, has risen from 61 per cent. in June 2004.

As a result of initiatives rolled out since autumn 2004, we are seeing real improvement in case compliance for those cases for which maintenance was calculated from September 2004 onwards. The overall new scheme compliance rate was 66 per cent in June 2005, and, for those new cases calculated in February 2005 (the latest month for which compliance has begun to stabilise for new cases), compliance had reached 78 per cent.

Trends in cash compliance performance are broadly flat over the period, with overall Agency performance at 69 per cent. in June 2005. Old and new scheme performance was 72 per cent and 62 per cent respectively with new scheme performance having improved from 50 per cent in June 2004.

During the quarter ending June 2005 the Agency collected maintenance arrears equivalent to 35 per cent of the total amount of unpaid regular maintenance which accrued over the same period. Performance across the quarter has remained unchanged for the old scheme at 40 per cent, with new scheme performance demonstrating further improvement from 22 per cent to 27 per cent (having already risen from 15 per cent in June 2004).

Accuracy performance is measured cumulatively month-on-month throughout the year. Figures based on the first results of 2005–06 show performance to June of 82 per cent for new scheme and 75 per cent for old scheme.

Whilst we have seen continuing progress some significant problems remain with the new computer and telephony systems and these continue to slow progress on business recovery. The Agency is working closely with EDS to resolve these problems and further IT releases were successfully implemented in December 2004 and May 2005.

We have always said that no decision will be taken on when to convert old scheme cases until we are confident the new scheme is working well. A new chief executive was appointed in April this year and he has initiated a strategic review of the Agency's objectives and operational arrangements. He will report to Ministers in the coming months and we will report to the House in due course.

*Summary of Agency Performance to June 2005*

*Table 1—Agency Performance—New applications intake, clearances, work in progress*

| *New Scheme* | *January 2005* | *February 2005* | *March 2005* | *April 2005* | *May 2005* | *June 2005* | *Scheme to Date—June 2005*[4] |
|---|---|---|---|---|---|---|---|
| Intake | 22,000 | 25,000 | 25,000 | 25,000 | 25,000 | 25,000 | 682,000 |
| Clearances: [1 & 3] | 16,000 | 19,000 | 24,000 | 24,000 | 27,000 | 26,000 | 419,000 |
| Work in progress [2] | 259,000 | 265,000 | 266,000 | 267,000 | 265,000 | 263,000 | 263,000 |
| Clearances as % of intake | 69% | 78% | 95% | 97% | 108% | 106% | 60% |

*Notes:*

1. A case is defined as cleared if:

a maintenance calculation has been carried out and a payment arrangement between the parent with care and the non resident parent is in place;

the case has been closed because the PWC is claiming Good Cause or is subject to a Reduced Benefit Decision; or

the application is identified as being a change of circumstances on an existing case.

Further changes in the definition of a clearance may be made as further progress is made with the improvement in management information.

2. Previously, a case was defined as cleared when it had been closed or a maintenance liability had been calculated. Improvements in management information now enable the Agency to extend the definition as described above, and thereby provide a more accurate picture of the Agency's intake and volumes of new applications work in progress. Further changes in the definition of a clearance may be made as further progress is made with the improvement in management information.

3. Figures exclude cases which have been progressed and cleared clerically. This is because it is not possible to determine how many clerically progressed cases are still included in the Agency's work in progress, or were originally included in the intake figures. Details of clerically progressed cases are included below:

| *Scheme to June 2005* | |
|---|---|
| Applications Cleared | 6,000 |
| Maintenance Calculations | 5,000 |
| Closures | 1,000 |

4. While we can give accurate scheme to date information, it is not currently possible to break this down into a monthly time series prior to January 2005 as work to produce this information is still in progress.

*Table 2—Agency Performance—Compliance, Arrears & Accuracy*

| | *June 2004* | *September 2004* | *December 2004* | *March 2005* | *April 2005* | *May 2005* | *June 2005* |
|---|---|---|---|---|---|---|---|
| *Case Compliance*[1] | | | | | | | |
| Overall Agency | 71 per cent | 70 per cent | 70 per cent | 70 per cent | 70 per cent | 70 per cent | 70 per cent |
| New Scheme | 61 per cent | 62 per cent | 64 per cent | 66 per cent | 66 per cent | 66 per cent | 66 per cent |
| All Old Scheme | 73 per cent | 73 per cent | 72 per cent | 72 per cent | 72 per cent | 72 per cent | 72 per cent |
| *Cash Compliance*[1] | | | | | | | |
| Overall Agency | 68 per cent | 66 per cent | 67 per cent | 70 per cent | 69 per cent | 69 per cent | 69 per cent |
| New Scheme | 50 per cent | 52 per cent | 55 per cent | 61 per cent | 60 per cent | 61 per cent | 62 per cent |
| All Old Scheme | 71 per cent | 70 per cent | 70 per cent | 73 per cent | 73 per cent | 72 per cent | 72 per cent |
| *Quarterly Arrears* | | | | | | | |
| Overall Agency | 30 per cent | 28 per cent | 29 per cent | 34 per cent | 34 per cent | 34 per cent | 35 per cent |
| New Scheme | 15 per cent | 16 per cent | 18 per cent | 22 per cent | 22 per cent | 24 per cent | 27 per cent |
| All Old Scheme | 35 per cent | 33 per cent | 34 per cent | 40 per cent | 40 per cent | 39 per cent | 40 per cent |
| *Accuracy*[2] | | | | | | | |
| New Scheme | | 83 per cent | 78 per cent | 75 per cent | | 88 per cent | 82 per cent |
| All Old Scheme | 84 per cent | 80 per cent | 80 per cent | 78 per cent | | 79 per cent | 75 per cent |

*Notes:*

1. Compliance is measured over a quarterly period as opposed to monthly, as it is a less volatile measure of performance in that it smoothes out the impact of events such as bank holidays, late payments and processing details. These figures may be subject to change as more reliable information becomes available.

2. There are no figures for new scheme for June 2004 or for new and old scheme in April 2005 because no accuracy checks were performed during that month. Accuracy across old scheme cases on both systems has been recorded only since May 2005. Prior to May 2005, accuracy was measured only against those old scheme cases on the old computer system.

## Social Fund/Social Fund Commissioner

**The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt):** The Secretary of State's annual report on the social fund for 2004–05 (Cm 6595) was published today and has been laid before Parliament.

The report records that total gross expenditure in 2004–05, excluding winter fuel payments, was £867 million. This included more than 261,000 non-repayable grants and around 2.2 million interest free loans together worth almost £700 million, and funeral and cold weather payments totalling more than £48 million. In addition around 236,000 Sure Start maternity grants worth over £119 million were made, and over 8.2 million households benefited from a winter fuel payment at a cost of around £1.95 billion.

The report also outlines reforms to the social fund loan scheme, some of which have already been announced in the pre-Budget report. Introduction of the reforms is planned for April 2006.

The social fund commissioner's report has also been published today and placed in the Library.

## Remploy

**The Parliamentary Under Secretary of State for Work and Pensions (Anne McGuire):** Remploy's achievement against its targets set by Government for 2004–05 is in the table.

| | *Target* | *Achievement* |
|---|---|---|
| Gross Margin—the Company will achieve Gross Margin of £60.5m | £60.5m | £61.0m |
| Progressions from Remploy Factories and Interwork to open employment | 1,400 | 1,683 |
| Average cost of supported employee | £10,500 | £12,075 |
| Employee Development Time | 5% | 7.7% |

Remploy will publish its annual report and accounts in the autumn giving further detail of its peformance throughout 2004–05. Copies of the annual report and accounts will be placed in the Libraries of both Houses.

In addition, on behalf of my right hon. Friend the Secretary of State for Work and Pensions, I have written to the Chairman of Remploy informing him that I am disappointed at the increasing unit cost and approving the 2005–06 Performance and Resources Agreement between the Department and the Company. The Performance and Resources Agreement includes targets for the coming year. The Agreement has been negotiated by the chief executive of Jobcentre Plus on behalf of my right hon. Friend the Secretary of State for Work and Pensions. The Targets for 2005–06 are:

a total of 1,700 progressions from Remploy factories or Interwork to open employment;

Remploy Ltd. will keep within an average cost per supported employee of £10,000;

the company will achieve a gross margin (sales less cost of materials) figure of £64.5m;

the company's employee development time will be at least 5 per cent.

The full Agreement for 2005–06 has been placed in the Library.

### Agency Annual Reports and Accounts

**The Secretary of State for Work and Pensions (Mr. David Blunkett):** I am pleased to announce that the Department for Work and Pensions has today published the 2004–05 annual reports and accounts for five of its executive agencies: The Pension Service (HC342), Child Support Agency (HC256), Disability and Carers Service (HC181), The Rent Service (HC220) and Appeals Service (HC235). Copies have been placed in the Library. The annual report and accounts of Jobcentre Plus will be published after the summer recess.

# Written Ministerial Statements

*Thursday 21 July 2005*

## CABINET OFFICE

### Correspondence

**The Chancellor of the Duchy of Lancaster (Mr. John Hutton):** I am today publishing revised guidance for Departments on the handling of Members' and Peers' correspondence.

Copies have been placed in the Libraries of both Houses.

## TREASURY

### Office for National Statistics

**The Financial Secretary to the Treasury (John Healey):** The Office for National Statistics' annual report and accounts for 2004–05 is being laid before Parliament today. It contains an assessment of how the Office for National Statistics performed against its key targets in 2004–05. Copies are available in the Libraries of both Houses and electronic copies are freely accessible on the National Statistics website.

## ECOFIN

**The Chancellor of the Exchequer (Mr. Gordon Brown):** On 12 July I chaired the first meeting of the Economic and Financial Affairs Council (ECOFIN) under the UK presidency. The Economic Secretary to the Treasury, my hon. Friend the Member for Bury, South (Mr. Lewis), represented the UK.

I set out the UK presidency's work programme, copies of which are available in the Libraries of both Houses, and highlighted measures to combat terrorist financing. ECOFIN agreed to offer advice and technical assistance to other countries which need to build up anti-terrorist finance capacity.

The Council took note of progress on financing for development. This will be discussed further at the Informal ECOFIN ahead of the UN Millennium Development Goals Summit in New York on 14–16 September.

The Council discussed support for the economic regeneration in the West Bank and Gaza Strip, and invited the Commission and the European Investment Bank to pursue their work on options for the economic regeneration of this area and to report back to the Informal ECOFIN meeting in September.

The Commission presented its Communication on a "Roadmap to an integrated internal control framework". Council conclusions were agreed on the process for taking this issue forward.

The Council adopted an opinion on an updated stability programme presented by Portugal for the period 2005–09.

The Council reached political agreement on a decision, under article 104(6) of the EC treaty, on the existence of an excessive deficit in Italy and on a Recommendation, under article 104(7), on action to be taken for its correction. The Council will adopt the Decision and Recommendation by written procedure at the end of July, once Council Regulation (EC) No. 1056/2005, which implements the new rules on the excessive deficit procedure, has entered into force.

The Economic Secretary to the Treasury chaired a ministerial dialogue with the accession and candidate countries, approving joint conclusions on all four countries (Bulgaria, Romania, Croatia and Turkey), and joint opinions on Bulgaria's and Romania's 2004 pre-accession economic programmes.

*7 June ECOFIN*

I represented the UK the Economic and Financial Affairs Council (ECOFIN) in Brussels.

The Council agreed Conclusions:

on statistical governance;

allowing for a change to the common side of euro coins to ensure that the map of Europe reflected the enlargement of the EU to 25; and

on guidelines for Member States in determining the national side of their euro coins and also on the handling of euro coins unfit for circulation.

The Council agreed to abrogate the existing excessive deficit procedure against the Netherlands.

The Council adopted the broad economic policy guidelines. The text was submitted to the European Council in June for approval.

The UK introduced a joint UK-Luxembourg Paper on "Financing for Development". The Council discussed the EU's strategy on financing for development. Member States confirmed their commitment to the ODA target of 0.7 per cent. GNI by 2015.

Political Agreement was reached by the Council on the Third Money Laundering Directive. The Council agreed a general approach on company law directives covering annual and consolidated accounts.

ECOFIN agreed that the Savings Tax Directive would apply from 1 July subject to final confirmations of bilateral agreements from European third countries and crown dependencies.

ECOFIN welcomed the progress achieved by the code of conduct group under the Luxembourg presidency.

### Banknote Issue (Scotland and Northern Ireland)

**The Economic Secretary to the Treasury (Mr. Ivan Lewis):** The Treasury will publish a consultation paper on Monday 25 July seeking views on its proposals to strengthen and modernise the arrangements under which a limited number of commercial banks in Scotland and Northern Ireland are permitted to issue their own banknotes. Copies will be available in the Libraries of the House. Responses to the consultation will be requested by Friday 16 September.

### Pre-Owned Asset Regulations (Double Charges)

**The Paymaster General (Dawn Primarolo):** This is to announce regulations under section 104 Finance Act 1986 to provide relief from double inheritance tax charges in situations caught by the pre-owned assets provisions at Schedule 15, Finance Act 2004.

Double inheritance tax (IHT) charges can arise in certain circumstances when taxpayers who have used IHT avoidance schemes re-arrange their affairs in response to the income tax charge on "pre-owned assets" introduced by Schedule 15, Finance Act 2004.

My statement of 8 March 2005 announced regulations to provide relief from double charges where taxpayers have made an election to disapply the pre-owned asset income tax charge under paragraph 21, Schedule 15.

Comparable double charges can arise where taxpayers do not make this election, but instead dismantle their previous arrangements so that the pre-owned asset income tax charge is no longer due. In particular, many taxpayers have used a "double trust" scheme; this involves selling a valuable asset to one trust in which the vendor retains an interest, in exchange for an IOU, and then giving the IOU to a second trust. The gift is a potentially exempt transfer for IHT purposes, and the value of the IOU will be chargeable if the scheme user dies within seven years of implementing the scheme. If in the meantime the scheme has been reversed, so that the full value of the asset originally sold is back in the scheme user's ownership at the time of their death, that value will also be subject to IHT.

I am satisfied that scheme users can have legitimate non-avoidance reasons for arranging their affairs in this way, and the regulations already made will therefore be extended to provide relief from double charges which arise from their doing so. They will cover cases where:

- a deceased person has made a gift of a debt owed to them;
- the gift was chargeable to IHT or becomes so chargeable (by virtue of the donor's death);
- the donor dies within seven years of the gift and on or after 6 April 2005;
- the debt was entered into as consideration for the purchase of an asset owned by the donor, or to provide funds for such a purchase;
- the full value of that asset, or of property derived from it, is also chargeable to IHT as part of the donor's estate at death.

In those circumstances, relief will be given so that tax will be due only on the more valuable of the two chargeable assets mentioned.

The regulations will be made as soon as practicable and made available in HM Revenue and Customs' website (www.hmrc.gov.uk).

### Regional Funding Allocations

**The Chief Secretary to the Treasury (Mr. Des Browne):** "Regional funding allocations: Guidance on preparing advice" is today being published by the Deputy Prime Minister, the Secretary of State for Transport, the Secretary of State for Trade and Industry and myself. This is in response to the consultation launched at the time of the 2004 pre-Budget report, devolving decision making: A consultation on regional funding allocations. The publication includes indicative regional transport spending over the 2004 spending review period, and indicative longer-term funding assumptions for transport, economic development and housing. Regions are invited to provide advice on priorities within the three indicative funding allocations. Copies are available in the Libraries of both Houses. The report can also be obtained free on the HM Treasury website.

## CONSTITUTIONAL AFFAIRS

### Electoral Registration

**The Minister of State, Department for Constitutional Affairs (Ms Harriet Harman):** I am pleased to announce the publication of the Government's response to the Constitutional Affairs and Office of the Deputy Prime Minister Select Committees' report on Electoral Registration.

As the Committees' report recognises, there is a challenge to be met in achieving the objectives of security, participation and full registration of all those who are entitled to the franchise. The Committees provide a thoughtful analysis of these issues, and a range of possible solutions.

Work in this area is ongoing and many of the Committees' suggestions are under active consideration. The Government will inform the Committees and the House when this work has concluded.

Copies of the Government response will be placed in the Libraries of both Houses.

### The Court Service

**The Minister of State, Department for Constitutional Affairs (Ms Harriet Harman):** The magistrates courts business returns annual report 2004–05 has been laid before Parliament today. Copies of the report have been placed in the Libraries of both Houses.

## CULTURE, MEDIA AND SPORT

### Digital Switchover

**The Secretary of State for Culture, Media and Sport (Tessa Jowell):** In the statement I made to this House on 22 July 2004, I said that I would report further material developments in the move towards digital switchover. I am pleased to say that good progress continues to be made.

By the end of March 2005, digital television was being enjoyed by over 62 per cent. of the UK households.

A growing number of retailers and manufacturers, as well as other parts of the industry, are using the digital switchover logo and committing to give reliable information to consumers. Over 250 retail organisations (representing over 2,300 retail outlets, covering both nationwide chains and small independent stores), 20 manufacturers (covering most major brands) and seven manufacturers of aerials and/or coaxial cables had registered to use the logo by June 2005.

A not-for-profit company, Switchco, has been set up by the public service broadcasters and the digital terrestrial television multiplex operators, with the support of manufacturers, and retailers, to co-ordinate

the technical roll out of digital terrestrial television across the UK, region by region, to a timetable agreed by Government.

While the Government will continue to inform the public of the benefits of digital switchover, Switchco will lead a major communication campaign to educate the public and ensure everyone knows what is happening, what they need to do, and when. They will also liaise with TV manufacturers, retailers, aerial installers, digital platform operators and consumer groups to ensure the switchover programme is properly implemented.

The new digital replacement licences for the commercial public service broadcasters (ITV, Channel 4, Five and Teletext) require the extension of the digital terrestrial network so that digital coverage can reach the same level as analogue. By this means we should be confident that the 98.5 per cent. of households who today are able to receive all the nationally available analogue public services will be able to receive the digital equivalents of these services. We are also considering with OFCOM how people who cannot receive analogue television could receive digital television through satellite, cable, ADSL or another emerging technology.

We are publishing today the report of the digital switchover technical trial in Ferryside and Llansteffan and the associated research on Vulnerable Households. This trial investigated the technical issues for broadcasters and consumers associated with the switch from analogue to digital terrestrial television transmission. It has received overwhelming support from the community involved which was the first one to undergo the switchover process.

We acknowledge that landlords who own or manage communal TV systems need to start taking steps to prepare for digital switchover. In association with the Chartered Institute of Housing, we are developing comprehensive new guidance for private and social sector landlords who have properties with analogue communal systems which need to be upgraded. The guidance will be published during the summer.

As stated in our Manifesto, we are committed to achieving digital switchover between 2008 and 2012 ensuring universal access to high-quality, free-to-view and subscription digital TV.

However, we need to ensure that the interests of elderly people and other vulnerable groups are protected. We know there will be some people who need assistance to understand, install and use digital television equipment.

We will be running a pilot in Bolton this autumn. This will help us to understand how best to provide this assistance whether it is by using leaflets, dedicated phone lines, support from social workers and charities or installation by professional engineers.

We are now close to the point where we will have the information which we require to confirm the region by region timetable for switchover. I expect to make a further announcement this autumn, and will report further progress to the House as appropriate.

Copies of the report have been placed in both Libraries of the House and are available at www.digitaltelevision.gov.uk

## DEFENCE

### Defence Storage and Distribution Agency

**The Minister of State, Ministry of Defence (Mr. Adam Ingram):** Key targets have been set for the chief executive of DSDA for financial year 2005–06[1]. The targets are as follows:

a. *Key Target 1.* To meet the customers' requirements as negotiated and agreed in business agreements (BAs). This key target is broken down into the following sub-targets (each sub-target is reported separately):

i. *Key Target 1a.* For explosive materiel; to supply 95 per cent. of available maintained munitions within demand timescales.

ii. *Key Target 1b.* For non-explosive materiel; to supply 95 per cent. of issues to consumers, as forecast and agreed in BAs, to meet that element of the supply chain pipeline time (SCPT) for which DSDA has responsibility.

iii. *Key Target 1c.* To process within limits, agreed with each individual customer, 98 per cent. of all receipts that conform to the specifications laid down in the contract and/or materiel regulations.

b. *Key Target 2.* KT2 is an efficiency measure for continuous performance improvement to achieve a 2.5 per cent. (net of 2.5 per cent. inflation factor) reduction in the unit cost of output (UCO) in FY05–06 (based on FY04–05) while maintaining an effective level of services to the customers in accordance with the BAs.

c. *Key Target 3.* The value of inventory written off as a result of DSDA's actions to be less than the levels agreed within each business agreement BA. This key target is broken down into two sub-targets:

i. *Key Target 3a.* The value of explosives materiel written off as a result of DSDA's action to be less than 0.02 per cent. of the explosives inventory. This includes associated weapons build components that are integral to the weapon system or munitions (including non-explosive components), tools, test equipment and materials that belong to the integrated project teams (IPTs), which are in the custody of DSDA.

ii. *Key Target 3b.* The value of non-explosive materiel written off as a result of DSDA's action to be less than levels agreed within each specific BA.

### Army Training and Recruiting Agency

**The Parliamentary Under-Secretary of State for Defence (Mr. Don Touhig):** The chief executive of the Army Training and Recruiting Agency (ATRA) has been set the following key targets for 2005–06:

*Key Target 1*

To meet the Army's requirement from the ATRA for 666 trained mainstream officers available to take up their first appointment within a permissible variance of 3 per cent. (below only).

---

[1] The key targets for the remainder of this year, and subsequent years may be revised to reflect the future defence supply chain initiative recommendations.

*Key Target 2*

To meet the Defence requirement from the ATRA for 1,807 Army recruits who have completed common initial training and are available to Defence Training Agencies for their specialist training with a permissible variance of + 5 per cent. to − 5 per cent.

*Key Target 3*

To meet the Defence requirement from the ATRA for 8,863 ratings, soldiers and airmen (7,649 from ATRA schools and 1,447 to the other services) trained as specialists and available to take up their first appointment within a permissible variance of + 5 to − 5 per cent. in any career employment group or capbadge.

*Key Target 4*

To achieve a 96 per cent. first time pass for all officers and other ranks made available to undergo career or professional development training and meeting entry standards.

## MARS Programme

**The Secretary of State for Defence (John Reid):** I am pleased to announce our decision that the military afloat reach and sustainability (MARS) programme should now enter its assessment phase.

This is excellent news for the Royal Fleet Auxiliary (RFA), which will operate the ships, the Royal Navy and the armed forces. MARS will be a cornerstone of our future worldwide operations, replacing many of the RFA's existing ships. It will support our new aircraft carriers and the rest of the fleet, as well as deployed amphibious, land and air forces close to the shore.

The MARS programme is currently assuming three classes of ships, which will deliver fuel and other stores to the fleet, helicopter support and sea-based logistics for deployed forces. During the project's assessment phase, we will investigate a range of solutions to meet this capability.

## Defence Supply Chain Modernisation

**The Secretary of State for Defence (John Reid):** The Ministry of Defence has been reviewing how best to organise elements of our supply chain in order to provide the armed forces with the necessary logistic support in a modern environment. I am today able to announce the outcome of a number of studies into logistic support arrangements.

The Future Defence Supply Chain initiative aims to deliver a modern and effective Defence Supply Chain focused on meeting the demands of today's armed forces both in peace-time and in support of operations. MOD has been evaluating four alternatives and has selected an in-House option worked-up in close consultation with the trades unions to provide the best possible combination of effectiveness and cost. By updating processes, improving training for staff, rationalising the distribution network and the closure of the storage depots at Stafford by the end of 2007, Llangennech by mid-2008, and Longtown by mid-2009 we expect to make savings of over £50 million per year by 2010 and over £400 million over the next 10 years.

The new organisation will require around 2,000 fewer civilian posts and around 50 fewer armed forces personnel. These reductions will contribute to the wider MOD manpower reductions announced in the 2004 White Paper.

A study into the future role of the Defence Munitions Centre at Crombie in Dumferline West is now complete and I have decided, subject to consultation with the national trades unions, to implement the recommendations.

The study determined that the explosives storage capacity available at DMC Crombie is not required to meet the known and projected storage liability of its customers. Crombie will, in future, concentrate on providing a loading/off-loading function to HM Ships and Royal Fleet Auxiliaries, together with berthing and other jetty operations.

DMC Crombie currently employs 168 staff. If the recommendations of the Study are implemented, there would be a reduction of 142 posts at the site. It is anticipated that 67 posts would go in the first year, with the balance of 75 posts being phased over years 2006–07 to 2009–10. Implementation of the study recommendations has the potential to deliver savings in the order of £18.1 million over a 10 year period.

I have also today approved, subject to conclusion of trade union consultation, ABRO's proposal, to begin phase one of a two part rationalisation programme. Phase one addresses the immediate impact of the downturn in ABRO's Defence revenue projections, but will not diminish the range of capabilities ABRO is currently able to deliver to the front line.

As a result, ABRO will reduce its headcount to approximately 2,150 posts by 31 March 2006, which includes the potential for up to 246 redundancies. The changes will realise annual manpower cost savings in the region of £2.1 million in 2005–06, and £8.3 million per year thereafter.

ABRO are still developing phase two of the programme but the aim is to address the process efficiencies, site re-structuring, and other change initiatives required to ensure ABRO has a sustainable competitive position from which it can grow in the medium term.

Finally, as a direct consequence of an announcement made today by Rolls-Royce Defence Aerospace on the outcome of an open competition for future overhaul and component repair on RB199 engine modules, up to 50 jobs will be lost at the Defence Aviation Repair Agency's (DARA) Engines Business Unit at Fleetlands in Gosport, Hampshire. I have agreed that DARA can now begin the formal 30-day consultation process with the trades unions.

We are doing everything possible to mitigate the impact on the people affected by these announcements. Our current plans envisage that the majority of civilian reductions will be achieved through a combination of natural wastage and voluntary early release but some compulsory redundancies may prove necessary. There will be no redundancies from the armed forces. Staff and the trade unions are being kept fully informed of developments through meetings, briefings and formal consultation.

### 1990–91 Gulf Veterans Illnesses

**The Parliamentary Under-Secretary of State for Defence (Mr. Don Touhig):** A key principle of the Government's approach to addressing the health concerns of veterans of the 1990–91 Gulf Conflict is that there should be appropriate research into veterans' illnesses and factors that may have a bearing on these.

The Ministry of Defence has funded a study by the National Institute for Biological Standards and Control into the particular interaction of anthrax and pertussis vaccines in mice. The study is part of a wider programme of research into vaccines interactions, which has been overseen by an independent panel of experts. A paper reporting the final results of the study was published in the online version of the journal Human Vaccines on 14 July 2005 in advance of hard-copy publication in the August/September edition of the journal. In brief, the researchers report that, in mice, pertussis vaccine, vaccine combinations, or aluminium salt caused illness; anthrax vaccine produced little effect; diluted vaccine combinations produced less serious side effects of shorter duration; and pertussis vaccines act as an adjuvant for anthrax vaccine. As the researchers point out, caution should be exercised in applying these results to humans because of the relatively high dosage used in the tests and the very different sensitivity to these vaccines in mice and humans.

This work represents a further step towards meeting the Department's commitment to investigate these issues. A full summary of the findings is freely available on the journal website and via a link on the MOD website at: www.mod.uk/issues/gulfwar/whats_new.htm

### RAF Force Restructuring

**The Secretary of State for Defence (John Reid):** As was recognised in the 2003 defence White Paper, "Delivering Security in a Changing World" (Cm 6041–I), the international situation that we now face is radically different to that of the cold war. As a consequence, there have been a great many changes to the size and structure of our armed forces as they have adapted to meet this changed environment. I am today announcing two such changes.

The cold war radar station of RAF Saxa Vord on the Shetland island of Unst will be put on care and maintenance from April 2006, subject to consultation with the trade unions. This will mean that the station is effectively closed, but that the main operational part of the estate will continue to be maintained should it be required for future use. Further work will be undertaken to consider how much of the remainder of the station will be retained.

Radar cover at the level required can be provided by other RAF radars augmented by those of the National Air Traffic Services. Placing the station on care and maintenance means that we would be able to re-instate a radar capability should the threat assessment change. Some 70 service personnel, 30 MoD civilians and 10 contractor staff will be affected by this proposal.

I understand this will be disappointing news for our staff, the island of Unst and the Shetland islands community. Naturally, we will be happy to work with the Scottish Executive and the local authority to consider any measures within the defence remit that might assist the local community to adjust to the proposed change.

As announced on 21 July 2004, the role of providing ground based air defence (GBAD) is to be transferred to the Army and the four Royal Air Force GBAD squadrons disbanded.

I am now able to inform the House that 37 Squadron RAF Regiment based at RAF Wittering will disband by March 2006, that 16 Squadron, based at RAF Honington, will disband by March 2007, and that 15 Squadron and the RAF GBAD wing headquarters, also based at RAF Honington, and 26 Squadron, based at RAF Waddington, will disband by March 2008.

This phased programme will allow that Royal Regiment of Artillery to take over the pan-defence GBAD role in a progressive manner. The RAF Regiment will now focus on its role protecting other elements of the armed forces, particularly on deployment.

As part of these changes, both 3 Squadron RAF Regiment, based at RAF Aldergrove and the Queen's Colour Squadron, based at RAF Uxbridge, will be expanded by around 40 personnel each in order to enhance their operational capability to match that of the other four regular RAF Regiment field squadrons. This will improve the units' ability to deploy on operations and so enhance the operational flexibility of the RAF Regiment in its force protection role.

Around 340 posts will be lost as a result of these changes. These form part of the 7,500 RAF post reductions also announced last July. I do not expect any redundancies additional to those announced on 9 December 2004 (*Official Report*, column 102WS) to result from this announcement.

As a consequence of the decision taken last July, the RAF has conducted an overall review of the structure and basing of the RAF Regiment. As a result of this work, I have decided that 1 Squadron RAF Regiment will move from RAF St Mawgan to RAF Honington by March 2007.

In addition, I have decided that 2625 (County of Cornwall) Squadron Royal Auxiliary Air Force Regiment, based alongside 1 Squadron at RAF St Mawgan, should be disbanded with effect from November 2006. This decision has been taken as Royal Auxiliary Air Force Regiment squadrons need to be based alongside regular units in order to maximise training opportunities and give the auxiliary personnel access to equipment held by the regular unit. With 1 Squadron's relocation, this would not be possible at St Mawgan. Around 75 reservists will be affected. Members of 2625 Squadron will be offered the opportunity to continue their reservist activities with other parts of the armed forces reservist organisation or with an alternative RAF unit elsewhere.

We are doing everything possible to mitigate the impact on the people affected by these announcements. Our current plans envisage that the majority of reductions will be achieved through a combination of natural wastage and voluntary early release, but some compulsory redundancies may prove necessary. Staff and the trade unions are being kept fully informed of developments through meetings, briefings and formal consultation.

## DEPUTY PRIME MINISTER

### Housing Act (Licensing)

**The Minister for Housing and Planning (Yvette Cooper):** The Government are today publishing summary responses on the remaining issues raised in their consultation on the implementation of the licensing provisions in the Housing Act 2004. These cover the licensing of private sector Houses of Multiple Occupation (HMOs) in Part 2 of the Act and the discretionary powers for the Selective Licensing of privately rented properties in areas of low housing demand or significant anti-social behaviour in Part 3 of the Act. This follows on from a statement made by my right hon. Friend the Member for Streatham (Keith Hill) on 6 April 2005 which covered the principal issues arising from the HMO licensing consultation exercise. Copies of these responses have been placed in the Libraries of both Houses.

We are also announcing the Government's intentions on a number of related issues which have been raised by consultees during the period following the end of the formal consultation exercise.

The two consultation papers Licensing in the Private Rented Sector: Consultation on the Implementation of HMO Licensing (published in July 2004) and Licensing in the Private Rented Sector: Consultation on the Implementation of Selective Licensing (published in July 2004) sought to explain the Government's proposals for licensing in the private rented sector. They invited interested parties to comment on how the powers should be implemented, and asked questions about the possible form that the necessary items of secondary legislation should take.

The consultation period for selective licensing ended in October 2004 and for HMO licensing in February 2005. There was a considerable amount of cross-over in these exercises which explains the delay in producing the summary of responses for the selective licensing work. We have now analysed all the responses and reached decisions on most of these issues: this has allowed us to start drafting the appropriate secondary legislation to allow these important measures to be commenced by the late autumn of this year. We also plan to phase the introduction of the enforcement provisions over a period of no more than three months from commencement to allow local authorities' licensing procedures to settle down and to allow landlords sufficient time to make their applications.

On most of the remaining issues covered by the consultation paper, the majority of respondents agreed with the Government's proposals.

The Government are introducing licensing as a measured response to the problems of the private rented sector. They are keen to strike the right balance between setting clear national benchmarks and giving local authorities the discretion to respond to local housing market conditions.

A paper detailing the responses to the consultations and the Governments intentions regarding them has been placed in the Libraries of both House Libraries.

### Planning Policy Statement 9

**The Minister for Housing and Planning (Yvette Cooper):** The Office of the Deputy Prime Minister expects to publish in August:

> a new Planning Policy Statement on Biodiversity and Geological Conservation; and
>
> an accompanying joint ODPM/DEFRA Government Circular: Biodiversity and Geological Conservation—Statutory obligations and their impact within the Planning System.

The new Planning Policy Statement 9 (PPS9) sets out the Government's planning policies for biodiversity and geological conservation in England. A joint ODPM/DEFRA circular accompanies PPS9 and will provide administrative guidance on the law relating to planning and nature conservation as it applies in England. Together these two documents will replace existing Planning Policy Guidance note 9 on Nature Conservation (PPG9), published in October 1994.

Drafts of PPS9 and the accompanying Circular were issued for public consultation in September 2004. PPS9 has a new emphasis on the need to conserve, enhance and restore biodiversity and makes clear that geological conservation is an important part of protecting our natural heritage. Positive planning which facilitates conservation of biodiversity and geological conservation contributes to the Government's principles for sustainable development set out in the UK Strategy. The policies set out in PPS9, together with the guidance in the circular will enable planning authorities, regional planning bodies and planning inspectors to play their part taking forward the UK Strategy.

It is also our intention to publish, later in the year, good practice guidance to complement the PPS and the circular.

Copies of PPS9 and the accompanying Government circular will be placed in the Library of the House following publication of the documents. They will also be made available on the website of ODPM. A summary of the responses to the consultation drafts has been published on the ODPM web site and copies of the responses will be made available for inspection through the ODPM library.

### Local Authority Business Growth Incentives Scheme

**The Minister for Local Government (Mr Phil Woolas):** I am pleased to announce the final details of the Local Authority Business Growth Incentives scheme (LABGI), which will make its first payment in February 2006. The scheme allows local authorities to retain a share of increased business rates revenue generated in their area. By creating a direct financial incentive for local authorities to encourage business growth in their locality, LABGI provides the opportunity for local government and business to work together to deliver economic success and prosperity to their local community.

In our consultations we have set out five principles for the scheme, which the Government remains committed to:

> that the scheme should give all local authorities an incentive to maximise local economic growth;
>
> that the scheme will give local authorities additional revenues to spend on their own priorities;

that the incentive should be consistent with Government aims for growth in all regions of the country and reductions in the persistent gap in performance between regions;

that the distribution of benefits must be fair, reflecting relative performance not relative circumstances; and

that the scheme should be as intelligible and transparent as possible.

Following the announcement of the scheme in the Chancellor's 2002 pre-Budget report, consultations have been held in 2003 and 2004 and volunteer local authorities also took part in a dry-run exercise to test out the administration of the scheme. All responses to the consultations and the experiences from the test exercise have been carefully considered and taken into account in the details of the scheme I am confirming today.

Business growth is measured in terms of the increase in a local authority's rateable value during a calendar year. A single payment will be made to each eligible local authority in the final quarter of the financial year. The scheme operates as an unringfenced grant under Section 31 of the Local Government Act 2003: authorities are free to spend the revenue on their own priorities in their own areas. Administering the scheme in this way was broadly welcomed in the recent consultation.

The starting point for each authority is their rateable value at 31 December 2004. An authority's rateable value figure will not be reduced by successful appeals. Empty and part-empty property reliefs will be netted off, using the most recent set of audited data from the authority's normal National Non Domestic Rates (NNDR) return.

Each authority has a target level of rateable value growth that must be reached to benefit from LABGI—known as the floor. The floor is defined as an authority's baseline growth rate minus a national adjustment factor. Baselines are calculated using a National Historic Growth Model—the preferred model from the first consultation. This has been modified by dividing all the authorities into eight baseline groups based on historical growth rate, rather than seven as previously announced. Feedback from the second consultation highlighted a fairer split was necessary and we have accepted this argument.

The other features of the scheme are the same as the Government set out in the final consultation paper and which received broad support.

There is a national adjustment factor for all baseline groups of 1.4 per cent. At the end of the first year a new list of rateable values will be produced by the Valuation Office Agency, as at 31 December 2005, not including appeals, but net of empty and part-empty property reliefs. This will be compared to the starting list from 31 December 2004 to calculate each local authority's growth rate. Growth above the floor is then multiplied by the business rate multiplier. A scaling factor of 70 per cent. is applied to all revenues above the floor to calculate the final amount eligible locally. Each authority has a ceiling—the maximum revenue that can be kept in any year—with money above the ceiling being passed back to the central business rates pool for distribution between all authorities. An authority's gains in one year in excess of the ceiling will be counted against the following year's target. The ceiling is based on a modified version of part of the Environmental, Protective and Cultural Services (EPCS) element of the Formula Spending Share (FSS) from the local authority's Revenue Support Grant calculation.

The ceilings in the first three years of the scheme will be 3 per cent., 6 per cent. and 9 per cent. of modified EPCS FSS, respectively. In two-tier areas, LABGI revenues will be shared out according to each tier's contribution to the total ceiling amount. In London, revenues will remain with the boroughs.

To prevent authorities that fail to gain money in one year having an unrealistic growth target the next year, their floor will be re-based and a new lower floor will be calculated. This will maintain the incentive effect of the scheme for all authorities. Feedback from the recent consultation suggested that re-basing floors was a positive modification to the scheme.

The scheme puts in place the right incentives for local government to work with local business and promote economic growth in its area. This will encourage local government to build effective partnerships with local business, to help deliver increased prosperity and to build long-term economic sustainability for its locality. Local authorities stand to gain up to £1 billion in England and Wales over three years—this is genuinely additional and unringfenced.

The scheme will be reviewed following the first year to test both how it is delivering against the design principles the Government set out and which were agreed in consultation and the level of spend from the scheme.

### Planning Delivery Grant

**The Minister for Housing and Planning (Yvette Cooper):** In March my right hon. Friend the Member for Streatham (Keith Hill) and then Minister for Housing and Planning announced the majority of the 2005–06 round of planning delivery grant, a performance-related grant paid to local authorities in recognition of their work in planning. It is with pleasure that today I announce the remaining final element of that grant to the House.

This final grant element, rewarded on the basis of local planning authority performance in making future plans for their local area, amounts to £21,545,275 across English local authorities and will see each of the 395 local authorities that delivered a satisfactory local development scheme to Government offices by 28 March 2005 receive £54,545.

The planning delivery grant (PDG) is not ring-fenced or hypothecated beyond the condition that 25 per cent. of the total received in the 2005–06 financial year must be used for capital expenditure. In this year as a whole, £170 million has been invested in planning through the PDG, in addition to other efforts at boosting the resources available to enhance good planning, such as the raising of planning fees in April.

The Government's aim is to enhance the resourcing of the planning system in a way that drives performance improvement and ensures effective delivery of our objectives for sustainable communities. It is specifically targeted towards meeting the Office of the Deputy Prime Minister's public service agreements (PSA) 5 and 6. PSA 5 aims to achieve a better balance between housing availability and demand. PSA 6 requires all authorities

to have local development frameworks in place (in accordance with agreed local development schemes) and to meet the best value development control targets by the end of 2006–07.

Today we have also launched a consultation on the next round of planning delivery grant, 2006–07, which proposes a further £135 million in planning resource to be announced in November 2005.

### Waste and Minerals Policies (South-East)

**The Minister for Housing and Planning (Yvette Cooper):** My right hon. Friend the Deputy Prime Minister will shortly publish for public consultation *Proposed Changes to Regional Planning Guidance for the South East*. These proposed changes concern policies on minerals and waste. They follow the public examination in October 2004 and the report of the independent panel in January 2005.

The changes stem from a partial review of RPG9 which aims to expand and further amplify policy on these topics. On commencement of the Planning and Compulsory Purchase Act in 2004 RPG9 became the statutory Regional Spatial Strategy (RSS).

Proposed changes include new and revised policies to encourage recycling and recovery of waste materials, provision of new waste treatment and handling facilities and ensure the continue supply of primary aggregates and other minerals.

Overall the panel considered the drafts to be broadly compatible with RPG9 and national policy. The panel did, however, recommend some changes. Notably, on waste the panel recommended adjustments to targets for diversion of waste from landfill and the target for recycling construction and demolition waste and that policy on waste management capacity requirements should be strengthened. On minerals, the panel recommended that the supply of primary aggregates should be increased to accord with national guidelines and that a lower target should be assumed for the proportion of aggregates to come from alternative materials.

Government are grateful for the recommendations of the panel. We propose accepting the recommendations of the independent panel who held the public examination into the proposed alterations, with some adjustment particularly in order to provide clearer guidance for waste planning authorities on waste management capacity requirements.

The process of comprehensively reviewing RPG9 has already begun. Further refinement of these policies will be continued through this process. As part of this work the South East of England Regional Assembly is working towards improving the monitoring of waste management and mineral extraction. I support this valuable work.

I will also be writing to the regional assembly with the proposed changes. There will be a public consultation period on the proposed changes, from date of publication for a period of 12 weeks.

Copies of the relevant documents will be available, once published in the Libraries of the House and will be provided for all of the region's MPs, MEPs and local authorities.

### Local Enterprise Growth Initiative

**The Minister for Local Government (Mr. Phil Woolas):** I am pleased to be able to announce further information on the Government's local enterprise growth initiative, launched by my right hon. Friend the Chancellor of the Exchequer in the Budget in March. The responses to the consultation exercise were overwhelmingly positive and included many thoughtful comments, which will help us refine the initiative. A summary of submissions to the consultation and the Government's response will be issued soon.

In the meantime I am pleased to today place copies of a document on next steps in the Library of the House. This document includes basic background information on the next steps involved for those interested in being involved in the Local Enterprise Growth Inititative.

### Mineral Policy Statement

**The Minister for Housing and Planning (Yvette Cooper):** I am announcing today the publication of consultation drafts of four annexes to Minerals Policy Statement 1 (MPS1) "Planning and Minerals". These deal with "Aggregates provision in England", "Brick clay provision in England", "Natural building and roofing stone in England" and "Onshore oil and gas in England". These set out the planning policies that Government considers should be followed by local authorities, the minerals industry, and other stakeholders to ensure that the supply of these minerals is achieved at acceptable cost to society, including environmental costs, and to help protect the environment, in the interests of sustainable development. They should be read in conjunction with MPS1. That document, which contains the over-arching principles for minerals planning, will be finalised in the light of consultation carried out on it in winter 2004–05 and on these annexes.

When finally published, the annex "Aggregates provision in England" will, together with the guidelines for aggregates provision issued in June 2003 and parts of MPS1, complete the review and revision of Minerals Planning Guidance Note 6 "Guidelines for aggregates provision in England", published in 1994. When finalised, the annex "Onshore oil and gas in England" will replace DOE Circular 2/85 "Planning control over oil and gas operations".

The draft annexes to MPS1 take account of relevant legislative changes since earlier guidance was issued including the Planning and Compulsory Purchase Act (2004). They contribute to the Government's sustainable development objectives for planning and the creation of sustainable communities, by helping to secure the necessary supplies of minerals, particularly for construction, while seeking to minimise the effects of mineral working on local communities and the environment.

Consultation on the draft annexes to MPS1 will run until 31 October 2005. Copies of the consultation paper have been placed in the Libraries of both Houses.

### Deprived Area Grants

**The Minister for Local Government (Mr Phil Woolas):** I am announcing today the allocation of a total of £1.3 billion new resources for the most deprived areas of England. These new resources for the Neighbourhood

Renewal Fund (NRF) and the Safer and Stronger Communities Fund (SSCF) demonstrate the Government's continued commitment to social justice and opportunity for all, to eradicate social exclusion and anti social behaviour.

*The Neighbourhood Renewal Fund (NRF)*

People living in the most disadvantaged areas suffer most from antisocial behaviour and crime. We are determined to ensure, through the NRF, that respect within the community and between individuals is protected.

As part of the Spending Review 2004, the Government announced that they would be making available an additional £1.05 billion for the Neighbourhood Renewal Fund (NRF) (£525 million for 2006–07 and a further £525 million for 2007–08).

These new resources are in addition to the £1.875 billion NRF the Government made available over the period 2001–06. The 88 Local Strategic Partnerships (LSPs) who have received NRF have made good progress in using it to help address some of the most serious problems in our most disadvantaged areas.

The gaps between these areas and the rest on crime, educational attainment and worklessness have narrowed. However, we must not be complacent and must continue to ensure that this progress is sustained and built upon. Reducing the health inequalities gap is a significant challenge and ODPM remains committed to working with the Department of Health and its Spearhead group of local authorities to tackle this issue.

The Government are determined to build momentum to ensure that improvements in quality of life and quality of public services reach the most disadvantaged citizens. Floor targets on employment, education, crime, health, housing and liveability are a public commitment to this work, and the success of some authorities in meeting them shows what is possible. We look forward to continuing our joint work to deliver change.

All the evidence shows that neighbourhood renewal is only successful when changes in the physical environment and improvement in public services are combined with a strong commitment to promote liveability and tackle antisocial behaviour. The determination of local authorities to use the Neighbourhood Renewal Fund to employ neighbourhood wardens and promote after-school provision for young people, side-by-side with active partnership with the police in the use of powers to tackle anti-social behaviour, is delivering real change on the ground. We will be working with local authorities, including through the Local Area Agreement process, to ensure that this approach is embedded in our regeneration activities, and that there is continued innovation to target the activity of the minority of citizens who can blight the lives of the majority.

This new NRF settlement, the largest since the neighbourhood renewal strategy was launched in 2001, recognises and will build upon progress so far, allowing LSPs more resources to help improve service delivery in their most disadvantaged neighbourhoods.

I am therefore announcing today the indicative allocations of £1.05 billion NRF resources for 2006–07 and 2007–08 to 86 local authority districts. Details of allocations to individual local authorities are set out in the attached table (Annex A). Final NRF allocations will be confirmed when the Revenue Support Grant (RSG) is paid to local authorities in November.

NRF will be allocated to any local authority area which falls within the 50 most deprived districts in England on any of the six district level measures of deprivation included in the Index of Deprivation 2004 (ID04). The size of the allocation to each eligible area has been determined by the number of people within the district living in the 10 per cent. most disadvantaged neighbourhoods in the country.

Six of the 88 authorities which are currently receiving NRF have improved sufficiently to come off the list of the most disadvantaged districts in the country. However, these authorities will continue to receive tapering NRF over the next two years. This funding will support these authorities over the transitional period and allow them to time to adapt and to sustain the progress they have made to date.

*The Neighbourhood Element of the Safer and Stronger Communities Fund*

As well as the new NRF allocations, I am also announcing the allocation of two elements of the new Safer and Stronger Communities Fund, the Neighbourhood Element and the Cleaner, Safer, Greener element.

The SSCF is one of the Local Area Agreement funding streams. The Neighbourhood Element of SSCF is also designed to address deprivation in our most disadvantaged neighbourhoods. It will provide funding for 100 of the most disadvantaged neighbourhoods in the country. Details of allocations of the neighbourhood element of SSCF to individual authorities are attached at Annex B. The new ID04 has allowed us to identify small pockets of deprivation in otherwise affluent areas for the first time. This element of the SSCF will target such neighbourhoods, including many beyond those areas that will receive NRF. Neighbourhood element funding is targeted at the 3 per cent. most disadvantaged neighbourhoods and is worth £41.3 million and £51.6 million in 2006–07 and 2007–08 respectively. Between the NRF and the neighbourhood element of SSCF, we will target a higher proportion of the people living in the most disadvantaged neighbourhoods in the country than has ever been possible before.

*The Cleaner, Safer, Greener element of the Safer and Stronger Communities Fund*

There is extensive evidence of a clear correlation between deprivation and poor local environmental quality. The cleaner safer greener element of SSCF, therefore, is being targeted at disadvantaged neighbourhoods in greatest need of improving their local public spaces. This element is worth £48.5 million and £56.5 million in 2006–07 and 2007–08 respectively. Details of individual allocations of the Cleaner, Safer, Greener element of SSCF are attached at Annex C.

Annexes A, B and C have been placed in the Libraries of both Houses.

## EDUCATION AND SKILLS

### Education Ministers (Informal Meeting)

**The Minister of State for Lifelong Learning, Further and Higher Education (Bill Rammell):** On 12–13 July, my right hon. Friend, the Secretary of State for Education and Skills chaired an informal meeting in London of Education Ministers from the EU, accession, candidate and EEA countries to look at how skills can contribute to raising productivity and therefore to the Lisbon goals for jobs and growth.

The meeting consisted of four sessions, which considered:

(1) *Sector skills*

My right hon. Friend outlined our presidency focus on highlighting how education and skills can contribute to the Lisbon agenda and the importance of skills responding to the needs of employers. Ministers discussed national experiences in developing sector-based approaches as a mechanism for employers to express skills requirements and to link education and training with labour market requirements in a knowledge economy.

There was consensus that employers should be involved in both designing and delivering vocational training courses, but only a few Member States involved employers in academic education. Ministers agreed that vocational training should be made more attractive to learners.

(2) *European Qualifications Framework*

This session was focused on a presentation by Commissioner Figel of the European Commission's consultation on a proposed European Qualifications Framework. This would provide a tool for improved understanding of qualifications from different countries. This should help mobility of learners and workers and thereby alleviate skills gaps. The Commission consultation is planned to last until the end of the year. The idea was welcomed by ministers, but they underlined that it should be user-friendly and must be implemented on a voluntary basis. Commissioner Figel explained that the Commission would propose a Council and Parliament Recommendation next spring.

(3) *The Relationship of Skills to Productivity*

The presidency tabled a paper, prepared by the four UK Government Skills Alliance Departments and agreed jointly with the European Commission. This sets out evidence for the contribution of skills to increasing productivity. It also raises questions for ministerial discussion.

Ministers discussed skills in a panel session with representatives from industry. John Monks, General Secretary ETUC, explained that unions could be ambassadors for learning. He pointed out that employees were often nervous about undertaking training, as they were worried about failing. Philippe de Buck, Secretary General of the EU-wide employers' organisation, UNICE, argued that governments needed to provide more support for training in companies particularly for SMEs. Bill Thomas, a member of the UK's ICT Sector Skills Council, underlined the importance of businesspeople understanding how ICT could be used to improve productivity.

Ministers agreed that economies would increasingly need highly skilled people, but also underlined the importance of having good basic skills as a foundation for achieving this.

(4) *Possible Next Steps*

The meeting concluded with Ministerial discussion groups. I chaired one group, with other groups chaired by Phil Hope MP, Parliamentary Under Secretary of State for Skills, and Allan Wilson MSP, Deputy Minister for Enterprise and Lifelong Learning in Scotland.

During these groups, Ministers agreed that: skills needs should be addressed at a sectoral and regional level; better recognition of informal and non-formal learning was needed; and that businesses should be encouraged to invest more in training their employees. There was an interest in member states continuing to share experiences and learn from each other on sector-based approaches. There was also recognition that Education Ministers should explore ways of working across Government, with other Ministers with an interest in skills and productivity, and that Education Ministers should be closely involved drawing up Lisbon National Action Plans.

### Teenage Pregnancy

**The Parliamentary Under-Secretary of State for Education and Skills (Maria Eagle):** I have today placed in the Library of the House the Government's response to the third annual report of Independent Advisory Group on Teenage Pregnancy.

The Government welcome the recommendations made in the Independent Advisory Group's third annual report and acknowledges the valuable contribution the group makes to the strategy and its implementation. We have carefully considered and responded specifically to the recommendations put forward.

The responses are framed within the context of the wider "Change for Children" programme, focusing on the underpinning measures that are being put in place to ensure that work on reducing teenage conceptions, and on supporting teenage parents, remain a priority for all. These measures are designed to ensure that the delivery of the strategy is integrated with the joint needs assessment planning commissioning and funding decisions expected by all local authorities in the Children and Young People Plan.

### School Funding (2006–07)

**The Minister for Schools (Jacqui Smith):** This statement relates to schools' recurrent funding from 2006–07.

1. In February this year my Department launched a consultation on proposed new arrangements for school funding from 2006–07. The proposals were designed to deliver greater certainty and stability for schools, building on the package of measures that we put in place in 2004–05. In particular, they were designed to guarantee delivery of the Government's commitment to increase spending on schools in every local authority area, to provide schools with the tools to take a strategic approach to their financial planning, to reduce bureaucracy, and to give schools greater control over how they used the resources available to them for the benefit of their pupils.

2. I am today publishing a summary of the responses to the consultation and placing a copy of that summary in the Library of the House. I am grateful to all those who responded to the consultation, and in particular to our national partners with whom we have been discussing detailed implementation issues in parallel with the consultation.

3. For the most part, the Government's proposals were welcomed by respondents to the consultation, who recognised the significant benefits that they would bring

for schools. However, it is clear from the responses we received and from our discussions with partners that some aspects of the proposals imply significant changes to the way in which local authorities manage the budget-setting process. The Government also recognises that it is critical that changes to the school funding system—and in particular those which affect the distribution of funds between local authorities or schools—are introduced gradually, in order to avoid a repeat of the financial difficulties which some schools experienced in 2003–04.

4. We therefore intend that the two years 2006–07 and 2007–08 should be a transitional period, and that the new arrangements should be introduced in full from 2008–09. During the first two years we will review a number of aspects of the system to ensure that when the new arrangements are fully implemented from 2008 they will be on a sound footing, and that funding is distributed in the most appropriate way possible.

5. The introduction of three year budgets for schools was widely welcomed by respondents to the consultation. From 2008–09, schools will receive three year budgets in line with the spending review cycle.

6. In the short term, the Government's decision to review its spending plans using a zero-based approach, to report in 2007, means that schools will receive a two year budget settlement in early 2006 to cover 2006–07 and 2007–08, but will not receive information for future years until after the spending review has reported. We intend to review the way in which the budget setting process has worked during 2006 and 2007, so that we can make any changes to the arrangements I am announcing today if necessary to ensure that the first full three year settlement in 2008–09 is implemented smoothly.

7. It remains the Government's aim to move school budgets onto an academic year basis in due course. However, although many respondents welcomed this proposal, some practical concerns were raised which we believe we should discuss further with our partners before making a final decision. It also makes sense to let the other changes we are introducing in 2006 bed down before making this further change. School budgets for 2006–07 and 2007–08 will therefore be set on a financial rather than an academic year basis, but we will review during that period whether to move to an academic year basis for setting budgets from 2008–09.

8. In deciding on how to implement multi-year budgets at school level, it has been necessary to strike a balance between certainty on the one hand and responsiveness to changed circumstances on the other. So we will require authorities to make key decisions before the start of each multi-year period, including the transitional two year period starting in 2006–07: for example how their local funding formula should work, and what the split should be between the amount of funding delegated to schools and the amount retained centrally by the local authority. But we will also allow flexibility for these decisions subsequently to be reconsidered in exceptional circumstances, and where the local Schools Forum agrees. This will be important to allow authorities to deal with significant and unexpected changes in circumstances.

9. We have also considered carefully how far we need to be prescriptive in terms of how multi-year budgets for individual schools are put together, and how far we can leave this to local discretion. We have concluded that it is essential that budgets are updated annually to reflect changes in pupil numbers; and we propose to require authorities to use a consistent approach to this. However, we believe that other decisions—in particular the extent to which annual changes should be made to reflect changes in other data—should be taken locally in discussion with the Schools Forum, to ensure that local circumstances can be fully taken into account.

10. The Learning and Skills Council will be carrying out its own consultation in the early autumn on its arrangements for providing school sixth forms with a two year settlement in 2006–07 and 2007–08.

11. Two key safeguards which were introduced into the system in 2004–05 will remain. The first is the minimum funding guarantee for schools, which will be the key guarantor of stability in schools' budgets during the transition to the new arrangements. There will continue to be a need for the detailed operation of the guarantee to be varied where it would otherwise produce an anomalous outcome due to local circumstances, and in future we intend that some variations of this kind should be agreed locally by the Schools Forum and only come to the Secretary of State where they can't be locally agreed.

12. The minimum funding guarantee will be set in advance for the whole of the period covered by schools' budgets. The Government's intention is to set the guarantee for 2006–07 and 2007–08 at a level which covers anticipated average cost pressures on schools in each of those years, including the full-year costs of implementing workforce reform, subject to a final assessment of those pressures. The precise level of the guarantee in each year will be announced in the autumn. We intend to review the way in which the guarantee should operate from 2008–09 onwards, including the link to cost pressures, with a view to ensuring that it leaves sufficient scope to redistribute funding in a way which responds to changing needs and priorities.

13. The Learning and Skills Council has confirmed that it will match the minimum funding guarantee for secondary schools in 2006–07 and 2007–08. The Learning and Skills Development Agency has however today published a report which identifies some technical anomalies between the school sixth form and further education funding systems: we intend to examine the scope for addressing these, and will announce our conclusions in the autumn.

14. The second key safeguard for schools in the current system is the limit on centrally retained expenditure within the schools budget: this ensures that the local authority's centrally retained budget cannot increase at a faster rate than funding delegated to the authority's schools, unless there are exceptional circumstances. This limit will continue to operate in essentially the same way as now; but in future any proposal by an authority to exceed the limit because of exceptional circumstances will need agreed locally by the Schools Forum and only come to the Secretary of State where it can't be locally agreed.

15. The introduction of a ring-fenced grant for schools, or Dedicated Schools Grant (DSG) is an essential precursor to three year budgets for schools. Grant will be allocated to authorities to cover the same period for which we will require them to give their schools budget allocations, in line with the spending review cycle. That means we will allocate grant to cover 2006–07 and 2007–08 initially, and in late 2007 we will give authorities a three year settlement covering 2008–09 to 2010–11.

16. The baseline for the DSG at national level will be the total of authorities' budgeted expenditure on schools provision in 2005–06. I can confirm that, as set out in the Five Year Strategy for Children and Learners, the Dedicated Schools Grant for 2006–07 and 2007–08 will increase by 6 per cent. over that baseline in each year. Every authority will receive an increase of at least 5 per cent. per pupil in both 2006–07 and 2007–08. To protect schools in authorities with rapidly falling rolls, there will also be a minimum overall increase for authorities in cash terms: we will announce in the autumn the level at which that will be set.

17. The baseline for each individual authority will also start from its existing level of spend: there will be no need for authorities to add to the schools budget from their own resources in order to maintain spending at the current level. It nevertheless remains true that if we use the existing Schools Formula Spending Share (SFSS) distribution methodology to distribute the DSG as proposed in our consultation document, schools in authorities which currently spend above their SFSS allocation will, over time, see their funding level reduced in relative terms. A number of authorities have raised concerns about this. We have also been considering further whether the current approach, using a single formula, remains the most appropriate method for the distribution of DSG, under a system in which it determines far more closely the overall level of funding received by schools.

18. These two considerations have caused us to consider a modified method of distribution which takes the existing level of spend as the baseline, and gives every authority a minimum increase in its per pupil budget each year: as I have explained, this will be 5 per cent in 2006–07 and 2007–08. The remaining grant would be distributed according to criteria which would be determined by Ministers in advance of each multi-year budget period. Distribution against these criteria would be through a formula based on objective data.

19. It would be possible for the existing SFSS formula to be used to determine the distribution of some or all of the increase above the minimum per pupil increase. We propose to keep the formula running in its current form, subject to some minor technical changes.

20. We believe it is important to seek the views of local authorities and others on this proposal before deciding whether to go ahead. We therefore intend to publish a consultation document shortly which will set out the proposals in more detail. We expect to announce final decisions, along with provisional allocations for individual authorities, in the autumn.

21. Because the modified method of distribution which we are proposing is in part a response to the problems of transition to the new system, we would propose to review its operation, to consider what lessons can be learned from the first two years of operation of the DSG, and also to work up proposals for the longer term. Equity of funding will be a key consideration in that review. We intend to complete that review by the summer of 2007, in time for the first three year allocations of DSG later that year.

22. The purpose of the ring-fenced grant is, of course, that money intended for schools reaches schools. The Dedicated Schools Grant will therefore be paid to authorities on condition that it is allocated in its entirety to the authority's schools budget. However, an issue raised in the consultation was whether local authorities should be able to include money from the schools budget along with money from other local authority services and other agencies in combined budgets in support of "Every Child Matters" work. We have concluded that they should be able to do so, where they can demonstrate that there are clear benefits for schools and pupils, and so long as the educational benefit is broadly proportionate to the contribution made and the Schools Forum agrees.

23. The consultation document also proposed a rationalisation of standards-related grants, to reduce complexity and bureaucracy and give schools greater freedom over how they spend their budgets. These proposals were broadly welcomed by respondents.

24. We therefore propose to combine a number of existing grants into a single School Development Grant from April 2006, as set out in the consultation document. To ensure stability for schools as we move to the new arrangements, the distribution of that grant in 2006–07 and 2007–08 will reflect the current distribution of its constituent grants. The grant will be increased each year in line with the minimum funding guarantee, and this will be funded through a transfer from the DSG: that amount, and the allocations available to individual authorities, will be announced in the autumn. We intend to end matched funding for school grants through a transfer from the Dedicated Schools Grant to specific grants.

25. Respondents to the consultation also agreed that it was necessary to retain some separate grants. Some will remain separate because they are targeted at particular schools, or time-limited. We have an existing commitment to keep the Ethnic Minority Achievement Grant separate and ring-fenced until at least 2008. And some grants are spent at local authority level and are not devolved to schools: grants in this last category are being considered as part of a separate exercise to rationalise local authority grants.

26. The School Standards Grant will remain separate from the consolidated grant in 2006–07 and 2007–08. We will replace the existing distribution methodology with a fairer formula based on a flat rate per school plus a per pupil amount, with transitional arrangements to ensure that no school loses out. Details will be announced in the autumn. Additional resources were allocated to the School Standards Grant in the Budget to help schools meet the challenges of developing extended services. As a result, from 2006–07 schools will be able to spend their School Standards Grant to support extended services.

27. From 2008–09, we will consider bringing the School Development Grant and the School Standards Grant together into a single standards grant. We will consult fully on how that grant should be distributed in due course.

28. The consultation document proposed that it should be possible, with Schools Forum agreement, for authorities to increase the amount they held back from the single grant from 2008–09 onwards. On reflection, we have decided not to go ahead with this proposal: we believe we should be working towards a position where schools decide for themselves whether to buy into additional central support from their authority.

29. Schools Forums will have a key role to play both during the transitional period and in the longer term. They currently have an important role as an advisory body, and this will continue. But from 2006–07 we will also be giving them a number of decision-making responsibilities. These powers will relate to areas where we are providing some flexibility for authorities to move away from the requirements of the school funding regulations in order to take account of specific local circumstances: in the past it has only been possible to exercise such flexibilities with the approval of the Secretary of State. The Government believes it is right that it should be possible to agree to the exercise of these flexibilities locally if a consensus can be reached. Where that is not the case, the authority will retain the right to apply to the Secretary of State for a decision.

30. The evidence is that many Schools Forums are already working effectively. However, as their role changes from a purely advisory one to one in which they will also be asked to make a range of important decisions on behalf of schools, it is clearly essential that schools can have confidence in those decisions. That means ensuring that Forums' constitutions and proceedings are appropriate to their new role, and that they have access to appropriate support and guidance.

31. We therefore intend to make a number of changes to the existing regulations governing Forums' constitution and proceedings, and draft regulations are being issued for consultation today. In addition we will publish, early in the autumn term, a good practice guide for Schools Forums and a range of other guidance to support them in exercising their new responsibilities.

32. In advance of the first three year budget settlement in 2008–09, we propose a wider review of the role of Schools Forums, and the way in which they are working. We will want to look in particular at the question of whether Forums are properly representative of the schools in their areas, and ensure that they have access to appropriate advice and support to ensure that they exercise their responsibilities effectively. We will also want to consider whether the remit of Forums remains right given changes in the school system since they were established: we might for example want to consider whether they should have a role in considering capital as well as recurrent funding issues.

33. Once they are fully implemented, the new arrangements I have outlined today will give schools greater certainty over their future budgets than ever before. And in doing so, they will provide schools with the tools they need to plan ahead with confidence, to improve their financial management, and to link their financial planning to the outcomes they are aiming to achieve. Taken together with other measures under the New Relationship with Schools which will provide a sharper focus on priorities for improvement specific to individual schools, these measures will ensure that each pound spent on school funding will have a greater impact in terms of delivering better education for our children.

34. My Department is issuing detailed guidance on the new arrangements to local authorities and others today. A copy of that guidance will be placed in the Library. The statement relates to schools' recurrent funding from 2006–07.

35. In February this year my Department launched a consultation on proposed new arrangements for school funding from 2006–07. The proposals were designed to deliver greater certainty and stability for schools, building on the package of measures that we put in place in 2004–05. In particular, they were designed to guarantee delivery of the Government's commitment to increase spending on schools in every local authority area, to provide schools with the tools to take a strategic approach to their financial planning, to reduce bureaucracy, and to give schools greater control over how they used the resources available to them for the benefit of their pupils.

36. I am today publishing a summary of the responses to the consultation and placing a copy of that summary in the Library of the House. I am grateful to all those who responded to the consultation, and in particular to our national partners with whom we have been discussing detailed implementation issues in parallel with the consultation.

37. For the most part, the Government's proposals were welcomed by respondents to the consultation, who recognised the significant benefits that they would bring for schools. However, it is clear from the responses we received and from our discussions with partners that some aspects of the proposals imply significant changes to the way in which local authorities manage the budget-setting process. The Government also recognises that it is critical that changes to the school funding system—and in particular those which affect the distribution of funds between local authorities or schools—are introduced gradually, in order to avoid a repeat of the financial difficulties which some schools experienced in 2003–04.

38. We therefore intend that the two years 2006–07 and 2007–08 should be a transitional period, and that the new arrangements should be introduced in full from 2008–09. During the first two years we will review a number of aspects of the system to ensure that when the new arrangements are fully implemented from 2008 they will be on a sound footing, and that funding is distributed in the most appropriate way possible.

39. The introduction of three year budgets for schools was widely welcomed by respondents to the consultation. From 2008–09, schools will receive three year budgets in line with the spending review cycle.

40. In the short term, the Government's decision to review its spending plans using a zero-based approach, to report in 2007, means that schools will receive a two year budget settlement in early 2006 to cover 2006–07 and 2007–08, but will not receive information for future years until after the Spending Review has reported. We intend to review the way in which the budget setting

process has worked during 2006 and 2007, so that we can make any changes to the arrangements I am announcing today if necessary to ensure that the first full three year settlement in 2008–09 is implemented smoothly.

41. It remains the Government's aim to move school budgets onto an academic year basis in due course. However, although many respondents welcomed this proposal, some practical concerns were raised which we believe we should discuss further with our partners before making a final decision. It also makes sense to let the other changes we are introducing in 2006 bed down before making this further change. School budgets for 2006–7 and 2007–08 will therefore be set on a financial rather than an academic year basis, but we will review during that period whether to move to an academic year basis for setting budgets from 2008–09.

42. In deciding on how to implement multi-year budgets at school level, it has been necessary to strike a balance between certainty on the one hand and responsiveness to changed circumstances on the other. So we will require authorities to make key decisions before the start of each multi-year period, including the transitional two year period starting in 2006–07: for example how their local funding formula should work, and what the split should be between the amount of funding delegated to schools and the amount retained centrally by the local authority. But we will also allow flexibility for these decisions subsequently to be reconsidered in exceptional circumstances, and where the local Schools Forum agrees. This will be important to allow authorities to deal with significant and unexpected changes in circumstances.

43. We have also considered carefully how far we need to be prescriptive in terms of how multi-year budgets for individual schools are put together, and how far we can leave this to local discretion. We have concluded that it is essential that budgets are updated annually to reflect changes in pupil numbers; and we propose to require authorities to use a consistent approach to this. However, we believe that other decisions—in particular the extent to which annual changes should be made to reflect changes in other data—should be taken locally in discussion with the Schools Forum, to ensure that local circumstances can be fully taken into account.

44. The Learning and Skills Council will be carrying out its own consultation in the early autumn on its arrangements for providing school sixth forms with a two year settlement in 2006–07 and 2007–08.

45. Two key safeguards which were introduced into the system in 2004–05 will remain. The first is the minimum funding guarantee for schools, which will be the key guarantor of stability in schools' budgets during the transition to the new arrangements. There will continue to be a need for the detailed operation of the guarantee to be varied where it would otherwise produce an anomalous outcome due to local circumstances, and in future we intend that some variations of this kind should be agreed locally by the Schools Forum and only come to the Secretary of State where they can't be locally agreed.

46. The minimum funding guarantee will be set in advance for the whole of the period covered by schools' budgets. The Government's intention is to set the guarantee for 2006–07 and 2007–08 at a level which covers anticipated average cost pressures on schools in each of those years, including the full-year costs of implementing workforce reform, subject to a final assessment of those pressures. The precise level of the guarantee in each year will be announced in the autumn. We intend to review the way in which the guarantee should operate from 2008–09 onwards, including the link to cost pressures, with a view to ensuring that it leaves sufficient scope to redistribute funding in a way which responds to changing needs and priorities.

47. The Learning and Skills Council has confirmed that it will match the minimum funding guarantee for secondary schools in 2006–07 and 2007–08. The Learning and Skills Development Agency has however today published a report which identifies some technical anomalies between the school sixth form and further education funding systems: we intend to examine the scope for addressing these, and will announce our conclusions in the autumn.

48. The second key safeguard for schools in the current system is the limit on centrally retained expenditure within the schools budget: this ensures that the local authority's centrally retained budget cannot increase at a faster rate than funding delegated to the authority's schools, unless there are exceptional circumstances. This limit will continue to operate in essentially the same way as now; but in future any proposal by an authority to exceed the limit because of exceptional circumstances will need agreed locally by the Schools Forum and only come to the Secretary of State where it can't be locally agreed.

49. The introduction of a ring-fenced grant for schools, or Dedicated Schools Grant (DSG) is an essential precursor to three year budgets for schools. Grant will be allocated to authorities to cover the same period for which we will require them to give their schools budget allocations, in line with the Spending Review cycle. That means we will allocate grant to cover 2006–07 and 2007–08 initially, and in late 2007 we will give authorities a three year settlement covering 2008–09 to 2010–11.

50. The baseline for the DSG at national level will be the total of authorities' budgeted expenditure on schools provision in 2005–06. I can confirm that, as set out in the Five Year Strategy for Children and Learners, the Dedicated Schools Grant for 2006–07 and 2007–08 will increase by 6 per cent. over that baseline in each year. Every authority will receive an increase of at least 5 per cent. per pupil in both 2006–07 and 2007–08. To protect schools in authorities with rapidly falling rolls, there will also be a minimum overall increase for authorities in cash terms: we will announce in the autumn the level at which that will be set.

51. The baseline for each individual authority will also start from its existing level of spend: there will be no need for authorities to add to the schools budget from their own resources in order to maintain spending at the current level. It nevertheless remains true that if we use the existing Schools Formula Spending Share (SFSS) distribution methodology to distribute the DSG as proposed in our consultation document, schools in authorities which currently spend above their SFSS allocation will, over time, see their funding level reduced in relative terms. A number of authorities have raised concerns about this. We have also been considering

further whether the current approach, using a single formula, remains the most appropriate method for the distribution of DSG, under a system in which it determines far more closely the overall level of funding received by schools.

52. These two considerations have caused us to consider a modified method of distribution which takes the existing level of spend as the baseline, and gives every authority a minimum increase in its per pupil budget each year: as I have explained, this will be 5 per cent. in 2006–07 and 2007–08. The remaining grant would be distributed according to criteria which would be determined by Ministers in advance of each multi-year budget period. Distribution against these criteria would be through a formula based on objective data.

53. It would be possible for the existing SFSS formula to be used to determine the distribution of some or all of the increase above the minimum per pupil increase. We propose to keep the formula running in its current form, subject to some minor technical changes.

54. We believe it is important to seek the views of local authorities and others on this proposal before deciding whether to go ahead. We therefore intend to publish a consultation document shortly which will set out the proposals in more detail. We expect to announce final decisions, along with provisional allocations for individual authorities, in the autumn.

55. Because the modified method of distribution which we are proposing is in part a response to the problems of transition to the new system, we would propose to review its operation, to consider what lessons can be learned from the first two years of operation of the DSG, and also to work up proposals for the longer term. Equity of funding will be a key consideration in that review. We intend to complete that review by the summer of 2007, in time for the first three year allocations of DSG later that year.

56. The purpose of the ring-fenced grant is, of course, that money intended for schools reaches schools. The Dedicated Schools Grant will therefore be paid to authorities on condition that it is allocated in its entirety to the authority's Schools Budget. However, an issue raised in the consultation was whether local authorities should be able to include money from the schools budget along with money from other local authority services and other agencies in combined budgets in support of Every Child Matters work. We have concluded that they should be able to do so, where they can demonstrate that there are clear benefits for schools and pupils, and so long as the educational benefit is broadly proportionate to the contribution made and the Schools Forum agrees.

57. The consultation document also proposed a rationalisation of standards-related grants, to reduce complexity and bureaucracy and give schools greater freedom over how they spend their budgets. These proposals were broadly welcomed by respondents.

58. We therefore propose to combine a number of existing grants into a single School Development Grant from April 2006, as set out in the consultation document. To ensure stability for schools as we move to the new arrangements, the distribution of that grant in 2006–07 and 2007–08 will reflect the current distribution of its constituent grants. The grant will be increased each year in line with the minimum funding guarantee, and this will be funded through a transfer from the DSG: that amount, and the allocations available to individual authorities, will be announced in the autumn. We intend to end matched funding for school grants through a transfer from the Dedicated Schools Grant to specific grants.

59. Respondents to the consultation also agreed that it was necessary to retain some separate grants. Some will remain separate because they are targeted at particular schools, or time-limited. We have an existing commitment to keep the Ethnic Minority Achievement Grant separate and ring-fenced until at least 2008. And some grants are spent at local authority level and are not devolved to schools: grants in this last category are being considered as part of a separate exercise to rationalise local authority grants.

60. The School Standards Grant will remain separate from the consolidated grant in 2006–07 and 2007–08. We will replace the existing distribution methodology with a fairer formula based on a flat rate per school plus a per pupil amount, with transitional arrangements to ensure that no school loses out. Details will be announced in the autumn. Additional resources were allocated to the School Standards Grant in the Budget to help schools meet the challenges of developing extended services. As a result, from 2006–07 schools will be able to spend their School Standards Grant to support extended services.

61. From 2008–09, we will consider bringing the School Development Grant and the School Standards Grant together into a single standards grant. We will consult fully on how that grant should be distributed in due course.

62. The consultation document proposed that it should be possible, with Schools Forum agreement, for authorities to increase the amount they held back from the single grant from 2008–09 onwards. On reflection, we have decided not to go ahead with this proposal: we believe we should be working towards a position where schools decide for themselves whether to buy into additional central support from their authority.

63. Schools Forums will have a key role to play both during the transitional period and in the longer term. They currently have an important role as an advisory body, and this will continue. But from 2006–07 we will also be giving them a number of decision-making responsibilities. These powers will relate to areas where we are providing some flexibility for authorities to move away from the requirements of the school funding regulations in order to take account of specific local circumstances: in the past it has only been possible to exercise such flexibilities with the approval of the Secretary of State. The Government believes it is right that it should be possible to agree to the exercise of these flexibilities locally if a consensus can be reached. Where that is not the case, the authority will retain the right to apply to the Secretary of State for a decision.

64. The evidence is that many Schools Forums are already working effectively. However, as their role changes from a purely advisory one to one in which they will also be asked to make a range of important decisions on behalf of schools, it is clearly essential that schools can have confidence in those decisions. That

means ensuring that Forums' constitutions and proceedings are appropriate to their new role, and that they have access to appropriate support and guidance.

65. We therefore intend to make a number of changes to the existing regulations governing Forums' constitution and proceedings, and draft regulations are being issued for consultation today. In addition we will publish, early in the autumn term, a good practice guide for Schools Forums and a range of other guidance to support them in exercising their new responsibilities.

66. In advance of the first three year budget settlement in 2008–09, we propose a wider review of the role of Schools Forums, and the way in which they are working. We will want to look in particular at the question of whether Forums are properly representative of the schools in their areas, and ensure that they have access to appropriate advice and support to ensure that they exercise their responsibilities effectively. We will also want to consider whether the remit of Forums remains right given changes in the school system since they were established: we might for example want to consider whether they should have a role in considering capital as well as recurrent funding issues.

67. Once they are fully implemented, the new arrangements I have outlined today will give schools greater certainty over their future budgets than ever before. And in doing so, they will provide schools with the tools they need to plan ahead with confidence, to improve their financial management, and to link their financial planning to the outcomes they are aiming to achieve. Taken together with other measures under the new relationship with schools which will provide a sharper focus on priorities for improvement specific to individual schools, these measures will ensure that each pound spent on school funding will have a greater impact in terms of delivering better education for our children.

68. My Department is issuing detailed guidance on the new arrangements to local authorities and others today. A copy of that guidance will be placed in the Library.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Government Decontamination Service

**The Secretary of State for Environment, Food and Rural Affairs (Margaret Beckett):** My hon. Friend the Minister for Climate Change and the Environment, announced on 25 January 2005, *Official Report*, column WS165, that the Government were intending to set up a Government Decontamination Service (GDS), as an executive agency of the Department for Environment, Food and Rural Affairs (Defra). The decision was part of cross-government work to ensure that the UK is prepared for a range of emergencies and has been developed as part of the CBRN Resilience Programme led by the Home Office.

The new service will be launched on 1 October 2005. Robert Bettley-Smith, a Fellow of the Royal Institution of Chartered Surveyors, has been appointed as its chief executive.

The service will have four principal functions to ensure the UK has a highly effective decontamination capability.

Firstly, the service will provide high quality advice and guidance to responsible authorities during their contingency planning for CBRN, significant HAZMAT incidents and during actual incidents, and regularly help validate and test the arrangements that are in place.

Secondly, the service will work hand in hand with specialist suppliers and advisers to rigorously assess the ability of companies in the private sector to carry out decontamination operations, and ensure that responsible authorities have ready access to those services if the need arises. If required, the GDS will also help co-ordinate decontamination operations.

Thirdly, the service will work with Government Departments, responsible authorities, specialist suppliers, research organisations and other nations to improve decontamination technologies and capabilities.

Finally, the service will be the Government's eyes and ears on the national capability for the decontamination of buildings, infrastructure, mobile transport assets and the open environment; will be a repository of information, and a source of expertise in the event of CBRN incident or major release of HAZMAT materials. The GDS will regularly review the United Kingdom's capability gaps.

The GDS will provide a service in Scotland, Wales and Northern Ireland as well as in England. In Scotland CBRN resilience is devolved. Scottish Ministers decided that the GDS should be invited to provide a service in Scotland and the Scottish Executive has been actively involved in its establishment. A similar statement will therefore be made in the Scottish Parliament. The Welsh Assembly Government is not responsible for CBRN resilience under the terms of the devolved settlement in Wales but has been fully consulted and supports the development of the GDS.

The following key performance targets to deliver these functions have now been agreed for the Service's first six months of operation:

> The GDS will put in place the first framework of contracts with specialist suppliers who have CBRN decontamination expertise, and as far as possible ensure the framework is scientifically robust, by the end of October 2005.
>
> The GDS will have defined its operational structure, role and response arrangements, agreed them with our stakeholders and secured the approval of the Ownership Board, by the end of March 2006. The GDS will have put in place a comprehensive training programme for its staff, by the end of December 2005, who will be fully engaged in CBRN response preparation and planning with stakeholders through participation in Regional Resilience Forum CBRN working groups and their equivalents in Scotland, Wales and Northern Ireland by the same date.
>
> The GDS will have established effective working relationships with centres of excellence for scientific advice on CBRN hazards and their decontamination through mechanisms such as memoranda of understanding or the establishment of regular exchanges of information by the end of October 2005. The GDS will have created a database of information on contaminants, their effects and relevant decontamination techniques for use within the GDS, and introduced a programme to ensure that it is reviewed and updated regularly, by the end of December 2005. The GDS will be working with other Government Departments by July 2005, particularly through the Home Office Science and Technology Programme, to improve understanding through research projects with academia and industry.

The GDS will focus on developing a successful GDS team by developing (by July 2005) and implementing (by December 2005) a succession and recruitment plan that values diversity and talent, and by setting a clear training plan and starting the process of becoming accredited to the Investors in People standard by the end of March 2006. By the end of March 2006 the GDS will have established a baseline for staff satisfaction so that it can address areas where improvement is necessary in future years.

The GDS will engage with its potential customers to deliver a new user-friendly and effective GDS. The GDS will carry out a customer satisfaction exercise to establish a baseline against which to set standards and objectives for the future. The GDS will endeavour to meet (within the constraints of the resources available) the needs of stakeholders for advice and guidance. To do this the GDS will draw up a communications plan, incorporating a strategy for stakeholder engagement, and secured the approval of the Ownership Board, by the end of November 2005. The plan will include the GDS's strategic objectives in communications, the resources it will commit to the task, and the range of opportunities that it will seek to make use of to deliver the plan.

By the end of October 2005, the GDS will have established an Audit and Risk Committee (as set out in the Framework Document), established its terms of reference, and completed a comprehensive review of risks to the Service's core business and an action plan to address them.

The GDS will work towards improving its efficiency by modelling, with the relevant specialist suppliers, the costs of two decontamination scenarios, so that it can set a baseline and show efficiency gains in future years. The GDS will also establish a baseline for the GDS's running costs and meet the Defra year on year 2.5 per cent. efficiency savings objective.

The GDS will balance the GDS's books for the financial year 2005–06 within Government guidelines.

## Foot and Mouth Disease

**The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Mr. Ben Bradshaw):** I have today laid before Parliament DEFRA's Exotic Animal Disease Generic Contingency Plan, in accordance with Section 18 of the Animal Health Act 2002 which came into force on 24 March 2003.

This plan sets out the operational arrangements DEFRA will put in place to deal with any occurrence of Foot and Mouth Disease, Avian Influenza, Newcastle Disease or Classical Swine Fever. It replaces DEFRA's Foot and Mouth Disease Contingency Plan and the Avian Influenza and Newcastle Disease Contingency Plan which were both laid before Parliament on 31 March 2004.

DEFRA's Contingency Plan is very much a "living document". It will be subject to ongoing revision taking on the latest scientific advice, developments in policy and comments from operational partners and stakeholders. To meet the provisions of the Animal Health Act, the plan will also be subject to formal annual review.

## Home Energy Conservation Act

**The Minister for Climate Change and the Environment (Mr. Elliot Morley):** Data reported by energy conservation authorities in England under the Home Energy Conservation Act 1995 in the period 1 April 1996 to 31 March 2004 have been placed in the Libraries of both Houses. The data have also been published on the Department for Food and Rural Affairs website, at address http://www.defra.gov.uk/environment/energy/heca95/index.htm. Authorities have reported an overall improvement in domestic energy efficiency of approximately 14.7 per cent. as measured against a 1996 baseline.

## Sustainable Waste Management

**The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Mr. Ben Bradshaw):** My colleague, the Minister for Housing and Planning, and I are today announcing our intention to publish shortly the final versions of three policy documents on waste strategies and planning on which we consulted earlier this year. These are:

(i) Planning Policy Statement 10: "Planning for Sustainable Waste Management" (PPS10);

(ii) Guidance on the Preparation of Municipal Waste Management Strategies;

(iii) Changes to Decision-making Principles in Waste Strategy 2000.

Together these provide for a more integrated and effective framework in England for delivering the significant expansion in new waste management facilities needed to meet EU obligations and national policy. We have considered very carefully the responses to the consultation documents. While a number of detailed points were made, which have been addressed in finalising the documents, the approach set out received broad support. This includes:

greater clarity on what is required at regional and local levels: to ensure decisions are made at the most appropriate level in a timely fashion, and effective integration of spatial planning and municipal waste management strategies;

increased integration of waste management alongside other spatial planning concerns (e.g. housing and economic development);

more emphasis on regular monitoring and review to ensure that plans and strategies are up-to-date.

The planning system is pivotal to the adequate and timely provision of the new facilities needed for all types of waste. The new PPS10 underlines the importance of planning for, and consenting, the necessary number and range of facilities to support sustainable waste management. Government expect development plans to be up-to-date and fit for purpose.

Government also expect all local authorities to have in place a fit for purpose and up-to-date Municipal Waste Management Strategy. In some areas this is a statutory requirement. The new guidance provides greater clarity on the role of strategies and the key requirements for developing and reviewing them.

Both this new guidance and the new PPS10 emphasise the need for effective community engagement and full appraisal of options. They will be accompanied by practice guidance which will provide further support and advice. Both sets of practice guidance are currently being finalised and we expect to publish them later in the summer.

The policy review, which informed the preparation of these documents, included, in response to concerns expressed by a number of stakeholders, the underpinning decision-making principles set out in Waste Strategy 2000[1].

[1] Primarily in Chapter 3 and Part 2.

The key aim of waste policy of moving waste management "up the waste hierarchy"[2] has not changed. However, the principles of "proximity" of waste disposal and "self sufficiency" (as set out in the EU Waste Framework Directive) have been re-formulated and are now set out as objectives to be delivered through the framework provided by development plans and strategies. The objectives are that communities should take more responsibility for their own waste (self-sufficiency), and that waste should disposed of in one of the nearest appropriate installations (proximity).

The role of the Best Practicable Environmental Option process in decision-making has also been reviewed. In future, the tenets that underlie BPEO will be delivered in spatial planning through plan-led strategies that drive waste management up the waste hierarchy. These strategies, at both the regional and local level, will be subject to Sustainability Appraisal and set within the community engagement that is central to the reformed planning system. Similarly, local authorities developing municipal waste management strategies should undertake Strategic Environmental Assessment, combined with a thorough assessment of social and economic factors[3].

PPS10 also includes a requirement for regional spatial strategies to take account of any Government advice on waste arisings and recycling potential and any nationally identified need for waste management facilities. The Government consulted on both what this advice should be, and who should be responsible for both drawing up and disseminating it. The consultation was again broadly supportive of the proposed approach. Our intention is to provide more information centrally to help inform waste planning and publish this periodically. We expect to publish the first such advice before the end of this year.

The three documents that we intend to publish shortly will help deliver the Government's vision for sustainable waste management, as set out in the UK's strategy for sustainable development. This is to protect human health and the environment by producing less waste and by using it as a resource wherever possible. Through more sustainable waste management, moving the management of waste up the "waste hierarchy" of reduction, re-use, recycling and composting, using waste as a source of energy, and only disposing as a last resort the Government aim to break the link between economic growth and the environmental impact of waste.

Government recognise the size of the task and everyone has a role to play in managing waste more sustainably: manufacturers, waste managers, local communities and the authorities which serve them. The policy set out in these documents provides the clear, consistent, and integrated policy framework necessary to deliver a significant step-change in the delivery of new waste management facilities.

[2] Chapter 3 part 2.

[3] Where an authority is under a duty to produce a municipal waste management strategy the authority must carry out a Strategic Environmental Assessment (SEA) in line with the Environmental Assessment of Plans and Programmes Regulations 2004. Where an authority is not required to produce such a strategy under any legislative provision, authorities are not under a duty to carry out an SEA, but we would encourage them to do so. Full details on the application of SEA can be found under the Environmental Assessment section at www.odpm.gov.uk/planning.

## Newcastle Disease

**The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Mr. Ben Bradshaw):** On 11 July 2005, suspicions were raised about the possibility of Newcastle Disease being present in pheasants on an estate in Surrey. We acted immediately on suspicion of disease following the control measures set out in Defra's exotic animal disease generic contingency plan. The suspect premises were immediately placed under restriction while the state veterinary service started their investigation.

Initial investigations identified two possible sources of the infection. Among the 12,000 pheasants on the suspect premises were a number of birds imported from France during the previous month and so it was possible that they had first become infected there. The second possibility was that the pheasants had been infected once they had arrived in England from contact with wild birds. It is known that wild birds can carry the virus responsible for Newcastle Disease.

The UK contacted the French authorities who immediately began a thorough investigation. There has been excellent co-operation between authorities in the two countries. There was a rapid exchange of information concerning the movement of birds between France and the infected premise in England. The French authorities identified a number of farms that had supplied birds to the infected farm. They undertook active surveillance and sampling which has now allowed them to conclude by blood sampling that birds on one farm have been exposed to the Newcastle Disease virus in the Loire Atlantique. Although virus isolation results are not yet available, culling of 20,000 pheasants and 35,000 partridges will commence on that farm today, ahead of final confirmation. The farm has been placed under restrictions and all movements off have been stopped.

Disease on the premises in Surrey was confirmed on 15 July and an order was given for the pheasants on the infected premises to be killed. The first birds on the infected premise were humanely culled on Monday morning and by 5 pm on Monday, 2,700 birds had been killed. Depopulation is continuing and we will ensure that as many of the birds as possible are killed. The culled birds are incinerated in a commercial animal incinerator. None of the affected birds will enter the human food chain.

Also on 15 July, a Declaratory Order was signed, putting in place a Protection Zone around the Infected Premise and a Surveillance Zone. A census of all poultry premises has been undertaken and patrol visits started in the Protection and Surveillance Zone. Samples have been taken from premises adjacent to the Infected Premise which could be epidemiologically linked. Clinical examinations of the larger poultry premises have started in the Surveillance Zone with no clinical evidence of Newcastle Disease being apparent.

The EU Commission were informed immediately disease was confirmed and we continue to keep in close touch about the control measures we have put in place. The EU Commission is satisfied with the measures we have taken so far.

We immediately put in place measures to ensure exports, both to EU member states and non EU countries of birds and hatching eggs do not originate from within the Infected Area. Intra-Community trade in birds and hatching eggs takes place on the basis of EU export health certificates which give area freedom from Newcastle Disease. Trade in birds and other susceptible commodities which originate from outside the restricted area can continue. Export health certificates to non EU destinations are required for most commodities relating to birds, including hatching eggs, poultrymeat, poultry products, table eggs, ready meals etc. The conditions for export depends on that country's import requirements. Exports to non-EU countries can take place provided the importing country has not imposed a total ban on imports of poultry and poultry meat or requires the UK to be free of the disease.

Our advice to poultry keepers is to put in place strong biosecurity arrangements, keep an eye open for disease and to consider, in consultation with their veterinarians, whether vaccination would be appropriate. Some large-scale poultry producers already routinely vaccinate their flocks against Newcastle Disease. The Secretary of State may order vaccination of poultry if she thinks it is an appropriate and proportionate response to the disease outbreak.

The Health Protection Agency has confirmed that Newcastle Disease virus does not pose a significant threat to human health even when people handle birds known to be infected. Close contact is required for transmission to man. The virus is spread via aerosols from infected birds which can occasionally cause conjunctivitis, fever and flu like symptoms. The symptoms only last a few days and there are no long term effects on health. There is no risk of human infection from consuming poultry meat.

Industry and other stakeholders, including game shooting bodies, have been kept informed of the suspicion and confirmation of disease and their views have been sought. Industry supports the action taken as they wish the outbreak to be eradicated as quickly as possible.

**Agriculture and Fisheries Council—Monday 18 July**

**The Secretary of State for Environment, Food and Rural Affairs (Margaret Beckett):** I chaired the Council for the agriculture items on the agenda. My hon. Friend the Member for Exeter (Mr. Bradshaw) represented the United Kingdom and chaired the Council for the fisheries item. Also in attendance was my hon. Friend the Member for South Dorset (Mr. Knight).

Before the Council I met a delegation from the EU federation of farm unions and farm co-operatives (COPA-COGECA) including representatives of the sugar beet growers organisation (CIBE).

I began the Council by presenting the UK presidency work programme for the next six months. It includes amongst other things, sugar reform, the EU's Rural Development Strategic Guidelines, Forest Law Enforcement, Governance and Trade (FLEGT), Avian Influenza, Welfare of Broiler Chickens and a range of proposals to progress the sustainability of the fisheries industry.

The Commissioner for Health and Consumer Protection took the opportunity to announce adoption of a TSE Roadmap setting out the Community's BSE Strategy for the short, medium and long term, and signalled his intention to publish an Action Plan on Animal Welfare towards the end of the year.

He also presented a proposed directive establishing minimum rules for the welfare of chickens kept for meat production. I said the presidency would take forward technical discussions on the proposal.

At the request of France, Council discussed the measures introduced by the Commission on 1 July to protect the Bay of Biscay anchovy stock. The Commission was not prepared to relax its ban on fishing at this stage but said it would keep the situation under constant review.

The Agriculture Commissioner presented her proposal for EU Strategic Guidelines for Rural Development, hoping for political agreement on this proposal in October. The guidelines aimed to ensure that rural development programmes contributed to the Lisbon and Gothenburg objectives of jobs, growth and sustainability. Once the EU Guidelines had been agreed, they would be the basis for drawing up national strategies through a process of dialogue between Member States and the Commission.

Over lunch the Agriculture Commissioner provided the Council with an update from last week's WTO mini-ministerial meeting under the Doha Development Agenda negotiations. There had been no major developments but she noted that its existing mandate had allowed the Commission to engage constructively in the discussion and to maintain pressure on other trading partners.

The Council held its first discussion on Commission proposals to reform the EU sugar regime. There was broad support for a restructuring scheme instead of production quota cuts, and for a 10-year time horizon, but some member states argued that the proposed price cuts went too far and too fast, that compensation should be higher, and that the "Everything But Arms" import arrangements should be reviewed.

Under Any Other Business, Italy called for the Commission to open crisis distillation measures before the end of July to deal with the critical situation on its wine market. The Commission replied that they needed time to analyse the situation, but would do so as quickly as possible.

The Netherlands expressed concern about the clarity of Community marketing standards for poultry meat. In particular, they were concerned that poultry meat that had been frozen should not be labelled as fresh. They also called for the introduction of a label for poultry meat originating from EU. The Commission agreed that marketing defrosted poultry meat as fresh was not in conformity with EU standards. The Commission would reflect thoroughly on both questions.

In light of an intervention by the Danish Minister, a proposal for a Council Decision providing for derogations from the Restrictions on Hazardous Substances Regulation for lead and for the flame retardant, Deca BDE, in electrical and electronic equipment, which had come forward for formal

adoption from the Environment Council, was referred back to the Committee of Permanent Representatives for further discussion.

In closing the Council I noted that the informal Agriculture Council would be a joint event with the Environment Council taking place in London from 10–12 September. The next Agriculture and Fisheries Council would be on 19 and 20 September.

### Government's National Waste Strategy

**The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Mr. Ben Bradshaw):** The Government's strategy on waste is set out in "Waste Strategy 2000", published in May 2000. The strategy is currently under review, and this statement updates Parliament on progress.

We have made considerable advances since the original waste strategy was conceived, for example with work on delivering our 2010 Landfill Directive targets following the Strategy Unit report "Waste Not, Want Not" of 2002; the introduction of the local authority landfill allowance trading scheme and increases in landfill tax; substantially improved levels of household recycling; and the implementation of a range of European waste legislation. I am separately announcing with my colleague the Minister for Housing and Planning a package of documents that together comprise a more integrated and effective planning framework in England for delivering the significant expansion in new waste management facilities needed to meet EU obligations and national policy. This includes changes to the decision-making principles in WS2000.

It is now time to review progress and refresh our waste strategy. Our focus is on the protection of human health and the environment by producing less waste and using it as a resource wherever possible. We began consulting with the interested parties at the beginning of this year on the composition and scope of the strategy review. We have had a very positive response.

In the light of these discussions and continuing development of waste and resource use policies here and in Europe, the Government intend to publish a substantial progress report on the waste strategy review this autumn. This will draw together stakeholder opinion so far and the major policy developments since WS2000 and "Waste Not, Want Not", and give the Government's view of likely policy directions. We shall in the progress report seek comments on the way forward, and the scope and content of an updated waste strategy.

Subject to the outcome of this consultation, the Government intend to publish an authoritative revised waste strategy for England next summer. In the meantime, we shall continue to develop waste policies in line with the Government's objectives and our European and international obligations.

## FOREIGN AND COMMONWEALTH AFFAIRS

### General Affairs and External Relations Council

**The Minister for Europe (Mr. Douglas Alexander):** The General Affairs and External Relations Council (GAERC) was held on 18 and 19 July in Brussels. The Secretary of State for Foreign and Commonwealth Affairs, my right hon. Friend the Member for Blackburn (Mr. Straw) chaired the Council, given our presidency. I represented the UK.

The Foreign Secretary made a short intervention at the start of the GAERC on the London bombings. He thanked partners for their expressions of sympathy and recalled the declaration agreed by the JHA Council on 13 July. The Council adopted short conclusions reaffirming the declaration, focusing on external action.

The agenda items were covered as follows:

*Presidency Work Programme*

The Foreign Secretary gave a brief presentation on the GAERC work programme for the next six months, highlighting in particular future financing and the future of Europe. On future financing, the Foreign Secretary highlighted the presidency's commitment to work towards a deal during the presidency. On the future of Europe, the Foreign Secretary welcomed Luxembourg's referendum result, and said that the next step should be on the basis of the declaration agreed at the June 2005 European Council. We are committed to having a broad, inclusive debate during the period of reflection. The informal Heads of Government meeting this autumn was a key next step.

*Enlargement*

The Foreign Secretary briefed partners on the 11 July meeting of the Croatia task force, where there was further consideration of Croatian co-operation with the International Criminal Tribunal for the former Yugoslavia (ICTY). There was no change in its assessment that Croatia was not yet co-operating fully with the tribunal. The Foreign Secretary invited the task force to review the situation in September.

Commissioner Rehn presented the Commission's draft negotiating mandate for Turkey. He highlighted that Turkey's progress would be long and difficult. The Council's reasons for opening talks and its previous commitments remained unchanged. The opening of negotiations on 3 October was conditional on six pieces of legislation entering into force—they all had on 1 June—and on Turkey signing the Ankara agreement protocol. The Foreign Secretary confirmed that the presidency would be working towards the signing of the protocol in consultation with the Council legal service.

*World Trade Organisation (WTO)*

Commissioner Mandelson updated the Council on the mini-ministerial in Dalian (12 to 13 July) and gave an assessment of how preparations are going in the run-up to the end-July WTO general council in Geneva. The Foreign Secretary noted that the main trade discussion would take place during the informal trade ministers' dinner on 18 July. The Council agreed conclusions, which recalled that Council conclusions from October 1999 and 28 June 2003, in particular, remain valid and set the Community approach to the Doha development agenda (DDA) negotiations.

*Preparation of the EU-China Summit*

The Foreign Secretary updated partners on the progress of preparation for the 5 September summit. A progress report on summit preparations covering the draft agenda, elements for a joint statement and declaration on climate change and energy was agreed. Commissioner Ferrero-Waldner highlighted that the

Commission would also be signing the financing agreement for two environmental projects totalling €55 million. The Commission also raised China market economy status (MES), noting that they would keep this under active review and wanted to see some progress at the summit. The Foreign Secretary concluded that the Commission and presidency would take forward summit negotiations with the Chinese and keep partners fully informed.

*Uzbekistan*

The Foreign Secretary highlighted the importance of the EU's response to the situation in Uzbekistan. The EU would not solve the problem in one stroke, and should bear in mind its long-term policy towards Uzbekistan and the region as a whole. The Council welcomed the appointment of Jan Kubis as EU special representative for central Asia and noted his intention to travel to the region as soon as possible. The Council agreed to review the EU-Uzbekistan partnership and co-operation agreement in the light of his visit. The Council agreed conclusions expressing profound concern about the situation in Uzbekistan. The presidency will continue to monitor the situation during August.

*Zimbabwe*

High Representative Solana gave an account of the unacceptable situation in Zimbabwe and stressed the need to work with the Southern African Development Community (SADC) and other African partners. He also welcomed the UN's forthcoming assessment and the African Union's decision to send an envoy to Zimbabwe. Commissioner Michel also condemned the recent actions and noted that the EU position was clearly stated in the declaration on 7 June and the démarches in SADC capitals. The Foreign Secretary concluded that if the UN special envoy's report was critical, the Council should consider further restrictive measures. The Council agreed conclusions condemning Operation Murambatsvina; expressing profound concern about the demolitions and evictions; and agreeing to keep EU policy, including on sanctions, under review.

*UN Millennium Review Summit*

Commissioner Ferrero-Waldner outlined the key elements of the Commission's communication on UN reform to the Council. Irish Foreign Minister Ahern, in his capacity as one of the UN Secretary-General's special envoys for the summit, updated the Council on summit preparations. Conclusions were agreed reiterating the EU's strong support for a successful UN millennium review summit outcome.

*Syria/Lebanon*

Terje Roed-Larsen, the UN Secretary-General's special envoy on the implementation of UN Security Council resolution (UNSCR) 1559 briefed Ministers over lunch. Larsen highlighted that the withdrawal of Syrian military forces was now complete. Larsen informed the Council that the recent Lebanese elections, which had been broadly free and fair, had been an important step towards creating an independent and sovereign Lebanon. The EU should now encourage the Lebanese to form a new Government quickly and play a role in tackling corruption and strengthening good governance and security. The Foreign Secretary summed up and expressed strong support for Larsen's work. Council conclusions were agreed, which call on Syria to take action to promote stability in Iraq, Lebanon and on the middle east peace process.

*Middle East Peace Process (MEPP)*

High Representative Solana briefed the Council on his recent (10 to 14 July) visit to the region. He commented that the situation on the ground was now calm, but developments at the end of last week and over the weekend had not been positive. The Council discussed Gaza disengagement and reiterated its full support for Quartet Special Envoy James Wolfensohn. Ministers emphasised the urgent need for Israel and the Palestinian Authority to co-operate effectively with each other and with Mr. Wolfensohn to support Palestinian institutional and economic development. The Council urged the Palestinian Authority to accelerate reforms and Israel to put in place the conditions essential to viable Palestinian economic growth. The Council noted the ongoing role played by the Commission in leading donor activity on Palestinian governance issues. Conclusions were agreed which reflected these points.

*Iran*

The Foreign Secretary, together with the French and German Ministers and High Representative Solana, briefed partners on the work towards a comprehensive package on the three issues covered by the 15 November 2004 Paris agreement: nuclear issues; political and security issues; and economic and technological co-operation. Commissioner Ferrero-Waldner briefed on the outcome of the 12 to 13 July negotiations on the EU-Iran trade and co-operation agreement. Ministers also discussed the outcome of the recent Iranian presidential elections.

*Indonesia/Aceh*

Over lunch, Ministers were briefed by High Representative Solana on developments in Aceh. The Council noted the report of the EU assessment mission to Indonesia/Aceh. It welcomed the successful conclusion of the Helsinki negotiations and agreed that the EU should be prepared, in principle, to provide observers to monitor the implementation of the peace agreement.

*AOB—Estonia/Russia Border Treaty*

Estonian Foreign Minister Paet outlined to partners why the ratification of this treaty has stalled and how they hope to take matters forward with the Russian Federation. The presidency said this was a matter of acute concern for the Estonian people. We hoped for a satisfactory outcome of the ratification process, based on what had already been agreed between Estonia and Russia, as soon as possible.

*AOB—Malta/Illegal Immigration*

The Council heard an intervention from Maltese Foreign Minister Frendo on the increasingly acute problem of illegal immigration in Malta and noted his request for solidarity and for this issue to be kept on the Council's agenda.

*EU-Macedonia Association Council*

In the margins of the GAERC, the annual EU-Macedonia Stabilisation and Association Council meeting took place on 18 July. Macedonian Foreign Minister Mitreva chaired. I led the EU, supported by Commission Rehn, the Council secretariat and the

Austrian Minister for Europe, Dr. Winkler. Mitreva was accompanied by experts on the Ohrid framework agreement, policing, judiciary, minorities and the economy, who made technical presentations in these areas. Mitreva expressed disappointment at the EU's cautious stance on visa liberalisation. The Association Council underlined the June 2005 European Council's commitment, which emphasised that the future of the western Balkans lay within the EU, provided each country met the established conditions. The Association Council welcomed Macedonia's adoption of the final legislation linked to the framework agreement and looked forward to its full implementation. The Association Council also stressed the need for further reform of the police and judiciary, fighting corruption, structural economic reform and meeting the Office for Democratic Institutions and Human Rights (ODIHR) criticisms of this year's municipal elections.

*EU-Kazakhstan Cooperation Council*

In the margins of the GAERC, the EU and the Republic of Kazakhstan held its seventh meeting on 19 July 2005. I chaired the meeting and was supported by the Austrian Minister for Europe, Dr. Winkler, and the Commissioner for Energy, Mr. Andris Piebalgs. Kazakhstan was led by Deputy Prime Minister Akhmetzhan Smagulovich Yessimov.

The Co-operation Council reaffirmed the desire to see EU-Kazakhstan relations continue to strengthen politically, economically and commercially, especially in the context of the partnership and co-operation agreement. It emphasised the need for increased efforts by the Kazakh authorities to comply fully with international norms and standards, including those of OSCE, in the fields of rule of law, democracy and human rights. The Co-operation Council expressed its expectation that the forthcoming presidential elections would be fair and in line with international standards. The Co-operation Council also agreed to promote bilateral dialogue focusing on market access issues and to work for early accession of Kazakhstan to the WTO. It welcomed the signature of the agreement between the European Community and the Republic of Kazakhstan on trade in certain steel products. The Co-operation Council underlined the importance of regional co-operation in central Asia as an effective means of conflict prevention and economic development in the region and welcomed the increasingly active role Kazakhstan is playing in different regional initiatives.

## HEALTH

### NHS Bodies (Accounts)

**The Minister of State, Department of Health (Jane Kennedy):** For the NHS Appointments Commission and the NHS Litigation Authority, their annual accounts and any accompanying Comptroller and Auditor General report have today been laid before Parliament pursuant to section 98(1C) of the National Health Service Act 1977. Copies have been placed in the Library.

### Venous Thromboembolism (Prevention)

**The Minister of State, Department of Health (Jane Kennedy):** The Government's response to the Second Report of the House of Commons Health Committee on the Prevention of Venous Thromboembolism in Hospitalised Patients, Cm 6635, has been published today.

Copies have been placed in the Library.

Patient safety is a priority for this Government. Whilst a great deal of progress has been made towards improving patient safety, we recognise that much more needs to be done to prevent deaths from venous thromboembolism (VTE) in hospitalised patients. The Committee's estimation of 25,000 deaths a year due to VTE is a serious issue which requires rapid and comprehensive action and we welcome the advice and information the Committee has provided to help the Government tackle this issue.

As an immediate step the chief medical officer has written to all doctors to remind them of the clinical guidance which exists.

Overall, the challenge is to make sure that good practice is spread within the whole National Health Service. We will therefore set up an independent expert working group which will make recommendations on developing a national strategy on the prevention and treatment of VTE.

### NHS Continuing Care

**The Parliamentary Under-Secretary of State for Health (Mr. Byrne):** The Government's response to the Health Select Committee's report on NHS continuing care is published today. Copies have been placed in the Library.

## HOME DEPARTMENT

### Yarl's Wood

**The Minister for Immigration, Citizenship and Nationality (Mr. McNulty):** I have today placed in the Library of the House the action plan in respect of the report into the fire and disturbance at Yarl's Wood immigration removal centre. Mr. Stephen Shaw was asked to conduct a report into this incident and the findings of the investigation was completed and published on 16 November 2004. The report contained a number of recommendations designed to minimise the risk of future disturbances.

My right hon. Friend the then Secretary of State for the Home Department also announced in a written statement that he accepted Stephen Shaw's recommendation (number 60) that a forum comprising officials, contractors and relevant interest groups be set up to consider the provision of purposeful activity in removal centres. The purpose of the forum is to examine the seven relevant recommendations contained in the report and identify how they can be taken forward in order to enhance removal centre regimes. A number of meetings have already taken place and have involved consultation with both the chief inspector of prisons and the prison and probation ombudsman.

The action plan identifies the recommendations have already been acted on and what considerations and progress has been made on the others. A completion date for implementation has been set for the end of 2005.

### Independent Race Monitor

**The Minister for Immigration, Citizenship and Nationality (Mr. McNulty):** My right hon. Friend the Home Secretary has today laid before Parliament the third annual report produced under section 19E of the Race Relations Act 1976 by Mary Coussey, the Independent Race Monitor, and placed copies of the report and his response in the Libraries of both Houses. The Race Monitor has a statutory duty to report to Parliament via the Home Secretary on ministerial authorisations made under section 19D of the Race Relations Act enabling immigration staff to discriminate on the basis of nationality or ethnic or national origin in the exercise of their functions.

### Immigration Services Commissioner

**The Minister for Immigration, Citizenship and Nationality (Mr. McNulty):** I am pleased to announce Suzanne McCarthy's appointment as Immigration Services Commissioner. This is a five-year appointment and she will take up the post on 5 September 2005. Mrs McCarthy is a qualified solicitor with a background in the Senior Civil Service. She was Chief Executive of the Financial Services Compensation Scheme from 2000–2004 and Chief Executive of the Human Fertilisation and Embryology Authority from 1996–2000. She will be taking unpaid leave from the Civil Service for the duration of this appointment.

### Police Complaints Authority

**The Minister for Policing, Security and Community Safety (Hazel Blears):** I am pleased to announce that the final annual report and accounts of the Police Complaints Authority (PCA) will be laid before Parliament today. The Independent Police Complaints Commission (IPCC) replaced the PCA on 1 April 2004.

When published, copies of the report will be available in the Libraries of both Houses.

### Forensic Science Service

**The Parliamentary Under-Secretary of State for the Home Department (Andy Burnham):** I have today laid before Parliament copies of the Forensic Science Service's (FSS) Annual Report and Accounts for 2004–05.

*Performance against Agency Targets 2004–05*

The FSS met 18 of its 20 targets and put in a strong financial performance. Of the two targets not achieved, one was related to timeliness, the other to the Investors in People (IiP) Standard. Although the FSS made further improvements in service delivery times against the previous year, performance fell short of target. A better performance is expected this year. The Service was very disappointed to lose its IiP status but has been encouraged by the assessor's view that strong foundations are in place to begin the work to regain the standard.

The Forensic Science Service Agency Targets for 2005–06 are as follows. These targets might be subject to review in the light of the proposed change of status for the FSS:

*Finance:*

Target: A minimum of 15 per cent. return on capital employed—three-year rolling average (2003–04 to 2005–06).

Target: A real reduction in charges by limiting price increases to 75 per cent. of the Average Earnings Index.

Target: An investment in development work of 10 per cent. of turnover.

Target: Generate £500k external funding for research and development.

*Non-Finance:*

Target: Some 100 per cent. of cases with an assigned case officer.

Target: To develop and extend current training to police and CPS.

Target: Percentage of fast track processing of DNA, (subject to demand), 20 per cent.

Target: Average time to analyse and inform customers of DNA crime scene stain results of five days.

Target: Some 95 per cent. of DNA crime scene stain results to have a turnaround time of less than 10 days.

Target: Average time to analyse and inform customers of DNA suspect sample results of five days.

Target: Some 95 per cent. of DNA suspect sample results to have a turnaround time of less than eight days.

Target: Some 95 per cent. of jobs to achieve a turnaround time of less than 33 days.

Target: Maintain ISO Accreditation.

Target: Establish processes and behaviours to regain IiP in 2006–07.

Target: Maintain the diversity programme.

### Independent Monitor of Certification

**The Minister for Immigration, Citizenship and Nationality (Mr. McNulty):** My right hon. Friend the Home Secretary has today placed in the Libraries of both Houses the 1st annual report of the Independent Monitor of Certification of Claims as Clearly Unfounded under Section 94 of the Nationality, Immigration And Asylum (NIA) Act 2002, and the Government response to the report and its recommendations.

The Certification Monitor has a statutory duty to report to Parliament via the Home Secretary under Section 111 of the NIA Act 2002. Sarah Woodhouse was appointed as Monitor in January 2004 for two years. Her role is to monitor the operation of the use of the power to certify an asylum claim or human right claim (or both) as unfounded under Section 94 of the NIA Act 2002, and in particular the quality and effectiveness of decisions made under this procedure.

### Law of Murder

**The Secretary of State for the Home Department (Mr. Charles Clarke):** On 28 October 2004, my predecessor—now the Secretary of State for Work and Pensions, my right hon. Friend the Member for Sheffield, Brightside (Mr. Blunkett)—announced a review of murder. There has been a long-standing debate over many years about the need to review the

laws on murder. The Law Commission has produced a report on partial defences to murder and this review will build on the analysis of the law set out in that work.

The terms of reference for the review, to be led by the Home Office have today been placed in the Libraries of both Houses. There will be a full public consultation as part of the review and hon. Members will have the opportunity to comment at any stage.

I am pleased to announce that the Law Commission has agreed to join the Home Office in this work. The review will be in two stages. The Law Commission will first conduct an analysis of the laws relating to murder, taking into account its earlier work on the partial defences but looking at them in this wider context. Following consultation, it will provide the Home Office with its conclusions, which the Home Office will take into account in conducting a review of the wider public policy issues and producing recommendations, as appropriate, for new legislation.

The review is expected to take between 18 months and two years.

### Commission for Racial Equality

**The Secretary of State for the Home Department (Mr. Charles Clarke):** The Commission for Racial Equality's Annual Report 2004 is published today.

Copies will be available in the Libraries of both Houses. Copies will also be sent to the Scottish Parliament and the National Assembly for Wales.

### Immigration (Pre-entry Health Screening)

**The Minister for Immigration, Citizenship and Nationality (Mr. McNulty):** As part of the five-year asylum and immigration strategy announced in February, the government announced its intention to apply targeted screening for TB overseas and at the entry clearance stage, rather than the current practice of screening at UK ports of entry.

While some screening is already carried out routinely in certain countries, our approach will be to prioritise screening of entry clearance applicants wishing to come to the UK for more than six months and coming from countries which combine the highest levels of incidence of TB, as measured by the World Health Organisation, with the highest numbers of potentially infectious travellers to the UK.

We will begin an initial phase by the end of the summer in posts in four overseas countries, to test the screening system. The initial countries are Bangladesh, Thailand (which also processes entry clearance applications from Cambodia and Laos), Tanzania and Sudan. These all have high rates of TB, represent the various kinds of entry clearance operation the UK runs globally (outsourced, personal applications and postal/remote applications), and includes those where the medical infrastructure allows the testing phase to be set up quickly. A further announcement will be made early next year regarding the countries to be included in the next phase of the rollout.

Screening overseas at the entry clearance stage will bring many benefits. It will identify infectious travellers who will be asked to complete treatment before applying for entry clearance. It will generate data on infection among travellers to the UK which will enable us to understand better the role of migration on TB infections rates in the UK, and respond with effective health policies. Entry clearance applicants themselves will benefit from health screening which will be conducted to high standards that are quality assured. Host countries will benefit from the earlier identification of individuals with infectious TB. We also aim to share data on infection rates with host countries so as to inform their own public health programmes. We are however mindful that pre-entry screening is only part of dealing effectively with TB globally. We will continue to work with the World Health Organisation to help developing countries diagnose and treat patients. We will evaluate the effect of this policy on our wider development objectives and messages.

We believe the impact on migration will be minimal. But we will examine the experience of other countries already implementing such schemes, such as the US, Australia and Canada. And we will carefully monitor any impact on entry clearance application rates.

### Office for Contracted Prisons

**The Parliamentary Under-Secretary of State for the Home Department (Fiona Mactaggart):** The Prison Service Annual Report and Accounts were laid on the 19 July. Today, the Office for Contracted Prisons has published its Statement of Performance and Financial Information indicating its performance during 2004–05. Copies have been placed in the Libraries of both Houses.

## INTERNATIONAL DEVELOPMENT

### Nepal

**The Parliamentary Under-Secretary of State for International Development (Mr. Gareth Thomas):** DFID has completed a review of its support programme in Nepal. The review was prompted by political events in the early part of the year.

DFID plans to continue a substantial programme in the country and the overall purpose of our country assistance plan (CAP) remains unchanged: to reduce poverty and social exclusion, establishing a basis for lasting peace.

However, the conflict and political context have made it more difficult to deliver development assistance effectively, and DFID has scaled back the plans in the CAP to increase significantly our levels of assistance. Instead, we plan to keep these at about £32 million—close to the amount spent in the previous UK financial year.

The published CAP had five objectives covering peace-building, improving rural livelihoods, expanding basic services, supporting the social inclusion of women and excluded caste and ethnic groups, and improving governance. We have not radically changed those objectives, but we have adjusted priorities to give more attention to the possible humanitarian operations and the protection of vulnerable groups, such as internally displaced people, and working with pro-democracy groups, including the political parties, to help ensure that an eventual return to democracy is sustained.

DFID will strengthen further its risk management systems to ensure that we continue to protect staff and respond in a timely way to further changes in the context in which we are working. We will also build further our skills to manage the programme within a conflict setting.

We will continue to work closely with other Whitehall Departments, helping to ensure that best use is made of the global conflict prevention pool (GCPP) and that DFID's activities make a positive contribution to the wider UK objective of a sustainable peace based on democratic government.

### Post-Conflict Reconstruction Unit

**The Secretary of State for International Development (Hilary Benn):** Following my written statement to the House on 16 September 2004, and together with the Foreign Secretary and the Secretary of State for Defence, I wish to inform Parliament of the establishment and current capabilities of the post-conflict reconstruction unit (PCRU). The PCRU is an interdepartmental unit, which has been set up by our three Departments to improve the United Kingdom's capacity to contribute to the creation of a stable environment in countries emerging from conflict. The unit's work is overseen by the Defence and Overseas Policy (Conflict Prevention and Reconstruction) Committee, chaired by the Foreign Secretary.

The PCRU has been established to carry out two main tasks: first, to develop Government strategy for post-conflict stabilisation, which includes linking military and civilian planning, as well as working with the wider international community for the spread of best practice, capacity building and burden sharing; and, secondly, to plan and direct activities designed to create stability in post-conflict environments in the period immediately following the cessation of hostilities.

The PCRU is nearly fully staffed and has reached an initial capacity to plan for, and support, stabilisation activities. The unit is building up a database of civilian experts who can be deployed. It is also developing methods to help the Government reach an understanding of, and plan responses to, individual conflicts. In addition, the unit is writing a series of guidance papers on a range of specific issues that may need to be tackled in post-conflict situations, such as security sector reform and governance. The PCRU is also developing links with international organisations and other Governments to ensure that the UK's efforts are part of a co-ordinated contribution to the international response to conflict. I expect the PCRU to be able, if necessary, to plan and organise a large-scale deployment of up to several hundred civilians, including police, as part of a post-conflict stabilisation operation by mid-2006.

## NORTHERN IRELAND

### Food Safety Promotion Board

**The Parliamentary Under-Secretary of State for Northern Ireland (Mr. Woodward):** Copies of the Food Safety Promotion Board annual report 2003, incorporating financial statements for 2002 and 2003 and a review of activities for 2001, has been placed in the Libraries of both Houses.

## PRIME MINISTER

### Ministerial Travel 2004–05

**The Prime Minister (Mr. Tony Blair):** Expenditure on Ministerial overseas visits for the last three financial years and for the year 1996–97 is estimated as follows:

| *Year* | *Expenditure £ million* |
|---|---|
| 1996–97 | 7.9 |
| 2002–03 | 5.7 |
| 2003–04 | 5.2 |
| 2004–05 [1] | 5.1 |

[1] The figure for 2004–05 reflects payments made so far for travel undertaken in the period; a few bills have yet to be submitted to departments for payment.

A list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during the period 1 April 2004 to 31 March 2005 has been placed in both Libraries of the House. The list provides details of the date, destination and purpose of all such visits and the cost of Ministers' travel and accommodation where appropriate.

### Ministerial Gifts 2004–05

**The Prime Minister (Mr. Tony Blair):** I have today published a list of gifts received by Ministers. The list provides details of gifts received by Ministers valued at more than £140 for the period 1 April 2004 to 31 March 2005. Copies of the list have been placed in the Libraries of the both Houses.

### Numbers and Cost of Special Advisers

**The Prime Minister (Mr. Tony Blair):** Listed below are the names of special advisers in post at 21 July 2005, the special advisers' pay ranges for 2005–06, the number of special advisers in each pay band by department and the total pay bill cost of special advisers for 2004–05.

All special advisers are appointed under terms and conditions set out in the *Model Contract for Special Advisers* providing assistance on the full range of their appointing Minister's departmental responsibilities. Where a special adviser has a specific expertise or works mainly in a particular area of the department's work this is indicated.

Advisers in post:

| *Appointing Minister* | *Special Adviser in post* | *Expertise* |
|---|---|---|
| The Prime Minister[1] | Jonathan Powell | Chief of Staff |
| | Ruth Turner | Director of Government Relations |
| | Matthew Taylor | Chief Adviser on Strategy |
| | *Policy Directorate* | |
| | David Bennett[2] | Head of Policy Directorate |
| | Julian Le Grand | |

| *Appointing Minister* | *Special Adviser in post* | *Expertise* |
|---|---|---|
| | Conor Ryan | |
| | Nicholas Rowley | |
| | Geoffrey Norris | |
| | Philip Collins | |
| | Justin Forsyth | |
| | *Strategic Communications & Press* | |
| | David Hill | Director of Communications |
| | David Bradshaw | |
| | Hilary Coffman | |
| | Darren Murphy | |
| | Huw Evans | |
| | Chris McShane | |
| | *Events & Visits* | |
| | Jo Gibbons | Director of Events, Visits and Scheduling |
| | Katie Kay | |
| | Angela Goodchild (p/t) | |
| | John Watts | |
| | Parna Taylor | |
| | *Research and Information Unit* | |
| | Catherine Rimmer | |
| | Katie O'Donovan | |
| Deputy Prime Minister and First Secretary of State | Joan Hammell | Chief of Staff |
| | Mick Halloran | |
| | Alan Schofield | |
| Minister for Communities and Local Government | Tim Williams | Communities and Local Government |
| Chancellor of the Duchy of Lancaster and Minister for the Cabinet Office | John Williams | |
| | John Woodcock | |
| Chief Whip (Commons) | Sue Jackson | |
| | Simon Benson | |
| Chief Whip (Lords) | Margaret Ounsley | |
| Secretary of State for Constitutional Affairs and Lord Chancellor | Garry Hart | |
| | Philip Bassett | |
| Secretary of State for Culture, Media and Sport | Nick Bent | |
| | Roger Sharp | |
| | Sarah Latham | |
| Secretary of State for Defence | Steve Bates | |
| | Josh Arnold-Forster | |
| Secretary of State for Education and Skills | Richard Darlington | |
| | Dan Corry | |
| Secretary of State for Environment, Food and Rural Affairs | Stephen Hale | |
| | Sheila Watson | |
| Secretary of State for Foreign and Commonwealth Affairs | Mark Davies | Communications and EU |
| | Michael Williams | UN; human rights; Asia, Africa and the Balkans |
| Secretary of State for Health | Liz Kendall | |
| Secretary of State for the Home Department | Hannah Pawlby | |
| Leader of the House of Lords, and Lord President of the Council | Joe Dancey | |
| Secretary of State for International Development | Alex Evans | Communications |
| | Beatrice Stern | |
| Secretary of State for Northern Ireland and Secretary of State for Wales | Claire McCarthy | |
| | Philip Taylor | |
| | Andrew Bold | |
| | Matthew Burchell | |
| Lord Privy Seal and Leader of the House of Commons | James Connal | |
| | Michael Dugher | |
| Secretary of State for Trade and Industry | Tom Clark | |
| | Tim Horton | |
| | Emily Thomas (unpaid) | |
| Secretary of State for Transport and Secretary of State for Scotland | Andrew Maugham | |
| | Sam White | |
| | Iain Gray | Scottish affairs |
| Chancellor of the Exchequer[3, 4] | Spencer Livermore | |
| | Damien McBride | |

| *Appointing Minister* | *Special Adviser in post* | *Expertise* |
|---|---|---|
| Chief Secretary | Jonathan Ashworth | |
| | Cathy Koester | |
| Secretary of State for Work and Pensions | Sue Regan | Pension reform |
| | Anna Turley | Disability, Inequality, Child Poverty, Housing Benefit reform |
| | Katherine Raymond | Employment and Incapacity Benefit reform |
| | Matthew Doyle | Media and Communications |
| Minister without Portfolio | Martin O'Donovan | |
| | Blair McDougall | |

[1] Plus Lord Birt who is the Prime Minister's unpaid strategy adviser.
[2] David Bennett is an expert adviser, appointed in accordance with para 2.11 of the Ministerial Code.
[3] In addition, the Chancellor of the Exchequer has appointed Paul Gregg, Shriti Vadera, Michael Jacobs, Stewart Wood and Matt Cavanagh to the Council of Economic Advisers on special adviser terms.
[4] Plus Sue Nye appointed as an unpaid adviser.

*Pay bands for 2005–06*

The pay bands and pay ranges for special advisers for 2005–06 are as follows:

| | |
|---|---|
| Scheme Ceiling | £133,900 |
| Pay Band 4 | £82,423 to £98,907 |
| Pay Band 3 and Premium | £61,543 to £95,609 |
| Pay Band 2 | £48,355 to £63,824 |
| Pay Band 1 | £37,366 to £50,148 |
| Pay Band 0 | Up to £37,365 |

*Advisers by Pay Band*

At 21 July 2005, the number of special advisers in each pay band by department is as follows:

| *Department* | *Pay band* 0 | 1 | 2 | 3 | 4 |
|---|---|---|---|---|---|
| No 10[1] | 1 | [2]3 | 4 | [2]12 | — |
| Office of the Deputy Prime Minister | — | 1 | 1 | 1 | — |
| Minister for Communities & Local Government | — | — | — | 1 | — |
| Chancellor of Duchy of Lancaster and Minister for the Cabinet Office | — | [2]1 | — | — | [2]1 |
| Chief Whips' Offices (Commons and Lords) | — | 1 | 2 | — | — |
| Constitutional Affairs | — | — | — | — | 2 |
| Culture, Media and Sport | — | — | 2 | 1 | — |
| Defence | — | — | 1 | [2]1 | — |
| Education and Skills | — | — | 1 | 1 | — |
| Environment, Food and Rural Affairs | — | — | 1 | 1 | — |
| Foreign and Commonwealth Office | — | 1 | — | 1 | — |
| Health | — | — | 1 | — | — |
| Home Office | — | 1 | — | — | — |
| International Development | | 2 | | | |
| Lord President of the Council and Leader of the House of Lords | — | 1 | — | — | — |
| Lord Privy Seal, Leader of the House of Commons | — | 1 | 1 | — | — |
| Secretary of State for Northern Ireland and Secretary of State for Wales | — | 4 | — | — | — |
| Trade and Industry[3] | 1 | — | 1 | — | — |
| HM Treasury[4] | 1 | 1 | [2]1 | 1 | — |
| Secretary of State for Scotland and Secretary of State for Transport | — | 1 | 2 | — | — |
| Work and Pensions | — | 1 | [2]3 | — | — |
| Minister without Portfolio | 1 | 1 | — | — | — |
| Total | 4 | 20 | 21 | 20 | 3 |

*Paybill costs*

The cost of special advisers in 2004–05 was £5.5 million[5].

[1] Plus three special advisers who are paid beyond Pay Band 4 but within the scheme ceiling.
[2] Includes provisional salaries yet to be agreed.
[3] Plus one adviser who is unpaid.
[4] Plus the five members of the Council of Economic Advisers who are employed on special adviser terms (one in Band 4, three in Band 3, and one in Band 1). One of the members of the Council works part time.
[5] This figure includes salary, severance pay and estimate of pension costs.

**Special Advisers**

**The Prime Minister (Mr. Tony Blair):** I have today placed in the Libraries of the both Houses copies of the revised code of conduct for special advisers and the revised model contract for special advisers. These reflect commitments given by the Government to the Public Administration Committee and the Committee on Standards in Public Life.

The civil service Order in Council governing the appointment of special advisers has also been amended to the effect that special advisers are appointed to assist Ministers.

### Ministerial Code

**The Prime Minister (Mr. Tony Blair):** I have today placed in the Libraries of the both Houses copies of a revised ministerial code. The code provides guidance on how Ministers should conduct themselves in carrying out their official duties. The foreword to the code reiterates how I expect all Ministers to operate within both the letter and the spirit of the code. The revised code takes account of recommendations made by the Public Administration Committee, the Committee on Standards and Privileges and the Committee on Standards in Public Life. In particular, the code is split for the first time into two parts: a ministerial code of ethics and procedural guidance for Ministers.

### Advisory Committee on Business Appointments

**The Prime Minister (Mr. Tony Blair):** I have today published the seventh report of the independent Advisory Committee on Business Appointments. The report provides an account of the work of the committee in advising former Ministers and Crown servants on the acceptance of appointments after leaving government. The report covers the period 1 April 2004 to 31 March 2005. Copies of the report have been placed in the Libraries of the both Houses.

## SOLICITOR-GENERAL

### Army Prosecutions (Update)

**The Solicitor-General (Mr. Mike O'Brien):** My right hon Friend the Attorney-General has made the following written ministerial statement:

> "In a written statement of 19 July 2005, *Official Report*, Column 99WS, I informed the House that four British servicemen had been charged with manslaughter, following the alleged unlawful killing of Ahmed Jabar Kareem in Basra on 8 May 2003.
>
> The statement named three servicemen. I can now inform the House that the fourth serviceman, Lance Corporal James Stephen Cooke (21) with the Irish Guards, has now been told of the charge against him."

### Treasury Solicitor's Annual Report

**The Solicitor-General (Mr. Mike O'Brien):** The Annual Report and Accounts 2003–04 have today been published and laid before Parliament. Copies have been placed in the Libraries of both Houses.

## TRADE AND INDUSTRY

### Renewable Energy

**The Minister for Energy (Malcolm Wicks):** I am making today a statement to the House on the interaction of existing Government policy and planning procedures, with regard to the need for new energy infrastructure, arising from the targets, goals and aspirations for renewable generation set out in the 2003 energy White Paper, "Our Energy Future—creating a low carbon economy".

The 2003 energy White Paper set out four key goals of energy policy:

> To put the UK on a path to cut carbon dioxide ($CO_2$) emissions by some 60 per cent. by about 2050.
>
> To maintain the reliability of energy supplies.
>
> To promote competitive markets in the UK and beyond.
>
> To ensure that every home is adequately and affordably heated.

The energy White Paper makes clear that UK energy systems will undergo a significant change over the next 20 years to allow these goals to be met. Therefore, it will be necessary to update much of the UK's energy infrastructure during that period[1]. There will be a requirement for:

> An expansion in infrastructure (e.g. overhead power lines and underground cables, and pipelines).
>
> New forms of infrastructure (e.g. smaller scale distributed generation, gas storage sites).
>
> Infrastructure development in areas that have not previously seen such developments.

The energy White Paper also makes clear that UK energy policy is delivered through a market framework, governed by an independent regulator. Government policy puts in place broad objectives, which are supported by regulation, fiscal regimes and, where necessary, financial support. As with the sector in general, the private sector is best placed to develop the systems that can deliver the demanding new renewables generation targets and objectives in the most economic, efficient and effective way possible[2].

This principle applies to decisions about the exact provision and location or route of energy transmission and distribution infrastructure which must be taken within the planning system which ensures that development and changes in land use occur in suitable locations.

Beyond broad targets for renewable electricity and combined heat and power (see the energy White Paper) the UK Government do not believe that energy policy should set out a specific fuel mix for electricity generation; nor have they attempted to determine the best specific location for new facilities to generate electricity power or other kinds of energy infrastructure.

Instead the UK Government believe that the private sector is best placed to decide exactly what energy infrastructure is needed and how, subject to planning and environmental requirements, to deliver policy objectives most effectively. It therefore falls to the developer to demonstrate the desirability of a particular scheme in a particular location. For the monopoly transmission and distribution networks that is to be achieved within the price controls set by the regulator.

A slightly different approach has been taken in Wales, where the Assembly Government have set out in their revised technical advice note (TAN) 8 that 800 MW of additional capacity will be required to be provided by large-scale onshore wind by 2010. TAN8 has identified specific areas considered suitable for large-scale onshore wind farm development. The capacity of the electricity distribution system to accommodate sufficient wind energy developments is a key influence on the shape and distribution of proposals in Wales.

---

[1] e.g. Energy White Paper 2003, paras 1.16–1.17, page 10.

[2] e.g. EWP, para 1.21.

The provision of energy infrastructure is part of a delivery system that provides an essential national service. Business and homes in the UK require a reliable supply of energy free from disruption and interruption. New energy infrastructure projects may not appear to convey any particular local benefit and may indeed have adverse local effects, but they provide crucial national benefits, which all localities share. In particular, projects will usually add to the reliability of national energy supply, from which every user of the system benefits.

Failure to put in place energy infrastructure will, immediately or over time—and individually, incrementally or cumulatively—reduce the reliability of energy systems, with potentially disastrous consequences for the local, regional and national community and economy. Energy infrastructure projects often have long lead times and/or cater for longer-term needs, based on careful forward planning by energy companies. Therefore, even where new projects may not appear to have immediate benefits, failure to put them in place may reduce future reliability.

In remoter areas, where new renewable generation is to take place, new distribution and transmission networks will be required as a consequence of the need to achieve—through new energy sources, as part of a package of measures—the Government's energy policy objectives. Electricity generation is itself a key source of emissions of carbon dioxide ($CO_2$), the main greenhouse gas. How electricity is generated will play a crucial part in whether the Government will be able to deliver their international commitments and their domestic goal for a 20 per cent. reduction in $CO_2$ emissions in 2010 (set out in the UK climate change strategy) and, ultimately, reductions of 60 per cent. by 2050.

The Government have therefore set targets for the expansion of renewable forms of electricity generation, which produce low $CO_2$ emissions or no $CO_2$ emissions at all.

*Renewable Energy*

The UK Government have set a target that generation from renewable sources (wind power, wave power, biomass, hydropower, solar power etc.) should supply 10 per cent. of the UK electricity in 2010. The Government's aspiration is by 2020 to double renewable energy's share of electricity to 20 per cent. The Scottish Executive have set a target that 18 per cent. of their electricity will come from renewables by 2010, and recently consulted about raising this to 40 per cent. by 2020. In Wales, the Welsh Assembly Government have set benchmark targets of 4 TWh per annum of renewable energy production by 2010 and 7 TWh by 2020.

The expansion of renewable energy is essential as a part of a package of measures to meet the Government's $CO_2$ reduction targets and mitigate future global climate change, which could have significant impacts on all areas of the UK.

Renewable energy will also provide economic benefits for the UK economy. Often, individual renewables developments can offer economic benefits to local areas in terms of jobs, investment and revitalisation of the rural economy.

As with all energy infrastructure, however, there will be occasions when such developments may appear to offer few local benefits, but will still add to the essential resilience of national energy systems.

Renewable generation infrastructure needs to be developed where sufficient renewable energy resources exist for it to be economic and effective. For example:

> Wind turbines generally require average wind speeds of more than 4 to 5 metres per second.
>
> Biomass installations need access to sufficient sources of biomass fuel within the local area. The recommended radius for energy crops is 25 miles/40 kms under DEFRA's energy crops planting scheme.

However, developers will be best placed to make a judgment about the technical feasibility and economic viability of individual projects.

Renewable energy resources are distributed widely throughout the UK. Therefore, for UK renewables targets to be met, a significant amount of new renewable generation infrastructure will need to be built in every region of the UK, often in local areas that have not previously housed generation infrastructure.

I am today placing in the Libraries of both Houses a fuller note setting out Government policy that is intended to provide assistance by being a material consideration of significant weight in planning decisions on energy infrastructure.

## Regional Development Agencies

**The Minister for Industry and the Regions (Alun Michael):** I have today laid before Parliament the annual reports and accounts for 2004–05 for the eight regional development agencies (RDAs) outside London. Copies have been placed in the Library.

The annual report and accounts for the London Development Agency are presented to the Mayor of London rather than Parliament. I shall provide a copy to the House of Commons Library when copies are available.

The Government welcome the contribution that the RDAs have made during this year to driving forward economic development in their respective regions.

Also published today are the RDAs' reported tier 3 outputs for 2004–05. These results are evidence that the RDAs continue to play a valuable role in improving the economic performance of the English regions and, through working with their partners, the RDAs are making a real difference to the individual regional economies concerned. The figures cover the creation and safeguarding of jobs, the amount of brownfield land brought back into use, the number of businesses added to the regional economies, the number of learning opportunities created and the amount of private sector investment attracted benefiting deprived areas, all as a result of RDA activity.

Press releases on the tier 3 outputs have been issued in each region. Copies of the output results have been placed in the Library, and are also available on the DTI website at www.dti.gov.uk/rda/info.

## Informal Competitiveness Council

**The Secretary of State for Trade and Industry (Alan Johnson):** The Informal Competitiveness Council

hosted by the UK presidency took place in Cardiff on 11 to 12 July 2005. Lord Sainsbury of Turville chaired the first day, covering research issues, and I chaired the second day, which considered EU better regulation and the development of the internal market. Over dinner on 11 July, both Research and Economics/Industry Ministers discussed innovation policy.

On the first day, Research Ministers heard presentations from a number of speakers, including Research Commissioner Potocnik and representatives from industry and science.

The Commission stressed the need for the EU to help fulfil Lisbon goals for growth and jobs by committing more money for EU research, both nationally and for the EU's next research framework programme (FP7). Speakers from academia and business gave presentations on how the framework programme could be made simpler and more accessible for business and how the Scientific Council for the proposed European Research Council (ERC) had been chosen.

Ministers then broke up into five small groups for detailed discussions on the structure of the European Research Council (ERC); increasing industry and SME participation in the framework programme; and how to develop the potential of the less research intensive regions. In addition, Ministers were asked to consider the cross-cutting issue of simplification as it related to their areas.

Group rapporteurs reported vigorous and useful discussions. Lord Sainsbury concluded that, while there were still difficult issues to tackle, there was consensus on the need for the ERC to be independent; on the need for effective, practical help for SMEs; that collaborative research should be more user-driven; that help for less research intensive regions had to be focussed; and on the continued importance and need for simplification.

On the second day, the session on EU better regulation opened with presentations from Vice-President of the European Commission and Commissioner for Enterprise and Industry Gunter Verheugen, Alain Perroy, the director general of CEFIC (the European Confederation for the Chemicals Industry) and leading member of the Alliance for a Competitive European Industry, and Jacek Piechota, the Polish Economics Minister.

The Commission's commitment to progressing the better regulation agenda in the EU and the importance of regulatory reform in achieving Lisbon objectives on growth and jobs were stressed. The Commission also outlined recent initiatives that would contribute to the delivery of regulatory reform, including strengthened impact assessment guidelines that would ensure that the effects of proposed legislation on competitiveness were taken into account. A new push to simplify existing EU regulation and screening of proposals that were already on the table for their effects on competitiveness. Alain Perroy gave a business perspective on the need for regulatory reform and Jacek Piechota outlined steps that Poland had taken at a national level to improve policy-making processes.

Ministers then split into four groups to discuss using impact assessments in Council deliberations; maximising the involvement of business in policy-making; simplification; and what member states can do to improve the regulatory framework at a national level. Ministers reported productive and positive discussions, with a strong consensus on the need to deliver regulatory reform for growth and jobs. In my summary, I welcomed the Commission's clear commitment to change and recent initiatives, and emphasised the need for the Commission and member states to work together to achieve results.

Debate on the internal market began with presentations from Czech Deputy Prime Minister for economic affairs Martin Jahn, who explained how membership of the internal market has benefited the Czech economy, and Internal Market Commissioner Charlie McCreevy, who called for greater efforts to ensure effective implementation of the existing acquis and for progress on opening up the market in services.

Subsequent breakout group discussions concluded that the internal market was often taken for granted and should be more vigorously promoted. The perception of enlargement (focused on immigration and social dumping) was at odds with the actual impact (a strengthened global position for the EU, a more varied and flexible EU economy). Ministers also emphasised the need for progress on the services directive as key to the future development of the internal market. In addition, implementation, enforcement and the provision of advice and assistance to businesses and citizens were seen as crucial.

The presidency summary of debate has been placed in the Libraries of both Houses and can also be found at www.dti.gov.uk/ewt/compet.htm.

### Coal Health Compensation Schemes

**The Minister for Energy (Malcolm Wicks):** Following news reports in recent weeks, I made a statement about the coal health compensation schemes to the House on 30 June, outlining a number of immediate steps I was taking to respond to these issues.

I now wish to inform the House that the Secretary of State and I have also decided to initiate an external review of the Department's administration of the former British Coal health schemes so that the Government can be advised whether any further action is necessary in the way in which we are internally managing the schemes.

The draft terms of reference are:

> "To review the integrity of the administration of the scheme for dealing with coal health claims; and to identify any specific measures needed to improve the administration of the scheme; to consider whether there are adequate safeguards in place to prevent, detect and pursue fraud whilst ensuring the fair and timely settlement of claims; and to make recommendations accordingly to Ministers and/or the Accounting Officer."

Candidates to lead the review are currently being approached and we hope that the lead of the review will be announced shortly. The precise timing and conduct of the review would be a matter for further discussion with the head of the review, but we would expect that conclusions should be available by the end of September.

The review will not encroach on the ongoing investigations being carried out by the South Yorkshire police into potential fraud under the compensation schemes.

## WORK AND PENSIONS

### Disability Discrimination Act 2005

**The Parliamentary Under-Secretary of State for Work and Pensions (Mrs. McGuire):** I am today announcing the final implementation timetable for the main duties in the Disability Discrimination Act 2005 and the outcome of consultations on the use of certain regulation-making powers in the Act.

The 2005 Act introduces a wide range of major reforms to the Disability Discrimination Act 1995 (DDA 1995) and, when taken together with other changes we have made since 1997, represents the most significant package of improvements to disabled people's civil rights ever seen.

Subject to parliamentary approval of implementing secondary legislation, the duties will be commenced as follows:

| *Commencement date* | *Provision/s* |
|---|---|
| 5 December 2005 | Extend the DDA 1995 to cover, effectively from the point of diagnosis, people with HIV infection, cancer or multiple sclerosis.<br>End the requirement that a mental illness must be "clinically well-recognised" before it can be regarded as an impairment under the DDA 1995.<br>Make third party publishers (e.g. newspapers) liable for publishing discriminatory advertisements.<br>Amend the way that the DDA 1995 applies to group insurance to clarify the responsibilities of those concerned with its provisions.<br>Introduce for Part 3 of the DDA 1995 (i.e. access to goods and services, public authorities, private clubs and premises) a Questions Procedure similar to that which already exists in Part 2 (i.e. employment and occupation).<br>Make it unlawful for private clubs with 25 or more members to treat disabled people less favourably.<br>Make it unlawful for local authorities and the Greater London Authority to treat their disabled members less favourably.<br>Clarify where liability falls if police officers discriminate under Part 3 of the DDA 1995. |
| 4 December 2006 | Duty on public authorities to promote equality of opportunity for disabled people.<br>Functions of public authorities not already covered by the DDA 1995 to be brought within its scope.<br>Land based public transport vehicles to be brought within scope of Part 3 of the DDA 1995.<br>Provide for all rail vehicles to comply with rail vehicle accessibility regulations by 1 January 2020, apply accessibility regulations to refurbishment of rail vehicles and introduce certification and enforcement provisions.<br>Subject to consultation, formalise recognition of disabled persons' parking badges issued by other countries.<br>Extend the duty of reasonable adjustment, other than in respect of physical features, to those who let or manage rented premises, and to commonhold premises.<br>Ensure landlords cannot unreasonably withhold consent for a disability-related improvement to certain rented dwelling houses.<br>Extend duties of reasonable adjustment to private clubs with 25 or more members. Extend duties of reasonable adjustment to local authorities and the Greater London Authority in respect of their disabled members. |

The 2005 Act also covers general qualifications bodies awarding general qualifications, such as A-levels and GCSEs. This new duty was introduced following a recommendation made by the pre-legislative Scrutiny Committee in May 2004. During passage of the Bill, we made clear that we would need to consult with all interested parties before finalising the detail of the duty. That consultation is ongoing and we will announce the commencement date of the duty later this year.

I am also placing in the Library the outcome of the consultation exercise the Department completed earlier this year on our proposals for using regulation making powers under the 2005 Act's provisions on private clubs, premises, the definition of disability and the Part 3 Questions Procedure. In general, respondents agreed with our proposed approach and we will be bringing forward draft Regulations accordingly.

However, in the light of consultation, and following a review of evidence of the extent of discrimination faced by people with more minor forms of cancer, we have decided not to exercise the 2005 Act's regulation-making power which would allow us to exclude certain types of cancer from automatic coverage by the DDA 1995.

We have concluded that it is not possible to distinguish effectively between those people whose cancers are likely to go on to require substantial treatment and those whose cancers are not and that, if we were to attempt to do so, we would introduce uncertainty and complexity into the definition of disability. This would lead to unfair and unequal outcomes for disabled people, and make it difficult for employers and others with responsibilities under the Act to understand and comply with their duties. Treating all people who have cancer as disabled people ensures a straightforward approach, which will provide equity of outcome, while having minimal consequences for employers and service providers by reducing red tape.

Finally, our 2004 consultation document, "Delivering equality for disabled people" (CM 6255) covered the bodies that would be subject to 'specific duties' to assist them in complying with the new general public sector duty to promote equality for disabled people. As a result of that consultation, we have decided that the following additional bodies will be subject to the specific duties:

Advisory, Conciliation and Arbitration Service
Anglesey Local Health Board
Arts and Humanities Research Council
The Big Lottery Fund
Biotechnology & Biological Sciences Research Council
Blaenau Gwent Local Health Board
Bridgend Local Health Board
Caerphilly Local Health Board
Cardiff Local Health Board
Carmarthenshire Local Health Board
Ceredigion Local Health Board
Children's Commissioner for Wales
Council for the Central Laboratory of the Research Councils
Countryside Agency
Criminal Injuries Compensation Authority
Denbighshire Local Health Board
Economic & Social Research Council

Engineering & Physical Sciences Research Council
English Heritage
Estyn
Financial Services Authority
Flintshire Local Health Board
General Dental Council
General Medical Council
General Social Care Council
Gwynedd Local Health Board
Heritage Lottery Fund
Human Fertilisation and Embryology Authority
Independent Police Complaints Commission
Independent Regulator on NHS Foundation Trusts
Independent Review Service
The Information Commissioner
Law Society of England and Wales
Medical Research Council
Merthyr Tydfil Local Health Board
Monmouthshire Local Health Board
Museums, Libraries and Archives Council
National Consumer Council
National Lottery Commission
Newport Local Health Board
Neath Port Talbot Local Health Board
Nursing and Midwifery Council
National Forest Company
Natural Environment Research Council
Ofcom
Particle Physics & Astronomy Research Council
Pembrokeshire Local Health Board
Powys Local Health Board
Remploy Limited
Rhondda Cynon Taff Local Health Board
Royal Mail Group
Standards Board for England
Student Loans Company Ltd.
Swansea Local Health Board
Torfaen Local Health Board
UK Film Council
UK Sport
Vale of Glamorgan Local Health Board
Wrexham Local Health Board

The former Secretary of State for Work and Pensions, my right hon. Friend for Kingston upon Hull, West and Hessle (Alan Johnson) confirmed on 23 March that schools would also be subject to specific duties. I will make a further statement in due course.

# Written Answers to Questions

*Monday 4 July 2005*

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Animal Welfare

**Miss Widdecombe:** To ask the Secretary of State for Environment, Food and Rural Affairs how many circuses are resident in the UK; which use wild animals; and if she will make a statement. [7037]

**Mr. Bradshaw:** There are three conventional circuses resident in the Great Britain which use wild and exotic animals.

We do not have any data for Northern Ireland.

### Beddingham Landfill Site

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons the landfill site at Beddingham has been refused a licence to operate by the Environment Agency. [8607]

**Mr. Bradshaw** *[holding answer 30 June 2005 ]:* In order to avoid confusion, I should explain that the Environment Agency has refused to issue a Pollution Prevention and Control (PPC) permit for the site in question, rather than a licence. Under the Landfill (England and Wales) Regulations 2002 all landfill sites operating under the terms of a waste management licence are required to apply for a PPC permit which places more stringent requirements on the operator, in line with the EU Landfill Directive.

The Environment Agency has refused the application for a Pollution Prevention and Control permit for Beddingham landfill site, as submitted, on two grounds. Firstly, leachate from the landfill currently poses an unacceptable risk to groundwater surrounding the site. The application as submitted does not adequately address this issue. Secondly, improvements to the site's liner system (intended to control the escape of leachate and gas from the site) are required. This has not been adequately addressed in the application either. It should however be noted that the site poses no significant risk to human health.

Under the regulations, the operator has six months to appeal the refusal or make a fresh application. Under the regulations, the site may continue to receive waste in the meantime. In the event that the operator decides to appeal the decision or makes a fresh application, the site can also continue to receive waste while these matters are dealt with. Negotiations between the operator and the Environment Agency are ongoing to resolve the reasons for refusal. It is likely that these negotiations will conclude with a new application for a PPC permit for this site.

### Bees

**Tim Loughton:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the increased costs to beekeepers resulting from adoption of the EC directive 2004/28 regarding the supply of veterinary products and inspections; and what discussions she has had with British beekeepers on this matter. [8349]

**Mr. Bradshaw** *[holding answer 30 June 2005]:* Directive 2004/28/EC amends directive 2001/82/EC, which sets out requirements for the authorisation and control of veterinary medicines. It was published by the European Commission on 30 April 2004 following a major review of EU medicines legislation. Member states are required to implement its provisions by 30 October 2005.

During negotiations in Brussels, a requirement to restrict the distribution of veterinary medicinal products for food producing animals, including honeybees, to prescription supply was presented with the intention of strengthening the control of these medicines and related consumer safeguards. While there are valid reasons for restricting some veterinary medicines to prescription supply, we do not consider this appropriate for all medicines for use in food-producing animals. Neither the commission nor the majority of member states supported the UK view and the requirement was consequently taken forward in the amending directive. We are aware that this provision has the potential to increase the costs to beekeepers of obtaining medicines by incurring additional veterinary charges.

However, the UK successfully negotiated the inclusion of a provision that allows medicines that meet certain criteria, to be agreed subsequently, to be exempt from the prescription requirement. This provision also allows the current distribution arrangements to remain until a list of exemption criteria is agreed, or until January 2007 if no list has been agreed by then. This exemption list is to be proposed by the commission and voted on by the member states. Officials at the Veterinary Medicines Directorate (VMD) are well aware of the concerns expressed by beekeepers and continue to argue strongly for medicines authorised for use in bees to be included on this list. The commission has not yet proposed a list and it may be some time before the outcome is known.

In addition to pressing for bee medicines to be exempted from the prescription requirement, we have proposed new distribution categories for the UK that include tiered categories of prescription only medicines (ROMs). If adopted, these will comply with the directive's provisions while allowing veterinary medicines for food-producing animals that are currently available without prescription to continue to be supplied by pharmacists or registered merchants without the need to involve a veterinary surgeon.

VMD officials are working closely with beekeeper representatives and are making arrangements for the beekeepers to speak to a meeting of EU medicines regulators under the UK presidency.

## Bovine TB

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs how many and what percentage of cattle in England are estimated to have contracted bovine tuberculosis, broken down by region. [5883]

**Mr. Bradshaw** *[holding answer 20 June 2005]:* The number and percentage of cattle herds in Great Britain placed under movement restriction as a result of a bovine TB breakdown during 2004 is shown in the following table. The information is not available on a UK basis.

| *Region*[1] | *Number of cattle herds registered on State Veterinary Service database* | *Number of cattle herds under TB restriction* | *Percentage of cattle herds under TB restriction* |
|---|---|---|---|
| England—West | 23,471 | 3,451 | 14.7 |
| England—North | 25,698 | 481 | 1.9 |
| England—East | 12,907 | 130 | 1.0 |
| England—Total | 62,076 | 4,062 | 6.5 |
| Wales | 15,495 | 1,065 | 6.9 |
| Scotland | 14,718 | 117 | 0.8 |
| GB Total | 92,289 | 5,244 | 5.7 |

[1] Relates to the former State Veterinary Service Regions.

*Note:*

Data downloaded from the State Veterinary Service database on 8/9 February 2005 and published on the Defra website. All data are provisional and subject to change as more data become available.

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the locations of the proposed trial of the badger TB vaccine. [6822]

**Mr. Bradshaw:** We are currently considering a number of potential locations in south west England. Once potential locations have been identified we will seek landowner permission to carry out the proposed trial.

## Carbon Sequestration

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the legal impediments to the use of depleted gas and oil fields for carbon sequestration purposes. [7044]

**Mr. Bradshaw** *[holding answer 27 June 2005]:* The placement of materials in the maritime area (which includes geological structures under the seabed) is regulated internationally by the London Convention and the 1996 protocol to the Convention, and by the OSPAR Convention for the protection of the marine environment of the north-east Atlantic. The 1996 protocol to the London Convention is not yet in force, but has been ratified by the United Kingdom and we would expect to abide by its provisions.

The question of the compatibility of carbon dioxide placement in geological structures, including depleted or partly depleted oil and gas fields, has been discussed in both conventions.

Under both conventions, there is no bar on the use of carbon dioxide for operational purposes. This implies that carbon sequestration in association with enhanced oil recovery would be permitted.

The contracting parties to the OSPAR convention agreed a position statement on carbon sequestration in 2004. This established that in other certain circumstances carbon sequestration is compatible with the convention. The position is set out in full in Annex 12 to the summary record of the 2004 meeting of the OSPAR Commission. A copy will be placed in the Library of the House, and it is also available on the OSPAR web site, www.ospar.org.

The United Kingdom raised the issue of the carbon sequestration during the 2004 consultative meeting of the parties to the London Convention. The legal position has not yet been established. It was agreed to set up an inter-sessional correspondence group to consider the legal issues raised under both the convention and the 1996 protocol. The UK is coordinating the work of this group. The issue will be discussed again at the 2005 consultative meeting in October, when results of the inter-sessional work will be considered.

Any proposed project for carbon sequestration would also need to comply with relevant European directives and domestic legislation, for example in relation to the assessment environmental impacts and to the protection of the environment.

## Energy Efficiency

**Colin Challen:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will use the UK presidency of the European Council to promote responses to the new European Commission Green Paper on energy efficiency. [7581]

**Mr. Morley:** The Government welcome the publication of the European Commission's Green Paper on Energy Efficiency, "Doing More With Less". The priority that the Commission is attaching to this important initiative is entirely consistent with our own aims and objectives under the UK presidency. We are sure that the Green Paper will act as an important catalyst for action on energy efficiency issues and recognition of its importance in tackling climate change and hope that the process will lead to an ambitious plan of action.

Under the UK presidency, the Government will therefore look to pro-actively encourage responses to the Green Paper as part of the wider public debate on energy efficiency which the Commission have launched. We are already in discussion with the Commission about hosting an internationally focused energy efficiency event drawing on the European Commission Green Paper as well as the experience and knowledge of a wide cross section of international experts and we will also look to encourage the debate in other fora.

## Environment Agency

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs how much revenue she estimates the Environment Agency will receive from companies which register their premises

with regards to collections of waste; under what legislation such registration is a requirement; and if she will make a statement. [6149]

**Mr. Bradshaw** *[holding answer 21 June 2005]*: The Environment Agency estimates that producer notification of premises producing hazardous waste will generate an income of £2.25 million in a full year of operation to assist in meeting their costs of administering the new regime. This is a requirement of the Hazardous Waste Regulations 2005 (Statutory Instrument number 2005894). This funding will enable the Environment Agency to begin to target its resources on compliance activity and carry out periodic inspections of hazardous waste producers as required by the Hazardous Waste Directive.

### Flood Protection

**Bob Spink:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the *(a)* current and *(b)* future level of flood protection necessary for Canvey Island; and if she will make a statement. [6892]

**Mr. Morley:** The Environment Agency's assessment is that Canvey Island is protected by sea defences to a standard which is among the highest in the country. The sea walls around Canvey Island currently provide protection against coastal flooding in all but the most extreme conditions (those with a probability of occurrence of less than 0.1 per cent. in any one year). By the year 2030, on the assumption of no further improvements to the current defences, it is estimated that protection would be slightly reduced to a level effective against events with a probability equal to 0.1 per cent. in any one year.

The Environment Agency has initiated a project, 'Thames Estuary 2100', to address the impacts of future climate change and sea level rise on the Thames estuary (including Canvey Island). More accurate assessments of the standards of sea walls in the Thames estuary are being undertaken as part of this overall project. Once this work has been completed, the need for any greater protection can be assessed.

The final Plan of the Thames Estuary 2100 project is due in 2008.

**Bob Spink:** To ask the Secretary of State for Environment, Food and Rural Affairs what guidance the Environment Agency has issued on single-storey development in areas susceptible to flooding; and if she will make a statement. [7382]

**Mr. Morley:** I understand the Environment Agency has not itself issued any specific national guidance on single-storey development in areas susceptible to flooding. However, it has worked closely with the Construction Industry Research and Information Association (CIRIA), who have recently issued guidance on the development of bungalows and single-storey dwellings in areas at risk of flooding, as part of CIRIA Guidance "Development and flood risk—Guidance to the construction industry".

Government policy for effective national management of flood risk is to avoid inappropriate development in areas at risk. The Office of the Deputy Prime Minister's Planning Policy Guidance Note 25 "Development and Flood Risk" cautions planning authorities to take particular care in respect of proposed single-storey developments behind existing sea defences because of the speed of flooding in such circumstances combined with no means of escape to an upper floor.

**Bob Spink:** To ask the Secretary of State for Environment, Food and Rural Affairs what future works are planned on Canvey Island's flood defences; when they are expected to start; and what the expected cost is. [7381]

**Mr. Morley:** I understand the Environment Agency's plans for flood defence improvement work on Canvey Island involve the replacement/refurbishment of 12 pumping stations to improve the level of fluvial defence to reduce the chance of flooding in any one year from 10 per cent. to 0.5 per cent.

The existing pumping stations have reached the end of their design life and also require some modifications if Environment Agency staff are to operate and maintain them safely.

I understand work began on 27 June 2005 and will be carried out on a 'one by one' basis over 18 months. The construction cost for these works is estimated at £3.5 million. The Canvey Island Drainage Improvement Scheme as a whole will be £5.79 million.

### Honours

**Mr. Pope:** To ask the Secretary of State for Environment, Food and Rural Affairs how many officials currently in the Department received honours in the recent Queen's Birthday Honours List; and at what rank of honour. [5120]

**Jim Knight:** Within Defra one official received a CBE, two received OBEs, one an MBE. Also one official in the Forestry Commission received an MBE.

A full listing can be found in the answer given by my right hon. Friend the Chancellor of the Duchy of Lancaster (Mr. Hutton) on 22 June 2005, *Official Report*, column 1059W.

### Interceptor Tunnel (River Thames)

**Sarah Teather:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what the latest estimate is of the cost of building an interceptor tunnel for the River Thames; [8213]

(2) pursuant to the answer of 23 June 2005, *Official Report*, columns 1119–21W, on the River Thames (pollution), when she expects the report by her officials and the Thames Tideway Strategic Study Steering Group to be completed. [8236]

**Mr. Morley:** The latest estimate, at 2004 prices, of building the large 35 km interceptor tunnel and the associated treatment facilities proposed by the Thames Tideway Strategic Study Group is £1.7 billion.

The further report from the Thames Tideway Strategic Study Steering Group report is expected to be completed and submitted to Ministers and the Office of Water Services this summer.

## Litter

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps are being taken to discourage the dropping of litter on streets; what penalties apply to the offence; and if she will make a statement. [8113]

**Mr. Bradshaw:** It is an offence under section 87 of the Environmental Protection Act 1990 to thrown down, drop or otherwise deposit any litter in any place in the area of a principal litter authority which is open to the air. A person found guilty of the offence may be fined up to £2,500 in a magistrates court. Section 88 of the 1990 Act also enables local authorities to issue fixed penalties for the offence as an alternative to prosecution. The level of fixed penalties in England is currently set at £50.

Government have recently introduced new legislation to discourage the dropping of litter through the Clean Neighbourhoods and Environment Act 2005. Until 7 June this year, it was only an offence to drop litter on land to which the public have access. This has now been extended to cover all types of land, including private land and land covered by water, sending out a clear message that the dropping of litter anywhere is unacceptable.

The Act also contains changes to the fixed penalty notice regime which will be brought into force in April next year. It will enable local authorities to authorise officers other than their own employees to issued fixed penalties for litter, and additionally, will extend this power to parish councils. This will help to discourage littering by widening the range of officers that are able to take immediate enforcement action.

At the same time, local authorities will be given the freedom to set the level of fixed penalties themselves within a range set out by the Secretary of State in regulations, and to offer discounts for early payment. A standard default amount of £75 will apply if the local authority chooses not to exercise this power. The Act will make it an offence for someone to fail to supply their name and address or to give a false name or address, when requested to do so by an authorised officer serving an FPN. This will deter people from dropping litter by increasing on-the-spot fines and giving enforcement officers more effective powers.

The Government are seeking to discourage littering not only through improved legislation and enforcement, but also by educating people about the responsible disposal of litter and highlighting the link between irresponsible disposal, poor health, a degraded local environment, and levels of anti-social behaviour. It is for this reason that Defra provides grant-funding to the environmental charity ENCAMS to conduct public awareness campaigns on its behalf. These are targeted at specific groups to reduce types of littering that have been identified as particularly problematic or prevalent. For example, the focus this year is on youth littering and smoking-related litter.

## London Sewer Rats

**Mr. Dismore:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the local authorities that responded to the consultation on the London Sewer Rat Joint Working Protocol. [7329]

**Mr. Morley:** The Local Government Association (LGA) and Water UK published a joint protocol in 1999 which set out arrangements for a closer working relationship between local authorities and water companies in England and Wales on the issue of rat infestation of sewers. Department records list that the following authorities responded to the survey on the effectiveness of the Protocol:

Adur district council
Basildon district council
Birmingham city council
Bournemouth borough council
Braintree district council
Brentwood borough council
Brighton and Hove city council
Bromsgrove district council
Calderdale council
Cannock Chase council
Castle Point borough council
Cheltenham borough council
Chiltern district council
Copeland borough council
Corby borough council
Coventry city council
Craven district council
Dacorum district council
Durham council
East Cambridgeshire district council
East Dorset district council
East Northamptonshire council
Eastleigh council
Elmbridge borough council
Enfield council
Erewash district council
Fenland district council
Gravesham council
Guildford borough council
Hambleton council
Harrogate borough council
Harrow borough council
Havany borough council
Havering borough council
Herefordshire district council
Hounslow borough council
Hull city council
Huntingdonshire district council
Isle of Wight council
Macclesfield borough council
Maldon district council
Manchester city council
Mansfield district council
Mid Bedfordshire council
Mid Devon district council
Middlesbrough council
New Forest district council
Newcastle Under Lyme borough council
Newham borough council
North Somerset council
North Wiltshire district council

Peterborough council
Preston city council
Richmondshire district council

**Mr. Dismore:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to establish closer working relationships between London boroughs and water companies in relation to the London Sewer Rat Joint Working Protocol; and if she will make a statement. [7332]

**Mr. Morley:** The Department is awaiting publication of the rodent element of the English House Condition Survey (EHCS) before deciding what further action is appropriate. This document is due for publication this summer.

**Mr. Dismore:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 22 June 2005, *Official Report*, column 1041W, whether *(a)* Barnet council, *(b)* Thames Water and *(c)* Three Valleys Water submitted responses to the consultation on the London Sewer Rat Joint Working Protocol. [7333]

**Mr. Morley:** The Department has no record of Barnet council providing a response. Responses were not sought from water companies.

## Packaging

**Dr. Kumar:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will take further steps to encourage companies to reduce the amount of packaging goods are sold in. [5857]

**Mr. Bradshaw:** There are currently two sets of Regulations which cover packaging in the UK; both of which encourage producers to minimise packaging. The Producer Responsibility Obligations (Packaging Waste) Regulations 1997 (as amended) are intended to increase the recovery and recycling of packaging waste. The amount of packaging waste producers have to recover and recycle is determined, in part, by the amount of packaging they handle. Producers can therefore save money if they use less packaging. The Packaging (Essential Requirements) Regulations 2003 (as amended) place a number of requirements on all packaging placed on the market in the UK, including a requirement that packaging should be manufactured so that the packaging volume and weight are limited to the minimum adequate amount to maintain the necessary level of safety, hygiene and acceptance for the packed product and for the consumer.

Both regulations have led to decreases in the amount of packaging used around products. However, more still needs to be done to reduce the amount of packaging that is produced in the first place. The Government's Advisory Committee on Packaging is working with industry to find ways of encouraging businesses to further reduce the amount of packaging they use.

Although legislation is one way of reducing packaging consumers also have a part to play. For example, if consumers made a point of choosing goods that are not heavily packaged, or bought 'loose food' rather than pre-packaged, or used their own shopping bags or boxes, manufacturers would be more inclined to reduce the quantity of packaging on their products.

**Dr. Kumar:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will take steps to make companies responsible for recycling and disposing of packaging from the goods they sell. [5858]

**Mr. Bradshaw:** The management of packaging waste is already addressed in the UK through the Producer Responsibility Obligations (Packaging Waste) Regulations 1997 (as amended). As an extension of the 'polluter pays principle', the Regulations oblige businesses in the packaging chain, which have an annual turnover of more than £2 million and which handle more than 50 tonnes of packaging a year, to recover and recycle a specified amount of packaging waste each year which is determined, in part, by the amount of packaging they handle. These Regulations are intended to drive minimisation of packaging and packaging waste, encourage reuse of packaging and increase the recovery and recycling of packaging waste. They have succeeded so far in raising the recycling rate for packaging waste from around 27 per cent. in 1997 to 49.5 per cent. in 2004.

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what consideration has been given to requiring manufacturers to display information on all product packaging relating to the environmental impact of the packaging used, with particular reference to non-recyclable material. [8606]

**Mr. Bradshaw** *[holding answer 30 June 2005]:* Most, if not all packaging is recyclable. Commission Decision 97/129/EC provides for numbering and abbreviations to identify packaging materials. While the marking system is voluntary, we would encourage manufacturers to use the markings wherever possible to aid the process of sorting and recycling of packaging waste.

## Recycling (London)

**Sarah Teather:** To ask the Secretary of State for Environment, Food and Rural Affairs how many recycling points there are in each London borough per 1,000 population. [8313]

**Mr. Bradshaw:** The number of recycling points in each London borough per 1,000 population are listed in the table.

| *London borough* | *Number of recycling points per 1,000 population* |
|---|---|
| Barking and Dagenham | 0.4 |
| Barnet | 0.2 |
| Bexley | 0.4 |
| Brent | 0.4 |
| Bromley | 0.2 |
| Camden | 0.7 |
| Corporation of London | 1.8 |
| Croydon | 0.1 |
| Ealing | 0.2 |
| Enfield | 1.3 |
| Greenwich | 0.3 |
| Hackney | 0.4 |
| Hammersmith and Fulham | 0.5 |
| Haringey | 0.8 |
| Harrow | 0.2 |
| Havering | 0.1 |
| Hillingdon | 0.3 |
| Hounslow | 0.3 |
| Islington | 0.9 |
| Kensington and Chelsea | 1.3 |
| Kingston-upon-Thames | 0.2 |
| Lambeth | 0.1 |
| Lewisham | 0.2 |
| Merton | 0.2 |
| Newham | 0.5 |
| Redbridge | 0.3 |
| Richmond upon Thames | 0.7 |
| Southwark | 1.0 |
| Sutton | 1.1 |
| Tower Hamlets | 1.6 |
| Waltham Forest | 1.1 |
| Wandsworth | 1.6 |
| Westminster | 1.0 |
| Total London | 0.6 |

[1]'Recycling points' include both civic amenity and recycling sites situated within each London borough. Civic amenity and recycling site numbers are taken from the 2003–04 Defra/GLA municipal waste management survey.

*Source:*

Population data are taken from the National Statistics' website and are mid-year estimates for 2003.

### River Thames

**Sarah Teather:** To ask the Secretary of State for Environment, Food and Rural Affairs what the estimated number of fish in the River Thames was in each year since 1997. [5277]

**Mr. Bradshaw:** The Environment Agency and its predecessor organisations have performed a biannual qualitative fisheries survey on the tidal River Thames since 1992. However, the dynamic nature of estuaries, with highly mobile and widely dispersed fish populations means that no quantitative data is available to estimate fish numbers using currently available methodologies. This is the case throughout Europe for estuarine fish populations. Recent EC FAIR (June 2000) research[1] identified our current fisheries monitoring programme as 'Best Practice'. The primary objective of this survey programme is to provide a consistent data set to detect trends and new species in the Thames.

[1] European Commission FAIR report, "Commercial Fish and European Estuaries—Priorities for Management and Research". Institute of Estuarine and Coastal Studies, June 2000.

**Mr. Burstow:** To ask the Secretary of State for Environment, Food and Rural Affairs what forecasts were made of the number of times the Thames Barrier would be closed in each year since its inception. [8427]

**Mr. Morley:** The Thames Barrier is operated by the Environment Agency. At the design stage of the barrier the forecast number of closures was 1–2 per year in the 1980s when the barrier first became operational, gradually rising to approximately 30 by the year 2030 or broken down as follows:

| | *Closures per year* |
|---|---|
| 1990 | 5 |
| 2000 | 10 |
| 2015 | 20 |

Forecasting the frequency of future closures of the barrier depends on two principal factors:

*(a)* the impacts of climate change on sea and river levels—based on the climate change scenarios currently available; and

*(b)* the extent to which these levels may be reduced by other flood risk management measures used within the Thames Estuary in conjunction with operation of the barrier.

### Waste Management Licences

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will review the *(a)* waste management licence requirements for small, low-risk biofuel processes and *(b)* the regulatory burden relating to on-farm composters. [5887]

**Mr. Bradshaw:** The information requested is as follows:

*(a)* Officials are about to open a review of waste management licensing exemptions and would consider this the best place to look at representations for amendment of the exemptions regime. The review will consider representations about the inherent risks that the processing of biofuels may pose to the environment and to human health. The review will evaluate whether any activity in connection with the processing of bio fuels for recovery should be eligible for exempt from waste management licensing.

*(b)* We announced the consultation on the draft Waste Management (England and Wales) Regulations 2005 on 9 December 2004, *Official Report*, column 106WS. One of the main purposes of the draft Regulations is to apply to agricultural waste the national controls that are in place to comply with the Waste Framework Directive and which currently apply to all other sectors of industry and types of waste. The consultation paper included a Regulatory Impact Assessment and is available in the Library of the House and on the Department's website at http://www.defra.gov.uk/corporate/consult/agwaste-regs/index.htm. The consultation closed on 18 March 2005 and we are currently considering the responses to it.

### Water Leaks

**Sarah Teather:** To ask the Secretary of State for Environment, Food and Rural Affairs how much leakage from the mains water supply in London there has been in each of the last five years; and if she will make a statement. [8211]

**Mr. Morley:** The Director General of Water Services publishes leakage figures annually in the "Security of Supply, Leakage and the Efficient Use of Water" report. Ofwat will publish the figures for 2004–05 in July and the formal report towards the end of 2005.

Ofwat do not publish leakage figures for the London area. However data are available for Thames Water's area of supply, which covers London and other areas. Total Thames Water leakage, in megalitres per day, for the last five years was reported as follows:

| | *Ml/d* |
|---|---|
| 1999–2000 | 662 |
| 2000–01 | 688 |
| 2001–02 | 865 |
| 2002–03 | 943 |
| 2003–04 | 946 |

## SOLICITOR-GENERAL

### Criminal Offences

**John Penrose:** To ask the Solicitor-General what procedures *(a)* Government Departments and agencies and *(b)* local authorities with independent prosecuting authority for criminal offences use to forward details of convictions, cautions and intelligence on possible criminals to (i) the Criminal Records Bureau and (ii) the Police National Computer; what amendments to these procedures are proposed in relation to the National Intelligence Database; and if he will make a statement. [9736]

**The Solicitor-General:** The information requested is not held centrally and could be provided only at disproportionate cost.

### Parental Responsibility

**Mr. Hollobone:** To ask the Solicitor-General what discussions he has had with the Crown Prosecution Service (CPS) on the CPS's ability to prosecute under the existing provision in law for parents being held accountable for the behaviour of their children. [8414]

**The Solicitor-General:** I regularly meet with the Director of Public Prosecutions to discuss criminal justice issues; however, we have not had any formal discussions on this topic.

Parents are encouraged to accept responsibilities for the behaviour of their children.

Where problems exist, parents could be made subject to parenting orders if they have either failed to cooperate with the terms of a parenting contract or have been uncooperative during the course of voluntary efforts to tackle their child's behaviour. If they then fail to comply with the terms of the order, they may be prosecuted for breaching it.

Youth courts also have the power to impose parental bindovers on the parents of young people who have been convicted of an offence, but these are rarely used.

Breaches of parenting orders and parental bindovers are the only measures available to the CPS to hold parents accountable for the behaviour of their children.

## DEPUTY PRIME MINISTER

### Rent Officers

**Mr. Paul Goodman:** To ask the Deputy Prime Minister how many local authority rent officers have been employed *(a)* in England and *(b)* by each local authority on average in each year since 1997. [5442]

**Mr. Plaskitt:** I have been asked to reply.

The administration of The Rent Service is a matter for the Chief Executive, Charlotte Copeland. She will write to the hon. Member with the information requested.

*Letter from Charlotte Copeland to Mr. Paul Goodman:*

You asked the Secretary of State for Work and Pensions about the numbers of rent officers employed since 1997.

Rent officers have not been employed by individual Local Authorities since 1 October 1999. From that date, rent officers have been employees of The Rent Service (TRS), which is now an executive agency of Department of Work and Pensions. The figures shown in the table are from 1 October 1999 only, as we do not hold information prior to this date.

As TRS covers England as a whole, its organisational structure does not match local authority boundaries. However, in the spirit of your question, I have provided the average number of rent officers by TRS operational areas.

*Average number of rent officers in England*

| | *1999–2000* | *2000–01* | *2001–02* | *2002–03* | *2003–04* | *2004–05* |
|---|---|---|---|---|---|---|
| London | 84 | 104 | 83 | 68 | 60 | 64 |
| East | 29 | 35 | 28 | 23 | 21 | 22 |
| South East | 38 | 43 | 46 | 35 | 35 | 34 |
| South West | 45 | 47 | 36 | 32 | 32 | 34 |
| West Midlands | 28 | 29 | 30 | 27 | 27 | 27 |
| East Midlands | 19 | 24 | 19 | 20 | 19 | 20 |
| North West | 62 | 66 | 58 | 60 | 52 | 59 |
| North East | 18 | 21 | 18 | 19 | 15 | 17 |
| Yorkshire | 35 | 40 | 34 | 32 | 32 | 26 |
| Total | 358 | 409 | 352 | 316 | 293 | 303 |

*Note:*

The figures for 1999–2000 cover the period from 1 October 1999 (ie the date The Rent Service was established) to 31 March 2000 only. All other figures are the average for the financial year 1 April to 31 March.

### Standards Board

**Mrs. May:** To ask the Deputy Prime Minister what the average length of time taken to complete an investigation by the Standards Board for England has been since it was set up. [9135]

**Mr. Woolas:** Over the whole life of the Standards Board for England, the average time taken by officers of the Board to complete investigations into allegations that the code of conduct for local authority members has been breached is seven months.

**Mrs. May:** To ask the Deputy Prime Minister how many cases the Standards Board for England has investigated since its establishment relating to (*a*) county councils, (*b*) district councils, (*c*) metropolitan borough councils, (*d*) unitary authorities, (*e*) parish councils and (*f*) town councils. [9136]

**Mr. Woolas:** The information requested is as follows:

| *Authority to which the allegation refers* | *Number of allegations investigated by officers of the Standards Board* |
|---|---|
| County council | 86 |
| District council | 832 |
| Metropolitan borough council | 172 |
| Unitary authority | 264 |
| Parish and town council[1] | 1,858 |

[1] Statistics in respect of parish and town councils are grouped together.

## TRANSPORT

### A21 Upgrade

**Gregory Barker:** To ask the Secretary of State for Transport if he will make a statement on the issuing of draft orders on the proposed upgrade of the A21. [9311]

**Dr. Ladyman:** All the schemes for the upgrading the A21 have been referred to the regions for their advice on priorities. On receipt of this advice a programme for the delivery of the schemes will be produced. Draft orders for each of the schemes will be published to meet this programme.

### Air Travellers (Financial Protection)

**Dr. Cable:** To ask the Secretary of State for Transport what assessment he has made of the Civil Aviation Authority (CAA)'s estimate of the number of UK leisure passengers who flew without financial protection in 2004; and if he will bring forward legislation to ensure that affected UK passengers can be repatriated by the CAA in the event of a major airline failure. [9359]

**Ms Buck:** The Department is aware of the trend for consumers to make their own travel arrangements, rather than buy package holidays that are protected by the ATOL scheme. The Civil Aviation Authority has provided advice to the Government on a range of options, including an extension of the scope of financial protection to cover passengers on all flights. We are currently considering that advice and will then decide whether to bring forward appropriate legislation.

**Mr. Swayne:** To ask the Secretary of State for Transport pursuant to the answer of 27 June 2005, *Official Report*, column 1259W, on air travellers (financial protection), what the timetable is for formal consultation on his proposals; and if he will make a statement. [9077]

**Ms Buck:** The Government have not yet reached a decision in relation to the scope of air passenger financial protection.

### Aviation Ministers

**Mr. Mullin:** To ask the Secretary of State for Transport if he will list aviation Ministers since May 1997, indicating the dates between which they held office. [6696]

**Ms Buck:** There is no post designated as "aviation Minister". My right hon. Friend the Secretary of State has had responsibility for all forms of transport, including aviation, since the formation of the Department on 29 May 2002. He has been supported by other members of his ministerial team.

### Civil Aviation (Missile Defence)

**Mr. Ian Austin:** To ask the Secretary of State for Transport what assessment he has made of the effectiveness of microwave technologies for deflecting shoulder-fired missiles in the civil aviation sector. [8746]

**Ms Buck:** There are a number of technologies capable of defeating shoulder-fired missiles of which microwave-based is one. The Government are considering whether such systems could be realistically applied to civil aviation.

### Classic Aircraft (Insurance Costs)

**Mr. Letwin:** To ask the Secretary of State for Transport what assessment he has made of the effect of regulations on the costs of insurance for classic aircraft. [9167]

**Ms Buck:** The coming into force earlier this year of EU Regulation 785/2004 obliged almost all UK operators of non-commercial aircraft to meet minimum requirements for passenger and third party insurance. In some cases aircraft operators have had to raise their level of cover, which has resulted in an increase in premium. We are aware of only one case where this has caused difficulty in relation to classic aircraft, but through the efforts of the' insurance industry and a commercial sponsor, this problem has been resolved. The European Commission is aware of the difficulties faced by some owners of classic aircraft and has agreed to consider an amendment to the Regulation.

### Community Transport

**Gregory Barker:** To ask the Secretary of State for Transport what financial support his Department has given to community transport schemes in each year since 1997. [8437]

**Ms Buck:** The Department for Transport values the role that community transport plays in delivering transport services to communities and individuals who would otherwise be socially excluded. We support their activities in a wide variety of ways.

The Department funds the information and advice service provided by the Community Transport Association. The CTA provides an extensive service to community transport operators and local authorities on a range of legal and operational issues. The following is the funding given by the Department to the Community Transport Association from 1997–98 financial year onwards.

| *Financial year* | *Grant* |
|---|---|
| 1997–98 | 70 |
| 1998–99 | 70 |
| 1999–2000 | 70 |
| 2000–01 | 100 |
| 2001–02 | 100 |
| 2002–03 | 100 |
| 2003–04 | 100 |
| 2004–05 | 100 |
| 2005–06 | 125 |
| Total to date | 835 |

The Department also publishes guidance on the type of services that can be run and the legal framework for them.

A substantial proportion of the total of 400 projects awarded funding since 1998 under the Rural and Urban Bus Challenge competitions involve support for community transport services. Prior to this there was no specific bus funding in support of community transport schemes.

Over 800 community transport schemes have been granted eligibility to claim Bus Service Operators Grant since the broadening of the scheme in 2002 to include these schemes. Amounts of grant claimed under this scheme by community transport operators are as follows.

| | *Grant claimed (£ million)* |
|---|---|
| 2002–03 | 0.67 |
| 2003–04 | 2.81 |
| 2004–05 | 4.52 |

**Departmental Staff (Stress)**

**Lynne Featherstone:** To ask the Secretary of State for Transport how many cases of work-related stress have been reported in his Department in each of the last three years; how much compensation was paid to employees in each year; how many work days were lost due to work-related stress in each year; at what cost; what procedures have been put in place to reduce work-related stress; at what cost; and if he will make a statement. [7873]

**Ms Buck:** It is difficult to differentiate between work-related and non work-related stress absence. Experience has shown that stress related absences are often due to a combination of work and personal circumstances. We are also aware that some staff are reluctant to report that their absence has been as a result of stress.

The following information relates to 'all' stress related absences reported by staff over the last two years which includes anxiety, nervous debility, neurosis, emotional upset and stress:

| | *Days lost due to all stress related absence* | *Cost of absence (£)* |
|---|---|---|
| 2003 | 34,092 | 2,792,493 |
| 2004 | 37,539 | 3,127,546 |

We do not have the complete figures for 2002.

There has been one compensation claim settled at a cost of £52,000.

The Department has a stress policy in place and across the Department various proactive measures have been introduced. The measures include guidance to staff by way of workshops and presentations and the provision of guidance leaflets. Training is provided for managers to clarify their role and responsibilities to help reduce stress in themselves and their staff. Well being and lifestyle screening programmes are also being considered. The total cost of these measures is not readily available although some have involved little or no cost.

The Department also believes in early intervention by occupational health in response to reported stress absences and all staff have access to counselling services.

**Driver Vehicle Licensing (Northern Ireland)**

**Mr. Gregory Campbell:** To ask the Secretary of State for Transport what studies the Driver Vehicle Licensing Agency has carried out in the past 12 months regarding the future of Driver Vehicle Licensing Northern Ireland Coleraine. [9446]

**Dr. Ladyman:** In September 2004, DVLA initiated a study to examine the feasibility of merging the vehicles registration and licensing operations in Coleraine, (processing NI transactions) and in Swansea, (processing GB transactions).

The study concluded that there were benefits from integrating the vehicle licensing operations and management to deliver a UK-wide service from a single IT system. However, service to NI customers will continue to be delivered from Coleraine and NI local offices.

Separate discussions are taking place in respect of the future of driver licensing in Northern Ireland.

**Driving Tests (Kent)**

**Jonathan Shaw:** To ask the Secretary of State for Transport how many *(a)* passes and *(b)* failures of driving tests there were in each test centre in Kent in each of the last five years. [8054]

**Dr. Ladyman:** The following tables show the results, by category of vehicle, of practical driving tests conducted at test centres in Kent in each of the last five years.

*Pass and fails in Kent 2000–01 to 2004–05*

*Cars*

| | 2000–01 | | | | 2001–02 | | | |
|---|---|---|---|---|---|---|---|---|
| | Fail | Pass | Total | Percentage Pass | Fail | Pass | Total | Percentage Pass |
| Ashford (Kent) | 1,004 | 1,067 | 2,071 | 51.5 | 1,299 | 1,239 | 2,538 | 48.8 |
| Broadstairs (Thanet) | 1,130 | 1,178 | 2,308 | 51.0 | 1,321 | 1,340 | 2,661 | 50.4 |
| Canterbury | 1,610 | 1,216 | 2,826 | 43.0 | 1,451 | 1,143 | 2,594 | 44.1 |

### Electric Wheelchairs/Scooters

**Mr. Oaten:** To ask the Secretary of State for Transport what plans he has to increase the number of electric powered wheelchair and scooter users who take out insurance cover. [9437]

**Ms Buck:** We strongly encourage users of these vehicles to take out insurance cover. However there is no legal obligation for them to do so.

We are currently reviewing the law which governs the use of powered wheelchairs and powered scooters on the

highway and one of the issues we have raised in consultation with stakeholders is whether there should be some form of compulsory insurance. The final report and recommendations from that review are expected in the summer and we will be looking closely at this and a range of other issues.

### Heathrow

**Mr. Hands:** To ask the Secretary of State for Transport what assessment his Department has made of the effects on aircraft noise over Hammersmith and Fulham if the proposed third runway is built at Heathrow. [5895]

**Ms Buck:** Noise exposure estimates for the larger UK airports—including Heathrow with a possible third runway—were published in December 2003 to support the Air Transport White Paper and are in the document "Revised Future Aircraft Noise Exposure Estimates for UK Airports", ERCD report 0308, available on the Department's website. They will be reviewed as necessary in the light of further work in hand to assess the prospects for future development at Heathrow, consistent with the conditions laid down in the White Paper.

The document does not attempt to assess noise impacts by individual London borough, but it includes an explanation of the methodology, figures for households and area affected at different noise levels, and diagrams to illustrate the $L_{eq}$ daytime contours for Heathrow under maximum use of the existing two runways and with a short third runway at various traffic levels.

### Helicopter Noise

**Mr. Dismore:** To ask the Secretary of State for Transport if he will introduce controls on helicopter flights in residential areas to reduce noise nuisance; and if he will make a statement. [8689]

**Ms Buck:** The Government recognise that helicopter noise can be disturbing. UK helicopter noise certification standards exist in relation to helicopter noise and are based on the International Civil Aviation Organisation's (ICAO) Annex 16—we both helped to establish, and have adopted, the international standard.

All civil aircraft fly subject to the legislation of the Air Navigation Order (ANO) and the Rules of the Air Regulations (RoA). These require that helicopters should not fly within 500 feet of any person, vessel, vehicle or structure (except when landing or taking off) nor below 1,000 feet over a congested area. Although these regulations are concerned primarily with safety, the height restrictions do give an incidental noise benefit.

There are no plans to introduce any further legislation on helicopter noise, but we seek reductions in noise at source by encouraging industry developments in aircraft and engine technology.

### House Building (South-east)

**Mr. Soames:** To ask the Secretary of State for Transport what assessment he has made of the likely effects of the Government's house building targets for the south-east on *(a)* traffic flows and *(b)* consequent noise levels on the M23 between junctions 9 and 10 and on the A23 beyond junction 10. [9393]

**Dr. Ladyman:** Changes to the traffic flows on the M23 between Junctions 9 and 10 will depend upon the future location of housing which will, in the first instance, be determined by the South East England Regional Assembly. The Highways Agency is contributing to deliberations on the draft Plan.

Traffic from the sustainable communities proposed for the south-east is unlikely to result in a noticeable increase in noise from motorways. However the Government will in 2007 publish maps of noise from motorways. These maps will be updated at least every five years to take into account any changes in conditions and plans to reduce noise levels will be reviewed accordingly.

### Maritime Coastguard Agency

**Mr. Carmichael:** To ask the Secretary of State for Transport what assessment he has made of whether the Incident Management System computer database operated by the Maritime Coastguard Agency is working effectively; what steps he is taking to ensure the system operates well; and if he will make a statement. [8649]

**Dr. Ladyman:** The Incident Management System (IMS) works well. There were some initial teething problems with the Incident Management System, but these were all recorded and investigated. Any necessary improvements to the system have been implemented and the system is now working well. Any reported faults are dealt with promptly and do not impact on the Agency's ability to respond to search and rescue calls.

**Mr. Carmichael:** To ask the Secretary of State for Transport what recent assessment he has made of staffing levels at the Maritime Coastguard Agency; what steps he is taking to improve skill levels in the organisation; and if he will make a statement. [8650]

**Dr. Ladyman:** The Maritime and Coastguard Agency performs to a high standard and has the resources it needs for the functions it carries out. The Chief Executive and his Management Team keep the skills of staff under review as part of the Agency's approach to learning and development. Specifically in relation to those working in coastguard rescue co-ordination centres, the Agency uses a concept of "Training Ahead of Need" for Coastguard Watch Assistants aspiring to be Watch Officers, which has the support of the PCS Union. Peer reviews are also used to test, develop and support the core skills of search planning and co-ordination.

### Pensioners' Free Travel

**Mr. Meacher:** To ask the Secretary of State for Transport on what grounds the pensioners' free travel scheme excludes trams; and if he will reconsider this exclusion. [8925]

**Ms Buck:** The £350 million announced in the Budget for 2006–07 was to cover the extra costs of concessionary free travel on local bus services. Local authorities will remain able to offer concessions on light

rail services after April 2006. This will continue to be at their discretion, based on their judgment of local needs and circumstances and their overall financial priorities.

### Rail Infrastructure (London)

**Mr. Burstow:** To ask the Secretary of State for Transport if he will list for each London borough the *(a)* rail viaducts and *(b)* rail bridges in use which have exceeded their original planned end-of-life date. [8067]

**Derek Twigg:** This is an operational matter for Network Rail. Network Rail advises that the information is not available in the form requested.

### Speed Cameras

**Lynne Featherstone:** To ask the Secretary of State for Transport what proportion of road traffic accidents occurred on or near to the calibration lines of speed cameras in the last 12 months for which figures are available. [8076]

**Dr. Ladyman:** The specific information requested is not available. The latest published information on the national safety camera programme—"Three year evaluation report", carried out by University College London and PA Consulting Group, found that there had been a 40 per cent. reduction in the number of people killed or seriously injured at camera sites, and a 33 per cent. reduction in the total number of personal injury collisions at camera sites. The report was published in June 2004 and copies are available in the Library and from the Department's website.

### Roads

**Gregory Barker:** To ask the Secretary of State for Transport what steps are taken by the Highways Agency to evaluate the potential effects of road building schemes on *(a)* sites of special scientific interest, *(b)* areas of outstanding natural beauty and *(c)* national parks. [8447]

**Dr. Ladyman:** In designing and constructing new road schemes there is a strong presumption against schemes that would significantly affect environmentally sensitive sites, important species or important habitats. The Highways Agency evaluates the potential effects of road building proposals on the environment in liaison with the appropriate statutory bodies and other consultees.

Where such construction is unavoidable then this is only carried out after a rigorous examination of the possible impacts and the incorporation of mitigation measures to address these.

**Sir Paul Beresford:** To ask the Secretary of State for Transport which roads in Surrey have had *(a)* crash barriers removed and *(b)* solid barriers replaced by wire barriers in the last five years; and if he will make a statement. [9644]

**Dr. Ladyman:** For roads in Surrey for which the Secretary of State for Transport has responsibility, there are no locations where crash barriers have been removed without alternative containment being provided and there have been no cases in the last five years where wire rope safety barrier has been used to replace the existing barrier.

On local roads the local highway authority is responsible for provision of barriers.

On trunk roads whatever safety barriers are used, they are all required to meet the same minimum specified performance criteria in terms of containment.

### Shipping

**Mr. Hancock:** To ask the Secretary of State for Transport how much shipping tonnage is registered in the United Kingdom. [8616]

**Dr. Ladyman:** The tonnage of trading vessels of 100 gt and over registered in the United Kingdom at the end of March 2005 was 10.4 million in gross tons and 10.9 million in deadweight tonnes.

### Speed Limits

**Charles Hendry:** To ask the Secretary of State for Transport when he expects to issue his revised guidance on the setting of speed limits in villages. [9356]

**Dr. Ladyman:** The Government's guidance to local highway authorities, who are responsible for setting local speed limits, is that the limit for villages should normally be 30mph, and Traffic Advisory Leaflet 1/04 provides guidance on how this can be achieved.

This is being incorporated into the Department's revised wider guidance to Traffic Authorities on setting local speed limits, to be published later this year.

### Traffic Signs

**Sarah Teather:** To ask the Secretary of State for Transport how many types of road traffic signs are approved by his Department. [8328]

**Dr. Ladyman:** Section 64 of the Road Traffic Regulation Act 1984 provides that traffic signs shall be of a size, colour and type prescribed by regulations made by the Secretary of State except where the Secretary of State authorises the erection or retention of a sign of another character.

The current regulations specifying the appearance and use of signs are the Traffic Signs Regulations and General Directions (TSRGD) 2002 (SI No. 3113). The basic sign types are warning signs, regulatory signs, directional and other informatory signs, road markings and signals. For ease of reference the TSRGD group signs for railway and tramway level crossings together in schedule 3, signs for bus, tram and pedal cycle facilities in schedule 5, and road works signs in schedule 12. Decisions about the placing of particular types of sign at particular locations are the responsibility of the relevant traffic authority.

## INTERNATIONAL DEVELOPMENT

### Jamaica

**Sarah Teather:** To ask the Secretary of State for International Development what assistance his Department has given to Jamaica following its recent earthquake; and if he will make a statement. [8397]

**Mr. Thomas:** At 2258 hrs on Sunday 12 June, Jamaica experienced an earthquake measuring 5.1 on the Richter scale, followed by 12 smaller aftershocks. This was the strongest to affect the island since a 5.4 earthquake in 1993. The Government of Jamaica's Office for Disaster Preparedness and Emergency Management (ODPEM) was quick to assess the situation and reported no loss of life or injuries. Damage to property was also minimal. The DFID office in Kingston, Jamaica, kept in close touch with ODPEM, but the organisation did not consider it necessary to issue an appeal for international assistance.

### Madagascar

**Mr. Mullin:** To ask the Secretary of State for International Development what programmes his Department has in Madagascar; how they will be affected by the closure of the British embassy; and if he will make a statement. [8384]

**Hilary Benn:** The Department for International Development does not have a development programme in Madagascar.

### NGOs (China)

**Mr. Amess:** To ask the Secretary of State for International Development if he will make it his policy not to fund non-governmental organisations who are involved in the one child policy in China. [8122]

**Mr. Thomas:** DFID do not fund non-governmental organisations (NGOs) that support China's one child policy. UK assistance for sexual and reproductive health programmes anywhere in the world is provided in support of the principles of free and informed choice set out at the International Conference on Population and Development (ICPD) in Cairo in 1994 and reaffirmed in various international fora since. These principles reject coercion in matters relating to child bearing and reproduction.

### Yemen

**Keith Vaz:** To ask the Secretary of State for International Development what assistance his Department is providing to the Yemeni Government to promote health services in Yemen. [8125]

**Hilary Benn:** DFID has recently approved a project of £3.09 million over four years to assist the Government of Yemen to improve maternal and infant health services. The project will operate at two levels: field (district and governorate) level, working with UNICEF and the United Nations Population Fund (UNFPAO, local government and civil society to improve service delivery in maternal and neonatal health; and at central Government level where the focus will be on developing policy and planning capacity within the Ministry of Public Health and Population. The project will also work closely with other donors including World Bank, the Netherlands and the World Health Organisation.

## HOUSE OF COMMONS COMMISSION

### Cleaners' Pay

**Mr. Winnick:** To ask the hon. Member for North Devon, representing the House of Commons Commission what representations the Commission has received from the trade union side of the Whitley Committee regarding contract Commons cleaners' pay; and if he will make a statement. [8964]

**Nick Harvey:** The Commission has received no representations from the trade union side of the Whitley Committee about contract cleaners' pay. The trade union side raised the issue briefly with officials at the Whitley meeting on 28 February but, as the matter was outside the remit of the Committee, there was no substantive discussion.

## LEADER OF THE HOUSE

### Work-related Stress

**Lynne Featherstone:** To ask the Leader of the House how many cases of work-related stress have been reported in his Office in each of the last three years; how much compensation was paid to employees in each year; how many work days were lost due to work-related stress in each year; at what cost; what procedures have been put in place to reduce work-related stress; at what cost; and if he will make a statement. [7868]

**Nigel Griffiths:** No cases of work-related stress have been reported by staff working in the Office of the Leader of the House of Commons over the past three years. No compensation has been paid and no work days have been lost over the same period.

Staffing for the Office of the Leader is provided by the Privy Council Office (PCO). PCO has an external employee counselling service at an annual cost of £3,000, and regularly consults its staff to seek their views and ideas on how working practices might continue to be improved. Such consultation includes a staff survey each year (costing £8,000) which specifically asks whether they have difficulties with work/life balance or long hours. PCO gives its staff the option, where compatible with business needs, to work flexibly or at home or part-time—or in a combination of these ways. Career breaks are also available.

## CULTURE, MEDIA AND SPORT

### Baghdad Museum

**Harry Cohen:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on missing and damaged Iraqi artefacts; when she expects the Baghdad Museum to be fully open; and if she will make a statement. [8641]

**Tessa Jowell:** The scale of the looting of artefacts was thankfully not as devastating as originally thought. Recent estimates suggest that around 3,000 items were taken, although the lack of inventories makes precise calculations impossible. Of the items taken, 30 or so are

considered to be highly significant, and the British Museum has suggested that around half of these artefacts have now been recovered.

Due to the continued security concerns, there are currently no immediate plans to reopen the museum. The decision on when to open the museum is one for the Iraqi authorities.

### Broadcast Advertising (Food and Drink)

**Mr. Burstow:** To ask the Secretary of State for Culture, Media and Sport what progress Ofcom's consultation on proposals to tighten the rules on broadcast advertising, sponsorship and promotion of food and drink to children, as set out in the Choosing Health White Paper has made to date; and what the timetable is for publication of this consultation. [8063]

**James Purnell:** I understand that Ofcom is currently finalising the details of its consultation on proposals to tighten the rules on broadcast advertising, sponsorship and promotion of food and drink to children, as set out in the Government's public health White Paper, Choosing Health. Ofcom has indicated that the consultation will take place this autumn with the results published subsequently.

### Casinos

**Mr. Kevan Jones:** To ask the Secretary of State for Culture, Media and Sport when she expects the Gambling Commission *(a)* to issue new casino licences and *(b)* to publish the Codes of Conduct which will be a condition of the new licences. [8218]

**Mr. Caborn:** The detailed timetable for implementation of the Gambling Act 2005 is still being finalised. The current expectation is that the Gambling Commission will publish licence conditions and codes of practice by around June 2006, and that it will start to accept advance applications for casino operating and personal licences by January 2007. These will come into effect from autumn 2007.

**Mr. Kevan Jones:** To ask the Secretary of State for Culture, Media and Sport when applications for a casino licence under the Gaming Act 1968 will cease to be considered. [8219]

**Mr. Caborn:** The timetable for the implementation of the Gambling Act 2005 is still being finalised. No cut off date has yet been set for applications for gaming licences under the 1968 Act. A further announcement will be made in due course.

**Mr. Kevan Jones:** To ask the Secretary of State for Culture, Media and Sport what guidance will be issued to local authorities to ensure a consistent approach to the issuing of casino licences once the Gambling Act 2005 becomes fully operational. [8220]

**Mr. Caborn:** Under Section 25 of the Gambling Act 2005, the Gambling Commission is required to issue guidance to local authorities on the exercise of their functions under the Act and the principles they should apply when exercising those functions. The issuing of casino premises licences will form part of this guidance and will be made available to local authorities before the new licensing regime begins. All local authorities must have regard to this guidance when carrying out functions under the Act.

**Mr. Kevan Jones:** To ask the Secretary of State for Culture, Media and Sport whether the advisory panel recommendations on location of casinos will relate to *(a)* local authority areas and *(b)* specific sites within a local authority. [8221]

**Mr. Caborn:** My right hon. Friend the Secretary of State will ask the casino advisory panel to assist her in the exercise of her order making powers under Section 175(4) of the Gambling Act 2005 to determine the geographical distribution of casino premises licences. For this purpose, she is required to specify in the order which local authorities should be permitted to issue casino premises licences of a specified kind, and how many of each type of casino premises licence each specified local authority should be permitted to issue. The casino advisory panel's role will be to provide the Secretary of State with advice on these issues, and it will not be required to recommend specific sites.

**Mr. Kevan Jones:** To ask the Secretary of State for Culture, Media and Sport (1) whether regenerative benefits will be the only consideration in the granting of a regional casino licence; [8222]

(2) what criteria the advisory panel will use to make recommendations on the location of new *(a)* small, *(b)* large and *(c)* regional casinos. [8223]

**Mr. Caborn:** The casino advisory panel will consider submissions from local authorities wishing to issue premises licences for regional, large or small casinos. The criteria against which the panel will assess these submissions were set out in the Government's national policy statement on casinos published on 16 December 2004. The primary consideration will be to ensure that locations provide the best possible test of social impact. Subject to this, the criteria will also be:

to include areas in need of regeneration (as measured by employment and other social deprivation data) and which are likely to benefit in these terms from a new casino;

to ensure that those areas selected are willing to license a new casino.

**Mr. Kevan Jones:** To ask the Secretary of State for Culture, Media and Sport whether there will be a right of appeal against *(a)* the advisory panel's recommendation and *(b)* the Secretary of State's decision on the location of new *(a)* small, *(b)* large and *(c)* regional casinos. [8224]

**Mr. Caborn:** The Gambling Act 2005 does not provide for a right of appeal in either of the circumstances specified.

The Secretary of State's order making powers under Section 175(4) of the Gambling Act 2005 are subject to the affirmative resolution procedure. Both Houses of Parliament will have to approve her order before it takes effect.

The panel is a purely advisory body to provide advice to the Secretary of State on the exercise of her powers, and as such it would be inappropriate for there to be a right of appeal.

### Commonwealth Institute

**Tony Baldry:** To ask the Secretary of State for Culture, Media and Sport when she expects to announce her decision concerning the statutory listing of the Commonwealth Institute Building in Kensington. [9099]

**Mr. Lammy:** My right hon. Friend the Secretary of State will announce her decision once she has considered advice from English Heritage, statutory advisers on the historic environment, and intends to do so shortly.

### Digital Television

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport what steps she will take to encourage private sector landlords to upgrade their digital reception systems in the run up to digital switchover; and if she will make a statement. [7972]

**James Purnell:** We are working with a number of housing bodies including representatives of private landlords to develop communications for landlords. We will shortly publish, in association with the Chartered Institute of Housing, guidance for the housing sector on how to prepare for digital switchover.

We intend to follow this up with targeted communications aimed at the housing sector which will be developed in association with the new switchover organisation, Switchco Ltd.

### Licensing Act

**Mr. Redwood:** To ask the Secretary of State for Culture, Media and Sport how many pages the form to be completed by pubs to gain renewal of licences under the Licensing Act 2003 comprises. [7667]

**James Purnell:** The form to be completed by pubs and other establishments wishing to convert their present licences is 21 pages long. However, this allows for variations in the terms of licences. Those establishments wishing only to convert their licences need to complete only 7 pages of the form.

Completed application forms must be returned to licensing authorities before 6 August.

**Mr. Redwood:** To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the cost to a typical pub of complying with the Licensing Act 2003. [7668]

**James Purnell:** The Licensing Act 2003 makes no distinction between pubs and other establishments which are licensed to sell alcohol on the premises. The Government's estimates of the costs and benefits of the Act cover the whole spectrum of businesses and other establishments which will be affected by the new licensing regime—an estimated total of some 200,000 premises.

The Regulatory Impact Assessment published by my Department in March 2003 estimated the net benefits to business of the new licensing regime at some £2 billion over the next decade.

**Mr. Dismore:** To ask the Secretary of State for Culture, Media and Sport (1) what steps her Department is taking to ensure that those individuals and businesses that have been brought into the licensing regime are aware of the 24 November deadline for applications for all licences; [9142]

(2) what steps her Department is taking to ensure that those individuals and businesses that have been brought into the licensing regime are aware of their new responsibilities and duties; [9143]

(3) what steps her Department is taking to ensure that those individuals and businesses who need to convert their licences in order to retain existing rights are aware of the 6 August deadline. [9146]

**James Purnell:** My Department is making every effort to make all affected individuals and businesses aware of their responsibilities under the Licensing Act 2003, including the 6 August and 24 November deadlines. These efforts have included:

- a regular newsletter for local authorities and others since August 2004, which is used as the basis for National Pubwatch articles;
- an improved licensing section on the DCMS website;
- a letter through the Courts to all alcohol licence holders at renewal in 2004;
- a trade and ethnic press campaign including 28 advertisements aimed at independent operators; and
- information initiatives through suppliers, distributors, wholesalers, and cash and carries, who are including reminders of the relevant deadlines on invoices and other literature.

The progress of this information campaign is being monitored closely through the High Level Group, which includes my Department, the Local Government Association, the Local Authorities' Co-ordinators of Regulatory Services, the Association of Chief Police Officers, the Office of the Deputy Prime Minister, the Home Office, and representatives of the hospitality industry.

**Tim Farron:** To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the impact of the Licensing Act 2003 and related regulations requiring a single individual to take legal responsibility for all licensed events at a particular village hall during a 12-month period; and what representations she has received concerning this issue. [3962]

**James Purnell:** Concern has been expressed to DCMS by village halls as to the duties of an individual who is specified on a premises licence as the designated premises supervisor (DPS). The role of a DPS only applies when a premises licence authorises the supply of alcohol. It is not relevant in respect of other licensable activities such as regulated entertainment. While the DPS has certain responsibilities under the 2003 Act, it is important that this is kept in perspective. The main purpose of having a DPS is to provide a primary point of contact for authorities investigating problems, and to ensure that any necessary preventative measures are taken to promote the licensing objectives.

For example, we have clarified that the DPS does not have to be physically present at the premises for sales of alcohol to take place there. In addition, regular users can take out their own premises licence with their own named DPS or other hirers could be asked to use temporary event notices and there would therefore be no need to have a DPS for those events.

These arrangements are important in the interests of those living near village halls. It is vital that there is a proper balance between the needs of local residents and of those conducting licensable activities at such halls. We believe that the Act strikes the correct balance, but we continue to discuss with representatives of village halls the ways in which the burdens involved can be best managed.

**Mr. Redwood:** To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the number of licence applications under the Licensing Act 2003 which have been received to date by local councils. [8788]

**James Purnell:** My Department estimates that 20 per cent. of all licensed premises have so far submitted applications to their licensing authorities. This percentage is expected to increase rapidly as the 6 August deadline for converting existing licences approaches.

**Mr. Redwood:** To ask the Secretary of State for Culture, Media and Sport if she will grant automatic extensions of existing public house licences which do not seek a variation on the terms of the licence. [8790]

**James Purnell:** My right hon. Friend the Secretary of State will not be granting automatic extensions to licence holders who do not seek variations in the terms of their licences. All applications for the conversion of existing licences, whether variation is sought or not, must be made to licensing authorities by 6 August.

The Government are aware of the possible pressures on licensing authorities that may arise during the transition period, and the Licensing Act 2003 includes appropriate safeguards. Where a licensing authority is unable to complete its consideration of an application for conversion (without variation) within two months, that application is deemed to have been granted.

### Olympic Bid 2012

**Jon Trickett:** To ask the Secretary of State for Culture, Media and Sport what safeguards are in place to ensure that local community sporting initiatives are not adversely affected by the London 2012 Olympic bid. [6940]

**Tessa Jowell:** Government and lottery investment in local community sporting initiatives is not dependent on the outcome of the London 2012 bid. On the contrary, we expect the bid, if successful, to provide a major boost to sports participation in this country, a strong legacy of facilities which will benefit the whole of the UK and to inspire the next generation of young people to greater sporting activity and help foster a healthy and active nation.

### Special Advisers

**Bob Spink:** To ask the Secretary of State for Culture, Media and Sport if she will list *(a)* the special advisers in her Department, *(b)* their specific areas of expertise and *(c)* the total cost of employing them in the latest year for which figures are available. [8830]

**Mr. Lammy:** I refer the hon. Member to the answer given by my right hon. Friend the Prime Minister to my hon. Friend the Member for St. Helens, North (Mr. Watts) on 22 July 2004, *Official Report*, columns 466–70W. Information on special advisers for 2004–05 is currently being collated and will be published in the normal way before the summer recess.

## PRIME MINISTER

### EU Budget

**Mr. Llwyd:** To ask the Prime Minister what representations he received from the First Secretary of the National Assembly for Wales on the recent negotiations on the EU's budget. [9183]

**The Prime Minister:** I have received representations from the First Minister of the National Assembly for Wales on this matter.

### Floods (North Yorkshire)

**Miss McIntosh:** To ask the Prime Minister pursuant to the oral answer of 22 June 2005, *Official Report*, column 795, when the hon. Member for Vale of York will be able to meet the relevant Minister; and if he will make emergency funds available to pay for the clear-up of the countryside and repair to damaged roads and bridges. [9469]

**The Prime Minister:** I understand the hon. Member will be meeting my hon. Friend the Minister of State for the Environment (Mr. Morley) shortly to discuss the points she raises.

### Ken Bigley

**Alan Simpson:** To ask the Prime Minister what the results were of the FBI test on the hairbrush belonging to Ken Bigley; and what information he has received on the whereabouts of Mr. Bigley's body. [8591]

**The Prime Minister:** Samples of Mr. Bigley's DNA have been supplied to the US authorities. US military and FBI investigators have tested Mr. Bigley's DNA profile against material obtained from Iraq. So far, they have not discovered a match but the FBI continue to compare Mr. Bigley's profile with further material obtained from Iraq.

Regrettably we have nothing to report as yet on the whereabouts of Mr. Bigley's body. We continue to work closely with the Iraqi and US authorities, and remain in touch with Mr. Bigley's family.

### Ministerial Duties

**David T.C. Davies:** To ask the Prime Minister pursuant to his answer of 6 June 2005, *Official Report*, column 271W, on ministerial duties, whether he spent more or less than 48 hours performing his official duties in the week commencing 9 May. [9741]

**The Prime Minister:** I have nothing further to add to the answer I gave the hon. Member on 6 June 2005, *Official Report*, column 271W.

### Mistakes

**Andrew George:** To ask the Prime Minister pursuant to his speech to the Labour party spring conference, what mistakes he has *(a)* made and *(b)* admitted to since May 1997. [8803]

**The Prime Minister:** I have nothing further to add to my spring conference speech.

### Official Engagements

**Mr. Maples:** To ask the Prime Minister if he will list his official engagements for 6 June. [8729]

**The Prime Minister:** I had meetings with ministerial colleagues and others. Later in the day I left for Washington for talks with President Bush.

**Mr. Maples:** To ask the Prime Minister which members of the staff of the British embassy in Washington accompanied him during his official engagements on 6 June. [8730]

**The Prime Minister:** I had no official engagements in Washington on 6 June. I arrived in Washington early on the morning of 7 June.

### Race Relations

**Keith Vaz:** To ask the Prime Minister how many and what percentage of staff in his Office have received training on the general and specific duties of the Race Relations (Amendment) Act 2000, broken down by *(a)* ethnicity and *(b)* grade. [3561]

**The Prime Minister:** For these purposes my office forms part of the Cabinet Office. I refer my hon. Friend to the answer given to him by my right hon. Friend the Chancellor of the Duchy of Lancaster (Mr. Hutton) today.

### Royal Prerogative

**Mr. Burstow:** To ask the Prime Minister pursuant to the answer of 15 June 2005, *Official Report*, column 384W, to the hon. Member for Nottingham, North (Mr. Allen), on the Royal Prerogative, what the most commonly exercised powers under the Royal Prerogative are. [8126]

**Mr. Meacher:** To ask the Prime Minister if he will list the occasions on which each prerogative power has been exercised by the holder of his office in the last 30 years. [8956]

**The Prime Minister:** I refer the hon. Members to the memorandum from the Treasury Solicitor's Department (MPP09*(a)* ) in the report by the Public Administration Select Committee "Taming the Prerogative: Strengthening Ministerial Accountability to Parliament" (HC 422). Copies are available in the Libraries of the House.

### Sir Richard Dearlove

**Adam Price:** To ask the Prime Minister pursuant to the oral answer to the hon. Member for Carmarthen, East and Dinefwr on 29 June 2005, *Official Report*, column 1288, on what basis he concluded that the statement by Sir Richard Dearlove to which the question referred was contained in a memorandum covered by the Butler Review. [9366]

**The Prime Minister:** I have nothing further to add to the answer I gave the hon. Member on 29 June 2005, *Official Report*, column 1288.

### Special Advisers

**Bob Spink:** To ask the Prime Minister if he will list *(a)* the special advisers in his Office, *(b)* their specific areas of expertise and *(c)* the total cost of employing them in the latest year for which figures are available. [8815]

**The Prime Minister:** I refer the hon. Member to the answer I gave my hon. Friend the Member for St. Helens, North (Mr. Watts) on 22 July 2004, *Official Report*, columns 466–70W. Information on special advisers for 2004–05 is currently being collated, and this will be published in the normal way once it has been completed.

### Trident

**Mr. Gordon Prentice:** To ask the Prime Minister pursuant to the oral answer to the hon. Member for Sunderland, South on 29 June 2005, *Official Report*, column 1292, if he will undertake to have a vote in Parliament on any proposal to replace the Trident nuclear deterrent. [9806]

**The Prime Minister:** I have nothing further to add to the answer I gave to my hon. Friend the Member for Sunderland, South (Mr. Mullin) on 29 June 2005, *Official Report*, column 1292.

### Work-related Stress

**Lynne Featherstone:** To ask the Prime Minister how many cases of work-related stress have been reported in his Office in each of the last three years; how much compensation was paid to employees in each year; how many work days were lost due to work-related stress in each year; at what cost; what procedures have been put in place to reduce work-related stress; at what cost; and if he will make a statement. [7870]

**The Prime Minister:** For these purposes my office forms part of the Cabinet Office. I refer the hon. Member to the answer given to her by my right hon. Friend the Chancellor of the Duchy of Lancaster (Mr. Hutton) today.

## DEFENCE

### Iraq

17. **Patrick Mercer:** To ask the Secretary of State for Defence if he will make a statement on the security situation in Iraq. [8667]

**John Reid:** We condemn each and every terrorist attack. The vast majority of the victims are ordinary Iraqi people. They deserve our support in fighting this insurgency. We can expect attacks to continue as Iraq maintains progress towards a constitution, referendum and further elections. Attacks are mainly confined to four out of 18 provinces in Iraq. The Iraqi Security Forces are conducting, both independently and with coalition support, an increasing number of counter-insurgency operations.

**Adam Price:** To ask the Secretary of State for Defence pursuant to his reply of 27 June 2005, *Official Report*, columns 1204–05W, on Iraq, whether comments by the

British Deputy Senior Judge Advocate on the 27 August 2003 detainee interrogation policy concerned use of *(a)* dogs, *(b)* stress positions, *(c)* sleep management, *(d)* sensory deprivation, *(e)* yelling, *(f)* loud music and *(g)* light control. [9050]

**Mr. Ingram:** The content of the advice of the British Deputy Staff Judge Advocate given in August 2003 is covered by legal professional privilege and remains the property of the United States Government. For these reasons I am not able to comment on it.

**Adam Price:** To ask the Secretary of State for Defence pursuant to the answer of 27 June 2005, *Official Report*, columns 1204–05W, on Iraq, whether the British Deputy Senior Judge Advocate in Iraq had a role in the formulation of a response to the Red Cross report on Abu Ghraib which he summarised for senior coalition personnel. [9095]

**Mr. Ingram:** The British Officer embedded within the office of the Staff Judge Advocate did not have a role in formulating the response to the ICRC report received in November 2003. An Australian Officer embedded within that office led in preparing the initial draft response and was working direct to the Staff Judge Advocate on that issue.

**Sir Menzies Campbell:** To ask the Secretary of State for Defence what the amount and type of ordnance dropped on Iraq by RAF aircraft was in *(a)* November 2002, *(b)* December 2002, *(c)* January 2003 and *(d)* February 2003. [7261]

**John Reid** *[holding answer 28 June 2005]:* RAF aircraft used Paveway laser-guided precision bombs in Iraq over this period, while policing the no-fly zones. 16 Paveways were dropped by UK aircraft in November 2002; 24 in December 2002; four in January 2003; and five in February 2003.

**Mr. Moore:** To ask the Secretary of State for Defence how many reservists are serving in Iraq; and what proportion had been previously mobilised for service *(a)* overseas and *(b)* in Iraq since May 2002. [8621]

**Mr. Touhig:** Just over 560 reservists are currently called out for permanent service and serving in Iraq. Of the 530 reservists from the Territorial Army and Army's Regular Reserve currently serving in Iraq, approximately 11 per cent. have previously been called out for permanent service in Iraq and 3 per cent. for other overseas operational service since May 2002. Information regarding previous permanent service undertaken by members of the other reserve forces is not held centrally and could be provided only by a manual check of individual records.

### Africa (Peace-building)

18. **Michael Jabez Foster:** To ask the Secretary of State for Defence what role his Department has played in strengthening African peace-building capabilities. [8668]

**Mr. Ingram:** The Ministry of Defence's contribution to the strengthening of African peace-building capability mainly focuses on peace support training of African armed forces and mentoring and advisory functions through its permanently deployed training teams and liaison officers. For example, at present, 10 Defence Attachés and around 120 British armed forces personnel are based in Sub-Saharan Africa to assist in these tasks. Additionally, there are around 25 personnel seconded to UN missions in Sub-Saharan Africa.

22. **Gordon Banks:** To ask the Secretary of State for Defence what role his Department plays in strengthening African peace-building capabilities. [8672]

**Mr. Ingram:** I refer my hon. Friend to the answer I gave earlier today to my hon. Friend the Member for Hastings and Rye (Michael Jabez Foster).

### Second World War

19. **Rosie Cooper:** To ask the Secretary of State for Defence what plans his Department has to commemorate the role of women in the Second World War. [8669]

**Mr. Touhig:** I refer my hon. Friend to the answer I gave to my hon. Friend the Member for Islington, South and Finsbury (Ms Thornberry) earlier today.

24. **Mr. Marsden:** To ask the Secretary of State for Defence if he will make a statement on activities organised by his Department to commemorate the 60th anniversary of the end of the second world war. [8674]

**Mr. Touhig:** I refer my hon. Friend to the answer given by my right hon. Friend the Secretary of State for Defence earlier today to my hon. Friend, the Member for Hackney, South and Shoreditch (Meg Hillier).

### Procurement

20. **Dr. Cable:** To ask the Secretary of State for Defence what forecast he has made of total cost over-runs occurring in current defence procurement projects worth over £1 billion. [8670]

**Mr. Ingram:** Details of major equipment projects over £1 billion and their performance against financial targets are set out in the Major Projects Report 2004 (MPR04). This year's report, MPR05, is due to be placed in the Library of the House prior to the summer recess.

There are additionally eight infrastructure and support projects outside the DPA worth over £1 billion, none of which is forecasting cost overruns.

### Surface Fleet

21. **Linda Gilroy:** To ask the Secretary of State for Defence what plans he has to enhance the Royal Navy's surface fleet. [8671]

**Mr. Ingram:** We are adapting and modernising the Royal Navy into a versatile maritime force that is structured to meet the challenges of the future. The capability of the surface fleet will be enhanced through the procurement of two new, large aircraft carriers, new Type 45 destroyers and new amphibious support shipping.

### Veterans' Organisations

23. **Mr. Simon:** To ask the Secretary of State for Defence what recent discussions he has had with veterans' organisations. [8673]

**Mr. Touhig:** The Ministry of Defence maintains a close dialogue with veterans' organisations at both ministerial and official level. Since becoming Minister for Veterans, I have chaired a meeting of the Veterans Forum, which brings together representatives from the Ministry of Defence, other Government Departments and the Confederation of British Service and Ex-Service Organisations (COBSEO) as part of the highly successful Veterans' Programme. I have also had introductory meetings with a number of individual veterans' organisations, and more are planned. Our discussions have been wide-ranging and constructive, and I look forward to working together to make the Veterans' Programme even more effective.

### EU Defence Contribution

25. **Chris Bryant:** To ask the Secretary of State for Defence what steps he is taking in the EU to press for a greater defence contribution from EU states. [8675]

**John Reid:** During the United Kingdom's EU presidency we will promote a European Security and Defence Policy which is more capable, more coherent and more active. As presidency we are pressing ahead with the Headline Goal 2010 capability development process, aiming to deliver the final military Requirements Catalogue 2005.

The UK also continues to play a leading role in the EU rapid-response Battlegroups initiative, to which 22 member states have so far declared commitments.

### Armed Forces Personnel

**Harry Cohen:** To ask the Secretary of State for Defence how many armed forces personnel applied to take up appointments with defence industry companies in *(a)* 2003 and *(b)* 2004, broken down by rank; and how many of the applications were accepted in each case. [9322]

**Mr. Touhig:** I refer my hon. Friend to the answer I gave on 28 June 2005, *Official Report*, column 1394, to the right hon. and learned Member for Devizes (Mr. Ancram).

### Computer Crime

**Mr. Burstow:** To ask the Secretary of State for Defence how many cases of computer *(a)* hacking, *(b)* fraud and *(c)* theft his Department recorded in each year since 2001–02; and for each year, on how many occasions computer systems have been illegally accessed by computer hackers (i) within and (ii) outside his Department. [7179]

**Mr. Touhig:** The number of incidents affecting MOD computer systems for the years 2003, 2004 and 2005 are summarised in the following table:

| *Incident type* | *2003 (1 January–31 December 2003)* | *2004 (1 January–31 December 2004)* | *2005 (1 January–23 June 2005)* |
|---|---|---|---|
| Computer hacking incidents, comprising: | 12 | 36 | 30 |
| Computer network exploitation | 0 | 2 | 1 |
| External probe or scan | 1 | 6 | 6 |
| External unauthorised access (intrusion) | 1 | 1 | 0 |
| External unauthorised Modification (including defacement) | 1 | 1 | 0 |
| Internal—misuse of resources | 4 | 10 | 19 |
| Internal—probe or scan | 0 | 2 | 0 |
| Internal Unauthorised Access (intrusion) | 1 | 2 | 1 |
| Internal unauthorised modification (including defacement) | 0 | 6 | 1 |
| Internal—privilege abuse | 1 | 1 | 2 |
| Other (including suspicious activity) | 3 | 5 | 4 |
| Computer fraud | 0 | 0 | 0 |
| Computer theft | 59 | 158 | 23 |

Some of the hacking incidents outlined above represent precursor activity (such as probes or scans) to a hacking attack. In many cases, the protective measures deployed to safeguard MOD information systems are likely to have dissuaded hackers from developing their reconnaissance into a proper hacking attack. None of the reported incidents of hacking had any operational impact.

There were no recorded incidents of computer fraud over the period 2003–05.

### EU Military Bodies

**Mr. Hayes:** To ask the Secretary of State for Defence if he will list staff on secondment to EU military bodies, broken down by grade. [8973]

**Mr. Touhig:** There are currently 13 UK military personnel seconded to the EU military staff: one brigadier, one colonel, nine lieutenant colonels or equivalent, one warrant officer, and one flight sergeant.

There is one UK commander seconded as a military assistant to the Chairman of the EU Military Committee.

There are currently no UK civilian staff seconded to EU military bodies.

### Gibraltar

**Mr. Hoyle:** To ask the Secretary of State for Defence how many custody suites each of the services operates in Gibraltar; and how often each was used in each of the last three years. [7598]

**Mr. Ingram:** The Command has one custody suite and six persons have been held in custody, for short periods of time, in the last three years. In 2002 no persons were held. In 2003 six persons were held. In 2004 no persons were held. To date, in 2005, no persons have been held.

**Mr. Hoyle:** To ask the Secretary of State for Defence how many *(a)* doctors and *(b)* nurses work in Gibraltar Naval Hospital. [7203]

**Mr. Ingram:** There are five permanent medical consultant posts at Royal Naval Hospital, Gibraltar. Locums and visiting military consultants currently man these posts while permanent consultants are being recruited. The commanding officer is also a GP. Several specialist consultants visit on a regular basis.

The Royal Navy Hospital, Gibraltar employs 25 nurses across various specialisms.

### Kandahar (Service Personnel)

**Patrick Mercer:** To ask the Secretary of State for Defence how many *(a)* aircraft, *(b)* airmen, *(c)* soldiers and *(d)* sailors the UK has in the Kandahar area; and under whose operational command they are. [7609]

**Mr. Ingram:** As at 27 June 2005, there are six Harrier GR7 aircraft, 146 airmen, 30 soldiers and 10 sailors in the Kandahar area. All come under the operational command of the UK's Chief of Joint Operations.

### Military Costs (Afghanistan/Middle East)

**Mr. Gordon Prentice:** To ask the Secretary of State for Defence if he will estimate the costs of military involvement in *(a)* Afghanistan and *(b)* the Middle East since 2001; and if he will make a statement. [8049]

**Mr. Ingram:** The Ministry of Defence identifies the costs of operations in terms of the net additional costs it has incurred. Additional costs for larger operations are identified separately and are published each year in the MOD's annual report and accounts, which are available in the Library of the House.

On this basis, the additional costs of military operations in Afghanistan and the middle east from 2001 are:

*£ million*

| | *Afghanistan* | *Gulf* | *Iraq (OpTelic)* |
|---|---|---|---|
| 2001–02 | 221 | 61 | — |
| 2002–03 | 311 | 45 | 847 |
| 2003–04 | 46 | — | 1,311 |

The additional costs of operations in Afghanistan and Iraq in 2004–05 will be published this autumn in the MOD's 2004–05 departmental report and accounts.

### Military Readiness

**Mr. Robathan:** To ask the Secretary of State for Defence (1) if he will make a statement on the finding of the National Audit Office report Assessing and Reporting Military Readiness, paragraph 2.44, concerning engineering risk and cannibalisation; and how much equipment and of what type in *(a)* Challenger 2 regiments, *(b)* AS90 regiments, *(c)* Warrior battalions and *(d)* CVR(T) regiments has been damaged during cannibalisation; [7547]

(2) if he will make a statement on the finding of the National Audit Office report Assessing and Reporting Military Readiness, paragraph 2.45, concerning the effects of cannibalisation of equipment on the remaining pool of equipment; how many units have been left properly equipped following this process of cannibalisation; and how many *(a)* tank, *(b)* CVR(T), *(c)* AS90 and *(d)* Warrior units are fully equipped for operations. [7549]

**Mr. Ingram** *[holding answer 27 June 2005]:* The process of cannibalisation is undertaken in a deliberate and effective manner by fully qualified and professional army engineers. As a result no equipment in Challenger 2 regiments, AS90 regiments, Warrior battalions or CVR(T) regiments has been damaged during cannibalisation.

All units deployed or earmarked for current operations have deployed or will deploy equipped with their full complement of heavy armoured vehicles. Cannibalisation has had no impact on this requirement.

### Recruitment

**Mr. Ancram:** To ask the Secretary of State for Defence how many applications there were from civilians to join UK regular forces in *(a)* commissioned and *(b)* non-commissioned posts in each quarter since 2002. [7529]

**Mr. Touhig:** The number of civilian applications for employment in the UK regular forces since financial year 2002–03 were:

| *Naval Service* | *T1* | *T2* | *T3* | | *Total* |
|---|---|---|---|---|---|
| *Officers (intake is calculated by three terms, not quarters)* | | | | | |
| 2002–03 | 510 | 585 | 405 | — | 1,500 |
| 2003–04 | 380 | 480 | 305 | — | 1,165 |
| 2004–05 | 440 | 405 | 280 | — | 1,125 |
| *Other ranks* | *Q1* | *Q2* | *Q3* | *Q4* | |
| 2002–03 | 3,038 | 3,185 | 2,168 | 3,852 | 12,243 |
| 2003–04 | 3,399 | 2,895 | 2,084 | 2,593 | 10,971 |
| 2004–05 | 2,637 | 2,656 | 2,076 | 2,497 | 9,866 |
| *Army Officers* | | | | | |
| 2002–03 | 1,468 | 1,368 | 1,863 | 1,459 | 6,158 |
| 2003–04 | 1,224 | 1,095 | 1,266 | 1,290 | 4,875 |
| 2004–05 | 1,004 | 877 | 1,244 | 1,081 | 4,206 |
| *Other ranks* | | | | | |
| 2002–03 | 7,883 | 10,794 | 7,647 | 10,483 | 36,807 |
| 2003–04 | 9,959 | 8,250 | 6,215 | 9,998 | 34,422 |
| 2004–05 | 7,671 | 6,984 | 4,995 | 8,598 | 28,248 |
| *RAF Officers* | | | | | |
| 2002–03 | 1,096 | 941 | 1,576 | 833 | 4,466 |
| 2003–04 | 755 | 672 | 1,397 | 895 | 3,719 |
| 2004–05 | 757 | 570 | 1,377 | 489 | 3,193 |
| *Other ranks* | | | | | |
| 2002–03 | 3,745 | 3,988 | 2,946 | 1,872 | 12,551 |
| 2003–04 | 1,801 | 2,421 | 1,781 | 3,068 | 9,071 |
| 2004–05 | 2,489 | 2,228 | 1,799 | 1,750 | 8,266 |

### Recuperation Levels

**Mr. Gerald Howarth:** To ask the Secretary of State for Defence when he expects recuperation levels within the RAF to return to pre-Operation Telic levels of readiness. [7885]

**Mr. Ingram:** The Royal Air Force continues to meet its standing and contingent overseas operational and enduring home commitments, contributing forces to a number of theatres around the world: the Gulf, Northern Ireland, South Atlantic, Afghanistan and the Balkans. Planning assumptions and requirements are kept under constant review to ensure that the RAF continues to be ready to meet the challenges of today and tomorrow. The pre-Operation Telic levels of readiness were a reflection of the Defence position prior to 2003 and are not necessarily an indication of our future requirements.

### Royal Air Force

**Mark Pritchard:** To ask the Secretary of State for Defence if he will make a statement on manning levels in the Royal Air Force. [8664]

**Mr. Touhig:** On 1 May 2005, the trained strength of the regular Royal Air Force was 48,760. As part of the restructuring of the armed forces announced in this House on 21 July last year, RAF trained manpower is being reduced to around 41,000 by April 2008.

### Surveys

**Mr. Moore:** To ask the Secretary of State for Defence when the most recent continuous attitude surveys for each of the services will be completed; and if he will place copies in the Library. [8617]

**Mr. Touhig:** The most recent Royal Navy continuous attitude survey (CAS) was completed in March 2005; while the Army's latest CAS was completed in June 2005. The RAF report on their aggregated 2004 CAS results is now being prepared and will be available for publication towards the end of the year. When the RAF report is complete, the results of all three services' CAS will be placed in the Library of the House and MOD FOI website.

### Territorial Army

**Mike Penning:** To ask the Secretary of State for Defence what the manning levels of the Territorial Army are. [8663]

**Mr. Touhig:** The whole strength of the TA as at 1 May 2005 stood at 37,100.

**Mr. Hoyle:** To ask the Secretary of State for Defence if he will make a statement on the future of the Territorial Army in Chorley. [9580]

**Mr. Touhig:** I refer my hon. Friend to the reply I gave him on 28 June 2005, *Official Report*, column 1400W.

### Troop Deployment

**Mr. Hancock:** To ask the Secretary of State for Defence what estimate he has made of the cost of troop deployments to Iraq in each of the next three years; and from which budgets they will be funded. [6333]

**Mr. Ingram:** The Ministry of Defence is constantly reviewing and assessing its commitment in Iraq, based on the security and political situation, and changing force posture and equipment requirements as Iraqi Security Forces take on increasing responsibility for security. Consequently any speculation on potential future costs would be misleading. As with all net additional costs of operations, we would expect these costs to be funded by HM Treasury from the Contingency Reserve.

### Typhoon

**Mr. Hoyle:** To ask the Secretary of State for Defence how many Typhoon aircraft are in use with the Royal Air Force. [9576]

**Mr. Ingram:** As of 30 June 2005 the RAF has taken delivery of 15 Typhoons.

## CABINET OFFICE

### Government Cars

**Mr. Oaten:** To ask the Chancellor of the Duchy of Lancaster whether the Government Car Agency plans to replace cars in the ministerial fleet with cars which use alternative fuel technology. [7415]

**Mr. Jim Murphy:** The responsibility for the provision of ministerial cars and drivers has been delegated under the terms of the Framework Document to the Government Car Despatch Agency. I have asked its Chief Executive Mr. Roy Burke to write to the hon. Member. Copies of his letter will be placed in the Library.

### Myerscough Quarry

**Mr. Wallace:** To ask the Chancellor of the Duchy of Lancaster pursuant to his written answer of 27 June 2005, *Official Report*, column 1226W, which local stakeholders are being consulted in the early stages of the investigation into the possibility of the former Myerscough Quarry becoming a strategic rural gateway for Lancashire. [8775]

**Mr. Hutton:** The Duchy Office has prepared the following list of stakeholders/consultees which either have been consulted or are to be consulted over the next few months in respect of the proposals for the Myerscough Quarry site.

Lancashire County Council

Wyre Borough Council

Myerscough and Bilsborrow Parish Council

Lancaster City Council

North West Development Agency

Lancashire West Partnership

Pan-Lancashire Partnership

Ben Wallace MP Lancaster and Wyre

Michael Jack MP Fylde

British Waterways

Garstang Area Partnership

Garstang and Eccleston Show Committees

Myerscough College

Lancaster University

Lancaster Farmers Auction Mart

Brock Auction Mart

Royal Lancashire Agricultural Society

### Race Relations (Amendment) Act 2000

**Keith Vaz:** To ask the Chancellor of the Duchy of Lancaster how many and what percentage of staff in his Department have received training on the general and specific duties of the Race Relations (Amendment) Act 2000, broken down by *(a)* ethnicity and *(b)* grade. [3539]

**Mr. Hutton:** A programme of training on the general and specific duties of the Race Relations (Amendment) Act 2000 was provided to Cabinet Office senior managers when the first Race Equality Scheme was produced in 2002. Further training and advice has followed as senior management teams have changed.

Detailed records of those who attended the training in 2002 have not been kept. However, as at 1 April 2002 when the training was being delivered, the grades (pay bands) and ethnicity of all staff in the Department at the targeted grades are shown in the table.

*Number and ethnic origin of staff in the SCS and at band A as at 1 April 2002*

| | *Asian* | *Black* | *Mixed ethnic origin* | *Other ethnic origin* | *White* |
|---|---|---|---|---|---|
| Senior civil servant | * | * | * | * | 131 |
| Band A | * | * | * | * | 367 |
| Total | 13 | 6 | * | * | 498 |

*Notes:*

1. As per civil service statistical convention, figures between 0 and 5 and those from which figures between 0 and 5 could be calculated are asterisked (*) to avoid identification of individuals.
2. Response rate to the ethnic origin questionnaire at Senior Civil Servant level was 83 per cent. and at band A level 90 per cent.

In addition to specific training on the Act, diversity and equality issues are covered in the Department's management development programmes.

The Department is currently undertaking a detailed review of its Race Equality Scheme which includes how it trains staff in the duties of the Race Relations (Amendment) Act. The revised scheme will be published in September 2005.

### Work-related Stress

**Lynne Featherstone:** To ask the Chancellor of the Duchy of Lancaster how many cases of work-related stress have been reported in his Department in each of the last three years; how much compensation was paid to employees in each year; how many work days were lost due to work-related stress in each year; at what cost; what procedures have been put in place to reduce work-related stress; at what cost; and if he will make a statement. [7856]

**Mr. Hutton:** Work-related stress is recorded if it results in absence from work. The Cabinet Office figures are available from 1 April 2003 and set out in the table. There may be cases of work-related stress that do not result in an absence but that information is not recorded.

No compensation has been claimed or paid to employees in the last three years.

| | *Number of individuals* | *Working days lost* | *Cost of working days lost* |
|---|---|---|---|
| 1 April-31 December 2003 | [1]Less than 5 | [1]n/a | [1]n/a |
| 1 January-31 December 2004 | 8 | 107 | 11,183 |
| 1 January 2005 to date | [1]Less than 5 | [1]n/a | [1]n/a |

[1] To protect the privacy of individuals details have not been provided. This is in accordance with statistical conventions, which recommend that records of 5 or less should not be published.

The Cabinet Office has a number of procedures in place to reduce stress at work. A stress management framework based on the Health and Safety Executive's Management Standards was launched in February 2005 and is available on the Department's intranet site. Stress management workshops were organised to explain the framework to managers and employees, and the framework is covered in the Department's on-going health and safety training.

The well-being of employees is important to the Department and it supports them in managing their work-life balance. In addition to leave entitlements the Department offers child care support and, where possible, it encourages flexible working arrangements. An on-site gym is available to employees in London, and health awareness initiatives are run from time to time.

The Department is also committed to creating a supportive working environment that is free from any form of harassment and bullying. All complaints are taken seriously and individuals have access to a confidential network of Harassment Contact Officers which is in addition to Department's counselling service.

Information on the individual costs of these initiatives could be obtained but only at disproportionate cost.

## TRADE AND INDUSTRY

### Acts of Parliament (Internet Access)

**Mr. Gordon Prentice:** To ask the Secretary of State for Trade and Industry if he will take steps to make all Acts of Parliament published before 1988 for which his Department is responsible available online. [3722]

**Alan Johnson:** The Controller of Her Majesty's Stationery Office (HMSO) within the Cabinet Office is the Queen's printer of Acts of Parliamentary, and responsible for the publication of Acts of Parliament. HMSO has considered the publication of Acts prior to 1998, which is the earliest date when these were available electronically, but has decided not to do so as many have been heavily amended and to publish them in their original form would be misleading for many users. The Government are, however, taking forward development of a statute law database which will contain the fully

revised and updated text of all legislation from 1275. It is expected that this will be made available to the general public during 2006.

### Advanced Gas-cooled Reactor Nuclear Power Stations

**Norman Baker:** To ask the Secretary of State for Trade and Industry (1) what weaknesses were uncovered in which power stations during recent inspections by Government nuclear inspectors of the graphite cores of advanced gas-cooled reactor nuclear power stations; [4481]

(2) what dates were originally predicted by computer models as to when inevitable weakening in the graphite cores of advanced gas-cooled reactor nuclear power stations would occur; what revision of these dates was undertaken in subsequent studies; and what bearing this has on the scheduling of decommissioning advanced gas-cooled reactor nuclear power stations; [4482]

(3) what factors lead to the onset of weakening in the graphite cores of advanced gas-cooled reactor nuclear power stations at a rate faster than that predicted by computer modelling; and what measures his Department has put in place to guard against further such weakening; [4483]

(4) what implications the risk of advanced gas-cooled reactor nuclear power stations developing cracks in their graphite cores will have on *(a)* their current operational life, *(b)* the operational life of plants using similar systems and *(c)* Government policy relating to the possible construction of new nuclear power stations; and if he will make a statement. [4484]

**Malcolm Wicks:** Technical issues relating to the graphite cores of advanced gas-cooled reactor power stations are complex technical matters for British Energy and the Nuclear Installations Inspectorate. Therefore, I have asked the Chief Inspector of Nuclear Installations to write to the hon. Member. The Government's position on new nuclear power stations remains the same as stated in the 2003 White Paper—we are keeping the option of new build open. Before any decision were taken to proceed with the building of new nuclear power stations there would need to be the fullest public consultation and the publication of a further White Paper setting out our proposals.

The 'West Midlands Regional Energy Strategy' published in November 2004 by GOWM, The West Midlands Regional Assembly and Advantage West Midlands, also recognises the need for the increased use of renewable energy resources as one of its four key objectives and sets out four priorities under this banner along with identifying those organisations with a lead responsibility and milestones.

The Regional Planning Guidance for the West Midlands published in June 2004 by the GOWM includes a chapter on Energy Policies which includes renewable energy, base lining its use in the region at 0.1 per cent. in 2000, identifying the potential to increase this to at least 15 per cent. and encouraging local authorities to encourage renewable energy proposals in their development plans. This includes location guidance and the environmental impact of its generation.

**Norman Baker:** To ask the Secretary of State for Trade and Industry if he will estimate the total cost of closing down each advanced gas-cooled reactor nuclear power station in order to carry out maintenance work on the graphite core. [4485]

**Malcolm Wicks:** This is a matter for British Energy.

### Advantage West Midlands

**Paul Farrelly:** To ask the Secretary of State for Trade and Industry how much has been provided by Advantage West Midlands for each regeneration zone in the west midlands in each year since they were established. [7620]

**Alun Michael:** There have been a number of changes to the way the Government requires AWM to report on it's spend. There was no geographic analysis of figures spent by Advantage West Midlands prior to 2002–03, when the Government changed the way they expect Regional Development Agency's to report on their spending.

The following figures cover 2002–03, 2003–04 and also 2004–05, although the figures for 2004–05 have not yet been audited.

| | *2002–03* | *2003–04* | *2004–05* |
|---|---|---|---|
| Coventry and Nuneaton | 19,019 | 13,675 | 12,359 |
| East Birmingham and North Solihull | 17,600 | 40,580 | 66,980 |
| North Black Country and South Staffs | 23,596 | 36,684 | 39,582 |
| South Black Country and West Birmingham | 27,430 | 25,223 | 25,517 |
| North Staffordshire | 16,031 | 20,825 | 19,880 |
| Rural | 15,437 | 15,731 | 25,045 |
| Expenditure Outside Regeneration Zones | 88,664 | 111,720 | 53,774 |
| Region Wide | 15,055 | 26,292 | 57,006 |
| Total | 222,832 | 290,730 | 300,143 |

### Agents

**Malcolm Bruce:** To ask the Secretary of State for Trade and Industry pursuant to the answer given on 13 June 2005, *Official Report*, column 68W, on agents, on how many occasions in the previous year UK trade and investment provided information to companies about potential agents; if he will list *(a)* the companies to which information was given and *(b)* the countries about which the information was given. [7924]

**Ian Pearson:** UKTI does not hold this data centrally. To co-ordinate it would represent disproportionate cost.

### Air Travellers (Financial Protection)

**Dr. Cable:** To ask the Secretary of State for Trade and Industry (1) what assessment he has made of consumers' understanding of financial protection schemes for air travellers; and if he will make a statement; [8293]

(2) what recent discussions he has had with consumer groups on financial protection schemes for air travellers; and if he will make a statement; [8294]

(3) what assessment he has made of the UK's ability to meet its obligations under the Package Travel Directive if major tour operators move their business outside the Air Travel Organisers' Licence scheme. [8295]

**Mr. Sutcliffe:** The Air Travel Organisers' Licence (ATOL) regulations use the same definition of "package" as the Package Travel Directive and the UK regulations which implement the Directive to define their coverage in respect of package travel organisers. Any tour operator which provides flight-based packages has no choice but to hold an ATOL or to be acting for a disclosed principal which holds an ATOL. If a tour operator were to legally operate outside of the ATOL scheme they would need to alter their products in such a way that they no longer constituted a package. Since the definition in the ATOL Regulations and the Directive is the same, it follows that if a product falls outside of one it will fall outside of the other and the UK would have no obligations under the Directive in respect of that business.

I am very aware of the views of consumer representatives' on this high profile issue for the leisure travel sector. I understand they have made those views known to both the Civil Aviation Authority and the Department for Transport as they consider the arguments for change to the current regime.

The Civil Aviation Authority has undertaken extensive work in order to assess consumers' understanding of financial protection in this market. This assessment was reported in the CAA's advice to the Government (Financial Protection for Air Travellers and Package Holiday Makers in the Future, CAA Advice to Government, July 2004) and in their consultation document of July 2003. These reported the results of their consultation with consumer organisations and also the results of research carried out for the CAA into customer expectations and their perceptions of protection in the holiday market (Financial Protection for Air Holiday, Final Report: NFO Transport and Tourism). These documents and reports are available at www.atol.org.uk.

### Carbon Abatement Technologies

**Huw Irranca-Davies:** To ask the Secretary of State for Trade and Industry what assessment he has made of the economic effects on UK industry of the use of carbon abatement technologies. [6617]

**Malcolm Wicks:** Work undertaken by the National Economic Research Association (NERA) last year estimated that currently some 38,000 jobs and a turnover of £3 billion per year is attributable to activities in cleaner fossil fuel technologies. The report was not able to quantify the growth in the sector as the result of the increased used of carbon abatement technologies but suggested that both jobs and turnover should rise significantly.

**Huw Irranca-Davies:** To ask the Secretary of State for Trade and Industry what support the Government plan to offer to encourage companies *(a)* to undertake further research into clean coal technologies, *(b)* to invest in clean coal technologies for existing coal-fired power plants and *(c)* to develop new facilities that fully utilise clean coal technologies. [6618]

**Malcolm Wicks:** We have allocated some £20 million from spending round 2005–06 to 2007–08 to support carbon abatement technologies which would include cleaner coal technologies. Although there is currently no support for investing in either new or existing plant, we have announced £25 million for demonstrating carbon abatement technologies for fossil fuel plant. Also under the climate change programme review we are assessing the possibility of incentives for carbon capture and storage which, if found to be justified, could also encourage investment in these technologies.

**Mr. Hood:** To ask the Secretary of State for Trade and Industry what steps he is taking to support the development of clean coal technology in *(a)* the UK and *(b)* Scotland. [8852]

**Malcolm Wicks:** The Carbon Abatement Technology Strategy announced on 14 June includes a programme of £25 million to support demonstrations over four years from 2006 and some £20 million over the next three years for R&D support. This support is for the UK as a whole and until the projects have been identified it is not possible separately provide a figure for that part of the funding which would benefit Scotland.

### Carbon Sequestration

**Huw Irranca-Davies:** To ask the Secretary of State for Trade and Industry what discussions he has had with the US Department of Energy regarding its FutureGen carbon sequestration initiative. [6707]

**Malcolm Wicks:** We have had no formal discussions with the US Department of Energy about FutureGen although under a Collaborative Arrangement we are working with the US on two Cleaner Coal Technology Projects with the UK Government contributing some £3.5 million. We are also currently discussing collaboration on a third project.

**Huw Irranca-Davies:** To ask the Secretary of State for Trade and Industry what assessment he has made of the potential for carbon sequestration in the North sea oil fields. [6619]

**Malcolm Wicks:** The British Geological Survey have estimated that the North sea oil fields have a capacity to store some 5.8 gigatonnes of $CO_2$. The publication "Review of the Feasibility of Carbon Dioxide Capture and Storage in the UK" published in September 2003 provides further information on the potential for storage in North sea's gas fields and aquifers.

**Huw Irranca-Davies:** To ask the Secretary of State for Trade and Industry how much the Government have spent on research and development into carbon sequestration technology in the past five years. [6620]

**Malcolm Wicks:** Since 1999 we have committed some £5.8 million towards a variety of R&D projects which would contribute to the development of carbon capture and storage technologies.

### Coal Gasification Technology

**Huw Irranca-Davies:** To ask the Secretary of State for Trade and Industry of what *(a)* public and *(b)* private proposals in the UK (i) to develop new power plants that utilise coal gasification technology and (ii) to retrofit existing coal-fired power plants to utilise coal gasification technology he has been informed. [6625]

**Malcolm Wicks:** To date we are aware of two private proposals to develop power plant using IGCC technology. One is to develop a plant in Teesside and the

second to build a plant on the site of the Hatfield Colliery. Both projects are still at the feasibility stage. We are not aware of any retrofit proposals.

### Coal Liabilities Unit

**John Mann:** To ask the Secretary of State for Trade and Industry what reports have been received since January 2004 from Coal Liabilities Unit staff responsible for updating the storybooks that detail where improvements have been made to claims handlings; and if he will publish these storybooks. [9645]

**Malcolm Wicks:** Regular reports are provided to the Department to allow us to monitor the effectiveness of the claims handling process. These contain commercial information and are not appropriate for publication.

### Consultants

**Mrs. Dean:** To ask the Secretary of State for Trade and Industry what plans he has to issue guidance on effective commissioning for those in the public and voluntary sectors who are commissioning work from external consultants. [7023]

**Alan Johnson:** I refer my hon. Friend to the answer given by my hon. Friend, the Financial Secretary on 27 June 2005, *Official Report*, column 1286W.

For my own Department comprehensive guidance to staff on the effective commissioning of Consultancy and Professional Services was issued to all staff via the DTI intranet in 2004. A pamphlet "A Brief Guide to Engaging Consultants" was published in January 2005 and was distributed to all staff in DTI London offices. Specific Budgeting and Accounting Guidance has also been issued to all Director Generals and their finance staff.

### Corporate Social Responsibility

**Mr. Arbuthnot:** To ask the Secretary of State for Trade and Industry pursuant to the answer of 23 June 2005, *Official Report*, columns 1162–63W, on Corporate Social Responsibility, how the sums allocated to corporate social responsibility initiatives in each year have been spent. [8906]

**Alun Michael:** DTI made the following allocations to Corporate Social Responsibility for the relevant years:

*CSR Budget for 2003–04: £330,000*

Sponsorship of:

Business in the Community's CR Index and Awards

Small Business Consortium's Small Business Journey

Study by Chatham House following World Summit on Sustainable Development

McKinsey Report on UN Global impact assessment

Development of HMG's CSR Website

*CSR Budget for 2004–05: £369,000*

Sponsorship of:

Business in the Community's CR Index, and Awards

Small Business Consortium's Small Business Journey Toolkit

Impact Assessment on UN Global Compact

CSR Government Report

*CSR Budget for 2005–06: £500,000. Spend to date is £91,000*

CSR Academy

UK CSR Presidency Conference

Sponsorship of Business in the Community's CR Index, and Awards

### Correspondence

**Mr. Andrew Turner:** To ask the Secretary of State for Trade and Industry when he will reply to the letter from the hon. Member for the Isle of Wight *(a)* concerning outstanding correspondence, dated 10 December 2004 and *(b)* concerning Royal Mail, dated September 2004. [9100]

**Malcolm Wicks:** We do not appear to have received the correspondence dated 10 December 2004 referred to by the hon. Member. If the hon. Member would forward copies of this correspondence to me, we will respond with all due urgency.

It would appear that due to an administrative oversight a reply to the hon. Member's correspondence of September 2004 was not issued. A reply will be sent within the next few days along with a sincere apology.

### Defence Industrial Capability

**Mr. Soames:** To ask the Secretary of State for Trade and Industry what aspects of defence industrial capability he is seeking to develop. [9392]

**Alun Michael:** The Department of Trade and Industry is working closely with the Ministry of Defence to establish a defence industrial strategy. This strategy will be aimed at prioritising the importance to the UK of defence industrial capabilities in all sectors.

### Defence Units

**Malcolm Bruce:** To ask the Secretary of State for Trade and Industry what the duties and responsibilities are of the Export Control Organisation's *(a)* Policy Unit, *(b)* Chemical Weapons Convention Unit, *(c)* Enforcement Unit, *(d)* Secure Document Unit, *(e)* UK Safeguards Office, *(f)* IAEA Sponsorship Unit and *(g)* Technical Policy Unit. [7959]

**Malcolm Wicks** *[holding answer 29 June 2005]:* The Policy Unit is responsible for the Export Control Organisation's input into export control policy. The Chemical Weapons Convention Unit provides the UK's national Authority, required by Article VII.4 of the Chemical Weapons Convention and is responsible for the implementation of the Convention in the UK. The Enforcement Unit is responsible for the matching of intelligence material to export licence applications. The Special Documents Unit manages the Department's link to the intelligence agencies. The UK Safeguards Office ensures the application of nuclear safeguards in the UK working with UK industry and works on UK and international policy on nuclear safeguards and related nuclear non-proliferation issues. The IAEA Sponsorship Unit is responsible for nuclear non-proliferation policy as it affects the DTI. This includes the Government lead on overall relations with the

International Atomic Energy Agency. The Technical Policy Unit has been merged with Policy Unit to support their role.

More detailed information is available from the following Government websites:

www.dti.gov.uk/export.control/help/introductiontothe_eco.pdf

www.dti.gov.uk/non-proliferation

### Electricity Expenditure

**Mr. Dodds:** To ask the Secretary of State for Trade and Industry what the average amount spent by each household in England on electricity was in the last year for which figures are available. [8997]

**Malcolm Wicks:** The average amount spent on electricity in 2003–04 across all households in England was £6.36 per week.

### Energy Strategy

**Mr. Jenkin:** To ask the Secretary of State for Trade and Industry what plans he has for his Department to conduct a review of the Government's energy strategy. [9097]

**Malcolm Wicks:** The Government remain committed to the framework for energy policy, set out in the Energy White Paper. In the White Paper we made a commitment to keep our progress toward our energy policy goals under review, for example through the work of the Joint Energy Security of Supply Working Group. Another example is the Climate Change Programme Review, which is already showing that we will need to do more to reach our domestic goal for carbon reductions and we are considering the options for addressing this.

### England-Belgium Gas Interconnector

**Mr. Jenkin:** To ask the Secretary of State for Trade and Industry when the England-Belgium gas interconnector enhancement project will be completed; and whether the project is on schedule. [8961]

**Malcolm Wicks:** The first phase of the enhancement project is expected to be complete in December 2005, enabling a doubling of present import capacity. The second phase is scheduled for December 2006, allowing three times the present capacity to flow. I understand that both phases of the project are currently on schedule.

### Exhibitions and Seminars Abroad

**Mr. Arbuthnot:** To ask the Secretary of State for Trade and Industry pursuant to the answer of 21 June 2005, *Official Report*, column 897W, on the Exhibitions and Seminars Abroad scheme, whether UK Trade and Investment has set a fixed number of overseas exhibitions that any one given company will be eligible to attend under the Support for Exhibitions and Seminars Abroad scheme plans for 2006–07; and if he will make a statement. [8807]

**Ian Pearson:** An eligible company will be able to receive up to three grants to attend overseas exhibitions. The target companies for this scheme are small and medium sized enterprises who are new to exporting. The purpose of the grant is to help such companies overcome perceived commercial risks in pursuing market entry and to enable them to acquire experience on the pat to sustained and successful exporting.

**Mr. Arbuthnot:** To ask the Secretary of State for Trade and Industry pursuant to the answer of 21 June 2005, *Official Report*, column 897W, on the Exhibitions and Seminars Abroad scheme, whether UK Trade and Investment plans to include mounting UK pavilions which will be eligible to all exporters in its Support for Exhibitions and Seminars Abroad scheme in 2006–07; and if he will make a statement. [8808]

**Ian Pearson:** UK Trade and Investment will work with Accredited Trade Organisations to draw up a programme of overseas exhibitions, including UK pavilions. Participation in such groups will be open to all UK companies. Grant support will be limited to small and medium sized enterprises who are new to exporting.

### Export Control Organisation

**Malcolm Bruce:** To ask the Secretary of State for Trade and Industry if he will place in the Library the reports submitted by ASE Consulting in relation to its review of the Export Control Organisation's services. [7960]

**Malcolm Wicks** *[holding answer 29 June 2005]:* I have arranged for a copy of the final report released under the Freedom of Information Act to be placed in the Libraries of the House.

**Malcolm Bruce:** To ask the Secretary of State for Trade and Industry if he will place in the Library the terms of reference for ASE Consulting's review of the Export Control Organisation's services. [7961]

**Malcolm Wicks** *[holding answer 29 June 2005]:* I have arranged for a copy of the terms of reference to be placed in the Libraries of the House.

**Malcolm Bruce:** To ask the Secretary of State for Trade and Industry which *(a)* organisations and *(b)* other Government departments (i) his Department and (ii) consultants commissioned by his Department have contacted in relation to the review of the Export Control Organisation's services. [7962]

**Malcolm Wicks** *[holding answer 29 June 2005]:* The review was internal to Government and involved FCO, MOD, DFID, the Cabinet Office, HM Revenue and Customs, HM Treasury and other Government agencies. Views of external organisations have not been formally sought.

### Home Computing

**Mr. Michael Foster:** To ask the Secretary of State for Trade and Industry what estimate he has made of the percentage of households in Worcester that *(a)* own a home computer, *(b)* have access to the internet via a normal telephone line and *(c)* have access to the internet via broadband. [7906]

**Alun Michael:** The information is as follows:

*(a)* In the latest Consumer Durables survey by ONS in 2002–03, 54 per cent. of households owned a home computer. This information is not available at local authority level.

*(b)* and *(c)* In Worcester, the percentage of households with a dial-up internet connection is 30 per cent. The percentage of households with a broadband internet connection is 24.8 per cent. in Worcester.

### Humbly Grove/Hole House Farm Gas Storage Facility

**Mr. Jenkin:** To ask the Secretary of State for Trade and Industry when the *(a)* Humbly Grove gas storage facility and *(b)* upgrade of the Hole House Farm storage facility will be complete. [8962]

**Malcolm Wicks:** The Humbly Grove storage facility is due to commence commercial operations in October 2005. The upgrade of the Hole House Farm storage facility is currently expected to be complete in 2008.

### Liberalisation

**Mr. Marsden:** To ask the Secretary of State for Trade and Industry what position the United Kingdom will take on liberalisation of *(a)* agricultural markets, *(b)* non-agricultural markets and *(c)* service industries in developing countries at the World Trade Organisation General Council meeting on 27 July 2005. [8291]

**Ian Pearson:** The agenda has yet to be set for the World Trade Organisation General Council meeting on 27 July 2005. The European Commission speaks on behalf of the EU at these meetings. The United Kingdom will continue to work for a pro-development outcome across all the dossiers of the Doha development agenda, as set out in our White Paper "Making Globalisation a Time for Good".

### MG Rover

**Charles Hendry:** To ask the Secretary of State for Trade and Industry what assessment his Department has made of its actions in trying to prevent MG Rover entering administration; and if he will make a statement. [5871]

**Ian Pearson:** The DTI, in common with other commentators, had long taken the view that an alliance with one or more strategic partners would be key to MG Rover's long-term future. Officials tracked the progress of negotiations with China Brilliance Automotive, TATA, Proton and the owners of the former Daewoo plant in Warsaw and Ministers made representations at the company's request to assist in certain of these negotiations.

During 2004 it became clear that the proposed alliance with SAIC was critical to MG Rover's future. Ministers and officials did everything possible to secure the deal when it became clear that matters were coming to a head earlier this year. Senior officials flew to Shanghai for discussions with SAIC and the Government stood ready to provide a bridging loan of over £100 million. It was a devastating blow to all those involved, but particularly the workers and their families, that those efforts proved unsuccessful—with the company's entry into administration being the inevitable consequence.

### Miners (Compensation Claims)

**John Mann:** To ask the Secretary of State for Trade and Industry how many health-related claims for compensation from surface workers in the coal industry have been refused. [7623]

**Malcolm Wicks:** The Department's expert medical advice is that respirable dust levels on the surface of coal mines were insufficient to cause Chronic Obstructive Pulmonary Disease (COPD) in the great majority of cases. The Department believes that around 7,500 surface only claims may have been registered under the Claims Handling Agreement for respiratory disease. However, they are not eligible for compensation.

The miners' solicitors had been intending to contest this in new group litigation but advised the court in December 2004 that they were not now going ahead with this. Individual claims may be brought against the Department under common law.

**John Mann:** To ask the Secretary of State for Trade and Industry how many claims relating to chronic obstructive pulmonary disease in coal miners have been refused where the claimant worked more than five years underground. [7627]

**Malcolm Wicks** *[holding answer 27 June 2005]:* The figure requested is not available. However, no claim would be denied solely on the basis of the length of underground employment.

### Non-agricultural Market Access

**Mr. Laurence Robertson:** To ask the Secretary of State for Trade and Industry what the Government's stance at the World Trade Organisation is on non-agricultural market access negotiations, with particular reference to protecting the environment. [8099]

**Ian Pearson:** Negotiations in Geneva on NAMA are undertaken by the European Commission on behalf of the European Union. The UK objective in the NAMA negotiations within the Doha Development Agenda trade round is for significantly improved real access to markets (except those of least developed developing countries and other weak and vulnerable countries) for all WTO members, especially developing country access to developed markets, and to give a stimulus to trade between developing countries. This to be achieved through the reduction or elimination of tariff and non-tariff barriers. Our commitment to sustainable development underpins our rating stance. Consistent with the Doha trade negotiations mandate the UK also fully supports the reduction or elimination of tariff and non-tariff barriers to trade in environmental goods. The UK does not support any steps in the NAMA negotiations that would deny us, or others, the ability to enforce or implement necessary and proportionate environmental protection measures.

### North West (Economy)

**Mr. Wallace:** To ask the Secretary of State for Trade and Industry what steps the Government are taking to

strengthen the regional economy of the north west following the redundancies announced by Lappett Manufacturing Company Ltd.; and what assistance the Government will provide to those who have lost their jobs. [7723]

**Alun Michael:** The job losses announced by Lappett Manufacturing Company are regrettable but I understand this is a commercial decision in the light of strong international competition. Support for those losing their jobs is available from Jobcentre Plus who can assist them in seeking other opportunities (including on retraining) as well as providing benefit advice.

Much is happening to help strengthen the north west economy. In particular the North West Development Agency has supported a range of initiatives and is working with partners across the region to deliver the regional economic strategy. It is also now working with the other northern regions to take forward the northern way growth strategy. These initiatives are contributing to improving business competitiveness and productivity, strengthening the regions skills base and providing the right environment to retain and attract investment.

Initiatives include a cluster development programme to develop strong clusters around growth sectors, a major manufacturing sector project, 'Agenda for Change', providing intensive business support, a realignment of business support services and workforce development to achieve greater business productivity, provision of technology support facilities, including the Lancashire Technology Management, and supply chain programmes.

Despite the recent losses, unemployment in the north west is now 2.4 per cent. compared to 6.6 per cent. in 1995, and I am encouraged by the progress that is being made. I applaud the energy and commitment in the region to ensure the significant resources available are used to the maximum effect.

### Oil and Gas Imports

**Huw Irranca-Davies:** To ask the Secretary of State for Trade and Industry what assessment he has made of the potential consequences for the UK's energy security of continued reliance on imported oil and natural gas. [6621]

**Malcolm Wicks:** My right hon. Friend the Secretary of State will make a report on security of supply to Parliament in July. This will include an assessment of the consequences of the UK becoming increasingly dependent on imported sources of fuel.

Import dependency is not necessarily a threat to energy security. Oil and—currently to a lesser extent—gas are internationally traded commodities. All countries, whether import-dependent or not, have a common interest in promoting open markets and predictable prices. Most other advanced industrial economies already import significant proportions of their energy needs without noticeable disruption.

### Pensioners

**Mr. Laws:** To ask the Secretary of State for Trade and Industry what estimate he has made of the number of people over state pension age who were *(a)* working in low paid jobs, *(b)* receiving the minimum wage and *(c)* receiving below the minimum wage in (i) the UK and (ii) each region in each of the last eight years. [7682]

**Mr. Sutcliffe:** Data for the UK from the Annual Survey of Hours and Earnings indicates that in 2003 around 170,000 (29 per cent.) of employees who were over the state pension age earned below 60 per cent. of median earnings (£5.24). In 2004, the figure was largely unchanged with around 180,000 (29 per cent.) of employees earning below 60 per cent. of median earnings (£5.42).

Due to the sample size it is not possible to provide an accurate estimate of the number of employees who are over state retirement age who actually earn the minimum wage exactly.

The DTI estimates that in the UK around 60,000 employees over state pension age stood to benefit from the October 2003 uprating of the national minimum wage to £4.50. This is equivalent to 9.5 per cent. of all employees over state pension age.

Around 80,000 employees over the state pension age stood to benefit from the October 2004 uprating of the national minimum wage to £4.85. This is equivalent to 12.7 per cent. of all employees over state pension age

It is not possible to give estimates for the regions due to small sample sizes.

These estimates assume full compliance.

### Post Office Services (Amington)

**Mr. Jenkins:** To ask the Secretary of State for Trade and Industry when Post Office Ltd. will write to the hon. Member for Tamworth regarding provision of post office services in Amington, as promised in the written answer of 7 April 2005, *Official Report*, column 1633W. [8791]

**Barry Gardiner:** Post Office Ltd. makes every effort to issue replies to hon. Members within five working days of receiving our request for information. It would appear that due to an administrative error my hon. Friend's question was not passed on to Mr. Mills' office at Post Office Ltd. for a direct reply. This has now been done and a response will be sent direct to my hon. Friend within the next few days.

### Press Officers

**Mr. Burstow:** To ask the Secretary of State for Trade and Industry how many press officers the Department employed in each year since 1997; and what the cost was in each year. [8131]

**Alan Johnson:** The number of press officers employed by the Department of Trade and Industry for the years requested are as follows.

| | Number |
|---|---|
| 1997 | 20 |
| 1998 | 17 |
| 1999 | 24 |
| 2000 | 25 |
| 2001 | 23 |
| 2002 | 23 |
| 2003 | 23 |
| 2004 | 19 |
| 2005 | 18 |

Information on the costs is not held in the form requested and could be recovered only at disproportionate cost.

### Public Telephone Boxes

**Mr. Burstow:** To ask the Secretary of State for Trade and Industry what arrangements are made for public consultation in respect of decisions to remove public telephone boxes. [8039]

**Alun Michael:** The matter raised is the responsibility of the Office of Communications (Ofcom) as independent regulator. Accordingly, DTI officials have asked the Chief Executive of Ofcom to respond directly to the hon. Member. Copies of the Chief Executive's letter will be placed in the Libraries of the House and I shall also see a copy of the letter.

### Renewable Energy (Coventry)

**Mr. Jim Cunningham:** To ask the Secretary of State for Trade and Industry what measures are being taken to encourage the use of renewable energy in Coventry, South. [6944]

**Malcolm Wicks:** The Government's primary support mechanism for Renewables Energy in the UK is the Renewables Obligation (RO). The RO requires electricity suppliers to obtain an annually increasing percentage of their electricity from renewable source. This is supported by over £500 million in spending on developing emerging renewables and low carbon technologies up to 2008.

Though not directly relating to Coventry, South there are a number of initiatives to encourage renewables in the region.

The Government Office for the West Midlands (GOWM), together with its partners The West Midlands Regional Assembly and Advantage West Midlands, has recently published a booklet in March 2005 entitled a 'Common Sense Guide To Renewable Energy'. This is intended for non-experts to help them understand the concept better and encourage them to get involved in renewable energy projects.

The regions latest 'Regional Sustainable Development Framework' published in January 2005 by Sustainability West Midlands also promotes the increased use of energy generated from renewable sources.

### Royal Mail

**Andrew Rosindell:** To ask the Secretary of State for Trade and Industry what recent discussions he has had with the Royal Mail about delivery of mail in Essex. [8527]

**Barry Gardiner:** DTI Ministers and officials meet with representatives from Royal Mail on a regular basis to discuss a wide range of issues, including delivery performance issues.

We are pleased to see that Royal Mail's quality of service has improved overall over the past year. We have received assurances from Allan Leighton and Adam Crozier that the board will continue to give quality of service top priority.

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry what plans he has to share the ownership of Royal Mail beyond Government. [9122]

**Barry Gardiner:** The Government have given Royal Mail greater commercial freedom and have no plans to privatise it.

### Taxis

**David T.C. Davies:** To ask the Secretary of State for Trade and Industry how much the Department has spent on taxis in each of the last five years. [6503]

**Alan Johnson:** The Department's expenditure on taxis in each of the last two years amounted to £320,763 in 2003–04 and £344,620 in 2004–05.

Prior to 2003–04 taxi expenditure was collated as part of the overall costs of travel and subsistence, rather than being separately identified.

### TUPE

**Mr. Oaten:** To ask the Secretary of State for Trade and Industry when he will publish new guidelines for TUPE arrangements covering the movement of public sector workers into the private sector. [9435]

**Mr. Sutcliffe:** The Government are currently revising the TUPE regulations and expects to lay them before Parliament in the autumn to come into effect on 6 April 2006. Guidance on the application of these new regulations will be issued later in the year.

Transfers of staff from the public sector to the private sector are covered by a Statement of Practice issued by the Cabinet Office in 2000 entitled "Staff Transfers in the Public Sector", which will be revised, as required, in the light of the revised TUPE regulations. Staff in public sector transfers involving local government contracting are covered by the provisions of the Local Government Bill.

### Union of Democratic Mineworkers

**Mr. Clapham:** To ask the Secretary of State for Trade and Industry whether officials from his Department *(a)* advised and *(b)* assisted the Union of Democratic Mineworkers to set up Vendside. [9084]

**Malcolm Wicks:** The Department neither advised nor assisted the Union of Democratic Mineworkers to set up Vendside.

**Mr. Clapham:** To ask the Secretary of State for Trade and Industry what monitoring his Department undertook of the activities of Vendside. [9085]

**Malcolm Wicks:** Vendside is the Union of Democratic Mineworkers' (UDM) claims handling company. The Department meets with the UDM to discuss operational issues relating to the claims handling process.

**Mr. Clapham:** To ask the Secretary of State for Trade and Industry when his Department became aware of the business relationship between Vendside and Walker and Co. Claims Services Ltd. [9086]

**Malcolm Wicks:** The Department became aware of the business relationship between Vendside and Walker and Co. Claims Services Ltd. in January 2005.

**Mr. Clapham:** To ask the Secretary of State for Trade and Industry when his Department became aware of the need to investigate the activity of Vendside and the Union of Democratic Mineworkers relating to coal health claims; and what action the Department took. [9087]

**Malcolm Wicks:** The Department became aware of the investigation into the activity of Vendside and the Union of Democratic Mineworkers in January 2005 and has been co-operating fully with the police investigation since this time.

**Mr. Clapham:** To ask the Secretary of State for Trade and Industry what action his Department plans to take to safeguard the claims of former miners and their widows whose claims were lodged with Vendside; and if he will make a statement. [9088]

**Malcolm Wicks:** I refer my hon. Friend to my written statement to the House of 30 June 2005, *Official Report*, columns 66–68WS.

**Adam Price:** To ask the Secretary of State for Trade and Industry if he will suspend his Department's handling agreement with the Union of Democratic Mineworkers pending the conclusion of the fraud squad inquiry into the affairs of the Union. [9094]

**Malcolm Wicks:** I refer the Member to my written statement to the House of 30 June 2005, *Official Report*, columns 66–68WS.

### Waste Electrical and Electronic Equipment Directive

**Mrs. Spelman:** To ask the Secretary of State for Trade and Industry what estimate the Government have made of the cost to local councils of the implementation of the waste electrical and electronic equipment directive. [7508]

**Malcolm Wicks:** Local authorities have no specific obligations under the forthcoming WEEE implementing regulations although their established role in relation to domestic waste collection means they will be involved in the practical implementation. The Department is encouraging local authorities to participate in the system it is establishing to implement the WEEE directive, which will build on the existing contact and awareness householders have with their local civic amenity sites.

## CONSTITUTIONAL AFFAIRS

### Electoral Registration

**Chris Ruane:** To ask the Minister of State, Department for Constitutional Affairs if she will *(a)* issue guidelines on how to increase voter registration and *(b)* produce a league table of the best- and worst-performing local authorities in respect of voter registration; and if she will make a statement. [8885]

**Ms Harman:** The Electoral Commission has previously issued guidance to electoral registration officers in the form of its 'Managing Electoral Services' documents. The Commission has informed the Government that these documents are due to be updated within the coming months.

The Government have agreed with the Electoral Commission's recommendation in its report 'Voting for Change', to introduce performance standards for electoral administrators. The Government will implement this recommendation when parliamentary time allows.

**Chris Ruane:** To ask the Minister of State, Department for Constitutional Affairs if she will assess the implications of the experience of the introduction of single registration in Northern Ireland for voter registration in the rest of the UK, with particular reference to those council wards that are experiencing under-registration; and if she will make a statement. [8886]

**Ms Harman:** We are currently considering how the electoral registration system in Great Britain might be improved both to improve security and increase access. We intend to bring forward legislation on this issue when parliamentary time allows.

We are drawing on the Northern Ireland experience as set out in the Electoral Commission's report "The Electoral Fraud (Northern Ireland) Act 2002: An assessment of its first year in operation", the Commission's subsequent update reports, the Northern Ireland Affairs Select Committee report "Electoral Registration in Northern Ireland", and the Office of the Deputy Prime Minister and Constitutional Affairs Select Committee report "Electoral Registration".

**Chris Ruane:** To ask the Minister of State, Department for Constitutional Affairs how much has been spent in real terms on voter registration per elector in each local authority area in each of the last 10 years. [8887]

**Ms Harman:** As electoral registration is dealt with and funded at local level, this information would be held by individual local authorities, and is not something that is held centrally by Government.

**Chris Ruane:** To ask the Minister of State, Department for Constitutional Affairs if she will assess the merits of using *(a)* council tax registration, *(b)* Census and *(c)* Labour Force Survey data to augment the electoral register; and if she will make a statement. [8888]

**Ms Harman:** Under the Representation of the People Regulations 2001, Electoral Registration Officers (ERO) have access to the records of the local authority that appointed them for the purpose of their registration

duties. Further, where an ERO receives an application to register under rolling registration provisions, and the applicant indicates that they are currently registered at an address outside the ERO's area but have ceased to reside there, the new ERO is required as soon as practicable to notify the former ERO that the applicant no longer resides in his area. We are currently considering whether the sources of data available to EROs should be broadened, taking into account any data protection implications, to help EROs carry out their duties.

**Chris Ruane:** To ask the Minister of State, Department for Constitutional Affairs (1) what assessment she has made of the impact voter under-registration has on the Department's aim of the greatest possible access to democracy; [8929]

(2) if she will commission research into the reasons for low levels of voter registration; [8931]

(3) what assessment she has made of the level of under-registration in UK constituencies; and if she will make a statement. [8932]

**Ms Harman:** The Government are concerned that persons that are entitled to register to vote, should be included on electoral registers.

My Department has been conducting research into the attitudes of the electorate, especially those who are currently the most disengaged. A report is being prepared. In terms of registration, the variable with greatest association with non-registration is age, with younger respondents being less likely to be registered.

The Electoral Commission is also undertaking research into registration rates and will report in due course.

**Chris Ruane:** To ask the Minister of State, Department for Constitutional Affairs if she will seek to amend data protection legislation to allow the exchange of information between local authority departments for the compilation of the electoral register; and if she will make a statement. [8930]

**Ms Harman:** Under the Representation of the People Regulations 2001, Electoral Registration Officers (ERO) have access to the records of the local authority that appointed them for the purpose of their registration duties. Further, where an ERO receives an application to register under rolling registration provisions, and the applicant indicates that they are currently registered at an address outside the ERO's area but have ceased to reside there, the new ERO is required as soon as practicable to notify the former ERO that the applicant no longer resides in his area. We are currently considering whether the sources of data available to EROs should be broadened, taking into account any data protection implications, to help EROs carry out their duties.

**Chris Ruane:** To ask the Minister of State, Department for Constitutional Affairs pursuant to the answer of 13 June 2005 to the hon. Member for Sittingbourne and Sheppey (Derek Wyatt), *Official Report*, column 181W, on the electoral register, how many prosecutions for failure to complete and return an annual registration form there were in each of the last 10 years in each local authority area; and if she will make a statement. [8933]

**Ms Harman:** This information is not collected centrally. However, I understand that there have only been a few prosecutions for failure to complete and return an annual registration form over the last 10 years. I am aware of the following instances; Medway council have prosecuted individuals in 2003 and 2004 and East Cambridgeshire district council prosecuted a person in 2004 for putting false information on the annual registration form. In 2003, ODPM conducted a survey on turnout at local elections and reported that nine authorities replied that they had prosecuted non-responders to the annual canvass form.

**Chris Ruane:** To ask the Minister of State, Department for Constitutional Affairs whether voter under-registration will be taken into account by the boundary commission when reviewing boundaries in England. [8951]

**Ms Harman:** In accordance with the Parliamentary Constituencies Act 1986, the boundary commission for England will base its recommendations on the number of electors on the register in force on the date that the commission announced its review in February 2000. The boundary commission has previously indicated that its review will take account of the new wards resulting from the Periodic Electoral Reviews being conducted by the Local Government Commission for England.

## Legal Aid

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs if she will make an assessment of the impact of the level of legal aid on high street solicitors' firms. [8368]

**Bridget Prentice:** In the civil bid round held in April 2004 for the award of new solicitor General Civil Contracts with the Legal Services Commission (LSC) over 90 per cent. of solicitor firms applied to renew their contracts. As at 31 March 2005, 2,643 solicitors' offices operated under a Criminal Defence Service contract compared with 2,669 as at 31 March 2004.

Reasons cited by those solicitors' firms that are withdrawing from legal aid work have included remuneration and profitability. However, the Department's Review of Supply, Demand and Purchasing Arrangements concluded that the legal aid market—for both civil and criminal work—could absorb a small increase in demand for services without the need for an increase in remuneration. Independent research contained in the "Financial Benchmarking Survey 2004" produced by the Law Management Section of The Law Society suggests that there may be a positive correlation between the profitability of a firm and it's handling of a moderate amount of legal aid work. This indicates that the discipline of undertaking legal aid work could result in operational efficiencies, which extend across the firm.

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs how barristers will be remunerated for preparatory work on criminal cases eligible for legal aid which do not proceed to trial. [8707]

**Bridget Prentice:** For criminal cases which do not proceed to trial, advocates are currently remunerated either within the Graduated Fee scheme, or by means of an ex post facto assessment of preparation work. The choice of means depends on the amount of prosecution evidence, the number of witnesses and the estimated length of trial.

The Department has consulted with the legal professions to include all those cases that do not proceed to trial within the Graduated Fee scheme. The Lord Chancellor is considering the results of that consultation. The aim is to produce a scheme where payments reflect more accurately the amount of work undertaken at each stage until the trial.

### Postal Voting

**Mr. Marsden:** To ask the Minister of State, Department for Constitutional Affairs what assessment her Department has made of the effect on turnout of postal voting on demand. [8412]

**Ms Harman:** Returning Officers have a duty to complete a 'statement as to postal ballot papers for each election (form K, schedule 3 to the Representation of the People (England and Wales) Regulations 2001). This includes the total of postal ballot papers issued and received by the Returning Officer.

The Electoral Commission will collate and publish this information later this summer, as part of their general duty to report on UK Parliamentary elections. We cannot make an assessment of the exact percentage of the overall turnout that can be attributed to postal voting, until the Commission publishes its report.

**Lorely Burt:** To ask the Minister of State, Department for Constitutional Affairs how many cases resulting in conviction there have been of *(a)* denying another person's right to a secret vote when using a postal ballot and *(b)* forcing another to vote for a certain person or political party when using a postal ballot in each of the last five years. [8920]

**Ms Harman:** This information is not held centrally. The following table indicates the number of people found guilty of electoral fraud related offences from 1994 to 2002. Since 2002 a councillor in Blackburn pleaded guilty to conspiracy to defraud the returning officer. He was sentenced to 3 years and 7 months on 8 April 2005 and in Guildford, a councillor was jailed for four months in April 2004 for forging ballot papers in a local election.

*Persons[1] proceeded against at magistrates courts and found guilty at all courts of various fraud related offences under the Representation of the People Act 1983, England and Wales 1994 to 2002*

| | *Offence description: tampering with nomination and ballot papers etc. making false declarations as to election expenses, bribery, treating, undue influence and personation offences* | |
|---|---|---|

| 2002 | 1 | 1 |

[1] These data are on the principal offence basis.
[2] Excluding any cases in Staffordshire.

## WORK AND PENSIONS

### Benefits/Pensions (Payment Methods)

**Malcolm Bruce:** To ask the Secretary of State for Work and Pensions (1) how many customers have responded to the invitation to move to the direct payment of pensions and benefits stating that they could not open or operate a bank or Post Office card account; [3153]

(2) how many and what proportion of pension and benefit recipients have been identified as suitable for the cheque-based system of paying pensions and benefits. [3160]

**Mr. Plaskitt:** Information is not available in the format requested. We did not collect data on how many customers responded stating that they could not open or operate an account.

We contacted all customers who were not paid by direct payment asking them to provide details of which account they would like their money paid into. Customers who did not provide account details (for whatever reason, including not being able to open or operate an account) were moved to cheque payment.

We are now paying over 96 per cent. of customer accounts by direct payment.

The number and percentage of customers that were being paid by cheque at April 2005 is shown in the following chart:

| | *GB total* |
|---|---|
| Total customers (million) | 16.1 |
| Paid by cheque (million) | 0.712 |
| Paid by cheque (percentage) | 4 |

**Malcolm Bruce:** To ask the Secretary of State for Work and Pensions what plans his Department has to evaluate the success of the exceptions scheme for people who are unable to use Post Office card accounts or basic bank accounts to receive their pensions or benefits. [3156]

**Mr. Plaskitt:** As at April 2005 there were 712,000 customers who were being paid regularly by cheque.

We have monitored payment by cheques since they replaced girocheques in October 2004 and will continue to do so.

We believe that while cheques are a practical way of paying customers we also believe that, wherever possible, our customers should be encouraged to be paid direct into an account. That method of payment provides the safest, most reliable and best service.

**Malcolm Bruce:** To ask the Secretary of State for Work and Pensions how many people in *(a)* Gordon and *(b)* the North East of Scotland have been contacted about the move to the Direct Payment of benefits and pensions; and how many of those have (i) opted to receive their benefits or pension into a (A) bank account and (B) Post Office Card Account (ii) responded that direct payment is not a suitable method for the payment of benefits and (iii) not responded. [3169]

**Mr. Plaskitt:** The information is not available in the format requested. Information which is available at 16 April 2005 is shown in the table.

All DWP customers have now been contacted about the move to Direct Payment and in Scotland we are now paying over 95 per cent. of customer accounts this way. Independent research has shown that there are very high levels of satisfaction among those customers who have transferred to Direct Payment.

Customers who did not respond to the initial invitation were contacted again and those who still did not provide account details were moved to cheque payment following confirmation of their on-going entitlement.

*Benefit and pension accounts in Scotland by method of payment and parliamentary constituency as at April 2005*

| Western Isles | 10,885 | 6,525 | 3,440 | 910 | 10 |

*Notes:*
1. Figures are rounded to the nearest 5 and may not sum due to rounding.
2. Figures are taken from the latest available data at 16 April 2005.
3. Figures refer to payment accounts. Claimants with more than one account will be counted for each account and customers with combined payments will only be counted through the paying benefit (i.e. RP with PC). Figures relate only to accounts live and in payment on the specified date.
4. Child benefit is now administered by the Inland Revenue and War Pensions are now administered by MOD. These benefits have therefore been excluded.
5. Parliamentary constituencies are allocated using the relevant ONS postcode directory.

### Disability Living Allowance

**Mr. MacNeil:** To ask the Secretary of State for Work and Pensions pursuant to the answer of 27 June 2005, *Official Report*, column 1247W, on disability living allowance, what assessment he has made of the reasons the percentage of rejected claims has increased since 2002; and if he will make a statement. [9531]

**Mrs. McGuire:** The administration of disability living allowance is a matter for the chief executive of the Disability and Carers Service, Mr. Terry Moran. He will write to the hon. Member with the information requested.

*Letter from Terry Moran to Mr. Angus MacNeil, dated 4 July 2005:*

You asked the Secretary of State for Work and Pensions, pursuant to the Answer of 27th June, Official Report, column 1247W, on disability living allowance, for what reason the percentage of rejected claims has increased since 2002. The Minister for Disabled People, Anne McGuire MP, promised you a substantive reply from the Chief Executive of the Disability and Carers Service.

The percentage rejections on disability living allowance claims has increased since 2002 because the conditions of entitlement to benefit have been found not to be satisfied in a greater proportion of claims.

No action has been taken by Disability and Carers Service with the intention of reducing the award rate. Our intention remains to pay the right money to the right person at the right time.

I hope this is helpful.

### Housing Benefit

**Mr. Paul Goodman:** To ask the Secretary of State for Work and Pensions (1) what criteria were used to set the broad rental market areas in the housing benefit pathfinders; how often they will be reviewed; and how they will be monitored; [5477]

(2) what assessment he has made of how up-to-date the information used by rent officers to set *(a)* standard housing allowances in the pathfinders and *(b)* the local reference rents or single room rents elsewhere is. [5485]

**Mr. Plaskitt:** The administration of The Rent Service is a matter for the chief executive, Charlotte Copeland. She will write to the hon. Member with the information requested.

*Letter from Charlotte Copeland to Mr. Paul Goodman, dated 4 July 2005:*

In reply to your recent Parliamentary Questions about The Rent Service, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, about the criteria used to set the broad rental market areas in the housing benefit pathfinders, how often they will be reviewed, how they will be monitored, and how up-to-date information used by rent officers is when setting rents for Housing Benefit purposes.

The criteria used by rent officers to set the broad rental market areas are covered in the Rent Officers (Housing Benefit Functions)

(Local Housing Allowance) Amendment Order 2003 [Statutory Instrument 2003 No. 2398]. This defines the broad rental market area as:

" . . . an area—

(a) comprising two or more distinct areas of residential accommodation, each distinct area of residential accommodation adjoining at least one other in the area;

(b) within which a person could reasonably be expected to live having regard to facilities and services for the purposes of health, education, recreation, personal banking and shopping, taking account of the distance of travel, by public and private transport, to and from facilities and services of the same type and similar standard; and

(c) containing residential premises of a variety of types, and including such premises held on a variety of tenancies."

The broad rental market areas are reviewed on a monthly basis, with a more in depth review carried out each quarter.

The broad rental market areas are monitored through the monthly and quarterly review process and The Rent Service's own internal quality assurance processes.

Rent officers continually research the private rented sector for market evidence of lettings of property and accommodation where the rent is being paid without the aid of housing benefit. The Rent Service's market evidence database is therefore continually being updated with the latest information available.

Rent officers use the most up to date market evidence available when setting Local Housing Allowances, Local Reference Rents and Single Room Rents. The Rent Service's guidelines are that market evidence used should be, in the main, no more than 3 months old, but with a maximum of six months if this is necessary in some cases.

If there is anything further you require, please do not hesitate to contact me direct.

### Income Support

**James Brokenshire:** To ask the Secretary of State for Work and Pensions what the average response time is for processing new applications for income support; and what the figure is for applications received by the Department's Ilford office. [7378]

**Margaret Hodge:** The administration of Jobcentre Plus is a matter for the Acting Chief Executive, Lesley Strathie. She will write to the hon. Member.

*Letter from Lesley Strathie to Mr. James Brokenshire, dated 4 July 2005:*

The Secretary of State has asked me to reply to your question asking what the average time is for processing new applications for Income Support; and what the figure is for applications received by the Department's Ilford office. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

The national average clearance time for new applications to Income Support to year ending May 2005 is 10.5 days. The target for the clearance of Income Support claims is 12 days.

As at 31 May 2005 Ilford Benefit Processing Centre (BPC) had 800 new claims waiting to be processed, taking an average of 21.5 working days to process.

As at 20 June 2005 there were 276 new claims outstanding, taking an average of 13 working days to process.

As part of the Department for Work and Pensions modernisation programme, backroom benefits work for North East London District customers has been centralised at Ilford BPC. As the work from various locations was transferred to the centre there was an increase in the number of telephone enquiries from customers, which caused a backlog of work. Interim measures were put in place to alleviate the immediate problems; these included the opening of additional telephone lines and the deployment of staff from outside the BPC to speed up the processing of claims. The situation at the BPC was monitored daily by local management to ensure any telephone delays were minimised.

The increase in the number of telephone lines coming into the office helped to improve the situation and it will continue to improve as more staff become available in the BPC over the coming weeks and as more work is done to further increase the telephone capacity.

As the figures show there has been a significant improvement over the past month in processing new applications reflecting the hard work of local management and staff.

Local management will continue to monitor the situation.

I hope this is helpful.

### Maternity Grant

**John Hemming:** To ask the Secretary of State for Work and Pensions how many Sure Start maternity grants have been paid to mothers in each age cohort from 12 to 19 in each year since 2000–01; and how many mothers received such a grant in respect of a second or subsequent child in each case. [7502]

**Mr. Plaskitt:** The information is not available.

### Post Office Card Accounts

**Lynne Featherstone:** To ask the Secretary of State for Work and Pensions how many Post Office card accounts have been opened; and if he will make a statement. [6358]

**Mr. Plaskitt:** As at 15 May 2005, 4,720,824 Post Office card accounts were open for the receipt of benefits, pensions and tax credits.

### Poverty (London)

**Sarah Teather:** To ask the Secretary of State for Work and Pensions how many people are estimated to be living below the poverty line in each London borough. [7467]

**Margaret Hodge:** Poverty is about more than low income. It is also about health, housing and the quality of the environment. The sixth annual 'Opportunity for all' report (Cm 6239), published in September 2004, sets out the Government's strategy for tackling poverty and social exclusion and presents information on the indicators used to measure progress against this strategy.

Specific information regarding low income for Great Britain is available in "Households Below Average Income 1994/95–2003/04". The threshold of below 60 per cent. contemporary median income is the most commonly used in reporting trends in low income. Data is not available below regional level, therefore we are not able to provide figures for London boroughs.

Copies of both documents are available in the Library.

## TREASURY

### Census

**Chris Ruane:** To ask the Chancellor of the Exchequer how many people aged over 18 years there were in each parliamentary constituency in England and Wales according to the 2001 census, broken down by ward. [7764]

**John Healey** *[holding answer 28 June 2005]:* The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Chris Ruane, dated 30 June 2005:*

As National Statistician and Registrar General for England and Wales, I am replying to your recent parliamentary question asking how many people aged over 18 years there were in each parliamentary constituency in England and Wales according to the 2001 census, broken down by ward. (7764)

We have interpreted the phrase "over 18" to mean aged 18 and over. Specially commissioned table COS 19 has been run to identify the number of people aged 18 and over living in each ward within each parliamentary constituency in England and Wales on census day (29 April 2001). The table has been placed in the House of Commons Library [and can also be accessed on the National Statistics website at http://www.statistics.gov.uk/census2001/op15.asp].

| *Parliamentary constituency* | *Ward* | *Persons aged 19 and over* |
|---|---|---|
| 025 Berwick-upon-Tweed | 35UBFT Alnmouth and Lesbury | 1,413 |
| 025 Berwick-upon-Tweed | 35UBFU Alnwick Castle | 2,708 |

| 042 Bishop Auckland | 20UHGG Greta | 1,043 |

**Mr. Hancock:** To ask the Chancellor of the Exchequer what the legal basis was for the disclosure of personal information, by the Registrar General, from closed decennial censuses for England and Wales, during the period 1972 to 2001, in return for a search fee. [9508]

**John Healey:** The information requested falls with the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Mike Hancock, dated 4 July 2005:*

As National Statistician and Registrar General for England and Wales, I have been asked to reply to your recent question asking what the legal basis was for the disclosure of personal information by the Registrar General, from closed decennial census for England and Wales between 1997 and 2001. (9508)

On 21 November 1972 the then Secretary of State Keith Joseph who had responsibility for the Office of Population Censuses and Surveys (now the Office for National Statistics) announced in Parliament a concession which allowed, subject in each instance to the consent of the person concerned or that of one of his direct descendants the release of limited information on age and place of birth only. This concession applied to censuses prior to and including that of 1901.

On 12 April 1989 the then Parliamentary Under-Secretary of State Roger Freeman announced in Parliament an extension to the concession to allow the release in respect of persons who died childless, provided the consent of the next of kin was given. In addition, age and place of birth information would be available to public trustee administrators seeking to trace possible beneficiaries to the estate of a deceased person.

On 21 April 1993 the then Parliamentary Under-Secretary of State Tom Sackville announced in Parliament that the Registrar General would be willing to consider particular applications for information to be extracted from the 1901 Census and the 1911 Censuses if it would enable the applicant to establish a legal entitlement such as an inheritance. Such authority would be given only where the information was not available from any other source and was clearly requisite for establishing the entitlement in question.

Mr Sackville went on to say that the Registrar General would wish to be satisfied from documentary evidence as to the identity of the applicant. Where the desired information from the census form related to a living person other than the applicant, that person's consent would be required before the information would be released.

The census records to which the concessions applied were held by the Public Record Office (now National Archives) and under the legislation existing at the time—the Public Records Act Section 5(4) it was not unlawful for the Keeper of the Public Records to permit a person to inspect any records if he had obtained special authority in that behalf from the Registrar General. The Registrar General gave authority for searches to be made in respect of those applications which satisfied the conditions of the concessions.

## Accountancy Secondments

**Mr. Austin Mitchell:** To ask the Chancellor of the Exchequer how many individuals from *(a)* KPMG, *(b)* PricewaterhouseCoopers, *(c)* Deloitte, *(d)* Ernst and Young, *(e)* Grant Thornton and *(f)* BDO Stoy Hayward are seconded to his Department; what their roles are; and what the cost to his Department is of each such secondment. [8232]

**John Healey:** The following table provides information requested:

| | *Number of secondees* | *Roles* | *Total monthly charge including VAT (£)* |
|---|---|---|---|
| KPMG | 3 | Senior advisor financial management<br>Business tax specialist<br>PFI commercial advisor | 24,840 |
| PWC | 2 | Senior advisor corporate and private finance projects<br>Environment tax specialist | 15,422 |
| Deloitte | 2 | VAT policy advisor<br>Corporate finance advisor | 4,895 |
| Ernst & Young | 0 | — | 0 |
| BDO Stoy Hayward | 0 | — | 0 |
| Grant Thornton | 0 | — | 0 |

## Alcohol/Drug Related Deaths

**Lynne Featherstone:** To ask the Chancellor of the Exchequer in respect of how many deaths, in each Government Office region, alcohol was the primary cause in each of the last five years. [7966]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Len Cook to Lynne Featherstone, dated 30 June 2005:*

As National Statistician, I have been asked to reply to your recent question asking in respect of how many deaths, in each Government Office Region, alcohol was the primary cause in each of the last five years. (7966)

The latest year for which figures are available is 2004. The table shows the numbers of deaths among residents of Government Office Regions where the underlying cause of death indicated a condition directly related to alcohol use in the years 2000 to 2004.

*Alcohol-related deaths[1] to usual residents of Government Office Regions, registered 2000 to 2004*

| | *Year of registration* | | | | |
|---|---|---|---|---|---|
| *Area of usual residence* | *2000* | *2001* | *2002* | *2003* | *2004* |
| *Government Office Region in England* | | | | | |
| North East | 335 | 346 | 346 | 389 | 430 |
| North West | 950 | 1,053 | 1,065 | 1,115 | 1,179 |
| Yorkshire and the Humber | 428 | 500 | 487 | 580 | 627 |
| East Midlands | 427 | 420 | 446 | 497 | 497 |
| West Midlands | 604 | 664 | 710 | 752 | 750 |
| East of England | 438 | 454 | 473 | 489 | 491 |
| London | 806 | 809 | 838 | 834 | 772 |
| South East | 725 | 843 | 831 | 882 | 842 |

*Alcohol-related deaths[1] to usual residents of Government Office Regions, registered 2000 to 2004*

| Area of usual residence | Year of registration 2000 | 2001 | 2002 | 2003 | 2004 |
|---|---|---|---|---|---|
| South West | 467 | 500 | 502 | 527 | 537 |
| Wales | 345 | 396 | 372 | 416 | 419 |
| England and Wales | 5,525 | 5,985 | 6,070 | 6,481 | 6,544 |

[1] For the year 2000 the cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9). The codes used by ONS to define alcohol-related deaths are listed below:
291—Alcoholic psychoses
303—Alcohol dependence syndrome
305.0—Non-dependent abuse of alcohol
425.5—Alcoholic cardiomyopathy
571—Chronic liver disease and cirrhosis
E860—Accidental poisoning by alcohol.
For the years 2001–2004 the International Classification of Diseases, Tenth Revision (ICD-10) was used. To maintain comparability with earlier years the following codes were used:
F10—Mental and behavioural disorders due to use of alcohol
142.6—Alcoholic cardiomyopathy
K70—Alcoholic liver disease
K73—Chronic hepatitis, not elsewhere classified
K74—Fibrosis and cirrhosis of liver
X45—Accidental poisoning by and exposure to alcohol.
Deaths were selected using the original underlying cause.
The selection of codes to define alcohol-related deaths is described in:
Baker A and Rooney C (2003). Recent trends in alcohol-related mortality, and the impact of ICD-10 on the monitoring of these deaths in England and Wales. Health Statistics Quarterly 17, pp 5–14.

**Mr. Drew:** To ask the Chancellor of the Exchequer how many deaths in which the primary cause was *(a)* alcohol and *(b)* illegal drugs there were in (i) Stroud and (ii) Gloucestershire in each of the last five years. [8001]

**John Healey:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. David Drew, dated 30 June 2005:*

As National Statistician, I have been asked to reply to your recent question asking how many deaths in which the primary cause was *(a)* alcohol and *(b)* illegal drugs there were in (i) Stroud and (ii) Gloucestershire in each of the last five years. (8001)

The most recently available information is for deaths registered in 2004 and deaths occurring in 2003. Relevant figures are only readily available for deaths where the underlying cause was either related to drug poisoning or directly related to alcohol (alcohol abuse, dependence and poisoning, and diseases directly related to alcohol use). It is not possible to identify from death certificates which substance was the primary cause when more than one was involved.

Figures for alcohol-related deaths to usual residents of Stroud and Gloucestershire registered in the years 2000 to 2004 are given in the table below. ONS compiles a special database to analyse mortality from drug-related poisoning adding more detail than is available on routine annual extracts. This database is compiled using the annual occurrences extract of mortality data. Figures showing deaths related to drug poisoning involving controlled drugs occurring in the years 1999 to 2003, to usual residents of Stroud and Gloucestershire, are given in the table below. Information on deaths involving illegal drugs is not available, as how the deceased obtained a particular drug is not recorded at death registration.

It should be noted that the figures on drug-related poisoning are not directly comparable to the figures on alcohol for the following reasons:

The figures on drugs do not include long-term effects of drug taking, whereas the figures on alcohol include cirrhosis of the liver.

Deaths from poisoning which involved both drugs and alcohol are coded as due to drug poisoning, in accordance with international rules for coding cause of death.

The figures on alcohol include only those where the underlying cause was alcohol-related. The figures on specific drugs include any mention of a substance on a death related to drug poisoning.

*Number of alcohol-related deaths[1] and deaths from drug-related poisoning[2] involving controlled drugs[3], Stroud and Gloucestershire[4], 1999 to 2004[5]*

| | 1999 | 2000 | 2001 | 2002 | 2003 | 2004 |
|---|---|---|---|---|---|---|
| *(a) Alcohol-related deaths* | | | | | | |
| (i) Stroud | — | 8 | 8 | 10 | 6 | 8 |
| (ii) Gloucestershire | — | 51 | 57 | 62 | 44 | 58 |
| *(b) Deaths from drug-related poisoning involving controlled drugs* | | | | | | |
| (i) Stroud | [6]— | [6]— | [6]— | [6]— | 5 | — |
| (ii) Gloucestershire | 8 | 19 | 10 | 10 | 16 | — |

*Notes:*
[1] For the year 2000 the cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9). The codes selected to define alcohol-related deaths are listed below:
291—Alcoholic psychoses
303—Alcohol dependence syndrome
305.0—Non-dependent abuse of alcohol
425.5—Alcoholic cardiomyopathy
571—Chronic liver disease and cirrhosis
E860—Accidental poisoning by alcohol.
For the years 2001–2004 the International Classification of Diseases, Tenth Revision (ICD-10) was used. To maintain comparability with earlier years the following codes were selected:

The selection of codes to define alcohol-related deaths is described in: Baker A and Rooney C (2003). Recent trends in alcohol-related mortality, and the impact of ICD-10 on the monitoring of these deaths in England and Wales. Health Statistics Quarterly 17, pp 5–14.
[2] Cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes 292, 304, 305.2–305.9, E850-E858, E950.0-E950.5, E962.0 and E980.0-E980.5 for 1999 to 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) codes F11-F16, F18-F19, X40-X44, X60-X64, X85 and Y10-Y14 from 2001 onwards.
[3] Drugs mentioned on the death certificate of a death where the underlying cause was drug poisoning.
[4] Deaths of usual residents of:
(i) Stroud local authority
(ii) County of Gloucestershire.
[5] Data are for deaths registered in each calendar year for alcohol-related deaths and for deaths occurring in each calendar year for deaths related to drug poisoning.
[6] Fewer than 5 deaths.

## Antisocial Behaviour Statistics

**Mr. Hoban:** To ask the Chancellor of the Exchequer what data the Office for National Statistics *(a)* collects and *(b)* publishes on the antisocial behaviour of (i) children and (ii) adults at a (A) ward and (B) neighbourhood level. [8371]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Colin Mowl to Mr. Mark Hoban, dated 30 June 2005:*

The National Statistician has been asked to reply to your recent Parliamentary Question concerning what data the Office for National Statistics collect and publish on the anti-social behaviour of *(a)* children and *(b)* adults at a (i) ward and (ii) neighbourhood level. I am replying in his absence. (8371)

Data on the number of anti-social behaviour orders are collated each quarter by the Home Office and are published on the crime reduction website for Criminal Justice System areas (www.crimereduction.gov.uk/asbos2.htm).

Unpublished data on the number of anti-social behaviour orders issued by local authority area, according to the restrictions imposed on individuals, are held by the Home Office. Statistics on the number of anti-social behaviour order incidents are not collected centrally.

### Aviation Fuel Taxation

**Lynne Jones:** To ask the Chancellor of the Exchequer if he will seek international agreement to a tax on aviation fuel, with the revenue hypothecated to the alleviation of global poverty. [9638]

**Mr. Ivan Lewis:** I refer the hon. Member to what the Chancellor of the Exchequer said in the House on 30 June 2005, *Official Report*, columns 1428–29.

### Breach of Confidence

**Lorely Burt:** To ask the Chancellor of the Exchequer how many persons sued the Registrar General in the English courts for breach of confidence for releasing personal information from the closed 1901 decennial census for England and Wales between 1997 and 2001. [9030]

**John Healey:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Lorely Burt, dated 4 July 2005:*

As National Statistician and Registrar General for England and Wales, I have been asked to reply to your recent question asking how many persons sued the Registrar General in the English courts for breach of confidence for releasing personal information from the closed 1901 decennial census for England and Wales between 1997 and 2001. (9030)

There have been no instances of court action against me as Registrar General for breach of confidence for releasing personal information from the 1901 decennial census for England and Wales between 1997 and 2001.

### Carers

**Mr. Burstow:** To ask the Chancellor of the Exchequer how many carers were recorded by the 2001 Census, broken down by *(a)* under 18 years, *(b)* 18 to 64 years, *(c)* 65 to 74 years, *(d)* 75 years and over and *(e)* age not known in each London borough. [8429]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Len Cook to Mr. Paul Burstow, dated 30 June 2005:*

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning the number of carers recorded by the 2001 Census, broken down by *(a)* under 18 years, *(b)* 18 to 64 years, *(c)* 65 to 74 years, *(d)* 75 years and over and *(e)* age not known in each London borough. (8429)

Specially commissioned table C0520 has been run to identify the number of people aged under 18 years and *(b)* 18 to 64 years, *(c)* 65 to 74 years, *(d)* 75 years and over who are providing unpaid care in each London Borough. This has been placed in the House of Commons Library and can also be accessed on the National Statistics website at: http://www.statistics.gov.uk/census2001/op15.asp

There are no statistics on 'age not known'. Where date of birth is missing on the Census form age is imputed based on other characteristics of the individual and relationships within the household.

### Child Benefit

**Mr. Hancock:** To ask the Chancellor of the Exchequer what rules apply to claimants for child benefit for a child born in the UK who had entered the UK under the family reunion scheme on the agreement that they would impose no claims on the state. [8360]

**Dawn Primarolo:** I refer the hon. Gentleman to my reply of 21 June 2005, *Official Report*, column 927W. Under the Home Office's asylum family reunion scheme, in which the spouse and minor children are admitted to the UK to be reunited with a person granted refugee status, the spouse and children are also granted such status and indefinite leave to remain. In such cases, they are not subject to immigration control and either spouse is entitled to claim child benefit.

Where a person has limited leave to remain in the UK and is subsequently joined by a spouse on similar limited leave, then both persons are subject to immigration control and, in general, there is no entitlement to child benefit.

If a UK national is joined by a foreign spouse who has limited leave to remain in the UK, child benefit legislation allows either person to claim child benefit. In this case, the foreign spouse would be entitled to claim child benefit as a member of the family of a national of a member state of the European economic area (EEA).

If the hon. Gentleman wishes to write to me with details of any particular cases, I should be pleased to respond more fully.

**Mr. Hancock:** To ask the Chancellor of the Exchequer under what circumstances it is permissible for child benefit to be paid to a UK national father of a child who is a UK citizen whose mother is subject to immigration regulations that prevent her from drawing on public funds. [8362]

**Dawn Primarolo:** I refer the hon. Gentleman to my reply of 21 June 2005, *Official Report* column 927W. If a UK national is joined by a foreign spouse who has limited leave to remain in the UK and is thus subject to immigration control, child benefit legislation nevertheless allows either person to claim child benefit. In this case, the foreign spouse would be entitled to claim child benefit as a member of the family of a national of a member state of the European economic area (EEA).

If the hon. Gentleman wishes to write to me with details of any particular cases, I should be pleased to respond more fully.

### Child Tax Credit

**Mr. Laws:** To ask the Chancellor of the Exchequer, what plans he has to delay the proposed transfer from Jobcentre Plus to HM Revenue and Customs of administration of child tax credit; and if he will make a statement. [8841]

**Dawn Primarolo:** The administration of the child tax credit has been the responsibility of HM Revenue and Customs (and before that the Inland Revenue) since the credit was first introduced in April 2003.

### Child Trust Fund

**Mr. Dodds:** To ask the Chancellor of the Exchequer what the rate of take-up of the Child Trust Funds is in Northern Ireland. [8999]

**Mr. Ivan Lewis:** The information requested is only available at disproportionate cost. UK-wide information is available and I refer the hon. Member to the answer given to the hon. Member for Yeovil (Mr. Laws) on 6 June 2005, *Official Report*, columns 286–87W.

### Correspondence

**Sir Gerald Kaufman:** To ask the Chancellor of the Exchequer when he expects to reply to the letters to him dated 18 May from the right hon. Member for Manchester, Gorton with regard to the religious lobby on world poverty. [8776]

**Mr. Ivan Lewis:** I did so on 6 June.

### Departmental Reports

**Mr. Alan Williams:** To ask the Chancellor of the Exchequer if he will place in the Library the guidance provided by HM Treasury to departments on what they should disclose in their spring 2005 departmental reports. [9211]

**Mr. Des Browne:** A copy of the guidance issued for the spring 2005 departmental reports has been placed in the Library.

### Double Taxation Agreements

**Mr. Austin Mitchell:** To ask the Chancellor of the Exchequer with how many countries the UK has a double taxation agreement or treaty. [8426]

**Dawn Primarolo:** The UK has comprehensive double taxation agreements with 109 countries or territories.

### Drug Deaths (Lincolnshire)

**Mark Simmonds:** To ask the Chancellor of the Exchequer how many fatalities attributed to drug use in Lincolnshire there have been in each year since 1997. [9246]

**John Healey:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Mark Simmonds, dated 4 July 2005:*

As National Statistician, I have been asked to reply to your recent question asking how many fatalities attributed to drug use in Lincolnshire there have been in each year since 1997. (9246)

Figures are readily available from death certification on deaths due to drug poisoning, not the total number that were attributable to drug use. The most recent year for which figures are available is 2003. Numbers of deaths certified as due to drug poisoning for Lincolnshire in the seven years 1997 to 2003 are given in the table below.

Figures are not readily available where death was indirectly related to the use of drugs as the direct cause is generally selected as the underlying cause of death (e.g. HIV infection).

*Deaths related to drug poisoning,[1] Lincolnshire,[2] 1997–2003[3]*

| | *Number of deaths* |
|---|---|
| 1997 | 16 |
| 1998 | 37 |
| 1999 | 20 |
| 2000 | 26 |
| 2001 | 25 |
| 2002 | 30 |
| 2003 | 27 |

[1] Defined using the following codes from the International Classification of Diseases, Tenth Revision for 2001–2003: F11-F16, F18-F19, X40-X44, X60-X64, Y10-Y14, X85 and the following codes from the International Classification of Diseases, Ninth Revision for 1997–2000: 292, 304, 305.2–305.9, E850-E858, E950.0-E950.5, E962.0 and E980.0-E980.5

[2] Usual residents of Lincolnshire.

[3] Data are for deaths occurring in each calendar year

*Source:*

Office for National Statistics.

### Drug Smuggling

**Andrew Rosindell:** To ask the Chancellor of the Exchequer what steps the Government are taking to stop drugs being imported into the UK; and how much the Government has invested in drugs detection technology in *(a)* ports and *(b)* airports since 1998. [8538]

**Dawn Primarolo:** The updated drug strategy 2002 sets out HMG's approach to tackling drugs in the UK. Responsibility for driving forward the supply side activity rests with those law enforcement agencies and other bodies engaged in tackling drug supply, working together as the concerted inter-agency drug action group (CIDA).

CIDA agencies recently agreed a new delivery strategy, which aims to improve our performance and to achieve a sustained impact on the availability of class A drugs in our communities, thereby reducing the harm that drugs cause. It broadly covers four areas:

Harm reduction in UK communities: Measuring the impact of supply side activity in terms of the outcomes in UK communities.

Intelligence process: Adopting an intelligence led process to target activity more effectively.

Zonal linkages: Prioritising efforts across and within geographical "zones" of action, trying to maximise our impact.

Street level up: Testing a new approach of tracing the supply chain back from street level problems (called "street level up"), and then hitting it in a co-ordinated way.

As for drug detection technology, until recently expenditure on proven drug detection technologies had been limited by their capability and value for money.

However, technology research in port and airport security dramatically increased post 9/11, and in the last 18 months we established that systems primarily built for this purpose were readily adaptable for identifying drug concealments. Working in partnership with manufacturers we have established a project aimed at purchasing new systems and providing testing opportunities, at border controls to inform further development and enhance workable solutions.

Post 1998 and prior to the project we spent in the region of £10 million on technology and scientific aids to provide additional tools for front line officers in the fight against drugs smuggling. In these early stages of the new project we have contributed £300,000 to the research and development of two new technologies, including capital for the purchase of a prototype.

The project has identified a number of new technologies for the short, medium and long-term, which will see further substantial investment in new and more reliable product-specific technology to combat drug importations more successfully.

### Emigration

**Andrew Rosindell:** To ask the Chancellor of the Exchequer how many UK subjects have emigrated to live in Commonwealth countries since 2001. [8536]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Colin Mowl to Mr. Andrew Rosindell, dated 30 June 2005:*

The National Statistician has been asked to reply to your question regarding estimates for the number of UK subjects who have emigrated to live in Commonwealth countries since 2001. I am replying in his absence. (8536)

The table below shows annual estimates for the number of British citizens migrating to Commonwealth countries between 2001 and 2003. The definition of a migrant used in the calculation of these estimates is a person who changes their country of usual residence for a period of at least a year. Therefore, some of the people estimated to have migrated to the Commonwealth over this period may have subsequently returned to the UK.

*International migration: estimates from the International Passenger Survey, 2001 to 2003 British citizens migrating to the Commonwealth*

*United Kingdom (thousand)*

| *Citizenship* | *Country of next residence* | *Year* | *Outflow*[1] *(emigration out of the UK)* |
|---|---|---|---|
| British | Commonwealth countries | 2001 | 53.5 |
| | | 2002 | 53.7 |
| | | 2003 | 63.4 |

[1] Estimates for 2001–03 are based on data from the International Passenger Survey only. They do not include adjustments for those whose intended length of stay changes so that their migrant status changes.

*Note:*

International Passenger Survey estimates are subject to sampling and non-sampling error since they are derived from a sample survey. One standard error for each outflow shown above is equal to 8 per cent.

The annual reference volume "Series MN, International Migration" includes a table (Table 3.1) showing migration estimates by country of last or next residence for British citizens (and other groups of citizens). The most recent annual reference volume is "Series MN No. 30, International Migration, 2003". This publication, and earlier editions, can be accessed at: http://www.statistics.gov.uk/STATBASE/Product.asp?vlnk=507.

### European Union

**Mr. Hayes:** To ask the Chancellor of the Exchequer what the unfunded pensions liabilities of the European Union institutions are; what Council Decision forms the legal base for supporting the accounting entry for pension liability; and if he will make a statement. [9106]

**Mr. Ivan Lewis:** There are no unfunded pension liabilities of the European Community Institutions. Like almost all member states, the European Union has a funded pension scheme for its civil servants. The pension scheme for civil servants of European Community Institutions is funded partly by the officials themselves, who contribute to one third of the scheme's financing, with the balance funded by member states through the annual European Community Budget. The Staff Regulation (Council Regulation 723/2004 amending the Staff Regulation) governs the funding of the pension scheme for civil servants of European Community Institutions. The Financial Regulation (Council Regulation 1605/2002) requires the Commission to keep accounting records. In the Commission's balance sheet, a provision is entered on the liabilities side in respect of the estimated amount of pension rights (the amount is based on an actuarial study); however this is balanced by an entry on the assets side to reflect the undertaking given by member states to the Communities to pay Community pensions.

### Expenditure

**Mr. Herbert:** To ask the Chancellor of the Exchequer what estimate he has made of what total managed expenditure between 1999 and 2000 and 2007–08 would have been had spending been increased by 2.5 per cent. per annum in real terms. [8351]

**Mr. Des Browne:** No estimate has been made of what total managed expenditure (TME) would be had spending been increased by 2.5 per cent. per annum in real terms.

### Faith Awareness Training

**Mr. Paul Goodman:** To ask the Chancellor of the Exchequer how many civil servants in the Department received faith awareness training in 2004. [3806]

**John Healey:** Comprehensive information relating to how many civil servants in the Treasury have received training on faith awareness in 2004 is not readily available and could be obtained only at disproportionate cost.

### G8 Conference

**Mr. Gale:** To ask the Chancellor of the Exchequer who will bear the policing costs of the G8 conference. [8255]

**Mr. Des Browne:** Policing is a devolved responsibility of the Scottish Executive and Scottish police authorities. The Government have agreed to contribute £20 million towards the cost.

### Great Britain National Insurance Fund

**Mr. Laws:** To ask the Chancellor of the Exchequer, what the administrative costs were of the National Insurance Fund in each of the last three years; what the value of the Fund is; what estimate he has made of the *(a)* surplus in the Fund and *(b)* value of National Insurance contributions in (i) 2005, (ii) 2010, (iii) 2020, (iv) 2030, (v) 2040 and (vi) 2060; and what advice he has received from the Government Actuary on the desirable level of the surplus. [8751]

**Dawn Primarolo:** Information on the administrative costs to the Great Britain National Insurance Fund for the last three years are in the following table:

£000

| | *Admin Costs* |
|---|---|
| 2002–03 | 1,241,496 |
| 2003–04 | 1,754,093 |
| 2004–05 | 1,480,033 |

The value of the fund as at 31 March 2004 stood at £27,081,605,770.

I refer the hon. Member to Table 15.7 on page 129 of the Government Actuary's Quinquennial Review of the National Insurance Fund (published in 2003) for the estimate of *(a)* the surplus in the Fund and *(b)* value of NICs in (i) 2005, (ii) 2010, (iii) 2020, (iv) 2030, (v) 2040 and (vi) 2060. In this context, surplus is defined as the excess of income over expenditure. The Government Actuary has not given any advice on the desirable level of surplus in the NIF in any particular year.

### HIPCs

**Jeremy Corbyn:** To ask the Chancellor of the Exchequer (1) whether the suspension of debt servicing agreed by the G7 for the 18 Heavily Indebted Poor Countries (HIPCs) who have reached their HIPC Initiative Completion Points *(a)* has been implemented and *(b)* is subject to ratification by international financial institutions; [8593]

(2) what estimate he has made of the total value of the G7 debt relief initiative in 2005 for the 18 countries qualifying; [8643]

(3) if he will make it his policy that funds from G8 aid budgets should not be used as part of debt relief arrangements; [8644]

(4) what criteria will be used to determine levels of good governance allowing the implementation of debt relief in developing countries; [8645]

(5) what further progress he expects to be made on aid and debt relief for developing countries at the G8 Gleneagles summit; [8646]

(6) if he will reduce the level of conditionality within the Heavily Indebted Poor Countries Initiative. [8647]

**Mr. Ivan Lewis:** Substantial progress has been made on both aid and debt relief in recent months. The EU has made an historic commitment to double its aid from current levels of around US$40 billion to over $80 billion in 2010 and on debt G8 Finance Ministers have agreed debt relief worth up to $55 billion. The total debt service (principal and interest) of the 18 HIPCs due to the IMF, World Bank and African Development Bank in 2005 is $560 million.

Finance Ministers agreed that the G8 debt relief proposal should be put forward for agreement at the Annual Meetings of the IMF and World Bank in September. Once it is agreed it will be implemented as soon as possible.

The UK believes that debt relief should be funded through additional resources. In this way, it is an important source of additional funds for countries to spend on poverty reduction and the investments in health, education, water and infrastructure that are essential if the MDGs are to be met. We continue to lobby others to support this view.

Our share of the G8 debt agreement will be funded through the additional resources allocated to DFID in the recent Spending Review: by 2007–08, total UK aid will rise to nearly £6.5 billion a year, representing 0.47 per cent. of GNI, a real terms increase of 140 per cent. since 1997. Part of the increase in DFID's budget was earmarked for the provision of further debt relief, and it is these earmarked funds that will be used. Our multilateral debt assistance will be in addition to generous UK contributions to the IDA 14 and AfDF X replenishments.

It is essential that the resources freed up by debt relief are used to support poverty reduction. For this reason, the G8 debt agreement provides debt relief only to those countries that have demonstrated their commitment to reducing poverty through implementing a successful Poverty Reduction Strategy Paper (PRSP). PRSPs include strategies for investment in health, education and water and sanitation to help countries to reach the Millennium Development Goals. The countries that qualify for the G8 debt agreement have reached completion point of the Heavily Indebted Poor Countries Initiative have demonstrated their commitment to poverty reduction and sound financial management.

In order to reach completion point, a country must maintain macroeconomic stability under a PRGF-supported program, carry out key structural and social reforms, and implement a PRSP for one year upon which Bank and Fund staff prepare recommendations to their respective boards for consideration. The final determination is made by the boards of the two institutions.

The World Bank and IMF are both undertaking reviews of their approach to conditionality this year. In the context of these reviews, the UK will work to ensure that these institutions only support programmes which are agreed rather than imposed, and where benchmarks to assess progress are focussed on the impact of a country's overall policy programme rather than any particular policy decision.

### Hospital Infections

**Mr. Burstow:** To ask the Chancellor of the Exchequer how many deaths have been recorded where *(a) Clostridium difficile* associated disease, *(b)* MRSA, *(c)* vancomycin resistant enterococci, *(d)* multi-resistant acinetobacter spp and *(e)* penicillin resistant

*Streptococcus pneumoniae* was mentioned on the death certificate in each year since 2001; and in how many cases it was also the underlying cause of death. [8229]

**John Healey:** The information requested falls within the responsibility of the National Statistician, who has asked him to reply.

*Letter from Colin Mowl to Mr. Paul Burstow, dated 30 June 2005:*

The National Statistician has been asked to reply to your recent question asking how many deaths have been recorded where *(a)* clostridium difficile associated disease, *(b)* MRSA, *(c)* vancomycin resistant enterococci, *(d)* multi-resistant acinetobacter and *(e)* penicillin resistant streptococcus pneumoniae was mentioned on the death certificate in each year since 2001; and in how many cases it was also the underlying cause of death. I am replying in his absence. (8229)

In the Tenth Revision of the International Classification of Diseases (ICD-10), deaths involving enterocolitis due to *Clostridium difficile* can all be identified from the code A04.7. Enterocolitis is the commonest illness caused by *C. difficile* infection. For causes other than enterocolitis that are also known to be associated with *C. difficile*, it is not possible to identify from ICD codes alone the number of deaths where *C. difficile* actually contributed to the death. For this reason, the only routinely available mortality statistics on *C. difficile* are those where it was associated with enterocolitis. These figures were provided in answer to a question from Mr David Lidington MP, Hansard Written Answer 3764, page 49W.

Figures for MRSA were published in an annual report in *Health Statistics Quarterly* on 24 February 2005.[1] Figures for vancomycin resistant enterococci and multi-resistant acinetobacter spp are not available from routine death certification data. These are laboratory classifications of microorganisms, details of which are rarely used in describing the illnesses from which patients suffer or die.

Figures on the number of deaths involving *Streptococcus pneumoniae* are given in the attached table for the years 2001 to 2003.

[1] Office for National Statistics (2005) Report: Deaths involving MRSA: England and Wales, 1999–2003. *Health Statistics Quarterly* 25, 60–65.

*Numbers of deaths where Streptococcus pneumoniae was mentioned on the death certificate and the number where it was specified as penicillin resistant and the number of these mentions where it was also the underlying cause of death,[1] England and Wales, 2001–03*[2]

| | *Total mentions* | *Total mentions—specified as penicillin resistant* | *Underlying cause* | *Underlying cause—specified as penicillin resistant* |
|---|---|---|---|---|
| 2001 | 240 | 0 | 164 | 0 |
| 2002 | 245 | 0 | 187 | 0 |
| 2003 | 269 | 0 | 190 | 0 |

[1] Selected using the codes J13, G00.1 and A40.3 and a text search within codes A49.1 and H66 from the International Classification of Diseases, Tenth Revision (ICD-10)

[2] Figures are for deaths occurring in the years 2001 to 2003.

*Source:*

Office for National Statistics

### Illegal Firearms

**Andrew Rosindell:** To ask the Chancellor of the Exchequer what steps the Government are taking to stop the smuggling of illegal firearms into the UK. [8524]

**Dawn Primarolo:** HM Revenue and Customs (HMRC) are responsible for enforcement of controls in respect of smuggling of illegal firearms into the UK.

To detect and prevent the smuggling of firearms HMRC deploy resources according to risk, through intelligence-led and targeted activity with teams, including national and regional strike forces, that work flexibly to match any changing threat and whose training includes recognition of firearms and their component parts. HMRC target all types of traffic arriving at UK ports and airports both from other EU member states and from non-EU countries.

HMRC work closely with NCIS and police forces to share information and to improve the intelligence available on firearms smuggling. They have agreed operational arrangements to follow-up detections of smuggled firearms, parts and ammunition.

In all cases where such goods are detected HMRC will seize them, share the information with NCIS and police and agree with police the arrangements for any follow up investigation. HMRC will normally seek to prosecute in any case involving a deliberate attempt to smuggle a firearm into the UK.

As part of the Government's commitment to reduce gun crime, the Criminal Justice Act 2003 included a provision to increase the maximum term of imprisonment for smuggling prohibited weapons (other than stun guns and self defence sprays) from seven years to 10.

### Insurance Premium Tax Fraud

**Gregory Barker:** To ask the Chancellor of the Exchequer (1) what representations he has received from Customs and Excise in the last 10 years regarding cases of alleged fraud by insurance companies using the Insurance Premium Tax; [8250]

(2) what discussions he has had with the Financial Services Authority on investigations into possible causes of fraud by insurance companies using the Insurance Premium Tax. [8251]

**Mr. Ivan Lewis:** The Treasury has received no such representations and has had no such discussions.

### Jersey

**Mr. Austin Mitchell:** To ask the Chancellor of the Exchequer what discussions his Department has had with the Government of Jersey on the introduction of a zero-ten tax rate; and if he will make a statement. [8216]

**Dawn Primarolo:** The proposed introduction of a zero-ten rate in Jersey is a result of a program of modernisation of the Jersey tax system designed to be in compliance with international standards, including those set up by the OECD and by the EU Code of Conduct for business taxation.

The States of Jersey have kept HM Government informed of developments in relation to the reform of its tax system.

## Lisbon Score Card

**Keith Vaz:** To ask the Chancellor of the Exchequer what assessment he has made of the relative performance of the UK by comparison with other EU member states in respect of the Lisbon score card measures of *(a)* innovation, *(b)* liberalisation, *(c)* enterprise, *(d)* employment and social inclusion and *(e)* sustainable development. [7796]

**John Healey:** There are over 100 Lisbon structural indicators in the full set of economic, social and environmental categories. A full set of structural indicators can be found on the Eurostat Structural Indicators website: (http://epp.eurostat.cec.eu.int/portal/page?_pageid=1133,1400891,1133_1402816&_dad_portal&_schema=PORTAL). A selection of the higher-level indicators relevant to the areas requested are set out in the table.

*Table of relative UK performance*

| | *UK* | *EU* |
|---|---|---|
| *(a) Innovation* | | |
| Gross domestic expenditure on R and D (GERD)—as a percentage of GDP[1] | 1.87 | 1.93 |
| Broadband penetration rate—number of broadband lines subscribed in percentage of the population | 7.4 | 6.5 |
| *(b) Liberalisation* | | |
| Price of telecommunications—national calls—price level and evolution in the telecommunications market (in Euro per 10 min call) | 0.44 | 0.9 |
| Electricity prices—households—price level and evolution in the electricity market (in Euro per kWh) | 0.08 | 0.10 |
| *(c) Enterprise* | | |
| Venture capital investments—early stage—as a percentage of GDP[2] | 0.039 | [3]0.02 |
| Total state aid—as a percentage of GDP[1] | 0.26 | [3]0.57 |
| *(d) Employment and social inclusion* | | |
| Total employment rate—employed persons aged 15 to 64 as a percentage share of the total population of the same age group | 71.6 | 63.3 |
| Life-long learning—percentage of the adult population aged 25 to 64 participating in education and training (in the four weeks preceding the survey) | 21.3 | 9.9 |
| At-risk-of-poverty rate after social transfers—the percentage share of persons with an equivalised disposable income below the risk-of-poverty threshold[4] | 19 | 15 |
| *(e) Sustainable development* | | |
| Total greenhouse gas emissions—percentage change since base year and targets according to Kyoto Protocol/EU Council Decision for 2008–201 2 (in $CO^2$ equivalents) indexed on actual base year = 100[2] | 85 | 91.1 |

[1] Data for 2002.
[2] Data for 2003.
[3] Data for EU 15.
[4] Date for 2001.
*Data for Note:*
Where possible, except where indicated otherwise, data for 2004 and the EU as comprised of 25 member states have been used.

## Mortgage Mis-selling

**Andrew Stunell:** To ask the Chancellor of the Exchequer what representations he has received on the mis-selling of shared appreciation mortgages; and if he will make a statement. [8381]

**Mr. Ivan Lewis:** Treasury Ministers have received written representations on shared appreciation mortgages from a number of individuals and from the Shared Appreciation Mortgage Action Group.

The Government understand the concerns of people who purchased shared appreciation mortgages in the mid-1990s. However, to date no evidence of mis-selling has been found by the Financial Ombudsman Service.

## National Insurance (Offshore Facilities/Registration)

**Mr. MacNeil:** To ask the Chancellor of the Exchequer what the effect is on *(a)* UK nationals and *(b)* non-UK nationals access to benefits conditional on payment of national insurance contributions of their employer's decision to register offshore. [8555]

**Dawn Primarolo:** The UK social security system does not distinguish between UK and non UK-nationals working in the UK. In general, having an employer that is a company registered outside the UK will make little practical difference to an employee's access to contributory benefits. If the employee works in the UK and meets the conditions as to residence or presence in the UK he or she will still have to pay NICs and therefore will qualify for benefits.

**Mr. MacNeil:** To ask the Chancellor of the Exchequer what discussions he has had with the *(a)* Scottish Executive and *(b)* the management of Caledonian MacBrayne on offshore crewing; what assessment he has made of the effect of offshore crewing on (i) national insurance revenues paid by Caledonian MacBrayne and (ii) rights and entitlements for crew arising from changes in their national insurance contributions; and if he will make a statement. [8525]

**Mr. Des Browne:** The Chancellor has had no discussions with the Scottish Executive or the management of Caledonian MacBrayne on these matters or made an assessment of the impact on national insurance revenues paid by Caledonian MacBrayne offshore crewing. Crew members will be liable for the

employee's share of the NICs and will be able to have them taken into account in the normal way in claims for contributory benefits.

**Mr. MacNeil:** To ask the Chancellor of the Exchequer pursuant to the answer of 15 June 2005, *Official Report*, columns 391–92W, on offshore facilities, what discussions he has had with the Scottish Executive about the consequences for the *(a)* proposed competitive tendering process for the West Highland and Hebridean ferry services and *(b)* off shoring for tax purposes of Caledonian Macbrayne crew of the position outlined. [7716]

**John Healey** *[holding answer 28 June 2005]:* The Chancellor has had no discussions with the Scottish Executive on these matters. The competitive tendering process for the West Highland and Hebridean ferry services is a devolved matter for the Scottish Executive. It is a matter for Caledonian Macbrayne to decide whether to introduce offshore crewing arrangements.

## National Minimum Wage

**Mr. Austin Mitchell:** To ask the Chancellor of the Exchequer if he will exempt all individuals on minimum wage from income tax and national insurance contributions. [9402]

**Mr. Ivan Lewis:** The personal allowance for income tax and the primary threshold for national insurance contributions would have to be raised to over £9,000 to exempt all individuals earning the national minimum wage and working a full working week of 35 hours.

This would cost tens of billions of pounds and would provide the greatest benefit to higher rate taxpayers, for whom any increase would be worth four times as much to them as starting rate taxpayers. It would also remove millions of individuals from building up entitlement from benefits such as the basic state pension.

The Government prefer to use measures that provide benefits to those that need it most.

Unlike the personal allowance tax credits can reduce a family's net tax bill below zero through payments and can provide support tailored to the family's circumstances, such as the number of children in a family.

Together with child benefit the system of tax credits offsets income tax liabilities so that the effective point at which a family with two children starts paying tax on net is now £21,200 and from April 2007 will be over £22,000.

## Oil Revenues

**Mr. Salmond:** To ask the Chancellor of the Exchequer what the *(a)* actual and *(b)* forecast oil revenues are for the 2005–06 financial year to date. [8953]

**Dawn Primarolo:** Monthly receipts to May 2005 of petroleum revenue tax (PRT) can be found on the HM Revenue and Customs website at: http://www.hmrc.gov.uk/stats/tax_receipts/table1-3.pdf. Receipts of corporation tax (CT) from north sea companies are not separately disclosed.

Budget 2005 forecasts of PRT and CT receipts for 2005–06 from UK north sea oil and gas producers can be found at http://www.hmrc.gov.uk/stats/corporate_tax/table11-11.pdf

## Personal Finances (London)

**Sarah Teather:** To ask the Chancellor of the Exchequer what the average *(a)* unsecured debt per person and *(b)* annual income in London has been in each year since 1997. [8199]

**John Healey:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Sarah Teather, dated 4 July 2005:*

As National Statistician, I have been asked to reply to your recent parliamentary question about average unsecured debt per person and annual income in London since 1997. (8199)

Figures for average incomes per person for London are shown in Table A. These were published on 29 April 2005. Gross disposable household income (GDHI) is the amount of money that households have available for consumption expenditure or saving. Total household incomes represent the total amount of money households receive before any deductions. Regional GDHI data are available on the national statistics website http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=7359

Regional figures for unsecured debt are not available. Average unsecured debt per person figures for the United Kingdom, are shown in Table B. These were published on 30 June 2005 in Blue Book 2005 on the national statistics website http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=1143.

The statistics used are national accounts series for the combined household and non-profit institutions serving households sectors. Estimates for household alone are not available.

*Table A*[1]

*Average incomes per capita*[2]*, London*

| | *Gross disposable household income (GDHI)*[3] *(£)* | *Total incomes*[4] *(£)* |
|---|---|---|
| 1997 | 11,660 | 18,040 |
| 1998 | 12,060 | 19,450 |
| 1999 | 12,730 | 20,570 |
| 2000 | 13,600 | 22,070 |
| 2001 | 14,480 | 23,210 |
| 2002 | 14,750 | 23,650 |
| 2003 | 15,240 | 24,510 |

[1] Data are rounded.
[2] Based on the total population.
[3] GDHI estimates are a moving average based "trend" of the unadjusted estimates for each region. The "trending" removes some of the year to year volatility of the unadjusted series.
[4] All household income including employers' social contributions, imputed social contributions, social benefits and other current transfers received.

*Table B*[1]

*UK (£)*

| | *Annual income per person*[2] | *Unsecured debt per person*[2] |
|---|---|---|
| 1997 | 12,340 | 3,440 |
| 1998 | 12,730 | 3,690 |
| 1999 | 13,300 | 3,970 |
| 2000 | 14,010 | 4,310 |
| 2001 | 14,830 | 4,730 |
| 2002 | 15,200 | 5,410 |
| 2003 | 15,840 | 5,820 |
| 2004 | 16,250 | 6,730 |

[1] Data are rounded.
[2] Based on the population aged 16+.

## PRODCOM Forms

**Mr. Weir:** To ask the Chancellor of the Exchequer what assessment he has made of the cost to a small business of management time in completing and returning PRODCOM forms. [9585]

**John Healey:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Weir, dated 4 July 2005:*

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning the cost to a small business of management time in completing and returning PRODCOM forms (9585).

I am keen to ensure that our inquiries minimise the load on those from whom we seek information. Our estimates are that the annual PRODCOM form costs the average small (less than 20 employees) business around £65 to complete. Some industries have been covered quarterly rather than annually and these quarterly forms have cost the average business around £39 to fill in. However, the quarterly inquiries have recently, following consultation, been dropped so businesses in the industries affected will in future—if they are selected—receive only one form a year rather than four.

We ask around one in 16 small businesses to complete a PRODCOM form each year.

**Mr. Hands:** To ask the Chancellor of the Exchequer how many small businesses have been required to complete PRODCOM returns in each of the last five years. [9586]

**John Healey:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Hands, dated 4 July 2005:*

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning how many small businesses have been required to complete PRODCOM returns in each of the last five years. (9586)

For most industries PRODCOM is an annual inquiry. For some however it has been quarterly. The number of small (less than 20 employee) businesses selected for each of the last five years has been:

| | *Numbers selected* | |
|---|---|---|
| *Year to which the inquiry related* | *For the annual inquiry* | *For the quarterly inquiries* |
| 2000 | 6,974 | 1,032 |
| 2001 | 6,984 | 1,023 |
| 2002 | 6,930 | 1,019 |
| 2003 | 6,970 | 1,013 |
| 2004 | 6,964 | 1,009 |

The total number of small businesses in these sectors is around 131,000.

From the beginning of this year the quarterly PRODCOM inquiries have ceased. These industries are now, like the others, being covered annually. Therefore, selected firms in these industries that would previously have received four forms in the year, will in future only get one.

**Mr. Weir:** To ask the Chancellor of the Exchequer (1) what the *(a)* maximum, *(b)* minimum and *(c)* average fine imposed on small businesses in (i) Scotland, (ii) Wales and (iii) England for failure to return PRODCOM forms was in each of the last five years; [9583]

(2) how much in fines was levied on businesses in *(a)* Scotland, *(b)* Wales and *(c)* England in each of the last five years for failure to complete and return PRODCOM forms; [9584]

(3) how many *(a)* companies and *(b)* individuals have been fined for failure to return and complete PRODCOM returns in each of the last five years in (i) Scotland, (ii) Wales and (iii) England; [9587]

(4) how many companies have been prosecuted for failure to return PRODCOM returns in each of the last five years. [9588]

**John Healey:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Mike Weir, dated 4 July 2005:*

As National Statistician, I have been asked to reply to your recent Parliamentary Questions concerning the prosecution of businesses for failures to return their PRODCOM forms, and the fines they have received (9583, 9584, 9587 and 9588).

Prosecution of recalcitrant responders is very much a last resort: we would much prefer to proceed with the cooperation of those we ask to fill in forms, and for the vast part we succeed in that. However, 5 businesses have been prosecuted and fined in the last five years for failure to return their PRODCOM forms (one in the year 2000; two in 2001; and two in 2004). One of those businesses had an address in Scotland; the others all had addresses in England. One was a business with fewer than 20 employees.

The fines varied from £75 to £1000. The total for the five cases was £1925.

## Revenue and Customs (Haverfordwest)

**Mr. Crabb:** To ask the Chancellor of the Exchequer (1) what plans he has to change the status of the HM Revenue and Customs office in Haverfordwest; and if he will make a statement on what changes he expects to make to the numbers of jobs in the office; [8191]

(2) what plans he has to reorganise local offices following the merger of HM Customs and Excise and the Inland Revenue; and if he will make a statement on the expected change in numbers employed; [8192]

(3) what the net change in the numbers of jobs in HM Revenue and Customs in Wales will be following reorganisation of local offices. [8193]

**Dawn Primarolo:** I refer the hon. Gentleman to the reply I gave on 28 June 2005, *Official Report*, column 1428W, to the hon. Member for Carmarthen, East and Dinefwr (Adam Price).

## Tax Credits

**Mr. Hoyle:** To ask the Chancellor of the Exchequer how many cases of overpayment of tax credits are being investigated by tax credit offices; how many cases of overpayment have been resolved since the present tax credits were introduced; and how many cases of overpayment are awaiting action. [7842]

**Dawn Primarolo:** At 31 May 2005, HM Revenue and Customs had received around 271,000 requests to reconsider recovery of an overpayment of tax credits on the grounds of official error. Of these, 151,000 had been decided upon and the balance were awaiting a decision.

**Mr. Laws:** To ask the Chancellor of the Exchequer what the estimated take-up rate is for *(a)* child tax credit and *(b)* working tax credit; and how many families he estimates are entitled but not claiming. [8108]

**Dawn Primarolo:** On average for 2003–04 5.5 million families benefited from child tax credit and working tax credit and initial analysis suggests that in its first year, child tax credit achieved an estimated take-up rate of 80 per cent. by caseload. Further work to produce final take-up rate estimates for child tax credit and working tax credit for 2003–04 is continuing and we expect this analysis to be completed towards the end of 2005–06.

**Mr. Stewart Jackson:** To ask the Chancellor of the Exchequer what the level of tax credit overpayment was in the 2003–04 financial year in Peterborough constituency. [8444]

**Dawn Primarolo:** The number of tax credit awards for 2003–04 underpaid and overpaid after finalisation are available for each region, parliamentary constituency and local authority in the publication "Child and Working Tax Credit Statistics. Finalised Awards 2003–04. Supplement on Payments in 2003–04. Geographical Analyses". This is available on the HMRC website at http://www.hmrc.gov.uk/stats/personal-tax-credits/menu.htm.

**Andrew Rosindell:** To ask the Chancellor of the Exchequer how much has been paid in tax credits since 2003, broken down by *(a)* London borough and *(b)* local authority in Essex. [8526]

**Dawn Primarolo:** Information on payments of working and child tax credits is not available below national level.

Data about tax credits awards by reference to geographical areas such as Parliamentary constituencies and local authorities can be found at: http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm.

**Andrew Rosindell:** To ask the Chancellor of the Exchequer what steps the Government are taking to stop overpayments of tax credits; and if he will make a statement. [8528]

**Dawn Primarolo:** I refer the hon. Member to the statement I made to the House on 26 May 2005, *Official Report*, column 802, on tax credits.

**Mr. Laws:** To ask the Chancellor of the Exchequer how many compensation payments have been made by HM Revenue and Customs for tax credit problems in *(a)* 2002–03, *(b)* 2003–04, *(c)* 2004–05 and *(d)* 2005–06 to date; what the total value is of such payments for each year; and if he will make a statement. [8564]

**Dawn Primarolo:** For 2002–03 and 2003–04, I refer the hon. Member to the answer I gave him on 7 February 2005, *Official Report*, columns 1244–45W.

Around 20,000 compensation payments to tax credits claimants were made in 2004–05 with a value of around £1.24 million. In the two months ending 31 May 2005, around 1,600 such payments had been made with a value of around £187,000.

**Mr. Laws:** To ask the Chancellor of the Exchequer what his estimate is of the total cost of administering tax credits in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06; and if he will make a statement. [8565]

**Dawn Primarolo:** The cost of managing and paying the child and working tax credits in the financial year 2003–04 appears in note 3 to the Trust Statement in the Inland Revenue Annual Report and Accounts for that year. Figures for 2004–05 and 2005–06 will not be available until the Trust Statements for these years are released.

**Mr. Laws:** To ask the Chancellor of the Exchequer what his latest estimate is of the number of tax credit *(a)* overpayments and *(b)* underpayments in 2004–05; and if he will make a statement. [8567]

**Dawn Primarolo:** Estimates of numbers and values of overpayments or underpayments for 2004–05 awards at 5 April 2005 will not be available until after family circumstances and incomes for 2004–05 have been finalised. The most recent estimates available for the number of overpaid awards and the value of these overpayments is for awards at 5 April 2004 based on final family circumstances and incomes for 2003–04. They appear in the HMRC publication "Child and Working Tax Credits Annual statistics. 2003–04 Payments." The estimates are based on samples and are subject to significant sampling uncertainty.

This publication can be found on the HMRC website at http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-quarterly-stats.htm

**Mr. Laws:** To ask the Chancellor of the Exchequer how much of the total amount of tax credits overpaid in 2003–04 has so far been recovered; and if he will make a statement. [8569]

**Dawn Primarolo:** No estimates can be made until the departmental accounts for 2004–05 have been prepared and the Trust Statement published.

**Mr. Laws:** To ask the Chancellor of the Exchequer how many tax credit payments have been made to the wrong bank account; and if he will make a statement. [8570]

**Dawn Primarolo:** The information is not available.

**Mr. Laws:** To ask the Chancellor of the Exchequer how many tax credit awards were made in *(a)* 2003–04 and *(b)* 2004–05 to households with incomes of (i) £40,000 per annum and (ii) £50,000 per annum; and if he will make a statement. [8572]

**Dawn Primarolo:** The number of awards made to families in 2003–04 whose finalised income in that year was (i) £40,000 to £50,000 and (ii) over £50,000 is contained in the publication "Child and Working Tax Credits Statistics. Finalised awards 2003–04.

Supplement on payments in 2003–04". This is available on the HMRC website at http://www.hmrc.gov.uk/stats/personal-tax-credits/menu.htm.

Figures for 2004–05 are not yet available.

**Mr. Laws:** To ask the Chancellor of the Exchequer how many tax credit overpayments were not clawed back in 2003–04 due to the operation of the £2,500 disregard; and if he will make a statement. [8573]

**Dawn Primarolo:** It is not possible reliably to estimate the number of extra families who would have had an overpayment if the disregard had not applied.

**Mr. Laws:** To ask the Chancellor of the Exchequer what his estimate is of the average waiting time to get through on the public tax credit helpline for each month since January 2003; and if he will make a statement. [8575]

**Dawn Primarolo:** The following table shows average waiting times for those calls that were answered by tax credits helpline advisers in 2003–04, 2004–05 and the current tax year.

| *Year/month* | *Average waiting time (min:sec)* |
|---|---|
| *2003–04* | |
| April | 6:25 |
| May | 3:33 |
| June | 2:53 |
| July | 1:26 |
| August | 0:45 |
| September | 0:42 |
| October | 0:23 |
| November | 0:38 |
| December | 0:30 |
| January | 0:26 |
| February | 0:18 |
| March | 0:17 |
| *2004–05* | |
| April | 0:24 |
| May | 0:24 |
| June | 0:26 |
| July | 0:29 |
| August | 0:20 |
| September | 0:40 |
| October | 0:24 |
| November | 0:24 |
| December | 0:33 |
| January | 0:49 |
| February | 0:42 |
| March | 0:37 |
| *2005–06* | |
| April | 1:12 |
| May | 1:06 |
| To 25 June | 0:56 |

**Mr. Laws:** To ask the Chancellor of the Exchequer by what date the redesigned tax credit award notices will be available for *(a)* publication and *(b)* consultation; and if he will make a statement. [8578]

**Dawn Primarolo:** HMRC has consulted representative groups and worked closely with them to improve the award notice, and the revised award notice has been warmly welcomed by them. The revised award notices will be issued to claimants from April 2006.

**Mr. Laws:** To ask the Chancellor of the Exchequer what his estimate is of the number of tax credit overpayments in 2003–04 that were caused by HM Revenue and Customs error; and if he will make a statement. [8579]

**Dawn Primarolo:** There were well-publicised IT system problems in the early part of 2003–04. One particular software problem led to some incorrect payments being made to some claimants as detailed in the Report of the Comptroller & Auditor General for 2003–04. This is available on the HMRC website at: http://www.inlandrevenue.gov.uk/pdfs/report2004.pdf.

Overpayments can arise for a number of reasons or from a combination of factors, of which HMRC error may be just one, e.g. when a claimant's entitlement varies following a change in their circumstances. No reliable estimate of the amount of overpayments resulting solely from HMRC error for 2003–04 is available.

**Mr. Laws:** To ask the Chancellor of the Exchequer how many overpayments of tax credits during 2003–04 were recovered before the end of the financial year. [8580]

**Dawn Primarolo:** Overpayments of tax credits are not identified until family circumstances and income are finalised after the end of the financial year. However, tax credit awards can be adjusted during the year to take account of a change in circumstances or income. Where the amount payable is reduced, payments are adjusted with the aim of paying out the right amount for the year as a whole. This is explained in HMRC's Code of Practice 26 "What happens if we have paid you too much tax credit?", available on our website at http://www.hmrc.gov.uk/leaflets/cop26.htm. This is part of the normal operation of the tax credit system, and no count of such occurrences is maintained.

**Mr. Laws:** To ask the Chancellor of the Exchequer if he will make a statement on progress in resolving computer problems relating to tax credit payments. [8583]

**Dawn Primarolo:** I refer the hon. Gentleman to the written statement I made on 26 May 2005, *Official Report*, column 22WS in particular the fourth of the six measures I have agreed with the Chairman of HMRC.

**Mr. Laws:** To ask the Chancellor of the Exchequer what his estimate is of the total cost of the £2,500 disregard for increases in annual income for tax credit entitlement for 2003–04; and if he will make a statement. [8584]

**Dawn Primarolo:** The final entitlement to tax credits in 2003–04 would have been about £800 million lower without the £2,500 disregard. This estimate takes no account of behavioural differences.

**Mr. Laws:** To ask the Chancellor of the Exchequer how many letters have been received by *(a)* his Department and *(b)* the Inland Revenue from hon. Members on tax credits for each month since January 2003; and if he will make a statement. [8587]

**Dawn Primarolo:** I refer the hon. Gentleman to the answer I gave him on 10 February 2005, *Official Report*, column 1685W, and to the reply I gave on 21 February 2005, *Official Report*, columns 75W-76W to the hon. Member for Northavon (Steve Webb).

Details for the further period 1 January 2005 to 31 May 2005 are given as follows:

| Month | Number of letters from hon. Members to TCO |
|---|---|
| January 2005 | 798 |
| February 2005 | 906 |
| March 2005 | 1,218 |
| April 2005 | 763 |
| May 2005 | 607 |

In addition to the letters received by the Tax Credit Office, Treasury Ministers and Inland Revenue Board members received around 950 letters from hon. Members in the same period, 1 January 2005 to 31 May 2005.

**Mr. Laws:** To ask the Chancellor of the Exchequer what proportion of tax credit payments have had an error of some kind, in each year from 2003–04 to 2005–06; and if he will make a statement. [8592]

**Dawn Primarolo:** I refer the hon. Member to the answer I gave to him on 7 February 2005, *Official Report*, column 1245W.

The Department will report against its targets for 2005–06 in due course.

**Mr. Laws:** To ask the Chancellor of the Exchequer how many tax credit award notices were sent out in total in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06 to date; and if he will make a statement. [8597]

**Dawn Primarolo:** There are more than 6 million families benefiting from tax credits at present. Each adult included in a tax credit award receives an award notice when the initial claim has been decided, each time a change of circumstance is reported, and another after the end of the year when their claim is renewed.

The number of tax credit awards notices issued in the tax year 2003–04 was about 20.5 million.

In the tax year 2004–05 the number issued was about 34 million. The increase in the number issued reflects additional award notices issued when awards for 2003–04 were finalised.

In the tax year 2005–06 to date almost 11 million have been issued.

**Mr. Laws:** To ask the Chancellor of the Exchequer whether the *(a)* working tax credit and *(b)* child tax credit have been more expensive to administer than the working families tax credit; and if he will make a statement. [8598]

**Dawn Primarolo:** The administrative costs of managing and paying child and working tax credits in 2003–04, expressed as percentages of total payments, were very similar to the working and disabled person's tax credits regime.

**Mr. Laws:** To ask the Chancellor of the Exchequer, what his estimate is of the average time taken to respond to a letter of complaint from a member of the public regarding tax credits in each month from January 2003 to June 2005; and if he will make a statement. [8853]

**Dawn Primarolo:** The information requested is not available. HMRC aim to deal with 80 per cent. of correspondence within 15 working days and 95 per cent. of correspondence within 40 working days.

**Mr. Laws:** To ask the Chancellor of the Exchequer, pursuant to the statement of 22 June 2005 by the Paymaster General, *Official Report*, columns 801–14, on tax credits, if he will change the payments page of an award notice to draw tax credit recipients' attention to the availability of additional tax credits. [8856]

**Dawn Primarolo:** HMRC are looking at options for improving the information they give claimants about overpayments. This includes highlighting on the award notice the availability of the extra help customers can get if their payments have decreased.

Where there is an overpayment, the award notice sent to claimants shows the amount and how it will be recovered. The accompanying notes tell claimants that HMRC's approach to overpayments is outlined in their Code of Practice 26 (CoP26). CoP26 is published on the HMRC website. They send a copy to claimants who write to them about their overpayment. Claimants who want to dispute recovery of their overpayment do not have to complete form TC846 but HMRC will send them one if they have not already provided the information needed to consider the position.

**Mr. Salmond:** To ask the Chancellor of the Exchequer whether he has updated his forecast for the price of a barrel of oil as set out in his Budget report. [8952]

**John Healey:** The oil price assumption will be updated in the pre-Budget report later this year.

**Mr. Laws:** To ask the Chancellor of the Exchequer (1) how many instances of recovery of overpayments or excess payments have been disputed by tax credit recipients in each of the last two years; [8106]

(2) how many TC846 forms have been received in each of the last two years. [8107]

**Dawn Primarolo:** In 2004–05, around 217,000 claimants had returned form TC846, or had otherwise been recorded as requesting the write off of their overpayments on the grounds of official error. In April and May 2005, the Tax Credit Office received around 54, 000 similar requests.

**Mr. Laws:** To ask the Chancellor of the Exchequer what the cost of administering *(a)* family credit, *(b)* working families tax credit and disabled person's tax credit and *(c)* child tax credit and working tax credit in each of the last eight years in which credits were payable in (i) cash and (ii) real terms. [6199]

**Dawn Primarolo:** The cost of managing and paying the child and working tax credits in the financial year 2003–04 appears in Note 3 to the Trust Statement in the Inland Revenue Annual Report and Accounts for that year. The costs of managing and paying working families' and disabled person's tax credits are shown in the Inland Revenue Trust Accounts, at Note 3 for 1999–2000 to 2001–02 and at Note 4 for 2002–03. I understand from the Department of Work and Pensions that the estimated annual costs for family credit in Great Britain are given in the annual reports of the former Department of Social Security.

The costs of managing and paying of family credit, working families tax credit and disabled person's tax credit, and child tax credit and working tax credit in each of the last eight in real terms were as follows:

| | *Costs of managing and paying tax credits (£ million)* | | |
|---|---|---|---|
| | *In nominal terms* | *In real terms (at 2004–05 prices)* | *Total families benefiting (Thousands)* |
| 1996–97 (FC) | 66.0 | 80.1 | [1]725.6 |
| 1997–98 (FC) | 59.0 | 69.8 | [1]766.1 |
| 1998–99 (FC) | 72.0 | 82.8 | [1]790.5 |
| 1999–2000 (WFTC and DPTC) | 36.1 | 40.6 | [2]834 |
| 2000–01 (WFTC and DPTC) | 136.7 | 152.1 | [3]1,195 |
| 2001–02 (WFTC and DPTC) | 143.9 | 156.2 | [3]1,326 |
| 2002–03 (WFTC and DPTC) | 143.0 | 150.1 | [3]1,414 |
| 2003–04 (WTC and CTC) | 403.0 | 411.0 | [3]5,700 |

[1] Number of awards to all families, as at November of each year.

[2] All recipients, as at October for DPTC and November for WFTC.

[3] Average number of families benefiting on each day over the year.

The comparison over time is affected by the absence of children's tax credit from the costs of managing and paying tax credits for 2001–02 and 2002–03 as this was included in the Inland Revenue's routine work and not separately identified in running costs.

As a proportion of total payments made each year, administration costs have remained stable since 1999, at around 2.5 per cent. to 3 per cent.

**Mr. Laws:** To ask the Chancellor of the Exchequer what the value is of tax credit overpayments written off in each month since April 2003. [7995]

**Dawn Primarolo:** HMRC wrote off 373,000 overpayments to a value of around £37 million following the identification of a software error that affected some 455,000 households in April and May 2003. This is explained in the Report of the Comptroller and Auditor General 2003–04, which can be found in the board's annual report at http://www.hmrc.gov.uk/pdfs/report2004.pdf

Overpayments for 2003–04 were only finally identified after April 2004 when HMRC started finalising awards for that year and the Department began considering disputed overpayments in June 2004.

The monthly breakdown of overpayments written off each month from June 2004 on the grounds of official error is as follows:

£

| *Month* | *Amount written off* |
|---|---|
| *2004* | |
| June | 118,000 |
| July | 30,000 |
| August | 39,000 |
| September | 41,000 |
| October | 326,000 |
| November | 643,000 |
| December | 299,000 |

£

| *Month* | *Amount written off* |
|---|---|
| *2005* | |
| January | 1,246,000 |
| February | 1,102,000 |
| March | 1,788,000 |
| April | 605,000 |
| May | 30,823,000 |
| Total | 37,060,000 |

**Mr. Laws:** To ask the Chancellor of the Exchequer pursuant to the statement of 22 June 2005, *Official Report*, columns 801–14 by the Paymaster General on tax credits, what estimate he has made of the number of cases in which in-year recovery of excess tax credits has occurred for recipients of *(a)* income support and *(b)* income-based jobseeker's allowance; what the average value was of the excess recovered; what proportion of these cases were disputed; and in how many of these cases (i) the overpayments were written off and (ii) additional tax credits were awarded. [8022]

**Dawn Primarolo:** The information requested is not available.

Tax credit awards can be adjusted during the year to take account of a change in circumstances or income. Where the amount payable is reduced, payments are adjusted with the aim of paying out the right amount for the year as a whole. This is explained in HMRC's Code of Practice 26 "What happens if we have paid you too much tax credit?", which is accessible at http://www.hmrc.gov.uk/leaflets/cop26.htm. This is part of the normal operation of the tax credit system, and no count of such occurrences is maintained.

**Mr. Laws:** To ask the Chancellor of the Exchequer pursuant to the statement of 22 June 2005, *Official Report*, columns 801–14 by the Paymaster General, on tax credits, what assessment he has made of the level of awareness among tax credit office staff of the circumstances in which additional tax credits are payable; and what additional *(a)* training and *(b)* guidance he plans to give to ensure appropriate use of additional tax credits. [8023]

**Dawn Primarolo:** HMRC have work in hand to enhance the guidance helpline advisers follow so that it will prompt them to refer to the availability of additional tax credits in situations where they could prevent financial hardship.

**Mr. Laws:** To ask the Chancellor of the Exchequer pursuant to the statement of 22 June 2005, *Official Report*, columns 801–14 by the Paymaster General, on tax credits, what timetable has been set to train tax credit staff on the appropriate use of interim payments; and what new guidance is to be produced on issuing interim payments. [8026]

**Dawn Primarolo:** Existing guidance for HMRC staff tells them that, where a customer is not receiving system-generated payments, they may need to set up manual payments. HMRC are reminding advisers to follow this guidance. And they have work in hand to further enhance the guidance so that it will prompt helpline

advisers to refer to the availability of additional tax credits in situations where they could prevent financial hardship.

**Mr. Laws:** To ask the Chancellor of the Exchequer when discussions with EDS on compensation for problems with the tax credit IT system were started; how much compensation has been paid by EDS; and if he will make a statement. [8105]

**Dawn Primarolo:** HMRC and EDS have for some time, been engaged in a process of discussions which the Department hoped would lead to a satisfactory out-of-court resolution to the claim against EDS. No such settlement has yet resulted and no compensation has been paid. Negotiations continue which may lead to a financial settlement and, while that is the case, it is not appropriate to disclose confidential and privileged information, the quantum of HMRC's claim or the timetable for negotiations. HMRC is clear that if it is not possible to reach an acceptable negotiated settlement in the near future, it will commence legal proceedings.

**Mr. Laws:** To ask the Chancellor of the Exchequer how many tax credit overpayments there were in 2004–05; and what the value was. [8110]

**Dawn Primarolo:** Estimates of numbers and values of overpayments or underpayments for 2004–05 awards at 5 April 2005 will not be available until after family circumstances and incomes for 2004–05 have been finalised. The most recent estimates available for the number of overpaid awards and the value of these overpayments is for awards at 5 April 2004 based on final family circumstances and incomes for 2003–04. They appear in the HMRC publication "Child and Working Tax Credits Annual statistics. 2003–04 Payments." The estimates are based on samples and are subject to significant sampling uncertainty. This publication can be found on the HMRC website at http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-quarterly-stats.htm

**Mr. Laws:** To ask the Chancellor of the Exchequer pursuant to the statement of 22 June 2005, *Official Report*, columns 801–14, by the Paymaster General, on tax credits, if he will change the payments page of an award notice to *(a)* advise tax credit recipients that recovery of an overpayment can be challenged, *(b)* draw claimants' attention to the code of practice 26 and *(c)* draw claimants' attention to form TC846; and if he will change the guidance notes accompanying the award notice to give greater prominence to how the Revenue can help with financial hardship. [8124]

**Dawn Primarolo:** HMRC are looking at options for improving the information they give claimants about overpayments. This includes highlighting on the award notice the availability of the extra help claimants can get if their payments have decreased.

Where there is an overpayment, the award notice sent to claimants shows the amount and how it will be recovered. The accompanying notes tell claimants that HMRC's approach to overpayments is outlined in their code of practice 26 (CoP26). CoP26 is published on the HMRC website. They send a copy to claimants who write to them about their overpayment. Claimants who want to dispute recovery of their overpayment do not have to complete form TC846 but HMRC will send them one if they have not already provided the information needed to consider the position.

**Mr. Dunne:** To ask the Chancellor of the Exchequer if he will revise the operation of tax-credits complaints procedures so that individual case officers within HM Revenue and Customs are assigned to each case. [8184]

**Dawn Primarolo:** HM Revenue and Customs deal with complaints about tax credits in accordance with the policy and procedures set out in their Code of Practice 1: 'Putting things right'. Individual complaints handlers, who are members of dedicated teams, are assigned to each complaint and remain responsible for it until it is resolved.

**Mr. Laws:** To ask the Chancellor of the Exchequer, what legal advice he has received in relation to recovery of overpaid tax credits; and if he will make a statement. [8604]

**Dawn Primarolo:** I refer the hon. Member to the letter I sent him today.

**Mr. Hood:** To ask the Chancellor of the Exchequer, how many requests to reconsider the recovery of overpayments of working tax credit were received in *(a)* 2003, *(b)* 2004 and *(c)* 2005. [8847]

**Dawn Primarolo:** Overpayments for 2003–04 were only finalised after April 2004 when HMRC started finalising tax credits awards for that year and the Department began considering disputed overpayments in June 2004.

In 2004–05, around 217,000 claimants had returned form TC846, or had otherwise been recorded as requesting the write off of their overpayments on the grounds of official error. In April and May 2005, the tax credit office received around 54,000 similar requests. There are no separate figures relating to working tax credit.

## Tax Gap

**Mr. Austin Mitchell:** To ask the Chancellor of the Exchequer if he will *(a)* use a model similar to that used by the US Inland Revenue Service to estimate the tax gap in the UK and *(b)* regularly publish the results of the estimate. [8226]

**Dawn Primarolo:** There is currently no reliable estimate of the amount of direct taxes underpaid. The model used by US Inland Revenue Service to estimate the tax gap consists of a large number of component parts. HMRC is exploring the use of a number of these methods to estimate parts of the tax gap.

It was acknowledged by the NAO Fraud Study—published in 2003—that HMRC is as well advanced as overseas fiscal authorities in its thinking and work on fraud measurement.

## Tax Incentives

**Mr. Austin Mitchell:** To ask the Chancellor of the Exchequer what tax incentives are available to businesses locating and operating in the UK. [8231]

**Dawn Primarolo:** The UK's macroeconomic stability, low rates of corporation tax and other tax incentives such as tax relief for intangibles assets and R and D tax credits, make the UK a very competitive environment for business.

### Tax Relief (Pension Contributions)

**Mr. Laws:** To ask the Chancellor of the Exchequer what estimates he has made of the cost of tax life on pension contributions in *(a)* 2005–06 *(b)* 2006–07 and *(c)* 2007–08, broken down by tax rate. [8741]

**Mr. Ivan Lewis:** Latest estimates of the cost of tax relief on private pension contributions for 1998–99 to 2003–04 are published on the HMRC website: http://www.hmrc.gov.uk/stats/pensions/table7_9_september04.pdf

Estimates for the years asked for in the question are not available.

### Taxation

**Andrew Rosindell:** To ask the Chancellor of the Exchequer what assessment he has made of the effect of the level of taxation on the economy. [8518]

**Mr. Des Browne:** The Government's macro-economic framework consistently has delivered stability with strong growth and low inflation, establishing a track record that has been acknowledged internationally. The Government's approach to taxation balances the need to finance better quality public services, deliver fairness and promote sustainable development while ensuring that the UK benefits from the advantages of being a lightly taxed economy.

### Taxis

**David T.C. Davies:** To ask the Chancellor of the Exchequer how much the Department has spent on taxis in each of the last five years. [6514]

**John Healey:** The Treasury's estimated spending on taxis in the last five years is as follows:

*£000*

| | *Cost* |
|---|---|
| 2000–01 | 143 |
| 2001–02 | 120 |
| 2002–03 | 163 |
| 2003–04 | 151 |
| 2004–05 | 149 |

The figures for 2002–03 onwards include courier costs, since the Treasury has a combined contract for courier and taxi services, and it is not feasible to disaggregate the courier element.

### VAT

**Sandra Gidley:** To ask the Chancellor of the Exchequer, what discussions he has had with the Secretary of State for Health on reducing the VAT rate on condoms. [9070]

**Dawn Primarolo:** VAT rates are a matter for the Chancellor and any changes will be considered as part of the Budget process.

Treasury Ministers and officials meet their Department of Health counterparts regularly to discuss a wide range of issues

**Mr. Austin Mitchell:** To ask the Chancellor of the Exchequer what the VAT gap was in each year since 1997. [8225]

**Dawn Primarolo:** Estimates of the VAT gap for recent years are available in the December 2004 paper "Measuring and Tackling Indirect Tax Losses", which is available in the Library of the House.

### Volunteering

**Mr. Kidney:** To ask the Chancellor of the Exchequer what steps are being taken within his Department to support the International Year of the Volunteer; and what steps have been taken to promote volunteering since 1997. [6404]

**Paul Goggins:** I have been asked to reply.

The Home Office budget to promote volunteering and the wider voluntary and community sector has increased almost tenfold from £16 million in 1997–98 to £153 million in 2005–06. Some examples of the initiatives that the budget has been used for, include:

The Time Limited Development Fund (TLDF)—a £13.5 million boost for volunteering in deprived communities. 113 voluntary organisations were selected in May 2002 for funding over the years 2002–03 to 2004–05. The organisations worked in deprived areas across England to help build the capacity of local communities by significantly increasing the number of local people involved in voluntary services and community support.

ChangeUp—a capacity building and infrastructure framework for the voluntary and community sector. ChangeUp is being supported by an initial investment of £80 million to be spent by March 2006, and a further £70 million for years 2006–07 and 2007–08.

Futurebuilders—the Government set up the £125 million Futurebuilders Fund, an innovative programme designed to assist front line voluntary and community organisations to build their capacity to deliver public services by providing tailored loan based funding packages.

The Russell Commission—the Government are allocating £45 million between 2005–06 and 2007–08 to support the implementation of the Commission's recommendations. This will be supported by a matched volunteering opportunities fund, which aims to attract at least £55 million from private sector sources.

International Year of the Volunteer—The National Centre for Volunteering, in consultation with the Home Office and key volunteering-involving organisations, agreed a structure for the delivery of the International Year of the Volunteer which took place in 2001. Those involved in the programme considered the Year to be a success. The Active Community Unit at the Home Office provided £297,229 core funding for the Year. Furthermore, 2005 is the Year of the Volunteer. The aims and objectives of the Year are to create awareness of, increase the opportunities for and encourage more people to get involved in volunteering. The Year is

owned by volunteers, led by a partnership between Community Service Volunteers (CSV) and the Volunteering England consortium, and supported by the Home Office. The Volunteering England consortium consists of Volunteering England, community sector. TimeBank, YouthNet UK, The Media Trust, Business in the Community (BitC) and Youth Action Network. The Home Office spending on the Year is illustrated in table one. The devolved administrations are funding and hosting their own campaigns and initiatives to support the year and these differ in each country.

*Table 1: Home Office investment into YV05*

| | *Policy initiatives* | *Amount invested by the Home Office (£)* |
|---|---|---|
| Community Service Volunteers | Principal Voluntary Sector partner delivering a range of activities, events, promotional materials and press and media coverage. | 1,000,000 |
| Community Service Volunteers | To deliver a government employee volunteering scheme. | 500,000 |
| Volunteering England | Principal Voluntary Sector partner working with a consortium to deliver a range of activities, events, promotional materials and press and media coverage. | 1,000,000 |
| Volunteering England | To increase the capacity of local volunteer centres throughout England. | 3,000,000 |
| Volunteering England | Small grants programme for other stakeholders who can contribute to achieving the objectives of YOV 2005 | 250,000 |
| Marketing/Communications Support | Research and branding, publicity, partnership marketing and the YOV 2005 website (www.yearofthevolunteer.org). | 250,000 |
| Website and YOV 2005 evaluation support | To develop and enhance www.yearofthevolunteer.org and manage project evaluation. | 100,000 |
| Media Trust | For high-profile, multi-media consumer marketing campaign which aims to supercharge the year, raise awareness of volunteering and drive registrations of new volunteers. | 1,000,000 |
| Total | | 7,100,000 |

### Young People (Denbighshire)

**Chris Ruane:** To ask the Chancellor of the Exchequer how many and what percentage of young people are not in employment, education or training in Denbighshire, broken down by ward and listed in descending order. [8268]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Len Cook to Chris Ruane, dated 4 July 2005:*

As National Statistician, I have been asked to reply to your recent Parliamentary Question about young people in Denbighshire. (8268)

The number of people aged 16 to 24 not in employment, or in full-time education or government training, resident in Denbighshire during the 12 months ending February 2004 is estimated at 1,000. This represents around 11 per cent. of the population in that age group. A breakdown by ward is not available.

This estimate is based on annual local area Labour Force Survey data which, as with any sample survey, is subject to sampling variability.

## HOME OFFICE

### "Scrap it" Campaign

**Mr. Burstow:** To ask the Secretary of State for the Home Department for what reasons his Department plans to withdraw funding for the Scrap It campaign. [7216]

**Hazel Blears:** The Home Office has provided more than £13 million over three years until March 2006 with the aim of kick starting abandoned vehicle removal in London. From the outset, it was agreed that the scheme would be funded for three years, with the long-term goal for all partners to have in place good procedures and practice to continue vehicle removal after the funding ended.

We are delighted with the success of the Scrap It scheme which has enabled more than 30,000 (98 per cent.) vehicles confirmed as untaxed or abandoned to be removed within 72 hours of reporting. This has made a significant impact on the numbers of vehicles reported as abandoned, which fell to 220,000 vehicles in 2003–04. In April 2005, the British Crime Survey also recorded a significant reduction in people perceiving abandoned or burnt out cars as a very or fairly big problem in their area.

### Acts of Parliament (Internet Access)

**Mr. Gordon Prentice:** To ask the Secretary of State for the Home Department if he will take steps to make all Acts of Parliament published before 1988 for which his Department is responsible available online. [3720]

**Mr. Charles Clarke:** The Controller of Her Majesty's Stationery Office (HMSO) within the Cabinet Office is the Queen's Printer of Acts of Parliament, and responsible for the publication of Acts of Parliament. HMSO has considered the publication of Acts prior to 1988, which is the earliest date when these were available electronically, but has decided not to do so as many have been heavily amended and to publish them in their original form would be misleading for many users. The Government are, however, taking forward development of a Statute Law Database which will contain the fully revised and updated text of all legislation from 1275. It is expected that this will be made available to the general public during 2006.

### Additional Police Officers (Funding)

**Mr. Drew:** To ask the Secretary of State for the Home Department what contractual relationship is entered

into when a local authority funds additional police officers; and whether funding is *(a)* on the basis of full cost recovery and *(b)* is guaranteed for a fixed period. [5030]

**Hazel Blears:** Under section 92 of the Police Act 1996 the council of a county, district, county borough or London borough may make grants to any police authority established under section three of the Act whose police area falls wholly or partly within the county, district, county borough or borough. Grants under this section may be made unconditionally or, with the agreement of the chief officer of police for the police area concerned, subject to conditions. The details of any agreement are a matter for negotiation between the council, police authority and chief officer concerned.

**Mr. Drew:** To ask the Secretary of State for the Home Department whether he has approved the contract to be signed between Gloucestershire county council and Gloucestershire police authority to meet the new administration's commitment to the employment of 60 new police officers. [5031]

**Hazel Blears:** I understand that the chief constable of Gloucestershire Constabulary (Dr. Tim Brain QPM), the police authority and the county council are discussing a possible grant by the council to the authority. Section 92 of the Police Act 1996 makes provision for such grants, which do not require the approval of the Home Secretary.

### African Children

**Mr. Hands:** To ask the Secretary of State for the Home Department what steps he has taken since September 2001 to prevent the importation of children from Africa to be murdered as human sacrifices in churches; and if he will make a statement. [6765]

**Mr. McNulty:** Since September 2001 the Immigration and Nationality Directorate (IND) has taken forward several initiatives aimed at identifying vulnerable children on arrival in the UK:

Taking forward the recommendations of Operation Paladin—a multi-agency project led by the Metropolitan police aimed at protecting children.

An interviewing minors course has been available to staff in the Immigration Service since November 2004, providing specialist training in the skills needed to recognise signs of abuse as well as an awareness of the potential issues.

In June 2004 the IND Children's Taskforce was set up to address new duties and responsibilities imposed on agencies by the Children Act 2004.

The vulnerability of children who arrive unaccompanied in the United Kingdom is recognised and every effort is made to establish the bona-fides of the person they are meeting and the purpose of their visit. Social Services are alerted in all cases where an immigration officer has concerns for the welfare of the child.

### Agency Funding

**Mr. Hoban:** To ask the Secretary of State for the Home Department what funding the *(a)* Youth Crime Programme Board, *(b)* Crime Reduction Delivery Board, *(c)* Penalty Notices for Disorder Operational Working Group, *(d)* Prolific and Other Priority Offenders Programme Board and *(e)* Safer Schools Partnership Steering Group has received from (i) his Department and (ii) the Youth Justice Board for 2005–06. [4900]

**Paul Goggins:** I understand from the Secretary of State for Education and Skills that there is no programme budget to cover the Youth Crime Programme Board as it is classed as routine business. The costs of these meetings are absorbed by normal running costs allocated across the Children, Young People and Families Directorate in the Department for Education and Skills.

The Safer Schools Partnership Steering Group is also chaired by the Department for Education and Skills. This board received £300,000 last year. Funding for 2005–06 is still under negotiation.

No specific budgets are allocated to the Crime Reduction Delivery Board, the Penalty Notices for Disorder Operational Working Group or the Prolific and other Priority Offenders Programme Board from either the Home Office or the Youth Justice Board. Again, the costs of these meetings are absorbed by normal running costs allocated across the Home Office.

### Antisocial Behaviour Orders

**Tim Loughton:** To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued to minors in each of the last five years, broken down by age. [4605]

**Hazel Blears:** The available information is given in the following table.

*The number of ASBOs issued at all courts, as reported to the Home Office, by age and period, up to 30 September 2004 (latest available)*

*England and Wales*

| | Period | | | | | |
|---|---|---|---|---|---|---|
| *Age* | *1 June 2000 to 31 December 2000*[1] | *2001* | *2002* | *2003* | *1 January 2004 to 30 September 2004* | *Total* |
| 10 | 1 | 2 | — | 5 | 5 | 13 |
| 11 | 3 | 10 | 5 | 10 | 13 | 41 |
| 12 | 5 | 10 | 10 | 15 | 16 | 56 |
| 13 | 8 | 17 | 13 | 34 | 48 | 120 |
| 14 | 5 | 23 | 44 | 73 | 107 | 252 |
| 15 | 21 | 49 | 51 | 119 | 168 | 408 |
| 16 | 9 | 45 | 64 | 148 | 189 | 455 |
| 17 | 9 | 28 | 48 | 110 | 188 | 383 |
| Total | 61 | 184 | 235 | 514 | 734 | 1,728 |

[1] Between 1 April 1999 and 31 May 2000 data were collected on aggregate numbers only by police force area (pfa).

**Mr. Malins:** To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued in each of the last four years for which figures are available; and what proportion were issued to persons under 18 years. [5156]

**Hazel Blears:** The available information is given in the table.

*The number of ASBOs issued at all courts, as reported to the Home Office, by period, and percentage age breakdown, up to 30 September 2004[1]—England and Wales*

| | | Percentage by age group | | |
|---|---|---|---|---|
| Period | Number issued | 10–17 | 18+ | not known |
| 2001 | 323 | 57 | 41 | 2 |
| 2002 | 403 | 58 | 38 | 4 |
| 2003 | 1,035 | 50 | 50 | 0 |
| 2004[2] | 1,826 | 40 | 58 | 1 |
| Total | 3,587 | 46 | 52 | 1 |

[1] Latest available.

[2] January to September.

**Dr. Cable:** To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been served on people with *(a)* mental health problems and *(b)* disabilities. [7236]

**Hazel Blears:** Information is not collected centrally about the characteristics of persons issued with an antisocial behaviour order.

**Dr. Cable:** To ask the Secretary of State for the Home Department what the latest figures are for the numbers of occasions on which antisocial behaviour orders have been breached; and when figures will be updated. [7237]

**Hazel Blears:** The currently available information on the number of occasions on which antisocial behaviour orders have been breached is 2,053. This figure is based on those orders issued, as reported to the Home Office, between 1 June 2000 and 31 December 2003 and covers all breach occasions within that period.

Breach data for 2004 will be available towards the end of the year.

**Dr. Cable:** To ask the Secretary of State for the Home Department for what types of behaviour antisocial behaviour orders have been used; and how many antisocial behaviour orders have been used for each type of behaviour. [7238]

**Hazel Blears:** Antisocial behaviour orders (ASBOs) are commonly used to tackle general unruly behaviour such as verbal abuse, harassment, graffiti and noise nuisance. However, they have also been used to combat racial harassment, drunk and disorderly behaviour, vehicle crime and prostitution. The wide range of antisocial behaviour that can be tackled by ASBOs illustrates their flexibility.

Data collated by the Home Office for statistical purposes does not identify the circumstances that led to the issuing of an ASBO.

**Dr. Cable:** To ask the Secretary of State for the Home Department when the effectiveness of antisocial behaviour orders will be evaluated; and what the criteria for the evaluation will be. [7239]

**Hazel Blears:** From the summer we will be conducting an evaluation of antisocial behaviour orders (ASBOs). The criteria for evaluation will be based on key research questions. These questions will focus on the extent and circumstances under which ASBOs are effective in tackling antisocial behaviour, and how ASBOs work as part of wider strategies to tackle antisocial behaviour.

Published findings from this work will be available in 2006.

## Asylum and Immigration

**Tony Baldry:** To ask the Secretary of State for the Home Department how much the Government will be required to pay to GSL UK Ltd. as a consequence of not proceeding with the accommodation centre for asylum seekers in Bicester. [5814]

**Mr. McNulty:** The cost of terminating the contract with GSL for the accommodation centre at Bicester is currently the subject of discussions between the parties.

**Tony Baldry:** To ask the Secretary of State for the Home Department what proportion of the cost of the proposed accommodation centre for asylum seekers at Bicester is attributable to the cost of the acquisition of the land. [5815]

**Mr. McNulty:** The cost of the Bicester site was £3.25 million.

**Tony Baldry:** To ask the Secretary of State for the Home Department whether his Department acquired the site for the proposed accommodation centre at Bicester from the Ministry of Defence at full market value. [5816]

**Mr. McNulty:** Yes. The price agreed with the Ministry of Defence's retained valuer was market value.

**Tony Baldry:** To ask the Secretary of State for the Home Department how many places he expects there to be at the secure detention centre for failed asylum seekers at Bicester. [5817]

**Mr. McNulty:** The details of any such centre have yet to be decided.

**Tony Baldry:** To ask the Secretary of State for the Home Department what legal advice is provided to failed asylum seekers held in secure detention centres. [5818]

**Mr. McNulty:** Legal advice given to those in immigration detention is a confidential matter between legal representatives and their clients. However, detainees are made aware of the availability of legal advice through information displayed around the removal centres. Information is also provided in the library. It is a matter for individual detainees to decide whether or not they wish to seek legal advice or representation. In those cases where individuals are detained as part of the Fast Track asylum process legal advice is available on site.

**Tony Baldry:** To ask the Secretary of State for the Home Department who he expects to run the proposed secure detention centre at Bicester. [5819]

**Mr. McNulty:** Should we proceed to develop a secure removal centre near Bicester we will appoint a contractor following a procurement competition under EU procurement regulations.

**Mr. Malins:** To ask the Secretary of State for the Home Department for what reason applicants for asylum arriving from France are not returned to France. [3625]

**Mr. McNulty:** Returns of applicants to other European states, including France, are governed by the provisions of the Dublin II and Eurodac regulations.

Where there is evidence that France is the responsible state, then the appropriate procedures will be initiated by the Immigration Service to secure the transfer of the applicant to France.

If the evidence and application of the Dublin arrangements establishes that responsibility lies with any other participating state then the appropriate transfer would be sought to that state rather than to France.

If no other participating state (including France) has responsibility in accordance with the Dublin II criteria then the application for asylum is considered by the United Kingdom.

**Mr. Malins:** To ask the Secretary of State for the Home Department if he will renegotiate the bilateral agreement with France to enable the UK to send asylum seekers arriving from France back to France to process their claims. [3626]

**Mr. McNulty:** We have no intention to renegotiate the bilateral "gentleman's agreement". The asylum aspects have been replaced by the Dublin II and Eurodac regulations. These regulations have enabled us to return more asylum seekers, not just to France, but to other EU member states.

**Andrew Rosindell:** To ask the Secretary of State for the Home Department how much has been spent on provision for asylum seekers in each local authority since 1995. [5403]

**Mr. McNulty:** Local authorities retain responsibility for providing support to certain asylum seekers and can claim grant from the Home Office to meet the reasonable costs of providing this support. Details of the grants paid for adults and families since 1 April 1999 and Unaccompanied Asylum Seeking Children UASC, since 1 April 2000 are available on the Immigration and Nationality Directorate website:

http://www.ind.homeoffice.gov.uk/ind/en/home/applying/national_asylum_support/stakeholders/finance.html.

Other expenditure on the provision of support to asylum seekers is not recorded by individual local authority and therefore a breakdown cannot be provided.

Prior to 1 April 1999 the Department of Health was responsible for the grant to local authorities for the provision of support to asylum seekers.

**Jeremy Corbyn:** To ask the Secretary of State for the Home Department how many asylum applicants from *(a)* Somalia, *(b)* Ethiopia, *(c)* Eritrea, *(d)* Democratic Republic of Congo, *(e)* Senegal and *(f)* Ivory Coast have been (i) granted exceptional leave to remain, (ii) granted indefinite leave to remain, (iii) refused leave and (iv) removed in each year since 2000. [5753]

**Mr. McNulty:** The table shows initial decisions, appeal determinations and removals for nationals of Somalia, Ethiopia, Eritrea, Democratic Republic of Congo, Senegal and the Ivory Coast since 2000. Decisions do not necessarily relate to applications made in the same period and appeal outcomes do not necessarily relate to initial decisions made in the same period.

Information on asylum applications, initial decisions, appeals and removals are published quarterly. The next publication covering the second quarter of 2005 will be available in August 2005 on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

*Initial decisions[1,2] on asylum applications, 2000 to 2004*

n/a = not applicable
[1] Figures rounded to nearest 5, with '*' = 1 or 2.
[2] Information is of initial determination decisions, excluding the outcome of appeals or other subsequent decisions.
[3] Humanitarian protection and discretionary leave replaced exceptional leave to remain from 1 April 2003.
[4] Cases decided under pragmatic measures aimed at reducing the pre '96 Act asylum backlog.
[5] May include a small number of cases where asylum has been granted.
[6] May include a small number of cases where the application has been refused on substantive grounds.
[7] Provisional figures.

**Mr. Fabian Hamilton:** To ask the Secretary of State for the Home Department if he will allow asylum seekers to work while awaiting a decision on their cases. [7232]

**Mr. McNulty:** Asylum seekers are not allowed to work in the UK and we have no plans to change this policy. However, since 6 February 2005, following the introduction of the EU directive on reception standards for asylum seekers, asylum seekers may seek permission to work if their claim remains outstanding for longer than 12 months without a decision being made on it and providing the reason for the delay cannot be attributable to the asylum seeker.

**Mr. Shepherd:** To ask the Secretary of State for the Home Department if he will make a statement on his policy on deporting failed asylum seekers who are suffering from HIV/AIDS, following the Court of Appeal's judgment in N (FC) *v.* the Secretary of State for the Home Department. [7992]

**Mr. McNulty** *[holding answer 28 June 2005]:* The policy on removing persons, including failed asylum seekers, who are suffering from HIV/AIDS is being reviewed in the light of the House of Lords appeal judgment in N (FC) *v.* the Secretary of State for the Home Department.

**Mr. Gale:** To ask the Secretary of State for the Home Department if he will grant indefinite leave to remain to asylum seekers proven to have come to the UK from Zimbabwe and held in UK detention centres awaiting deportation. [8252]

**Mr. McNulty** *[holding answer 29 June 2005]:* Asylum and human rights claims by Zimbabwean nationals, like those from nationals of every other country, are considered on their individual merits in accordance with our obligations under the 1951 UN refugee convention and the European convention on human rights (ECHR). We do not consider it appropriate to grant indefinite leave to remain purely on the basis of a person's nationality.

As with any other nationality, Zimbabweans who meet the definition of a refugee in the 1951 convention are granted asylum. If they do not qualify for asylum, but there are other circumstances that make them particularly vulnerable and engage our obligations under the ECHR, they are granted humanitarian protection or discretionary leave. If their application is refused, they have a right of appeal to the independent asylum and immigration tribunal. If an asylum and human rights claim is refused, and any appeal to the independent asylum and immigration tribunal is unsuccessful, that means that it would be safe for that particular individual to return to Zimbabwe. It is in this way we ensure that we provide protection to those Zimbabweans who need it.

**Alistair Burt:** To ask the Secretary of State for the Home Department (1) if he will ensure that no asylum detainee is transported to a port of departure pursuant to a deportation order in a vehicle without CCTV, or the offer of escort by an independent observer; [8454]

(2) whether CCTV cameras have been introduced in all the vehicles used to escort asylum detainees to and from Yarl's Wood and Oakington Detention Centres; and if he will make a statement. [8455]

**Mr. McNulty:** Group 4 Securicor is contracted to carry out all in-country escorts as well as escorted removals overseas.

Since the commencement of the contract, due to the increased volume of demand, Securicor has not been able to meet all requests for overseas removals. As a result, for some overseas removals we have continued to use our previous approved list supplier Recruitment Solutions International (RSI).

All vehicles used by our contracted supplier Securicor are fitted with CCTV. RSI are currently fitting their vehicles with CCTV.

**Alistair Burt:** To ask the Secretary of State for the Home Department how many asylum detainees have received new orders for deportation during the course of investigation into complaints made against escort services for transport to and from Oakington and Yarl's Wood Detention Centres in the last five years. [8458]

**Mr. McNulty:** This information is not readily available and the provision of a reply would be at disproportionate cost.

**Andrew Rosindell:** To ask the Secretary of State for the Home Department how many *(a)* male and *(b)* female asylum seekers were accepted into the UK since 1997. [8460]

**Mr. McNulty:** The requested information on when asylum seekers arrive in the UK is not available. Data on applications by asylum seekers are based on the date when an application is made.

The table shows the number of asylum applications received since 1997 by sex.

Data on applications and initial decision outcomes for asylum seekers broken down by sex is published annually. The next publication covering 2004 will be available in August 2005 on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

*Applications[1] for asylum in the UK, excluding dependants by sex—1997 to 2003*

| | *Applications received* | | |
|---|---|---|---|
| | *Male* | *Female* | *Total* |
| 1997 | 24,375 | 8,125 | 32,500 |
| 1998 | 35,430 | 10,585 | 46,015 |
| 1999 | 47,675 | 23,480 | 71,160 |
| 2000[2] | 65,055 | 15,260 | 80,315 |
| 2001 | 53,940 | 17,090 | 71,025 |
| 2002 | 62,355 | 21,780 | 84,130 |
| 2003[3] | 34,090 | 15,320 | 49,405 |

[1] Figures rounded to the nearest 5.

[2] May exclude some cases lodged at local enforcement offices between January 1999 and March 2000.

[3] Provisional figures.

**Alistair Burt:** To ask the Secretary of State for the Home Department whether the investigation into the complaints made by Angeline Bure, Ashley S. Tshabangu and Anastancia Zulu, Zimbabwean nationals, against the escort service RSI in relation to the execution of a deportation order on 1 May has been completed. [8503]

**Mr. McNulty** *[holding answer 30 June 2005]:* Ms Bure, Ms Tshabangu and Ms Zulu have all alleged assault by the escorts contracted to escort them on their removal.

In all cases where a detainee alleges assault by the escorts, the escorting Contract Monitor will first refer the matter to the police as the appropriate investigating authority. The Immigration Service will co-operate fully with any police enquiries. The Contract Monitor will also consider whether the allegation is such that it is appropriate to suspend the certification of the escorting officer(s) involved.

On completion of any police inquiry, the Contract Monitor will also conduct an investigation into the allegation under the UK Immigration Service's internal complaints procedures.

The investigations into the complaints made by Ms Bure, Ms Tshabangu and Ms Zulu are still outstanding with the police.

**Alistair Burt:** To ask the Secretary of State for the Home Department when he received notification of a complaint by Angeline Bure, Ashley S. Tshabangu and Anastancia Zulu, Zimbabwean nationals, about the escort service RSI in relation to the execution of a deportation order to Zimbabwe on 1 May 2005. [8504]

**Mr. McNulty:** Notification of these complaints was received by the escorting contract monitor on 3 May 2005.

**Alistair Burt:** To ask the Secretary of State for the Home Department what recent representations he has received concerning the conduct of escort services for asylum detainees to and from Yarl's Wood and Oakington detention centres. [8505]

**Mr. McNulty** *[holding answer 30 June 2005]:* Representations have recently been received from the Association of Visitors to Immigration Detainees (AVID). AVID inquired into the circumstances surrounding the escorted removal of three Zimbabwean women from Yarl's Wood Removal Centre.

**Mr. Hood:** To ask the Secretary of State for the Home Department how many applications for asylum were received from Zimbabwean nationals in *(a)* 2001, *(b)* 2002, *(c)* 2003, *(d)* 2004 and *(e)* 2005; and if he will make a statement. [8838]

**Mr. McNulty:** Information on asylum applications for nationals of Zimbabwe are published quarterly and annually. The information requested is given in the following table, and published in the annual bulletin Asylum Statistics United Kingdom 2003, and (data for 2004 and Q1 2005) Asylum Statistics: 1st Quarter 2005 United Kingdom. Copies are available from the Library of the House and on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html

*Applications[1] for asylum in the UK, excluding dependants, for nationals of Zimbabwe, 2001 to Q1 2005*

| | *Applications received* |
|---|---|
| 2001 | 2,140 |
| 2002 | 7,655 |
| 2003[2] | 3,295 |

*Applications[1] for asylum in the UK, excluding dependants, for nationals of Zimbabwe, 2001 to Q1 2005*

| | Applications received |
|---|---|
| 2004[2] | 2,050 |
| Q1 2005[2] | 220 |

[1] Figures rounded to the nearest 5.
[2] Provisional figures.

**Mr. Hood:** To ask the Secretary of State for the Home Department how many asylum applications from Zimbabwe have been successful in the past 18 months; and if he will make a statement. [8840]

**Mr. McNulty:** Information on asylum applications, initial decision outcomes and appeal outcomes for nationals of Zimbabwe are published quarterly and annually. The information requested is given in the following table, and published in the annual bulletin Asylum Statistics United Kingdom 2003, and (data for 2004 and Q1 2005) Asylum Statistics: 1st Quarter 2005 United Kingdom. Copies are available from the Library of the House and on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html

*Asylum applications[1] received in the United Kingdom, excluding dependants, and initial decisions[2] on applications, nationals of Zimbabwe, Q4 2003—Q1 2005*

*Principal applicants*

| | Applications | Decisions | | | | |
|---|---|---|---|---|---|---|
| | Total | Total decisions | Grants of asylum | Grants of HP[3] | Grants of DL[3] | Total refusals |
| Q4 2003 | 680 | 950 | 115 | — | 5 | 830 |
| Q1 2004 | 545 | 845 | 90 | — | 10 | 740 |
| Q2 2004 | 505 | 550 | 55 | — | 5 | 490 |
| Q3 2004 | 535 | 630 | 45 | [4]— | 10 | 575 |
| Q4 2004 | 460 | 530 | 25 | [4]— | 5 | 500 |
| Q1 2005 | 220 | 330 | 20 | [4]— | 5 | 300 |

[1] Figures are provisional and rounded to nearest 5.
[2] Information is of initial determination decisions, excluding the outcome of appeals or other subsequent decisions.
[3] Humanitarian protection and discretionary leave replaced exceptional leave to remain from 1 April 2003.
[4] Figures = 1 or 2.

**Michael Connarty:** To ask the Secretary of State for the Home Department how many applications for asylum in the UK were made in 2004; and how many of those applying were detained during the application process. [8947]

**Mr. McNulty:** 33,930 asylum applications were received in 2004, 31 per cent. lower than in 2003 (49,405). Information on how many of these were detained during the application process is not available and could be obtained only at disproportionate cost by examination of individual case files.

As at 25 December 2004, 1,515 persons who had sought asylum at some stage were being detained in the UK solely under Immigration Act powers. This represented 78 per cent. of the total number of persons detained as at that date. This excludes persons detained in police cells and persons detained under dual immigration and other powers.

Information on asylum applications and asylum detainees are published quarterly on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html

**Andrew Rosindell:** To ask the Secretary of State for the Home Department what steps the Government are taking to stop illegal immigrants being smuggled into the UK. [8529]

**Mr. McNulty:** Through expanding our juxtaposed controls, deploying new detection technology and increasing our airline liaison network overseas we have already made significant improvements to border controls and in preventing illegal immigrants being smuggled into the UK. These measures have had a significant impact in deterring illegal immigration and in reducing asylum intake.

In order to enhance further our border controls we are expanding our airline liaison officer network abroad and developing and implementing a more comprehensive and debriefing system in the UK. We are also expanding our mobile freight search and surveillance capability to counter any new or emerging threats.

**Mr. Laxton:** To ask the Secretary of State for the Home Department if he will review the immigration process for overseas doctors who have passed the Professional and Linguistic Assessment Board Test. [6114]

**Mr. McNulty:** The provisions for overseas doctors coming to the UK to take the Professional and Linguistic Assessment Board Test were reviewed earlier this year. After consultation with the Department of Health, General Medical Council and British Medical Association, these provisions were incorporated into the Immigration Rules on 15 March 2005. We have no further plans to review these specific provisions.

We are in the process of reviewing the immigration system for all those coming to the UK to work, train or study, following the publication of the five year strategy "Controlling our borders: Making migration work for Britain" on 7 February 2005.

**Mr. Randall:** To ask the Secretary of State for the Home Department how many immigration cases that were suspended following the Sutton Report have not yet been processed. [5135]

**Mr. McNulty:** We intend to publish all statistics relating to the European Community Association Agreements towards the end of August 2005.

**Keith Vaz:** To ask the Secretary of State for the Home Department (1) what measures he is undertaking to increase the number of immigration staff at key immigration posts in the UK; [6436]

(2) when he expects all immigration posts to be operated by the target number of staff. [6437]

**Mr. McNulty:** The Immigration Service is currently conducting internal and external recruitment campaigns at a number of locations to meet current and anticipated staffing requirements for the current financial year. We intend to follow this with a further rolling recruitment programme to maintain staffing levels.

Postings will be made on a phased basis and on current projections it is anticipated that the majority of successful candidates will be in post by October 2005 and all will be in post by December.

**Keith Vaz:** To ask the Secretary of State for the Home Department (1) which officials are entitled to assess the standard of English of an applicant for citizenship in the UK; [6439]

(2) what qualifications an official is required to possess to assess the standard of English of an applicant for citizenship in the UK. [6438]

**Mr. McNulty:** Government officials do not assess language ability. Home Office officials check that documents submitted show that the applicant meets the standard required for those applying for naturalisation.

Applicants can submit a certificate at English for Speakers of Other Language (ESOL) entry three or above or an educational certificate that could only have been obtained by someone with good English. Entry three is set at the B1 threshold level under the Council of Europe framework which is a level adopted in many European countries for naturalisation purposes.

For those applicants who hold no such certificate, a qualified solicitor or notary may, by way of a short interview certify that someone is a native speaker of English or that their English language skills are as good as would be expected of a native English speaker of full age and capacity.

**Keith Vaz:** To ask the Secretary of State for the Home Department what plans he has to extend the length of visit visa that can be issued to an overseas doctor on successful completion of the Professional and Linguistic Assessment Board examination. [6475]

**Mr. McNulty:** There is no need to extend the leave granted to overseas doctors after they pass the Professional and Linguistic Assessment Board (PLAB) Test. Once they have passed the PLAB Test, overseas doctors can apply to extend their stay to pursue their training in the UK or to take up employment here. They do not need to have a specific training post arranged in order to be granted leave for this purpose, as long as the relevant Postgraduate Dean confirms that they will be pursuing their training in the UK.

Since 15 March 2005 those granted leave to take the PLAB Test are not considered as visitors but have a separate category within the Immigration Rules.

**Keith Vaz:** To ask the Secretary of State for the Home Department how many overseas doctors *(a)* made original applications for, *(b)* passed and *(c)* failed the Professional and Linguistic Assessment Board examination; and how many who passed made renewal applications for their visit visa (i) in total, (ii) once, (iii) on two or three occasions, (iv) on four or five occasions and (v) on more than five occasions in each year. [6476]

**Mr. McNulty:** The General Medical Council (GMC) uses the Professional and Linguistic Assessment Board (PLAB) to enable overseas doctors to demonstrate their knowledge of English and their medical expertise. The Home Office does not administer the PLAB test, nor does it know how many candidates sat either part of the test (the first part of which may be taken overseas) or what the results were.

Doctors coming to the UK to take the PLAB test are eligible for up to six months of leave to take the PLAB test. They can extend this twice if they need further time to take or re-take the test and have a confirmed test date. If this is not sufficient to enable them to pass the test, they are expected to leave the UK. Once they have passed the PLAB test they are expected to switch into the relevant managed migration route to enable them to pursue their training or take up employment in the UK.

The figures on the number of overseas doctors seeking to extend their leave to take the PLAB test are not available.

### Automatic Number Plate Recognition

**Tom Brake:** To ask the Secretary of State for the Home Department what assessment has been made of the incidence of false positive alerts from the automatic number plate recognition system. [3955]

**Paul Goggins:** The Automatic Number Plate Recognition (ANPR) pilot evaluation report, "Driving Crime Down—Denying Criminals the Use of the Roads" highlighted inadequacies in the accuracy of various intelligence databases available to the Police Service. Not only does poor quality data lead to police time being wasted but it can also detract from the real aim of ANPR, which is to deny criminals the use of the roads.

Work is advancing to improve the timeliness of the Driving Vehicle Licensing Authority (DVLA) databases that are used by ANPR. The DVLA will shortly have Criminal Justice Extranet (CJX) (this provides police forces with telephony, internet access and a secure extranet) accreditation to allow full electronic updating to police forces on a regular basis. In addition, bar coding of Vehicle Excise Licenses at point of issue and vehicle documentation registration improvements should further improve matters during the coming year.

Plans are also in hand to ensure reports generated by the Police National Computer are accurate and that only current information, uploaded from police local databases, is used in ANPR systems.

### Biometric Information

**Mr. Austin Mitchell:** To ask the Secretary of State for the Home Department what assessment he has made of *(a)* the error rate and *(b)* the durability of (i) fingerprint

identification, (ii) retina identification and (iii) facial mapping; and what assessment has been made of the effects of (A) age and (B) seasonal work on the accuracy of fingerprint identification. [6160]

**Andy Burnham:** We have taken a number of steps to assess the accuracy of biometric readings: we have closely reviewed leading scientific evidence in the field; we have consulted biometric experts from academia and industry and we have sought to build on the experience and knowledge of other organisations, such as Immigration and Nationality Directorate (IND), Police Information Technology Organisation (PITO) and Communications-Electronic Securities Group (CESG).

With regard to the effects of age and durability of biometrics, the Home Office has consulted expert opinion which has concluded that fingerprint and iris biometrics do not generally change over long periods, once adulthood is reached. We have reviewed leading studies on facial mapping and continue to review the likely performance of future technologies in this field to make a more detailed judgment on its durability.

Some occupations cause damage to fingerprint biometrics and this may, in some instances, limit the ability of an individual to use this biometric. However, face and iris image biometrics would still be available for these people.

### Citizenship Test

**Keith Vaz:** To ask the Secretary of State for the Home Department what the citizenship tests will contain; who will sit them; and what will happen to an applicant who fails the citizenship test. [7126]

**Mr. McNulty:** I refer my hon. Friend to the written ministerial statement of 15 June 2005, *Official Report*, column 14WS, which sets out the steps we are taking to introduce the requirement that all those applying for naturalisation will need to demonstrate knowledge of life in the United Kingdom. The statement also sets out the two ways in which prospective citizens can demonstrate their knowledge. A person who fails the test is advised to study the source material further before attempting it again.

**Keith Vaz:** To ask the Secretary of State for the Home Department whether the Government have commissioned research into the usefulness of citizenship tests in helping people to settle in the UK. [7127]

**Mr. McNulty:** We shall be looking to the Advisory Board on Naturalisation and Integration to advise on the effectiveness of the tests once they have been introduced.

### Computer Crime

**Mr. Burstow:** To ask the Secretary of State for the Home Department how many cases of computer *(a)* hacking, *(b)* fraud and *(c)* theft his Department recorded in each year since 2001–02; and for each year on how many occasions computer systems have been illegally accessed by computer hackers (i) within and (ii) outside his Department. [6953]

**Mr. Charles Clarke:** Home Office records show that there were no cases of computer hacking or fraud detected from 2001 to date.

The number of incidents of computer theft recorded was 14 in 2001, 19 in 2002, 59 in 2003, 140 in 2004, and 95 in 2005 (to date).

### Computer Misuse Act

**Derek Wyatt:** To ask the Secretary of State for the Home Department what plans he has to reform the Computer Misuse Act 1990; and if he will make a statement. [5041]

**Paul Goggins** *[holding answer 15 June 2005]:* As has previously been announced, changes to the Computer Misuse Act 1990 will be required in order to implement the requirements of the European Union Framework Decision on Attacks Against Information Systems and the related provisions contained in the Council of Europe Cybercrime Convention. These measures will be brought forward when parliamentary time allows.

### Correspondence

**Mr. Donohoe:** To ask the Secretary of State for the Home Department when he expects to reply to the letter of 14 January, from the hon. Member for Central Ayrshire, regarding the application of Edward Salmon of McDonald Drive in Irvine for a British passport. [6159]

**Andy Burnham** *[holding answer 21 June 2005]:* I replied to my hon. Friend on 30 June 2005.

**Lady Hermon:** To ask the Secretary of State for the Home Department what the reason was for the delay in the reply to the letter dated 29 October 2004 from the hon. Member for North Down in relation to the impact of immigration on security in Northern Ireland. [7154]

**Mr. McNulty:** The delay in responding to the hon. Member's letter was not acceptable. It was received on 4 November by the Immigration and Nationality Directorate's (IND) MP's Correspondence Section, whose responsibility is to allocate MP's letters to the appropriate part of IND to draft a reply. Unfortunately, the hon. Member's letter was then misallocated within the Home Office on a number of occasions and was also overlooked in one department for a number of months. Once the correct department had been identified, a draft reply was prepared immediately. Existing procedures have been streamlined and are being enforced, and more staff have been recruited, to ensure that this situation is not repeated.

**Mr. Malins:** To ask the Secretary of State for the Home Department when he will answer the letter dated 1 June 2005 from the hon. Member for Woking concerning Mr. Ahmed (refereqces A581078/3 and PO7892/04). [8372]

**Mr. McNulty:** I wrote to the hon. Member on 1 July.

**Lady Hermon:** To ask the Secretary of State for the Home Department when he expects to answer the letter to him dated 3 June from the hon. Member for North Down in relation to Mr. James Milsom Boland. [9132]

**Mr. McNulty** *[holding answer 30 June 2005]:* My hon. Friend, the Parliamentary under Secretary of State at the Home Office, the member for Leigh (Andy Burnham) wrote to the hon. Member on 29 June 2005.

### Cost of Imprisonment

**Dr. Cable:** To ask the Secretary of State for the Home Department what assessment he has made of the average cost per year of a prisoner held in *(a)* PFI-funded and *(b)* non PFI-funded prisons in each of the last three years; and if he will make a statement. [4540]

**Fiona Mactaggart:** Prior to 1 April 2003 costs for public and contracted prisons were not separated. In financial years 2001–02 and 2002–03 the average cost per prisoner for the whole prison system was £23,105 and £24,241 respectively. In 2003–04 the average cost per prisoner was £25,377 for contracted prisons and £25,718 for public sector prisons.

### Credit Card Fraud (London)

**Sarah Teather:** To ask the Secretary of State for the Home Department how many people were convicted of credit card fraud in each London borough in each of the last five years. [5282]

**Fiona Mactaggart:** The Home Office Court Proceedings database is unable to distinguish offences of credit card fraud from other types of fraud, as the circumstances of individual offences are not collected centrally.

### Crime and Disorder Partnerships

**John McDonnell:** To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness of crime and disorder partnerships; and if he will make a statement. [4787]

**Hazel Blears** *[holding answer 16 June 2005]:* The Home Office has in place performance management arrangements to ensure the effectiveness of crime and disorder reduction partnerships (CDRPs). Under these arrangements challenging targets for crime reduction have been agreed with each CDRP and progress against them is regularly monitored. Under-performing partnerships are offered support and assistance to improve delivery.

Many partnerships are now delivering real reductions in crime, disorder and substance misuse to their communities. Our approach to performance management is to work with local partners to bring the performance of all CDRPs, to the level of the best.

### Criminal Records Bureau

**Mr. Burstow:** To ask the Secretary of State for the Home Department when he expects the Criminal Records Bureau to have the necessary functionality to analyse disclosure applications by employment group. [8004]

**Andy Burnham:** The Criminal Records Bureau remains committed to its plans to build in enhancements to the disclosure application form which, in the future, will enable more specific analysis of employment groups. I am unable to provide a specific time-scale for the installation of this function at present.

**Mr. Burstow:** To ask the Secretary of State for the Home Department how many Criminal Records Bureau disclosure applications were received in each of the last 12 months; how many were issued; and what the average length of time taken to issue a disclosure was in each month. [8005]

**Andy Burnham:** The information requested is as follows:

| | *Applications received* | *Applications issued* | *Average issue time (days)* |
|---|---|---|---|
| June 2004 | 205,859 | 208,098 | 19.61 |
| July 2004 | 223,928 | 210,059 | 20.68 |
| August 2004 | 190,266 | 192,227 | 22.02 |
| September 2004 | 233,083 | 201,169 | 23.93 |
| October 2004 | 242,154 | 218,087 | 22.44 |
| November 2004 | 239,827 | 225,528 | 24.13 |
| December 2004 | 190,732 | 194,337 | 25.48 |
| January 2005 | 186,431 | 197,253 | 28.41 |
| February 2005 | 211,601 | 203,294 | 24.75 |
| March 2005 | 227,434 | 218,364 | 24.32 |
| April 2005 | 219,830 | 225,422 | 25.75 |
| May 2005 | 228,159 | 207,203 | 26.29 |

### Drugs

**Dr. Kumar:** To ask the Secretary of State for the Home Department what recent assessment his Department has made of the health effects of prolonged cannabis use. [6634]

**Paul Goggins:** The advice contained in the report of the Advisory Council on the Misuse of Drugs on the classification of cannabis, published in March 2002, included a wide-ranging assessment of the risks to human health from cannabis use.

The Advisory Council found that there were several serious consequences of prolonged cannabis use, which included that repeated cannabis use leads to a significant proportion of regular users becoming dependent upon the drug.

The health risks of using cannabis are also described in guidance commissioned by the Department of Health, published in September 2003, and entitled "Dangerousness of Drugs—A Guide to the Risks and Harms associated with Substance Misuse".

The smoking of cannabis presents a health risk with an increased incidence of bronchitis, asthma and lung cancer as well as disorders of the heart and circulation. Preliminary studies of lung function in regular cannabis smokers have not found a major cause for concern in the majority, but some severe cases of lung damage have been reported in very heavy users.

Cannabis use can worsen existing mental illness, such as schizophrenia, and it slows recovery.

We continue to monitor the health effects carefully. My right hon. Friend the Home Secretary asked the Advisory Council in March to consider all the relevant evidence from recent studies into the links and associations between taking cannabis and developing mental health problems. He wants to be clear whether the evidence would alter the council's overall assessment of the appropriate classification of cannabis. He also asked for advice on the claims of greater prevalence of increased strength cannabis. It is intended that the council will have concluded its assessment in time to report back to my hon. Friend by the end of the year.

**Anne Main:** To ask the Secretary of State for the Home Department (1) what alternatives to the charitable sector there are for the provision of facilities for *(a)* drug treatment and testing orders and *(b)* drug rehabilitation requirements in St. Albans; [6734]

(2) what non-charitable premises are available in St. Albans for the provision of *(a)* treatment testing and *(b)* rehabilitation of offenders by his Department; and what provision there is other than the charitable sector for (i) through care and (ii) after-care elements in St. Albans. [6735]

**Paul Goggins:** The non-charitable sector providers for drug treatment and testing orders (DTTOs) and drug rehabilitation requirements (DRRs) in St. Albans are:

A consultant psychiatrist, employed by the Health Partnership Trust, who undertakes prescribing and delivers any other medical interventions that may be required, as part of St. Albans Community Drug and Alcohol Team (CDAT) based at Edinburgh House, London Road, St. Albans, AL1 1TR.

Hertfordshire Probation Area (HPA), which has statutory responsibility for the supervision and enforcement of DTTOs/DRRs and delivers accredited offending behaviour programmes at 62–72 Victoria Street, St. Albans, AL1 3XH.

HPA's Victoria Street premises are used by Drugcare, a charitable foundation, for the provision of assessments and/or counselling for offenders with drug problems who are subject to community penalties, other than DTTOs/DRRs.

The non-charitable throughcare and aftercare element i.e. statutory provision for the rehabilitation of drug misusing offenders in St. Albans is provided by Hertfordshire Drug Interventions Programme (DIP). Through the Hertfordshire DIP, some of the elements of throughcare and aftercare provision for clients and potential clients is provided in St. Albans every Friday currently at SS Alban and Stephen Catholic Church, where they can be assessed, drug tested and offered further support through the dedicated team.

**Lynne Featherstone:** To ask the Secretary of State for the Home Department how many people were arrested for the *(a)* supply and *(b)* possession with intent to supply of (i) heroin, (ii) crack cocaine, (iii) all class A drugs and (iv) all class B drugs excluding cannabis prior to reclassification in each of the calendar years since 2001, broken down by (A) police force and (B) age of individual arrested. [4942]

**Paul Goggins** *[holding answer 20 June 2005]:* The information requested is not available centrally.

**Paul Flynn:** To ask the Secretary of State for the Home Department what his estimate is of the numbers of *(a)* prosecutions and *(b)* convictions that are likely to result in each of the next years from the implementation of the Drugs Act 2005. [6118]

**Paul Goggins:** The total estimated additional prosecutions anticipated in a full year are approximately 3,076 and the additional convictions are anticipated to be approximately 1995.

**Dr. Kumar:** To ask the Secretary of State for the Home Department what steps his Department has taken to make information available to those attending nightclubs on the effects of combining the use of Viagra and amyl nitrates as recreational drugs. [5853]

**Caroline Flint:** I have been asked to reply.

The Department has issued no specific guidance on the dangers of combining Viagra and amyl nitrates as recreational drugs.

Viagra is a licensed medicine and the product information for patients supplied with the medicine contains warnings that Viagra should not be used in combination with nitrates.

The Department has published two guidance leaflets specifically aimed at young people, which give advice about the use and side effects of a number of drugs, including 'poppers' containing amyl nitrite.

In addition, the FRANK website aims to inform young people and their parents, carers and families about the effects and risks of taking illicit drugs, including 'poppers' containing amyl nitrite. It also makes very clear the health risk of mixing both Viagra and 'poppers', and of mixing drugs in general.

## English Nationality

**Andrew Rosindell:** To ask the Secretary of State for the Home Department if he will ensure that English appears as an option for nationality on Government documents and questionnaires; and if he will make a statement. [8533]

**John Healey:** I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Andrew Rosindell, dated 4 July 2005:*

As National Statistician, I have been asked to reply to your recent Parliamentary Question regarding English nationality. (8533)

The Office for National Statistics collects information on national identity and advises organisations on the collection and classification of national identity data (*Ethnic Group Statistics: A guide for the collection and classification of ethnic data (2003)*, Office for National Statistics: http://www.statistics.gov.uk/about/ethnic_group_statistics).

With the new devolved administrations, there has been an increasing interest in 'national' consciousness with many people wanting their 'national' identity to be acknowledged. Many people in the White British ethnic group feel that their national identity is English. The Office for National Statistics encourages organisations to collect data on national identity and recommends the following question:

What do you consider your national identity to be?

Please choose your answer from this card. *Choose as many or as few as apply:*

English

Scottish

Welsh

Irish

British

Other, please specify

The question allows respondents to choose more than one identity (if they think of themselves as having more than one). This is because national identity is self-defined, i.e. it is something that is subjectively meaningful to the person concerned.

### EU Immigration Controls

**Mr. Malins:** To ask the Secretary of State for the Home Department if he will make a statement on progress towards setting up an EU joint border force. [3621]

**Mr. McNulty:** There are no plans to create an EU joint border force.

The EU's Hague Programme refers to a feasibility study into a "European system of Border Guards" but makes no commitment to establishing one. The feasibility study will take place in 2007, as part of the review of the recently-established European Border Agency.

Like many EU member states, the Government remain unconvinced of the need for a European Border force. The case for a centrally managed, multi-national European Corps of Border Guards has not yet been made. There are many practical actions and concrete measures that can be taken forward with EU partners without the need to go as far as creating a European Border Guard.

But we fully support the Border Agency, which will play a key role in co-ordinating joint operations between EU member states to strengthen the EU's external border. The UK supports the increased number of joint activities and co-operation between member states at the EU external borders where that activity is conducted on an operationally focused, intelligence-led basis. Such action has the potential to enhance the security of the EU's external borders to the benefit of all member states. It should complement, not replace, the work of national border services.

We also welcome the statement in the Programme that the control and surveillance of external borders falls within the sphere of national border authorities—this is a matter of sovereignty.

During the UK presidency we will continue to contribute actively to EU work on strengthening the EU's external borders and make it a priority to achieve progress in this area.

### Exorcism

**Mr. Hands:** To ask the Secretary of State for the Home Department what steps he is taking to monitor the activities of certain churches in London that are known or believed to carry out exorcisms or similar procedures. [6762]

**Paul Goggins:** The Home Office does not monitor places of religious worship.

Exorcism is a legitimate activity provided it is practised within the confines of the law.

It would be a matter for the police to decide the circumstances in which there had been a breach in the law.

### Extradition

**Mr. Swire:** To ask the Secretary of State for the Home Department what discussions he *(a)* has had and *(b)* intends to have with his US counterpart about the extradition regime between the UK and the US. [7304]

**Andy Burnham:** *[holding answer 29 June 2005]:* Since the new bilateral extradition treaty was signed on 31 March 2003, the Home Secretary has discussed extradition matters with the former US Attorney General on 16 December 2004 and has also raised the issue with the new Attorney General at the recent G8 bilateral in Sheffield on 16 June.

**Mr. Swire:** To ask the Secretary of State for the Home Department what discussions he has had with his EU counterparts on their extradition regime arrangements with the United States of America. [7305]

**Andy Burnham** *[holding answer 29 June 2005]:* None. Any bilateral extradition arrangements between another EU member state and the USA are strictly a matter for the countries concerned.

**Mr. Swire:** To ask the Secretary of State for the Home Department how many extradition cases are outstanding in which the United States is seeking the extradition of individuals to the US from the UK. [7308]

**Andy Burnham** *[holding answer 29 June 2005]:* As at 23 June 2005, there were 44 extradition cases outstanding in which the USA is seeking the extradition of individuals to the USA from the United Kingdom. Requests are being dealt with under the procedures of the Extradition Act 1989, for requests received on or before 31 December 2003; and under the procedures of the Extradition Act 2003 for requests received since that date.

**Mr. Boris Johnson:** To ask the Secretary of State for the Home Department how many requests for extradition were received in *(a)* 2000, *(b)* 2001, *(c)* 2002, *(d)* 2003 and *(e)* 2004 from each of the countries that were the subject of the Part 2 Territories Designation Order 2003. [6010]

**Andy Burnham:** The following are figures for the number of extradition requests to the UK from countries that were designated as extradition partners under the Extradition Act 2003 (Designation of Part 2 Territories) Order 2003.

| *Designated as extradition partners* | *Number of extradition requests* |
|---|---|
| *2000* | |
| USA | 17 |
| Germany | 11 |
| Italy | 9 |
| France | 7 |
| The Netherlands | 5 |
| Switzerland | 3 |
| Czech Republic | 2 |
| Greece | 2 |
| Cyprus | 1 |
| Luxembourg | 1 |
| Australia | 1 |
| Romania | 1 |
| Hong Kong SAR | 1 |
| Iceland | 1 |
| Malawi | 1 |
| Ukraine | 1 |
| Turkey | 1 |
| Uganda | 1 |
| All other countries | 0 |
| Total for 2000 | 66 |

| Designated as extradition partners | Number of extradition requests |
|---|---|
| *2001* | |
| Germany | 17 |
| USA | 16 |
| Czech Republic | 16 |
| Italy | 14 |
| The Netherlands | 11 |
| Switzerland | 7 |
| France | 7 |
| Lithuania | 5 |
| Poland | 4 |
| Turkey | 3 |
| Bulgaria | 2 |
| Estonia | 2 |
| Russian Federation | 2 |
| Austria | 2 |
| Luxembourg | 1 |
| Peru | 1 |
| Greece | 1 |
| Canada | 1 |
| Ukraine | 1 |
| Latvia | 1 |
| Hong Kong SAR | 1 |
| Norway | 1 |
| Total for 2001 | 116 |
| *2002* | |
| Italy | 16 |
| Germany | 13 |
| The Netherlands | 12 |
| Czech Republic | 12 |
| France | 10 |
| USA | 8 |
| Lithuania | 8 |
| Slovakia | 3 |
| Russian Federation | 3 |
| The Bahamas | 3 |
| Turkey | 3 |
| Switzerland | 3 |
| Albania | 3 |
| Zimbabwe | 2 |
| Swaziland | 2 |
| Tanzania | 2 |
| Moldova | 1 |
| Cyprus | 1 |
| India | 1 |
| Norway | 1 |
| Bolivia | 1 |
| South Africa | 1 |
| Slovenia | 1 |
| Luxembourg | 1 |
| Poland | 1 |
| Columbia | 1 |
| Australia | 1 |
| Grenada | 1 |
| Austria | 1 |
| New Zealand | 1 |
| Trinidad and Tobago | 1 |
| Croatia | 1 |
| Total for 2002 | 119 |
| *2003* | |
| USA | 14 |
| Germany | 12 |
| The Netherlands | 11 |
| Czech Republic | 11 |
| Italy | 8 |
| France | 8 |
| Lithuania | 6 |
| Australia | 4 |
| Hungary | 2 |
| Poland | 2 |
| Argentina | 2 |
| Switzerland | 1 |
| India | 1 |
| Monaco | 1 |
| Romania | 1 |
| Norway | 1 |
| Uganda | 1 |
| Azerbaijan | 1 |
| Zimbabwe | 1 |
| Turkey | 1 |
| Greece | 1 |
| Slovenia | 1 |
| Bulgaria | 1 |
| Canada | 1 |
| Total for 2003 | 93 |
| *2004* | |
| USA | 35 |
| Czech Republic | 9 |
| Germany | 9 |
| Italy | 8 |
| France | 6 |
| Russia | 4 |
| Lithuania | 4 |
| Australia | 3 |
| Albania | 3 |
| Poland | 3 |
| The Netherlands | 2 |
| New Zealand | 2 |
| Estonia | 2 |
| Bulgaria | 1 |
| Turkey | 1 |
| Croatia | 1 |
| Canada | 1 |
| Romania | 1 |
| Zambia | 1 |
| Ukraine | 1 |
| Slovakia | 1 |
| Total for 2004 | 98 |

Furthermore the figures for the first six months of this year, up to 30 June 2005 are as follows:

| Designated as extradition partners | Number of extradition requests |
|---|---|
| *2005 (up to June)* | |
| Romania | 9 |
| Italy | 3 |
| USA | 3 |
| Canada | 2 |
| India | 2 |
| Israel | 2 |
| Albania | 1 |
| Australia | 1 |
| Croatia | 1 |
| Czech Republic | 1 |
| Georgia | 1 |
| Germany | 1 |
| Mauritius | 1 |

| Designated as extradition partners | Number of extradition requests |
|---|---|
| Russian Federation | 1 |
| Turkey | 1 |
| Total | 30 |

*Note:*

1. Countries are not listed above for those years in which they made no extradition requests to the UK.

2. After the Extradition Act 2003 (Designation of Part 2 Territories) Order 2003 came into force on 1 January 2004, the following countries that were originally designated under that Order, became designated as Part 1 territories under the Extradition Act 2003, on the dates given as follows: 27 July 2004 Austria, Cyprus, France, Hungary, Latvia, Lithuania, Luxembourg, Malta, The Netherlands, Poland, Slovenia. 1 March 2005 Czech Republic, Estonia, Germany, Greece, Slovakia.

### Friedhelm Eronat

**John Bercow:** To ask the Secretary of State for the Home Department (1) what assurances were sought by his Department from Friedhelm Eronat about the prospective scope of his business activities before the decision was made to grant him British citizenship; [4513]

(2) what discussions took place between his Department and the United States Administration about the activities in the oil business of Friedhelm Eronat before he was granted British citizenship. [4559]

**Mr. McNulty:** It is not our normal policy to discuss individual applications. An application for naturalisation must meet certain requirements. These are set out in section 6 of, and Schedule 1 to, the British Nationality Act 1981.

### Gangmasters

**Andrew George:** To ask the Secretary of State for the Home Department how many cases of illegal gangmaster activity have been *(a)* detected and *(b)* successfully prosecuted in the last five years; and how many migrant workers were involved in each case. [7175]

**Mr. McNulty:** The information requested is not held centrally as data on illegal working operations carried out by the Immigration Service does not identify where there was gangmaster involvement.

However, examples of some high-profile, police-led gangmaster prosecutions where the Immigration Service assisted are in the following table.

| Date | Gangmaster | Offences | Number of illegal workers | Sentences |
|---|---|---|---|---|
| March 2004 | V. Cox | Facilitation and forgery | Up to 1,700 | 7 years |
| | J. Cox | Facilitation and forgery | | 7 years |
| April 2004 | D. Mutch | Money laundering, using false HO documents to provide workers | Around 250 | 6 years |
| | R. Kulish | | | 7 years[1] |
| | J. Carter | | | 4½ years |
| | L.V. Linuza | | | 2 years 9 months[1] |
| | V. Kulish | | | 2 years 9 months[1] |
| | D. Lyashkov | | | 3 years[1] |
| February 2005 | V. Solomka | Money laundering and facilitating illegal immigration | Up to 700 | 7 years |

[1] The court also recommended deportation on completion of prison sentence.

### Gleneagles Summit (Security)

**Mark Simmonds:** To ask the Secretary of State for the Home Department what estimate has been made of the cost of security for the G8 summit at Gleneagles. [7235]

**Mr. Des Browne:** I have been asked to reply.

At this stage it is not known what the cost of security for the G8 summit will be.

### Human Detection Equipment

**Andrew Rosindell:** To ask the Secretary of State for the Home Department how much the Government have spent on human detection equipment at UK *(a)* airports and *(b)* ports in 2004–05. [8530]

**Mr. McNulty:** The information is as follows.

*(a)* There is no human detection equipment currently deployed by the Immigration and Nationality Directorate (IND) at UK airports.

*(b)* During the period April 2001 to June 2004, IND has spent £11,862,000 on the deployment of New Detection Technology (NOT) at UK and overseas seaports. This includes Carbon Dioxide and Heartbeat detectors, Passive Millimetre Wave Imagers and Gamma Scanner technology. The deployment of NOT overseas has been successful in reducing illegal entry via such ports, detecting people concealed in vehicles prior to embarkation for the United Kingdom.

### Identity Checks (Heathrow)

**Mr. Oaten:** To ask the Secretary of State for the Home Department pursuant to his answer of 9 June 2005, *Official Report*, column 656W to the hon. Member for Stoke-on-Trent, Central (Mark Fisher), on identity checks (Heathrow), if he will make a statement on the results of the confidence testing process. [6378]

**Mr. McNulty:** The IRIS system passed confidence testing in France on 28 January 2005. Installation at Heathrow Airport Terminals 2 and 4 (the operational pilot locations), has been followed by extensive and rigorous user acceptance testing over a four month period. This has involved the successful processing of over 200 staff at Heathrow (both enrolment and barrier crossing). The UK Immigration Service is fully confident that the systems offer an effective and secure border control.

## LD50

**Mr. Hancock:** To ask the Secretary of State for the Home Department what the evidential basis is for the permitted use of the mouse LD50 procedure by the manufacturers of *(a)* Dysport and *(b)* Botox; and if he will make a statement. [6589]

**Andy Burnham:** International and UK regulations relating to the safety and efficacy of medicines require the testing of botulinum toxin products at various stages of their processing, from harvesting through to marketing for use as a prescription-only medicine. The European Pharmacopoeia states that the potency of the toxin as a reconstituted product is determined by an LD50 assay in mice, the reference method, or by a method validated with respect to the LD50 assay. Unfortunately there is at present no accepted and validated alternative to the LD50 test for determining the potency of botulinum toxin at the production stage. The Home Office and all others, including the laboratories and the Medicines and Healthcare products Regulatory Agency, concerned with conducting and regulating such testing are committed to moving to less severe testing procedures as soon as it becomes practicable to do so. The laboratories involved in ensuring that botulinum toxin products are safe for therapeutic use, the only use for which animal tests are licensed, are already gaining expertise in non-animal methods.

**Mr. Hancock:** To ask the Secretary of State for the Home Department what recent assessment he has made of alternatives to the use of the mouse LD50 procedure. [6480]

**Andy Burnham:** The mouse LD50 test is used to determine potency, for example, of botulinum neurotoxins used for the medical treatment of patients with certain neurological and other conditions. We pay close attention to technical progress in the field of alternatives and are aware that refined and replacement tests for the LD50 have been developed. Once they have been validated and published in the European Pharmacopoeia as alternatives to the mouse LD50 test, we will stop licensing the mouse LD50 test for this purpose, except where there is specific scientific justification for its continued use.

## Magic Mushrooms

**Dr. Iddon:** To ask the Secretary of State for the Home Department (1) what discussions he has had with people and organisations outside his Department about possible risks associated with using magic mushrooms; [6223]

(2) what research his Department has *(a)* carried out and *(b)* commissioned to assess the risks of using magic mushrooms; [6224]

(3) whether he has sought the advice of the Advisory Council on the Misuse of Drugs on the possible risks associated with using magic mushrooms; [6225]

(4) for what reasons magic mushrooms have been categorised as a class A drug. [6226]

**Paul Goggins:** Psilocin, the active ingredient of magic mushrooms, is a class A drug under the Misuse of Drugs Act 1971. It is a powerful hallucinogen, placed by the United Nations Convention on Psychotropic Substances 1971 in schedule 1, the highest level of control. Magic mushrooms are also already controlled as a class A drug under the 1971 Act if they have been prepared (e.g. dried) or are in the form of a product. Section 21 of the Drugs Act 2005 extends the existing classification to such mushrooms whatever form they are in. The Home Office discussed what is now section 21 of the Drugs Act with the Department of Health, HM Revenue and Customs, the Crown Prosecution Service and the police. We maintain that it is already unlawful for magic mushrooms to be sold as a product. It has proved difficult to satisfy the courts on what constitutes a product, hence this clarification of the law. Section 21 is not a new control on a new substance and consequently it was not necessary to carry out or commission new research. The Advisory Council on the Misuse of Drugs (ACMD) was informed of the proposed change to the law on 6 December 2004. On 19 May 2005, the ACMD agreed the need for regulations to make an exception from the offence of possession in certain circumstances. The chair of the ACMD, Professor Sir Michael Rawlins, wrote to me on two June setting out the ACMD's support for the measures.

## Motoring Offences

**Tom Brake:** To ask the Secretary of State for the Home Department how many convictions which have resulted in custodial sentences there have been for *(a)* drink-driving and *(b)* other motoring offences in each year since 1997, broken down by (i) type and (ii) gender; and what each figure represents as a percentage of the total number of convictions resulting in custodial sentences. [2295]

**Hazel Blears:** Information taken from the Home Office Court Proceedings Database on convictions and custodial sentences for drink-driving and other motoring offences by gender 1997 to 2003 (latest available) is given in the following table. Data for 2004 will be available early in 2006.

*Table G findings of guilt and sentence of immediate custody[1] at all courts for motoring offences, England and Wales, 2003*

*Number of offences*

| *Offence* | *Male* | | |
|---|---|---|---|
| | *Total findings of guilt* | *Immediate custody* | *Percentage* |
| *Driving etc after consuming alcohol or taking drugs:* | | | |
| Unfit to drive through drink or drugs (impairment) | 2,031 | 331 | 16 |
| Driving with alcohol in the blood above the prescribed limit | 69,233 | 4,591 | 7 |
| Driving and failing to provide specimen for analysis (breath, blood or urine) | 8,199 | 1,015 | 12 |
| In charge of a motor vehicle while unfit through drink or drugs (impairment) | 416 | 45 | 11 |
| In charge of motor vehicle, with alcohol in the blood above the prescribed limit | 1,730 | 79 | 5 |
| In charge of motor vehicle, and failing to provide specimen for analysis (breath, blood or urine) | 868 | 75 | 9 |

*Table G findings of guilt and sentence of immediate custody[1] at all courts for motoring offences, England and Wales, 2003*

*Number of offences*

| *Offence* | *Male* *Total findings of guilt* | *Male* *Immediate custody* | *Male* *Percentage* |
|---|---|---|---|
| *Other motoring offences:* | | | |
| Causing death by dangerous driving | 254 | 238 | 94 |
| Causing death by careless driving under influence of drink or drugs | 62 | 61 | 98 |
| Causing death by aggravated vehicle taking | 11 | 9 | 82 |
| Causing bodily harm | 21 | 11 | 52 |
| Dangerous driving | 6,531 | 3,072 | 47 |
| Failing to stop after accident, etc | 8,971 | 445 | 5 |
| Failing to report accident within 24 hours | 5,540 | 141 | 3 |
| Failing to give name and address after an accident | 356 | 15 | 4 |
| Aggravated vehicle taking—driving dangerously, causing injury or damage | 5,385 | 1,788 | 33 |
| Aggravated vehicle taking—criminal damage of £5,000 or under | 1,947 | 479 | 25 |
| Unauthorised taking or the theft of a motor vehicle | 14,045 | 4,104 | 29 |
| Theft of a motor vehicle | 2,148 | 1,030 | 48 |
| Driving while disqualified | 53,206 | 24,735 | 46 |
| Driving after false declaration as to physical fitness etc | 19 | 4 | 21 |
| Other driving licence related offences (excluding forgery) | 3,234 | 3 | 0 |
| Fraud and forgery—driving licence | 182 | 7 | 4 |
| Fraud and forgery—insurance certificate | 639 | 7 | 1 |
| Fraud and forgery—registration and licensing | 5,186 | 34 | 1 |
| Fraud and forgery—work record | 860 | 48 | 6 |
| Fraud and forgery—operator's licence | 35 | 2 | 6 |
| Other offences of neglect of traffic directions | 6,688 | 1 | 0 |
| Failing to give name and address etc when required | 1,845 | 14 | 1 |

*Number of offences*

| *Offence* | *Female* *Total findings of guilt* | *Female* *Immediate custody* | *Female* *Percentage* |
|---|---|---|---|
| *Driving etc after consuming alcohol or taking drugs:* | | | |
| Unfit to drive through drink or drugs (impairment) | 230 | 8 | 3 |
| Driving with alcohol in the blood above the prescribed limit | 8,479 | 138 | 2 |
| Driving and failing to provide specimen for analysis (breath, blood or urine) | 986 | 17 | 2 |
| In charge of a motor vehicle while unfit through drink or drugs (impairment) | 33 | 3 | 9 |
| In charge of motor vehicle, with alcohol in the blood above the prescribed limit | 156 | 3 | 2 |
| In charge of motor vehicle, and failing to provide specimen for analysis (breath, blood or urine) | 98 | 3 | 3 |
| *Other motoring offences:* | | | |
| Causing death by dangerous driving | 18 | 8 | 44 |
| Causing death by careless driving under influence of drink or drugs | 4 | 3 | 75 |
| Causing death by aggravated vehicle taking | — | — | — |
| Causing bodily harm | 1 | — | — |
| Dangerous driving | 257 | 56 | 22 |
| Failing to stop after accident, etc | 1,209 | 10 | 1 |
| Failing to report accident within 24 hours | 962 | 2 | 0 |
| Failing to give name and address after an accident | 51 | — | — |
| Aggravated vehicle taking—driving dangerously, causing injury or damage | 257 | 39 | 15 |
| Aggravated vehicle taking—criminal damage of £5,000 or under | 101 | 9 | 9 |
| Unauthorised taking or the theft of a motor vehicle | 737 | 113 | 15 |
| Theft of a motor vehicle | 96 | 24 | 25 |
| Driving while disqualified | 2,421 | 665 | 27 |
| Driving after false declaration as to physical fitness etc | 2 | — | — |
| Other driving licence related offences (excluding forgery) | 526 | — | — |
| Fraud and forgery—driving licence | 18 | — | — |
| Fraud and forgery—insurance certificate | 34 | — | — |
| Fraud and forgery—registration and licensing | 462 | — | — |
| Fraud and forgery—work record | 2 | — | — |
| Fraud and forgery—operator's licence | 1 | — | — |
| Other offences of neglect of traffic directions | 573 | — | — |
| Failing to give name and address etc when required | 194 | 2 | 1 |

[1] Immediate custody = detention and training order, young offender institution and unsuspended sentence of imprisonment.

### Passports

**Mr. Laurence Robertson:** To ask the Secretary of State for the Home Department what assessment he has made of *(a)* the efficiency of and *(b)* security arrangements for issuing passports by the Newport passport office; and if he will make a statement. [8111]

**Andy Burnham:** The UK Passport Service is satisfied that the Newport passport office's overall performance in issuing over one million passports annually is effective, and efficient, and based on audits that its security and control arrangements are satisfactory.

### Police

**Mark Williams:** To ask the Secretary of State for the Home Department how many *(a)* police officers and *(b)* administrative staff there are in the Dyfed Powys constabulary. [7265]

**Hazel Blears:** The number of police officers in Dyfed Powys constabulary on 31 December 2004 was 1,169. This excludes staff on career breaks and maternity or paternity leave to enable comparison with previous years. The number of police staff not including community support officers and traffic wardens was 551.

**Mike Penning:** To ask the Secretary of State for the Home Department if he will list the guidance sent by his Department to Hertfordshire police officers since June 2004; what the cost of providing the guidance was; and what the total number of pages was. [5375]

**Hazel Blears:** This information is not kept centrally and could be obtained only at disproportionate cost.

**Lynne Featherstone:** To ask the Secretary of State for the Home Department how many police officers there were in the London borough of Haringey on 31 March; how many there were on 31 March *(a)* 2000 and *(b)* 1995; and if he will make a statement. [4808]

**Hazel Blears:** Data for police service strength as at 31 March 2005 is due to be published this autumn. In 2003–04, there were 682 police officers in the Haringey Basic Command Unit. Data for 2000 and 1995 is not available centrally.

**Mr. Oaten:** To ask the Secretary of State for the Home Department how many police stations have *(a)* closed and *(b)* opened in each police force authority area in each year since 1997; and if he will make a statement. [4679]

**Mr. Charles Clarke:** The management of the police estate and allocation of resources are matters for each police authority and the Chief Officer, who are responsible for assessing local needs. The ownership of police stations is vested in the local police authority, not the Home Office. Their use and disposal are a matter for local decisions.

A full survey of police stations in each police authority area, closed or opened from 1992–93 to 2003–04, was undertaken in 2004. I have placed in the Library a copy of the results since 1997.

**Mr. Oaten:** To ask the Secretary of State for the Home Department what training new police officers receive in *(a)* typing and *(b)* IT skills. [4995]

**Mr. Charles Clarke:** At present, it is the responsibility of each local force to train new police officers in IT skills. Information on each force's training in typing and IT skills cannot be obtained due to disproportionate cost.

IT training for new police officers is a requirement under the national curriculum of the Initial Police Learning and Development Programme, under which we are modernising the training given to new police officers. However, there are currently no plans to introduce requirements for forces to train new police officers in typing skills.

There will be new IT training available in critical areas such as Airwave. Airwave provides modern, secure and efficient digital radio communications for the police service in England, Wales and Scotland. The clarity of voice transmissions and the ability to send instructions in text form aids speed and efficiency. Mobile data can help to reduce the burden of bureaucracy on police officers and enable them to spend more time out on patrol.

**Mr. Oaten:** To ask the Secretary of State for the Home Department how many police community support officers are registered on the police DNA elimination database. [6376]

**Mr. Charles Clarke:** On 21 June 2005 there are 84,394 records on the police elimination database (RED). No central record is maintained of the number of police staff, including community support officers, who have been included. Since April 2003, all new police recruits have been required to provide a sample for the RED.

### Retail Crime Initiative (Hemel Hempstead)

**Mike Penning:** To ask the Secretary of State for the Home Department (1) what assessment his Department will make of the Hemel Hempstead Shopwatch scheme as a model for implementation in other parts of the country; [5371]

(2) if he will make a statement on the implementation of the Retail Crime Initiative in Hemel Hempstead; how many *(a)* prosecutions and *(b)* convictions have resulted from the initiative; and what budget has been provided. [5372]

**Hazel Blears:** Hemel Hempstead Retail Crime Initiative was awarded the Safer Shopping Award in September 2002, through the British Retail Consortium. This award, developed by the Home Office in co-operation with the retail sector, recognises partnerships that have a developed set of protocols and management procedures which comply with the laws around data sharing and issuing exclusion orders.

We are committed to developing and increasing the number of schemes such as the Hemel Hempstead initiative. This is why we have given £899,000 to fund the setting up of an Action against Business Crime Group to develop 100 new town centre business crime partnerships across England and Wales to the same standard.

No separate statistics are kept by Hertfordshire police relating to prosecutions and convictions directly resulting from the Retail Crime Initiative and the scheme has not received any additional Home Office funds.

### Science and Engineering Graduate Scheme

**Mr. Hollobone:** To ask the Secretary of State for the Home Department how many students have applied to join the Science and Engineering Graduate scheme since its launch on 25 October 2004, broken down by courses defined by the JACS coding system; and how many have been refused. [6076]

**Mr. McNulty** *[holding answer 20 June 2005]:* Since its launch on 25 October 2004, 1,990 students have applied to join the Science and Engineering Graduate Scheme (SEGS). Of these, a total of 110 applications were refused. We are unable to provide specific figures on SEGS applications broken down by the JACS coding system: this information is not held on the Caseworker Information Database (CID).

Figures correct as of 19 June 2004 and rounded to the nearest 10.

### Sectors Based Scheme

**Dr. Starkey:** To ask the Secretary of State for the Home Department pursuant to the written statement of 23 June 2005, *Official Report*, columns 47–49WS, on the Sectors Based Scheme review, if he will publish the evidence on which the decision to terminate the SBS hospitality quota was based; what assessment he has made of the effect of the decision on 'Indian restaurants'; and if he will meet urgently representatives of the industry to discuss those effects. [7728]

**Mr. McNulty:** A report outlining the findings of the Sectors Based Scheme (SBS) review, including the basis of the decision to terminate the SBS hospitality quota, is being placed on Work Permits (UK)'s website. The effect of this decision on the ethnic catering industry was considered as part of the wider review. Home Office Ministers have meet representatives from this industry.

### Sexual Offences

**Mr. Oaten:** To ask the Secretary of State for the Home Department what the detection rate for *(a)* rape and *(b)* other sexual offences was in 2003–04 in each police force area in England and Wales. [6372]

**Mr. Charles Clarke:** The information requested is given in the following table. The Home Office are currently undertaking research to look in detail at detection rates in rape and sexual assault cases in England and Wales, including variation between forces.

*Detection rates for sexual offences 2003–04*

*Percentage*

| *Police force area* | *Rape*[1] | *Other sexual offences* |
|---|---|---|
| Avon and Somerset | 21 | 22 |
| Bedfordshire | 21 | 41 |
| Cambridgeshire | 15 | 30 |
| Cheshire | 29 | 40 |
| Cleveland | 31 | 51 |
| Cumbria | 30 | 46 |
| Derbyshire | 33 | 37 |
| Devon and Cornwall | 19 | 33 |
| Dorset | 17 | 31 |
| Durham | 71 | 69 |
| Dyfed-Powys | 25 | 46 |
| Essex | 29 | 36 |
| Gloucestershire | 28 | 35 |
| Greater Manchester | 32 | 30 |
| Gwent | 78 | 57 |
| Hampshire | 34 | 36 |
| Hertfordshire | 50 | 41 |
| Humberside | 20 | 30 |
| Kent | 27 | 29 |
| Lancashire | 35 | 41 |
| Leicestershire | 28 | 28 |
| Lincolnshire | 28 | 41 |
| London, City of | 0 | 44 |
| Merseyside | 43 | 41 |
| Metropolitan Police | 33 | 33 |
| Norfolk | 18 | 38 |
| North Wales | 29 | 42 |
| North Yorkshire | 41 | 50 |
| Northamptonshire | 37 | 52 |
| Northumbria | 30 | 35 |
| Nottinghamshire | 27 | 47 |
| South Wales | 53 | 36 |
| South Yorkshire | 38 | 38 |
| Staffordshire | 32 | 41 |
| Suffolk | 26 | 43 |
| Surrey | 35 | 34 |
| Sussex | 24 | 31 |
| Thames Valley | 18 | 29 |
| Warwickshire | 19 | 42 |
| West Mercia | 35 | 41 |
| West Midlands | 32 | 30 |
| West Yorkshire | 31 | 32 |
| Wiltshire | 41 | 37 |
| Total | 31 | 35 |

[1] Includes rape of a female and rape of a male.

### Student Visas

**Jim Cousins:** To ask the Secretary of State for the Home Department from which countries of origin students with student visas are required to report changes of residence; and how many such changes in residence were reported to each police centre where such reports are made in the last two complete academic years. [6318]

**Mr. McNulty:** People who are given leave to enter or remain as students, and who are "relevant foreign nationals" for the purposes of Part 10 of the Immigration Rules, are normally required to register with the police as a condition of their leave. They are also required to inform the police of any change of address.

The countries or territories whose nationals or citizens are relevant foreign nationals for the purposes of Part 10 are listed in Appendix 2 to the Immigration Rules.

Information about changes of address is recorded by the police force concerned. It is not reported to the Home Office, and information about the numbers of such changes could be obtained only at disproportionate cost.

**Jim Cousins:** To ask the Secretary of State for the Home Department how many members there are of the task force considering student visa charges and requirements; and whether the task force will consider the present residence reporting requirements imposed on a number of countries. [6329]

**Mr. McNulty:** 21 organisations are represented on the Joint Education Task Force announced on 7 February.

The requirement for students of certain nationalities to register with the police arises from the police registration arrangements in part 10 of the immigration rules. The task force will not be considering changes to part 10 of the rules.

### Unaccompanied Children

**Mr. Hands:** To ask the Secretary of State for the Home Department when he expects the National Register of Unaccompanied Children to be operational; and if he will make a statement. [6761]

**Mr. McNulty:** The National Register of Unaccompanied Children was launched on 23 November 2004, at which time it was a working model for testing purposes and the establishing of a network of local authority contacts. It will be fully operational from 18 July 2005.

**Mr. Hands:** To ask the Secretary of State for the Home Department how many unaccompanied child asylum seekers from Africa have arrived in each of the 33 London boroughs since 2001. [6763]

**Mr. McNulty:** The information requested is not available centrally and could be obtained only by requiring individual local authorities to search their individual case records. There are currently 3,470[1] unaccompanied asylum seeking children supported by the 32 London boroughs and the Corporation of London. This compares to 4,220[1] in 2004.

In 2002 there were 1,745[1] applications for asylum from unaccompanied asylum seeking children from Africa. Corresponding figures for 2003 and 2004 are 1,355[1] and 1,190[1] respectively.

[1] all figures rounded to nearest five.

### Volunteering

**Mr. Kidney:** To ask the Secretary of State for the Home Department what *(a)* spending has been allocated and *(b)* policy initiatives have been pursued to support the International Year of the Volunteer. [5746]

**Paul Goggins:** The National Centre for Volunteering, in consultation with the Home Office and key volunteering-involving organisations, agreed a structure for the delivery of the International Year of the Volunteer which took place in 2001. Those involved in the programme considered the Year to be a success. The Active Community Unit at the Home Office provided £297,229 core funding for the Year. 2005 is the Year of the Volunteer. The aims and objectives of the Year are to create awareness of, increase the opportunities for and encourage more people to get involved in volunteering. The Year of the Volunteer 2005 is owned by volunteers, led by a partnership between Community Service Volunteers (CSV) and the Volunteering England Consortium, and supported by the Home Office. The Volunteering England Consortium consists of Volunteering England, TimeBank, YouthNet UK, The Media Trust, Business in the Community (BitC) and Youth Action Network. The Home Office is investing £7.1 million in the Year of the Volunteer. The devolved Administrations are funding and hosting their own campaigns and initiatives to support the year and these differ in each country.

*Home Office investment into YV05*

| | *Policy initiatives* | *Amount invested by the Home Office (£)* |
|---|---|---|
| Community Service Volunteers | Principal Voluntary Sector partner delivering a range of activities, events, promotional materials and press and media coverage | 1,000,000 |
| Community Service Volunteers | To deliver a government employee volunteering scheme | 500,000 |
| Volunteering England | Principal Voluntary Sector partner working with a consortium to deliver a range of activities, events, promotional materials and press and media coverage | 1,000,000 |
| Volunteering England | To increase the capacity of local volunteer centres throughout England | 3,000,000 |
| Volunteering England | Small grants programme for other stakeholders who can contribute to achieving the objectives of YOV 2005 | 250,000 |
| Marketing/Communications Support | Research and branding, publicity, partnership marketing and the YOV 2005 website (www.yearofthevolunteer.org) | 250, 000 |
| Website and YOV 2005 evaluation support | To develop and enhance www.yearofthevolunteer.org and manage project evaluation | 100,000 |
| Media Trust | For high-profile, multi-media consumer marketing campaign which aims to supercharge the year, raise awareness of volunteering and drive registrations of new volunteers | 1,000,000 |
| Total | | 7,100,000 |

### War Crimes

**Mr. Dismore:** To ask the Secretary of State for the Home Department pursuant to the answer of 13 June 2005, *Official Report*, column 166W, on Nazi war criminals, how many personal files of alleged war crimes suspects have been examined by the police; how many names were on the list passed to the Metropolitan police earlier this year; when he expects the Metropolitan police to conclude the process of checking the list against material already in their possession and liaising with other Departments; and if he will make a statement. [6019]

**Mr. McNulty:** A very large number of cases were examined and investigated, but to calculate the number of personal files examined by the police would involve examining 11,000 individual records, which would incur disproportionate cost.

75 names were on the list that was passed to the Metropolitan police by my hon. Friend in January 2005.

A dedicated team of Metropolitan police officers will be deployed to carry out the task of checking this list against existing material and liaising with Departments, but it is not possible to give an accurate estimate of when this work will be completed.

**Mr. Dismore:** To ask the Secretary of State for the Home Department pursuant to the answer of 14 June 2005, *Official Report*, column 296W, on war crimes, which other agencies he is working with; what lines of inquiry are being explored; and if he will make a statement. [6020]

**Mr. McNulty:** Other agencies that the Metropolitan police are working with include the Immigration and Nationality Directorate and the Office for National Statistics.

**Mr. Dismore:** To ask the Secretary of State for the Home Department pursuant to the answer of 14 June 2005, *Official Report*, column 297W, on Nazi war criminals, what the outcome was of the war crimes inquiry investigation into the 34 suspects to which he referred; and if he will make a statement. [6021]

**Mr. McNulty:** The war crimes investigation resulted in seven cases being submitted to the CPS. The CPS recommendation was for no further action to be taken in any of those seven cases.

**Mr. Dismore:** To ask the Secretary of State for the Home Department which overseas *(a)* law enforcement agencies and *(b)* voluntary organisations (i) his Department and (ii) the Metropolitan Police had discussions within the last eight years over tracing Nazi war criminals; and if he will make a statement. [6929]

**Mr. McNulty:** Home Office officials have held discussions with representatives from the Canadian, Australian and United States Governments about Nazi war criminals in the context of wider discussions on genocide, war crimes and crimes against humanity.

Representatives from the Metropolitan Police Service have had discussions with:

*(a)* law enforcement agencies worldwide including Russia, Latvia, Lithuania, Ukraine, Belarus, Georgia, Poland, Germany, Austria, USA, Australia, Canada, South Africa, Israel, Czechoslovakia, Denmark, Sweden and New Zealand.

*(b)* Voluntary organisations worldwide including various survivor groups traced through the board of deputies of British Jews, Yad Vashem Survival Memorial Organisation, Institute of National Remembrance, Poland and similar organisations in US and Canada.

### Worker Registration Scheme

**Keith Vaz:** To ask the Secretary of State for the Home Department what his Department's backlog of cases is for the worker registration scheme for nationals of *(a)* Poland, *(b)* Hungary, *(c)* Slovenia, *(d)* Slovakia, *(e)* Czech Republic, *(f)* Estonia, *(g)* Latvia, *(h)* Lithuania, *(i)* Cyprus and *(j)* Malta. [6907]

**Mr. McNulty:** The published service standards of 70 per cent. of worker registration scheme applications cleared within two weeks of receipt (including payment processing) and 90 per cent. cleared within four weeks are currently being met or exceeded. There is no backlog. The number of cases awaiting decision is at a normal work in progress levels.

**Keith Vaz:** To ask the Secretary of State for the Home Department whether the Government plan to implement worker registration schemes for nationals of future member states of the European Union. [6908]

**Mr. McNulty:** No decision has yet been made as to the level of access to its labour market the UK will offer nationals of any other state currently engaged in accession negotiations.

### Working in Scotland Scheme

**Stewart Hosie:** To ask the Secretary of State for the Home Department how his Department defines an appropriate period in respect of the amount of time an applicant must have lived in Scotland for the purposes of the Fresh Talent: Working in Scotland eligibility criteria. [8264]

**Mr. McNulty:** The immigration caseworker or entry clearance officer considering the application will assess whether the applicant has spent an appropriate period in Scotland, based on the facts of each application. The guidance to them indicates for courses lasting one academic year, the student can normally be expected to have lived in Scotland for at least three months. Courses lasting two academic years, the student can normally be expected to have lived in Scotland for at least six months and courses lasting three academic years, the student can normally be expected to have lived in Scotland for at least 12 months. This guidance is publicly available on the Immigration Nationality Directorate (IND) website at www.ind.homeoffice.gov.uk and there is also a link to it from the Scottish Executive website.

**Stewart Hosie:** To ask the Secretary of State for the Home Department why the eligibility criteria for the Fresh Talent: Working in Scotland scheme do not include post-graduate diplomas. [8265]

**Mr. McNulty:** The scope of the scheme was drawn up in consultation with the Scottish Executive and drew upon the example of the Science and Engineering Graduates Scheme, which was launched last October. Both schemes refer to undergraduate degrees, master's degrees and PhDs.

**Stewart Hosie:** To ask the Secretary of State for the Home Department what targets his Department has set for the *(a)* number of applications, *(b)* number of successful applications and *(c)* uptake of successful applications in respect of the Fresh Talent: Working in Scotland scheme. [8266]

**Mr. McNulty:** We have set no targets for this scheme.

**Stewart Hosie:** To ask the Secretary of State for the Home Department (1) when he will publish the first set of figures on applications to the Fresh Talent: Working in Scotland scheme; and what data will be made available; [8804]

(2) how often his Department will provide information on *(a)* the numbers of applicants to the Fresh Talent: Working in Scotland scheme and *(b)* the status of the applications. [8805]

**Mr. McNulty:** We have yet to finalise the timing or format of the information that will be published on applications for the Fresh Talent: Working in Scotland scheme.

**Stewart Hosie:** To ask the Secretary of State for the Home Department what measures are in place to ensure that Fresh Talent scheme visa holders remain in Scotland for the two-year period specified in the scheme. [8806]

**Mr. McNulty:** Participants in the Fresh Talent: Working in Scotland scheme will have already shown an interest in and commitment to Scotland by choosing Scotland for their studies. They have to have been awarded their qualification by a Scottish institution and also to have lived in Scotland for an appropriate period during their studies. During their stay, the Scottish Executive's Relocation Advisory Service will provide them with advice on a range of issues, such as finding suitable employment and accommodation in Scotland. If participants wish to remain beyond their participation in the scheme, they must apply for leave under the appropriate managed migration route. If they wish to stay on as a work permit holder, they will only be able to switch into the relevant category of leave if their work permit is for employment in Scotland.

### Zimbabwe

**Kate Hoey:** To ask the Secretary of State for the Home Department if he will ensure that Tafara Nhendu (Home Office reference M116 1492) is not deported to Zimbabwe. [7592]

**Mr. McNulty:** Information on individual cases is confidential and cannot be divulged without the express consent of the individual concerned.

## EDUCATION AND SKILLS

### Academies

**Mr. Hoban:** To ask the Secretary of State for Education and Skills (1) pursuant to the Answer of 13 June 2005, *Official Report*, column 184W, on academies, what role her Department plays in determining the sites of new academies; [8475]

(2) pursuant to the Answer of 13 June 2005, *Official Report*, column 184W, on academies, how parental demand is taken into account prior to the decision to site new academies; [8476]

(3) what role local education authorities play in deciding *(a)* whether new academies are to open and *(b)* the site of new academies. [8495]

**Jacqui Smith:** The location of Academies is determined on an individual basis taking into account historic educational performance, the level of deprivation in the area concerned, parental demand and the quality and suitability of each specific proposal. In agreeing new Academy proposals, my Department works closely with key stakeholders, including local education authorities, sponsors, Academy Trusts and groups representing parents' views.

Local education authorities are required to consider the need for a new Academy as part of the Building Schools for the Future programme, and are strongly encouraged to engage with Academies where they can meet parental demand for school places. Local education authorities decide where to site the Academy, so that it serves the needs of pupils in the most deprived areas. Where an existing school is to be replaced by an Academy, the local education authority is under a statutory duty to consult on the closure proposals; and we actively encourage consultation with local parents where a new Academy is to be established.

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what steps her Department is taking to clarify the rules concerning admissions to academies for children with special educational needs. [8477]

**Jacqui Smith:** The Code of Practice for special educational needs (SEN) and admissions applies to Academies in a similar way as for LEA maintained schools. This means that pupils with SEN who do not have a statement are admitted to Academies in the same way as for maintained schools.

For pupils with statements, LEAs retain the statutory responsibility and consult with Academies over the naming of a particular Academy in a statement. Once an Academy has agreed to be named, it is required to admit. Officials have provided both LEAs and Academies with guidance on how to make sure that procedures are clear, simple and in the best interests of the children. To complement this guidance, Academies have also had access to independent advice on SEN admission issues which has helped to support a range of positive working practices with LEAs and parents.

Academies on average admit more pupils with SEN (with statements and not), than LEA maintained schools.

**Mr. Hoban:** To ask the Secretary of State for Education and Skills if she will make a statement on the effectiveness of city academies of independent provision within the state sector, with particular reference to their role as examples. [8478]

**Jacqui Smith:** As independent schools academies have flexibilities in a number of areas. On their effectiveness, the PricewaterhouseCoopers (PWC) second annual report on academies found that:

- there is a 'significant difference in the learning culture in new academies, compared to their predecessors';
- 90 per cent. of parents report that most pupils like going to the academy and that their children enjoy attending the school;
- 97 per cent. of staff think that the principal really believes that the academy can make a difference to pupils' learning whatever their family background;
- academies are using their independence to adopt innovative approaches to the curriculum, staffing, teaching and learning and the timetabling.

The programme is still in its infancy and, as PWC state, principals are concentrating on ensuring that the basics of school provision are in place. Academies will increasingly spread best practice and their lessons learned. For example, a number of academies have a specialist focus on business and enterprise, which is raising the profile of enterprise education nationally in their localities.

**Anne Snelgrove:** To ask the Secretary of State for Education and Skills (1) if she will extend the requirement to register with the General Teaching Council to teachers in academies; [8772]

(2) what discussions she has had with *(a)* the General Teaching Council, *(b)* teaching unions and *(c)* others concerning the absence of the requirement for qualified teachers in academies to be registered. [8773]

**Jacqui Smith:** We have had correspondence with the GTC about the Council's concerns at the lack of requirement for Academy teachers to be registered with them. We have also answered a range of correspondence, from various sources, on this issue, including questions here in the House—but have received no direct representation from teaching unions.

Academies are registered independent schools. Like all independent schools, they are not bound by the legislation which requires teachers in maintained schools to register with the GTC. Academies are replacing some of our weakest under performing schools; it is right, therefore, that they are given the flexibilities and freedoms from bureaucracy to be able to take radical and innovative approaches to governance, staffing and the curriculum.

That is not to say, however, that teachers in Academies will not be registered with the GTC. The vast majority of teachers within Academies have moved across from the maintained sector and will already be registered with the Council. We will continue to promote the unencumbered movement of teachers between schools and Academies—most teachers are, therefore, likely to remain registered with the GTC. There would be little incentive for them not to do so.

There is certainly no bar on teachers in Academies registering with the Council if they decide it is in their interest to do so. I can also confirm that many Academies have decided that it is right actually to require that their teachers should be registered. The Government will continue to encourage Academies to register new and existing staff with the Council.

### Adult/Community Learning

**Kerry McCarthy:** To ask the Secretary of State for Education and Skills what steps she has taken to encourage schools, including schools which do not fall under local authority control, to make their facilities available for use by the wider community. [8796]

**Beverley Hughes:** We have recently issued an extended schools prospectus, which sets out our expectation that schools will need to consult with parents, young people and the wider community on making the best use of their facilities to the community. We want all schools to enable pupils, parents, families and the wider community to access a core range of services by 2010. The core offer will include schools providing wider community access to ICT, sports, arts and other facilities including adult learning. The prospectus gives some helpful pointers to schools as to how to start developing services, including the need to consult with the wider community to ensure they provide services that meet local needs and demand. Schools can play an important role in supporting their local communities, on key issues such as poverty, community cohesion and neighbourhood regeneration. The prospectus is available on our Teachernet website, together with further guidance, practical advice and case studies. We are adding to this material all the time as work develops. We have committed additional funding to support schools in developing extended services. The Department has made approximately £160 million of funding available since 2003 and we will be making a further £680 million available over the 2006–08 period including £250 million that will go direct to all schools.

The Department has also asked the National Remodelling Team to take a lead role in supporting local authorities and schools through the development of extended services, and we are also funding "ContinYou" to run the Extended Schools Support Service, to offer further practical help.

**Mr. Brady:** To ask the Secretary of State for Education and Skills what her Department's priorities are for the provision of adult and community learning; and what targets have been set. [8870]

**Phil Hope:** The priorities for adult and community learning provided through local education authorities remain (i) to sustain a wide range of learning opportunities to gain skills for personal and community development and (ii) to provide opportunities for those who want a "first step" on the learning ladder before committing themselves to further learning leading to qualifications. There are no specific targets for adult and community learning.

The Department for Education and Skills will shortly receive proposals from the LSC on the reform of the funding and planning arrangements for learning which does not lead directly to qualifications. This includes First Steps and Personal and Community Development Learning for Adults. The proposals will cover such provision both by local education authorities and further education colleges. The objectives of the reforms are: to maintain the safeguard for the continued availability of courses for personal and community development set out in the 2003 and 2005 Skills White Papers; to fund "first steps learning" on the same basis regardless of the provider; to ensure an equitable distribution of public funding between geographical areas; and a proper balance between public funding, and financial contributions by individuals.

### Alcohol Education

**Sarah Teather:** To ask the Secretary of State for Education and Skills what resources her Department has given to schools for educating children about the effects of alcohol for the 2004–05 academic year. [8206]

**Jacqui Smith:** The Department supports schools in helping them decide which resources to choose when educating children about the effects of alcohol, for example through the resources referenced in the PSHE section of the Department's Teachernet website. However, it is up to individual schools and teachers to determine the resources that are appropriate to assist them in delivering this teaching, having regard to the needs of their pupils and local communities.

The statutory national curriculum science order requires that all pupils should learn about the effects of alcohol and other drugs. The framework for Personal Social and Health Education (PSHE) provides the context for developing drug, alcohol and tobacco education beyond this. Alcohol education in schools has

an essential role to play in enabling pupils to develop their knowledge, skills, attitudes and understanding about alcohol.

### Children's Commissioner for Wales

**Mr. Roger Williams:** To ask the Secretary of State for Education and Skills what memoranda of understanding have been issued to address *(a)* issues arising from children in Wales appealing to the Children's Commissioner for Wales on non-devolved matters and *(b)* cross-border issues. [8256]

**The Beverley Hughes** *[holding answer 30 June 2005]:* The Children's Commissioner for England's remit is set out in the Children Act 2004. In line with the Devolution Settlements, the Children's Commissioner has the function of promoting awareness of the views and interests of children in Wales, Scotland and Northern Ireland in so far as they relate to reserved matters.

The existing responsibilities of the Commissioners in Wales, Scotland and Northern Ireland are unchanged, and children throughout the UK will in the first instance be able to approach their local commissioner on any matter, devolved or reserved. Children will not be expected to know the intricacies of the various devolution settlements.

We anticipated that the various UK Commissioners would draw up their own co-operation agreements appropriate to local circumstances but we have left them to act as they saw fit in this respect.

The Children's Commissioner, Professor Al Aynsley-Green, has met with the other UK Commissioners and discussed this issue with them. His office is currently working on drafting a memorandum of understanding. The Commissioner is due to meet with the other Commissioners in August and ways of working together will be a key area of discussion.

**Mr. Roger Williams:** To ask the Secretary of State for Education and Skills what memoranda of understanding have been issued to ensure effective communication between the Children's Commissioner for England and the Children's Commissioner for Wales. [8257]

**Beverley Hughes** *[holding answer 30 June 2005]:* The Children's Commissioner for England's remit is set out in the Children Act 2004. In line with the Devolution Settlements, the Children's Commissioner for England has the function of promoting awareness of the views and interests of children in Wales, Scotland and Northern Ireland in so far as they relate to reserved matters.

The existing responsibilities of the Commissioners in Wales, Scotland and Northern Ireland are unchanged, and children throughout the UK will in the first instance be able to approach their local commissioner on any matter, devolved or reserved. Children will not be expected to know the intricacies of the various devolution settlements.

Furthermore, the Children Act explicitly states that when the Children's Commissioner considers reserved matters, he "must take account of the views of, and any work undertaken by" the Commissioners in the Devolved Administrations. The Government have always emphasised that the UK Commissioners should be left to draw up any further co-operation agreements among themselves, in order that they could be made appropriate to local circumstances.

The Children's Commissioner for England, Professor Al Aynsley-Green, has met with the other UK Commissioners and discussed this issue with them. His office is currently working on drafting a memorandum of understanding. The Commissioner is due to meet with the other Commissioners in August and ways of working together will be a key area of discussion.

### Consultants

**David Taylor:** To ask the Secretary of State for Education and Skills when the auditors' report on the use of consultants within her Department will be published; and if she will make a statement. [5936]

**Maria Eagle:** Internal audit reports are produced for internal management purposes and are not published.

As part of this audit, which was carried out jointly with the National Audit Office, a good practice guide on the engagement and use of consultants was prepared. This has been distributed to all divisions in the Department. A copy of this guide will be placed in the House of Commons Library.

**Paul Holmes:** To ask the Secretary of State for Education and Skills what value for money procedures the Department uses when considering the use of consultants. [6350]

**Maria Eagle:** My Department uses the following value for money procedures when considering the use of consultants.

Firstly, we undertake a process to establish the most appropriate way of meeting a requirement. This includes a consideration of the options including using existing staff, fixed term appointments and secondees. Consultants will only be engaged when they can provide:

- specialist skills or expertise not available in house;
- additional skilled resource on a temporary basis;
- a broader perspective drawn from work with other organisations;
- an objective/independent change agent or facilitator; or
- an independent view of current issues.

Secondly, if a decision is made to engage a consultant a further process is undertaken to establish the most appropriate way of selection. This may be through *(a)* a competitive tender, *(b)* selecting from either the Department's, Office of Government Commerce's or another Government Department's framework agreement, or *(c)* by single tendering where certain qualifying conditions are met. The conditions for single tendering are where:

- it is known (not assumed) that only one supplier can meet the requirement;
- the cost of open or selective tendering would exceed the potential for saving, e.g. based on the results of a recent tender exercise;
- the continuity of knowledge or synergy with previous work is an overriding consideration; or

you have received an unsolicited proposal that contains ideas of concepts that you wish to use because it meets your needs, these ideas are the property of the tenderer and may be legally protected under intellectual property rights.

In all cases proposals from consultants are systematically evaluated on a whole life cost basis with a view to obtaining best value for money using pre-prepared criteria. Evaluation looks at the economic, financial and technical capability of the consultant and includes among others, financial stability of the organisation, past experience, management structure, key personnel, ability to meet the requirement, level of quality and costs.

As mentioned earlier my Department maintains a list of consultancy framework providers that have been tendered through the Official Journal of the European Union and which meets most of the external consultancy needs of the Department. These provide additional value for money savings through the competitive prices obtained during the competition and also by removing the administrative burden of each requirement being tendered separately. Office of Government Commerce and certain other Government Departments maintain similar lists.

### Education Maintenance Allowance

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what assessment she has made of the effectiveness of education maintenance allowances in increasing *(a)* participation and *(b)* attainment in (i) school sixth forms, (ii) sixth form colleges and (iii) colleges of further education. [8468]

**Maria Eagle:** The evaluation of the education maintenance allowance (EMA) was one of the most extensive ever undertaken. It was piloted in 10 areas and 11 control areas and involved following two cohorts of young people over a four year period. The results showed that EMA increased participation in further education among eligible 16-year-olds in the pilot areas by 5.9 percentage points. This is equivalent to 3.8 percentage points across the whole cohort nationally. The impact was highest among groups with previously lowest participation rates, particularly young men, those with moderate or lower attainment at age 16 and those from lower socio-economic groups.

EMA was rolled out for 16-year-olds in all areas from September 2004 and will be fully rolled out for all 16 to 18-year-olds by 2006/07. The DfES and LSC are carefully monitoring progress and will be undertaking continuing work to assess the effectiveness of EMA. To date, EMA has been paid to a total of 296,000 young people, including 216,000 16-year-olds, which is over 99 per cent. of the numbers projected.

Evaluation information is not readily available to show the impact of EMA on participation separately in school sixth forms, sixth form colleges and colleges of further education. However, the latest participation figures which were published today (SFR 27/2005) show that, in 2004, of the 73.3 per cent. of 16-year-olds in full-time education, 29.5 per cent. are in school sixth forms, 10.4 per cent. are in sixth form colleges and 27 per cent. are in colleges of further education. A further 6.4 per cent. are in independent schools or HE institutions. The increases, in particular over 2003 across different post-16 providers, are similar.

### Education Services (Worcestershire)

**Mr. Michael Foster:** To ask the Secretary of State for Education and Skills how many children who live in Worcestershire attend school in another local authority, broken down by local authority; and how many children in each school in Worcestershire live in another local authority. [8970]

**Jacqui Smith:** The information requested broken down by local education authority has been provided in the following tables. The information requested at school level has been made available to the House of Commons Library.

*The number and percentages of pupils residing in Worcestershire attending schools in other local authorities*

| | *Number of pupils* | *Percentage of pupils* |
|---|---|---|
| Total number of pupils resident in Worcestershire | 81,700 | 100 |
| *Local education authority* | | |
| Worcestershire | 78,107 | 95.6 |
| Warwickshire | 1,512 | 1.9 |
| Birmingham | 692 | 0.9 |
| Gloucestershire | 443 | 0.5 |
| Solihull | 377 | 0.5 |
| Dudley | 274 | 0.3 |
| Herefordshire | 97 | 0.1 |
| Shropshire | 97 | 0.1 |
| Staffordshire | 59 | 0.1 |
| Sandwell | 20 | [1]— |
| Wolverhampton | 4 | [1]— |
| Somerset | 4 | [1]— |
| Other LEAs | 14 | [1]— |
| Total pupils schooled outside of authority | 3,593 | 4.4 |

[1] Denotes percentage of less than 0.05 per cent.

*Source:*

PLASC 2005 Provisional data

*The number and percentages of the school population in Worcestershire residing in other authorities*

| | *Number of Pupils* | *Percentage of pupils* |
|---|---|---|
| Pupils attending schools in Worcestershire | 81,127 | 100.0 |
| *Home authority* | | |
| Worcestershire | 78,107 | 96.3 |
| Birmingham | 1,188 | 1.5 |
| Dudley | 616 | 0.8 |
| Herefordshire | 307 | 0.4 |
| Shropshire | 184 | 0.2 |
| Sandwell | 150 | 0.2 |
| Gloucestershire | 149 | 0.2 |
| Warwickshire | 100 | 0.1 |
| Solihull | 33 | [1]— |

*The number and percentages of the school population in Worcestershire residing in other authorities*

| | *Number of Pupils* | *Percentage of pupils* |
|---|---|---|
| Staffordshire | 26 | [1]— |
| Other LEAs | 6 | [1]— |
| Unknown/not given[2] | 261 | 0.3 |
| Total residing outside of authority | 3,020 | 3.7 |

[1] Denotes percentage of less than 0.05 per cent.

[2] Residence of pupil unknown/not given

PLASC 2005 Provisional data

## Entry to Employment Programme

**John Mann:** To ask the Secretary of State for Education and Skills how many young people are participating in the Entry to Employment programme; and how many are expected to be participating by the end of July. [6511]

**Jacqui Smith:** This is a matter for the Learning and Skills Council. Mark Haysom, the Council's Chief Executive, will write to the hon. Member with this information and a copy of his reply will be placed in the House Library.

*Letter from Mark Haysom to Mr. John Mann, dated 1 July 2005:*

I am writing in response to your Parliamentary Question with reference to the number of young people who are participating in Entry to Employment (E2E) now and the expected number in July 2005.

As at the end of April 2005, 24,467 young people were participating in E2E. I am able to report that over 30 per cent. of the participants declared themselves as having a Learning Difficulty or Disability and 19 per cent. as being from an ethnic minority background. This demonstrates that E2E is truly addressing the Government's inclusion agenda.

In July we expect there to be a similar number of participants on E2E, indeed we would expect to maintain the programme at this level at least until July 2006. We have recently announced that the budget and funding rates for E2E have been increased by 2.5 per cent. support for 2005-06.

You will also, I am sure, be pleased to note that since E2E was introduced in 2003 the percentage of young people moving into a job, training or education place has improved by 11 per cent. from 32 per cent. to 43 per cent.

I hope these statistics reassure you that E2E is being maintained at the required level and that it is meeting the priorities the Government has set for it. Should you require further information, please do not hesitate to contact the LSC.

## EU Students

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills how many EU students she expects to attend higher education institutions in England in each year between 2006 and 2010. [8032]

**Bill Rammell:** Latest projections of EU student numbers are given in the table. These are subject to change, and projections for years after 2007/08 are not available.

*EU domiciled higher education students in English institutions*[1, 2]

| *Academic year* | *Headcount* |
|---|---|
| 2003/04[3] | 63,000 |
| 2004/05[4] | 76,000 |
| 2005/06[4] | 81,000 |
| 2006/07[4] | 85,000 |
| 2007/08[4] | 91,000 |

[1] Covers students studying at Higher Education Institutions and Further Education Colleges.

[2] Figures are headcounts on a DfES whole year count basis, and are rounded to the nearest 1,000.

[3] Estimated out-turn

[4] Projection

Projections for 2004/05 include students from the 10 Accession countries who joined the EU in 2004. Forecasts for later years include assumptions about new countries joining the EU.

## Faith Schools

**Mrs. Ellman:** To ask the Secretary of State for Education and Skills when she expects building to start on the new faith school in Everton. [6878]

**Jacqui Smith:** I am pleased to report that we are writing to the Archdiocese of Liverpool and the school to confirm that we are minded to approve the construction of the new school. This Department has yet to agree the design of the new school buildings and the precise level of funding, but it will be contained within the overall sum of £13 million allocated to three voluntary aided schools in the local authority's area. This confirmation will mean that the design work can proceed as soon as possible.

## Family Resolutions Pilot Project

**Annette Brooke:** To ask the Secretary of State for Education and Skills how many couples have been referred to the Family Resolutions Pilot Project since its inception; and how many have not been referred for reasons relating to domestic violence. [8802]

**Maria Eagle:** As of 24 June 2005, 48 couples have been referred to the Family Resolutions Pilot Project. The Pilot Project began in September 2004 but data gathering for evaluation purposes did not begin until 15 March 2005. Therefore it is not possible to give an exact figure for the number of couples who were not referred to Family Resolutions since it began for reasons relating to domestic violence.

However, since data gathering began from 15 March 2005 I can say that, of the 71 couples not referred to the Pilot Project, 14 of these non-referrals were for reasons relating to domestic violence.

## Foresters

**Mr. Hollobone:** To ask the Secretary of State for Education and Skills what steps she is taking to promote the training and development of foresters. [8918]

**Phil Hope:** The Government have established a network of sector skills councils as strategic bodies to improve skills and productivity in industry and business across the UK economy. Lantra is the sector skills council for environmental and land-based industries and is working on a number of developments in trees and timber trades which include forestry. It has developed an apprenticeship in trees and timber and intends to consult on developing an advanced apprenticeship. It is also developing a wide-ranging Sector Skills Agreement for the sector involving a detailed assessment of skill needs and current training provision including forestry. Identifying and promoting business champions through case studies and providing careers information in the sector is another area of work being undertaken. Forestry is also one of the five priority areas in Lantra's development of a business competence framework for industries within the sector.

## Foster Care

**John Hemming:** To ask the Secretary of State for Education and Skills how many children were taken into care in each Government Office region in *(a)* 2002, *(b)* 2003 and *(c)* 2004; how many of those children were aged under two years; and how many of those aged under two years how many were siblings of a child previously taken into care under the age of two years. [7734]

**Maria Eagle:** The figures requested are shown in the following table. Information on siblings of children looked after are not collected centrally.

*Children who started to be looked after in the years ending 31 March 2002 to 2004 by age[1,2,3]: England*

*Number*

| | *Age on starting, year ending 31 March* | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|
| | *2002[4]* | | | *2003[4]* | | | *2004[5]* | | |
| | *Under two years* | *Two years or over* | *Total* | *Under two years* | *Two years or over* | *Total* | *Under two years* | *Two years or over* | *Total* |
| England | 5,400 | 19,800 | 25,200 | 5,300 | 19,500 | 24,800 | 5,300 | 19,300 | 24,600 |
| North East | 370 | 1,210 | 1,580 | 330 | 990 | 1,330 | 350 | 1,110 | 1,460 |
| North West | 850 | 2,910 | 3,760 | 790 | 2,690 | 3,480 | 880 | 2,700 | 3,580 |
| Yorkshire and The Humber | 670 | 1,820 | 2,490 | 700 | 1,970 | 2,670 | 640 | 1,680 | 2,320 |
| East Midlands | 480 | 1,480 | 1,960 | 370 | 1,250 | 1,620 | 390 | 1,310 | 1,700 |
| West Midlands | 650 | 2,300 | 2,950 | 620 | 2,360 | 2,980 | 610 | 2,010 | 2,630 |
| East of England | 420 | 1,600 | 2,020 | 390 | 1,740 | 2,130 | 520 | 1,750 | 2,270 |
| Inner London | 410 | 1,830 | 2,240 | 410 | 1,680 | 2,090 | 460 | 1,880 | 2,340 |
| Outer London | 470 | 2,360 | 2,830 | 530 | 2,390 | 2,920 | 470 | 2,550 | 3,020 |
| South East | 580 | 2,380 | 2,960 | 690 | 2,480 | 3,160 | 580 | 2,250 | 2,830 |
| South West | 490 | 2,060 | 2,550 | 460 | 2,040 | 2,490 | 450 | 2,030 | 2,480 |

[1] Figures exclude children who start to be looked after under an agreed series of short term placements.
[2] Only the first occasion on which a child started to be looked after in the year has been counted.
[3] National figures have been rounded to the nearest 100. Regional figures have been rounded to the nearest 10.
[4] Figures are derived from the SSDA903 one-third sample survey.
[5] Figures are taken from the SSDA903 return, which in 2003–04 covered all children looked after.

**John Hemming:** To ask the Secretary of State for Education and Skills how many children were in external foster care of local authorities in each Government office region in *(a)* 2002, *(b)* 2003 and *(c)* 2004. [7882]

**Maria Eagle:** The figures requested are shown in the following table.

*Children looked after at 31 March in a foster placement 2002 to 2004[1,2]: England*

*Numbers*

| | *Year ending 31 March* | | | | | |
|---|---|---|---|---|---|---|
| | *2002* | | | *2003* | | |
| | *Arranged through agency[3]* | *Arranged through LA[3]* | *Total[4]* | *Arranged through agency[3]* | *Arranged through LA[3]* | *Total[4]* |
| England | 5,200 | 34,100 | 39,200 | 6,400 | 34,700 | 41,100 |
| North East | 150 | 2,060 | 2,220 | 200 | 2,040 | 2,250 |
| North West | 410 | 5,670 | 6,090 | 550 | 5,780 | 6,340 |
| Yorkshire and The Humber | 240 | 3,980 | 4,220 | 380 | 4,040 | 4,420 |
| East Midlands | 130 | 2,620 | 2,750 | 130 | 2,640 | 2,770 |
| West Midlands | 790 | 3,750 | 4,540 | 770 | 4,050 | 4,820 |
| East of England | 440 | 3,160 | 3,600 | 550 | 3,370 | 3,920 |
| London | 2,220 | 5,130 | 7,350 | 2,890 | 4,970 | 7,860 |
| Inner London | 1,070 | 2,490 | 3,560 | 1,290 | 2,280 | 3,570 |
| Outer London | 1,140 | 2,640 | 3,790 | 1,600 | 2,680 | 4,280 |
| South East | 540 | 4,390 | 4,920 | 690 | 4,470 | 5,160 |
| South West | 270 | 3,290 | 3,560 | 280 | 3,250 | 3,540 |

*Numbers*

| | Year ending 31 March 2004 | | |
|---|---|---|---|
| | *Arranged through agency*[5] | *Arranged through LA*[5] | *Total*[5] |
| England | 7,300 | 34,300 | 41,600 |
| North East | 240 | 2,070 | 2,310 |
| North West | 690 | 5,840 | 6,530 |
| Yorkshire and The Humber | 430 | 4,020 | 4,450 |
| East Midlands | 270 | 2,460 | 2,730 |
| West Midlands | 790 | 3,970 | 4,750 |
| East of England | 640 | 3,470 | 4,110 |
| London | 3,080 | 4,970 | 8,060 |
| Inner London | 1,360 | 2,290 | 3,660 |
| Outer London | 1,720 | 2,680 | 4,400 |
| South East | 800 | 4,360 | 5,160 |
| South West | 380 | 3,140 | 3,520 |

[1] Figures exclude children looked after under an agreed series of short term placements.
[2] Regional figures have been rounded to the nearest 10. National figures have been rounded to the nearest 100.
[3] Figures are derived from the SSDA903 one-third sample survey.
[4] Figures are taken from the CLA100 return.
[5] Figures are taken from the SSDA903 return, which in 2003–04 covered all children looked after.

**Harry Cohen:** To ask the Secretary of State for Education and Skills if she will establish a system for registration of private fostering; and if she will make a statement. [9363]

**Maria Eagle:** The strengthened and enhanced private fostering notification scheme came into effect on Friday 1 July, as provided for in the Children Act 1989 and the Children Act 2004. Before November 2008, the Government will form a view on the effectiveness of the new measures and whether a registration scheme should be introduced using powers under the Children Act 2004.

### Functional Skills

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what pilot initiatives her Department has set up to test the teaching of functional skills in mathematics and English at GCSE level. [8467]

**Jacqui Smith:** There are currently no pilot initiatives established to test the teaching of functional skills in maths and English GCSE. We will be publishing an implementation plan for the 14–19 reforms, including the functional skills in English and maths, in the autumn.

### Further Education

**Simon Hughes:** To ask the Secretary of State for Education and Skills what the proportion of black and ethnic minority students in *(a)* the London borough of Southwark, *(b)* Greater London and *(c)* England is in (i) sixth form colleges and (ii) further education colleges. [8809]

**Bill Rammell:** The information requested was contained in a letter from the Chief Executive of the Learning and Skills Council (LSC) to the hon. Gentleman dated 25 April 2005, and is reproduced as follows.

*Proportion of black and ethnic minority learners LSC-funded learners in further education and sixth form colleges, 2003/04*

*Percentage*

| | *Sixth form colleges* | *Further education colleges* | *Overall* |
|---|---|---|---|
| Southwark | n/a | 69.6 | 69.6 |
| London | 66.5 | 53.2 | 54.0 |
| England | 18.1 | 15.7 | 15.8 |

n/a = not applicable.
*Notes*:
1. Figures for further education colleges include tertiary colleges, but exclude specialist colleges.
2. Figures exclude students whose ethnicity was not known/not provided (around 6 per cent. nationally).

### Key Stage 3

**Mr. Hoban:** To ask the Secretary of State for Education and Skills (1) pursuant to the answer of 14 June 2005, *Official Report*, column 357W, on key stage learning, when the review of the key stage 3 curriculum will commence; and when it will report; [8489]

(2) pursuant to the answer of 14 June 2005, *Official Report*, column 357W, on key stage learning, who will be leading the review of the key stage 3 curriculum; [8490]

(3) pursuant to the answer of 14 June 2005, *Official Report*, column 357W, on key stage learning, whether a report will be published following the review of the key stage 3 curriculum. [8491]

**Jacqui Smith:** The Department asked QCA to undertake a review of the key stage 3 curriculum in March 2005. Planning and research have been in train since then, in anticipation of the review starting in September 2005. There will be initial advice to the Secretary of State following informal consultation early in 2007 with final advice following formal consultation in summer 2007. This will allow a full year for the development of guidance and continuing professional development for teachers and other staff before first teaching in September 2008. QCA will publish a report of the formal consultation.

### Learning and Skills Council

**Mr. Michael Foster:** To ask the Secretary of State for Education and Skills (1) what account the Learning and Skills Council takes of cost pressures arising from higher than average local wage levels in allocating funding for post-16 provision; and if she will make a statement; [9174]

(2) what account is taken of high local wage and salary levels by the Learning and Skills Council in allocating funds to institutions providing further education. [9517]

**Bill Rammell:** As part of a development plan, the Learning and Skills Council (LSC) enters into a funding agreement with each provider. The funding agreement sets out the funds for the provision of further education (FE) that the LSC has agreed to pay to the provider, and the education and training provision that the provider has agreed to provide in return.

The level of funding is determined by the application of a national funding formula, and should reflect the directly incurred costs of efficiently delivered provision.

As part of the funding formula, there is an 'area costs' element. This provides a funding uplift to reflect that in some geographical areas, higher salaries are needed to attract staff of a similar standard.

Success for All, the strategy for reforming FE and training, makes clear that the Government's approach to pay is to enable local flexibility to meet local needs and to encourage a clear link between pay and individual performance. General FE colleges and sixth form colleges are autonomous institutions, and as such they negotiate their own pay and conditions of service with staff and their unions without Government involvement.

### Literacy/Numeracy

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what criteria are used to assess the functional literacy and numeracy of school leavers. [8465]

**Jacqui Smith:** The national curriculum sets out a clear, full and statutory entitlement to learning for all pupils up to the age of 16. It determines the content of what will be taught and sets attainment targets for learning. The programmes of study set out what pupils should be taught in each subject at each key stage, and attainment targets set out the knowledge, skills and understanding which pupils of different abilities and maturities are expected to have by the end of each key stage. Functional literacy and numeracy skills are embedded in the English and mathematics programmes of study.

At key stage 4 (ages 14–16) GCSE qualifications are the principle means of assessing attainment, including functional literacy and numeracy. The changes to the assessment of functional skills in English and maths GCSE, announced in the White Paper "14–19 Education and Skills", will ensure that no one can get a grade C or better in English and maths without mastering the functional elements.

**Mr. Hoban:** To ask the Secretary of State for Education and Skills if she will make a statement on the differences in *(a)* assessment, *(b)* teaching and *(c)* content between the proposed tests of functional numeracy and literacy for school leavers and GCSEs in English and mathematics. [8466]

**Jacqui Smith:** The White Paper "14–19 Education and Skills" announced that GCSEs in English and maths would be revised to ensure that students cannot get a grade C or better without passing a functional skills unit. We are working closely with the Qualifications and Curriculum Authority and other stakeholders to develop the content, assessment and teaching of the functional skills units and how they will fit within English and maths GCSE. This work will build on the best aspects of the Key Stage 4 National Curriculum, Skills for Life and the current range of English and maths-related qualifications.

It is too early to say what the differences will be from the current GCSEs in English and maths but we will ensure that a grade C or better at GCSE is a guarantee that young people have the functional skills they need for life, learning and work.

### Looked-after Children

**Mr. Burstow:** To ask the Secretary of State for Education and Skills how many and what proportion of looked-after children aged under two years in each London borough experienced three or more changes of accommodation in each of the last five years. [8237]

**Maria Eagle:** The figures requested are shown in the following table.

*Children looked after at 31 March aged under 2 with three or more placements in the year ending 31 March, 2000 to 2004[1,2]—England*

*Numbers and percentages*

| | *Number of children looked after at 31 March aged under 2* | | | | | *Number at 31 March aged under 2 with three or more placements in the year* | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | *2000*[3] | *2001*[3] | *2002*[3] | *2003*[3] | *2004*[4] | *2000*[3] | *2001*[3] | *2002*[3] | *2003*[3] | *2004*[4] |
| *England* | 4,700 | 4,700 | 5,000 | 5,000 | 5,200 | 1,200 | 790 | 810 | 720 | 640 |
| *London* | 820 | 720 | 820 | 900 | 920 | 160 | 90 | 110 | 150 | 120 |
| *Inner London* | 440 | 400 | 420 | 390 | 440 | 70 | 50 | 60 | 60 | 50 |
| Camden | 30 | 20 | 30 | 35 | 30 | 0 | 0 | 0 | 0 | — |
| City of London | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 |
| Greenwich | 55 | 45 | 50 | 30 | 50 | 15 | 5 | 10 | 15 | — |
| Hackney | 25 | 40 | 40 | 30 | 45 | 10 | 10 | — | 10 | — |

| Southwark | 8 | 19 | 12 | 17 | 16 |
| Tower Hamlets | — | 0 | 18 | — | — |
| Wandsworth | — | 29 | 25 | 23 | 0 |
| Westminster | 20 | — | — | 23 | — |
| *Outer London* | 23 | 12 | 13 | 18 | 15 |
| Barking and Dagenham | 0 | 0 | — | 22 | — |
| Barnet | 25 | — | — | 27 | — |
| Bexley | 0 | 0 | — | 0 | 0 |
| Brent | 40 | — | — | 14 | 22 |
| Bromley | — | 0 | — | 27 | — |
| Croydon | 25 | 0 | — | 0 | — |
| Ealing | 45 | 18 | 24 | 21 | — |
| Enfield | 0 | 0 | 0 | 0 | 0 |
| Haringey | 27 | 22 | 0 | 29 | 18 |
| Harrow | 40 | — | 0 | — | — |
| Havering | 0 | 0 | 0 | 0 | — |
| Hillingdon | — | 0 | 0 | — | — |
| Hounslow | — | 0 | 0 | 38 | 20 |
| Kingston upon Thames | 0 | — | — | 0 | — |
| Merton | 0 | 0 | 0 | 0 | — |
| Newham | 18 | 25 | 12 | 21 | 17 |
| Redbridge | — | 0 | — | 0 | — |
| Richmond upon Thames | — | 0 | 0 | 0 | 0 |
| Sutton | 0 | 0 | 0 | — | 0 |
| Waltham Forest | 0 | — | 18 | 29 | 26 |

*Notes:*

1. Figures exclude children looked after under an agreed series of short-term placements.

2. National figures over 1,000 have been rounded to the nearest 100. National figures under 1,000 and all regional figures have been rounded to the nearest 10. Figures between 1 and 5 have been suppressed and replaced by a hyphen (-). All other figures have been rounded to the nearest 5.

3. Figures have been derived from the SSDA903 one-third sample survey.

4. Figures have been taken from the SSDA903 return, which in 2004–04 covered all children looked after.

## Mathematics

**Mr. Gibb:** To ask the Secretary of State for Education and Skills what proportion of mathematics teachers teaching in secondary schools have degrees in mathematics. [9381]

**Jacqui Smith:** The information requested has been published in table 24 of the Statistics of Education, School Workforce in England Volume, 2004 edition, a copy of which has been placed in the House of Commons Library. Alternatively it may be accessed at the following URL: http://www.dfes.gov.uk/rsgateway/DB/VOL/v000443/index.shtml

Table 25 of the same publication provides the proportion of subject periods taught by level of qualification.

**Mr. Gibb:** To ask the Secretary of State for Education and Skills if she will ask the Qualifications and Curriculum Authority to review the requirement for coursework in GCSE mathematics specifications. [9382]

**Jacqui Smith:** On 24 March, the Secretary of State wrote to Sir Anthony Greener asking the Qualifications and Curriculum Authority to take forward work on a number of proposals in the 14–19 Education and Skills White Paper. One of these was to consider scope for reducing the coursework burden across all GCSEs, including mathematics, with a view to ensuring that coursework adheres to principles for assessment set out in chapter 9 of the White Paper, summarised in the case of coursework in paragraph 8.12. She asked that the review address in particular: the need for a consistent approach to coursework in similar subjects; fairness; the cumulative burden of coursework; and that coursework should be used to test skills and attributes that cannot be tested by a terminal examination.

**Mr. Clappison:** To ask the Secretary of State for Education and Skills how many students entered as candidates for mathematics *(a)* at GCSE or O-level and *(b)* A-level in each of the last 30 years. [8719]

**Jacqui Smith:** The following table shows the information readily available on the number of entries for mathematics at O-level or GCSE and A-level for each year between 1975 and 2004.

*O-level entries, GCSE candidates and A-level entries for mathematics in all schools and further education sector colleges, 1975–2004*

| | O-level entries[1] | A-level entries |
|---|---|---|
| 1975 | 309,901 | 69,759 |
| 1976 | 325,727 | 73,682 |
| 1977 | 352,727 | 70,606 |
| 1978 | 357,418 | 73,281 |
| 1979 | 381,424 | 79,412 |
| 1980 | 395,254 | 80,881 |
| 1981 | 413,822 | 87,446 |
| 1982 | 433,164 | 91,550 |
| 1983 | 440,917 | 92,858 |
| 1984 | 444,639 | 90,688 |
| 1985 | 452,778 | 87,682 |
| 1986 | — | — |
| 1987 | — | — |
| 1988 | — | — |

| | GCSE candidates | A-level entries |
|---|---|---|
| 1989 | 528,580 | — |
| 1990 | 490,260 | — |
| 1991 | 471,410 | — |
| 1992 | 460,391 | 66,395 |
| 1993 | 452,773 | 62,616 |
| 1994 | 479,084 | 60,607 |
| 1995 | 522,290 | 58,796 |
| 1996 | 537,759 | 62,181 |
| 1997 | 533,992 | 64,209 |
| 1998 | 526,882 | 64,435 |
| 1999 | 536,779 | 63,584 |
| 2000 | 539,934 | 60,808 |
| 2001 | 563,852 | 61,305 |
| 2002 | 568,851 | 50,421 |
| 2003 | 585,017 | 51,426 |
| 2004 | 605,980 | 53,530 |

*Notes:*

*A-levels:*

1. Figures from 1974/75 to 1976/77 are for England and Wales, summer examinations.
2. Figures from 1977/78 to 1984/85 are for England, summer examinations.
3. Figures from 1985/86 to 1990/91 are unavailable as these data were not supplied by the awarding bodies to the Department.
4. Figures from 1990/91 onwards relate to schools and colleges in England.
5. 2004 figures are revised. All other figures are finalised.

*GCSEs:*

1. Figures from 1974/75 to 1987/88 are taken from the School Leavers Survey, and include school leavers of any age from all schools except special schools.
2. Figures from 1985/86 to 1987/88 are combined for O-level and CSE and are not therefore comparable.
3. Figures from 1988/89 to 1990/91 are taken from the School Examinations Survey, and are based on 15-year-old pupils in all schools except special schools.
4. Figures from 1991/92 to 2003/04 are taken from the database on School Achievement and Attainment Tables, and are based on 15-year-old pupils in all schools including special schools.
5. Figures from 1974/75 to 1984/85 are for O-level entries. Figures from 1988/89 to 2003/04 are for GCSE candidates.
6. 2004 figures are revised. All other figures are finalised.

## Missing Children

**Mr. Burstow:** To ask the Secretary of State for Education and Skills which local authorities have *(a)* established protocols for joint working across all agencies for children who go missing, *(b)* established a senior manager with responsibility to oversee these protocols and their implementation and *(c)* produced an annual strategic monitoring report on children who go missing from home or care, as set out in her Department's report Children who go Missing: Research, Policy and Practice. [8006]

**Maria Eagle:** The Department of Health published 'Children Missing from Care and Home—a guide to good practice' with its related Circular LAC (2002)17 in November 2002. These were issued under Section 7 of the Local Authority Social Services Act 1970, which means that local authorities are obliged to follow their requirements, unless there are exceptional circumstances. The good practice guide requires that protocols for the management of 'missing from care' incidents are drawn up between the local authority and the police, that a senior manager is appointed to monitor these protocols and that there should be regular reports to council members with responsibility for "corporate parenting" on patterns of children going missing from care. The Guidance also suggests a similar model of protocols and a named manager for children missing from home.

As part of the arrangements for performance management of local authorities, all local authorities in England were required to complete a Delivery and Improvement Statement (DIS) each spring, giving a self-assessment of their progress. From April 2004, the information provided by the DIS was returned to the Commission for Social Care Inspection and it provided part of the evidence base used to evaluate the performance of each local authority in delivering their services for vulnerable adults and children. In spring 2004, the DIS included questions about LA compliance with the Children Missing from Care and Home Guidance. The data on local authorities response to these questions indicated that 96 per cent. of local authorities had appointed a senior manager to monitor 'missing from care' incidents and that 88 per cent. of local authorities had protocols in place with the police for managing missing from care incidents.

Data is not collected centrally on which local authorities have complied with the Children Missing from Care and Home Guidance, nor on local authorities which have produced annual strategic monitoring reports on children who go missing from home or care.

## New Schools

**Mr. Hoban:** To ask the Secretary of State for Education and Skills pursuant to the answer of 15 June 2005, *Official Report*, column 492W, on building schools for the future (BSF), how much money has been set aside within the BSF budget for special schools. [8496]

**Jacqui Smith:** Funding is not set aside specifically for special schools within the budget for building schools for the future. We provide funding based on local authorities' statements of priority, which include any plans for special schools. Based on local authorities' latest statements of priority in waves one to three, the following allocations have been made for special schools.

£ million

| Wave | Allocation made for special schools | With additional ICT funding |
|---|---|---|
| 1 | 97.7 | 3.2 |
| 2 | 48 | 1.1 |
| 3 | 62 | 1.6 |

These allocations include initial provision for construction inflation, but may be subject to change as local authorities' business cases for BSF are further refined and if local authorities make changes to the schools included within individual BSF waves. In addition, the allocations are before any potential uplift due to the introduction of the revised Building Bulletin 77: Designing for Pupils with Special Educational Needs and Disabilities in Schools, which is currently subject to consultation.

## Non-EU Students

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills (1) what the estimated income was from fees paid by *(a)* undergraduate and *(b)* postgraduate non-EU students in higher education institutions in England in each year between 1999 and 2004; [8037]

(2) what the total amount of fees raised from *(a)* undergraduate students and *(b)* postgraduate students attending higher education institutions in England was in each year between 1999 and 2004. [8038]

**Bill Rammell:** The available information gives data on the income received in respect of fees for students on courses for which fees are charged.

Figures for non-EU overseas students are not broken down into postgraduate and undergraduate.

The available figures are given in the table.

*Income to English HE institutions in respect of fees for students on courses for which fees are charged, academic year 1999/2000 to 2003/04*

£ million

| Academic year | Home and EU domiciles: Postgraduate | Home and EU domiciles: Undergraduate | Non-EU overseas domiciles |
|---|---|---|---|
| 1999/2000 | 420.1 | 1,187.5 | 583.1 |
| 2000/01 | 438.0 | 1,248.1 | 649.0 |
| 2001/02 | 487.5 | 1,310.2 | 763.4 |
| 2002/03 | 530.7 | 1,415.4 | 950.5 |
| 2003/04 | 546.5 | 1,506.4 | 1,121.5 |

*Source:*
Higher Education Statistics Agency (HESA) Finance record

Data in the answer cover all fee income, including short courses, self-financing full-cost courses funded by private/non-private sources in respect of all and only those students on courses for which fees are charged. This includes expenditure by Student Loans Company (SLC), Local Education Authorities (LEAs), Student Awards Agency for Scotland (SAAS), the Department for Employment and Learning, Northern Ireland (DEL), the Department of Health (DH) (including National Health Service (NHS), Workforce Development Confederations (England) and NHS Trusts), Regional Offices of the NHS Executive (RONE), the Scottish Home and Health Department (SHHD), and other sources not covered including individual students.

## Prison Education

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills pursuant to the answer of 15 June 2005, *Official Report*, column 491W, on Prison Education, (1) how much has been spent on supporting Open University undergraduate courses for offenders in custody for each year between 2002–03 and 2004–05; and what the projection is for 2005–06; [7373]

(2) what the projected number of offenders in custody who will study *(a)* Open University undergraduate courses and *(b)* access courses is in 2005–06. [7387]

**Phil Hope:** The following table sets out the spend from the Department for Education and Skills offender learning and skills budget on Open University courses for offenders in custody since 2002–03, and the projected spend for 2005–06:

*OU courses*

| | Funding (£) |
|---|---|
| 2002–03 | 100,000 |
| 2003–04 | 249,000 |
| 2004–05 | 379,250 |
| 2005–06 | 1,048,550 |

The budget for 2005–06 is intended to support up to 1,300 opportunities for offenders in custody to commence study (1,050 new places on undergraduate and 250 Openings access courses) in addition to those offenders already studying and those who finance their own learning. Actual numbers taking up the opportunities will be affected by demand, and by operational considerations, including security.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills pursuant to the Answer of 15 June 2005, *Official Report*, column 491W, on prison education, which subjects are covered by access courses; which service providers are employed to provide each one; and what proportion of prisoners who apply to participate in such courses are offered places on them. [8182]

**Phil Hope:** The entire suite of Openings (access) courses are available to offenders in custody, subject to Prison Service security considerations. The courses are provided by the Open University. Data is not collected centrally regarding the numbers of offenders in custody who apply for places.

## Qualifications and Curriculum Authority

**Mr. Hoban:** To ask the Secretary of State for Education and Skills if she will list reviews of examination standards undertaken by the Qualifications and Curriculum Authority since its establishment. [8494]

**Jacqui Smith:** The list of QCA reviews of examination standards is as follows. Access to the reports is available on QCA's website at www.qca.org.uk.

QCA has carried out investigations of standards over time in the following areas. All reports are published on the QCA website.

| | |
|---|---|
| *A level* | |
| Art and Design | 1978–98 |
| Biology | 1977–97 |
| Chemistry | 1995–98 |
| Classical Subjects | 1977–97 |
| Design and Technology | 1979–99 |
| English Literature | 1996–99 |
| French | 1977–97 |
| General Studies | 1980–2000 |
| Geography | 1980–2000 |
| German | 1976–96 |
| German | 1996–2001 |
| Government and Politics | 1976–96 |
| History | 1976–96 |
| Mathematics | 1995–98 |
| Physics | 1976–96 |
| Physics | 1996–2001 |
| Psychology | 1977–97 |
| *GCSE* | |
| Art and Design | 1979–99 |
| Biology | 1978–98 |
| Chemistry | 1978–98 |
| Design and Technology | 1978–98 |
| English | 1995–98 |
| English | 1998–2002 |
| English Literature | 1980–2000 |
| French | 1976–96 |
| French | 1996–2001 |
| Geography | 1976–96 |
| Geography | 1996–2001 |
| German | 1977–97 |
| History | 1977–97 |
| Mathematics | 1995–99 |
| Physical Education | 1976–96 |
| Physics | 1977–97 |
| Physics | 1997–2002 |
| Religious Studies | 1976–96 |
| Science Double Award | 1995–2000 |

In addition, there have been reports on GCSE and A level biology, 1997/98 to 2003 and GCSE and A level chemistry, 1997/98 to 2003 and one looking across GCSE and A level business studies and economics, 1978–2003. Work is currently under way on A level computing/ICT, A level French, A level sociology and GCSE and A level mathematics, all looking at 2004 examinations in comparison with predecessors.

### School Building Projects (Chorley)

**Mr. Hoyle:** To ask the Secretary of State for Education and Skills how many school building projects will take place in 2005–06 in Chorley; and how much money has been allocated. [9611]

**Jacqui Smith:** My Department does not have this information, which is held locally. The bulk of schools capital funding is allocated by needs-related formula to schools and local authorities so that they can address their local priorities.

Schools capital funding has increased from under £700 million in 1996–97 to £5.5 billion this year, and will increase further to £6.3 billion by 2007–08. For 2005–06, Lancashire and its schools have been allocated £38 million and this will rise to £43 million by 2007–08. Additionally, Lancashire has been prioritised in wave one of the Building Schools for the Future programme which starts this year.

### School Bullying

**Mr. Hoban:** To ask the Secretary of State for Education and Skills whether schools are under an obligation regularly to review their school bullying policy. [8470]

**Jacqui Smith:** Under section S61 of the School Standards Framework Act 1998, head teachers have a legal obligation to ensure an anti-bullying policy is in place within their school and to publicise it annually.

Our guidance additionally suggests that this policy is reviewed regularly through the feedback provided by staff, families, pupils and governors, enabling the policy to be updated and improved, if necessary.

### School Leavers

**Mr. Rob Wilson:** To ask the Secretary of State for Education and Skills how many and what percentage of secondary school pupils left formal education at the statutory permitted age of 16 in each of the last five years. [9986]

**Jacqui Smith:** Estimates of the number and percentage of young people aged 16 who were not in full-time education in England in each of the last five years are given in Table 1. Many of these were in Apprenticeships or other training, so the numbers and percentages of young people in the age cohort who were not in any education or training are also shown in the table.

*Table 1*

| | *Not in full-time education*[1] | | *Not in any education or training* | |
|---|---|---|---|---|
| *End of calendar year* | *Number (thousand)* | *Percentage* | *Number (thousand)* | *Percentage* |
| 2000 | 176 | 29.0 | 83 | 13.6 |
| 2001 | 186 | 29.3 | 91 | 14.4 |
| 2002 | 177 | 28.1 | 88 | 13.9 |
| 2003 | 179 | 27.7 | 86 | 13.4 |
| 2004[2] | 176 | 26.7 | 85 | 13.0 |

[1] This group comprised of those who were in work based learning programmes; employer funded training; other education and training; and those who were not in any education or training.
[2] provisional

These estimates are snapshot information as at the end of the calendar year. They are taken from the Department's Statistical First Release (SFR 27/2005) entitled, 'Participation in Education, Training and Employment by 16–18 year olds in England: 2003 and 2004'.

### School Meals

**Helen Jones:** To ask the Secretary of State for Education and Skills what discussions she has had on implementing the Government's strategy for improving school meals; and how many of these discussions involved *(a)* trade unions and *(b)* staff who work in the school meals service. [9301]

**Jacqui Smith:** The Secretary of State and I have had conversations and meetings with a range of partners who have expressed interest in helping us improve school meals. The Secretary of State spoke at the Unison conference on 1 June and had a productive dialogue with members on issues affecting cooks and caterers. She met Jamie Oliver on 4 February and Sir Donald

Curry, Chairman of the Sustainable Farming and Food Implementation Group on 22 June. I have recently had a meeting with Suzi Leather who is chairing the School Meals Review Panel and acting as interim Chair of the School Food Trust.

We have asked officials to liaise with a wide group of stakeholders in drawing together and implementing the strategy for improving school meals. This group includes union representatives, local authority and primary care trust (PCT) officers, ConfEd, the Bursars' Association and the National Governors' Council, and has met once a month since February this year. A senior official met with the Workforce Agreement Monitoring Group, comprising of union representatives on 3 February to outline our emerging strategy.

The School Meals Review Panel, which has met twice, includes a union representative, and several members work in the school meals service.

**Dr. Starkey:** To ask the Secretary of State for Education and Skills if she will require schools to comply with the nutrient-based standards for school meals published by the Caroline Walker Trust on 23 June. [9631]

**Jacqui Smith:** The Department has commissioned the School Meals Review Panel to review the nutritional standards for school meals. The new, draft guidance will be available from September 2005, with the new standards mandatory from September 2006.

## School Premises

**Mr. Burstow:** To ask the Secretary of State for Education and Skills how many temporary buildings there were on school premises in each London borough in *(a)* 1997, *(b)* 2001 and *(c)* 2005, broken down by (i) primary, (ii) secondary and (iii) special schools. [8068]

**Jacqui Smith:** The following table shows numbers of temporary buildings on primary, secondary and special school premises for each London borough. The figures are derived from data supplied to the Department by authorities in 2001 and 2003. No data were collected in 1997. New data have been requested at the end of this year. Not all temporary buildings are used for teaching. They may accommodate one or more classrooms.

Central government capital support for investment in schools has increased from under £700 million in 1996–97 to £5.5 billion this year and will rise further to over £6.3 billion by 2007–08. Progress is being made year-by-year in improving the quality of the school building stock. The bulk of schools capital is now allocated by formula to authorities and schools so that they can address their local priorities, including the replacement of decayed temporary accommodation, on which we have set a high priority.

Modern, high quality mobile or demountable classrooms provide a good environment for teaching and learning where there is short term need. They might, for instance, be needed to cope with a short term increase in pupil numbers, or where extensive remodelling or rebuilding of permanent accommodation means providing temporary accommodation on the school site, rather than transporting children elsewhere.

*Numbers of temporary buildings at primary, secondary and special schools in London boroughs*

*Note:*
Where no figures are shown, either no data have been supplied by authorities, or there are clearly significant data anomalies.

### School Violence

**Mr. Amess:** To ask the Secretary of State for Education and Skills what her Department's policy is on dealing with violence taking place in *(a)* primary and *(b)* secondary schools. [9934]

**Jacqui Smith:** Although the great majority of schools are safe and orderly places the Government take the issue of violence very seriously. We have made it clear that head teachers may permanently exclude pupils for violence even when this is a first offence. But it is even more important to help schools create an environment that reduces the risk of violence to an absolute minimum. To achieve that we have:

- given every secondary school access to high-quality behaviour management training materials and expert advice from behaviour management consultants;
- funded extra support for schools facing the greatest challenges through our Excellence in Cities and Behaviour Improvement Programmes;
- provided £120 million for school security improvements since 1997;
- given schools a legal toolkit on how to ban aggressive parents from the site and have them removed and prosecuted if they flout the ban; and
- helped to establish over 400 safer schools partnerships that base police officers in schools.

In addition, we are:

- giving every primary school access to high-quality training and curriculum materials for developing pupils' social, emotional and behavioural skills and developing similar materials for secondary schools;
- developing specific violence prevention advice and training in collaboration with associations representing heads and other school staff;
- working with the Home Office on legislation to give heads the power to search pupils for offensive weapons; and
- asking an expert group of heads and teachers to consider what else could be done to promote discipline and a culture of respect in all schools.

### Sixth Forms

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what proposals she has received from learning and skills councils relating to school sixth forms referring to *(a)* closure, *(b)* reorganisation and *(c)* opening in each year since councils' powers were introduced. [8493]

**Jacqui Smith:** My right hon. Friend the Secretary of State has received two reorganisation proposals relating to school sixth forms from the LSC:

- a proposal to close four school sixth forms in Haringey and open a new 16–19 school, submitted in September 2004;
- a proposal to close six school sixth forms, one sixth form college and one general FE college in Hastings and Rother and to open a new general FE college delivering 16–19 provision on four sites, submitted in February 2005.

### Special Schools

**Mr. Drew:** To ask the Secretary of State for Education and Skills how many proposals to close moderate learning disability special schools in the last eight years went to adjudication; and how many schools were subsequently closed. [4097]

**Maria Eagle:** Schools adjudicators are independent of the Department for Education and Skills. Details of the decisions they have made are published each year by the Office of the Schools Adjudicator in their annual report. Copies, for each year since the office was created in April 1999, have been placed in the House Library.

The Office of the Schools Adjudicators (OSA) was established on 1 April 1999. To date adjudicators have considered 17 proposals to reorganise provision in 31 special schools. Of these, 11 included proposals to close special schools catering for children with moderate learning difficulties (MLD). Adjudicators approved nine of these proposals, amounting to the closure of 13 schools with provision for children with MLD.

### Student Unions

**Mrs. Ellman:** To ask the Secretary of State for Education and Skills what assessment she has made of the responsibility of universities for student unions in respect of the implementation of race relations and diversity policies and legislation. [9138]

**Bill Rammell:** Universities are bound by equality and diversity legislation and it is the responsibility of their governing bodies to ensure that non-discriminatory practices are followed. With regard to race relations specifically, governing bodies of universities have a positive duty have due regard to the need to eliminate racism and to promote equality. This duty applies to all functions exercised by governing bodies, including their regulatory function in respect of student unions. There is also the specific duty placed upon governing bodies to have in place a policy for promoting race equality and to monitor its effect. The CRE has prepared guidance for further and higher education institutions on their duties under the race relations legislation. Government's approach to pay is to enable local flexibility to meet local needs and to encourage a clear link between pay and individual performance. General FE colleges and sixth form colleges are autonomous institutions, and as such they negotiate their own pay and conditions of service with staff and their unions without Government involvement.

### Teachers

**Mr. Maude:** To ask the Secretary of State for Education and Skills how many *(a)* primary and junior school teachers, *(b)* secondary school teachers and *(c)* classroom assistants there were in (i) West Sussex, (ii) Kent, (iii) Durham and (iv) the East Riding of Yorkshire in each of the last eight years. [7916]

**Jacqui Smith:** The following table provides the information requested. Teacher numbers are not yet available for 2005 at LEA level.

*Full-time equivalent regular teachers (excluding occasionals) and teaching assistants: January 1998 to 2005*

| | 1998 | 1999 | 2000 | 2001 | 2002 | 2003 | 2004 | 2005 |
|---|---|---|---|---|---|---|---|---|
| *Nursery/Primary* | | | | | | | | |
| West Sussex | 2,760 | 2,830 | 2,800 | 2,760 | 2,810 | 2,870 | 2,760 | n/a |

*Full-time equivalent regular teachers (excluding occasionals) and teaching assistants: January 1998 to 2005*

n/a = not available
*Source:*
Annual survey of teacher numbers and vacancies (Form 618g) for teacher numbers. Annual School Census for teaching assistants.

**Mr. Gibb:** To ask the Secretary of State for Education and Skills if she will list the qualifications approved for teaching in maintained schools under section 96 of the Learning and Skills Act 2000. [9383]

**Jacqui Smith:** The qualifications approved for teaching in maintained schools under section 96 of the Learning and Skills Act 2000 are available via website at www.dfes.gov.uk/section96.

### Training and Enterprise Council

**Mr. Laws:** To ask the Secretary of State for Education and Skills what the total value was of Training and Enterprise Council *(a)* assets and *(b)* cash reserves received by her Department; and how much of this was transferred to individual learning accounts. [8736]

**Bill Rammell:** The total value of *(a)* assets was £24,692,898 and *(b)* total cash reserves received to date £286,710,259. £123,872,849 was transferred to individual learning accounts.

**Mr. Laws:** To ask the Secretary of State for Education and Skills which of the former training and enterprise council pension schemes have not yet been transferred to the Principal Civil Service Pension Scheme; what type of pension scheme they are; and how many members each has. [8737]

**Phil Hope:** Of the 72 TEC/CCTEs 33 operated final salary schemes which required action to be taken to enable them to transfer their accrued benefits into the Principal Civil Service Pension Scheme (PCSPS).

Of these 33, 24 participated in the "industry-wide" TEC National Pension Scheme, which in March 2001 had nearly 1,000 active members of whom 742 have now transferred their accrued pension rights into the PCSPS as active members. In addition, there have been 926 transfers into the PCSPS in the form of deferred pension rights. The remainder chose not to transfer their accrued benefits into PCSPS.

The following table sets out the information on the remaining nine TECs with final salary-type pension arrangements. Information on the total membership of each TEC pension scheme in March 2001 was not routinely requested, as it was not strictly required in order to arrange a bulk transfer.

| *TEC/CCTE* | *Number of active members for whom accrued TEC pension rights have been transferred to PCSPS*[1] | *Number of deferred pensioners for whom accrued TEC pension rights have been transferred to PCSPS*[1] |
|---|---|---|
| North Yorkshire[2] | 46 | nil |
| Tyneside and Sunderland[2] | 130 | nil |
| Hertfordshire[2] | 7 | nil |
| Northumberland | 35 | 48 |
| Suffolk | 47 | 25 |
| Greater Nottinghamshire | 42 | 21 |
| Staffordshire | 71 | 35 |
| HOETEC[3] | nil | nil |
| Teesside | 90 | 32 |

[1] In the time available, it has not been possible to verify that the above numbers include all late data amendments, but there were relatively few of these.
[2] These TECs each participated in one of the local government schemes; as these schemes would not be wound-up, no transfer option was required for deferred pensioners.
[3] Discussions with the independent trustee are ongoing with the objective of securing a bulk transfer to PCSPS. We understand that there are approximately 100 to 120 members.

**Mr. Laws:** To ask the Secretary of State for Education and Skills for what reason she appointed an administrative receiver to manage the affairs of the Heart of England Training and Enterprise Council. [8740]

**Phil Hope:** The Department for Education and Skills appointed an administrative receiver to expedite the conclusion of the outstanding financial affairs of the TEC.

### University Admissions

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what assessment she has made of the effects of making module grades of A level students available to universities as an interim measure before moving to a system of post-qualification application to university. [8472]

**Jacqui Smith:** We welcome and support UCAS's initiative (as set out in the 14–19 Education and Skills White Paper) to make unit grades available to higher education institutions as a swift and practicable interim measure for universities to discern differentiation at the top end. We do so in the belief that it will provide universities with robust and objective information for choosing between candidates. The precise way in which the availability of that information will affect universities' offer making is a matter for the individual

institutions and UCAS to determine. The results of the consultation process have not yet been made public. However the UCAS/Joint Council for Qualifications Working Group is now investigating the possible effects. The Working Group will meet again on 8 July to consider next steps.

### University Graduates

**Bob Spink:** To ask the Secretary of State for Education and Skills how many university students graduated in each discipline in each of the last five years. [8835]

**Bill Rammell:** Information on qualifications obtained by students on HE courses is published annually by the Higher Education Statistics Agency (HESA). Provisional figures for the 2003/04 academic year were published on 11 January 2005.

*First degree qualifications obtained by students on HE courses at HEIs in the UK by subject area, 1999/2000 to 2003/04 (thousand)*[1]

| Historical and Philosophical studies | 13.1 | 14.6 |
| Creative arts and design | 26.1 | 27.8 |
| Education | 9.3 | 9.2 |
| Combined | 9.3 | 5.0 |
| All subjects | 273.4 | 282.1 |

[1] The figures presented above include qualifications submitted to HESA by a reporting deadline; however this deadline has changed over the years. Details of reporting schedules are given in earlier Statistical First Releases. These changes are not thought to have affected the number of qualifications reported.
[2] For 2000/01 and subsequent data collections, the figures exclude qualifications obtained by incoming visiting and exchange students. To enable comparison, there were approximately 500 first degree qualifications obtained by incoming visiting and exchange students not included in the figures presented for 2000/01. Also from 2000/01 dormant students are included in the above figures.
[3] The 2003/04 figures above are provisional.
[4] In 2002/03 the Joint Academic Subject Classification (JACS) replaced HESACODE as the basis for grouping by subject area. Although JACS and HESACODE look similar and are closely related, they are not by any means identical, and so are not directly comparable. It has accordingly been necessary for 2002/03 onwards to construct subject area definitions afresh in terms of JACS.
The shift of numbers shown between 2001/02 and 2002/03 is largely attributable to the introduction of a new procedure of apportionment for dealing with students, notably those on combined/split programmes, rather than to the changes in the way subjects are classified. It can also be seen that improved reporting practice has led to further reduction in the numbers on combined programmes shown in 2003/04.

Due to differing coverage, changes between 2002/03 and 2001/02 are not directly comparable.

### Work Experience Schemes

**Mr. Boswell:** To ask the Secretary of State for Education and Skills what action her Department is taking to improve the evaluation of work experience schemes for school children. [700]

**Jacqui Smith:** Work experience is increasingly important as part of our strategy to engage employers in supporting schools and colleges, but the issue raised is of an operational nature which is a matter for the LSC. Mark Haysom, the LSC's chief executive, will write to my hon. Friend, and a copy of his reply will be placed in the Library.

*Letter from Mark Haysom to Mr. Boswell, dated 1 July 2005:*

I write in response to your Parliamentary Question which has been referred to the LSC, in which you asked the Secretary of State for Education and Skills what action is being taken by the Department for Education and Skills to improve the evaluation of work experience schemes for schoolchildren.

Funding for Work Experience is delivered as part of the Education Business Links funding which local offices receive to further the links and understanding between businesses, employers, young people and staff teaching in schools. A significant amount of the total EBL funding supports the 95% of Key Stage 4 pupils who go on placements each year. The majority of these placements are delivered through partnerships between schools and their local Education Business Partnerships. The evaluation of these placements forms part of the contractual arrangements for funding. A number of other agencies; for example QCA and NEBPN are working to ensure quality standards in the delivery of work-experience placements providing resources and support for teachers and students in the evaluation of their experiences.

I trust this is helpful.

### Work-related Stress

**Lynne Featherstone:** To ask the Secretary of State for Education and Skills how many cases of work-related stress have been reported in her Department in each of

the last three years; how much compensation was paid to employees in each year; how many work days were lost due to work-related stress in each year; at what cost; what procedures have been put in place to reduce work-related stress; at what cost; and if she will make a statement. [7861]

**Jacqui Smith:** My Department takes the health and welfare of all its employees very seriously. Systems and practices are being developed, in line with HSE guidance, to help prevent work related stress occurring and also to identify periods of absence that are connected with employment. This work is ongoing and is at nil additional cost to the Department as staff currently employed to take forward statutory requirements such as this are developing policy, systems and practices.

In addition, we encourage the use of the Department's Employee Assistance Programme for counselling and information. Staff and their managers also use departmental occupational health advisers to provide advice on all areas where health may affect attendance and performance.

My Department has no cases of work related stress to report, no days lost to work related stress and compensation has not been paid to employees for work related stress during the last three years.

### Young Offenders

**Lynne Featherstone:** To ask the Secretary of State for Education and Skills how many hours per day *(a)* 16 to 18-year-old and *(b)* over 18-year-old prisoners in each young offenders institution receive of (i) compulsory education, (ii) extra curricular education, (iii) sport and (iv) general exercise: and if she will make a statement. [8047]

**Phil Hope:** The Prison Service collects data on the time spent by prisoners held in each young offender and juvenile establishment on education and physical education on a weekly basis. Where both juveniles (aged 15 to 17 inclusive) and young adult offenders (aged 18 to 20 inclusive) are held within the same establishment, the Prison Service does not separate the data for the number of hours undertaken by each age group.

Consequently, provision of a detailed breakdown by day for the age groups and by the specific categories requested could be provided only at a disproportionate cost.

The following table sets out the weekly average number of hours of education and physical education (PE) undertaken by offenders at each young offender and juvenile establishment in 2004–05.

| | *Establishment* | *Education hours* | *PE services hours* |
|---|---|---|---|
| YOI | Aylesbury | 5.5 | 3.3 |
| YOI | Brinsford[1] | 7.9 | 3.7 |
| YOI | Castington[1] | 10.9 | 4.0 |
| YOI | Coldingley | 9.2 | 2.5 |
| YOI | Deerbolt | 8.3 | 3.7 |
| YOI | Feltham[1] | 6.3 | 4.2 |
| YOI | Glen Parva | 4.0 | 2.0 |
| YOI | Lancaster Farms[1] | 10.1 | 4.0 |
| YOI | Northallerton | 7.5 | 5.8 |
| YOI | Onley | 6.0 | 3.7 |
| YOI | Portland | 5.0 | 2.7 |
| YOI | Reading | 5.6 | 2.2 |
| YOI | Rochester | 4.4 | 2.9 |
| YOI | Stoke Heath[1] | 5.8 | 3.0 |
| YOI | Swinfen Hall | 7.8 | 3.5 |
| YOI | Thorn Cross[1] | 13.3 | 6.1 |
| Juvenile | Huntercombe | 8.7 | 4.5 |
| Juvenile | Warren Hill | 10.0 | 4.5 |
| Juvenile | Werrington | 15.5 | 7.3 |
| Juvenile | Wetherby | 9.2 | 2.8 |

## FOREIGN AND COMMONWEALTH OFFICE

### Altayib Ali Ahmed

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations on the case of Altayib Ali Ahmed sentenced to death in Khartoum. [8418]

**Ian Pearson:** Our embassy in Khartoum made representations, both bilaterally and through the EU, to the Government of Sudan on this case on 27 June. Following these interventions the Sudanese authorities postponed the execution.

We are resolutely opposed to the death penalty in all circumstances, and raise these concerns with the Government of Sudan on a regular basis. The case also goes against the provisions of the N'djamena Cease-Fire Agreement of 2004 in which the parties agreed to release all prisoners of war and those detained in relation to the conflict. We will continue to follow this case closely.

### British Council

**Mr. Hayes:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the effect of the shift in status of the British Council from a non-departmental public body to a public corporation on *(a)* balance sheet departmental liabilities and *(b)* financial constraints under departmental expenditure limits. [9045]

**Mr. Straw:** The reclassification of the British Council from a non-departmental body to a public corporation has no effect on the Foreign and Commonwealth Office's (FCO) balance sheet liabilities.

The FCO's financial constraints under departmental expenditure limits (DEL) are unaffected by the British Council's change in status because the FCO's DEL was adjusted to take account of the change.

### British Embassies

**Mr. McGovern:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the total saving to his Department has been in each year since the British embassies in Honduras, Guatemala and El Salvador were closed. [7034]

**Mr. Straw:** The British embassy in Honduras closed in December 2003 and the British embassy in El Salvador closed in August 2003. The British embassy in Guatemala City remains open and the UK's ambassador in Guatemala City is now the non-resident ambassador to Honduras and El Salvador. The British embassy in Nicaragua also closed in March 2004 and the UK's ambassador in Costa Rica is now the non-resident ambassador to Nicaragua.

Since closing the embassies in Honduras, El Salvador and Nicaragua in Financial Year 2003–04, the annual net saving on running costs and staff salaries has been £958,000.

The decision to close the British embassies Honduras, El Salvador and Nicaragua was based on the need to align our resources with our priorities, to maximise efficiency and ensure that the UK has a cost-effective and flexible network of overseas representation.

### Correspondence

**Sir Gerald Kaufman:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he will answer the letter dated 19 May from the Right hon. Member for Manchester, Gorton with regard to Mukhtar Ali. [7887]

**Dr. Howells:** My right hon. Friend the Foreign Secretary replied to the letter on 29 June.

### Cyprus

**Mr. Dismore:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to Turkey concerning numbers and types of equipment of the Turkish Army in northern Cyprus; and if he will make a statement. [8274]

**Mr. Douglas Alexander:** None. In assessing the military situation on the island, we continue to be guided by the assessment of the UN Secretary-General on the United Nations Operations in Cyprus. In his latest report of June 2005, the Secretary-General noted that there were no indications of an increase in defence spending on either side, nor of acquisitions of new major equipment. The Secretary-General further noted that the rotation of Turkish troops and their equipment did not imply a reinforcement and thus the number of Turkish troops and their equipment remained unchanged.

**Mr. Dismore:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will review his Department's advice to UK nationals considering purchasing property in occupied Cyprus; and if he will make a statement. [8275]

**Mr. Douglas Alexander:** The Foreign and Commonwealth Office (FCO) keeps its travel advice under regular review. The travel advice for Cyprus, including the section on property, was most recently amended on 16 June, and is available on the FCO website: www.fco.gov.uk.

We strongly encourage potential purchasers of property in Cyprus to take independent, qualified legal advice. The travel advice also explains that there are a number of potential practical, financial and legal implications, particularly for those considering buying property in the north—these relate to the non-recognition of the "Turkish Republic of Northern Cyprus", the possibility of a future political settlement in Cyprus, and claims to ownership from people displaced in 1974. The advice also warns that there is a risk that purchasers would face legal proceedings in the courts of the Republic of Cyprus, as well as attempts to enforce judgments from the courts of the Republic of Cyprus elsewhere in the EU, including the UK.

### Departmental Expenditure

**Mr. Hayes:** To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of man hours required to fill in the Collinson Grant questionnaires on process activity in his Department was; and if he will make a statement. [9047]

**Mr. Straw:** The amount of time spent completing the Collinson Grant respondent spreadsheet was not recorded so it is not possible to give a firm figure. The Collinson Grant project team estimated the time required to complete the spreadsheet would be approximately three hours based on the experience of a short pilot. There were 539 respondents.

### Diversity Advisory Groups

**Mr. Hayes:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the role is of his Department's diversity advisory groups; what activities the groups undertake; what the cost was of each group in the last year for which figures are available; what publications each has produced; and if he will make a statement. [9083]

**Mr. Straw:** The Foreign and Commonwealth Office (ECO) has three diversity advisory groups administered by Human Resources Directorate: the Disability Action Group, the Ethnic Diversity Advisory Group and the Gender Advisory Group. The role of these groups is to advise Human Resources Directorate and the FCO Board on disability, ethnic and gender issues respectively. Each of these groups meets quarterly and is chaired by a member of the FCO Board. There are no costs for running these groups.

The Disability Action Group aims to raise awareness in the FCO of disability issues, to suggest ways of increasing numbers of disabled staff and of meeting their needs, to provide support for disabled staff, to share best practice, to develop the FCO's action plan on disability and, through the Board Disability Champion, to contribute to the FCO Ministerial Group on diversity.

The Ethnic Diversity Advisory Group aims to enable the FCO to benefit fully from the ethnic diversity of its staff, suggest and monitor activities to increase the number of staff from minority ethnic groups, review and develop the FCO's action plan on race and through the Board Champion on race to contribute to the FCO Ministerial Group on diversity.

The Gender Advisory Group aims to suggest ways to improve representation of women, review and develop the FCO's action plan on gender and through the Board Champion on gender to contribute to the FCO Ministerial Group on diversity. The FCO Gender Advisory

Group produced a booklet, "Inclusive Government: mainstreaming gender into foreign policy", in June 2004.

The FCO Lesbian and Gay Group (FLAGG) and the Ethnic Minority Action Group (EMAG) are run by staff, rather than HR. EMAG is a network of staff with an interest in minority ethnic issues, who wish to make an impact on issues relating to equal opportunity, diversity and inclusion. The group meets monthly. FLAGG is a staff support group for all gay, lesbian, bisexual and transgendered staff

### English Wine

**Mr. Dismore:** To ask the Secretary of State for Foreign and Commonwealth Affairs at which *(a)* receptions and *(b)* parties in overseas missions to celebrate the Queen's birthday in 2005 English wine was served (i) exclusively and (ii) on the request of guests; and if he will make a statement. [8869]

**Mr. Straw:** This information is not held centrally within the Foreign and Commonwealth Office and research to obtain the relevant data would incur disproportionate cost.

**Mr. Dismore:** To ask the Secretary of State for Foreign and Commonwealth Affairs how much and what percentage of his Department's budget for *(a)* the UK and *(b)* missions overseas was spent on (i) English wine, (ii) French wine, (iii) wine from the new world and (iv) wine from elsewhere, in each of the last four years; how many cases of each type of wine were consumed in each case; and if he will make a statement. [8873]

**Mr. Straw:** This information is not held centrally within the Foreign and Commonwealth Office and research to obtain the relevant data would incur disproportionate cost. However, English wine is often served and appears to be much appreciated by those drinking it.

### EU Diplomatic Staff

**Mr. Redwood:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many diplomatic staff are employed by the EU. [5210]

**Mr. Douglas Alexander:** According to European Commission sources, the majority of their overseas delegations have been full diplomatic missions since the late 1980s. There are approximately 1,000 Commission officials and 900 contracted experts working in the Commission delegations overseas and approximately 25 Council Secretariat officials working in the Council Secretariat offices in Geneva and New York.

### G8 Summit

**Anne Milton:** To ask the Secretary of State for Foreign and Commonwealth Affairs how much public money he estimates will be spent on hospitality at the G8 Summit at Gleneagles on 6 July. [8783]

**Ian Pearson:** The G8 Summit at the Gleneagles Hotel is a working event. The estimated cost of all catering for the 4,000 people, which includes delegates and media, attending the three days of the Summit is around £350,000.

### Iran

**Andrew Mackinlay:** To ask the Secretary of State for Foreign and Commonwealth Affairs what information the Government have received on the *(a)* circumstances of the arrest and *(b)* detention location of trade union and human rights activist Ebdal Karimi on 21 June in Isfahan, Iran; what representations he has made to the Iranian Government on this matter; and if he will make a statement. [9096]

**Dr. Howells:** We have seen reports on the arrest and detention of Ebdal Karimi from an Iranian opposition group, whose information is often not reliable. We are seeking to verify the information, but have not yet been able to do so.

### Iraq

**Sir Menzies Campbell:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the *(a)* size, *(b)* capability and *(c)* tactics of insurgent forces in Iraq. [9021]

**Mr. Straw:** The nature of the insurgency is complex and disparate with many localised groups collaborating on a short term basis. The numbers of those participating in the insurgency remain unclear but while the greater part of the insurgency stems from Iraqi groups and individuals, evidence does not suggest a popular insurgency across the country. In recent months we have seen an increase in car bombs and improvised explosive devices used by the insurgents. These high profile attacks deliberately aim to cause higher numbers of casualties.

### Joint Intelligence Committee

**Sir Menzies Campbell:** To ask the Secretary of State for Foreign and Commonwealth Affairs which officials serve on the Joint Intelligence Committee; whether officials of foreign governments attend meetings of the Committee; and if he will make a statement. [9019]

**Mr. Straw:** Members of the Joint Intelligence Committee are senior officials in the Foreign and Commonwealth Office, Ministry of Defence (including the Chief of Defence Intelligence), Home Office, Department of Trade and Industry, HM Treasury and Cabinet Office; the Heads of Security Service, Secret Intelligence Service and Government Communications Headquarters; and the Chief of the Assessments Staff. Officials from other departments are invited as necessary. Representatives of the Australian, Canadian and United States intelligence communities also attend as appropriate.

### Kosovo

**Mr. Robathan:** To ask the Secretary of State for Foreign and Commonwealth Affairs what requests he has received *(a)* via the UN and *(b)* from the President of Kosovo for UK military support to keep order during the final status talks on the future of Kosovo; and if he will make a statement. [8374]

**Mr. Douglas Alexander:** None. Under United Nations Security Council Resolution (UNSCR) 1244 (1999) and Annex 2 to the UNSCR, the North Atlantic

Treaty Organisation (NATO)-led Kosovo Force (KFOR) is responsible for establishing and maintaining security in Kosovo, not the UN.

The UK contributes some 180 troops to the NATO operation in Kosovo. In addition the UK provides a battalion to the Balkans-wide over the horizon operational reserve force, along with Germany and Italy. Should NATO request the deployment of this asset to Kosovo the UK would respond accordingly, just as we did in March 2004 and March 2005.

### Madagascar

**Mr. Mullin:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he proposes to close the British Embassy in Antananarivo, Madagascar; what net savings he expects; and if he will make a statement. [8385]

**Ian Pearson:** It is anticipated that the British Embassy in Antananarivo will close at the end of August 2005. We estimate that the Foreign and Commonwealth Office will save £300,000 per annum on direct running costs and £265,000 in one-off savings from the sale of assets. There will also be staff and broader running costs savings.

**Mr. Mullin:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the current value of the small grants scheme in Antananarivo is; and whether it will continue after the closure of the British Embassy. [8386]

**Ian Pearson:** The Small Grants Scheme allocation to Madagascar for the financial year 2004–05 was £295,000.

We are still considering the precise arrangements for this financial year. Once the Embassy closes, the Small Grants Scheme in Madagascar will not continue on the present basis. It would be inefficient and impractical to administer a large number of small schemes without the presence of an Embassy. We are however considering whether some projects could be run by the High Commission in Port Louis, which will cover British interests in Madagascar when the British Embassy in Antananarivo closes.

**Mr. Mullin:** To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has for continuing to represent British interests in Madagascar after the closure of the British Embassy there; and if he will make a statement. [8387]

**Ian Pearson:** After the closure of our Embassy in Madagascar, our High Commission in Port Louis will cover British interests, supported by Honorary Consuls in Antananarivo and Toamasina. Our High Commissioner from Port Louis will be accredited as non-resident Ambassador to Madagascar. He and his staff will visit Madagascar on a regular basis.

### Nigeria

**Mr. Lancaster:** To ask the Secretary of State for Foreign and Commonwealth Affairs if the Government will make representations to the Nigerian Government to uphold its side of the Bakassi peninsula agreement with Cameroon. [8705]

**Ian Pearson:** We have made representations to the Nigerian authorities about upholding the International Court of Justice ruling on Bakassi. We maintain a close dialogue with both Nigeria and Cameroon on the completion of the demarcation exercise, and have urged both sides to continue to cooperate closely with the UN Mixed Commission to this end.

### Nuclear Weapons (Africa)

**Sir Menzies Campbell:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the *(a)* possession and *(b)* development of nuclear weapons technologies in African states; and if he will make a statement. [9018]

**Mr. Straw:** My assessment is that no African country possesses nuclear weapons or is currently developing them.

However, as the right hon. Gentleman will be aware, the former South African President, FW De Klerk, announced in March 1993 that South Africa had decided in 1974 to develop a limited nuclear deterrent capability, and that six of seven projected nuclear fission devices had been completed by the time it decided in 1990 to dismantle and destroy all the nuclear devices and accede to the Nuclear Non-Proliferation Treaty (NPT). South Africa duly acceded to the NPT in July 1991, and its consequent comprehensive safeguards agreement with the International Atomic Energy Agency (IAEA) came into force in September 1991. The IAEA subsequently conducted a number of inspections to verify the completeness and correctness of South Africa's initial report of its inventory of nuclear material. In 1993 South Africa also asked the IAEA to conduct visits to confirm the abandoned status of its former nuclear weapon programme. As a result of these activities, the IAEA concluded that it had found nothing inconsistent with the South African account of the programme.

The right hon. Gentleman will also be aware that on 19 December 2003 Libya announced that it had shown US and UK experts "the materials, equipments and programmes which lead to the production of internationally proscribed weapons", including centrifuge machines, and that it had decided "to eliminate these materials, equipments and programmes". Libya has since acknowledged to the IAEA that it received documentation related to nuclear weapon design and fabrication from a foreign source as well as some pre-assembled centrifuge machines and many components for other such machines. The United Kingdom has strongly welcomed Libya's renunciation of these activities, as well as its conclusion of an Additional Protocol in March 2004 to its existing Comprehensive Safeguards Agreement with the IAEA, and strongly supports its continued co-operation with the IAEA.

The United Kingdom is a strong supporter of the Treaty of Pelindaba, which seeks to establish a nuclear weapon free zone in Africa. We have ratified the relevant Protocols to the Treaty, and continue to call on enough states to ratify the Treaty for it to enter into force.

### Peru

**Mark Simmonds:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the likely effects on counter-narcotics strategies of the lifting of the by-law in the Cusco region of Peru legalising the growth of coca; and if he will make a statement. [8288]

**Mr. Douglas Alexander:** The Peruvian Government reacted strongly to the recent announcement by the Regional President of Cusco to legalise coca cultivation in certain districts in the Department of Cusco. Although the Peruvian Prime Minister and the Regional President of Cusco have since come to an agreement not to expand legal coca cultivation in the Department of Cusco, we share the Peruvian Government's concern over the message which this announcement conveys about drugs misuse. We continue to co-operate closely with the Peruvian Government and other international partners to tackle drug trafficking from the region.

### Sir David Manning

**Mr. Maples:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 27 June 2005, *Official Report*, column 1282W, on Sir David Manning, whether Sir David Manning declined or cancelled any other invitation, or engagement, to be able to introduce Mrs. Blair and attend her lecture in Washington on 6 June; whether he accompanied Mrs. Blair travelling to and from the lecture; whether the ambassador's official car was used for these journeys; and whether any staff of the British embassy in Washington were involved in organising Mrs. Blair's lecture or issuing invitations to it. [8728]

**Ian Pearson:** Sir David did not cancel or decline any other invitations to attend the lecture by Mrs. Blair on 6 June. He did not accompany Mrs. Blair to or from the lecture. He travelled on his own in his official car. No members of the British embassy were involved in organising the lecture or in issuing the invitations.

### Special Advisers

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list *(a)* the special advisers in his Department, *(b)* their specific areas of expertise and *(c)* the total cost of employing them in the latest year for which figures are available. [8821]

**Mr. Straw:** As at 29 June 2005, the special advisers in the Foreign and Commonwealth Office and their areas of expertise are:

Dr. Michael Williams—UN, Human rights, Asia, Africa and the Balkans

Mr. Mark Davies—Communications and the EU

All special advisers are appointed under terms and conditions set out in the "Model Contract for Special Advisers".

On costs, I refer the hon. Member to the reply my right hon. Friend the Prime Minister gave to my hon. Friend the Member for St. Helens, North (Mr. Watts) on 22 July 2004, *Official Report*, columns 466–70W.

### Stranded Air Travellers

**Dr. Cable:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the ability of UK embassies and consulates to provide assistance to British citizens stranded overseas in the event of a major airline failure. [8339]

**Mr. Douglas Alexander:** British embassies, consulates and high commissions overseas have up to date plans for helping British citizens affected by all types of consular emergency. The Foreign and Commonwealth Office strongly recommends that UK citizens travelling abroad take out comprehensive travel insurance.

My right hon. Friend the Secretary of State for Transport is currently considering the issue of financial protection for air travellers, including the possibility of extending statutory protection to all UK-originating flights.

### Sudan

**Mr. Arbuthnot:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Government of Sudan about British business interests in Sudan; and if he will make a statement. [9035]

**Ian Pearson:** Foreign and Commonwealth Office Ministers have had no recent discussions with the Government of Sudan on British business interests. We do, however, make clear to the Government of Sudan that progress in implementing the Comprehensive Peace Agreement, a resolution to the conflict in Darfur, greater transparency in business dealings and a stable legal environment would be essential to encourage investment.

### Tibet

**Mr. Hancock:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to support the Tibetan autonomy movement; and if he will make a statement. [8400]

**Ian Pearson:** Successive British Governments have regarded Tibet as autonomous while recognising the special position of the Chinese authorities there.

We monitor developments in Tibet closely and regularly raise Tibet-related issues with the Chinese Government, including during our biannual UK/China Human Rights Dialogue, the last round of which was held in London on 6 June 2005. My right hon. Friend the Prime Minister raised Tibet with Chinese Premier, Wen Jiabao during the latter's visit to the UK in May 2004; my right hon. Friend the Foreign Secretary raised the case of a Tibetan prisoner during his trip to China in January 2005; and my noble Friend the Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Lord Triesman of Tottenham) raised Tibet at the dialogue in June. We have made clear to the Chinese authorities that a long-term, legitimate and peaceful solution to the Tibet issue can be found only through dialogue and continue to urge them to engage with the Dalai Lama and his representatives.

### Uganda

**Mr. Hancock:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the prospects for free and fair elections in Uganda, with particular reference to *(a)* the 1997 Movement Act, *(b)* the President's appointed Electoral Commission, *(c)* the state-funded Movement Secretariat, *(d)* funding for the opposition; and if he will make a statement. [8610]

**Ian Pearson:** To enable the elections due in March 2006 to be free and fair under a multi-party system, many legislative changes are needed. We have received assurances from the Ugandan Foreign Minister that these will be in place by the end of August 2005. To help ensure that the elections are properly managed we, together with other development partners in Uganda, are contributing to a basket fund to support the work of the Electoral Commission. We are aware of the constraints under which opposition parties are working, and have provided all the major parties with some support for capacity building. Meanwhile, we regularly urge the Government of Uganda to ensure that a level playing field for all parties is established in good time before the elections. On 24 June the Ugandan Foreign Minister told our officials that state funding will cease as soon as a multi-party system of Government is adopted.

**Mr. Hancock:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Ugandan authorities regarding the return of *(a)* Dr. Kizza Besigye and *(b)* Dr. Apollo Milton Obote; and if he will make a statement. [8623]

**Ian Pearson:** We have had no discussions with the Ugandan authorities specifically about the return to Uganda of Dr. Kizza Besigye or Dr. Apollo Milton Obote. However, we do regularly discuss with Ugandan Ministers and officials issues of political rights. We make clear the importance of political change in Uganda carrying the genuine confidence of the people and their representatives, respecting the rule of law and institutions of governance, and being free from physical intimidation or manipulation.

**Mr. Hancock:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he and *(b)* his officials have had with the Ugandan authorities regarding (i) the cost of the June referendum and (ii) the decision by the Forum for Democratic Change to boycott the referendum; and if he will make a statement. [8624]

**Ian Pearson:** Our officials in Kampala have frequently highlighted in discussions with the Ugandan authorities our concerns about the high monetary and time costs of the referendum in relation to alternative options. However, following the Government of Uganda's decision to hold a referendum, we have consistently urged all opposition parties, including the Forum for Democratic Change (FDC), to take part, most recently in a meeting on 24 June. We are concerned that their decision to boycott the referendum risks undermining the democratic process, and will continue to press them to reverse this decision.

### Zimbabwe

**Andrew Rosindell:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government are taking to put pressure on Zimbabwe in relation to human rights. [8541]

**Ian Pearson:** We have redoubled our efforts to increase international pressure on Mugabe, raising Zimbabwe in capitals across Africa. My right hon. Friend the Foreign Secretary on 22 June challenged all African Governments to address what is happening. We have also raised the issue with the UN Secretary-General and the UN Commissioner for Human Rights. We welcome Kofi Annan's decision to send a Special Envoy to Zimbabwe, and look forward to his report.

**Mr. Lancaster:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government are making to the Zimbabwean Government regarding the recent ZANU-PF slum clearances. [8704]

**Ian Pearson:** We have made our condemnation of recent events in Zimbabwe clear. On 13 June my noble Friend the Foreign and Commonwealth Office (FCO) Minister for Africa (Lord Triesman of Tottenham) summoned the Zimbabwean chargé d'affaires to the FCO to express the Government's outrage at the recent crackdown which has rendered hundreds of thousands homeless. Our ambassador in Harare has protested directly to both the Zimbabwean Vice President and the Minister of National Security. We have also raised our concerns with other African Governments and urged them to make their own representations to the government of Zimbabwe.

**Mr. Lancaster:** To ask the Secretary of State for Foreign and Commonwealth Affairs if the Government will make representations for Operation Murabatsvina to be discussed at the African Union Summit in Libya. [8706]

**Ian Pearson:** The agenda for the African Union Summit is a matter for the African Union. But we have made clear our hope that African governments will address the situation in Zimbabwe. My noble Friend the Foreign and Commonwealth Office Minister for Africa (Lord Triesman of Tottenham) and my right hon. Friend the Secretary of State for International Development (Hilary Benn) will attend the summit on 4 and 5 July and will make our views clear.

## NORTHERN IRELAND

### Adult Education

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many people have participated in adult education courses in Northern Ireland in each year since 1997. [7837]

**Angela E. Smith:** The term "adult education" primarily refers to provision in further education colleges for those aged 18 years and over, as well as those undertaking adult basic education through Essential Skills courses and Learndirect. Total numbers of enrolments are as follows.

| Academic year | Total |
|---|---|
| 1997/98 | 117,060 |
| 1998/99 | 115,022 |
| 1999/2000 | 123,229 |
| 2000/01 | 128,029 |
| 2001/02 | 131,293 |
| 2002/03 | 114,921 |
| 2003/04 | 149,766 |

### Breast Screening

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what the take-up is of breast screening opportunities for women in the age categories for which the service is offered through the NHS; and if he will make a statement. [8800]

**Mr. Woodward:** Currently breast screening in Northern Ireland is offered to women in the age group 50 to 64, with an interval of approximately 36 months between the date of a women's previous appointment and the date of their next offered appointment.

For year end March 2004 the uptake rate among women within the target age group was as set out in the following table.

| Board | Percentage uptake |
|---|---|
| Eastern | 68.5 |
| Northern | 82.8 |
| Southern | 76.4 |
| Western | 78.8 |
| Northern Ireland | 75.5 |

The uptake rate in the Eastern board area continues to fall behind that in the other three boards. Efforts are continuing there to improve the rate particularly among ethnic minorities and women with disabilities. Health professionals are collaborating in this with voluntary groups such as Action Cancer.

### Cancer Deaths

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many women have died from *(a)* ovarian cancer and *(b)* breast cancer in each board area since 2000 in Northern Ireland; and if he will make a statement. [8799]

**Mr. Woodward:** The table gives the number of deaths registered in Northern Ireland of female residents in each health and social services board area in each year between 2000 and 2004, where the cause of death was recorded as either *(a)* malignant neoplasm of ovary or *(b)* malignant neoplasm of breast.

In January 2004 the Regional Cancer Services Framework Steering Group was established to consider the future development of cancer services, including the treatment and care of people with ovarian and breast cancer. The group is expected to report in autumn 2005.

*Number of deaths registered in Northern Ireland*

| | *Malignant neoplasm of ovary* | | | | | *Neoplasm of breast* | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | *2000* | *2001* | *2002* | *2003* | *2004* | *2000* | *2001* | *2002* | *2003* | *2004* |
| Eastern | 43 | 43 | 54 | 56 | 52 | 122 | 146 | 125 | 123 | 134 |
| Northern | 16 | 28 | 28 | 41 | 35 | 80 | 72 | 58 | 78 | 81 |
| Southern | 19 | 25 | 16 | 16 | 22 | 47 | 62 | 45 | 47 | 63 |
| Western | 22 | 20 | 12 | 16 | 12 | 40 | 34 | 49 | 39 | 42 |
| Total | 100 | 116 | 110 | 129 | 121 | 289 | 314 | 277 | 287 | 320 |

### Care Homes

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many *(a)* nursing homes and *(b)* residential homes in Northern Ireland charge top-up fees; and what the average top-up fees are in each case. [7824]

**Mr. Woodward:** For the cases under its care management, the Health and Personal Social Services (HPSS) contracts with independent sector care home providers to meet the full cost of assessed care needs. Additional payments, sometimes known as top ups, should only be on the basis of clearly defined added value. The HPSS has no right of access to information about payments that are not part of its contracts with independent providers.

### Clinical Negligence

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many clinical negligence complaints have been lodged in Northern Ireland in each of the last three years; and how many of those complaints have been resolved. [9131]

**Mr. Woodward:** The information requested is not held centrally and could be provided only at disproportionate cost.

### Consultants

**Mrs. Dean:** To ask the Secretary of State for Northern Ireland what plans he has to issue guidance on effective commissioning for those in the public and voluntary sectors who are commissioning work from external consultants. [7027]

**Angela E. Smith:** The Department of Finance and Personnel has recently issued new guidance, on the effective commissioning of work from external consultants. This is in the form of a Dear Accounting Officer letter (DAO 03/05) and is applicable throughout the public sector. A good practice guide on Finance and Governance in the Community and Voluntary Sector, prepared jointly by Government Departments and the sector, will be launched on 19 July. This refers the Community and Voluntary sector to relevant guidance on procurement and puts in place arrangements for funding bodies to support the sector in applying relevant guidelines.

### Electricity Costs

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what the average amount spent by each household in Northern Ireland on electricity was in the last year for which figures are available. [7835]

**Angela E. Smith:** The average household electricity bill in Northern Ireland for the year ended 31 March 2005 was £412.

The Department of Enterprise, Trade and Investment is continuing to work towards securing EU State aid approval of a proposed Government intervention aimed at reducing electricity prices. As an interim measure, £8.8 million of the available funding has been allocated to assist with energy efficiency measures which will have the effect of an average 1.5 per cent. reduction in electricity tariffs for all customers in the 2005–06 tariff year.

### EU Presidency

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what activities and meetings are planned to take place in Northern Ireland in connection with the UK presidency of the European Union. [7099]

**Angela E. Smith:** Northern Ireland will host, on behalf of the Department for Work and Pensions, the Informal Meeting of EU Employment Ministers in Belfast on 7–9 July 2005.

Other events to be held will include: a meeting in Belfast of EU environmental attachés on 24–27 July; a conference of EU paying agencies due to take place in Belfast on 13–14 October; a conference on the creative industries being staged in Belfast by a private organisation, "Creative Clusters" on 26 October; and Opportunity Europe (26 September to 4 October), a programme of events designed to highlight the multiple links between Northern Ireland and the rest of Europe.

### Free Bus Travel

**Mr. Donaldson:** To ask the Secretary of State for Northern Ireland what plans he has to introduce free bus travel for people with disabilities in Northern Ireland. [9364]

**Mr. Woodward:** Blind people and war pensioners already receive free travel and other groups of people with disabilities are entitled to half fare travel. There are no plans to extend the provision of free fares.

### Freedom of Information

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many requests for information under the Freedom of Information Act 2000 have been made to each of the Northern Ireland Government Departments since the introduction of the legislation. [7094]

**Angela E. Smith:** The following table sets out the number of requests for information under the Freedom of Information Act 2000 made to each of the Northern Ireland Departments between the 1 January 2005 and 17 June 2005.

| *Department* | *Number of requests* |
|---|---|
| Agriculture and Rural Development | 134 |
| Culture, Arts and Leisure | [1]535 |
| Education | 70 |
| Employment and Learning | 50 |
| Enterprise, Trade and Investment | 33 |
| Finance and Personnel | 202 |
| Health, Social Services and Public Safety | 63 |
| Environment | 393 |
| Regional Development | 179 |
| Social Development | 82 |
| Office of the First Minister and Deputy First Minister | 47 |
| Total | [2]1,788 |

[1] Figure includes requests made to the Public Record Office of Northern Ireland.
[2] A further 98 requests for information were received by Northern Ireland Office (NIO) during the same period.

### Further Education Colleges

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many students there have been in colleges of further education in Northern Ireland in each year since 1997. [7840]

**Angela E. Smith:** Figures for total enrolments per academic year in Northern Ireland further education colleges are only available from 1998–99. The most up-to-date audited figures available are for academic year 2002–03. These figures are set out in the following table.

*Total enrolments in the NI FE sector by Mode of Attendance from 1998–99 to 2002–03*

| | *Mode of Attendance* | | |
|---|---|---|---|
| *Academic year* | *Full-time* | *Part-time (including non-voc)* | *Total* |
| 1998–99 | 26,992 | 156,296 | 183,288 |
| 1999–2000 | 27,245 | 165,962 | 193,207 |
| 2000–01 | 27,918 | 175,241 | 203,159 |
| 2001–02 | 27,459 | 169,430 | 196,889 |
| 2002–03 | 27,524 | 170,437 | 197,961 |

*Notes:*
1. Data is extracted from the Further Education Statistical Record.
2. The merger of the Northern Ireland Hotel and Catering College and the University of Ulster in 2001 is responsible for an approximate total enrolment decline of 3,000 between 2001–02 and 2002–03.

### Health and Safety Inspections

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many *(a)* planned and *(b)* unannounced health and safety inspections were carried out in each health and safety district in Northern Ireland in each of the last five years for which figures are available. [7164]

**Angela E. Smith:** The number of inspections carried out by each district council is provided in the following table, for the years for which they are available. A breakdown between *(a)* planned and *(b)* unannounced inspections is not available.

*Number of inspections carried out by district councils*

| | *2001–02* | *2002–03* | *2003–04* |
|---|---|---|---|
| Antrim | 155 | 122 | 110 |
| Ards | 308 | 288 | 312 |

*Number of inspections carried out by district councils*

| | 2001–02 | 2002–03 | 2003–04 |
|---|---|---|---|
| Armagh | 191 | 123 | 138 |
| Ballymena | 427 | 425 | 394 |
| Ballymoney | 58 | 48 | 61 |
| Banbridge | 106 | 197 | 107 |
| Belfast | 316 | 714 | 519 |
| Carrickfergus | 62 | 35 | 70 |
| Castlereagh | 135 | 166 | 168 |
| Coleraine | 158 | 165 | 237 |
| Cookstown | 49 | 47 | 26 |
| Craigavon | 260 | 233 | 161 |
| Down | 228 | 319 | 172 |
| Dungannon | 83 | 24 | 40 |
| Fermanagh | n/k | 112 | 169 |
| Larne | 48 | 83 | 91 |
| Limavady | 108 | 133 | 94 |
| Lisburn | 602 | 617 | 489 |
| Londonderry | 328 | 310 | 514 |
| Magherafelt | 50 | 91 | 60 |
| Moyle | 32 | 24 | 34 |
| Newry | 176 | 142 | 136 |
| Newtownabbey | 265 | 127 | 147 |
| North Down | 288 | 333 | 347 |
| Omagh | 122 | 62 | 132 |
| Strabane | 63 | 80 | 77 |
| Total | 4,618 | 5,020 | 4,805 |

## Health and Safety Staffing

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many Health and Safety officials are employed in each health and safety district in Northern Ireland broken down by rank; and what the equivalent figures were in each of the last five years. [7163]

**Angela E. Smith:** The number of Officers authorised by District Councils under the Health and Safety at Work Order (NI) 1978, for the years for which they are available, are provided in the following table. Not all of these officers spent all of their time working on health and safety issues and therefore the full time equivalents are also given. Figures by rank are not available although officers will either be Environmental Health Officers or Senior Environmental Health Officers.

*Number of officers authorised by district councils under the Health and Safety at Work (NI) Order 1978 and their full-time equivalents (FTEs)*

| | 2001–02 | | 2002–03 | | 2003–04 | |
|---|---|---|---|---|---|---|
| District council | Number of Officers | FTEs | Number of Officers | FTEs | Number of Officers | FTEs |
| Antrim | 3 | 0.9 | 2 | 0.8 | 2 | 0.8 |
| Ards | 3 | 1.5 | 3 | 1.5 | 8 | 1.3 |
| Armagh | 1.5 | 1.5 | 4 | 1.25 | 4 | 1.25 |
| Ballymena | 8 | 2 | 8 | 2.25 | 5 | 3 |
| Ballymoney | 4 | 0.16 | 6 | 0.35 | 6 | 0.36 |
| Banbridge | 1 | 0.6 | 1 | 0.6 | 4 | 1.8 |
| Belfast | 7 | 6 | 6.5 | 6.5 | 7 | 5 |
| Carrickfergus | 1 | n/k | 1 | n/k | 2 | 0.4 |
| Castlereagh | 6.5 | 1.2 | 5.5 | 1 | 1 | 1 |
| Coleraine | 2 | 1 | 7 | 1 | 10 | 2 |
| Cookstown | 3 | 0.5 | 3 | 0.33 | 3 | 0.33 |
| Craigavon | n/k | 1.5 | 7 | 2 | 7 | 1 |
| Down | 2 | 1.5 | 3 | 1.8 | 8 | 1.8 |
| Dungannon | n/k | 1.38 | 0 | 1.38 | n/k | 1.38 |
| Fermanagh | 5 | 1 | 5 | 1.2 | 8 | 1.8 |
| Larne | 5 | 0.45 | 5 | 0.75 | 4 | 0.5 |
| Limavady | 3.75 | 1.15 | 5 | 1.26 | 5 | 1.25 |
| Lisburn | 9 | 2 | 9 | 1.2 | 11 | 1.2 |
| Londonderry | 4 | 2.5 | 8 | 2 | 8 | 2 |
| Magherafelt | 4 | 0.4 | 5 | 0.35 | 5 | 0.3 |
| Moyle | 3 | 0.3 | 1 | 0.3 | 1 | 0.25 |
| Newry | 2 | 1 | 3 | 1 | 1 | 0.7 |
| Newtonabbey | 10 | 1.65 | 2 | 0.9 | 2 | 1.5 |
| North Down | 1.5 | n/k | 2 | 1.5 | 2 | 1.5 |
| Omagh | n/k | 0.75 | 1 | 0.4 | 1 | 0.75 |
| Strabane | n/k | 1.05 | n/k | 0.97 | 1 | 1.05 |
| Totals | 105 | 34.5 | 103 | 32.59 | 116 | 34.22 |

## Human Rights Commission

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many applications were received for the post of Commissioner within the Northern Ireland Human Rights Commission, broken down by party political affiliation; how many applicants were short-listed, broken down by party political affiliation; and what the nationality was of each applicant. [7577]

**Mr. Hanson:** 164 applications were received for the post of Commissioner.

Applicants were not asked to confirm their nationality.

Applicants were not asked to confirm their party political affiliation. As is standard in public appointments, applicants were asked on their application form to indicate whether they had undertaken any of the following activities during the past five years.

Obtained office as a Local Councillor, MP, MEP, MLA etc.

Stood as a candidate for one of the above offices.

Spoken on behalf of a political party or candidate.

Acted as a political agent.

Held office, such as chair, treasurer or secretary of a local branch of a political party.

Canvassed on behalf of a political party or helped at elections.

Undertaken any other political activity which they considered relevant.

Made a recordable donation to a political party.

When a candidate indicated that they had undertaken one or more activity, they were asked to indicate the party for which the activity was undertaken. This is broken down as follows for all applicants:

| | *Number* |
|---|---|
| Alliance Party | 8 |
| Labour | 8 |
| SDLP | 6 |
| UUP | 4 |
| NI Women's Coalition | 3 |
| DUP | 3 |
| Liberal Democrat | 2 |
| Worker's Party | 2 |
| Fianna Fail | 1 |
| Green Party | 1 |
| No activity indicated | 126 |

87 applicants met the criteria required to be short-listed for interview. The political parties for which activities were undertaken by these applicants are broken down as follows:

| | *Number* |
|---|---|
| Labour | 8 |
| Alliance Party | 4 |
| SDLP | 4 |
| NI Women's Coalition | 3 |
| UUP | 2 |
| DUP | 2 |
| Worker's Party | 1 |
| Green Party | 1 |
| No activity indicated | 62 |

### Illiteracy

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many adults in Northern Ireland have been classified as illiterate in each year since 1997. [7839]

**Angela E. Smith:** Research to date has focused on measuring levels of literacy and at present no data is available which specifically identifies the levels of illiteracy. The International Adult Literacy Survey (IALS) which was conducted in 1996 indicated that 24 per cent. of the adult population in Northern Ireland performed at the lowest level of literacy, Level 1.

Of those adults performing at the lowest level of literacy:

20 per cent. were aged between 16–25;

16 per cent. were aged between 26–35;

21 per cent. were aged between 36–45;

43 per cent. were aged over 45.

Since the launch of the essential skills for living strategy in October 2002 to March 2005, 28,965 adults have been supported to improve their levels of literacy and numeracy.

### Kidney Transplants

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many people are awaiting a kidney transplant in Northern Ireland, broken down by health trust; and how long each patient has been waiting. [9128]

**Mr. Woodward:** There are currently 261 people waiting for kidney transplants at Northern Ireland hospitals.

A breakdown of this figure by health trust is not available.

Transplantation is very much dependent upon the availability of suitable donor organs which can be matched to the potential recipient. The average waiting time at present for a kidney transplant is 2.5 years.

### Mackie's Site, West Belfast

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how much has been spent by *(a)* Invest Northern Ireland and *(b)* other Government agencies and departments in respect of the road layout in the Mackie's site in West Belfast; when such works were ordered to begin; and who gave the authority for such work to begin. [7850]

**Angela E. Smith:** It is extremely difficult to make a meaningful separation of the roads element of this major civil engineering project which also includes earthworks, embankments and services. The total cost of the project is £2.7 million. The contractor was appointed on 30 March 2004 following ministerial approval for the project on 20 May 2003.

### NHS Dentistry

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what percentage of people are registered with an NHS dentist in each board area in Northern Ireland; and if he will make a statement. [8777]

**Mr. Woodward:** Information requested is provided in the following table.

*Percentage of persons registered with an NHS dentist by HSS board, May 2005*

| *HSS board* | *Percentage of persons registered with an NHS dentist* [1,2] |
|---|---|
| Eastern | 52.0 |
| Northern | 53.0 |
| Southern | 55.0 |
| Western | 44.0 |

[1] Figures are derived from dental registration data and the 2003 mid-year estimate of population (latest available from General Registrar Northern Ireland).
[2] Figures are based on HSS board of residency of the patient.
*Source:*
Central Services Agency

Registration with a dentist is entirely voluntary and in itself is not an accurate measurement of the numbers of people who receive dental treatment. However, the fact

that someone is registered with a general dental practice and attends for check-ups means that they will benefit from oral health advice and problems can be picked up more quickly and before intervention is required.

### Parade Application

**Lady Hermon:** To ask the Secretary of State for Northern Ireland on what date the office of the Chief Constable of the Police Service of Northern Ireland received the legal opinion about Parade Application Form 11/1. [9134]

**Mr. Woodward:** The Chief Constable received the legal opinion about Parade Application 11/1 on 6 June 2005.

### Paramedic Services

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland whether he plans to introduce NHS car/motorcycle paramedic services in Northern Ireland as an alternative to the use of the traditional ambulance; and if he will make a statement. [8774]

**Mr. Woodward:** The Northern Ireland Ambulance Service currently deploys six rapid response vehicles manned by single paramedics to provide treatment in life-threatening cases until a conventional ambulance arrives to transport the patient to hospital if necessary. There are no plans to introduce a motorcycle paramedic service in Northern Ireland.

The Department is currently considering the Department of Health's strategic review of NHS ambulance services in England, "Taking Healthcare to the Patient—Transforming NHS Ambulance Services" published last week, which announces changes in the way ambulances deliver care in England, to determine to what extent its recommendations are relevant to Northern Ireland.

### Rates Revenue

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what the total revenue from *(a)* the regional rates and *(b)* district rates in Northern Ireland was in each year since 2001. [7101]

**Angela E. Smith:** The following table shows the rate revenue generated from the regional rate and the district rate in Northern Ireland for each year since 2001.

£

| | *Regional rate* | *District rate* |
|---|---|---|
| 2001–02 | 324,774,999 | 242,607,628 |
| 2002–03 | 345,824,458 | 260,491,333 |
| 2003–04 | 368,618,570 | 284,367,910 |
| 2004–05 | n/a | n/a |

n/a = Not available until October 2005

### Restorative Justice Schemes

**Lady Hermon:** To ask the Secretary of State for Northern Ireland if he will make a statement on his Department's policy on restorative justice schemes in Northern Ireland. [9133]

**Mr. Hanson:** Government have been working with local community restorative justice organisations to develop guidelines to enable the operation of an accredited community based restorative justice scheme. The scheme would enable local community-based initiatives to deal with low level crime, in line with the recommendations in the Criminal Justice Review.

Guidelines will require the upholding of individual human rights, participation with criminal justice organisations including the police, accreditation and adherence to agreed standards.

### Schools

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many pupils resident in the Belfast Education and Library Board area have attended schools outside that area in each year since 2001. [7841]

**Angela E. Smith:** The information in respect of post-primary pupils is as follows:

| | *Number* |
|---|---|
| 2000–01 | 3,189 |
| 2001–02 | 3,099 |
| 2002–03 | 3,052 |
| 2003–04 | 3,036 |
| 2004–05 | 3,007 |

The information is currently not collected for primary schools or special schools.

### Visually Impaired People

**Mr. Laurence Robertson:** To ask the Secretary of State for Northern Ireland how many people are registered as visually impaired in Northern Ireland; what services are available for people who are visually impaired; what steps he is taking to improve provision; and if he will make a statement. [8112]

**Mr. Woodward:** The Department of Health, Social Services and Public Safety holds records of those who are blind and partially sighted who have been in contact with Health and Social Services Trusts. Latest figures available for 2003–04 indicate that there are: 2,273 people who are blind, 3,122 people who are partially sighted giving a total of 5,395 people who are either blind or partially sighted.

New certification and registration procedures introduced in April 2005 will ensure that those with serious visual impairment are fast tracked towards relevant social services support within their Health and Social Services Trust. In addition there are comprehensive peripatetic low vision outreach services across the whole province. Other specialist services are available for children and special needs patients. There is also a network of sensory support teams, including social services, which regularly meet to discuss needs and future service delivery.

Northern Ireland is also participating in clinical trials for new drug therapies for Age Related Macular Degeneration. It is thought that Belfast is the only United Kingdom centre for one of these trials. Queens University in Belfast is one of three centres in the whole of the United Kingdom that provides analysis of eye

angiograms through a central angiographic facility. Data from this facility is used to inform state-of-the-art diagnosis for macular degeneration.

The Department's Social Services Inspectorate launched its report "Challenge and Change" about services for adults with a sensory loss. That report will help inform service development of sensory services in the medium to longer term in both the statutory and voluntary sector in Northern Ireland.

### Waste Collection

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what the cost of collecting household rubbish per household in Northern Ireland has been in each year since 1997. [7832]

**Angela E. Smith:** The information requested was not held centrally until 2002–03. The following figures reflect the cost per household of collecting household waste for the financial years 2002–03 and 2003–04. Information for 2004–05 is not yet available.

*Cost per household (NI)*

| | £ |
|---|---|
| 2002–03 | 33.51 |
| 2003–04 | 34.63 |

## HEALTH

### Adverse Drug Reactions (Older People)

**Mr. Burstow:** To ask the Secretary of State for Health what her most recent estimate is of the number of *(a)* 50 to 64-year-olds, *(b)* 65 to 74-year-olds and *(c)* over 75-year-olds who (i) died and (ii) were injured in a year as a result of adverse drug reactions. [6658]

**Jane Kennedy:** The Medicines and Healthcare products Regulatory Agency's pharmacovigilance database does not hold specific information on the number of people who were injured as a result of an adverse drug reaction (ADR).

The table shows the total number and number of fatal of "suspected adverse" drug reaction (ADR) reports received via the yellow card scheme from 1 January to 31 December 2004 for each age group.

*Number of reports received via the yellow card scheme*

| *Age (years)* | *Number of adverse drug reaction reports* | *Number of fatal adverse drug reaction reports* |
|---|---|---|
| 50–64 | 4,017 | 180 |
| 65–74 | 2,727 | 143 |
| 75+ | 2,390 | 194 |

It is important to note that a report of an adverse drug reaction does not necessarily mean that it was caused by the drug. Many factors have to be taken into account in assessing causal relationships including temporal association, the possible contribution of concomitant medication and the underlying disease. It is particularly important to note that causality has not been established for fatal reports.

### Alliance Medical Ltd.

**Mr. Kevan Jones:** To ask the Secretary of State for Health what factors were taken into consideration when determining whether Alliance Medical should provide scanning services in the NHS. [2253]

**Mr. Byrne** *[holding answer 6 June 2005]:* The contract was negotiated based on increasing clinical capacity, improving patient care, an ability to deliver service and value for money.

Alliance Medical Ltd. demonstrated its ability to provide additional radiologists and radiographers to carry out the scans and reports, which was an important aspect to the procurement. The contract was secured at a competitive price compared to the NHS equivalent cost and makes use of 12 mobile scanning units to provide high quality services direct to patients in response to the changing requirements of the national health service.

### Alzheimer's Disease

**Lynne Featherstone:** To ask the Secretary of State for Health what measures have been taken to assist carers of patients with advanced Alzheimer's disease in Hornsey and Wood Green; and if she will make a statement. [7805]

**Jane Kennedy:** All carers, including those caring for people with dementia, are entitled to an assessment to determine their needs as carers and eligibility for support. This Government have supported legislation, which supports all carers in their caring role. The Carers and Disabled Children Act 2000 strengthens the rights of carers to an assessment of their own needs as carers. The Carers (Equal Opportunities) Act 2004 introduces new provisions that will ensure that carers are made aware of this right.

The carers grant, worth £185 million this year, provides money for local councils to provide short breaks and services to carers to enable them to continue in their caring role. Carers are also entitled to cash payments for carers' services to enable them to purchase the type of support they require and promote a better quality of life.

At local level, Haringey Teaching Primary Care Trust has worked with London borough of Haringey, service providers, the voluntary sector and carers to create a carer's strategy for Haringey. The strategy addresses the needs of carers of all types of patients and incorporates the requirements of the Carers (Equal Opportunities) Act 2004 in terms of opportunities for work, education, training and life-long learning. An action plan, based on the recommendations in the strategy, is being finalised at present and should be implemented shortly.

### Antipsychotic Medication

**Mr. Burstow:** To ask the Secretary of State for Health how many prescriptions were issued in each of the last five years for *(a)* atypical, *(b)* traditional and *(c)* all antipsychotic medication in each (i) region and (ii) health authority for (A) 0 to 15 years, (B) 16 to 59 years and (C) 60 years and over age groups. [2909]

**Jane Kennedy** *[pursuant to the reply, 15 June 2005, Official Report, c. 499–500W]:* I regret that the table placed in the Library in my previous reply is incorrect. The total for the category aged 60 and over states 96,000 items were dispensed in 2003, and it should read 950,000.

This incorrect figure was also given in the table in the reply to the hon. Member on 27 January 2005, *Official Report*, column 544W. The correct tables will be placed in the Library.

## Arm's-length Bodies

**Mr. Lansley:** To ask the Secretary of State for Health what changes outlined in the Department's Implementation Framework for reconfiguring its arm's length bodies, published on 30 November 2004, will require *(a)* primary and *(b)* secondary legislation. [3357]

**Jane Kennedy:** The changes outlined in the Department's implementation framework for reconfiguring its arm's length bodies will require legislation affecting the following bodies as shown in the table.

*Legislation required for reconfiguration of arm's length bodies*

| | *Legislation already enacted* | *Legislation to come* |
|---|---|---|
| *Bodies being set up* | | |
| Human Tissue Authority[1] | Primary | — |
| Health and Social Care Information Centre | Secondary | — |
| NHS Institute for Innovation and Improvement | — | Secondary |
| NHS Blood and Transplant | — | Secondary |
| NHS Business Services Authority | — | Secondary |
| Regulatory Authority for Tissue and Embryology | — | Primary |
| *Bodies being dissolved or merged* | | |
| Family Health Services Appeal Authority | Secondary | — |
| Health Development Agency | Secondary | — |
| National Clinical Assessment Authority | Secondary | — |
| NHS Information Authority | Secondary | — |
| National Radiological Protection Board | Primary | — |
| Public Health Laboratory Service | Primary | — |
| NHSU | — | Secondary |
| National Blood Authority | — | Secondary |
| UK Transplant | — | Secondary |
| Dental Practice Board | — | Secondary |
| NHS Pensions Agency | — | Secondary |
| Prescription Pricing Authority | — | Secondary |
| Dental Vocational Training Authority | — | Secondary |
| National Biological Standards Board | — | Primary |
| NHS Estates—Trading Fund Order winding up | — | Secondary |
| NHS Logistics | — | Secondary |
| Commission for Patient and Public Involvement in Health | — | Primary |
| Merger of the Healthcare Commission and the Commission for Social Care Inspection | — | Primary |
| Mental Health Act Commission | — | Primary |
| Human Fertilisation and Embryology Authority | — | Primary |
| Human Tissue Authority[1] | — | Primary |
| *Changes involving other bodies* | | |
| NHS Litigation Authority—amendment order | Secondary | — |
| National Patient Safety Agency—amendment order | Secondary | — |
| National Institute for Clinical Excellence—amendment order | Secondary | — |
| NHS Appointments Commission—additional powers | — | Primary |
| NHS Pensions Agency—additional powers | — | Primary |
| Medicines and Healthcare products Regulatory Authority—Trading Fund Order amendment | — | Secondary |
| NHS Direct—new governance arrangements[2] | — | — |
| NHS Professionals—new governance arrangements[2] | — | — |

[1] Human Tissue Authority—set up April 2005, to be absorbed into the Regulatory Authority for Tissue and Embryology in April 2008.
[2] It has yet to be decided whether these changes will require any kind of legislation.

## Cancer

**Tim Farron:** To ask the Secretary of State for Health pursuant to the answer of 26 May 2005, *Official Report*, columns 76–77W, on breast cancer, what discussions her Department has had with the National Institute for Health and Clinical Excellence since the Magnetic Resonance Imaging for Breast Screening study became available. [7844]

**Ms Rosie Winterton** *[holding answer 28 June 2005]:* The National Institute for Health and Clinical Excellence (NICE) normally reviews its guidelines after three to five years to ensure that they continue to reflect the best available evidence. Should NICE be aware of any trials or research projects that are due for completion after the published appraisal, NICE will then bring forward the review date to coincide with completion of the trial or research.

The NICE guideline on familial breast cancer noted that several magnetic resonance imaging studies would be reporting over the following two years, and that the recommendations in the guideline would be reviewed when the information from these studies became available.

**Lynne Featherstone:** To ask the Secretary of State for Health what percentage of breast cancer patients lived for at least five years after treatment in the last period for which figures are available; and if she will make a statement. [8123]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Len Cook to Ms Lynne Featherstone, dated 30 June 2005:*

As National Statistician, I have been asked to reply to your recent question concerning what percentage of breast cancer patients lived for at least five years after treatment in the last period for which figures are available. [8123]

Information on cancer survival based on treatment dates is not available from registration information held centrally. Routinely available survival rates are calculated from date of diagnosis.

The latest available survival rates for breast cancer in England are for adult patients (aged 15–99 years) diagnosed during 1998–2001 and followed up to 31 December 2003. The five-year age-standardised[1] relative survival rate for female patients diagnosed with breast cancer during 1998–2001[2] in England was 79.9 per cent.

The survival statistics are available on the National Statistics website at: http://www.statistics.gov.uk/statbase/Productasp?vlnk=14007

[1] As cancer survival varies with age at diagnosis, rates have been age standardised to control for changes in the age profile of cancer patients over time.

[2] Complete five-year follow-up is currently only available for those diagnosed in 1998. For patients diagnosed in later years the most up-to-date estimates of shorter-term survival were used in this analysis of survival rates.

**Lynne Featherstone:** To ask the Secretary of State for Health what financial resources are being made available in 2005–06 for *(a)* research into and *(b)* increasing public awareness of the causes of (i) lung cancer, (ii) prostate cancer, (iii) heart disease and (iv) cervical cancer; and if she will make a statement. [6697]

**Jane Kennedy:** The main agency through which the Government supports medical and clinical research is the Medical Research Council (MRC). The MRC is unable at this stage to predict 2005–06 spend by topic.

Over 75 per cent. of the Department's total expenditure on health research is devolved to and managed by national health service organisations. Research active NHS organisations account for their use of the research and development allocations they receive from the Department in an annual report. These retrospective reports analyse expenditure by reference to some 16 national priority areas including cancer and coronary heart disease.

The National Cancer Research Institute (NCRI) publishes a strategic analysis that provides a detailed overview of the cancer research in the United Kingdom that is directly funded by the NCRIs 20 partner organisations. The latest analysis can be found on the NCRI's website at: www.ncri.org.uk/crd/index.cfm?NavSub=10. This shows the proportion of expenditure on research under way on 1 April 2004 devoted to a number of tumour types.

Smoking and tobacco use are major causes of a number of cancers and of coronary heart disease and the Department has an ongoing campaign using national media, helplines and support materials that increases public awareness of this. Some £41 million is being allocated to the campaign in 2005–06.

Cervical cancer is caused by an infection that is nearly always sexually transmitted. The Department will launch a £50 million advertising campaign later this year promoting condom use and highlighting the risks from sexually transmitted infections.

**Lynne Featherstone:** To ask the Secretary of State for Health if she will make a statement on cervical cancer screening in the NHS. [8044]

**Ms Rosie Winterton:** In 2003–04, 81 per cent. of eligible women in England had a cervical screening test result at least once in the last five years[1]. 3.6 million women were screened[2] and laboratories reported four million tests. 128,000 women were referred following abnormal results.

Following an appraisal by the National Institute for Health and Clinical Excellence (NICE) in 2003, the cervical screening programme in England is currently being modernised with the introduction of liquid based cytology (LBC). LBC techniques offer a new way to prepare screening test samples for examination in the laboratory. NICE concluded LBC will reduce the number of unsatisfactory tests and improve the speed with which slides can be read. Due to a large retraining programme, full implementation is expected by 2008.

The Government are also committed to speeding up the results of cervical screening, and officials are working on the best way of taking this forward.

*References:*

[1] Department of Health Statistical Bulletin, Cervical Screening Programme, England: 2002–03

[2] Department of Health Statistical Bulletin, Cervical Screening Programme, England: 2002–03

**Mr. Havard:** To ask the Secretary of State for Health if she will investigate the Pan Birmingham Cancer Network's decision to place a moratorium on the use of a number of newly licensed cancer drugs. [8511]

**Ms Rosie Winterton:** It is for individual cancer networks and primary care trusts to make decisions on the drugs they wish to make available to patients, taking into account the needs of the local population and, where appropriate, national guidance from National Institute for Health and Clinical Excellence.

We are putting record amounts of new investment into the national health service. Between 2003 and 2008, NHS expenditure in England will increase on average by 7.5 per cent., each year. It is for PCTs to decide how best to spend these resources taking into account local circumstances.

In the case of recently licensed treatments, the Department has made it clear that funding should not be withheld because guidance from NICE is

unavailable. In these circumstances, the Department expects PCTs to take full account of the available evidence when reaching funding decisions.

### Counterfeit Medicines

**Mr. Walker:** To ask the Secretary of State for Health (1) what actions the Medicines and Healthcare products Regulatory Agency is taking to tackle the distribution of counterfeit medicines through the supply chain; and if she will make a statement; [5676]

(2) what steps her Department takes *(a)* to advise patients about counterfeit medicines and *(b)* to educate patients to identify counterfeit medicines; and if she will make a statement; [5677]

(3) what action her Department is taking to tackle the *(a)* production, *(b)* import and *(c)* purchase of counterfeit medicines; and if she will make a statement; [5678]

(4) what the estimated value of counterfeit medicines entering the UK supply chain was in each of the last five years; and if she will make a statement; [5679]

(5) what discussions her Department has had with Her Majesty's Revenue and Customs on counterfeit medicines; and if she will make a statement. [5680]

**Jane Kennedy:** The regulation of all medicines on the United Kingdom market is undertaken by the Medicines and Healthcare products Regulatory Agency (MHRA) on behalf of Health Ministers. The MHRA is an executive agency of the Department. Its primary aim is to protect public health through the control of medicines on the UK market. This is achieved through a licensing and inspection system, which assures medicines conform to agreed standards of quality, safety and efficacy, and further ensures that licensed medicines are manufactured, stored and distributed to maintain these standards.

In August 2004, two counterfeit products, purporting respectively to be Cialis, an erectile dysfunction treatment, and Reductil, an anti-obesity treatment, were discovered in the legitimate UK supply chain. This is the first time in 10 years that counterfeit products are known to have reached the legitimate UK supply chain.

Over 600 million prescriptions are written annually in the UK. Therefore these two discoveries of counterfeit medicines in the small numbers that reached the legitimate UK supply chain, prior to recall, needs to be viewed in that context. However, the MHRA takes each and every such case very seriously and full investigation follows discovery.

The number of boxes of counterfeit Cialis, including part-boxes, that were returned following the MHRA recall was 2,300. Each 20 milligrammes (mg) box of four Cialis tablets is valued at £23.40[1]. The number of boxes, including part-boxes, of counterfeit Reductil that were returned following the MHRA recall was 61. Each 10 mg box of 28 Reductil capsules is valued at £41.29[1].

The MHRA's intelligence unit coordinates a comprehensive agency-wide anti-counterfeiting strategy to apply an array of measures to ensure that counterfeit medicines do not penetrate the UK medicines supply chain.

This includes regular liaison with all stakeholders including Her Majesty's Revenue and Customs (HMRC) and other law enforcement agencies on all manners of pharmaceutical crime. HMRC collaboration focuses on tackling importations of counterfeit medicines through its border controls. Another key area of such collaboration with HMRC includes joint meetings with the pharmaceutical industry to identify ways to collectively deal with counterfeit medicines.

Educational aspects of the MHRA anti-counterfeiting strategy are primarily focussed on stakeholder education at a national and European level. The aim being to ensure that necessary procedures are in place throughout the supply chain to prevent counterfeit medicine penetration. Thus, a patient can confidently receive a safe, good quality and efficacious medicine through the regulated medicines supply chain.

Educating patients to identify counterfeit medicines is considered counter-productive in that it could lead to the undermining of public confidence in the UK medicines distribution chain and perfectly safe treatment regimes. Also, potential checks by the public are likely to prove futile as most counterfeit medicines cannot be detected by the untrained eye and even trained personnel often have to rely on forensic laboratory testing to confirm counterfeits.

The MHRA has launched an internet campaign to warn the public of the potential dangers involved with purchasing medicines over the internet where some, but not all, websites belong to unscrupulous vendors that sell counterfeit medicines. An education campaign is also being drafted to target those members of the public who purchase medicines through illicit means.

[1] Monthly Index of Medical Specialities (MIMS) June 2005

### Dentistry

**Mr. Walker:** To ask the Secretary of State for Health how many dentists in Hertfordshire have applied for personal dentist service contracts; and if she will make a statement. [7487]

**Ms Rosie Winterton:** The information requested is not collected by dentist but by dental practice. The number of dental practices that have applied for personal dental service contracts in Hertfordshire is 18, across the eight Hertfordshire primary care trusts.

**Mr. Hoyle:** To ask the Secretary of State for Health how many dentists undertaking NHS work there are in *(a)* Lancashire and *(b)* Chorley South Ribble primary care trust; and if she will list the practices which are taking new patients. [7661]

**Ms Rosie Winterton:** Information relating to the numbers of dentists undertaking national health service dental work across Lancashire is shown in the table.

*General dental service (GDS) and personal dental service (PDS)—number of dentists by primary care trust (PCT) at 31 March 2005*

| *Cumbria and Lancashire strategic health authority (SHA)—Lancashire PCTs* | *All dentists* |
|---|---|
| Blackburn with Darwen PCT | 60 |
| Blackpool PCT | 57 |
| Burnley, Pendle and Rossendale PCT | 91 |
| Chorley and South Ribble PCT | 81 |

*General dental service (CDS) and personal dental service (PDS)—number of dentists by primary care trust (PCT) at 31 March 2005*

| *Cumbria and Lancashire strategic health authority (SHA)—Lancashire PCTs* | *All dentists* |
|---|---|
| Fylde PCT | 35 |
| Hyndburn and Ribble Valley PCT | 54 |
| Morecambe Bay PCT | 130 |
| Preston PCT | 72 |
| West Lancashire PCT | 54 |
| Wyre PCT | 38 |
| Total | 672 |

*Note:*
The figures given by PCT and SHA include all dentists practicing in that area. Some dentists have an open GDS or PDS contract in more than one PCT or SHA and will, therefore, appear in the figures for each PCT where they practice.

Local PCTs and NHS Direct are able to provide information about dental practices that are currently taking on new NHS patients.

**Sir Paul Beresford:** To ask the Secretary of State for Health how the Dental Practice Board calculates the notional patient lists for personal dental services applicants. [9659]

**Ms Rosie Winterton:** At the start of a personal dental service (PDS) arrangement the primary care trust (PCT) negotiates a patient list with the dental practice. The PCT then instruct the Dental Practice Board (DPB) to transfer the patient list from either an existing general dental service or PDS contract. The patient list is then amended from records supplied to the DPB by the dental surgery working in PDS.

**Mr. Hancock:** To ask the Secretary of State for Health what plans she has to increase the number of NHS dentists in Portsmouth. [5976]

**Ms Rosie Winterton:** In 2004–05, Portsmouth City Primary Care Trust (PCT) received an allocation of £120,000 in dental access funding. Of this allocation, £60,000 was to support the development of personal dental service (PDS) agreements and provide an increase of up to 6,000 additional patient registrations. £23,400 was used to increase provision for unregistered patients needing urgent dental care.

I am advised that Portsmouth City PCT has locally recruited three new dentists from overseas. The PCT is in negotiation with a number of practices, who wish to change to PDS and initial discussions have taken place with a view to a new surgery opening in Portsmouth.

**Mr. Hancock:** To ask the Secretary of State for Health what the cost of providing NHS dentistry in Portsmouth was in each of the last five years; how the money was allocated; and if she will make a statement. [6006]

**Ms Rosie Winterton:** Primary care provided by independent general dental practitioners (GDPs) forms the major element of national health service dental services. Most GDPs operate within the national terms of the general dental service (GDS), although some have opted to provide similar patient services under local contracts agreed with their primary care trust (PCT) as part of the recently introduced personal dental service (PDS). Under the GDS, the main costs are the individual treatment fees, including patient registration payments, payable to dentists. Under the PDS, dentists are usually paid a regular contract value for a defined level of NHS commitment. The gross cost of GDS fees and PDS contract payments in the area of the Portsmouth City PCT are shown in the table.

The GDS is currently funded from a national non discretionary budget; local budgets are not allocated to specific areas, but payments are made purely in response to the treatment and service claims submitted by individual GDPs.

Expenditure on community and hospital dental services is determined by the relevant local NHS body and expenditure on services in the Portsmouth area alone is not identifiable from data available centrally.

*Gross cost of GDS and PDS within the area of the Portsmouth City PCT*

*£ million*

| | *Gross GDS dental fees* | *Gross PDS payments* | *Total* |
|---|---|---|---|
| 2000–01 | 6.047 | 0 | 6.047 |
| 2001–02 | 6.486 | 0 | 6.486 |
| 2002–03 | 6.486 | 0 | 6.486 |
| 2003–04 | 7.085 | 0 | 7.085 |
| 2004–05 | 6.852 | 0.884 | 7.736 |

*Notes:*
1. Gross GDS fees include all adult and child treatment fees, continuing care and capitation payments, and commitment payments. Certain allowances and costs, such as reimbursement of business rates, seniority payments, and employers' superannuation contributions, are excluded.
2. All costs are shown gross of any income contributed by dental charges payable by patients.
3. Figures extracted from payment data held by the Dental Practice Board.

**Daniel Kawczynski:** To ask the Secretary of State for Health what provisions she has made for dentistry in Shrewsbury. [6113]

**Ms Rosie Winterton:** Shropshire County Primary Care Trust (PCT) received £256,000 to improve access to dentistry.

The PCT has developed a dental action plan, which was approved by the Department's dental support team in June 2004. Funding of a further £695,000 was also allocated to support the plan's implementation. The aim of the action plan was to deliver the capacity to provide national health service dental care for at least 50,000 more patients. Services are now in place to deliver care for almost 40,000 patients and other developments are in progress. For example, a primary care centre in Market Drayton will expand to include two dental surgeries in October 2005.

In the PCT area, four practices have opened recently, two of which are in Shrewsbury. The two practices have a combined capacity for around 15,000 NHS patients. Of four existing practices in the PCT area that have expanded, one is in Shrewsbury and it will provide capacity for an additional 3,000 NHS patients.

There has been a dental access centre in Shrewsbury since 1999. This was in the first wave of personal dental service pilots.

Five Polish dentists were recruited as part of the first wave of overseas recruitment for Shropshire, two of whom are based in Shrewsbury.

**Mr. Drew:** To ask the Secretary of State for Health what the contractual arrangements are for those dentists who are seeking to expand the numbers of NHS patients on their list by recruiting additional dentists to their practice, including from abroad. [6356]

**Ms Rosie Winterton:** The contractual arrangements for a dental practice recruiting additional dentists to expand the numbers of national health service patients vary according to whether the practice is operating under general dental services (GDS) or personal dental services pilot (PDS) arrangements.

Under GDS, a dentist or dental practice, which chooses to offer NHS services, register their participation with their local primary care trust and the Dental Practice Board and make claims for reimbursement for items of service performed in line with the statement of dental remuneration. If they choose to recruit an additional dentist to expand the numbers of NHS patients, the extra items of service performed for these patients would be included in the reimbursement claims made. As self-employed contractors, dentists are free to vary the extent of their NHS work as and when they choose.

Under PDS, a dentist or dental practice who wishes to recruit an additional dentist to expand the numbers of NHS patients applies to their local PCT for a contract to cover the expanded NHS commitment. Local negotiations between the dental practice and PCT take place and when the proposed contract is agreed, it is referred to the national PDS team at the Department for approval under delegated powers from the Secretary of State.

The criteria for approving PDS contractual arrangements are designed to encourage growth in NHS services. Once approved, the dental practice and PCT sign a contract, which specifies the nature and extent of the NHS commitment, usually in terms of a practice list, the contract value and agreed arrangements for variations to the contract conditions.

**Jim Cousins:** To ask the Secretary of State for Health how many students there were *(a)* at the Newcastle upon Tyne Medical School and *(b)* the Newcastle upon Tyne Dental School in each of the last five years; and what plans there are to increase the numbers of students. [6319]

**Bill Rammell:** I have been asked to reply.

The available information is given in the table.

*HE enrolments[1] on Medicine and Dentistry courses at the University of Newcastle Upon Tyne[2] 1999–2000 to 2003–04*

| *Subject/Level* | *1999–2000*[3] | *2000–01*[3] | *2000–01*[4] | *2001–02*[4] | *2002–03*[4] | *2003–04*[4] |

| Total Medicine and Dentistry | 1,760 | 1,780 | 1,800 | 1,965 | 2,130 | 2,370 |

[1] Figures are rounded to the nearest 5 hence constituent parts may not sum to the totals.
[2] Figures for 2001–02 onwards include students on stage 1 of the Medicine and Surgery programme who are based at the University of Durham's, Queens Campus in Stockton.
[3] Figures are on a snapshot basis as at the 1 December.
[4] Figures are on a DfES whole year count basis which are not consistent with snapshot figures given for earlier years. The whole year count counts students at the end of the academic year and provides a more accurate representation of student numbers. Whole year count figures are not available for years before 2000–01.
*Source:*
Higher Education Statistics Agency (HESA) Student record

The Department of Health and the Higher Education Funding Council for England (HEFCE) will be considering the potential for further expansion of medical student numbers, and the expansion of dental education, through the separate forums of the Medical and Dental Joint Implementation Groups.

We are funding the biggest expansion of dental education since the inception of the NHS involving the creation of an additional 170 training places in dental schools. To support the clinical training costs of this 25 per cent. increase in capacity, the Department of Health has allocated revenue funds growing to £29 million recurring by 2010–11; and £20 million capital in each of the four years 2005–06 to 2008–09.

## Domestic Violence

**Mr. Drew:** To ask the Secretary of State for Health what research she has commissioned into the relationship between domestic violence experienced by children and post traumatic stress disorder. [8405]

**Ms Rosie Winterton:** The Department with the National Institute for Mental Health for England has a major programme of research underway that will address the relationship between domestic violence experienced by children and post-traumatic stress disorder. This is being conducted as part of the victims of violence and abuse prevention programme launched by departmental Ministers in 2004. It includes an expert

advisory group on child victims of domestic violence. Research conducted as part of the programme will build on the National Institute for Health and Clinical Excellence's guidelines on post-traumatic stress disorder, which identified examples of violence and abuse in childhood as predisposing factors in post-traumatic stress disorder for children.

### Drug Rehabilitation Centres

**Mr. Hancock:** To ask the Secretary of State for Health if she will list the drug rehabilitation *(a)* centres and *(b)* other facilities which are available to residents of Portsmouth. [8361]

**Caroline Flint:** I refer the hon. Member to the reply I gave on Tuesday 28 June 2005, *Official Report*, column 1503W.

### Haringey Teaching Primary Care Trust

**Lynne Featherstone:** To ask the Secretary of State for Health how many patients in the Haringey Teaching Primary Care Trust area referred urgently with suspected breast cancer waited for more than two weeks for an out-patient appointment in each reporting period since January 2002; and if she will make a statement. [7804]

**Jane Kennedy:** The information is not available in the format requested. However, information is available by hospital trusts local to Haringey Teaching Primary Care Trust and is shown in the table.

*Number of patients with an urgent referral for suspected breast cancer, by waiting times from referral to out-patients appointment, for hospitals in the Haringey Teaching PCT area.*

CWT-Db, Department of Health

**Lynne Featherstone:** To ask the Secretary of State for Health how many patients in the Haringey Teaching Primary Care Trust area waited more than *(a)* three months, *(b)* six months, *(c)* nine months, *(d)* 12 months, *(e)* 15 months, *(f)* 18 months and *(g)* 24 months for (i) heart operations, (ii) cancer treatment and (iii) hip replacements in each year since 2000–01; and if she will make a statement. [7807]

**Jane Kennedy:** The finished in-year admission episodes for patients who waited more than three months, six months, nine months, 12 months, 15 months, 18 months and 24 months for heart operations, cancer treatment and hip replacements in each year since 2000–01 for Whittington hospital national health service trust, Royal Free Hampstead NHS trust and North Middlesex University hospital NHS trust are shown in the tables.

Royal Free Hampstead NHS trust is the only organisation with counts for heart operations in specified waiting time groupings, therefore the other trusts do not appear in table for heart operations.

The total finished in-year admission episodes for each organisation and years is shown at the bottom of each table. These totals are not equal to the total of the breakdown for waiting time groupings specified in the question because the breakdown excludes counts for up to three months waiting. There are also entries with not known waiting time values in the data which are also excluded from the waiting time grouping breakdown.

*Counts of finished in-year admission episodes*

*NHS hospitals, England 2000–01 to 2003–04*

| | Finished in-year admission episodes | | | |
|---|---|---|---|---|
| *Waiting time grouping* | *2000–01* | *2001–02* | *2002–03* | *2003–04* |
| More than 12 up to 18 months | 16 | 14 | 27 | 25 |
| More than 18 up to 24 months | 3 | 2 | 4 | 6 |
| More than 24 months | 1 | 1 | 3 | 4 |
| Total finished in-year admission episodes | 135 | 121 | 145 | 139 |

*Notes:*
*Finished in-year admissions*
A finished in-year admission is the first period of in-patient care under one consultant within one health care provider, excluding admissions beginning before 1 April at the start of the data year. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
*Diagnosis (Primary Diagnosis)*
The primary diagnosis is the first of up to 14 (7 prior to 2002–03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was in hospital.
*Main Operation*
The main operation is the first recorded operation in the HES data set and is usually the most resource intensive procedure performed during the episode. It is appropriate to use main operation when looking at admission details, eg. time waited, but the figures for "all operations count of episodes" give a more complete count of episodes with an operation.
*Ungrossed Data*
Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).
*Time Waited (days)*
Time waited statistics from Hospital Episode Statistics (HES) are not the same as the published waiting list statistics. HES provides counts and time waited for all patients admitted to hospital within a given period whereas the published waiting list statistics count those waiting for treatment on a specific date and how long they have been on the waiting list. Also, HES calculates the time waited as the difference between the admission and decision to admit dates. Unlike published waiting list statistics, this is not adjusted for self-deferrals or periods of medical/social suspension.

**Lynne Featherstone:** To ask the Secretary of State for Health how many general practitioners there were in the Haringey Teaching Primary Care Trust area in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04; and if she will make a statement. [7808]

**Jane Kennedy:** The information requested is shown in the table.

*General Medical Practitioners (excluding retainers and registrars)[1] for Haringey Teaching Primary Care Trust, 2001–04*

| *5C9 Haringey PCT* | *Number (headcount)* |
|---|---|
| 2001 | 151 |
| 2002 | 148 |
| 2003 | 144 |
| 2004 | 148 |
| December 2004 | 143 |

[1] General Medical Practitioners (excluding retainers and registrars) includes Contracted GPs, GMS Others and PMS Others. Prior to September 2004 this group included GMS Unrestricted Principals, PMS Contracted GPs, PMS Salaried GPs, Restricted Principals, Assistants, Salaried Doctors (Para. 52 SFA), PMS Other, Flexible Career Scheme GPs and GP Returners.

*Note:*
Data as at 30 September 2001–04 and 31 December 2004.
*Source:*
NHS Health and Social Care Information Centre General and Personal Medical Services Statistics.

**Lynne Featherstone:** To ask the Secretary of State for Health what targeted funding hospitals in the Haringey Teaching Primary Care Trust area have received for the provision of acute stroke care; and if she will make a statement. [7810]

**Jane Kennedy:** The information requested is not collected centrally. However, as a part of devolution to the frontline, funding for local health services has been made direct to primary care trusts (PCTs). It is for PCTs to determine how to use the funding allocated to them to commission services to meet the healthcare needs of their local populations.

**Lynne Featherstone:** To ask the Secretary of State for Health how many nursing vacancies there are in the Haringey Teaching Primary Care Trust area; and if she will make a statement. [7811]

**Jane Kennedy:** The information requested is shown in the table.

### Health Care Demand (London)

**Mr. Dismore:** To ask the Secretary of State for Health what estimate she has made of projected population growth in each London strategic health authority area; what assessment she has made of the likely additional demands placed on the NHS as a result is expected to be; what resources she estimates will be needed to meet the projected increased demand; and if she will make a statement. [7065]

**Jane Kennedy:** The projected population growth for primary care trusts (PCTs) in each London strategic health authority (SHA) area is shown in the table.

Population projections, produced by the Office of National Statistics (ONS), were used to inform the latest round of revenue allocations to PCTs for 2006–07 and 2007–08. In addition, as population projections do not take account of changes in Government policy, such as the growth area initiative, the 2006–08 allocations include a growth area adjustment for PCTs in the Office of the Deputy Prime Minister (ODPM) growth areas. This adjustment is based on the additional increase in population, over and above ONS population projections, which is due to the growth area initiative.

PCT allocations reflect the demands of a growing population because the population figures used as the basis of PCT target allocations include the expected growth in population.

| *PCT* | *Growth area* | *2006 population projection plus growth area population* | *2007 population projection plus growth area population* |

[2] TG: Thames Gateway

**Mr. Dismore:** To ask the Secretary of State for Health what estimate she has made of the demands made by the transient population in London in the health service; and if she will make a statement. [7066]

**Jane Kennedy:** The funding of health care for English registered patients receiving health care in London remains with the primary care trust (PCT) where they are registered. The arrangements in place for the funding and reimbursement of the costs of treating patients away from their home are available on the Department's website at: http://www.dh.gov.uk/assetRoot/04/10/92/19/04109219.pdf

Under these arrangements, the treating trust invoices the patient's responsible PCT. We reimburse trusts for providing care for charge exempt overseas patients, and other overseas visitors that are not charge exempt should be charged by the trust.

### Health Services Administration (Birmingham)

**John Hemming:** To ask the Secretary of State for Health what bodies for administering health services covering the Birmingham area have been *(a)* created and *(b)* abolished since 1985. [1837]

**Ms Rosie Winterton:** In 1985, the Birmingham area was served by the Central Birmingham, East Birmingham, West Birmingham, South Birmingham and North Birmingham district health authorities (DHAs). In addition, Birmingham was also served by

the Birmingham family practitioner committee (FPC) until 1990 when FPCs were superseded by family health services authorities (FHSAs). The Birmingham FHSA was formed in 1990 and was subsequently abolished in 1995 following the merger of FHSAs with health authorities.

The Central Birmingham DHA was abolished in 1991. However, the East Birmingham, West Birmingham, South Birmingham and North Birmingham DHAs remained in existence until 1994 when the North and South Birmingham DHAs were formed. These two health authorities were merged in April 1996 to form the Birmingham Health Authority.

Primary care trusts (PCTs) were established in 2002 and took over the role of the former HAs, which were abolished with effect from 31 March 2002. Since that date the following PCTs have been responsible for commissioning health services for residents in the Birmingham area; Eastern Birmingham PCT, Heart of Birmingham Teaching PCT, North Birmingham PCT and South Birmingham PCT.

The West Midlands Regional Health Authority (RHA) was also in existence in 1985 until 31 March 1996 when the roles and functions of RHAs were transferred to the regional offices of the Department. The Regional Offices were subsequently abolished on 31 March 2003, prior to which strategic health authorities (SHA) had been set up on 1 April 2002. The Birmingham and the Black Country SHA is the local headquarters of the national health service for the Birmingham and surrounding areas.

## Healthcare and Social Care Commissions

**Mr. Burstow:** To ask the Secretary of State for Health what changes to primary legislation are required to allow for the merging of the Healthcare and Social Care Commissions. [8243]

**Jane Kennedy:** The Healthcare Commission and Commission for Social Care Inspection were established by part two of the Health and Social Care (Community Health and Standards) Act 2003.

Merging the two organisations would require either an amendment or a replacement of this legislation and other consequential amendments, for example, to the Care Standards Act 2000.

## Hot Weather-related Conditions

**Steve Webb:** To ask the Secretary of State for Health pursuant to her answer of 14 June 2005, *Official Report*, column 306W, on hot weather-related conditions, how many hospital admissions in England were given a hot weather-related primary diagnosis, including sunburn, in each year since 1980, broken down by age. [6562]

**Caroline Flint:** The information requested is shown in the following tables.

*Count of discharges based on 10 per cent. samples from hospital inpatient enquiry (HIPE) data for the years 1980–85, ICD-9 primary diagnosis codes—692.7, 992*

| | *Total* |
|---|---|
| 1980 | 270 |
| 1981 | 460 |
| 1982 | 420 |
| 1983 | 460 |
| 1984 | 370 |
| 1985 | 270 |

*Note:*
HIPE is based on a 10 per cent, sample of all hospital admissions. Age-specific data is not available for the years 1989–2004.

*Count of all finished admission episodes (FAEs), and FAEs admitted via accident and emergency (ADMIMETH = 21, 28) where primary diagnosis is hot weather related illness including sunburn, split by age group 0 to 14, 15 to 64 and 65+. National health service hospitals in England 1989–90 to 2003–04*

| | *All finished admissions* | | | | | *Finished admissions admitted via A and E* | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| *Data year* | *Total* | *0 to 14* | *15 to 64* | *65+* | *Unknown* | *Total* | *0 to 14* | *15 to 64* | *65+* | *Unknown* |
| 1989–90 | 148 | 52 | 81 | 13 | 2 | 349 | 89 | 171 | 87 | 2 |
| 1990–91 | 163 | 77 | 67 | 19 | — | 365 | 116 | 155 | 94 | — |
| 1991–92 | 115 | 54 | 52 | 8 | 1 | 305 | 78 | 124 | 101 | 2 |
| 1992–93 | 125 | 50 | 63 | 11 | 1 | 371 | 82 | 162 | 126 | 1 |
| 1993–94 | 124 | 66 | 48 | 10 | — | 424 | 122 | 161 | 141 | — |
| 1994–95 | 129 | 43 | 68 | 17 | 1 | 426 | 82 | 191 | 152 | 1 |
| 1995–96 | 223 | 78 | 109 | 36 | — | 357 | 138 | 157 | 62 | — |
| 1996–97 | 127 | 39 | 63 | 25 | — | 231 | 86 | 100 | 45 | — |
| 1997–98 | 148 | 42 | 79 | 27 | — | 247 | 91 | 117 | 39 | — |
| 1998–99 | 121 | 44 | 67 | 9 | 1 | 184 | 68 | 100 | 15 | 1 |
| 1999–2000 | 171 | 50 | 101 | 20 | — | 276 | 104 | 139 | 33 | — |
| 2000–01 | 117 | 41 | 66 | 10 | — | 202 | 86 | 97 | 19 | — |
| 2001–02 | 144 | 51 | 76 | 17 | — | 222 | 90 | 109 | 23 | — |
| 2002–03 | 102 | 41 | 54 | 7 | — | 157 | 75 | 70 | 12 | — |
| 2003–04 | 188 | 62 | 95 | 31 | — | 257 | 96 | 120 | 41 | — |

*Note:*

Please be aware that there is a difference in diagnosis coding before 1995–96 as the ICD-10 diagnosis codes came into effect in that year. Therefore, the data between the two periods is not normalised exactly. ICD-10 primary diagnosis codes (1995–96 to 2003–04) = L55, L590, L740, T67, X30 X32, ICD-9 primary diagnosis codes (1989–90 to 1994–95) = 692.7, 992.

### Intermediate Care Beds

**Mr. Lansley:** To ask the Secretary of State for Health how many intermediate care beds there have been in each year since 1997; and in what health care settings these beds are provided. [7456]

**Mr. Byrne:** The available data is shown in the table.

It is not possible to identify separately which beds are provided in community or cottage hospitals, in specially designated wards in general hospitals, in purpose built new facilities, or in nursing homes.

| *Financial year* | *Number of intermediate care beds* |
|---|---|
| 2000 | 4,242 |
| 2001 | [1] |
| 2002 | 7,021 |
| 2003 | 7,493 |
| 2004 | 8,697 |
| 2005 | 8,928 |

[1] Not collected

Chief Executive's report to the national health service, 2005

### IVF Treatment

**Mr. Hancock:** To ask the Secretary of State for Health (1) if she will make it her policy to provide IVF treatment for all relevant NHS patients under 40 years, regardless of where they live; [8902]

(2) how many IVF treatments were performed by the NHS in each of the last five years, broken down by NHS trust area; and how many patients were involved in each case; [8903]

(3) what plans she has to ensure that women who would benefit from IVF treatment in the Portsmouth area are able to have up to three treatments. [8907]

**Caroline Flint:** The Department does not collect information centrally on the number of national health service funded invitro fertilization (IVF) treatments carried out. Following the publication in February 2004 of the National Institute for Health and Clinical Excellence's (NICE) clinical guideline on the assessment and treatment for people with fertility problems, we advised all primary care trusts to offer a minimum of one cycle of IVF by April 2005 to those who meet the clinical criteria, giving priority to couples with no children living with them, and to make progress to full implementation of the guideline in the longer term. The primary responsibility for the implementation of NICE guidelines rests with the NHS at local level and compliance with NICE guidance by NHS organisations will be considered by the Healthcare Commission during their review and performance assessment processes.

### London Hospitals (Budgets)

**Lynne Featherstone:** To ask the Secretary of State for Health what the budget was of the *(a)* Whittington hospital, *(b)* Royal Free hospital Hampstead, *(c)* North Middlesex university hospital and *(d)* Haringey teaching primary care trust St. Ann's hospital in each of the last five years; and whether each hospital was (i) in deficit and (ii) had a surplus at each year end. [7752]

**Jane Kennedy:** The latest year for which audited data on the financial position of national health service organisations is available is 2003–04. The budget and financial position for Whittington hospital, Royal Free hospital Hampstead, North Middlesex university hospital and Haringey teaching primary care trust St. Ann's hospital which is part of the Barnet, Enfield and Haringey Mental Health NHS Trust, in each of the last five years is shown in the table.

*Total income and retained surplus/(deficit) for 1999–2000 to 2003–04*

*£ thousands*

| *NHS Trust* | *1999–2000* | *2000–01* | *2001–02* | *2002–03* | *2003–04* |
|---|---|---|---|---|---|
| *The Whittington Hospital NHS Trust:* | | | | | |
| Income | 81,485 | 85,941 | 99,084 | 105,099 | 110,694 |
| Surplus/(deficit) | (1,433) | 0 | 8 | (988) | (3,400) |
| *Royal Free Hampstead NHS Trust:* | | | | | |
| Income | 246,209 | 266,340 | 254,983 | 277,016 | 303,585 |
| Surplus/(deficit) | (4,613) | 1,866 | 5,216 | (1,447) | (961) |
| *North Middlesex University Hospital NHS Trust:* | | | | | |
| Income | 71,898 | 86,050 | 90,451 | 103,409 | 112,928 |
| Surplus/(deficit) | (3,291) | 6,206 | 0 | 0 | (989) |
| *Barnet, Enfield and Haringey Mental Health NHS Trust* | | | | | |
| Income | n/a | n/a | 119,598 | 131,456 | 144,424 |
| Surplus/(deficit) | n/a | n/a | 4 | (686) | (924) |

*Note:*
Barnet, Enfield and Haringey Mental Health NHS Trust was not formed until 1 April 2001.
*Source:*
Audited summarisation schedules of the above NHS trusts, 1999–2000 to 2003–04.

### Mental Health

**Ms Abbott:** To ask the Secretary of State for Health what long-term funding for infrastructure is available to support voluntary organisations working to meet the mental health needs of black and minority ethnic communities. [8941]

**Ms Rosie Winterton:** In January 2005, the Department published Delivering Race Equality in Mental Health Care (ORE), a five-year action plan for improving services for black and minority ethnic (BME) communities. An important component of the plan is bett engagement between mental health service

providers and their local communities. To that end the National Institute for Mental Health in England will invest around £2 million over the next two years in up to 80 local community engagement projects. An objective of each of the projects will be to secure longer-term funding. Applications from community organisations for funding to run projects in the current year will be invited shortly.

ORE is clear about the need for statutory national health service and local authority services to integrate the voluntary sector more fully and permanently into the planning and provision of mental health care for BME patients. As voluntary organisations take on that expanded role, we expect appropriate funding to follow from primary care trusts and local authorities.

In addition my right hon. Friend the Secretary of State for Health, through the section 64 general scheme of grants (section 64 of the Health Services and Public Health Act 1968), has the power to make grants to voluntary organisations whose activities support the Department's policy priorities. In the current financial year, £607,000 has been awarded to organisations working to meet the mental health needs of BME communities.

### Mixed Sex Wards

**Daniel Kawczynski:** To ask the Secretary of State for Health when she expects the use of mixed sex wards will cease. [8686]

**Ms Rosie Winterton:** The Government set a target for the elimination of mixed sex accommodation in 95 per Cent. of trusts by December 2002. This target was achieved. No further targets have been set for this area.

Guidance issued to the national health service requires the provision of single-sex accommodation, which can take a number of forms. NHS trusts may provide single rooms, single sex bays, single-sex wards or combinations of these types.

The provision of single-sex accommodation is measured by compliance with three specific objectives set by the Department. These are designed to deliver separate sleeping areas for men and women, separate bathrooms and toilet facilities for men and women, and for those trusts delivering mental health services, safe facilities for patients in hospital who are mentally ill.

Compliance with the objectives is measured at trust level. The position of each NHS Trust was published on 26 May 2005 and is available on the Department's website at: www.dh.gov.uk/assetRoot/04/11/21/41/04112141.pdf and is available in the Library.

### MRI Scans/Scanners

**Lynne Featherstone:** To ask the Secretary of State for Health if she will list hospitals which have MRI scanners; and if she will make a statement. [7803]

**Ms Rosie Winterton:** I refer the hon. Member to the reply I gave the hon. Member for East Worthing and Shoreham (Tim Loughton) on 20 June 2005, *Official Report*, column 785W.

**Mr. Kevan Jones:** To ask the Secretary of State for Health how many MRI scans have been carried out at the University hospital, North Durham since 2001. [8726]

**Mr. Byrne:** This information is not held centrally.

### NHS Circular 1999/176

**Mr. Havard:** To ask the Secretary of State for Health what assessment she has made of the effectiveness of NHS Circular 1999/176 in each year of its application; and if she will make a statement. [8515]

**Jane Kennedy:** I have not made such an assessment.

### NHS Healthcare Commission (Complaints)

**Sarah Teather:** To ask the Secretary of State for Health how many complaints have been received by the NHS Healthcare Commission in each *(a)* London primary care trust and *(b)* London strategic health authority in the last 12 months. [7466]

**Jane Kennedy:** The Healthcare Commission took on responsibility for the independent review of national health service complaints not resolved at local level at the end of July 2004. Information from the Commission on the number of complaints about London primary care trusts (PCTs) and London strategic health authorities (SHAs) is shown in the tables.

*Independent review requests, complaints about London PCTs, received between 31 July 2004 and 23 June 2005*

| *Provider PCT* | *Number of complaints* |
|---|---|
| Barking and Dagenham | 5 |
| Barnet | 7 |
| Bexley | 1 |
| Brent Teaching | 2 |
| Bromley | 10 |
| Camden | 10 |
| City and Hackney Teaching | 8 |
| Croydon | 17 |
| Ealing | 12 |
| Enfield | 9 |
| Greenwich Teaching | 6 |
| Hammersmith and Fulham | 4 |
| Haringey Teaching | 8 |
| Harrow | 9 |
| Havering | 6 |
| Hillingdon | 10 |
| Hounslow | 4 |
| Islington | 2 |
| Kensington and Chelsea | 4 |
| Kingston | 2 |
| Lambeth | 3 |
| Lewisham | 5 |
| Newham | 7 |
| Redbridge | 5 |
| Richmond and Twickenham | 2 |
| Southwark | 4 |
| Sutton and Merton | 7 |
| Tower Hamlets | 4 |
| Waltham Forest | 10 |
| Wandsworth | 6 |
| Westminster | 6 |
| Total | 195 |

*Independent review requests, complaints about London SHAs*

| *Provider SHA* | *Number of complaints* |
|---|---|
| North West London | 1 |
| North Central London | 2 |
| North East London | 6 |
| South West London | 1 |
| Total | 10 |

### Patientline Contract

**Annette Brooke:** To ask the Secretary of State for Health what the forecast financial benefit to the NHS is of the contract with Patientline in the financial year ended March 2005. [8561]

**Jane Kennedy:** The national health service does not benefit financially by entering into contracts with Patientline for the provision of television (TV) and telephone services at the patient's bedside. Patientline is responsible for the cost of installing and maintaining the systems. Patients are charged directly for the services used. The provision of bedside TVs and telephones gives patients more control over their environment whilst in hospital, including the ability to watch a personal TV and remain in direct contact with relatives and friends.

### Prison Counsellors

**Mr. Laurence Robertson:** To ask the Secretary of State for Health how many *(a)* psychotherapist and *(b)* psychodynamic counsellors are available to prisoners; what steps are being taken to increase the number available to prisoners; and if she will make a statement. [8101]

**Ms Rosie Winterton:** Information about the numbers of psychotherapists and psychodynamic counsellors available to prisoners is not collected centrally. Decisions about mental health services at individual prisons and the skill mixes necessary to deliver them are matters for the establishments concerned and their national health service partners. The commitment in the NHS plan (July 2000) that, by April 2004, some 300 additional staff would be employed on the delivery of such services has been met.

### Private Diagnostic and Treatment Centres

**Frank Dobson:** To ask the Secretary of State for Health (1) whether agency nurses, doctors or technicians who have worked in the NHS in the preceding six months can work for a private diagnostic and treatment centre; [7016]

(2) on how many occasions her Department has agreed to waive the requirement on private sector providers that they must not employ staff who have worked in the NHS in the previous six months. [7018]

**Mr. Byrne** *[holding answer 27 June 2005]:* Providers of independent sector treatment centres must not employ or engage doctors or health care professionals who have been employed or otherwise engaged in the national health service within the previous six months period. This restriction applies to staff employed by an agency who have been engaged in work for the NHS.

A process is in place by which an independent sector provider may apply for a waiver of the restriction in relation to a specified person. Such applications are considered individually and a waiver may be granted in exceptional circumstances. To date, nine waivers from the six months restriction have been granted.

### Selective Serotonin Reuptake Inhibitors

**Mr. Walker:** To ask the Secretary of State for Health (1) what research she has *(a)* commissioned and *(b)* evaluated into whether selective serotonin reuptake inhibitors can increase the likelihood of suicide in certain patients; and if she will make a statement; [7481]

(2) what guidance her Department has issued to GPs regarding the prescription of selective serotonin reuptake inhibitors; and if she will make a statement; [7483]

(3) what measures are being taken to reduce the prescribing of selective serotonin reuptake inhibitors; and if she will make a statement; [7484]

(4) what research she has *(a)* commissioned and *(b)* evaluated concerning the impact of selective serotonin reuptake inhibitors on (i) pregnant women and (ii) unborn foetuses; and if she will make a statement. [7485]

**Jane Kennedy:** On 6 December 2004, a letter was sent to all health professionals in the United Kingdom from the Chairman of the Committee on Safety of Medicines (CSM) announcing the results of the review of the safety of selective serotonin reuptake inhibitors (SSRIs) conducted by an expert working group of the CSM and providing prescribing advice for all SSRIs. A copy of the review is available in the Library.

On the same day, the then National Institute for Clinical Excellence (NICE), now the National Institute for Health and Clinical Excellence, published guidelines on the management of depression in primary care. These guidelines state that antidepressants are not recommended for the initial treatment of mild depression because the risk-benefit ratio is poor.

The expert working group of the CSM carefully considered the available data on a possible link between SSRIs and suicidal behaviour from published and unpublished trials, spontaneous reporting data from health professionals and patients, evidence from key stakeholders and data from the general practice research database (GPRD).

The expert working group concluded that from the available clinical trial data, a modest increase in the risk of suicidal thoughts and self-harm compared to placebo can not be ruled out. However, there is insufficient evidence to conclude that there is any marked difference between members of the class of SSRIs, or between SSRIs and other antidepressants, with respect to their influence on suicidal behaviour.

Evidence from non-experimental studies based on the GPRD indicated that there is no increased risk of suicidal behaviour with SSRIs compared with tricyclic antidepressants. One of the GPRD studies was commissioned by the Medicines and Healthcare products Regulatory Agency (MHRA).

Information about the use of SSRIs during pregnancy is included in the prescribing information for healthcare professionals, the summary of product characteristics. This advice is based on pre-clinical studies, carried out prior to licensing, and continuous post-marketing surveillance of pregnancy outcomes.

### Sexual Health

**Sandra Gidley:** To ask the Secretary of State for Health if she will take steps to ensure that every *(a)* sexual health clinic and *(b)* accident and emergency department offers post-exposure prophylaxis to its users. [7759]

**Caroline Flint:** Primary care trusts are responsible for providing sexual health services, which meet the needs of their local populations. To support them in this role, the Department has worked with leading professional bodies to produce the recommended standards for national health service HIV services (2003). These highlight the need to make post-exposure prophylaxis (PEP) available to those who need it.

The decision on whether to offer PEP for the purposes of preventing HIV transmission should be taken by clinicians in consultation with the patient, and will depend upon the particular circumstances. The British Association for Sexual Health and HIV, and the Government's expert advisory group on AIDS (EAGA) have both published guidance to help clinicians and EAGA keep the evidence on the effectiveness of PEP under review.

The Department has also funded the Terrence Higgins Trust to undertake a campaign to raise awareness of PEP among those at risk of non-occupational HIV transmission. Following a successful evaluation, this campaign will be rolled-out across the country.

### Sterile Services Departments

**Mr. Lansley:** To ask the Secretary of State for Health whether inspection of sterile services departments forms part of the Healthcare Commission's performance ratings. [7506]

**Jane Kennedy:** In July 2004, the Department issued "Standards for Better Health", the first ever national standards for the national health service. The Healthcare Commission will be assessing and rating the NHS against these standards from 2005–06. Core standard four says that:

"Health care organisations keep patients, staff and visitors safe by having systems to ensure that:

the risk of health care acquired infection to patients is reduced, with particular emphasis on high standards of hygiene and cleanliness, achieving year on year reductions in methicillin resistant Staphylococcus aureus;

all risks associated with the acquisition and use of medical devices are minimised;

all reusable medical devices are properly decontaminated prior to use and that the risks associated with decontamination facilities and processes are well managed;

medicines are handled safely and securely; and

the prevention, segregation, handling, transport and disposal of waste is properly managed so as to minimise the risks to the health and safety of staff, patients, the public and the safety of the environment."

# Written Answers to Questions

*Tuesday 5 July 2005*

## HOUSE OF COMMONS COMMISSION

### House Stationery

35. **Mr. Dismore:** To ask the hon. Member for North Devon, representing the House of Commons Commission what plans the Commission has to relax the rules relating to the use of House stationery. [9204]

**Nick Harvey:** The Commission is currently considering the implications of rising levels of expenditure on House stationery and pre-paid envelopes, which falls on the Administration Estimate. The Commission will continue its deliberations on this issue at its next meeting later this month.

### Communal Hairbrushes/Combs

**Mr. Steen:** To ask the hon. Member for North Devon, representing the House of Commons Commission (1) what the cost has been of undertaking the risk assessment of communal hairbrushes and combs in hon. Members' washrooms; [9413]

(2) how many cases of *(a)* communicable diseases and *(b)* infestations have been reported relating to the use of combs and hairbrushes in the hon. Members' washrooms in each of the last 10 years; [9414]

(3) what evidence the Health and Safety Executive provided to the Administration Committee of the risk of communicating *(a)* HIV and *(b)* hepatitis through the use of communal hairbrushes and combs. [9814]

**Nick Harvey:** The cost of conducting the risk assessment of communal hairbrushes and combs in Members' washrooms was staff time only. The assessment involved Serjeant at Arms staff and professionals from the Parliamentary Occupational Health, Safety and Welfare Service and was undertaken as part of their normal duties. Advice was sought from other professionals in relevant enforcement authorities (i.e. Westminster Council's Environmental Health Department and the Health and Safety Executive) at no cost to the House.

There have been no reported cases of communicable diseases or infestations relating to the use of communal combs and hairbrushes in Members washrooms over the last 10 years. However health, safety and hygiene standards now mean that the House has a duty of care properly to control health and safety risks to those working at or visiting the House of Commons. A risk assessment was undertaken resulting in the removal of communal combs and hairbrushes as a preventative health measure, following submission of the matter to the Administration Committee in the last Parliament. The risks of communicating disease or infection was one of a number of risk factors highlighted that contributed to the overall risk assessment and decision, though it is acknowledged in the risk assessment that the likelihood of contracting HIV or hepatitis is extremely low. A copy of the risk assessment as provided to the Administration Committee has been placed in the Library.

### Westminster Hall

**Mr. Dismore:** To ask the hon. Member for North Devon, representing the House of Commons Commission (1) what arrangements will be put in place to allow Westminster Hall debates and Question Time to continue once Westminster Hall closes for major works at the end of 2005; [9053]

(2) what arrangements will be put in place to replace the Jubilee Room facilities, including the ability to use outside caterers for receptions when Westminster Hall closes for major works at the end of 2005; [9054]

(3) what plans there are to provide additional small meeting rooms when the W rooms, Commonwealth Parliamentary Association and Inter-Parliamentary Union rooms will cease to be available due to the major works in Westminster Hall at the end of 2005. [9055]

**Nick Harvey:** I refer the hon. Member to the answer I gave on 27 June 2005, *Official Report*, columns 1179–80W.

## PRIME MINISTER

### Correspondence

**Mr. Grieve:** To ask the Prime Minister when he will reply to the letters from the hon. Member for Beaconsfield of *(a)* 14 June and *(b)* 15 June. [9827]

**The Prime Minister:** The request for information set out in the hon. Member's letter of 14 June is being handled under the Freedom of Information Act 2000. A reply will be issued within the statutory 20 working-day limit set out in the Act.

### Warwick Agreement

**Mr. Austin Mitchell:** To ask the Prime Minister what arrangements he is making for the implementation of the Warwick agreement with trade unions; and how much of the agreement has been implemented. [9652]

**The Prime Minister:** The policies agreed at the Warwick National Policy Forum, which range from the introduction of ID cards to the reform of public services and improving people's rights at work, are a programme for implementation over the life of this Parliament. We have already started making progress including, for example, consulting on a package of family-friendly proposals to be implemented by 2007, including an extra three months of maternity pay.

## LEADER OF THE HOUSE

### Legislative Scrutiny

34. **Mr. Allen:** To ask the Leader of the House which Bills the Government plan to submit for pre-legislative scrutiny in this parliamentary session. [9203]

**Nigel Griffiths:** The Government have announced that they intend to publish the following bills in draft this session for pre-legislative scrutiny:

Counter-Terrorism, Coroner Reform, Legal Services, Marine, Pensions (subject to the outcome of the Pensions Review) and Tourism (Wales).

The draft Corporate Manslaughter Bill has already been published in draft. Other bills may be published in draft as the session progresses. My right hon. Friend the Leader of the House will ensure that the Liaison Committee is kept informed of developments.

37. **Mark Lazarowicz:** To ask the Leader of the House if he will bring forward proposals to improve the effectiveness of House of Commons Committees in scrutinising legislation. [9206]

**Nigel Griffiths:** *This is certainly a matter which my* right hon. Friend the Leader of the House believes that the Modernisation Committee may wish to consider over the course of the Parliament.

### House of Lords Reform

36. **Bob Spink:** To ask the Leader of the House what recent discussions he has had on the timetable for House of Lords reform. [9205]

**Mr. Hoon:** I have had a number of recent discussions with ministerial colleagues on the Government's plans for House of Lords reform.

## CONSTITUTIONAL AFFAIRS

### Electoral Law

21. **Michael Fabricant:** To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on the Department's plans to reform the law on duress and undue influence on voters; and if she will make a statement. [9190]

**Ms Harman:** The Government plans to strengthen the laws against electoral offences. We are consulting on proposals to do so as set out in the Electoral Administration policy paper published in May 2005.

### Voter Participation

22. **Sandra Gidley:** To ask the Minister of State, Department for Constitutional Affairs what plans she has to take steps to increase voter participation. [9191]

**Ms Harman:** We have responded positively to recommendations made by the Electoral Commission for further improvements to the electoral system. We must recognise, however, the key role that politicians and political parties have to play in engaging the electorate to make them wish to turn out to vote at elections.

### Freedom of Information Act

23. **Norman Baker:** To ask the Minister of State, Department for Constitutional Affairs what plans she has to review the operation of the Freedom of Information Act 2000. [9192]

**Bridget Prentice:** The Freedom of Information Act has only been in operation for six months and represents a new way of working for public authorities. Already there is evidence of the beginnings of the long-term culture change that the Act was designed to drive forward. The Government will monitor the Act's progress on an on-going basis and take action as necessary.

### Electoral Registration

24. **Dr. Whitehead:** To ask the Minister of State, Department for Constitutional Affairs what steps she is taking to ensure that electoral registration officers have adequate resources. [9193]

**Ms Harman:** It is for individual local authorities when setting budgets for electoral registration to weigh up their spending priorities against the resources they have available to them. The Government considers that there needs to be more transparency in the information that is available about the funding of electoral registration, and we are looking into ways of achieving this.

25. **Mr. Rob Wilson:** To ask the Minister of State, Department for Constitutional Affairs what her policy is on use of national insurance numbers as an identifier in electoral registration. [9194]

**Ms Harman:** I refer the hon. Member for Reading East to the answer I gave earlier to the hon. Member for Ludlow.

28. **Mr. Leigh:** To ask the Minister of State, Department for Constitutional Affairs what her policy is on use of national insurance numbers as an identifier in electoral registration. [9197]

**Ms Harman:** I refer the hon. Member to the answer I gave to the hon. Member for Ludlow (Mr. Dunne) earlier.

### Judicial Appointments

26. **Keith Vaz:** To ask the Minister of State, Department for Constitutional Affairs when the Lord Chancellor last met the Lord Chief Justice to discuss judicial appointments. [9195]

**Bridget Prentice:** The Lord Chancellor regularly meets the Lord Chief Justice and other senior judges to discuss a wide range of issues including judicial appointments. His most recent meeting with the Lord Chief Justice was on 4 July.

27. **Mr. David Jones:** To ask the Minister of State, Department for Constitutional Affairs what her policy is on the minimum legal qualifications necessary for a judicial appointment. [9196]

**Bridget Prentice:** I refer the hon. Member for Clwyd West to the answer I gave earlier to the hon. Member for North East Milton Keynes.

### Voter Registration (Service Personnel)

29. **Andrew Rosindell:** To ask the Minister of State, Department for Constitutional Affairs what plans she has to change voter registration arrangements for military service personnel; and if she will make a statement. [9198]

**Ms Harman:** We are in discussion with the Ministry of Defence and are reviewing the voter registration arrangements for military service personnel.

### Cohabitation

**Keith Vaz:** To ask the Minister of State, Department for Constitutional Affairs whether the proposal for increased legal protection for cohabiters will apply to all forms of cohabitation. [9029]

**Bridget Prentice:** There are currently no proposals to give increased legal protection to cohabitants. However, the Law Commission published its ninth programme of law reform on 22 March, which includes a project on cohabitation. This project will focus on a review of the remedies available to opposite and same sex cohabiting couples on the termination of their relationship by separation or by death. This project is likely to focus on relationships of an intimate nature, rather than on cohabiting family members or friends.

### Community Legal Service Direct

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs whether it is planned that all staff answering inquiries at Community Legal Service Direct will be qualified lawyers. [8909]

**Bridget Prentice:** All advisers working within the framework of Community Legal Service Direct meet the requirements of the Legal Services Commission's Specialist Quality Mark. This means that they must either have a professional legal qualification, or be able to evidence that they deliver at least 12 hours of legal casework per week. Advisers must also be subject to the supervision of a more experienced colleague, who must maintain a broad portfolio of recent experience.

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs what her plans are for Community Legal Service Direct. [8910]

**Bridget Prentice:** The plans for Community Legal Service Direct are to improve the service through the website, telephone service and information leaflets continuously, based on user feedback. It is also planned to increase the number of people helped by the service as follows:

| | *2004–05* | *2005–06* |
|---|---|---|
| New telephone advice matters | 23,000 | 60,000 |
| Website visits | 631,000 | 850,000 |
| Leaflets downloaded | 121,000 | 150,000 |
| Leaflets distributed | 1,700,000 | 2,400,000 |

These targets are included in Public Sector Agreement 5 for the Legal Services Commission and Department for Constitutional Affairs, which emerged following SR2004.

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs how much had been spent from the public purse on the Community Legal Service Direct project as at 28 June. [8911]

**Bridget Prentice:** Expenditure on Community Legal Service Direct and its predecessor services in the financial year 2004–05 was £6,927,000. This includes pre-launch costs for Community Legal Service Direct (launched 14 July 2004) and the costs of running its predecessor services from 1 April 2004 to 13 July 2004. The figure also includes costs associated with the Website, leaflet production and distribution, the telephone service, marketing activities and materials and the costs of staff working in the Community Legal Service Direct Team within the Legal Services Commission.

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on the progress of Community Legal Service Direct. [8912]

**Bridget Prentice:** Since its launch in July 2004 Community Legal Service Direct has established itself as an important new element within the range of publicly funded legal services. The telephone service has received over 300,000 calls, and now regularly receives more than 30,000 calls per month. Many of these are for assistance in finding a local legal adviser, but more than 30,000 people have obtained direct assistance over the phone.

The website www.clsdirect.org.uk has received nearly 750,000 unique visits since its launch, with the average visitor looking at six pages. More than 1.7 million legal information leaflets have been distributed in the first year of operation as more and more are added to the range.

### Data Protection Act

**Mr. Marsden:** To ask the Minister of State, Department for Constitutional Affairs what steps her Department is taking to inform *(a)* other departments and *(b)* agencies of the position of hon. Members representing their constituencies in terms of the Data Protection Act 1998 [8509]

**Bridget Prentice:** The Cabinet Office provides relevant guidance on the Data Protection Act in Section 16 of the "Data Protection Act 1998: Standards and Best Practice Handbook for Government Departments". This is available on the Cabinet Office website.

The Information Commissioner also provides Guidance on the disclosure of sensitive data to Members of Parliament carrying out constituency casework.

### Election Pilots (Guidance)

**Mr. Heald:** To ask the Minister of State, Department for Constitutional Affairs whether the Department will issue guidance to local authorities on applying for *(a)* all-postal voting pilots and *(b)* other forms of election pilot in (i) forthcoming by-elections and (ii) the 2005 local elections. [9811]

**Ms Harman:** No decision has yet been taken about issuing a prospectus to local authorities on piloting in by-elections or the May 2006 local elections. If we are intending to encourage electoral pilots of innovative voting methods, a prospectus will be issued.

### Election Turnout

**Mr. Heald:** To ask the Minister of State, Department for Constitutional Affairs what assessment the

Government have made of the effect of the systems of proportional representation as used in England on election turnout. [9768]

**Ms Harman:** An internal review of the experiences of the new UK voting systems introduced for the devolved Administrations, the European Parliament and London Assembly elections is being conducted by officials within my Department. It is at an early stage, and any decisions regarding the next steps for the review will be taken in due course.

## Legal Aid

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs what the average cost of a *(a)* public defender and *(b)* private legal aid lawyer was in the last period for which figures are available, broken down by region. [8270]

**Bridget Prentice:** Private solicitors firms and barristers carry out a wide variety of public funded work and are paid from different schemes within the Criminal Defence Service (CDS). It is therefore not possible to provide an average cost. However, an independent research programme has been continually evaluating the progress of the Public Defender Service(PDS) since its inception. The results of the research, including a full assessment of the cost of the scheme in comparison to private criminal defence practitioners, is due to be published in autumn 2005.

**Miss McIntosh:** To ask the Minister of State, Department for Constitutional Affairs how much was paid in legal aid fees for *(a)* civil work and *(b)* criminal work in each of the last five years; and if she will make a statement. [9573]

**Bridget Prentice:** Payments made by the Legal Services Commission for civil and criminal work, in cash, since 2000–01 are shown in the table:

*£ million*

| | *Civil* | *Criminal (below Crown Court)* | *Criminal (Crown Court and above)* |
|---|---|---|---|
| 2000–01 | 791.9 | 450.4 | 422.0 |
| 2001–02 | 734.5 | 508.3 | 474.1 |
| 2002–03 | 812.8 | 526.4 | 569.3 |
| 2003–04 | 897.9 | 533.5 | 645.0 |
| 2004–05 | 845.9 | 509.7 | 682.4 |

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs how many law firms practised legal aid work in 1999 for *(a)* criminal law, *(b)* general civil law, *(c)* immigration law, *(d)* family law, *(e)* housing law and *(f)* mental health law, broken down by region. [9620]

**Bridget Prentice:** The figures for law firms, by region, who practised in criminal, family and other civil law in the 1999–2000 financial year are in the table. It has not been possible to break this down into the other categories requested in the time allowed.

*Number of providers paid by region and type of work 1999–2000*

| | *Crime* | *Family* | *Other civil* |
|---|---|---|---|
| No. 1 London | 1,329 | 1,674 | 2,009 |
| No. 2 South Eastern | 391 | 637 | 605 |
| No. 3 Southern | 458 | 672 | 625 |
| No. 4 South Western | 506 | 731 | 696 |
| No. 5 South Wales | 371 | 449 | 448 |
| No. 6 West Midland | 515 | 621 | 604 |
| No. 7 North Western | 512 | 670 | 692 |
| No. 8 Northern | 466 | 535 | 507 |
| No. 9 North Eastern | 507 | 626 | 618 |
| No. 10 East Midland | 478 | 614 | 599 |
| No. 11 Eastern | 509 | 725 | 669 |
| No. 12 Chester and North Wales | 381 | 497 | 483 |
| No. 15 Merseyside | 283 | 409 | 410 |
| All areas | 6,706 | 8,860 | 8,965 |

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs how many law firms, have contracted for criminal legal aid work in each year since the Access to Justice Act 1999 came into force, broken down by region [9621]

**Bridget Prentice:** The number of law firms contracted for criminal legally aided work, by region, since the Legal Services Commission (LSC) began operating the General Criminal Contract in 2001 are set out in the table.

The figures shown in the answer are figures taken directly from the LSC's scrutiny and payment of criminal claims (SPOCC) system and include firms who, although may not still have a contract with the LSC, are still billing for work that was carried out under their contract.

| | *2001–02* | | *2002–03* | | *2003–04* | |
|---|---|---|---|---|---|---|
| | *Start* | *End* | *Start* | *End* | *Start* | *End* |
| East Midlands | 209 | 214 | 214 | 211 | 212 | 200 |
| Eastern | 207 | 217 | 218 | 204 | 204 | 192 |

| North West | 354 | 331 | 333 | 324 |
| South East | 303 | 306 | 308 | 303 |
| South West | 230 | 200 | 201 | 199 |
| Wales | 245 | 225 | 225 | 220 |
| West Midlands | 271 | 265 | 266 | 268 |
| Yorkshire Humberside | 249 | 237 | 237 | 237 |
| Total | 2,805 | 2,661 | 2,669 | 2,673 |

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs how many law

firms bid for civil legal aid contracts in each of the bid rounds that have taken place since the Access to Justice Act 1999 came into force, broken down by region. [9622]

**Bridget Prentice:** In June 1999, bids were invited for contracts from solicitors firms and not-for-profit organisations to undertake civil legal aid work. Over 6,000 bids for contracts were received. At the start of the new scheme on 1 January 2000, there were 5,156 contracts signed. Approximately 90 per cent. of existing contracted solicitors re-bid for their contract during the bid round in 2003, with the other 10 per cent. being let to solicitors firms moving into new categories of law or who were new to legal aid, and not-for-profit agencies. The present contract began on 1 April 2004. At the start of the 2004–05 financial year 6,242 solicitors firms had been awarded contracts. The number of contracts continues to change between bid rounds, with firms joining as well as withdrawing.

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs pursuant to the answer of 27 June 2005, *Official Report*, column 1329W, on criminal cases, when she expects to announce the Government's vision for the future of legal aid. [10010]

**Bridget Prentice:** I refer the hon. Member to the Written Ministerial Statement made by my right hon. Friend, the Secretary of State, Department for Constitutional Affairs and Lord Chancellor on 5 July 2005.

### Legal Aid (Northern Ireland)

**Mr. Dodds:** To ask the Minister of State, Department for Constitutional Affairs how much legal aid was paid to *(a)* solicitors, *(b)* junior counsel and *(c)* senior counsel in each year in Northern Ireland since 2000. [9486]

**Bridget Prentice:** The amount of criminal legal aid paid since the financial year 2000–01 is set out in the table:

*£ million*

| | *2000–01* | *2001–02* | *2002–03* | *2003–04* | *2004–05* |
|---|---|---|---|---|---|
| Solicitors | 11.7 | 13.3 | 12.8 | 14.2 | 16.6 |
| Senior Counsel | 4.2 | 5 | 6.8 | 6.9 | 6.9 |
| Junior Counsel | 6 | 6.3 | 7.3 | 8.2 | 9.1 |
| Total | 21.9 | 24.6 | 26.9 | 29.3 | 32.6 |

The amount of civil legal aid paid since the financial year 2000–01 is set out as follows:

*£ million*

| | *2000–01* | *2001–02* | *2002–03* | *2003–04* | *2004–05* |
|---|---|---|---|---|---|
| Solicitors | 14.7 | 15.1 | 15.5 | 16.1 | 21.7 |
| All counsel[1] | 1.9 | 2.5 | 3.3 | 4.8 | 4.7 |
| Total | 16.6 | 17.6 | 18.8 | 20.9 | 26.4 |

[1] As fees to counsel in civil cases are paid as a disbursement to the instructing solicitor details of the amount paid to senior and junior counsel is not retained in an accessible form.

### London Assembly/Scottish Parliament

**Mr. Heald:** To ask the Minister of State, Department for Constitutional Affairs what plans the Government have to amend the electoral system for the *(a)* London Assembly and *(b)* Scottish Parliament to prevent party list candidates also running for constituency seats. [9812]

**Ms Harman:** An internal review of the experiences of the new UK voting systems introduced for the devolved Administrations, the European Parliament and London Assembly elections is being conducted by officials within my Department. It is at an early stage, and any decisions regarding the next steps for the review will be taken in due course.

With regards to the Scottish Parliament, the Secretary of State for Scotland, my right hon. Friend the Member for Edinburgh, South-West (Mr. Darling), set up the Commission on Boundary Differences and Voting Systems in July 2004 under the chairmanship of Professor Sir John Arbuthnott. The Commission has been asked to report by December 2005.

### Postal Voting

**Mr. Greenway:** To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on the arrangements for postal voting. [9189]

**Ms Harman:** We will improve the security of the postal voting process and are currently consulting on proposals.

**Mr. Heald:** To ask the Minister of State, Department for Constitutional Affairs whether the Department will accept applications for all-postal voting pilots from local authorities in *(a)* forthcoming by-elections and *(b)* the 2005 local elections. [9810]

**Ms Harman:** I refer the hon. Member to the reply I gave on 15 June 2005, *Official Report*, column 464W. This answer also applies to any pilot applications received from local authorities for by-elections.

### Public Defender Service

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs what assessment she has made of the cost efficiency of the public defender scheme. [8269]

**Bridget Prentice:** : The Public Defender Service (PDS) has been undergoing continuous independent research and assessment since its inception. A full evaluation of the PDS pilot, including a full assessment of the cost efficiency of the scheme in comparison to private criminal defence practitioners, is due to be published in autumn 2005.

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on progress of the public defender pilots. [8271]

**Bridget Prentice:** The Public Defender Service (PDS) has been undergoing continuous independent assessment since its inception in 2001.

An interim research report published in 2004 assessed the PDS as performing better than private criminal defence practitioners in terms of the overall level of service provided and results achieved at police stations. In addition, more than 97 per cent. of PDS clients surveyed were satisfied with the service they received and 98 per cent. were happy to recommend the PDS to a friend.

A final evaluation of the PDS pilot is due to be published in autumn 2005.

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs how many defendants are being represented by public defenders in each area where pilots are taking place; and what plans she has to extend the scheme to other areas of the country. [8272]

**Bridget Prentice:** Data collection under the PDS does not specifically record the numbers of defendants helped, but rather the number of "matter starts." Each "matter start" refers to an act of help given by a PDS representative. The nature of the help can vary from advice and assistance at the police station to representation before the courts. On this basis, the number of matters started at each PDS office during 2004–05 is set out as follows:

*Matters started: 2004–05*

| *PDS office* | *Number* |
|---|---|
| Liverpool | 719 |
| Middlesbrough | 582 |
| Swansea | 508 |
| Birmingham | 427 |
| Cheltenham | 1,052 |
| Pontypridd | 421 |
| Chester | 385 |
| Darlington | 540 |
| Total | 4,634 |

At present any further expansion of the scheme is subject to the final evaluation of the PDS pilot, due to be published in autumn 2005. These findings will determine the future of the Public Defender Service.

### Work-related Stress

**Lynne Featherstone:** To ask the Minister of State, Department for Constitutional Affairs how many cases of work-related stress have been reported in her Department in each of the last three years; how much compensation was paid to employees in each year; how many work days were lost due to work-related stress in each year; at what cost; what procedures have been put in place to reduce work-related stress; at what cost; and if she will make a statement. [7857]

**Bridget Prentice:** Detailed sick absence statistics are derived from medical and self-certificates, which are completed by staff or their GPs. While certain illnesses, such as "depression", "anxiety", "general debility" and even "stress" may be indicated on certificates, it is not possible to determine levels of "work-related stress". Consequently, we have no details on the number of working days lost due to work-related stress or the cost to the Department.

Over the last year the Department has introduced a stress at work policy and a managers' toolkit to ensure that the policy is used effectively and at appropriate times. The Department has also introduced a stress helpline as part of its internal occupational welfare provision and enhanced its two existing courses for managers and individuals on managing stress in the workplace. All these new initiatives are based on best practice and on the Stress Management Standards issued by the Health and Safety Executive last year. It is not possible to estimate the costs associated with these activities since they were not accounted for separately. Similarly, we have no records of costs associated with compensation for work-related stress.

## SCOTLAND

### Aviation Policy

6. **John Barrett:** To ask the Secretary of State for Scotland what assessment he has made of the impact of the Government's aviation policy in Scotland. [8170]

**Mr. Darling:** We continue to work closely with the Scottish Executive on all aspects of policies from the Air Transport White Paper.

### Post Offices

7. **Jo Swinson:** To ask the Secretary of State for Scotland what recent discussions he has had with his ministerial colleagues about the future of post offices in Scotland; and if he will make a statement. [8171]

**David Cairns:** My right hon. Friend and I regularly meet with ministerial colleagues and discuss a range of issues.

### Caledonian MacBrayne

8. **Mr. MacNeil:** To ask the Secretary of State for Scotland what discussions he has held with the Chancellor of the Exchequer and the Scottish Executive on off-shoring tax arrangements for crew of Caledonian MacBrayne. [8172]

**Mr. Darling:** I regularly meet my right hon. Friend the Chancellor of the Exchequer and Scottish Executive Ministers to discuss a wide range of issues.

### Devolution

9. **Miss McIntosh:** To ask the Secretary of State for Scotland what recent devolution issues the Advocate-General has considered. [8173]

**Mr. Darling:** Since 7 June, the Advocate-General has had 55 devolution issues intimated to her. 43 of these were concerned with civil matters. Most of the civil cases concerned prison conditions. Of the 12 criminal matters raised, four concerned pre-trial delay. The Advocate-General has not considered it necessary or appropriate to intervene, at this stage, in any of the devolution issues intimated to her since 7 June.

### Integrated Energy Policy

10. **John Robertson:** To ask the Secretary of State for Scotland what discussions he has had with the Scottish Executive regarding the development of an integrated energy policy for Scotland. [8174]

**David Cairns:** Scotland Office Ministers and officials are in regular contact with the Scottish Executive on a wide range of energy-related matters.

### Identity Cards

12. **Stewart Hosie:** To ask the Secretary of State for Scotland what discussions he has had with the Home Office and the Scottish Executive on the introduction of identity cards in Scotland. [8176]

**Mr. Darling:** I have regular discussions with my right hon. Friend the Home Secretary and the First Minister on a number of issues.

### Local Income Tax

13. **David Mundell:** To ask the Secretary of State for Scotland what discussions he has had with the Chancellor of the Exchequer on the implications for the rest of the UK of the introduction of a local income tax in Scotland. [8177]

**David Cairns:** Scotland Office Ministers have regular discussions on a range of issues with my right hon. Friend the Chancellor of the Exchequer.

### G8 Summit

**Pete Wishart:** To ask the Secretary of State for Scotland what plans he has to ensure lasting beneficial effects for Scotland following the G8 summit. [8175]

**Mr. Darling):** The G8 Summit is a real opportunity for Scotland to showcase its many attractions to a world audience and demonstrate our expertise in hosting major events. I am also confident that, by the end of the UK's presidency of the G8, Scotland will have given a significant boost to the drives to make poverty history and to secure our environment for future generations.

**Mark Lazarowicz:** To ask the Secretary of State for Scotland what his assessment is of the implications for Scotland of the G8 summit to be held in Gleneagles. [8179]

**Mr. Darling:** Hosting the G8 Summit is a real opportunity for Scotland to showcase its many attractions to a world audience and to demonstrate our expertise in hosting major events. I am also confident that, by the end of the UK's presidency of the G8, Scotland will have given a significant boost to the drives to make poverty history and to secure our environment for future generations.

### Economic Performance

**Mr. Salmond:** To ask the Secretary of State for Scotland when he last met the Chancellor of the Exchequer to discuss Scotland's economic performance. [8178]

**Mr. Darling:** I meet my right hon. Friend the Chancellor of the Exchequer regularly to discuss a range of issues. The Scottish economy continues to benefit from the economic stability delivered by this Government.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Antibiotics (Animals)

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the use in animals of antibiotic substances also used in human medicine, with particular reference to *(a)* amoxicillin, *(b)* tetracycline and *(c)* clindamycin. [9479]

**Mr. Bradshaw** *[holding answer 4 July 2005]:* In October 2003 VMD and the Department of Health prepared lists of all antimicrobial compounds authorised in the UK for use in humans and animals (species noted against each entry). The lists are available on the VMD website www.vmd.gov.uk.

With specific reference to the antimicrobial ingredients amoxicillin, and clindamycin, and the antimicrobial class of tetracyclines, the following table details the animal species in which these antimicrobials are also authorised for use.

| *Antibiotic substances* | |
|---|---|
| Amoxicillin | Dogs, Cats, Pigeons, Poultry, Cattle, Pigs, Sheep, Fish. |
| Tetracyclines | Pigs, Poultry, Cattle, Sheep, Horses, Deer, Pigeons, Cage Birds, Cats, Dogs, Small Animals, Fish. |
| Clindamycin | Dogs, Cats. |

The Government recognise that antimicrobials are essential medicines for ensuring the good health of both humans and animals. Controls are in place to safeguard the proper use of antimicrobials and to minimise the development of resistance that can make products less efficacious.

Antimicrobial veterinary medicinal products may only be used under the direction of a veterinary surgeon on animals in his care and this ensures they are used only when necessary and that advice on use is available to the animal owner to minimise the development of antimicrobial resistance.

A Code of Practice on the Responsible Use of Animal Medicines on the Farm has been produced by the Veterinary Medicines Directorate and is available at their website. There are also a number of guidelines available concerning the responsible use of antimicrobials in livestock that have been produced by the Responsible Use of Medicines in Agriculture Alliance (RUMA).

### Carbon Emissions

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs how much carbon was emitted by *(a)* aircraft and *(b)* cars in the UK in the last period for which figures are available. [9032]

**Mr. Morley:** The answer is as follows:

*(a)* Emissions from aircraft in the UK in 2003 are shown for (1) carbon dioxide ($CO_2$) in million tonnes carbon dioxide per year ($MtCO_2/yr$), and (2) the Kyoto basket of greenhouse gases (GHG) in million tonnes carbon dioxide equivalent per year ($MtCO_2eq/yr$). These figures are from the most recent official UK greenhouse gas inventory.

(1)$CO_2$:2.11 $MtCO_2/yr$

(2)GHG:2.14$MtCO_2eq/yr$

The data cover emissions from all civil domestic passenger and freight traffic movements inside the UK. Under guidelines agreed internationally, emissions from international aviation taking off and landing at UK

airports are not included in UK total emissions, but are estimated for information purposes. Emissions of $CO_2$ and all greenhouse gases from international aviation in 2003 are estimated to have been 29.7 and 30.0 $MtCO_2eq$/yr respectively.

*(b)* Similarly, $CO_2$ and GHG emissions for cars in 2003 are:

$CO_2$:71.1 $MtCO_2$/yr

GHG: 75.4 $MtCO_2eq$/yr

For all road transport the figures are:

$CO_2$: 119.5$MtCO_2$/yr

GHG: 124.6$MtCO_2eq$/yr

## Cetaceans

**Jeremy Corbyn:** To ask the Secretary of State for Environment, Food and Rural Affairs what representations the Government have made to the *(a)* EU Council and *(b)* EU member states for increased levels of protection for cetaceans; and if she will make a statement. [8642]

**Mr. Bradshaw:** Following pressure from the UK for community wide action Council Regulation 812/2004 establishing measures to address the incidental bycatch of small cetaceans was adopted by the Agriculture and Fisheries Council in March 2004. Earlier this year I asked the European Commission to extend the UK prohibition on pair trawling within 12 miles of the south west coast to vessels from other member states with historic rights of access to the 6–12 mile zone. I sought support for these measures from the French Minister for fisheries. This request was subsequently rejected by the Commission.

At the Agriculture and Fisheries Council in March 2004 I secured a commitment from the Commission to conduct a review this year of existing bycatch data to determine whether further action is needed. ICES (The International Council for the Exploration of the Sea) has recently published its review of data at http://www.ices.dk, which will now be considered by the Commission.

I will continue to promote and support measures to protect cetaceans.

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs what research she has commissioned into marine noise pollution, with particular reference to the impact on cetaceans; and whether she plans to address this issue in forthcoming legislation. [8904]

**Mr. Bradshaw:** The UK is a signatory to ASCOBANS (Agreement on the Conservation of Small Cetaceans of the Baltic, North East Atlantic, Irish and North Seas). At the 4th Meeting of Parties in 2003, Resolution 4.5 invited Parties and Range States to conduct research into the effects on small cetaceans of acoustic disturbances.

In October 2004, the Department let a contract to the Zoological Society of London to assess the feasibility of researching induced anthropogenic acoustic damage to cetaceans in British waters through the detailed examination of the auditory apparatus of stranded or by-caught animals.

As well as furthering the objectives of ASCOBANS, the work will also form a valuable contribution towards the UK's cetacean biodiversity action plans which call for studies into the effects of underwater sounds on cetacean species.

The Department also contributes to the Inter Agency Committee for Marine Science and Technology and a Crown Estate initiative which includes sound research and development in relation to piling noise for wind farms.

The Department would need to assess the results of research before considering whether legislation is the best mechanism to deal with any potential problems of marine noise pollution with regard to cetacean life forms.

**Mr. Hancock:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent research she has *(a)* commissioned and *(b)* evaluated on the effects of marine noise pollution on (i) marine mammals and (ii) other marine life; and if she will make a statement. [9104]

**Mr. Bradshaw:** The UK is a signatory to ASCOBANS (Agreement on the Conservation of Small Cetaceans of the Baltic, North East Atlantic, Irish and North Seas). At the 4th Meeting of Parties in 2003, Resolution 4.5 invited Parties and Range States to conduct research into the effects on small cetaceans of acoustic disturbances.

In October 2004, the Department let a contract to the Zoological Society of London to assess the feasibility of researching induced anthropogenic acoustic damage to cetaceans in British waters through the detailed examination of the auditory apparatus of stranded or by-caught animals.

As well as furthering the objectives of ASCOBANS, the work will also form a valuable contribution towards the UK's cetacean biodiversity action plans which call for studies into the effects of underwater sounds on cetacean species.

The Department also contributes to the Inter Agency Committee for Marine Science and Technology and a Crown Estate initiative which includes sound research and development in relation to piling noise for wind farms.

The Joint Nature Conservation Committee has produced guidelines for minimising acoustic disturbance to marine mammals for seismic surveys (available from www.jncc.gov.uk). It is a legal binding condition of the consent issued for seismic surveys under regulation 4 of the Petroleum Activities (Conservation of Habitats) Regulations 2001 by the Department of Trade and Industry that the JNCC guidelines must be followed at all times for all seismic surveys.

**Mr. Hancock:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations she has received on marine noise pollution in UK waters. [9105]

**Mr. Bradshaw:** The Department has recently received one representation on marine noise pollution in UK waters. The Department is involved in discussions on marine noise pollution at the international level through

the agreement on the Conservation of Small Cetaceans of the Baltic, North East Atlantic, Irish and North Seas (ASCOBANS) and the Oslo Paris Convention (OSPAR).

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs what action she plans to take through the International Whaling Commission to seek greater protection for cetaceans. [6825]

**Mr. Bradshaw:** We will continue to maintain our opposition to all forms of whaling other than some limited subsistence whaling. The UK strongly supports the IWC moratorium on commercial whaling and our major objective will be to resist any attempt to lift the moratorium.

The UK will support the creation of regional whale sanctuaries and the continuation of existing ones. We will also continue to oppose so called "scientific" whaling and seek to raise welfare issues at every suitable opportunity, highlighting the cruelty involved in whaling.

### Computer Crime

**Mr. Burstow:** To ask the Secretary of State for Environment, Food and Rural Affairs how many cases of computer *(a)* hacking, *(b)* fraud and *(c)* theft her Department recorded in each year since 2001–02; and for each year, on how many occasions computer systems have been illegally accessed by computer hackers (i) within and (ii) outside her Department. [7187]

**Jim Knight:** The Department is not aware of any successful hacking or fraud involving its IT systems during the period. The Department deploys anti-hacking measures on its IT network including firewalls, application firewalls, hardening of servers, intrusion detection systems and IT security health checks.

The following numbers of computer thefts are recorded for the period:

*Computer thefts*

| | *Number of items stolen* |
|---|---|
| 2001–02 | 13 |
| 2002–03 | 23 |
| 2003–04 | 2 |
| 2004–05 | 3 |

### Dormice

**Mark Tami:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department is taking to protect and enhance *(a)* the habitats and *(b)* the number of the dormouse population in England; and what estimate she has made of the dormouse population in England in each of the last five years. [9212]

**Jim Knight:** The dormouse is a priority species with an individual Species Action Plan that is led jointly by English Nature and The Wildlife Trusts. It has also been the subject of an English Nature Species Recovery Programme since 1991. The main reasons for the decline of the dormouse appear to be the fragmentation of our woodlands coupled with inappropriate woodland management. The dormouse recovery programme has sought to address these issues. Guidance on woodland management to favour dormice was published in 1996 and has been followed by a series of training courses for woodland managers. Awareness of the needs of the dormouse is now very high. In addition, the Forestry Commission has a large programme to restore planted ancient woodland sites, which will favour the dormouse. An innovative research programme, carried out at Royal Holloway, University of London, showed the importance of hedgerows for dormice and guidance on hedgerow management was published by English Nature in 2002. 'Dormouse friendly' hedgerows are now an option in the Government's new Environmental Scheme. A greatly-expanded conservation handbook on dormice will be published later this year.

As well as efforts to improve the countryside for dormice, the species has been reintroduced into some parts of England from which it was lost. A partnership between English Nature and the People's Trust for Endangered Species, with veterinary support from the Institute of Zoology, has now carried out 14 reintroductions to 11 counties, using dormice supplied by the Common Dormouse Captive Breeders Group. Follow-up surveys have confirmed the success of this approach, with the first reintroduction now more than 10-years-old. The most recent reintroduction was to the Chatsworth Estate, Derbyshire in June this year.

Estimating the number of dormice is difficult as the species is very under-recorded. The first Great Nut Hunt in 1993 greatly increased the number of known sites for the species and a national inventory of more than 1,300 sites is now available through the National Biodiversity Network. More than 200 of these sites now contribute to the National Dormouse Monitoring Programme by counting the number of dormice in nest-boxes every summer. These data, summarised in the report of the Tracking Mammals Project, have shown that, nationally, the dormouse population has declined by 23 per cent. since 1993, though it has been relatively stable in recent years. However, there are indications that the species remains vulnerable at the edge of its range, particularly in the marginal uplands, so there is an on-going need for conservation work. A recent estimate of the national population suggested that there are in the region of 45,000 dormice in Britain.

### Emissions Trading Scheme

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the treatment of funds collected under the EU Emissions Trading Scheme. [8605]

**Mr. Morley** *[holding answer 30 June 2005]:* The EU Emissions Trading Scheme works at an installation rather than state-level, and therefore any potential profits or losses from the Scheme are accrued by the individual operator.

The two categories of payments from individual operators under the EU Emissions Trading Scheme are regulator fees and civil penalties. Fees are imposed by the regulator to cover the costs incurred in administering the scheme. The regulator also administers the collection of civil penalties, levied when regulations have been broken. Regulation 41 of the Greenhouse Gas Emissions Trading

Scheme Regulations 2005 requires the regulator to collect any civil penalties, and then to pass them to the "appropriate authority", before entering the Treasury's Consolidated Fund. The appropriate authority is the Secretary of State for installations in England and offshore installations, the Scottish Ministers for installations in Scotland, the Welsh Assembly for installations in Wales, and the Department of Environment for Northern Ireland.

Operators can avoid paying civil penalties by purchasing (and surrendering) additional allowances from other operators, in line with their obligations under the Scheme.

**Mr. Ian Austin:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will assess the merits of including aircraft emissions in the European Emissions Trading Scheme. [8745]

**Mr. Morley:** Aviation accounted for approximately 3 per cent. of the EU's carbon dioxide emissions in 2001. While this is a relatively modest share, this represents an increase of 68 per cent. from 1990 levels. Furthermore, in their 1999 Special Report on Aviation and the Global Atmosphere, the Intergovernmental Panel on Climate Change (IPCC) estimated that the total climate change effect from aviation is approximately two to four times larger than the effect of its $CO_2$ emissions alone. The EU has recognised the need to tackle this growing area of emissions in the absence of other international action.

The use of emissions trading allows the coverage of environmental costs through a mixture of emissions reductions within the sector and purchase of reductions that can be produced more cheaply by other sectors. The advantage of emissions trading is that, through the use of a defined emissions cap, it guarantees a desired environmental outcome in a way that other instruments, such as charges, do not. Furthermore, it ensures that the emissions reductions required to achieve a particular environmental outcome take place in as cost-effective a manner as possible.

For an international industry, an international trading regime is the best solution. The Government have made taking forward the work programme for the inclusion of aviation emissions into the EU Emissions Trading Scheme a priority for the UK presidency of the EU. While there are further instruments that may be appropriate, our focus is on emissions trading as the most cost effective way of delivering our environmental objective.

### Fish Merchants

**Mr. MacNeil:** To ask the Secretary of State for Environment, Food and Rural Affairs under what legislation the proposed buyers' licences for fish merchants were introduced; and if she will make a statement. [8877]

**Mr. Bradshaw** *[holding answer 4 July 2005]:* In England the registration of buyers and sellers of first sale fish was introduced by The Registration of Fish Buyers and Sellers and Designation of Fish Auction Sites Regulations 2005 (SI 2005 No. 1605). Similar legislation has been or will be introduced by the devolved administrations and the Department of Agriculture and Rural Development Northern Ireland.

### Flooding (North Yorkshire)

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will relax the three day notice period on movements given in North Yorkshire following the flooding. [9473]

**Mr. Morley:** It is a requirement under the Disease Control (England) Order 2003 that livestock movements are reported within three days of the movement taking place.

We have not been asked to relax this reporting period due to flooding in North Yorkshire, but we would treat any requests we receive to do so sympathetically, where the farmer concerned is suffering hardship.

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will provide funds to assist the clear-up of the countryside and carriageways following the floods in North Yorkshire. [9476]

**Mr. Morley:** The Bellwin Scheme, administered by the Office of the Deputy Prime Minister, is the means by which financial assistance can be made available to local authorities following an emergency. Funding from DEFRA is not available for this purpose.

### Foot and Mouth

**Mr. Hayes:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will list occasions referred to in Commission Decision 2005/436/EC, OJL151 of 14 June, where EU states were supported by the EU in emergency foot and mouth vaccination campaigns; what the cost was; what funding procedures were used; whether such procedures remain in place; what happened to stock following vaccination; and whether this facility was available to the UK during 2001. [8984]

**Mr. Bradshaw:** Decision 2005/436/EC concerns the operation and European Community contributions to a Trust Fund established by the European Commission for the Control of Foot and Mouth Disease (EUFMD) aimed at emergency measures to be carried out in the Balkans, the main route of entry of FMD into Europe. EUFMD was founded under the auspices of the Food and Agriculture Organisation of the United Nations. It has over 30 member countries some of which are member states of the European Community; some are not.

The Trust Fund has been used to support foot and mouth disease emergency vaccination campaigns in Turkey and in Transcaucasia thereby protecting areas at risk within the European Community. No member state of the European Community has received funds from the Trust Fund to support foot and mouth disease emergency vaccination campaigns and this facility was not available to the UK in 2001.

### Forestry

**Mr. Hollobone:** To ask the Secretary of State for Environment, Food and Rural Affairs how much central government financial support has been made available for private sector forestry in the East midlands region in the last 10 years; and whether her Department plans to change the allocation. [8915]

**Jim Knight:** With the introduction of the Forestry Commission's English Woodland Grant Scheme later this month we will, for the first time, be allocating forestry grant funding on a regional basis. Grants under the previous Woodland Grant Scheme were funded on a national basis. The following table gives details of payments in the East midlands for each year for the last 10 years.

*Forestry commission grant scheme payments*

| *Financial year* | *£000* |
|---|---|
| 2003–04 | 1,955 |
| 2002–03 | 1,774 |
| 2001–02 | 1,699 |
| 2000–01 | 2,018 |
| 1999–2000 | 1,957 |
| 1998–99 | 1,642 |
| 1997–98 | 2,164 |
| 1996–97 | [1]1,933 |
| 1995–96 | [1]1,079 |
| 1994–95 | [1]1,143 |

[1] This figure includes estimated payments of £133,000 that were made against old grant schemes and which are not recorded on the current financial management systems.

The allocation of funds for the current financial year is £2.0 million. This is for payments due under grant schemes agreed in previous years and for new applications that will be approved this year. Future years funding will depend on national and regional priorities.

In addition much of the National Forest lies within the east midlands region. Payments under their tender scheme, which is principally funded by DEFRA, are given in the following table. This excludes the woodland grant scheme element of the scheme, which is included in the above table.

*National forest company tender scheme payments*

| *Financial year* | *£000* |
|---|---|
| 2004–05 | 1,660 |
| 2003–04 | 1,926 |
| 2002–03 | 1,930 |
| 2001–02 | 1,899 |
| 2000–01 | 1,693 |
| 1999–2000 | 1,583 |
| 1998–99 | 1,158 |
| 1997–98 | 1,205 |
| 1996–97 | 795 |
| 1995–96 | 453 |

There are no plans to change the funding allocated to the National Forest in the current spending review period.

**Mr. Hollobone:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will increase the level of maintenance grant available for tree planting schemes. [8914]

**Jim Knight:** The woodland creation element of the Forestry Commission's new English Woodland Grant Scheme, which will open for applications later this month, has payment rates that are broadly comparable to those available under the previous Woodland Grant Scheme.

The woodland creation grant provides a contribution to both the cost of woodland establishment and for maintenance in the 10 years following planting. There are no plans to change the rate of grant. However, changes may need to be made to the rate payable from 2007 onwards in order to reflect any requirements of the new Rural Development Regulation.

### GM Crops (EU Environment Council)

**Mr. Llwyd:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will publish the full text of contributions made by UK representatives in the EU Council of Ministers discussion on 24 June on genetically modified crops and food. [9181]

**Mr. Morley:** At the Environment Council the Presidency asked member states to intervene only if their voting position on the GM proposals had changed. The UK had not changed its voting position (either on the question of whether to approve the GMO MON 863, or on the dossiers relating to other member states' safeguard actions) so no intervention was necessary.

### International Whaling Commission

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will list countries eligible to vote at the International Whaling Conference in South Korea. [6824]

**Mr. Bradshaw:** Nine new members joined at this year's International Whaling Commission meeting, held in Ulsan, South Korea in June, bringing the total number of members to 66. However, Belize, Costa Rica, Kenya and Peru lack voting rights. Thus of the 66 member nations, only 62 contracting member governments were eligible to vote at the meeting.

These countries were Antigua and Barbuda, Argentina, Australia, Austria, Belgium, Benin, Brazil, Cameroon, Chile, People's Republic of China, Cote d'Ivoire, Czech Republic, Denmark, Dominica, Finland, France, Gabon, Gambia, Germany, Grenada, Guinea, Hungary, Iceland, India, Ireland, Italy, Japan, Kiribati, Republic of Korea, Luxembourg, Mali, Mauritania, Mexico, Monaco, Mongolia, Morocco, Nauru, Netherlands, New Zealand, Nicaragua, Norway, Oman, Republic of Palau, Panama, Portugal, Russian Federation, San Marino, St. Kitts and Nevis, St. Lucia, St. Vincent & The Grenadines, Senegal, Slovak Republic, Solomon Islands, South Africa, Spain, Surinam, Sweden, Switzerland, Togo, Tuvalu, UK, and the USA.

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the latest meeting of the International Whaling Commission; and what the Government's position is on the hunting of whales. [7659]

**Mr. Bradshaw:** The latest meeting of the International Whaling Commission (IWC) was a successful meeting for the UK. All key UK objectives were achieved, most notably: retention of the moratorium on commercial whaling and the Southern Ocean Sanctuary; rejection of secret ballots; adoption of a Resolution, criticising Japan's plans to significantly increase its scientific

whaling programme; and agreement by consensus to hold a Workshop on Whale Killing Methods and Associated Issues.

The UK is opposed to whaling and strongly supports the current IWC moratorium on commercial whaling. We do not believe there is any justification for whaling apart from some limited subsistence whaling by indigenous people. We believe that whaling does not serve any genuine need and involves unacceptable cruelty.

### Nuclear Waste

**Mr. Hancock:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 22 June 2005, to the hon. Member for Lewes (Norman Baker), *Official Report*, column 1040W, what proportion of the waste relates to the Ministry of Defence. [9103]

**Mr. Morley:** The proportion of the wastes which relate to the Ministry of Defence is between 2 and 3 per cent. The figures are deduced from the 2001 UK Radioactive Waste Inventory. The 2004 inventory should be published this autumn.

### Parish Councils

**Mrs. Spelman:** To ask the Secretary of State for Environment, Food and Rural Affairs whether the grant scheme available for parish councils to conduct consultation about parish plans extends to village residents associations in areas where there is no parish council. [8625]

**Jim Knight:** It is possible for parish plan grants funded by DEFRA to support the development of community plans in parts of the country where there is no parish council. Responsibility for administering the grant scheme now rests with individual Rural Community Councils.

### Pet Markets

**Mr. Hancock:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will make it her policy to ban exotic pet markets; [8968]

(2) how many illegal pet markets have been discovered in England in each of the last five years; and what action was taken in each case. [8969]

**Mr. Bradshaw:** The scope of the prohibition on pet markets and similar events in public places under the Pet Animals Act 1951 (as amended 1983) is in need of clarification. The Animal Welfare Bill will provide an opportunity to supply this clarification. We are currently in contact with parties with an interest in the sale of animals at pet markets. Once we have had an opportunity to consider the responses to this first consultation, it is our intention to prepare proposals which will be subject to a wider public consultation, before any legislation is introduced.

It is for local authorities to enforce the Pet Animals Act 1951, including the licensing of pet markets. Data on enforcement action taken under this Act are not collated by my Department.

### Rats

**Mr. Burstow:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the level of rat infestation of sewers in each London borough. [8238]

**Mr. Morley:** My Department does not undertake assessments of the level of rat infestation of sewers.

### Rights of Way

**Mr. Hollobone:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment she has made of the *(a)* targets and *(b)* funding mechanism for the maintenance and enhancement of rights of way networks in rural areas. [8917]

**Jim Knight:** The Government set a target in their Rural White Paper, published in 2000, of a 10 per cent. improvement in defining, maintaining and publicising the rights of way network by 2005. The Countryside Agency is currently carrying out research to evaluate whether this target has been met. Local highway authorities receive their rights of way funding through the unhypothecated Environment Protection and Cultural Services block in the Revenue Support Grant. The method of funding was agreed with the Local Government Association and all four leaders of the political groups on the Association.

### Rural Housing Commission

**Lynne Featherstone:** To ask the Secretary of State for Environment, Food and Rural Affairs what budget has been allocated to the proposed Rural Housing Commission; and if she will make a statement. [8919]

**Jim Knight:** Work to set up an Affordable Rural Affordable Housing Commission is under way and I hope to be able to make an announcement shortly. That work will include the Commission's terms of reference. The budget will be found from within existing departmental resources.

### Smog

**Sarah Teather:** To ask the Secretary of State for Environment, Food and Rural Affairs how many smog warnings have been issued in London in each year since 1979. [8207]

**Mr. Bradshaw:** Forecasts of high air pollution are issued when Defra estimates that concentrations of specific air pollutants are likely to exceed guideline values. The table shows the number of forecasts of high air pollution in London published by Defra from 1992 (the first year that forecasts were available) to the present time.

Defra warns of high air pollution through the Air Quality Information Archive at www.airquality.co.uk, Teletext, page 169 and the freephone service 0800 556677. On occasions when a notable air pollution episode is forecast, such as the first photochemical smog in any year, Defra may supplement these forecasts with a news release.

*Number of forecasts of high air pollution in London published by Defra*[1]

| | *Number of forecasts of high air pollution* |
|---|---|
| 1992 | 90 |
| 1993[2] | 94 |
| 1994 | 94 |
| 1995 | 118 |
| 1996 | 139 |
| 1997[3] | 12 |
| 1998 | 15 |
| 1999[2] | 8 |
| 2000 | 8 |
| 2001 | 13 |
| 2002 | 3 |
| 2003 | 13 |
| 2004 | 4 |
| 2005[4] | 2 |

[1] Number of days when a forecast for high air pollution was published for one or more of the pollutants included in the air quality banding and index system. Details of the air pollution banding and index system are available at http://www.airquality.co.uk/archive/standards.php#band

[2] There are no numbers available for the individual years 1993 and 1994. The numbers presented are the average for 1993 and 1994. The same applies to 1999 and 2000.

[3] The guideline values for some air pollutants were changed in 1997 following advice from the Committee on the Medical Effects of Air Pollutants (COMEAP) and a public consultation. A statement from COMEAP is available at http://www.advisorybodies.doh.gov.uk/comeap/statementsreports/airpol9.htm.
Before 1997 the air quality guidelines for "poor" air quality were: nitrogen dioxide, 191 microgrammes per metre cubed as an hourly average; sulphur dioxide, 333 microgrammes per metre cubed as an hourly average; and ozone, 180 microgrammes per metre cubed as an hourly average. From 1997 onwards, the thresholds for the definition of high pollution were defined as: nitrogen dioxide, 573 microgrammes per metre cubed as an hourly average; sulphur dioxide, 532 microgrammes per metre cubed as a 15 minute average; ozone was unchanged. In 1997 guideline values for particulate matter (PMio) and carbon monoxide were added. These are: $PM_{10}$, 97 microgrammes per metre cubed, gravimetric equivalent; carbon monoxide, 17.4 microgrammes per metre cubed.

[4] High forecasts up to 30 June 2005.

### Taxis

**David T.C. Davies:** To ask the Secretary of State for Environment, Food and Rural Affairs how much the Department has spent on taxis in each of the last five years. [6504]

**Jim Knight:** The Department does not hold information on travel by taxi centrally and this could be provided only at disproportionate cost

### Warm Homes and Energy Conservation Act

**Mr. Amess:** To ask the Secretary of State for Environment, Food and Rural Affairs what progress the Government have made in meeting the targets of the Warm Homes and Energy Conservation Act 2000. [9178]

**Mr. Morley:** A detailed update on progress against the targets outlined in the UK Fuel Poverty Strategy will be available in the third annual Fuel Poverty Strategy Progress Report, expected to be published later this month.

### Work-related Stress

**Lynne Featherstone:** To ask the Secretary of State for Environment, Food and Rural Affairs how many cases of work-related stress have been reported in her Department in each of the last three years; how much compensation was paid to employees in each year; how many work days were lost due to work-related stress in each year; at what cost; what procedures have been put in place to reduce work-related stress; at what cost; and if she will make a statement. [7862]

**Jim Knight:** DEFRA's current sickness absence system does not differentiate between stress and work-related stress. So the number of reported cases of work-related stress and work days lost as a result cannot be calculated.

There are no records of compensation being paid out for work-related stress.

The Department has set a target to reduce the number of working days lost from work-related injury and ill-health by 30 per cent. by 2010. This mirrors the revitalising health and safety strategy target.

DEFRA was established in June 2001. Since then the management board has established a sub-committee on stress which recommended a number of actions. The Department has a stress policy and stress strategy and was one of the first organisations to pilot the Health and Safety Executive's Management Standards for Stress. The Department has several initiatives to help address stress such as assistance to aid managers when undertaking stress risk assessments. It regularly runs stress workshops and roadshows aimed at raising awareness in staff and managers.

It is not possible to quantify the cost of this strategy without detailed analysis of all work groups which is not practicable.

## DEFENCE

### American Missile Defence System

**Norman Baker:** To ask the Secretary of State for Defence what discussions have taken place with the US administration concerning the use of RAF Menwith Hill in connection with the American Missile Defence System. [7812]

**Mr. Ingram:** There has been no request from the United States to use facilities at RAF Menwith Hill for missile defence purposes. The position remains as set out in my right hon. Friend the Secretary of State's response of 26 April 2004, *Official Report*, column 727W, to the hon. Member.

### Army Reviewing Authority

**Harry Cohen:** To ask the Secretary of State for Defence (1) if he will list all cases heard by the Army Reviewing Authority in the last five years in respect of which no legal proceedings are ongoing; what the original sentence imposed was in each case; who the original sentencing authority was; what sentence was determined by the reviewing authority; whether the

sentence was subsequently altered further; and where the reviewing authority's decisions are publicly presented; [8685]

(2) who is eligible to sit on the Army Reviewing Authority; what the arrangements are for *(a)* the Crown prosecution and *(b)* the defence at a review authority hearing; whether each has been present in all cases heard in the last five years; what the arrangements are for the (i) Royal Navy and (ii) Royal Air Force; and if he will make a statement; [8717]

(3) under what statutory authority an Army Reviewing Authority can overrule a decision or sentence made by a *(a)* civil and *(b)* criminal court; [9354]

(4) whether a senior army officer in charge of an Army Reviewing Authority is required to attend for the full duration of the hearing. [9355]

**Mr. Touhig:** The Army Reviewing Authority has no authority over civil cases or cases heard in civilian courts. The Armed Forces Act 1996, under a revised Section 113 of the Army Act 1955, established the Army Reviewing Authority to deal with courts-martial proceedings and petitions.

The Army Act defines the reviewing authority as the Defence Council or any Officer to whom all or any powers of the Defence Council as reviewing authority may be delegated. In practice the Army Board of the Defence Council has delegated its powers of review to the following personnel—the Deputy Adjutant General, the Director Personal Services (Army) or any Colonel under the direct command of the Director Personal Services (Army).

When a case is reviewed by the Army Reviewing Authority there is no actual hearing, therefore it is not possible for anyone to attend. This system of review is similar for all three services and the Royal Navy and the Royal Air Force also have reviewing authorities.

All Army courts-martial proceedings are reviewed whether or not a petition by the accused or his/her legal representative has been presented. Legal advice is always provided by a judge from the office of the Judge Advocate General.

The reviewing authority may quash or substitute the finding or the sentence passed by the court-martial. When a reviewing authority substitutes a sentence it must be a sentence which could have been awarded by the court-martial and it must not be more severe than the original sentence. The accused and their representative are informed of the result of a review by the reviewing authority but the result is not otherwise publicly presented.

It will be proposed in the Armed Forces Bill, which is due to be introduced later this year, that the process of review is discontinued in all three services. The safeguards for service personnel can be provided in a modern system by full rights of appeal against both finding and sentence to the court martial appeal court, and by bail pending appeal.

The detail requested about cases reviewed in the last five years could be provided only at disproportionate cost. However the following information gives an overview of activity by the Army Reviewing Authority (ARA).

*Army reviewing authority*

| | *2000* | *2001* | *2002* | *2003* | *2004* |
|---|---|---|---|---|---|
| Number of individuals tried by court-martial | 455 | 630 | 505 | 470 | 521 |
| Number found guilty | 373 | 485 | 440 | 400 | 464 |
| Number acquitted | 82 | 145 | 65 | 70 | 57 |
| Number of petitions presented to ARA | 107 | 118 | 115 | 87 | 95 |
| Number mitigated by ARA | 22 | 28 | 18 | 15 | 23 |
| Number mitigated on review by ARA without a petition | 8 | 8 | 1 | 8 | 9 |

### Bowman Communications Equipment

**Mr. Havard:** To ask the Secretary of State for Defence what assessment he has made of the performance of the Bowman communications equipment in theatre operations; and if he will make a statement. [7888]

**Mr. Ingram:** An initial Bowman operational capability has been achieved and it is having a direct and positive effect on the communications capability with UK Forces on Operation Telic 6 in Iraq.

The deployment of 12 Mechanised Brigade to Iraq in April 2005, with a core Bowman capability alongside some existing Clansman capability, marked a critical milestone in the incremental Bowman programme as this was the first operational use of the system. Overall, the feedback has been positive. In particular, the voice quality and coverage achieved over differing environments have vastly improved. It is being used in a range of modes, providing both secure and insecure communications, and interoperability with non-Bowman units.

The personal role radio with a 500m effective range, has significantly enhanced low level command and control wherever deployed, including on operations in Iraq. 50,000 radios have been issued to date.

Bowman is not a direct replacement for Clansman and there are still issues to be resolved. Problems encountered in fitting Bowman to complex warfighting platforms such as Challenger 2, Warrior and turreted armoured vehicles have introduced delays. The Ministry of Defence is working closely with the Bowman Prime Contractor and Design Authorities to resolve these issues. To date, over 2,600 vehicles have been converted.

### Correspondence

**Mr. Robathan:** To ask the Secretary of State for Defence when he will write to the hon. Member for Blaby with a full list of ships and equipment involved in the STOROB process of reused ships' fitted equipment or parts thereof and place a copy of that letter in the

Library, as he undertook to do in the answer of 17 March 2005, *Official Report*, column 414W, in the last session of Parliament. [7948]

**Mr. Ingram** *[holding answer 28 June 2005]:* I have written to the hon. Member, and a copy of my letter has been placed in the Library of the House.

### Defence Export Services Organisation

**Malcolm Bruce:** To ask the Secretary of State for Defence (1) on how many occasions in the last 12 months the Defence Export Services Organisation has provided information to UK companies about agents; if he will list the companies to which this information was given; and in which countries the agents were based; [7664]

(2) on how many occasions between April 2004 and December 2004 officials from the Defence Export Services Organisation met BAE Systems to discuss agents in relation to Export Credits Guarantee Department disclosure requirements; [7671]

(3) whether the Defence Export Services Organisation has provided information to BAE Systems on the selection of agents since April 2004. [7923]

**Mr. Ingram:** If the Defence Export Services Organisation (DESO) has information likely to assist UK companies including BAES, in selecting agents suitable to act for them overseas, our policy is to make this available. Provision of such advice is part of normal DESO business. DESO has staff in many countries overseas, and instances of such advice are not centrally recorded.

### Detainees (Treatment)

**Adam Price:** To ask the Secretary of State for Defence pursuant to his answer of 6 June 2005, *Official Report*, column 244W, on detainees (treatment), whether *(a)* detainees, *(b)* security internees and *(c)* enemy prisoners of war transferred by British forces to the United States military have been subject to the unlawful use of sensory deprivation techniques during interrogation. [3088]

**Mr. Ingram** *[holding answer 13 June 2005]:* I have received no reports to indicate that any persons taken into custody by UK forces in Iraq, and subsequently transferred to US custody, have been subject to the unlawful use of sensory deprivation techniques during interrogation.

### Diego Garcia (Terrorist Suspects)

**Mr. Ellwood:** To ask the Secretary of State for Defence if he will make a statement on the status of terrorist suspects held on military bases in Diego Garcia. [4827]

**Mr. Ingram:** Terrorist suspects are not being held on Diego Garcia.

### Discharged Service Personnel

**Mr. Moore:** To ask the Secretary of State for Defence whether personnel who have been discharged under Queen's Regulations 9.413 and 9.414 are eligible for the Veteran's Badge. [9625]

**Mr. Touhig:** Service personnel discharged under Queen's Regulations for the Army 1975 section 9.413 will be eligible to receive a HM Armed Forces Veteran's Badge if they have completed at least five years reckonable service. Those who leave under the terms of section 9.414 will not be eligible for a badge.

### Fleet Construction Plans

**Dr. Julian Lewis:** To ask the Secretary of State for Defence if he will list *(a)* the categories and *(b)* the numbers in each category of vessels to be constructed by (i) 2012 and (ii) 2015 in support of the future carrier fleet. [5560]

**Mr. Ingram:** *[holding answer 23 June 2005]:* The future aircraft carriers (CVF) will be supported by a range of in-service and planned Royal Navy warships and Royal Fleet auxiliary vessels, including the Type 45 destroyers and the military afloat research and sustainability vessels. There are no plans to construct new vessels specifically to support the future carrier fleet by 2015.

### Gibraltar

**Mr. Hoyle:** To ask the Secretary of State for Defence when he next expects to visit Gibraltar. [6391]

**Mr. Ingram:** The Secretary of State for Defence has no plans to visit Gibraltar in the near future.

### Independent Nuclear Deterrent

**Dr. Julian Lewis:** To ask the Secretary of State for Defence pursuant to his answer of 20 June 2005, *Official Report*, column 666W, whether the Labour Party's 2005 manifesto commitment to retain the United Kingdom's independent deterrent refers to *(a)* the principle of continuing to possess a deterrent for the foreseeable future and *(b)* the retention of the current Trident fleet until the end of its life. [7290]

**John Reid** *[holding answer 29 June 2005]:* The Government made clear in the December 2003 Defence White Paper (Cm 6041–I) that, because of the continuing risk of the proliferation of nuclear weapons, and the certainty that a number of other countries will retain substantial nuclear arsenals, our minimum deterrent is likely to remain a necessary element of our security. We have also made clear that we intend to maintain the effectiveness of the Trident system.

### Iraq

**Mr. Jim Cunningham:** To ask the Secretary of State for Defence what the time frame is for withdrawing UK troops from Iraq. [8712]

**Mr. Ingram:** The UK is committed to remaining in Iraq for as long as the Iraqi Government judge that the coalition is required to provide security and assist the Iraqi Security Forces (ISF). The prevailing security situation, progress on the political process and development of the ISF will be among the factors in determining eventual UK force level reductions.

**Adam Price:** To ask the Secretary of State for Defence pursuant to the answer of 27 June 2005, *Official Report*, columns 1204–05W, on Iraq, whether the British

Deputy Senior Judge Advocate in Iraq had been informed of potential abuses and misconduct in violation of the Geneva conventions at Abu Ghraib prior to the announcement of the United States criminal investigation in January 2004. [9051]

**Mr. Ingram:** The British Officer was not aware of the specific allegations of abuse that subsequently led to the investigation and courts-martial of US personnel prior to the announcement of the US investigation in January 2004.

**Mr. Moore:** To ask the Secretary of State for Defence pursuant to the written ministerial statement of 23 June 2005, *Official Report*, column 44WS, on call-out of reservists for Iraq, how many of the 600 reservists to be called up to serve in Iraq have been previously mobilised for service in *(a)* Iraq and *(b)* other overseas postings since May 2002. [9628]

**Mr. Touhig:** We are currently in the process of identifying and calling-out those individuals we wish to select for mobilisation to support ongoing operations in Iraq, pursuant to the written ministerial statement of 23 June 2005, *Official Report*, column 44WS. Given that this process is not complete, it is not possible at this stage to identify how many have served previously in Iraq or other overseas locations.

### Joint Combat Aircraft

**Mr. Hancock:** To ask the Secretary of State for Defence pursuant to the answers of 23 June 2005, *Official Report*, columns 1141–42W, on aircraft carriers, what the reasons are for the different in-service dates for the Joint Combat Aircraft to which he refers; and if he will make a statement. [8613]

**Mr. Ingram:** The in-service date (ISD) is when the capability provided by the system is assessed as available for use. While ISDs for projects are not set until the main investment decision, our internal planning assumptions are based on an ISD of 2014 for the Joint Combat Aircraft. However, we expect to start taking delivery of the aircraft in 2011, and to be conducting flight trials in advance of the ISD.

### Lynx Helicopter

**Mr. Hancock:** To ask the Secretary of State for Defence what the original *(a)* projected cost and *(b)* in-service date for the replacement for the Lynx Mk 3/8 helicopter were; and what the current estimates are. [9113]

**Mr. Ingram:** Prior to the inception of the Future Rotorcraft Capability (FRC) programme in July 2004, the Lynx Mk 3/8 replacement was in its assessment phase, so there were no approved costs or in-service dates. The replacement for Lynx Mk 3/8 has now been subsumed into the FRC programme. The parameters of the FRC programme are still under consideration, but we hope to make announcements later this year.

### Procurement Projects

**Mr. Moore:** To ask the Secretary of State for Defence what completed procurement projects since 1997 have had an approved cost at main gate or equivalent approval exceeding £250 million; and in each case what the *(a)* approved cost, *(b)* actual final cost, *(c)* approved in-service date at main gate or equivalent approval and *(d)* actual in-service date were. [8618]

**Mr. Ingram:** I will write to the hon. Member and a copy of my letter will be placed in the Library of the House.

### Territorial Army

**Mr. Ancram:** To ask the Secretary of State for Defence how much was spent on Territorial Army recruiting; and how many new Territorial Army soldiers were recruited in each year since 1997. [5605]

**Mr. Touhig:** The following table details the expenditure for Territorial Army (TA) recruiting and the number of TA recruits for each financial year since 2001; expenditure figures are not available prior to this date.

| *Financial year* | *Expenditure (approx £ million)* | *TA recruits* |
|---|---|---|
| 1997–98 | n/a | 10,400 |
| 1998–99 | n/a | 8,500 |
| 1999–2000 | n/a | 6,700 |
| 2000–01 | n/a | 7,500 |
| 2001–02 | 5 | 7,700 |
| 2002–03 | 5.5 | 7,300 |
| 2003–04 | 5 | 7,600 |
| 2004–05 | 10.5 | 6,900 |

### Typhoon

**Mr. Hoyle:** To ask the Secretary of State for Defence whether Typhoon aircraft have been used in theatre operations. [9577]

**Mr. Ingram:** To date the Typhoon has not been deployed to any operational theatres.

### Unmanned Aerial Vehicles

**Mr. Jack:** To ask the Secretary of State for Defence whether his Department is evaluating the benefits to the UK of producing in the UK unmanned aerial vehicles with *(a)* offensive, *(b)* defensive and *(c)* observational capabilities. [6832]

**Mr. Ingram:** The Ministry of Defence is pursuing a twin-track strategy to explore the conceptual thinking and underlying technology for unmanned combat air vehicles (UCAVs). The former involves participation in the US Joint Unmanned Combat Air System Programme concept work. The latter is focused on ensuring the UK is able to make intelligent choices with respect to UCAV design, technology development and manufacture, and is intended to enhance the UK's industrial position to undertake either an indigenous or collaborative programme should a firm military requirement for UCAVs emerge in the future. Under our Defence Industrial Policy we routinely consider the benefits of producing new defence equipment in the UK when taking procurement decisions.

In addition, we are considering a proposal from Thales UK as preferred bidder for a tactical unmanned air vehicles (UAV) system manufactured in the UK to meet the Watchkeeper requirement for an intelligence,

surveillance, target acquisition and reconnaissance capability. We will make an announcement on this as soon as possible.

## INTERNATIONAL DEVELOPMENT

### Asian Tsunami

**Danny Alexander:** To ask the Secretary of State for International Development how much of the aid pledged by the Government to provide relief to countries that were affected by the Asian tsunami has so far been paid. [8782]

**Mr. Thomas:** Nearly £67 million out of the £75 million allocated to meet immediate relief needs has been programmed through United Nations agencies, the Red Cross movement and non-governmental organisations and DFID direct action. So far £60 million of this has been disbursed. A further detailed breakdown of this spending can be obtained in the document entitled "A breakdown of DFID's immediate relief response to the Indian ocean earthquake and tsunami" which has been placed in the libraries of the House. The balance of the £67 million will be drawn down by the recipient agencies as needed. The remaining monies out of the £75 million have been earmarked for disaster risk reduction initiatives in affected countries.

DFID has also allocated £65 million to meet reconstruction needs. From this allocation, £36 million has been committed to Indonesia, of which £6 million has so far been paid out to the Multi Donor Trust Fund. A further £2 million has been committed to Sri Lanka and £3 million to India to provide technical assistance aimed at ensuring effective, transparent and equitable programming of tsunami reconstruction efforts. The remaining £24 million of the £65 million allocation for reconstruction has not yet been programmed.

**Mark Simmonds:** To ask the Secretary of State for International Development what assessment he has made of possible cases of misuse of tsunami relief funds in Malaysia; and if he will make a statement. [9244]

**Mr. Thomas:** DFID has not provided any direct assistance to Malaysia after the Asian tsunamis. The Government's support has focused on the worst affected and poorest countries in the region. Therefore, we have not been involved in investigating allegations of misuse of relief funds in Malaysia nor had any requests to do so. We urge accountability and transparency of all funding provided to the relief and reconstruction effort.

### Everything But Arms Agreement

**Mark Simmonds:** To ask the Secretary of State for International Development what assessment has been made of the effectiveness of the Everything But Arms agreement in facilitating fairer trading conditions with developing countries; and if he will make a statement. [7233]

**Mr. Thomas:** I refer the hon. Member for Boston and Skegness to the response given by my right hon. Friend the Secretary of State for International Development (Hilary Benn), to my hon. Friend the Member for Leicester, East (Keith Vaz) on 30 June 2005, *Official Report*, columns 1678–79W.

### Haiti

**Ms Abbott:** To ask the Secretary of State for International Development what plans the EU has for development assistance to Haiti. [8943]

**Mr. Thomas:** The European Commission (EC) is one of the leading donors supporting Haiti's Interim Co-operation Framework (ICF), which sets out a comprehensive two-year plan for Haiti's development from September 2004 to 2006. The EC pledged a total of €294 million to the ICF, comprising primarily the remaining funds available to Haiti under the 8th European Development Fund (EOF) and Haiti's allocation under the 9th European Development Fund (EOF) (€167 million).

The Commission is utilising the remaining funds under the 8th EOF and €95.6 million from the 9th EOF to support programmes that directly benefit the Haitian people, strengthen civil society and the private sector, and support democratisation, the rule of law and the electoral process; and other short and medium term priorities identified through the ICF.

Discussions are underway between the Commission and the Haitian Interim Government to prepare an indicative programme for the balance of funds (€72 million) allocated to Haiti under the 9th EOF. The indicative programme will be signed and implemented once national elections deemed free and fair are held. National elections are scheduled for later this year.

The EC has taken measures to improve the disbursement rate of this substantial funding by reinforcing the Commission staff in Haiti and simplifying the procedures for implementing projects.

**Ms Abbott:** To ask the Secretary of State for International Development what steps the Government have taken to support poverty eradication in Haiti. [8944]

**Mr. Thomas:** The UK Government are currently supporting poverty eradication in Haiti through our contributions to, and engagement with, the international community working in Haiti, and through our support to civil society organisations operating in Haiti.

The Interim Cooperation Framework (ICF) in Haiti sets out a comprehensive plan for poverty eradication and stabilisation in Haiti. The UK Government are supporting the implementation of this plan through our contributions to the World Bank, the Inter-American Development Bank (IDB), and the European Commission (EC). The UK share of the pledges these institutions have made to the ICF is approximately £35 million.

The UK is also currently engaged in the negotiation of the 6th Replenishment of the Caribbean Development Bank's (CDB)s concessional fund, the Special Development Fund (SDF). A major issue for this replenishment is Haiti's imminent accession to membership of the CDB, and the terms under which Haiti will access resources from the SDF.

Through its engagement with the international donor community, the UK Government have also been advocating for better donor co-ordination, reduction of implementation bottlenecks and greater poverty focus, in order to ensure positive impacts on the ground for poor Haitians. In light of the links between security and poverty eradication, the UK Government are also supporting the international efforts to improve the security situation and to follow up security operations with social, economic and humanitarian programmes. For example, the UK contributes 7.4 per cent. of the budget of the UN Stabilisation Mission in Haiti (MINUSTAH), likely to be £20 million in 2005–06. In 2004, DFID also provided some £4 million in humanitarian assistance to Haiti in response to the political unrest, the May floods, and Tropical Storm Jeanne. This too was channelled through international NGOs, the Red Cross Movement, United Nations humanitarian agencies, and our share of European Community humanitarian assistance.

The UK Government also supports NGOs in their poverty eradication efforts in Haiti. Currently, five of the British NGOs supported through DFID's Partnerships Programme Agreements for Latin America and the Caribbean include Haiti in their existing or planned country coverage. DFID has allocated a total of £6.2 million to these NGOs in 2005–06 (CARE—£1.5 million, OXFAM—£1.5 million, Christian Aid—£1.1 million, CAFOD—£1.1 million and the International HIV/AIDS Alliance—£1 million). The FCO also supports small-scale poverty-focused civil society projects in Haiti through its Small Grants Scheme. The 2005–06 allocation for this scheme is £100,000.

### Health Professionals (Migration)

**Mr. Baron:** To ask the Secretary of State for International Development what assessment he has made of the impact on the health systems of developing countries of health care professionals migrating to the United Kingdom. [9822]

**Mr. Thomas:** Health care professionals are clearly a crucial element of any health system and the UK Government are concerned about the severe shortages of health workers in some developing countries, particularly in sub-Saharan Africa. Migration of health workers to the UK and elsewhere can contribute to these shortages, which is why the UK has a Code of Practice for International Recruitment of Healthcare Professionals available at http://www.dh.gov.uk. The Code of Practice prevents the NHS from actively recruiting health care professionals from low and middle-income countries unless there is a Government-to-Government agreement in place.

International migration is, however, just one of the factors contributing to the shortages of health workers in many developing countries. Other factors include lack of training capacity, workers leaving the health sector due to poor pay and working conditions, difficulties in deploying staff to rural areas, and the effects of HIV and AIDS.

DFID believes that addressing these shortages requires the development and implementation of comprehensive country-led plans, which increase the numbers of health workers trained, but also include measures to improve pay and incentives, working conditions, distribution, effective planning and management, and improving the performance of existing workers. An example of where DFID is supporting such a plan is Malawi where we are working with the Government to implement an emergency human resource programme, which aims to almost double the number of health workers in Malawi over the next six years.

### Africa (HIV/AIDS/Tuberculosis)

**Mark Simmonds:** To ask the Secretary of State for International Development what research his Department has evaluated on the effects of male circumcision on infection rates of HIV/AIDS in Africa; and if he will make a statement. [8411]

**Mr. Thomas:** A number of studies are providing increasing evidence to suggest male circumcision is a major variable explaining HIV infection patterns in sub-Saharan Africa. Research currently under way should provide conclusive evidence as to whether this would be an effective public health intervention for HIV prevention.

**Mr. Andrew Mitchell:** To ask the Secretary of State for International Development what proportion of the UN Global Development Fund has been allocated to the treatment of *(a)* HIV/AIDS, *(b)* tuberculosis and *(c)* malaria in Malawi in each of the last two years. [8637]

**Mr. Thomas:** The total approved Global Fund Commitment to Malawi is $196,000,000. To date the disbursements are as follows:

*HIV and AIDS*

Grant start date: 1 June 2003

Approved funding: $41,751,500

Total funds disbursed: $36,253,844

*Malaria*

Grant agreement not yet signed

Approved funding: $20,872,000

Total funds disbursed: $0.00

*TB*

The proposal for TB is not yet ready for submission.

**Michael Connarty:** To ask the Secretary of State for International Development what assessment his Department has made of the impact of tuberculosis on mortality rates in Africa; and if he will make a statement. [8934]

**Mr. Thomas:** In 2003, the global TB mortality rate was estimated as 1,747,000. 538,000 (about 30 per cent.) of these deaths are in Africa[1]. There are no reliable all-cause mortality data—so it is difficult to give a figure on the proportion of deaths in Africa that are accounted for by tuberculosis.

However, TB deaths are increasing in Africa after almost 40 years of decline. In particular, TB is a leading cause of death in patients with AIDS. In some countries in sub-Saharan Africa up to 70 per cent. of TB patients

are co-infected with HIV—70 per cent. of the 14 million people worldwide who have both HIV and TB are in Africa[2].

[2] Report of the Commission for Africa—March 2005

## WORK AND PENSIONS

### Benefit Fraud

**Mr. David Hamilton:** To ask the Secretary of State for Work and Pensions how much was spent on public advertising for reporting benefit fraud in the UK in 2004. [6626]

**Mr. Plaskitt:** The current Targeting Benefit Fraud advertising campaign aims to promote a climate of intolerance to benefit fraud and to reinforce the message that benefit fraud is socially unacceptable. In 2004–05 £6,017,250 was spent on campaign advertising. Where appropriate the National Benefit Fraud hotline number has been included in some campaign activity.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what his latest estimate is of the value of fraud connected with each social security benefit; and if he will make a statement. [956]

**Mr. Plaskitt:** The measurement of fraud and error is complex and expensive and therefore it is concentrated on benefits with the highest expenditure and risk of loss, such as income support, jobseeker's allowance and housing benefit.

Up-to-date estimates of fraud and error in disability living allowance (DLA) will become available later this month when the results of the current review of DLA are published.

The available information is as follows.

*£ million*

| *Benefit* | *Measurement period* | *Monetary value fraud (MVF) central estimate* | *95 per cent. confidence intervals*[1] |
|---|---|---|---|
| Income support | 2003–04 | 310 | 270–360 |
| Jobseeker's allowance | 2003–04 | 90 | 70–110 |
| Pension credit/MIG | 2003–04 | 70 | 40–90 |
| Incapacity benefit | 2000–01 | No estimate[2] | 0–19[3] |

[1] The estimates are derived from sampling exercises and are subject to sampling error. The impact of these statistical uncertainties is expressed by means of 95 per cent. confidence intervals.

[2] No cases of fraud were found so a central estimate could not be produced, only an upper limit.

[3] When making estimates using older figures, we calculate the fraud per unit benefit expenditure and uprate the monetary value estimate by applying this rate to current expenditure. In the case of IB, where expenditure on IB has barely changed since 2000–01, there has been no change in our best estimate of MVF.

*Note:*

Benefits measured prior to 1997 are not included because the measurement methodology was different previous to this and, thus, the results are not comparable.

For the year to March 2004, around £600 million was estimated to have been overpaid due to fraud and error in housing benefit (HB). Fraud is estimated to have accounted for between a quarter and a half of the £600 million, depending upon how much of the overpaid HB arising from "non residence" was due to fraud. Non-residence fraud and error is where the claimant is not resident at the property for which HB is being paid. In these circumstances, it is often hard for our investigators to ascertain whether there was fraudulent intent.

### Child Support Agency

**Mr. Jenkins:** To ask the Secretary of State for Work and Pensions what plans he has to assist parents with care who are pursuing maintenance claims through the Child Support Agency against non-resident parents who work abroad. [4939]

**Mr. Plaskitt:** If a non resident parent lives and works abroad, the Child Support Agency only has jurisdiction if they are employed by the Crown or a UK based employer. In these cases, they are required to pay child support for children who are habitually resident in the UK.

If the non resident parent is not employed by the Crown or working for a UK based company, the parent with care can apply to the courts under the Reciprocal Enforcement of Maintenance Orders (REMO) scheme. The UK has arrangements with more than 100 countries and territories that allow a person living in one jurisdiction to claim maintenance from an ex-partner living in the other.

**Mr. Amess:** To ask the Secretary of State for Work and Pensions if he will set a timetable for the transfer of cases at the Child Support Agency from the old to the new scheme. [8590]

**Mr. Plaskitt:** I refer the hon. Member to the written answer I gave the hon. Member for Bolton, South-East (Dr. Iddon), on 20 June 2005, *Official Report*, column 705W.

### Pension Protection Fund

**Mr. Drew:** To ask the Secretary of State for Work and Pensions at what level he expects the Pension Protection Fund to be set; and how much he expects will be funded through *(a)* employee contribution and *(b)* public funds. [6827]

**Mr. Timms:** During its first year, the Pension Protection Fund is expected to raise approximately £150 million through the initial levy. For subsequent years, the amounts will be determined by the Pension Protection Fund within the limits set by Secretary of State through setting a levy ceiling. The Pension Protection Fund expects to consult shortly on its proposed approach to setting the levy for future years.

It is the responsibility of the trustee or the pension scheme manager to pay the PPF levies. The levy is a charge in respect of each member, rather than a fee to be paid by each member. The trustees may choose to pass the costs onto the employer by way of increased employer contributions to the scheme. The employer may in turn pass the costs to employees who are active members of the scheme but they may not pass the cost to pensioners.

The Pension Protection Fund will not be funded with public funds. If the Government were to provide the funding the costs would ultimately fall on ordinary

taxpayers, the majority of whom do not have access to a defined benefit occupational pension scheme. Further we have designed the Pension Protection Fund to be financially self sufficient without recourse to the Government.

## Terminal Illness (Benefits)

**Dr. Gibson:** To ask the Secretary of State for Work and Pensions (1) for how long on average awards of *(a)* disability living allowance and *(b)* attendance allowance under the special rules for terminal illness lasted in the last year for which figures are available from the date of award to the claimant's death or the termination of the claim; [7917]

(2) what the average duration of special rules awards for cancer patients was in the last year for which figures are available; [7918]

(3) what the duration of *(a)* disability living allowance and *(b)* attendance allowance special rules awards were for each of the last five years, from the date of award to the claimant's death or end of claim; and for how many claimants awards lasted up to (i) one month, (ii) one to two months, (iii) two to three months, (iv) three to four months, (v) four to five months, (vi) five to six months, (vii) six to seven months, (viii) seven to eight months, (i) eight to nine months, (ix) nine to 10 months, (x) 10 to 11 months, (xi) 11 to 12 months and (xii) more than 12 months; [7919]

(4) what the duration of *(a)* disability living allowance and *(b)* attendance allowance special rules awards made to cancer patients were in each of the last five years, from the date of award to the claimant's death or end of claim; and for how many claimants awards lasted up to (i) one month, (ii) one to two months, (iii) two to three months, (iv) three to four months, (v) four to five months, (vi) five to six months, (vii) six to seven months, (viii) seven to eight months, (ix) eight to nine months, (x) nine to 10 months, (xi) 10 to 11 months, (xii) 11 to 12 months and (xiii) more than 12 months. [7920]

**Mrs. McGuire:** The requested information is not available. The information that is available is in the tables.

*Disability living allowance and attendance allowance special rules awards. Estimated numbers of awards which terminated in each of the years from 2000–01 to 2004–05; estimated durations of those awards at the point at which they terminated; and estimated average duration of awards which terminated in 2004–05*

| | | *Duration of terminated awards* | | | | |
|---|---|---|---|---|---|---|
| | *Total number of terminated awards* | *Over 3 months and up to 6 months* | *Over 6 months and up to 9 months* | *Over 9 months and up to 12 months* | *Over 12 months* | *Average duration of terminated awards (weeks)* |
| 2000–01 | 70,500 | 23,700 | 16,900 | 9,000 | 20,800 | — |
| 2001–02 | 75,600 | 23,500 | 19,800 | 9,900 | 22,400 | — |
| 2002–03 | 73,200 | 21,200 | 19,100 | 9,500 | 23,400 | — |
| 2003–04 | 71,100 | 19,600 | 19,000 | 9,700 | 22,800 | — |
| 2004–05 | 70,300 | 19,000 | 18,500 | 9,900 | 22,900 | 62 |

*Notes:*

1. Figures are rounded to the nearest hundred and may not sum due to rounding.
2. From November 2002, the methodology for producing DLA and AA figures was changed to allow statistics to be published much sooner. This has resulted in a small increase in the reported caseload. This is because some cases which have actually terminated but have not yet been updated on the computer system are now included.

*Source:*

DWP Information Directorate, 5 per cent. sample data.

*Disability living allowance and attendance allowance special rules awards. Estimated numbers of awards made to people whose main disabling condition was recorded as "Malignant Disease—including Cancer, Carcinoma and Leukaemia" which terminated in each of the years from 2001–02 to 2004–05; estimated durations of those awards at the point at which they terminated; and estimated average duration of awards which terminated in 2004–05*

| | | *Duration of terminated awards* | | | | |
|---|---|---|---|---|---|---|
| | *Total number of terminated awards* | *Over 3 months and up to 6 months* | *Over 6 months and up to 9 months* | *Over 9 months and up to 12 months* | *Over 12 months* | *Average duration of terminated awards (weeks)* |
| 2000–01 | 20,000 | 5,900 | 4,900 | 2,800 | 6,400 | — |
| 2001–02 | 21,700 | 6,100 | 5,600 | 3,200 | 6,900 | — |
| 2002–03 | 20,600 | 5,200 | 5,100 | 3,000 | 7,200 | — |
| 2003–04 | 19,200 | 4,300 | 5,000 | 2,600 | 7,300 | — |
| 2004–05 | 20,200 | 4,500 | 5,000 | 3,100 | 7,600 | 65 |

*Notes:*

1. Figures are rounded to the nearest hundred and may not sum due to rounding.
2. Figures do not include awards in respect of people who may have had cancer, but whose main disabling condition was not recorded as "Malignant Disease—including Cancer, Carcinoma and Leukaemia'.
3. From November 2002, the methodology for producing DLA and AA figures was changed to allow statistics to be published much sooner. This has resulted in a small increase in the reported caseload. This is because some cases which have actually terminated but have not yet been updated on the computer system are now included.

*Source:*

DWP Information Directorate, 5 per cent. sample data.

## EDUCATION AND SKILLS

### Advertising Expenditure

**Mr. Burstow:** To ask the Secretary of State for Education and Skills how much the *(a)* Department and *(b)* non-departmental bodies for which the Department is responsible has spent on advertising type in the last three years, broken down by media type. [9499]

**Maria Eagle:** My Department's expenditure on advertising broken down by media type for the last three years is set out as follows:

£000

| | 2002–03 | 2003–04 | 2004–05 |
|---|---|---|---|
| Advertising spend | 11,261 | 16,948 | 11,825 |
| Press | 1,895 | 2,580 | 2,266 |
| Regional | 249 | 185 | 740 |
| TV | 5,966 | 10,110 | 4,177 |
| Radio | 1,362 | 2,923 | 3,897 |
| Poster | 960 | 543 | 744 |
| Cinema | 549 | — | — |
| Internet | 279 | 604 | — |

It is not possible, except at disproportionate cost, to provide a breakdown of spend on advertising from non-departmental bodies for which the Department is responsible.

All expenditure is exclusive of VAT.

### Child Care (VAT)

**Mr. Martyn Jones:** To ask the Secretary of State for Education and Skills what assessment she has made of the effects on the charity and voluntary sector's ability to provide welfare services of the decision to refund VAT incurred in the provision of child care and children's centres to local authorities. [8940]

**Beverley Hughes:** The decision to refund VAT incurred in the provision of childcare and children's centres by local authorities will have no adverse impact on the delivery of welfare services by the charity and voluntary sector organisations. Where the charity and voluntary sector provide child care and children's centres services under the Sure Start programme, funding is on the basis of full cost recovery, including any associated VAT costs providers incur.

### EU Students

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills pursuant to the answer of 21 June 2005, *Official Report*, column 1006W, on EU students, what estimate she has made of the likely value of deferred fee payments that will not be recovered from EU students who return to their home countries after graduation; and what the procedures are which will be put in place to minimise the risk of default. [8031]

**Bill Rammell:** I refer the hon. Member to the answer given on 29 June 2005, *Official Report*, columns 1633–34W, which sets out the resource cost of loans to such students. As set out in the answers given on 21 June 2005, *Official Report*, column 1006W and 29 June 2005, *Official Report*, columns 1633–34W, we will not be able to collect payment through the UK tax system for EU borrowers who return to their home country: the Student Loans Company will establish a schedule of payments to be made and we anticipate relying on EU Council Regulation 44/2001 in the cases of defaulting students.

### Funding Gap

**Mr. Michael Foster:** To ask the Secretary of State for Education and Skills when she will publish the Learning and Skills Development Agency's report on the funding gap between schools and further education colleges; and if she will make a statement. [6932]

**Bill Rammell:** *[holding answer 28 June 2005]:* As part of the Learning and Skills Council's (LSC) Agenda for Change, the Learning and Skills Development Agency was commissioned to investigate the relative funding of learning for full-time 16 to 18-year-olds in further education compared with school 6th forms.

I understand that the LSC will publish the report after its Agenda for Change roadshow events that will occur during the summer. Further details will be available on the LSC's website.

Government have shown their commitment to further education (FE) through the unprecedented investment they are now making. Total funding for FE will increase by over £1 billion in 2005/06 compared to 2002/03—a 25 per cent. cash increase.

### Mathematics

**Mr. Clappison:** To ask the Secretary of State for Education and Skills how many mathematics graduates who were not UK citizens have entered the teaching profession in each of the last 10 years. [8721]

**Jacqui Smith:** The information requested is not collected centrally.

### National Vocational Qualifications

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills how many people attained NVQ Level *(a)* 1, *(b)* 2, *(c)* 3, *(d)* 4 and *(e)* 5 in engineering in each year between 1997 and 2004. [3065]

**Phil Hope:** The following table shows UK estimates for the number of qualifications awarded in engineering in each year between 1997 and 2004. Numbers have been rounded to the nearest 100.

*NVQ attainment in engineering 1997 to 2004*

| Year of award | Level 1 | Level 2 | Level 3 | Level 4 | Level 5 | Total |
|---|---|---|---|---|---|---|
| 1997/98 | 4,000 | 29,100 | 12,400 | 300 | 0 | 45,700 |
| 1998/99 | 2,200 | 29,100 | 14,406 | 400 | 0 | 46,100 |
| 1999/2000 | 1,600 | 26,800 | 17,800 | 300 | 0 | 46,500 |
| 2000/01 | 1,400 | 23,500 | 14,600 | 200 | 0 | 39,600 |

*NVQ attainment in engineering 1997 to 2004*

| *Year of award* | *Level 1* | *Level 2* | *Level 3* | *Level 4* | *Level 5* | *Total* |
|---|---|---|---|---|---|---|
| 2001/02 | 2,700 | 15,700 | 14,000 | 100 | 0 | 32,600 |
| 2002/03 | 3,900 | 16,100 | 12,200 | 100 | 0 | 32,300 |
| 2003/04 | 4,000 | 16,500 | 11,500 | 200 | 0 | 32,100 |

The engineering sector continues to be significantly involved with the Government's apprenticeship programmes and numbers entering engineering programmes are increasing with over 28,000 people currently in learning.

### School Meals

**Mr. Gibb:** To ask the Secretary of State for Education and Skills pursuant to the answer of 7 June 2005, *Official Report*, columns 476–78W, on school meals, which public body is responsible for monitoring and enforcing the regulations to which she refers. [5018]

**Jacqui Smith:** In response to answer of 7 June 2005, *Official Report*, columns 476–78W, the regulations referred to are The Education (School Premises) Regulations 1999, which require schools to have a wholesome supply of water for domestic purposes, including drinking water. These regulations apply to schools maintained by local education authorities (LEAs). The LEAs together with the school governors are responsible for ensuring compliance with the regulations. The Secretary of State can, under section 497 of the Education Act 1996, take action to enforce compliance with The Education (School Premises) Regulations 1999.

Independent schools are subject to The Education (Independent School Standards) (England) Regulations 2003 which quote The Education School Premises Regulations 1999 in respect of water supplies. The Independent School Standards are the regulations to which independent schools are inspected under part 10 of the Education Act 2002. The Independent Schools Registration Authority will consider the inspectors report and can take enforcement action.

### Secondary Schools (Cricket Pitches)

**Mr. Michael Foster:** To ask the Secretary of State for Education and Skills how many secondary schools have access to an artificial cricket pitch; and what proportion of schools this represents. [9240]

**Jacqui Smith:** While the school premises data that the Department collects from local education authorities include information on the suitability of sports provision, the data do not show numbers of schools with access to artificial cricket pitches.

### Training and Enterprise Council

**Mr. Laws:** To ask the Secretary of State for Education and Skills what discussions have taken place between her Department and the Department for Work and Pensions concerning the applicability of the *(a)* Pension Protection Fund and *(b)* Financial Assistance Scheme to the former Training and Enterprise Council pension schemes. [8738]

**Phil Hope:** No discussions have taken place between my Department and the Department for Work and Pensions concerning the applicability of the Pension Protection Fund (PPF) or the Financial Assistance Scheme (FAS) to the former Training and Enterprise Council (TEC/CCTE) pension schemes.

There has been only one case where issues relating to the PPF or Financial Assistance Scheme have been raised within my Department in relation to TEC/CCTE pension schemes. This case involves the one scheme which has not yet secured the bulk transfer terms on offer from the Principal Civil Service Pension Scheme (PCSPS). The trustee for that scheme is now working to secure the bulk transfer terms offered by the Government Actuary's Department. This will enable those members who choose to do so, to secure their accrued benefits in the PCSPS.

In all cases it was found that neither the PPF nor the FAS was applicable.

## TREASURY

### Cervical Cancer

**Lynne Featherstone:** To ask the Chancellor of the Exchequer what proportion of deaths from cervical cancer occurred in women *(a)* aged 60 and over, *(b)* between 30 and 59 and *(c)* under 30 years in each year since 1975. [8130]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Colin Mowl to Lynne Featherstone, dated 5 July 2005:*

The National Statistician has been asked to reply to your recent question on what proportion of deaths from cervical cancer occurred in women *(a)* aged 60 and over, *(b)* between 30 and 59, and *(c)* under 30 years in each year since 1975.1 am replying in his absence. (8130)

The latest year for which data are available is 2003. Figures for cervical cancer are shown in the attached table for the calendar years 1975 to 2003.

*Percentage of all cervical cancer[1] deaths by age-group in England and Wales 1975 to 2002[2]*

| | *(a) 60 and over* | *(b) 30–59* | *(c) Under 30* |
|---|---|---|---|
| 1975 | 57.2 | 41.3 | 1.4 |
| 1976 | 57.0 | 41.7 | 1.3 |
| 1977 | 58.2 | 40.9 | 0.9 |
| 1978 | 57.2 | 41.2 | 1.6 |
| 1979 | 58.3 | 40.1 | 1.6 |
| 1980 | 58.5 | 39.6 | 1.9 |
| 1981 | 58.7 | 39.5 | 1.8 |
| 1982 | 60.4 | 37.9 | 1.7 |
| 1983 | 59.9 | 37.8 | 2.3 |
| 1984 | 60.3 | 36.9 | 2.7 |
| 1985 | 60.1 | 37.8 | 2.0 |
| 1986 | 56.7 | 40.7 | 2.6 |

*Percentage of all cervical cancer[1] deaths by age-group in England and Wales 1975 to 2002[2]*

| | *(a) 60 and over* | *(b) 30–59* | *(c) Under 30* |
|---|---|---|---|
| 1987 | 58.1 | 39.3 | 2.7 |
| 1988 | 59.8 | 38.5 | 1.7 |
| 1989 | 59.7 | 38.5 | 1.8 |
| 1990 | 59.2 | 39.0 | 1.8 |
| 1991 | 58.7 | 38.8 | 2.5 |
| 1992 | 59.8 | 38.2 | 2.0 |
| 1993 | 57.5 | 40.7 | 1.7 |
| 1994 | 61.2 | 36.9 | 1.9 |
| 1995 | 57.4 | 40.2 | 2.5 |
| 1996 | 59.2 | 38.6 | 2.1 |
| 1997 | 57.6 | 40.3 | 2.0 |
| 1998 | 57.3 | 40.6 | 2.1 |
| 1999 | 59.8 | 38.0 | 2.2 |
| 2000 | 58.7 | 40.1 | 1.3 |
| 2001 | 58.7 | 39.2 | 2.1 |
| 2002 | 59.4 | 39.1 | 1.5 |
| 2003 | 60.8 | 36.7 | 2.5 |

[1] The cause of death was defined using the International Classification of Diseases, Eight Revison (ICD-8) code 180 for the years 1975 to 1978, the International Classification of Diseases, Ninth Revision (ICD-9) code 180 for the years 1979 to 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) code C53 from 2001 onwards.

[2] Figures are based on deaths registered in each calendar year from 1975 to 1992, and on deaths occurring in each calendar year from 1993 onwards.

### Correspondence

**Mr. Donohoe:** To ask the Chancellor of the Exchequer when he expects to reply to the letter of 9 February from the hon. Member for Central Ayrshire, regarding the proposal for an African twin-town with Ayrshire. [9956]

**John Healey:** There is no record of this letter being received in the Treasury but a copy has been requested and a reply will be sent as soon as possible.

### Council Tax

**Mrs. Spelman:** To ask the Chancellor of the Exchequer whether the Valuation Office Agency uses computer assisted mass appraisal for valuations of residential properties when they are sold. [9549]

**Dawn Primarolo:** As set out in the VGA's press notice of 10 September 2004, computer assisted mass appraisal will be used for the first time, to assist in the revaluation of domestic properties in England that will come into effect on 1 April 2007.

### Currency

**Mr. Greg Knight:** To ask the Chancellor of the Exchequer how many £5 *(a)* coins and *(b)* notes are in circulation. [8715]

**Mr. Ivan Lewis:** The value and number of £5 Bank of England banknotes in circulation on 22 June 2005 was £1,035,162,405 and 207,032,481, respectively.

As for £5 coins, these are issued only to commemorate special occasions of national importance and are not intended to be used in general circulation. Rather they are something which people wish to keep as souvenirs to mark a special occasion.

### Government Bonds

**Chris Huhne:** To ask the Chancellor of the Exchequer what the average interest rate yield on 10-year Government bonds in the UK was in each year for each of the last 10 years. [9990]

**Mr. Ivan Lewis:** The following table sets out the average yield on 10-year nominal UK Government bonds ("gilts") for each calendar year between 1994 and 2004.

*Percentage*

| | *Average yield on 10-year maturity gilts* |
|---|---|
| 1994 | 8.0 |
| 1995 | 8.2 |
| 1996 | 7.8 |
| 1997 | 7.0 |
| 1998 | 5.5 |
| 1999 | 5.0 |
| 2000 | 5.3 |
| 2001 | 4.9 |
| 2002 | 4.9 |
| 2003 | 4.5 |
| 2004 | 4.9 |

It is misleading to consider debt-servicing costs based on 10-year nominal gilts only, because this would not take account of the range of maturities and yields at which Governments issue bonds.

### Government Debt

**Chris Huhne:** To ask the Chancellor of the Exchequer what steps he is taking to reduce the level of long-term interest rates paid by the Government on their debt with a maturity of 10 years or more. [9892]

**Mr. Ivan Lewis:** The Government's primary policy objective for managing Government debt is to minimise over the long-term the costs of meeting the Government's financing needs, taking into account risk, while ensuring that debt management policy is consistent with the aims of monetary policy. The Government's debt management policy is set out more fully in the Debt and Reserves Management Report 2005–06. The principles underpinning this policy are set out in the Code for Fiscal Stability.

### Income Tax

**Mr. Andrew Turner:** To ask the Chancellor of the Exchequer what level of standard rate of income tax he estimates would be required, assuming no other changes to behaviour, to recoup the revenue lost from *(a)* abolition of the lower rate of income tax and *(b)* plus raising the threshold to (i) £10,000 and (ii) £15,000. [9815]

**Dawn Primarolo:** The information for 2005–06 is given in the following table.

| Personal allowance (£) | Basic rate and higher rate required for approximate tax neutrality: Basic rate | Higher rate |
|---|---|---|
| 10,000 | 31 | [1]40 |
| 15,000 | 46 | [1]40 |
| 15,000 | 44 | [2]44 |

[1] This is the current higher tax rate.
[2] This costing assumes a flat (basic and higher) tax rate.

Estimates are based on the 2002–03 Survey of Personal Incomes projected forward in line with Budget 2005 assumptions.

The figures exclude any estimate of behavioural response, which could be significant given the scale of the changes.

These estimates have been obtained after increasing all personal allowances (i.e. the personal allowances and personal allowances for individuals aged 65 and above) to either £10,000 or £15,000.

These estimates assume abolishing the 10 per cent, starting rate of income tax only. This means no changes to basic rates in savings income and on dividends.

The costing also assumes the basic rate band has been extended to include the starting rate band.

### Insurance

**Miss McIntosh:** To ask the Chancellor of the Exchequer if he will make representations to *(a)* the Association of British Insurers and *(b)* the wider insurance industry to ensure that (i) all domestic and commercial properties remain eligible for insurance policies and (ii) the excess on insurance is not put at a level that is out of the reach of householders and businesses. [9909]

**Mr. Ivan Lewis:** The Government have regular discussions with the Association of British Insurers and the insurance industry on these issues. However, the availability and pricing of insurance is a matter for insurance companies themselves.

### Nervous System Diseases

**Mr. Flello:** To ask the Chancellor of the Exchequer what the incidence of *(a)* brain tumours, *(b)* other cancers, *(c)* Parkinson's disease and *(d)* other diseases of the nervous system per 1,000 of the population was in (i) England and (ii) the ST3 postcode area in the last period for which figures are available. [9954]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Colin Mowl to Mr. Robert Flello, dated 5 July 2005:*

The National Statistician has been asked to reply to your recent question concerning the incidence of *(a)* brain tumours, *(b)* other cancers, *(c)* Parkinson's disease and *(d)* other diseases of the nervous system per 1,000 population in (i) England and (ii) the ST3 postcode area in the last period for which figures are available. I am replying in his absence. [9954]

The most recent available figures on newly diagnosed cases of cancer are for the year 2002. The number and rates of newly diagnosed cases of brain cancer and other cancers were published in "Cancer registrations in England, 2002". This publication shows the age-standardised incidence rates (directly standardised to the European standard population). For brain cancer these were 7.8 in males and 5.2 in females, per 100,000 population in England. The age-standardised incidence rates for other malignant cancers (excluding brain and non-melanoma skin cancer) were 385.7 in males and 326.0 in females, per 100,000 population in England.

Cancer incidence figures for the postcode sector ST3 can not be provided because of the risk to patient confidentially. The smallest areas for which cancer incidence figures are provided is primary care trusts. However, figures for brain cancer are not routinely available at this geographic level.

Rates of first diagnosis of Parkinsons disease in the fourth national study of Morbidity Statistics from General Practice, which covered England and Wales, were 36 per 100,000 population. Figures are not available from this study for smaller areas.

There is no information available centrally on the incidence of other diseases of the nervous system.

### Powered Wheelchairs (Insurance)

**Mr. Oaten:** To ask the Chancellor of the Exchequer if he will make it his policy to allow electric powered wheelchair dealers to sell insurance policies. [9436]

**Mr. Ivan Lewis** *[holding answer 4 July 2005]:* Dealers of electric powered wheelchairs are currently free to sell insurance policies, subject to the requirement that they be authorised to do so by the Financial Services Authority.

### Public Borrowing

**Mr. George Osborne:** To ask the Chancellor of the Exchequer what he predicts the golden rule measure of net borrowing will be over the *(a)* current and *(b)* next economic cycle. [9850]

**Mr. Ivan Lewis:** The latest assessment of progress against the golden rule is set out in the financial statement and Budget report 2005 (HC 372).

### Road Pricing

**Tom Brake:** To ask the Chancellor of the Exchequer (1) if he will make a statement on his policy on lorry road user charging; [5183]

(2) if he will make a statement on the progress of the lorry road user charging scheme; and what the timetable is for the implementation of the scheme. [5256]

**John Healey:** Our work on the LRUC has strengthened the Government's view that distance-based charging for using the UK's roads is technically achievable. In particular, our "proof of solution" work with prospective suppliers has enabled us to see the technology in action, and is confirming our expectations of its ability to deliver a distance-based charge.

Now that we are taking forward work on a national system of road pricing, so it is right for us to take forward the plans for distance based lorry charging as part of the wider work on national road pricing—to work for a single comprehensive, cost-effective system.

So although the current procurement for lorry road user charging will not continue, we will continue to work with industry and ensure that we carry the full

experience gained from the project into the wider work to develop a national road pricing system for cars and lorries.

And we will continue to work with the haulage industry to ensure that its needs are represented as we develop a national road pricing system.

### Smoking

**Mr. Sheerman:** To ask the Chancellor of the Exchequer what research he has evaluated on the cost to the economy of *(a)* loss of workforce through smoking-related illness and *(b)* loss of working hours through smoking breaks. [5639]

**Caroline Flint:** I have been asked to reply.

In view of the health risk from smoking, our policy is to prevent uptake of the habit and to assist smokers to stop. We evaluate impacts, on the economy in general and employers in particular, in the context of specific policies. On Monday 20 June, we launched a consultation on the smoke free elements of the Health Improvement and Protection Bill. Alongside the consultation, we published a partial regulatory impact assessment on smoke free enclosed public places and workplaces. This contains estimates of the costs and benefits, including the impact of smoking and smoking breaks on the economy. A copy is available in the Library.

### State Pensions

**Mr. Austin Mitchell:** To ask the Chancellor of the Exchequer if he will exempt state pensions from income tax and national insurance contributions. [9403]

**Mr. Ivan Lewis:** State pensions are not subject to national insurance contributions. Successive Governments have believed that a pension, whether State or occupational, is a form of income like earnings and as such should be taxable, subject to any age related personal allowances.

While state pensions are subject to income tax, the age related personal allowances for people aged 65 and over mean that in 2005–06 no pensioner aged 65 or over will be required to pay tax on income of less than £136 a week in 2005–06, considerably more than the basic state pension of £82.05.

This means that around half of all pensioners do not pay income tax. Exempting the state pension from income tax would therefore only benefit the better off pensioners; the Government instead continues to focus resources on the poorest pensioners.

### Tax Credits/Models

**Mr. Laws:** To ask the Chancellor of the Exchequer what plans he has to contact recipients of tax credits who have had overpayments recovered prior to June to notify them of the rights of appeal under Code of Practice 26; and if he will make a statement. [9247]

**Dawn Primarolo:** Where a claimant's tax credit award is revised, following a change of circumstances, they are sent a revised award notice. Where entitlement has been reduced, the guidance notes sent out at the same time as the award notice, bring to the attention of the claimant HMRC's Code of Practice COP 26 "What happens if we have paid you too much tax credit?".

**Mr. Austin Mitchell:** To ask the Chancellor of the Exchequer which models used by other countries to estimate the tax gap his Department has studied. [9404]

**Dawn Primarolo:** HMRC has studied models used by Australia, Canada, France, Holland, Japan, New Zealand, Sweden and the United States.

The models used by other countries to estimate the tax gap split into two main types—models based on the results of enquiries, and models based on the results of surveys. HMRC is studying the use of both these types of models.

## CULTURE, MEDIA AND SPORT

### Official Visits

**Mrs. Riordan:** To ask the Secretary of State for Culture, Media and Sport if the Minister for Sport will make an official visit to Halifax. [9320]

**Mr. Caborn:** I regularly make regional visits but at the moment have no current plans to visit Halifax.

### Olympics 2012

**Hugh Robertson:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the progress of plans for the new *(a)* aquatic centre, *(b)* velopark and *(c)* hockey pitches identified in the London 2012 bid; who will finance these facilities; and when they are expected to be completed. [9148]

**Mr. Lammy** *[holding answer 4 July 2005]:* Should London win the right to host the 2012 games we are planning to complete all the Olympic facilities well in advance of 2012. All the facilities will be funded from the public sector funding package for the games. Should London be unsuccessful we have committed to building an aquatics centre, velopark and hockey pitches in East London. These facilities will be funded from a combination of sources including Sport England and the London Development Agency.

**Hugh Robertson:** To ask the Secretary of State for Culture, Media and Sport what the budget was for the promotion of the London 2012 bid; and how much of that budget has been spent. [9149]

**Mr. Lammy** *[holding answer 4 July 2005]:* The Government budget for supporting the London Olympic bid was £10 million, financed in equal part by my Department and the London Development Agency (LDA). This budget has been fully committed. In addition, my Department and the LDA have contributed up to £20 million to the budget of the Bid company London 2012.

**Hugh Robertson:** To ask the Secretary of State for Culture, Media and Sport what discussions *(a)* she and *(b)* other Ministers in her Department have had with the Treasury concerning the tax take on the proposed Olympic lottery game. [9150]

**Mr. Lammy** *[holding answer 4 July 2005]:* DCMS Ministers regularly discuss a wide range of business with colleagues at the Treasury. However, no such discussions have been held on the taxation of the proposed Olympic lottery games as tax policy is a matter for the Chancellor and is considered as part of the Budget process.

## Places of Worship (VAT)

**Lady Hermon:** To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 28 June 2005, *Official Report*, column 1431W, which listed places of worship in Northern Ireland have received grants covering the full amount of VAT paid on eligible works. [9114]

**Mr. Lammy:** There are 57 listed places of worship in Northern Ireland that have received grants covering the full amount of VAT paid on eligible works since the scheme was extended in April 2004. They are as follows:

| *Church* | *Address* | *Grant received (£)* |
|---|---|---|
| Presbyterian Church | Ebrington, Londonderry | 3,743.76 |
| St. Peters Cathedral | St. Peters Square, Belfast | 10,384.22 |
| St. Pauls Parish Church | Parish of Errigal, Main Street, Garvagh | 3,292.42 |
| St. Marys Church | Craigavole, Garvagh, Co. Londonderry | 14,620.66 |
| Dunluce Presbyterian Church | Priestland Road, Walk Mill, Bushmills | 628.61 |
| First Presbyterian Church | Meeting House St., Ballymoney | 32,679.50 |
| St. Johns Church | Bentra Road, Ballycarry, Larne, Carrickfergus | 2,008.98 |
| The Old Presbyterian Church | Meeting House Street, Larne, Co. Antrim | 305.28 |
| St. Saviours Church | Church Street, Connor, Ballymena, Co. Antrim | 1,628.73 |
| Moravian Church | 25 Church Road, Gracehill, Co. Antrim | 303.20 |
| Parish Church | The Square, Pomeroy, Dungannon, Co. Tyrone | 2,145.36 |
| Holy Trinity/Garvary Parish Church | Tempo Road, Garvary, Enniskillen, Co. Fermanagh | 261.09 |
| Inishmacsaint Parish Church | Binmore Glebe, Derrygonnelly, Enniskillen | 3,814.07 |
| Ardess | Kesh, Co. Fermanagh | 304.90 |
| Parish Church of Magheracross | Main St., Ballinamallard, Co. Fermanagh | 7,362.92 |
| Clonfeacle Parish Church of St. Patrick | Main St., Benburb, Co. Tyrone | 595.00 |
| St. Michaels Church | Castlecaulfield, Dungannon, Co. Tyrone | 10,663.36 |
| Armagh Road Presbyterian Church | Church St., Armagh Road, Portadown, Co. Armagh | 1,225.00 |
| Christ Church | Church Place, Lurgan, Craigavon, Co. Armagh | 2,927.16 |
| St. Francis Church | Burnt Island, Moss Road, Loughgall, Co. Armagh | 9,927.43 |
| Ballymore Parish Church | Church St., Tandragee, Co. Armagh | 459.13 |
| St. Mochlia | Derrynoose Road, Derrynoose, Co. Armagh | 29,631.13 |
| Presbyterian Church | Church Street, Middletown, Co. Armagh | 3,276.64 |
| St. Marks Church | The Mall East, Armagh, Co. Armagh | 793.75 |
| Mullartown House | 159 Glassdrumman Rd., Annalong, Newry | 2,941.68 |
| St. Patricks Church | Stream Street, Newry, Co. Down | 1,286.66 |
| Donaghmore Parish Church | 11 Donaghmore Road, Donaghmore, Newry | 1,316.65 |
| Ryans Presbyterian Church | Old Meury Road, Rathfriland, Co. Down | 8,851.81 |
| Presbyterian Church | Scarva St., Banbridge, Co. Down | 925.93 |
| St. Patricks | Saul Brae, Downpatrick, Co. Down | 3,625.00 |
| St. Malachys Church | 121 Dublin Road, Kilcod, Co. Down | 58,340.00 |
| Presbyterian Church | Stream St., Downpatrick, Co. Down | 5,093.10 |
| Hollymount Church | Drumcullen Road, Downpatrick, Co. Down | 6,324.43 |
| Ballinderry Presbyterian Church | Meetinghouse Street, Larne, Co. Antrim | 224.11 |
| St. Johns Church | St. John's Road, The Parish of Upper and Lower Kilwadun | 22,833.08 |
| First Lisburn Presbyterian Church | Market Square, Lisburn, Co. Antrim | 1,012.63 |
| Holy Trinity Church | Drumbo, Ballylesson, Lisburn, Co. Down | 29,859.38 |
| Drummaul Parish Church | Church Road, Randalstown, Co. Antrim | 7,257.61 |
| First Donegore | Presbyterian Church, Main Street, Parkgate, Co. Antrim | 3,658.92 |
| Killead Parish Church | Crumlin Road, Aldergrove, Co. Antrim | 10,881.21 |
| Church of St. Patricks | 113 Jordanstown Road, Newtown Abbey, Co. Antrim | 468.65 |
| St. Patricks Church | Victoria Avenue, Whitehead, Carrickfergus, Co. Antrim | 22,999.85 |
| Congregational Church | Albert Road, Carrickfergus, Co. Antrim | 2,780.94 |
| Parish Church | Donaghadee road, Groomsport, Co. Down | 353.23 |
| First Presbyterian Church | High St., Holywood, Co. Down | 1,686.69 |
| Balligan Church of St. Andrew | Balligan, Kircubbin, Newtownards, Co. Down | 10,515.25 |
| St. Patricks Church | Upper North St., Newtownards, Co. Down | 64,359.50 |
| St. Marks Parish Church | Church St., Newtownards, Co. Down | 2,064.28 |
| Fisherwick Presbyterian Church | 4 Chlorine Gardens, Belfast | 17,737.92 |
| McCracken Memorial Presbyterian Church | 161 Malone Road, Belfast | 2,374.13 |
| Crescent Church | University Road, Belfast | 385.00 |
| St. Thomas Church | Eglantine Avenue, Lisburn Road, Belfast | 472.88 |
| St. Aidans Church of Ireland | Blythe St., Belfast | 647.50 |
| St. Peters Cathedral | St. Peter's Square North, Belfast | 209,438.62 |
| St. Marys Church of Ireland | The Passionists, Crumlin Road, Belfast | 30,191.25 |
| Holy Cross Church of Ireland | Crumlin Road, Belfast | 53,889.10 |
| Fortwilliam Park Presbyterian Church | 557 Antrim Road, Belfast | 2,465.00 |

### Running Tracks

**Mrs. Riordan:** To ask the Secretary of State for Culture, Media and Sport which metropolitan borough councils have running tracks with associated changing facilities. [9305]

**Mr. Lammy:** There are 81 athletics tracks in the following 34 metropolitan borough councils: Barnsley, Birmingham, Bolton, Bradford, Bury, Coventry, Doncaster, Dudley, Gateshead, Kirklees, Knowsley, Leeds, Liverpool, Manchester, Newcastle upon Tyne, North Tyneside, Oldham, Rochdale, Rotherham, Salford, Sandwell, Sefton, Sheffield, Solihull, South Tyneside, St. Helens, Stockport, Tameside, Trafford, Wakefield, Walsall, Wigan, Wirral, Wolverhampton.

We do not hold details of whether the athletics tracks have associated changing facilities.

## TRADE AND INDUSTRY

### Consultancy Companies (Regulation)

**Mrs. Dean:** To ask the Secretary of State for Trade and Industry if he will take steps to establish a regulatory body for consultancy companies. [5773]

**Alan Johnson:** It is not fully clear to what my hon. Friend refers. If she would like to write to me with further details I will consider the points she raises.

### Economic Partnership Agreements

**Mr. Marsden:** To ask the Secretary of State for Trade and Industry if he will seek to strengthen the European Commission's negotiating mandate on Economic Partnership Agreements as part of the UK presidency of the EU to ensure that countries are not subject to forced liberalisation of trade. [9179]

**Ian Pearson:** The Government do not believe that any changes to the European Commission's negotiating mandate are required. The Government stated in their EPA position paper published in March that

> "we will not force trade liberalisation on developing countries either through trade negotiations or aid conditionally"

and we will continue to work closely with the Commission and other member states to realise this.

### Employment Agency Standards Inspectorate

**Danny Alexander:** To ask the Secretary of State for Trade and Industry if he will list *(a)* the budget and *(b)* staffing levels of the Employment Agency Standards Inspectorate for the (i) 2002–03, (ii) 2003–04 and (iii) 2004–05 financial years. [8781]

**Mr. Sutcliffe:** The budget expenditure and staffing complement of the Employment Agency Standards (EAS) Inspectorate for the financial years 2002–03, 2003–04 and 2004–05 are as follows:

*£000*

| | *(b) EAS Inspectorate* | *(a) Budget expenditure* |
|---|---|---|
| (i) 2002–03 | 12 regionally based Inspectors<br>3 Managers also with inspection powers<br>5 Helpline staff (to receive complaints, advise and answer worker and agency questions) | 659,000 |
| (ii) 2003–04 | 12 regionally based Inspectors<br>3 Managers also with inspection powers<br>4 Helpline staff (to receive complaints, advise and answer worker and agency questions) | 581,000 |
| (iii) 2004–05 | 12 regionally based Inspectors<br>3 Managers also with inspection powers<br>4 Helpline staff (to receive complaints, advise and answer worker and agency questions) | 566,000 |

### Energy Strategy

**Mr. Soames:** To ask the Secretary of State for Trade and Industry what the aims and objectives of the Government's energy policy are. [9390]

**Malcolm Wicks** *[holding answer 4 July 2005]:* The aims and objectives of energy policy were set out in the Government's Energy White Paper, "Our Energy Future—creating a low carbon economy" in 2003. In particular, it set out the four goals of energy policy:

> To put ourselves on a path to cut the UK's carbon dioxide emissions by some 60 per cent. by about 2050, with real progress by 2020;
>
> To maintain the reliability of energy supplies;
>
> To promote competitive markets in the UK and beyond, helping to raise the rate of sustainable economic growth and to improve our productivity;
>
> To ensure that every home is adequately and affordably heated.

### EU Legislation (Compliance)

**Mr. Jim Cunningham:** To ask the Secretary of State for Trade and Industry what support his Department will give to the development of a working partnership between developers, investors and the commercial sector to encourage their compliance with EU legislation. [625]

**Ian Pearson:** It is not fully clear to what my hon. Friend refers. If he would like to write to me with further details I will consider the points he raises.

### Methane Gas

**Mr. Rob Wilson:** To ask the Secretary of State for Trade and Industry what research he has commissioned into the viability of using methane gas to generate electricity. [5412]

**Alan Johnson:** It is not fully clear to what the hon. Member refers. If he would like to write to me with further details I will consider the points he raises.

### Research, Technology and Development

**Mr. Soames:** To ask the Secretary of State for Trade and Industry what steps he is taking to encourage industry to invest in research, technology and development. [9389]

**Malcolm Wicks** *[holding answer 4 July 2005]:* The Government have made clear their long-term ambition of raising R&D intensity in the UK from its current level of 1.9 per cent. of national income to 2.5 per cent. by 2014. To support business investment in research, technology and development, the DTI provides a range of solutions that offer practical support and encouragement to industry at different stages of the innovation process.

DTI established a business-led Technology Strategy Board in October 2004 to develop a national technology strategy to take a more strategic market-led approach to Government support for new and emerging technologies crucial to innovation.

The Board has oversight of the £370 million technology programme that provides grant funding for business-led projects. Over the period 2005–08, £320 million of DTI funding is available to businesses in the form of grants to support collaborative research and development in technology areas identified as critical to the growth of the UK economy. A further £50 million contribution has been agreed by DEFRA.

All businesses can take advantage of a range of business support products designed to help the transfer of knowledge from the research base to industry—collaborative R&D Grants and Knowledge Transfer Networks, through the technology programme, and knowledge transfer partnerships, that provide support for business R&D in kind.

Additional solutions for small businesses include the Grant for R&D, which provides grants to help individuals and small and medium-sized businesses research and develop technologically innovative products and processes.

Companies carrying out more than a minimum level of eligible R&D can claim R&D tax credits that are particularly generous for small firms and include a repayable element.

The DTI also supports UK businesses and HEIs as active participants in EU framework programmes.

In addition to these direct investment and incentives, a range of other policies influence overall R&D expenditure. For example UKTI efforts to secure inward investment, public procurement, regulation, innovation infrastructure including intellectual property, skills and standards, and national and regional activities to support enterprise and business growth more generally, such as the work of Business Links.

### Weights and Measures Directive

**Mrs. Spelman:** To ask the Secretary of State for Trade and Industry what guidance the Government have given local authority trading standards departments regarding enforcement of the Weights and Measures Directive. [7509]

**Mr. Sutcliffe:** There are a number of directives dealing with weights and measures including directives 75/106/EEC and 76/21 I/EEC which cover the average system of quantity control and quantity labelling for packaged goods.

Guidance for inspectors, who have the responsibility of enforcing the regulations made under these directives was issued in 1979. There is no other guidance specifically for local authority trading standards departments on weights and measures.

Guidance is however issued on new regulations, including weights and measures regulations, to assist all who are affected.

## TRANSPORT

### Air Services/Travellers

**John Smith:** To ask the Secretary of State for Transport if he will issue guidelines to airline companies on levels of salt in in-flight meals. [6807]

**Caroline Flint:** I have been asked to reply.

The Food Standards Agency, in consultation with the Department and stakeholders, is in the process of setting target levels for salt in key product categories that contribute most to intakes. It is anticipated that all sectors of the food industry, including caterers, will work to meet these targets. We will ensure that suppliers of meals to airline passengers are included in this initiative and that airline companies are aware.

All adult consumers are advised to eat a balanced diet, but specific advice has not been issued to airline passengers about the salt content of in-flight meals.

I have not received any representations on the impact of in-flight meals on the health of passengers and have no plans to undertake a survey of such meals.

**Dr. Cable:** To ask the Secretary of State for Transport (1) what assessment he has made of consumers' understanding of financial protection schemes for air travellers; and if he will make a statement; [8396]

(2) what assessment he has made of changes in the number of UK consumers buying unprotected air travel; and what steps he is taking to address the problem. [8398]

**Ms Buck:** I am advised by the Civil Aviation Authority that 66 per cent. of UK leisure air travellers are protected by the ATOL scheme compared to 98 per cent. in 1997, although some travellers are protected in other ways e.g. insurance or credit card purchasing. We are currently considering a range of options to address this situation.

### British Transport Police

**James Brokenshire:** To ask the Secretary of State for Transport what the pension and other benefits packages offered to new British Transport Police constables are in London. [8702]

**Derek Twigg:** New police constables to London and to any other location within the British Transport Police (BTP) are entitled to join the BTP Superannuation

Fund upon commencement of service. The Fund is a contributory final salary scheme and provides benefits at early or normal retirement dates depending upon eligibility within the scheme rules.

The main terms and conditions of service package for BTP covering pay, allowances, sickness and leave mirror those in Police Regulations for Home Department Forces.

BTP officers serving London are also entitled to:

London weighting: £1,938 p.a.

London allowance: £4,338 p.a.

They are further entitled to free or reduced rate rail travel facilities for work to home purposes only, in accordance with the current regulations.

### Crossrail

**Andrew Rosindell:** To ask the Secretary of State for Transport what account has been taken of the likely effects on the *(a)* incremental net present value and *(b)* cost benefit ratio of the Crossrail plan if the planned additional trains services from Stansted and Hertford East stations do not proceed. [7495]

**Derek Twigg:** Cross London Rail Links have not carried out a separate cost-benefit analysis of the additional Lea Valley services into Liverpool Street.

**Andrew Rosindell:** To ask the Secretary of State for Transport which part of the Crossrail network will become operational first. [8540]

**Derek Twigg:** Based on the currently proposed programme, Crossrail trains will initially replace those operating the existing service between Shenfield and Liverpool Street. The first part of the new Crossrail infrastructure that trains will operate over is the section between Farringdon and the Isle of Dogs.

**Andrew Rosindell:** To ask the Secretary of State for Transport whether the walkway in Romford know as Nursery Walk will remain open during construction of Crossrail. [8558]

**Derek Twigg:** The northern section of Nursery Walk passes in subway beneath the Great Eastern Main Line railway tracks. This section will be subject to occasional closures over a period of up to two years while Crossrail extends the subway beneath new tracks in the proposed Romford Depot.

**Mr. Michael Foster:** To ask the Secretary of State for Transport what assessment he has made of the impact of Crossrail on the Cotswold Line service from Paddington to Worcester; and if he will make a statement. [8972]

**Derek Twigg:** During normal operations on the Great Western Main Line into Paddington, Crossrail will operate on the northern pair of tracks, known as the relief lines. This will not affect the southern pair of lines, known as the main lines, on which services to Worcester operate, as there is no intention of displacing existing traffic from the relief to the main lines.

### Cycling

**Jeremy Wright:** To ask the Secretary of State for Transport what measures the Government are taking to encourage cycling. [8693]

**Derek Twigg:** The Walking and Cycling Action Plan published in June 2004 detailed more than over 40 initiatives from across Government to encourage walking and cycling through provision of improved facilities, training and promotion. The main DfT initiatives on cycling include:

1. £10 million investment in a "Links to Schools" programme of new routes from schools and residential areas to the National Cycle Network benefiting over 300 schools.

2. Funding for improved bike parking at over 130 rail stations previously identified in a survey as not having capacity to meet demand.

3. The development and roll-out of a new National Standard for child cycle training in co-operation with 20 road safety and cycling groups.

4. Improved training and technical guidance to local authority and other practitioners on the design of cycling infrastructure.

Local spend on cycle facilities through the Local Transport Plan system has increased from £29.5 million in 2001–02 to a projected £46 million in 2005–06, while Transport for London is projecting a spend of £19 million on cycling in London in 2005–06.

We also created in March this year a new body, "Cycling England", to plan and co-ordinate the development of cycling across the country. Cycling England will have a budget of at least £5 million a year for the next three years to allocate to cycling programmes. I expect its work plan to be published soon.

### Network Rail

**Dr. Pugh:** To ask the Secretary of State for Transport which projects originally intended to be *(a)* completed and *(b)* commenced by Network Rail in the financial year 2004–05 have been deferred. [3985]

**Derek Twigg:** A number of projects were deferred by Network Rail in 2004–05 but the company expects all outputs to be delivered over the five year period to 2008–09. Network Rail's funding and delivery of outputs for the five year period from 2004–05 to 2008–09 were set by the Office of Rail Regulation (ORR) in its Final Conclusions to the Access Charges Review 2003.

### Railways

**Mr. Burstow:** To ask the Secretary of State for Transport what the results of the *(a)* autumn 2004 and *(b)* autumn 2003 count were showing what the (i) passenger in excess of capacity and (ii) total number of passengers figures were (A) for each train operator providing commuter services into London and (B) in total, broken down into am peak and pm peak and (iii) the change between years. [8083]

**Derek Twigg:** The Strategic Rail Authority publishes the results of the autumn Passengers in Excess of Capacity counts for individual London train operators, in its National Rail Trends Yearbook. A copy of this document has been placed in the Library of the House.

**Alistair Burt:** To ask the Secretary of State for Transport (1) what representations he has received following the recent publication of the report from the Association of Train Operating Companies advocating rail peak pricing; and if he will make a statement; [7883]

(2) whether he plans to introduce further rail peak pricing. [7977]

**Derek Twigg:** My right hon. Friend the Secretary of State made it clear that pricing people off the railway is not the answer to capacity issues. There are no plans to introduce further rail peak pricing. The Department for Transport has to date received five representations from members of the public, following the publication of ATOC's report.

**Mr. Hollobone:** To ask the Secretary of State for Transport when he expects to announce the final decision on the reopening of the Kettering-Corby railway line to regular passenger traffic; and what the timetable is for the assessment of the project before then. [9335]

**Derek Twigg** *[holding answer 4 July 2005]:* Work is currently in hand to establish the costs and feasibility of providing a direct passenger service between Corby and London. If the outcome of this work demonstrates that such a service is feasible, the next Midland Main Line franchise specification will include a costed option for a Corby-London service to be introduced at some point during the life of the next franchise which is currently due to commence in 2008.

When the bids for the franchise are received, the Secretary Of State will need to determine whether the proposed service gives value for money and is affordable before deciding when or whether a service will be introduced.

**John Hemming:** To ask the Secretary of State for Transport for what reason the new platforms at Moor Street station are not being used; and when they will brought into use. [7736]

**Derek Twigg:** Network Rail decided at an early stage in the refurbishment of Moor Street station that economies could be found by linking the re-opening of the two terminal platforms with the longer term proposal of the major Saltley area re-signalling project. Network Rail's decision was endorsed by both the Strategic Rail Authority and Chiltern Railways.

Network Rail and Chiltern Railways have worked closely to accelerate the opening of platforms 3 and 4 prior to Saltley re-signalling, and currently the timing for their re-opening is in late 2006. This date is subject to the creation of a robust construction timetable and completion of the legal processes to allow the terminal platforms to be re-connected with the network.

**Bob Spink:** To ask the Secretary of State for Transport what improvements to Pitsea Station on the c2c line are planned; and what the timescale is. [9275]

**Derek Twigg:** Improvements are being made by c2c. These include a new booking hall with automatic sliding door access; a new waiting room, toilets and retail unit; installation of CCTV and automatic ticket gates; replacement of fencing and paving; and installation of night security gates. Work began on 21 February and is scheduled for completion by autumn 2005.

**Tom Brake:** To ask the Secretary of State for Transport what discussions his Department has had with Network Rail on ensuring that necessary engineering work is carried out to enable commuter trains to use the platforms at Waterloo station which will be vacated by Eurostar in 2007; and if he will make a statement. [8217]

**Derek Twigg:** The Strategic Rail Authority has led a study for the Department into the future uses of Waterloo International after Eurostar vacate the station. Discussions with Network Rail on various matters, including engineering works, took place during the course of the study.

**Sarah Teather:** To ask the Secretary of State for Transport how many deaths there were on railway lines in London in each year since 1997. [8394]

**Derek Twigg:** The Health and Safety Executive (HSE) is only able to provide the following data for the number of fatalities on the railway in London from 1 April 2002 onwards. Prior to this date, rail fatality data was not broken down by region.

*Railway fatality data for London[1] from 1 April 2002 to 31 December 2004*

| | *Total fatalities* |
|---|---|
| 2002–03 | 78 |
| 2003–04 | 70 |
| 2004[2] | 40 |

[1] Data covers London Underground, Croydon Tramlink and Serco Docklands Light Railway, as well as the mainline railway network.

[2] These figures cover only the nine months April to December 2004, following a change from financial year to calendar year reporting.

**Mr. Hancock:** To ask the Secretary of State for Transport what the timetable is for the South West Trains franchise renewal; and if he will make a statement. [8609]

**Derek Twigg:** The South Western franchise will comprise the existing franchises of South West Trains and Island Line. The new franchise is planned to commence in February 2007 on expiry of the existing South West Trains and Island Line contracts.

**Bob Spink:** To ask the Secretary of State for Transport what recent discussions his Department has had with the Association of Train Operating Companies on overcrowding *(a)* in the south-east and *(b)* on the c2c line. [9280]

**Derek Twigg:** The Department for Transport has recently held discussions with Association of Train Operating Companies about crowding in future years in response to potential growth as a result of the Thames Gateway initiative. There have been no recent discussions on crowding on the c2c line.

**Bob Spink:** To ask the Secretary of State for Transport pursuant to the answer of 28 June 2005, *Official Report*, column 1418W, on railways, if he will take steps to change the limits prescribed to control overcrowding to increase passenger capacity for those travelling for over 40 minutes on the c2c line. [9290]

**Derek Twigg:** The limits are the "Passengers in Excess of Capacity" (PiXC) limits and there are currently no plans to change them.

### Trams and Guided Buses

**Gregory Barker:** To ask the Secretary of State for Transport if he will list the *(a)* tram and *(b)* guided bus systems that have been opened in each year since 1997. [8445]

**Derek Twigg:** The information is as follows.

*Schemes opened since 1997*

| *Light rail schemes* | |
|---|---|
| Midland Metro | 1999 |
| Docklands Light Railway (DLR) Lewisham extension | 1999 |
| Croydon Tramlink | 2000 |
| Manchester Metrolink Phase II (to Eccles) | 2000 |
| Tyne and Wear Metro Sunderland extension | 2002 |
| Nottingham Express Transit | 2004 |
| *Guided bus schemes* | |
| Leeds-East Leeds Quality Bus Initiative | 2001 |
| Bradford-Manchester Road Quality Bus Initiative | 2001 |
| Crawley Fastway: | |
| Phase 1 | 2003 |
| Phase 2 | 2004 |

## WALES

### Computer Crime

**Mr. Burstow:** To ask the Secretary of State for Wales how many cases of computer *(a)* hacking, *(b)* fraud and *(c)* theft his Department recorded in each year since 2001–02; and for each year, on how many occasions computer systems have been illegally accessed by computer hackers (i) within and (ii) outside his Department. [7184]

**Mr. Hain:** During this period, there have been no recorded cases of computer hacking, fraud or theft.

There have been no recorded cases of computer systems being illegally accessed by computer hackers within or outside the Department.

### Consultants

**Mrs. Dean:** To ask the Secretary of State for Wales what plans he has to issue guidance on effective commissioning for those in the public and voluntary sectors who are commissioning work from external consultants. [7025]

**Mr. Hain:** The Wales Office has no plans to issue guidance on effective commissioning for public and voluntary sectors who are commissioning work from external consultants.

The Office of Government Commerce offers best practice advice to the public and voluntary sector through its web-based product, the Successful Delivery Toolkit.

### Council Tax Revaluation

**Mrs. Spelman:** To ask the Secretary of State for Wales whether transitional relief in the council tax revaluation in Wales was subsidised by central Government. [7437]

**Mr. Hain:** Following revaluation and re-banding of domestic properties in Wales, the Welsh Assembly Government have introduced a transitional relief scheme to ensure that no household's council tax bill will rise by more than one band in each of the first three years. This will be funded by the Welsh Assembly from within their departmental expenditure limit and has not been subsidised by central Government.

### M4 (Opening Dates)

**Bill Wiggin:** To ask the Secretary of State for Wales if he will list the opening dates of sections of the M4 in Wales since 1975; and if he will list the opening dates of sections of the *(a)* A55 and *(b)* A470 in Wales between 1975 and 1998. [6688]

**Mr. Hain:** The available information is set out in the following table:

*Opening dates of sections of M4, A55 and A470*

| *Date* | *Section* |
|---|---|
| *M4* | |
| 29 April 1977 | Pontardulais By-Pass |
| 1977 | Morriston By-Pass |
| 21 October 1977 | Tredegar Park to St Meltons |
| 11 November 1977 | Stormy Down to Groes (Stage 1) |
| 22 December 1977 | Coryton to Miskin |
| 22 December 1977 | Miskin to Pencoed |
| 23 April 1980 | Tredegar Park to Malpas |
| 10 July 1980 | Castleton to Coryton |
| 18 September 1981 | Pencoed to Stormy Down |
| 30 April 1982 | Coldra to Caerleon |
| 26 February 1993 | Earlswood to Lonlas |
| 9 December 1994 | Baglan to Briton Ferry |
| 9 December 1994 | Briton Ferry to Earlswood |
| *A55* | |
| 1975 | Northop Hall Crossroads to East of Gables |
| 1976 | Coed-Cra to Chaingates |
| 1976 | Chester Southerly (Welsh Section) |
| December 1980 | Holywell By-Pass (Stage 1) |
| March 1981 | Diversion East of Abergele |
| December 1983 | Bangor By-Pass |
| September 1984 | Hawarden By-Pass |
| December 1984 | Llanddulas to Glan Conwy (Colwyn Bay By-Pass, Stage 1) |
| June 1985 | Llanddulas to Glan Conwy (Colwyn Bay By-Pass, Stage 2) |
| October 1986 | Holywell By-Pass (Stage 2) |
| December 1986 | Bodelwyddan By-Pass |
| June 1989 | Penmaenbach Tunnel |
| June 1989 | Northop By-Pass |
| October 1989 | Penmaenmawr and Llanfairfechan By-Passes |
| May 1990 | Travellers' Inn Improvement |
| 1991 | Conwy Crossing |
| May 1992 | Rhuallt Hill Improvement |
| October 1993 | Pen-y-Clip Tunnel |
| October 1994 | Abergwyngregyn Improvement |
| *A470* | |
| 4 November 1985 | Abercynon to Pentrebach |
| May 1988 | Minffordd to Dolwyddelan |
| 25 February 1991 | Llanidloes By-Pass |
| 8 November 1996 | Pentrebach to Cefn Coed (Section 1) |
| 18 July 1997 | Pentrebach to Cefn Coed (Section 2) |
| October 1997 | Cancoed to Minffordd (Lledr Valley Stage 1) |

### Taxis

**David T.C. Davies:** To ask the Secretary of State for Wales how much the Department has spent on taxis in each of the last five years. [6490]

**Mr. Hain:** The cost to the Department for taxis was:

| | £ |
|---|---|
| | Cost of taxis |
| 2000–01 | 1,266 |
| 2001–02 | 2,851 |
| 2002–03 | 796 |
| 2003–04 | 1,154 |
| 2004–05 | 625 |

### Welsh Assembly Electoral System

**Mr. Heald:** To ask the Secretary of State for Wales if he will make a statement on the Government's plans to amend the electoral system for the Welsh Assembly to party list candidates also running for constituency seats. [9813]

**Mr. Hain:** I made an oral statement on 15 June 2005, *Official Report*, column 263, on the White Paper "Better Governance for Wales"

## DEPUTY PRIME MINISTER

### Affordable Homes

**Mr. Burstow:** To ask the Deputy Prime Minister how many affordable homes were provided in each London borough in each of the last five years. [8078]

**Yvette Cooper:** The number of affordable homes provided on behalf of each London borough in each of the last five financial years are shown as follows:

*London boroughs: affordable homes*

| | *2000–01* | *2001–02* | *2002–03* | *2003–04* | *2004–05* |
|---|---|---|---|---|---|
| Barking and Dagenham | 68 | 50 | 28 | 22 | 154 |
| Barnet | 116 | 138 | 99 | 132 | 174 |
| Bexley | 45 | 26 | 150 | 68 | 91 |
| Brent | 359 | 322 | 224 | 243 | 315 |
| Bromley | 127 | 75 | 146 | 66 | 157 |
| Camden | 124 | 146 | 150 | 165 | 336 |
| City of London | 0 | 4 | 0 | 8 | 30 |
| Croydon | 154 | 350 | 230 | 125 | 274 |
| Ealing | 148 | 156 | 179 | 244 | 402 |
| Enfield | 232 | 431 | 293 | 256 | 369 |
| Greenwich | 231 | 327 | 149 | 586 | 458 |
| Hackney | 306 | 257 | 373 | 482 | 359 |
| Hammersmith and Fulham | 177 | 149 | 103 | 488 | 376 |
| Haringey | 265 | 286 | 167 | 349 | 272 |
| Harrow | 103 | 123 | 121 | 111 | 141 |
| Havering | 20 | 197 | 45 | 56 | 126 |
| Hillingdon | 253 | 185 | 113 | 168 | 154 |
| Hounslow | 40 | 187 | 118 | 327 | 165 |
| Islington | 214 | 152 | 262 | 315 | 261 |
| Kensington and Chelsea | 61 | 72 | 112 | 236 | 79 |
| Kingston upon Thames | 118 | 71 | 43 | 55 | 195 |
| Lambeth | 134 | 244 | 272 | 378 | 341 |
| Lewisham | 261 | 229 | 234 | 303 | 504 |
| Merton | 57 | 76 | 78 | 62 | 146 |
| Newham | 223 | 405 | 327 | 304 | 426 |
| Redbridge | 101 | 199 | 128 | 161 | 274 |
| Richmond upon Thames | 54 | 57 | 15 | 109 | 192 |
| Southwark | 258 | 223 | 256 | 340 | 639 |
| Sutton | 212 | 153 | 196 | 145 | 349 |
| Tower Hamlets | 205 | 296 | 404 | 336 | 153 |
| Waltham Forest | 241 | 224 | 196 | 115 | 162 |
| Wandsworth | 94 | 130 | 116 | 108 | 413 |
| Westminster | 394 | 349 | 180 | 210 | 280 |

*Source*:
Housing Corporation
(Includes new build dwellings, acquisitions and refurbishments)

The numbers include homes for both rent and low cost home ownership provided through new build dwellings, acquisitions and refurbishments via the Housing Corporation's Approved Development Programme including Key Worker Living in 2004–05 and exclude the Transitional Local Authority Social Housing Grant, the Starter Homes Initiative (not delivered through the Approved Development Programme) and S106 agreements where there was no Housing Corporation funding.

**Dr. Cable:** To ask the Deputy Prime Minister how many of the new homes to be built under the first-time buyers initiative he expects will be available at a price of £60,000. [6452]

**Yvette Cooper:** The first-time buyers initiative is a proposal being developed by the Office of the Deputy Prime Minister and English Partnership with the aim of providing 15,000 affordable homes by 2010 across England on a shared equity basis. It is one element in our package of proposals for increasing access to low cost home ownership as set out in our consultation

paper "Homebuy—expanding the opportunity to own" published in April 2005. Half of the homes provided will be for key workers and the other half will be for individuals and families who would not be in a position to own their own homes without help. English Partnerships is now developing a delivery plan for the initiative.

The Design for Manufacture Competition was announced on 26 September 2004 by my right hon. Friend the Deputy Prime Minister and launched formally on 1 April 2005 to show how it is possible to build a high-quality home for £60,000. The figure of £60,000 relates to a target construction cost for building a two bedroom home and does not reflect the development cost or sale price.

English Partnerships is running the Design for Manufacture competition on behalf of the Office of the Deputy Prime Minister. The development sites for successful bidders will be provided by English Partnerships and other public bodies. English Partnerships anticipate that construction of homes will start in early 2006 with some completions by the end of 2006. The competition will aim to provide 1,000 homes all to eco-homes very good standard and will include a mix of housing types and tenures as defined by site specific design briefs. We anticipate that about 30 per cent. of the homes built will contribute to the first-time buyers initiative.

**Dr. Cable:** To ask the Deputy Prime Minister what additional funding he is making available in *(a)* 2006–07 and *(b)* 2007–08 to support (i) the social homebuy scheme, (ii) new build homebuy, (iii) open market homebuy, (iv) joint equity loans with mortgage lenders scheme and (v) the first-time buyers initiative. [6453]

**Yvette Cooper:** The proposals on which we are currently consulting—"Homebuy—expanding the opportunity to own" (April 2005) seek to provide simpler, fairer home ownership opportunities for more people, while protecting the supply of social housing. The consultation period closes on 24 June.

Resources will be found from within existing Spending Review 2004 budgets in order to fund the outcome of the consultation.

We announced in March the split between Regional Housing Boards of the £5 billion available over the two years 2006–07 and 2007–08. We are due to receive updated Regional Housing Strategies and advice on regional housing investment priorities including funding for low cost home ownership by the end of June.

**Mr. Denham:** To ask the Deputy Prime Minister what estimate he has made of the number of properties built for sale under the key worker housing scheme that have not yet been sold; and if he will make a statement. [5174]

**Yvette Cooper** *[holding answer 27 June 2005]:* The Key Worker Living programme was launched in March 2004 and the new build properties for sale are coming onto the market in phases. As at 31 May 2005, the number of properties completed and available for sale through shared ownership and new build homebuy under Key Worker Living (KWL) was 574. 41 of these have been sold. Monitoring information provided to the Housing Corporation by developing RSLs only details when a KWL property is sold. There is no information on how many of these units are currently under offer.

## Best Value

**Mrs. Spelman:** To ask the Deputy Prime Minister what indicative targets the Government set for each of the 2005–06 best value performance indicators for local authorities. [9537]

**Mr. Woolas:** The Office of the Deputy Prime Minister has not set indicative targets for any of the 2005–06 best value performance indicators (BVPIs) for local authorities. However, minimum performance standards have been set in respect of waste and recycling and for some planning authorities. Local authorities set their own targets for all other BVPIs.

**Mrs. Spelman:** To ask the Deputy Prime Minister whether the best value regime applies to *(a)* fire authorities and *(b)* police authorities. [9538]

**Mr. Woolas:** In accordance with Part 1 of the Local Government Act 1999, Fire and Rescue Authorities and Police Authorities are subject to the duty of best value.

**Mrs. Spelman:** To ask the Deputy Prime Minister what the residents' satisfaction rating was in each council, in each year in which that indicator has been part of the Best Value regime. [9539]

**Mr. Woolas:** Best Value User Satisfaction Surveys were carried out in 2000–01 and 2003–04. The results of the 2000–01 survey are available on the following website: www.bvpi.gov.uk. A report which summarised the results of the 2003–04 survey was published in June 2004. Detailed results of the 2003–04 survey will be published on the above website in due course.

## Compulsory Purchase Orders

**Sarah Teather:** To ask the Deputy Prime Minister how many compulsory purchase orders have been carried out in each local authority in London in each of the last five years. [8212]

**Yvette Cooper:** Details of which local authorities in London have used CPO powers are shown in the following tables.

*1 April 1999 to 31 December 1999*[1]

| | *Number of CPOs:* | | |
|---|---|---|---|
| *Local authority* | *Confirmed* | *Not confirmed* | *Withdrawn* |
| Barking and Dagenham | — | — | 1 |
| Brent | — | — | 1 |
| Harrow | 1 | — | — |
| Islington | 1 | — | — |
| Sutton | 1 | — | — |
| Tower Hamlets | 1 | — | — |

[1] Information 1 January 1999 to 31 March 1999 not available.

*1 January 2000 to 31 December 2000*

| | *Number of CPOs:* | | |

*CPO's awaiting decision*

| *Local authority* | *Number* |
|---|---|
| Camden | 1 |
| Croydon | 1 |
| Ealing | 1 |
| Hackney | 1 |
| Hammersmith and Fulham | 1 |
| Lambeth | 1 |
| Newham | 6 |
| Wandsworth | 1 |
| Westminster | 5 |

## Consultants

**Mrs. Dean:** To ask the Deputy Prime Minister what plans he has to issue guidance on effective commissioning for those in the public and voluntary sectors who are commissioning work from external consultants. [7022]

**Jim Fitzpatrick:** I refer my hon. Friend to the answer given by my hon. Friend the Financial Secretary on 27 June 2005, *Official Report*, column 1286W.

## Council Tax

**Mrs. Spelman:** To ask the Deputy Prime Minister whether the Deputy Prime Minister pays council tax for his official residences. [4324]

**Jim Fitzpatrick:** My right hon. Friend the Deputy Prime Minister occupies Admiralty House as his official residence assigned to him by my right hon. Friend the Prime Minister. It is occupied as a second home used solely for the purpose of carrying out his job. The Office of the Deputy Prime Minister contributes a set proportion of the total maintenance, renovation and running costs of Admiralty House, which is managed by the Cabinet Office.

My right hon. Friend the Deputy Prime Minister also has the use of Dorneywood. Dorneywood is owned and operated by the Dorneywood Trust which is a registered charity, therefore there is no cost to public funds.

**Mrs. Spelman:** To ask the Deputy Prime Minister what the estimated cost is of the council tax revaluation process in England. [4326]

**Mr. Woolas:** My hon. Friend the former Member for Shipley in a written reply to the hon. Member for Kingston and Surbiton (Mr. Davey) on 26 June 2003, *Official Report*, column 895W, indicated that the cost of council tax revaluation was in the region of £200 million including the cost of handling appeals. My hon. Friend explained that that was a very broad estimate because the cost would be affected by the methods used and that

decisions on those had not yet been taken. The cost of the Valuation Office Agency's work in preparing for and delivering the council tax revaluation in England on 1 April 2007 is currently estimated at £139.3 million, excluding any element of contingency. This includes expenditure on electronic capture and enhancement of hard copy records and in development of an automated valuation model capability that will also benefit future revaluations. Beyond 1 April 2007, the Valuation Office Agency are currently estimating additional costs above baseline of around £38 million in 2007–08 arising from an expected increase in workload arising from appeals. Final costs will however depend in part on the recommendations of Sir Michael Lyons' independent inquiry into local Government funding.

**Sarah Teather:** To ask the Deputy Prime Minister what the anticipated cost of *(a)* the council tax revaluation process and *(b)* the Lyons review of local government finance is. [7171]

**Mr. Woolas:** On *(a)* I refer the hon. Member to the answer given to the hon. Member for Meriden (Mrs. Spelman) on 30 June 2005, *Official Report*, column 1653W and on *(b)* I refer the hon. Member to the answer given to the hon. Member for Meriden (Mrs. Spelman) on 30 June 2005, *Official Report*, column 1655W.

**Mr. Dodds:** To ask the Deputy Prime Minister what the average amount spent by each household in England on council tax was in the last year for which figures are available. [9001]

**Mr. Woolas:** The average council tax per dwelling in England for 2005–06 is estimated at £1,009.

**Mrs. Spelman:** To ask the Deputy Prime Minister how many households are liable for council tax in *(a)* England, *(b)* Wales and *(c)* Scotland. [9534]

**Mr. Woolas:** The number of chargeable dwellings liable for council tax in England in November 2004 was 21,129,000.

The Office of the Deputy Prime Minister do not hold data for Wales or Scotland; the data for the number of chargeable dwellings liable for council tax in Scotland and Wales are available from the Welsh Assembly Government and the Scottish Executive respectively.

**Mrs. Spelman:** To ask the Deputy Prime Minister if he will list the *(a)* external advisers, *(b)* academics and *(c)* consultants that his Department have consulted over council tax revaluation. [9533]

**Mr. Woolas:** The Balance of Funding Review, which was chaired by my right hon. Friend the then Minister for Local and Regional Government, received evidence from the New Policy Institute on council tax reform which covered revaluation. The papers presented by the Institute are available on the website of the Office of the Deputy Prime Minister at:

http://www.local.odpm.gov.uk/finance/balance/bofl6.pdf and

http://www.local.odpm.gov.uk/finance/balance/bof24.pdf

The terms of reference for Sir Michael Lyons's independent inquiry into local finance require him to make recommendations on how best to reform council tax, taking into account the forthcoming revaluation of domestic property.

**Mrs. Spelman:** To ask the Deputy Prime Minister for how many years the Government expect they will provide transitional relief following the council tax revaluation in England. [9544]

**Mr. Woolas:** The Government will consider the appropriate length of time for which a transitional relief scheme should run in the light of the conclusions of the Lyons Inquiry and the responses to the subsequent consultation.

### Departmental Telecommunications

**Mrs. Spelman:** To ask the Deputy Prime Minister how many mobile phones his Department has *(a)* lost and *(b)* reported stolen since its establishment. [7439]

**Jim Fitzpatrick:** The Office of the Deputy Prime Minister was created on 29 May 2002. Information on mobile phones used by officials is not held centrally and could be provided only at disproportionate cost. However, the number of mobile phones reported by Ministers, special advisers and private office officials as *(a)* lost or *(b)* stolen are as follows:

| | *Number of mobile phones* | |
|---|---|---|
| | *Lost* | *Stolen* |
| 30 May 2002 to 31 March 2003 | 0 | 1 |
| 1 April 2003 to 31 March 2004 | 1 | 0 |
| 1 April 2004 to 31 March 2005 | 1 | 0 |
| 1 April 2005 to 27 June 2005 | 0 | 0 |

**Sarah Teather:** To ask the Deputy Prime Minister which telephone answering services for which his Department is responsible are *(a)* staffed by employees of the Department, *(b)* serviced by call centres in the UK and *(c)* serviced by overseas call centres. [8198]

**Jim Fitzpatrick:** The Office of the Deputy Prime Minister is responsible for two telephone answering services: the Social Exclusion Unit helpline and the main ODPM switchboard, neither of which are serviced by overseas call centres. The Social Exclusion Unit helpline is staffed by employees of the ODPM, while the main ODPM switchboard is serviced by contractors based within the ODPM's London offices.

### Freedom of Information

**Mrs. Spelman:** To ask the Deputy Prime Minister how many freedom of information requests his Department has received since the introduction of the Freedom of Information Act 2000; and how many have been refused. [7400]

**Jim Fitzpatrick:** I refer the hon. Member to the Department for Constitutional Affairs' publication "Freedom of Information Act 2000—Statistics on Implementation in Central Government Q1: January-March 2005", which was published, and copies of which were placed in the Libraries of both Houses, on 23 June 2005. The information requested can be found in table 3 of the Report.

DCA will be publishing figures for Government Departments' performance under Freedom of Information, including volumes of requests handled by Departments and outcomes of requests, on an ongoing quarterly basis.

### Gershon Review

**Mrs. Spelman:** To ask the Deputy Prime Minister what assessment he has made of the implementation of the Gershon Review by local authorities. [9540]

**Mr. Woolas:** Local authorities in England have to submit annual efficiency statements, which are comprised of two parts; the forward look is prepared at the start of a financial year and contains the council's strategy and planned actions for achieving efficiency gains, while the backward look, prepared at the end of the financial year, reports the gains that were actually achieved.

Local authorities submitted their first forward look statement (covering the year 2005–06) in April. Analysis of these statements indicates that local authorities expect to achieve nearly £1.2 billion efficiency gains during the year, which compares well against the target of £1.0 billion.

Local authorities submitted their first backward look statement (covering the year 2004–05) in June. Analysis of these statements is still in progress, but the initial indications are that local authorities achieved £0.7 billion efficiency gains in 2004–05. Together, the outcomes of these statements are very encouraging and suggest that authorities are well on their way towards meeting the target set in the Gershon Review. They demonstrate our belief that local authorities have a great deal of experience of successfully identifying opportunities for making efficiency gains.

**Mrs. Spelman:** To ask the Deputy Prime Minister what savings the Government expect local authorities to make under the Gershon Review, broken down by main budget heading. [9541]

**Mr. Woolas:** The Government published the annual efficiency target for each local authority in England on 16 June to accompany the publication of the 2005–06 Forward Look Annual Efficiency Statements. The targets are set out in column AJ of the spreadsheet that may be found on the Office of the Deputy Prime Minister's website at http://www.odpm.gov.uk/stellent/groups/odpm_localgov/documents/page/odpm_locgov_038270.xls.

In total, the annual efficiency target for all local authorities is £1.023 billion. Thus, the expectation is for local authorities to deliver at least £3.07 billion efficiency gains by 2007–08, which contributes to the overall local Government total of £6.45 billion.

### Home Information Packs

**Mr. Love:** To ask the Deputy Prime Minister (1) why the proposed Home Information Pack energy reports are currently confined to the internal costs of fuels; and if he will make a statement; [5253]

(2) if he will ensure that the proposed Home Information Pack energy reports reflect the external costs of fuels caused by the emission of *(a)* carbon and *(b)* other air quality pollutants. [5254]

**Yvette Cooper:** The purpose of providing the information in the proposed energy report is to encourage people to improve the energy performance of their homes. Consequently, the Energy Reports will contain a SAP rating along with information on energy consumption and carbon emissions. The SAP rating, which is based on fuel prices, is included because research indicates that people are most motivated to make energy efficiency investments by reductions in their fuel bills. The external costs of fuel use are reflected in the carbon emissions data. It is not possible to include information on other external costs from fuel use as these are insufficiently quantifiable.

### Homelessness

**Sarah Teather:** To ask the Deputy Prime Minister (1) what estimate he has made of the number of homeless households who were placed in self-contained temporary accommodation in 2004–05 which do not meet the minimum physical standards proposed in his Department's 2003 consultation paper; [6388]

(2) if he will undertake a survey of homeless households in temporary accommodation. [6389]

**Yvette Cooper:** It is for local authorities to ensure that all temporary accommodation meets statutory standards. ODPM does not collect and has not made any estimate of the number which would meet the standards set out in its 2003 consultation paper.

ODPM has recently commissioned nationally representative surveys of 2000 homeless families with children and 500 homeless 16–17 year olds.

These surveys will investigate the causes of homelessness and the impact of living in temporary accommodation, in particular on the health and well-being of these households, and on children's education. The surveys will also investigate the impact of living in temporary accommodation on access to education, training and employment.

The surveys will report early in the summer of 2006, and we anticipate the findings to be published in the autumn of 2006.

**Sarah Teather:** To ask the Deputy Prime Minister if he will take steps to enable local authorities to discharge their duty to statutorily homeless households by providing an assured shorthold tenancy in the private rented sector. [6390]

**Yvette Cooper:** Local housing authorities can already discharge a duty to secure accommodation for a homeless household by arranging the provision of an assured shorthold tenancy in the private sector. The provision of such a tenancy can be used to provide temporary accommodation, pending the availability of settled accommodation. Moreover, where a main homelessness duty is owed to an applicant under section 193(2) of the Housing Act 1996, the offer of an assured shorthold tenancy will bring this duty to an end (as settled accommodation) if the offer is a qualifying offer and the applicant accepts the offer.

In March this year, we published "Sustainable Communities: settled homes; changing Lives", a strategy for tackling homelessness. This document set out our proposal to examine the options for making greater use of the private sector as a source of settled solutions for households accepted as homeless.

**Sarah Teather:** To ask the Deputy Prime Minister what changes he plans to the definition of homelessness; and if he will make a statement. [6392]

**Yvette Cooper:** There are currently no plans to change the statutory definition of homelessness, provided in section 175 of the Housing Act 1996.

The Office of the Deputy Prime Minister is currently carrying out a review of homelessness statistics that it collects from local authorities, as announced in "Sustainable Communities: Homes for All. A Five Year Plan from the Office of the Deputy Prime Minister". This has included revising the layout of the quarterly statistical release to more clearly present the information collected on statutory homelessness. The first revised release was published on 13 June, containing statistics for the first quarter of 2005.

**Sarah Teather:** To ask the Deputy Prime Minister if he will make a statement on the support his Department gives to temporary to permanent housing initiatives. [6393]

**Yvette Cooper:** We have provided funding, support and advice to a number of London boroughs and housing associations seeking to develop a range of temporary to permanent housing initiatives to capture the revenue flow as a longer term social housing asset. Those supported to date include: Newham's Local Space proposal; Ealing's Safe Haven partnership; L&Q Housing Trust's HILS programme; as well as a range of other buy to let programmes delivered by housing associations including Acton, Wandle and East Thames Housing Associations.

We will continue to support innovative schemes which provide settled housing solutions for households in temporary accommodation. Where they offer value for money but require capital investment we will encourage regional housing boards to support bids for the Approved Development Programme funding.

**Sarah Teather:** To ask the Deputy Prime Minister how much funding each local authority in London has received from the homelessness directorate in each of the last five years to support local homelessness strategies. [6402]

**Yvette Cooper:** The following table indicates the amount of homelessness funding allocated to each local authority in London since 2002–03.

| | *Homelessness grant paid* | | *Homelessness grant allocations* | |
|---|---|---|---|---|
| | *for 2002–03* | *for 2003–04* | *for 2004–05* | *2005–06* |
| Barking and Dagenham | 37,936 | 68,000 | 28,000 | 28,000 |
| Barnet | 420,000 | 416,787 | 165,000 | 160,000 |
| Bexley | 119,591 | 130,800 | 58,000 | 58,000 |
| Brent | 1,969,910 | 1,423,000 | 783,000 | 740,000 |
| Bromley | 242,000 | 183,500 | 100,000 | 100,000 |
| Camden | 1,004,100 | 1,834,192 | 1,808,000 | 1,700,000 |
| City of London | 18,000 | 656,000 | 515,000 | 265,000 |
| Croydon Council | 1,596,495 | 1,104,000 | 600,000 | 500,000 |
| Ealing | 1,535,156 | 1,224,608 | 600,000 | 600,000 |
| Enfield | 588,676 | 491,376 | 250,000 | 250,000 |
| Greenwich | 63,000 | 113,000 | 100,000 | 63,000 |
| Hackney | 289,800 | 646,000 | 690,000 | 550,000 |
| Hammersmith and Fulham | 1,815,500 | 1,300,500 | 1,970,000 | 2,360,000 |
| Haringey | 421,061 | 491,000 | 200,000 | 200,000 |
| Harrow | 191,000 | 181,001 | 183,000 | 190,000 |
| Havering | | 26,966 | 27,000 | 27,000 |
| Hillingdon | 920,226 | 779,712 | 80,000 | 80,000 |
| Hounslow | 494,361 | 459,000 | 180,000 | 165,000 |
| Islington | 306,000 | 162,091 | 357,000 | 325,000 |
| Kensington and Chelsea | 1,252,118 | 1,565,511 | 943,000 | 875,000 |
| Kingston upon Thames | 151,000 | 121,000 | 90,000 | 90,000 |
| Lambeth | 1,082,631 | 1,119,293 | 2,100,000 | 2,000,000 |
| Lewisham | 79,000 | 102,395 | 400,000 | 100,000 |
| Merton | 116,500 | 75,000 | 80,000 | 80,000 |
| Newham | 1,803,220 | 1,257,000 | 250,000 | 212,000 |
| Redbridge | 458,245 | 292,000 | 105,000 | 100,000 |
| Richmond | 116,365 | 386,576 | 295,000 | 295,000 |
| Southwark | 518,040 | 996,508 | 1,453,000 | 1,050,000 |
| Sutton | 240,222 | 192,999 | 150,000 | 115,000 |
| Tower Hamlets | 1,173,800 | 838,950 | 800,000 | 1,735,000 |
| Waltham Forest | 825,723 | 383,000 | 200,000 | 200,000 |
| Wandsworth | 628,527 | 546,000 | 300,000 | 250,000 |
| Westminster | 2,902,500 | 4,434,374 | 16,846,000 | 7,260,000 |

*Notes:*

1. The allocation of homelessness grants to local authorities began in 2002–03, before this grants had been provided to voluntary sector agencies only.
2. The figures for 2002–03 and 2003–04 reflect actual grant payments made, those for 2004–05 and 2005–06 are the allocations.
3. The allocations for 2004–05 include capital grants.
4. The allocations for 2005–06 include capital grants where these have been agreed, further capital grants may be allocated during the year as part of the hostels capital.

**Mrs. Spelman:** To ask the Deputy Prime Minister what changes the Government have made to the eligibility of homeless people for accommodation since May 1997. [7403]

**Yvette Cooper:** This Government have made a number of changes to improve eligibility for homelessness assistance in England since May 1997.

Under the homelessness legislation, eligible applicants must also be unintentionally homeless and have a priority need in order to be entitled to accommodation. In July 2002 we extended the priority need categories to include, broadly, young people aged 16 or 17, young people under 21 previously in care, applicants vulnerable as a result of time spent in care, in the armed forces, in prison or on remand, and applicants vulnerable as a result of fleeing their home because of violence. These changes have widened the homelessness safety net and ensure that more vulnerable homeless people are given the help they need.

In most cases, the main duty to secure accommodation under the homelessness legislation is ended with the offer of a long-term social tenancy. Local authorities' allocation schemes for social housing must be framed so as to give reasonable preference to certain categories of applicant. In July 1997, we extended the reasonable preference categories to include people owed the main homelessness duties. This effectively restored the long-standing rights of people owed the main homelessness duties that had been removed by the Housing Act 1996. In 2002, the reasonable preference categories were revised and broadened to include people owed other homelessness duties and people who were homeless, whether owed a duty or not.

A number of specific changes to the rules on eligibility have been made since 1997 in relation to people coming to England from abroad. These have included:

exemptions from the requirement to be habitually resident in the common travel area (CTA) for people who left Montserrat because of the effect on that territory of a volcanic eruption,

removal of eligibility for all asylum seekers who claimed asylum after 2 April 2000, when the National Asylum Support Service took on responsibility for providing asylum seekers with appropriate accommodation and support, and for nationals of countries that were signatories to, but which had not ratified, the European Convention on Social and Medical Assistance or the European Social Charter, and

a number of changes in relation to habitual residence and eligibility for nationals of states in the European economic area (EEA) when the European Union was enlarged in May 2004.

**Mrs. Spelman:** To ask the Deputy Prime Minister what recent estimate the Government have made of the level of hidden homelessness in England. [7406]

**Yvette Cooper:** Hidden homelessness is a subjective definition, varying between different agencies and individuals. We have a number of objective measures to identify and assess levels of homelessness and a range of wider housing needs which can be used to inform housing and homelessness strategies.

PIE data records all decisions on households who apply to local housing authorities for homelessness assistance. This includes those who are found to be homeless (unintentionally or intentionally) and in priority need. It also includes those found not to be in priority need or not homeless. The data can be analysed, and are published quarterly, at national, regional and local authority levels. The total number of decisions on applications by authorities has been falling during 2004, indicating that fewer people are becoming homeless.

Additionally, annual returns from local authorities identify the number of people who are literally roofless and sleeping rough on a single night, from local head counts or estimates. The number of people sleeping out on a single night has fallen by more than 70 per cent. since 1998.

Through Supporting People we collect data on the number of people regarded by service providers as homeless or at risk of homelessness who are provided with housing related support.

The Office of the Deputy Prime Minister also collects a range of data on wider forms of housing need, including concealed households, overcrowding and households living in poor quality homes. These are reported in regular ODPM publications—the English House Condition Survey and the Survey of English Housing.

At the local level, local authorities homelessness reviews—required to be undertaken every five years by the Homelessness Act 2002—should identify levels of all forms of homelessness in the local district and be used to inform a local homelessness strategy.

**Mrs. Spelman:** To ask the Deputy Prime Minister what changes the Government have made to the methodology for calculating *(a)* priority homelessness, *(b)* rough sleeping and *(c)* homeless in temporary accommodation since May 1997. [7410]

**Yvette Cooper:** We have improved the amount of detailed information we collect on households in priority need and those in temporary accommodation, and have widened the categories of people given priority.

We have made some minor technical changes to improve the accuracy of the regional and national estimates of households in priority need and households in temporary accommodation, to account for non-response and have taken further steps to improve the response rate, which now stands at over 95 per cent. each quarter.

We have made no changes since 1997 to the methodology for calculating the number of rough sleepers. The most recent national figure of around 508 people sleeping rough on any one night (70 per cent. down on 1998) is based on a higher number of recent counts and less reliance on estimates than any previous national estimate and is therefore likely to be even more accurate.

### Houses in Multiple Occupation

**Mrs. Spelman:** To ask the Deputy Prime Minister what assessment the Government have made of the effect of the licensing of houses in multiple occupation on the buy to let housing market. [7440]

**Yvette Cooper:** The Government take the view that proportionate regulation of the private rented sector targeted at the properties most at risk will raise standards in the sector and lead to more investment. The Government have already undertaken to review the success of the licensing regime within the next three years. This will cover the effect on the buy to let market as well as other areas within the private rented sector.

Investment in the private rented sector is however principally determined by the markets long term judgment of the returns expected from residential property.

**Mrs. Spelman:** To ask the Deputy Prime Minister what criteria will be used to decide which rental properties in the private sector are subject to licensing for houses in multiple occupation. [7441]

**Yvette Cooper:** The Housing Act 2004 requires the mandatory licensing of larger, higher-risk housing of multiple occupation (HMOs). Following consultation, the Government have decided that this will cover privately rented HMOs of three or more storeys and occupied by five or more people who form two or more households. This decision was announced in a statement made by my right hon. Friend the former Minister for Housing and Planning on 6 April 2005.

Local authorities will also have discretion to extend licensing to smaller privately rented HMOs in all, or part of their area, to address particular problems caused by the ineffective management of those HMOs. The use of this discretionary power is subject to consultation and requires confirmation or general approval by the Secretary of State.

**Sarah Teather:** To ask the Deputy Prime Minister (1) whether the timetable for publication of the final Code of Guidance on minimum standards in temporary accommodation has changed; and if he will make a statement; [6412]

(2) what the final date was for submissions to the consultation on the Code of Guidance on minimum standards in temporary accommodation; [6413]

(3) when he plans to publish the statutory Code of Guidance on standards in temporary accommodation for homeless households. [6414]

**Yvette Cooper:** In May 2003 the Office of the Deputy Prime Minister published a consultation paper on "Improving standards of accommodation for homeless households placed in temporary accommodation." The consultation period ended on 5 August 2003. In November 2003 we announced the outcome of the consultation and our intention to revise the statutory Homelessness Code of Guidance for Local Authorities to restate existing minimum standards for temporary accommodation and set out additional standards for bed and breakfast hotels used as temporary accommodation. We plan to publish the revised Homelessness Code of Guidance in the autumn.

**Mrs. Spelman:** To ask the Deputy Prime Minister what recent representations his Department has received from *(a)* landlord and *(b)* tenants' organisations on houses in multiple occupation licensing fees; and what response his Department has made. [4872]

**Yvette Cooper:** Representations have been received from a number of landlord and managing agent bodies following Ministers' decision not to use the powers in the Housing Act 2004 to cap fees charged for licensing. Discussions have already been held with these and other bodies to explain the background to this decision and to explore the extent to which it might be possible to fast track applications from landlords or agents who are members of local accreditation schemes or who might otherwise demonstrate their capacity to manage properties efficiently and effectively.

In addition, there will be transitional arrangements that will allow landlords of properties registered under the Housing Act 1985 to be passported into licensing without charge for a period not exceeding the unexpired portion of their current registration. We expect these arrangements to lead to more constructive relations between landlords and local authorities as well as ensuring that fees are kept to an acceptable level.

**Mrs. Spelman:** To ask the Deputy Prime Minister what estimate his Department made for regulatory impact assessment purposes of the amount which would be raised by houses in multiple occupation licensing fees; what his Department's latest estimate is of that figure; and how each figure was calculated. [4873]

**Yvette Cooper:** The Regulatory Impact Assessment indicated that around 540,000 units would be licensable under mandatory houses in multiple occupation (HMO) licensing and the consultation paper "Licensing in the Private Rented Sector: Consultation on the Implementation of HMO Licensing" had suggested that fee levels might be between £110 and £180 per unit but that the issue was still under consideration.

These estimates were compiled following consultation with local government, taking into account a range of factors including experience in registering HMO's under the Housing Act 1985, as amended by the Housing Act 1996.

**Mrs. Spelman:** To ask the Deputy Prime Minister what arrangements his Department has planned for ensuring houses in multiple occupation licence fees set by local authorities only recover costs; and when such arrangements will be in place. [4874]

**Yvette Cooper:** Section 63(7) of the Housing Act 2004 enables local housing authorities to have regard to the costs in carrying out the administration of the licensing scheme when fixing fees.

We expect local authorities to establish a coherent and transparent fee structure that is set up in time for the commencement of the licensing provisions, intended for October 2005, which must operate within and in accordance with the CIPFA accountancy framework.

## Housing

**Bob Spink:** To ask the Deputy Prime Minister pursuant to the answer of 27 June 2005, *Official Report*, columns 1306–07W, on housing, what the process will be for the Examination in Public of the East of England Regional Spatial Strategy; in which areas it will operate; and how the process will be publicised. [8899]

**Yvette Cooper:** The Examination in Public (EiP) provides an opportunity for discussion and testing of matters selected by the EiP panel in order to test the soundness of the Regional Spatial Strategy. The panel conducting the EiP has identified those matters which it considers need to be debated and those stakeholders that it intends to invite to take part in the debate. The list of matters and participants has been subject to public consultation and the panel are currently considering the results of that consultation. The panel will publish a revised list of matters and participants on or before the 19 July.

The EiP will be held, in public, at The Maltings, Ely, Cambridgeshire. The process has been publicised in accordance with the Town and Country Planning (Regional Planning) (England) Regulations 2004.

Future information regarding the EiP will be published on panel's web pages, which are being hosted on the Go-East website:

http://www.goeast.gov.uk/goeast/planning/regional_planning/rss_eip_panel_sec/

**Bob Spink:** To ask the Deputy Prime Minister pursuant to the answer of 27 June 2005, *Official Report*, columns 1306–07W, on housing, over what period the Examination in Public of the East of England Regional Spatial Strategy home building targets will take place; and when he expects the outcome of that examination to be published. [8900]

**Yvette Cooper:** The Examination in Public (EiP) is currently scheduled to commence on 14 September and run until 16 December 2005. The East of England regional assembly has recently requested a deferral of the opening of the EiP until 1 November. The panel is expected to report to my right hon. Friend the Deputy Prime Minister, the First Secretary of State within three to four months, depending upon the complexity of the issues.

**Lynne Jones:** To ask the Deputy Prime Minister how many *(a)* permanent tenancy and *(b)* introductory tenancy homes have been allocated to new tenants by (i) Birmingham city council and (ii) registered social landlords in Birmingham; and how many were allocated to households accepted as homeless and in (A) priority need and (B) non-priority need in each of the last 10 years. [6105]

**Yvette Cooper:** Information on the number of lettings to new tenants made by Birmingham city council on a *(a)* secure (permanent) and *(b)* introductory basis and the number of these lettings made to homeless households in priority need are given in table 1. Although local authorities have a discretionary housing duty to homeless households not in priority need information on these lettings is not held centrally.

Information on the number of lettings to new tenants made by registered social landlords (RSLs) in the Birmingham city council area; on a *(a)* secure (permanent) and *(b)* introductory basis and the number of these lettings made to homeless households both in priority need and not in priority need are given in table 2.

*Table 1: Lettings made by Birmingham city council to new tenants*

| | Total | | Of which: To homeless households in priority need | |
|---|---|---|---|---|
| | Secure | Introductory | Secure | Introductory |
| 1995–96 | 9,251 | — | 3,553 | — |
| 1996–97 | 9,361 | 0 | 3,258 | 0 |
| 1997–98 | 9,329 | 0 | 4,450 | 0 |
| 1998–99 | 8,737 | 0 | 3,294 | 0 |
| 1999–2000 | 2,426 | 5,456 | 1,252 | 1,842 |
| 2000–01 | 0 | 7,729 | 0 | 3,297 |
| 2001–02 | 0 | 5,567 | 0 | 3,329 |
| 2002–03 | 0 | 5,383 | 0 | 3,702 |
| 2003–04 | 0 | 4,652 | 0 | 3,385 |
| 2004–05 | [1]— | [1]— | [1]— | [1]— |

[1] Data not yet available

*Note:*
Introductory tenancies were established in late 1996–97, and usually lead to a secure tenancy after a trial period.

Housing Corporation's CORE returns

**Sarah Teather:** To ask the Deputy Prime Minister what percentage of councils that have completed their stock options appraisal have decided in favour of council retention of homes. [6421]

**Yvette Cooper:** Of the 84 local authorities that have had their stock options appraisal signed off by the relevant Government Office, 27—or 32 per cent.—have opted to retain ownership and direct management of all or some of their homes.

**Sarah Teather:** To ask the Deputy Prime Minister which councils have not yet submitted a stock options appraisal; and whether he expects that all councils will meet the July deadline. [6422]

**Yvette Cooper:** A list of local authorities that have yet to have a stock options appraisal signed off by the relevant Government Office has been placed in the Libraries of the House. Four authorities have indicated to us that they will not meet the deadline of the end of July.

### Housing Corporation Approved Development Programme

**Ms Dari Taylor:** To ask the Deputy Prime Minister how many affordable housing units built or procured through *(a)* the Housing Corporation Approved Development programme and *(b)* the Challenge Fund were (i) mixed funded social rented housing, (ii) temporary social rented housing, (iii) homebuy general market purchase, (iv) homebuy general new build, (v) mixed funded low cost home ownership for sale, (vi) miscellaneous works to registered social landlord (RSL) stock, (vii) reimprovements to rented RSL stock, (viii) works only rehabilitation of rented RSL stock, (ix) works only rehabilitation of RSL stock for sale, (x) intermediate rent for key workers, (xi) homebuy market purchase for key workers, (xii) homebuy new build for key workers, (xiii) mixed funded sale for key workers and (xiv) starter home initiative in the north-east region in each year since 1997–98; and how much was spent on each category in each year. [6441]

**Yvette Cooper:** The following tables show completions and expenditure through the Housing Corporation Approved Development Programme (ADP), for categories from (i) to (ix). The information in the tables does not include all programmes that the ADP is used for and therefore does not represent the total funding for the north-east region.

The Starter Home Initiative, the Challenge Fund and the Key Worker Living programme were limited to London and the wider south-east, therefore there are no completions or investment for these initiatives in the north-east region.

Funding and completions are not directly comparable, as funding will relate to projects running, not necessarily units completed, in any one year.

*Completions in units for the north-east region from 1997–98 to 2004–05*

*Units completed*

| | 1997–98 | 1998–99 | 1999–2000 | 2000–01 | 2001–02 | 2002–03 | 2003–04 | 2004–05 |
|---|---|---|---|---|---|---|---|---|
| (i) Mixed funded Social Rent | 1,215 | 965 | 758 | 540 | 680 | 355 | 583 | 612 |
| (ii) Temporary Social Rented Housing | 39 | 9 | 2 | 10 | 0 | 0 | 0 | 0 |
| (iii) Homebuy market purchase | 0 | 0 | 0 | 18 | 11 | 8 | 3 | 3 |
| (iv) Homebuy New Build | n/a | n/a | n/a | n/a | n/a | n/a | n/a | 0 |
| (v) Mixed-funded Low Cost Home Ownership | 164 | 130 | 87 | 93 | 110 | 6 | 21 | 88 |
| (vi) Miscellaneous Works | n/a | n/a | n/a | n/a | n/a | n/a | n/a | n/a |
| (vii) Re-improvements to rented RSL stock | n/a | n/a | n/a | n/a | n/a | n/a | n/a | n/a |
| (viii) Works-only re-hab for rented RSL stock | n/a | n/a | n/a | n/a | n/a | n/a | n/a | n/a |
| (ix) Works only re-hab of RSL stock for sale | n/a | n/a | n/a | n/a | n/a | n/a | n/a | n/a |

*Note:*

Miscellaneous works, re-improvements to rented RSL stock, works only rehabilitation of rented RSL stock and works only rehabilitation of RSL stock for sale are not recorded as completed dwellings as they may have previously received funding and would therefore be double counted.

*Expenditure for the north-east region from 1997–98 to 2004–05*

*£ million*

| | *1997–98* | *1998–99* | *1999–2000* | *2000–01* | *2001–02* | *2002–03* | *2003–04* | *2004–05* |
|---|---|---|---|---|---|---|---|---|
| (i) Mixed funded Social Rent | 17.08 | 15.55 | 15.72 | 16.14 | 18.65 | 19.60 | 34.94 | 35.37 |
| (ii) Temporary Social Housing | 0.20 | 0.08 | 0.89 | 0.07 | 0.02 | 0.06 | 0.00 | 0.00 |

## Local Authorities

**Mr. Hands:** To ask the Deputy Prime Minister what the Government's policy is on call-in arrangements for executive decisions made by local authorities. [6759]

**Mr. Woolas:** The statutory guidance that the Government have issued under the Local Government Act 2000 includes guidance on the call-in of executive decisions, in particular that the arrangements for call-in should ensure that there is an appropriate balance between effectively holding the executive to account, being able to question decisions before they are implemented, and allowing effective and efficient decision making by the executive within the policy framework and budget agreed by the full council.

**Mrs. Spelman:** To ask the Deputy Prime Minister if he will list the consent regimes for local authorities that are administered by the Government Offices for the Regions. [4288]

**Yvette Cooper:** Of the 196 consent regimes identified by the Efficiency Scrutiny of Central Consent Regimes for Local Authorities in 1997, those still in place that are administered by the Government Offices are tabled as follows.

Following the Efficiency Scrutiny, we announced in 2002 a programme to deregulate consent powers. We have so far deregulated 63 powers and have plans to deregulate a further 28.

| *Legislative reference* | *Description* |
|---|---|
| Wildlife and Countryside Act 1981, ss.53–54 and Sch.14 | Confirming orders amending definitive maps. Consent administered by the GOs in certain circumstances. |
| Highways Act 1980, ss.26*(1)* 118, 118A, 119 and 119A. Town and Country Planning Act 1990, ss.257–258 and 261(2). | Confirming public path orders and orders to extinguish or divert footpaths or bridle-ways to enable development. Consent administered by the GOs in certain circumstances. |
| Third schedule of the model form of tree preservation order in Town and Country Planning (Tree Preservation Order) Regulations 1969 | Confirming orders revoking or modifying previous consents granted under tree preservation orders. Consent regime removed in relation to all tree preservation orders made by local authorities since August 1999. Power retained for orders that were made before that date. |
| Town and Country Planning Act 1990. ss59 et al, as amended by Planning and Compensation Act 1991. Town and Country Planning (General Permitted Development) Order 1995 (SI 1995 No. 418) Town and Country Planning (General Development Procedure) Order 1995 (SI 1995 No. 419) | A power ('Article 4 Direction') to consent to withdrawal of permitted development rights. |
| Town and County Planning Act 1990, ss 97 and 98 and 102 | Three powers to confirm various orders revoking, modifying or otherwise affecting existing planning permissions or existing uses of land or existing buildings or works. |
| Allotments Act 1925, s8 | A power to consent to the sale or appropriation of statutory allotment land, or its use for other purposes |
| City of London Various Powers Act 1963 s.33 | Restricting vehicle access in London. Administered by GOL only. |
| City of London Various Powers Act 1967 s.6 and Greater London Council (General Powers) Act 1969 s.11 | Provision and declaration of walkways in London. Administered by GOL only. |
| Road Traffic Regulation Act 1984 s.65 (as amended by Sch. 8 of the New Roads and Street Works Act 1991) | Authorising traffic signs not specified in regulations. A minority of cases are delegated to GOs. The consent has been considerably deregulated through Traffic Signs Regulations and General Directions 2002 which allow traffic authorities to use many signs without special authorisation. |
| Planning (Listed Buildings and Conservation Areas) Act 1990, ss 23 and 24 | Confirming orders revoking or modifying listed building consent |
| Highways Act 1980 s.106 and s.108–110 | Consent predominantly administered by the GOs. Construction of bridges/tunnels on navigable waters/ to divert a non-navigable watercourse. Consent administered by GOs in relation to local authority roads, but by DfT in relation to Highways Agency trunk roads. |
| Road Traffic Regulation Act 1984, Sch.9 (13–14) Highways Act 1980, ss. 124–125 | Traffic Regulation Orders limiting vehicle access to premises and stopping up private access |

| Legislative reference | Description |
|---|---|
| Road Traffic Regulation Act 1984, s.9 | Extending experimental Traffic Regulation Orders in London. Administered by GOL only. |
| Road Traffic Regulation Act 1984, s.15 | Extension of temporary orders. |
| Road Traffic Regulation Act 1984, S.16B (inserted by Road Traffic (Special Events) Act 1994) | Special events order. |
| Highways Act 1980, s. 14 and 18 | Confirming orders stopping up or diverting right of way for alterations to side roads (SROs); |
| Town and Country Planning Act 1990, s.247, 248 and 249 | Stopping or diverting highways in connection with development/ amenity improvement. |
| Local Government Act 1985, s.5 | Determining an inter-authority dispute over a permanent order. |
| Road Traffic Regulation Act 1984, s.40(3) | Provision of off-street parking for over 12 months on land compulsorily acquired for another purpose. |

**Mr. Davey:** To ask the Deputy Prime Minister how many councils voted against transferring their stock to a registered social landlord; and how much funding in the Housing Revenue Account subsidy was reallocated to other areas as a result. [8292]

**Yvette Cooper:** Since 1997, tenants in 26 authorities have voted against transfer to a registered social landlord.

Whether or not an individual authority transfers its stock to a registered social landlord has no impact on the Housing Revenue Account Subsidy entitlement of other authorities.

### Local Government Finance

**Sarah Teather:** To ask the Deputy Prime Minister what the level of cash reserves is in each London borough. [8210]

**Jim Fitzpatrick:** The level of cash backed reserves split by revenue reserves and accumulated capital receipts in each London borough at 1 April 2005 is shown in the following table.

*Level of cash backed reserves split by revenue reserves and accumulated capital receipts in each London borough at 1 April 2005*

£000

| | Revenue reserves | Accumulated capital receipts | Total |
|---|---|---|---|
| Barking and Dagenham | 40,390 | 98,752 | 139,142 |
| Barnet | 16,525 | 0 | 16,525 |
| Bexley | 40,979 | 1,895 | 42,874 |
| Brent | 12,637 | 0 | 12,637 |
| Bromley | 62,016 | 2,890 | 64,906 |
| Camden | 83,196 | 0 | 83,196 |
| City of London | 125,369 | 59,460 | 184,829 |

ODPM Revenue Account (RA) Budget returns 2005–06
ODPM Capital Estimates Return (CER) 2005–06

### Merseyside Market Renewals

**Mr. Frank Field:** To ask the Deputy Prime Minister what the cost has been in fees paid for assessing local views in the three market renewal areas of Merseyside; which firms were involved; in which areas they operated; and what fees have been paid to each. [7078]

**Yvette Cooper:** The information requested is not held centrally and could be provided only at disproportionate cost.

### Mobile Phone Masts/Technology

**Dr. Kumar:** To ask the Deputy Prime Minister what restrictions there are on the erection of mobile phone masts in close proximity to schools. [6022]

**Yvette Cooper:** Mobile phone mast and base station developments near schools are subject to the normal planning regulations in place throughout England, unless exempted by the regulations set out in part 24 of the Town and Country Planning (General Permitted Development) Order 1995 (GPDO). The planning arrangements for telecommunications developments were significantly strengthened in 2001 and include improved requirements for consulting local people about mast proposals. The changes to the GPDO were underpinned by revised guidance, set out in Planning Policy Guidance Note 8, Telecommunications. The changes to the planning guidance also underlined that school governors must be consulted on all proposals for new masts on or near a school or college.

**Dr. Kumar:** To ask the Deputy Prime Minister if he will restrict the number of phone masts which are permitted to be erected in a particular area. [7300]

**Yvette Cooper:** Government policy, set out in planning policy guidance note 8 on telecommunications, states the importance of keeping the numbers of radio and telecommunications masts and of the sites for such installations to the minimum consistent with the efficient operation of the network.

Parliament has given local planning authorities the responsibility for development control in their areas. The Secretary of State does not seek to interfere with the jurisdiction of local planning authorities unless it is necessary to do so.

**Mr. Burstow:** To ask the Deputy Prime Minister what topics will be covered by the research commissioned by his Department into the future direction of mobile phone technology; what the timetable for the research is including *(a)* the date on which the research was commissioned, *(b)* when the research commenced, *(c)* what interim reports will be submitted, *(d)* when the research findings and recommendations will be submitted to Ministers and *(e)* when and how the research will be made public; what the estimated cost of research is; and who is conducting the research. [8082]

**Yvette Cooper:** On 4 April I announced the Government's intention to commission further research to identify the future direction of mobile phone technology and the future need for mast developments. Officials from the Office of the Deputy Prime Minister have discussed these research proposals with other departments and research institutions and are currently preparing a specification. These studies form part of a wider programme of work around planning arrangements for telecommunication masts.

**Mrs. Spelman:** To ask the Deputy Prime Minister what estimate the Government have made of the number of 3G mobile phone masts that will be erected to provide service for the new 3G licences. [5582]

**Yvette Cooper:** There are approximately 45,000 base stations across the country at present for all mobile phone network operators, this includes 2G and 3G networks. The licences to operate 3G networks require that 80 per cent. of the population will have access to the network by the end of 2007. The mobile phone operators have estimated that in total 50,000 base stations will be required.

### Planning Appeals (London)

**Mr. Burstow:** To ask the Deputy Prime Minister if he will set out for each of the last five years for each London borough the number of planning appeals *(a)* for non-determination by the planning authority and *(b)* against a refusal that were (i) determined by written representations and (ii) determined by public inquiry setting out how many in each case were (A) granted permission and (B) not granted permission. [8081]

**Yvette Cooper:** The tables which give the information requested have been made available in the Libraries of the House. Please note that any London borough not appearing in a table did not have any planning appeal decisions issued in that particular financial year determined by written representation or public inquiry procedure, as appropriate.

### Social Housing

**Sarah Teather:** To ask the Deputy Prime Minister how many social homes in each local authority in England did not meet the Decent Homes Standard *(a)* in 1997, *(b)* in 2001 and *(c)* on the latest date for which figures are available; how much has been spent on improvements; and what the estimated cost is of bringing all remaining social homes up to the standard. [7142]

**Yvette Cooper:** Local authorities have provided information about the number of homes they own that do not meet the standard as part of their Business Plan Statistical Appendix Annual Monitoring Form since 2001. These are available on the Office of the Deputy Prime Minister's website at:

http://www.odpm.gov.uk/stellent/groups/odpm_control/documents/contentservertemplate/odpm_index.hcst?n=1092&l=4.

Registered social landlords have provided information on the number of homes they own that do not meet the standard in Part Q of their annual Regulatory Survey Returns since 2002, although it was not mandatory to provide this information until 2003. These are available on the RSR website at:

http://www.rsrsurvey.co.uk/index.cfm?task=prevYearsData

Since 1997, £21 billion has been spent on improvements to social sector stock, and we estimate that this will have increased to £42 billion by 2010.

**Mr. Dodds:** To ask the Deputy Prime Minister what the average cost per household in England was of social housing rent in the last year for which figures are available. [8998]

**Yvette Cooper:** The average weekly social rent in England in April 2004 was £55.05.

### Special Advisers

**Bob Spink:** To ask the Deputy Prime Minister if he will list *(a)* the special advisers in his Department, *(b)* their specific areas of expertise and *(c)* the total cost of employing them in the latest year for which figures are available. [8819]

**Jim Fitzpatrick:** I refer the hon. Member to the answer given by my right hon. Friend the Prime Minister on 4 July 2005, *Official Report*, column 36W.

### Statistical Datasets

**Mrs. Spelman:** To ask the Deputy Prime Minister if he will list the statistical datasets his Department *(a)* holds and *(b)* collects containing data at local authority level. [7443]

**Mr. Woolas:** The regular data collection returns submitted by some or all local authorities to the Office of the Deputy Prime Minister are as follows:

*Data collection returns*

| *Title* | *Description* |
|---|---|
| RA, SG BID | General Fund Revenue Accounts—Budgets and Grants 2005–06 Business Improvement District Revenue Account transactions - 2005–06 |
| RO | Revenue Outturn suite 2004–05 |

*Data collection returns*

| *Title* | *Description* |
|---|---|
| QRW | Quarterly Return of Wages and Salaries, Interest Receipts and Payments 2005–06 |

| BVPI90a | Satisfaction with household waste collection |
| BVPI90b | Satisfaction with waste recycling (local facilities) |
| BVPI90c | Satisfaction with waste disposal (local tips) |
| BVPI103 | Satisfaction with transport information |
| BVPI104 | Satisfaction with bus services |
| BVPI119a | Satisfaction with sports and leisure facilities |
| BVPI119b | Satisfaction with libraries |
| BVPI119c | Satisfaction with museums/galleries |
| BVPI119d | Satisfaction with theatres/concert halls |
| BVPI119e | Satisfaction with parks and open spaces |
| FDR1 | Primary fires, incidents attended, detailed description |
| FDR3 | Secondary fires, monthly aggregate |

*Data collection returns*

| *Title* | *Description* |
|---|---|
| Fire and Rescue Service Operational Statistics | Staffing, vehicles inspections, health and safety |
| NLUD-PDL | Previously developed land |
| LUCS | Land use changes |
| NNDR3 | National Non-Domestic Rates Return 3—Appendix E |
| PS1 | Planning applications: received, withdrawn, determinations, enforcement |
| PS2 | Planning applications: refused/granted, speed of determination |
| CPS1/2 | Planning applications: waste disposal, mineral extraction |
| Survey of land for mineral working | Area of land with planning permission for mineral extraction or associated tipping |
| Minerals development plans | Progress in development plans by minerals and waste planning authorities |
| The Building Control Monitoring Charges | Total charges income received (excluding VAT), total cost/expenditure incurred and surplus/deficit |
| Monitoring Returns (LSVT) | Monitoring and evaluation information on large scale voluntary transfer of dwelling stock |
| Monitoring Returns (ALMO) | Monitoring and evaluation information on arms length management organisations set up by local authorities to manage their dwelling stock |
| Monitoring Returns (PFI) | Monitoring and evaluation of Public Finance Initiative (PFI) schemes |

The principal datasets held at local authority level are as follows:

General Fund Revenue Accounts—Budgets and Grants from 1990–91

Business Improvement District Revenue Account transactions—2005–06

Revenue Outturn from 1990–91:

Quarterly Wages and Salaries, Interest Receipts and Payments from 1993–94

Monthly Borrowing and Lending from 1990–91 (Authorities in monthly sample only)

Quarterly Borrowing and Lending from 1993–94 (All authorities not in the monthly sample)

Capital Estimates 2005–06

Capital Payments and Receipts 1–3 for 2005–06 and also CPR4 for 2005–06

Capital Outturn Suite 2004–05

Capital Expenditure and Receipts

Supplementary Return—Personal Social Services

Financing of Capital Payments and Capital Account Summary

Supplementary Return

Capital Forecast 2005–06

Pension Funds Account 2004–05 (Pension authorities only)

Quarterly Council Tax and NDR from 1990–91

Quarterly Council Tax and NDR from 1990–91

Budget Requirement from 1994–95

Contributions to Non-Domestic Rates Pool—provisional from 1990–91

Downward Recalculation to one Provisional Contribution to Pool from 1990–91

Contributions to Non-Domestic Rates Pool—Outturn from 1990–91

Council Tax Base as at November from 1993–94

Council Tax Base Supplementary as at November from 2001–02

Quarterly Housing Monitoring information

Local authority rents, by district, from 1996

RSL rents, by district, from 1997

Mean house prices based on Land Registry data, by district, from 1996(quarterly)

Median house prices based on Land Registry data, by district, from 1996 (quarterly)

Lower quartile house prices based on Land Registry data, by district, from 1996

Property sales based on Land Registry data, by district, from 1996

Permanent dwellings started and completed, by tenure and district, 2003–04

Local authorities' action under the homelessness provisions of the 1985 and 1996 Housing Acts, by district

Sales of dwellings owned by local authorities, by district, from 2002–03

RSL stock, by district, from 1997

Local authority stock, by district, from 1996

*Best Value Performance Indicators:*

Overall satisfaction with the authority as a whole

Satisfaction with complaints handling (of those making complaints)

Satisfaction with cleanliness of public land

Satisfaction with household waste collection

Satisfaction with waste recycling (local facilities)

Satisfaction with waste disposal (local tips)

Satisfaction with transport information

Satisfaction with bus services

Satisfaction with sports and leisure facilities

Satisfaction with libraries

Satisfaction with museums/galleries

Satisfaction with theatres/concert halls

Satisfaction with parks and open spaces

Fire and Rescue Services: Primary fires, incidents attended, detailed description

Fire and Rescue Services: Secondary fires, monthly aggregate

Fire and Rescue Services: Operational Statistics: staffing, vehicles, inspections, health and safety

National land use database of previously developed land

Land use changes

Floorspace statistics (industrial and commercial property)

Planning applications: received, withdrawn, determinations, enforcement

Planning applications: refused/granted, speed of determination by development type of application

Planning applications: waste disposal, mineral extraction

Area of land with planning permission for mineral extraction or associated tipping classified by type of mineral, the area of land being worked, restored or as yet unworked

Progress in development plans by minerals and waste planning authorities

Building control charges: total charges income received (excluding VAT), total cost/expenditure incurred and surplus/deficit

Monitoring and evaluation information on large scale voluntary transfer of dwelling stock

Monitoring and evaluation information on arms length management organisations set up by local authorities to manage their dwelling stock

Monitoring and evaluation information on Public Finance Initiative (PFI) schemes

ODPM also possess a range of Local Authority level data containing information collected by other Government Departments and Agencies (e.g. Census data).

### Telephone Boxes (London)

**Mr. Burstow:** To ask the Deputy Prime Minister how many public telephone boxes have been removed in each London borough in each of the last five years; and what the most recent figures are for the total numbers of public telephone boxes in each borough. [9442]

**Jim Fitzpatrick:** The Office of the Deputy Prime Minister do not hold the information requested centrally and it could be obtained only at a disproportionate cost.

### Tenants' Rights

**Keith Vaz:** To ask the Deputy Prime Minister what plans he has to promote methods for tenants to obtain equity stakes in their homes. [6447]

**Yvette Cooper:** We have set out proposals for a social homebuy scheme, which would provide new opportunities for social tenants to buy a share of their rented home, in our consultation document "Homebuy—Expanding the Opportunity to Own" (a copy of which is available from the Library of the House).

Under our proposals, participating social tenants would buy at least 50 per cent. (or as large a share as they could afford) of their home's discounted value using any savings they have and/or a mortgage. We are consulting on two options for applying a monthly charge, similar to social rent, on the outstanding share: under one, this rent would apply to the entire outstanding share; under the other, this rent would only apply to outstanding shares worth more than 25 per cent. of the equity.

Consultation will close on 24 June. We intend to announce decisions in the autumn after considering responses, and to put new arrangements in place by April 2006.

### Under-occupation (Brent)

**Sarah Teather:** To ask the Deputy Prime Minister what assessment he has made of the impact of the London borough of Brent's policy of offering financial incentives to under-occupying tenants willing to move to smaller accommodation. [6394]

**Yvette Cooper:** Local authorities are responsible for developing a strategy for tackling housing issues in their area. Careful consideration needs to be given to the role provision of assistance to existing tenants to help them move to other accommodation, in either the social or private sector, might play.

In deciding their general policy on assistance, authorities need to be clear when giving financial support that it will be used in obtaining suitable

alternative long-term accommodation, that it represents good value for money and impacts on reducing housing pressures.

### University Accommodation

**Jim Cousins:** To ask the Deputy Prime Minister what decision has been made on whether accommodation *(a)* owned, *(b)* managed and *(c)* leased on behalf of universities and further education institutions will be exempt from the provisions of the Housing Act 2004. [6315]

**Yvette Cooper:** Regulations may be made specifying that certain accommodation managed by universities or other higher education establishments are not houses in multiple occupation (HMOs) for any purposes of the Housing Act 2004 (except part 1), and therefore not subject to the HMO licensing requirements. When deciding whether to exempt such accommodation from the licensing requirements, regard may be had to the extent to which the establishment is in conformity with any approved code of management practice.

Discussions with Universities UK and the Accreditation Network UK are well advanced on finalising the provisions of such a code, and compliance with it, by the end of July. This will enable any exceptions from HMO licensing to be in place when, as expected, the licensing provisions come into force in October.

## CABINET OFFICE

### Special Advisers

**Bob Spink:** To ask the Chancellor of the Duchy of Lancaster if he will list *(a)* the special advisers in his Department, *(b)* their specific areas of expertise and *(c)* the total cost of employing them in the latest year for which figures are available. [8833]

**Mr. Hutton:** I refer the hon. Member to the response given by my right hon. Friend the Prime Minister on 4 July 2005, *Official Report*, column 36W.

## FOREIGN AND COMMONWEALTH AFFAIRS

### Afghanistan

**Mr. Jim Cunningham:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the social and political situation in Afghanistan. [9313]

**Dr. Howells:** Everyday life for ordinary Afghans is continuing to improve. A nationwide development programme to support rural infrastructure has been established in over 3,500 communities across 31 provinces. 5.5 million children returned to school by March 2004 and over a third of Afghan schoolchildren are now girls. 72 hospitals, clinics and women's health care centres have been rebuilt. A vaccination campaign has almost eradicated polio and over 11 million children have been immunised against measles. A programme of water chlorination and well reconstruction is tackling water-borne diseases across the country.

Politically, the presidential election held in October 2004 was a tremendous success for the Afghan people. 70 per cent. of Afghans eligible to vote turned out, 40 per cent. of them women. Good progress is being made in preparations for the parliamentary and provincial elections scheduled for 18 September, with over 6,000 candidates and around 70 political parties registered to take part. A month-long voter registration programme launched on 25 June will update the electoral roll from the presidential election by some two million voters who were either not eligible or did not register in 2004.

### Biological and Toxin Weapons Convention

**Mr. Hancock:** To ask the Secretary of State for Foreign and Commonwealth Affairs when the effectiveness of the Biological and Toxin Weapons Convention will next be reviewed. [8401]

**Dr. Howells:** States Party to the Biological and Toxin Weapons Convention agreed at the Fifth Review Conference that the next review of the Convention would be before the end of 2006. No specific dates have yet been agreed by States Party.

### Correspondence

**Mr. Mullin:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter from the hon. Member for Sunderland, South of 13 May on behalf of a constituent, Cheryl Dennison. [9939]

**Ian Pearson:** I replied to my hon. Friend on 4 July.

### Departmental Expenditure

**Mr. Hayes:** To ask the Secretary of State for Foreign and Commonwealth Affairs what expenditure his Department has incurred in pursuit of its Objective 4: A strong role for the UK in a strong Europe, responsive to people's needs in each of the last five years, broken down by area of expenditure. [9041]

**Mr. Douglas Alexander:** Annual expenditure information, broken down by objective, is published annually in the Foreign and Commonwealth Office's resource accounts and departmental report. Expenditure by objective is listed in Schedule 5 of the resource accounts and in the appendices of the departmental report.

Copies of both publications are available in the Library of the House.

### Embassies

**Mr. Hood:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff are employed at each of the British embassies in the European Union; how many are employed at the British embassy in *(a)* Turkey, *(b)* Bulgaria and *(c)* Romania; and if he will make a statement. [8842]

**Mr. Douglas Alexander:** The number of staff employed at the British embassies in the EU and in Turkey, Bulgaria and Romania are as follows:

| | Number |
|---|---|
| Austria | 72 |
| Belgium | 72 |
| Cyprus | 74 |
| Czech Republic | 70 |
| Denmark | 64 |
| Estonia | 24 |
| Finland | 48 |
| France | 230 |
| Germany | 132 |
| Greece | 103 |
| Hungary | 83 |
| Ireland | 72 |
| Italy | 147 |
| Latvia | 34 |
| Lithuania | 33 |
| Luxembourg | 15 |
| Malta | 48 |
| Netherlands | 72 |
| Poland | 105 |
| Portugal | 64 |
| Slovakia | 31 |
| Slovenia | 26 |
| Spain | 138 |
| Sweden | 60 |

| | Number |
|---|---|
| Turkey | 98 |
| Bulgaria | 84 |
| Romania | 94 |

### English Wine

**Mr. Dismore:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will take steps to ensure that English wine is served *(a)* exclusively and *(b)* at the request of guests at receptions hosted by his Department during the EU presidency; and if he will make a statement. [8871]

**Mr. Douglas Alexander:** My officials have included in their planning the provision of British food and wine at presidency-related receptions hosted by the Foreign and Commonwealth Office during the six months of the presidency. We are aiming to serve British food and wine wherever possible

### EU Lobby Groups

**Mr. Hayes:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on EU funding of lobby groups; and if he will make a statement. [8985]

**Mr. Douglas Alexander:** European Union institutions are responsible for their own activities. EU grants are awarded through a transparent call for proposals or through the EU budget which is available for public scrutiny. Further details can be obtained from the UK Representations of the European Union's Institutions, contact details of which can be found at www.europe.eu.int

### EU Presidency

**Mr. Redwood:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether there are plans to increase the *(a)* budget and *(b)* staff of the Office of the President of the EU in 2005–06. [8787]

**Mr. Douglas Alexander:** This is a matter for the Council Secretariat. The EU budget is available for public scrutiny at:

http://europa.eu.int/eur-ex/lex/JOHtml.do?uri=OJ:L:2005:060:SOM:EN:HTML

**Mr. Redwood:** To ask the Secretary of State for Foreign and Commonwealth Affairs which EU *(a)* directives and *(b)* regulations the UK will seek to repeal during its presidency. [8875]

**Mr. Douglas Alexander:** Advancing the Better Regulation Agenda is a priority during the UK presidency of the EU. We are committed to working with the Commission, European Parliament and member states, who have all pledged to reduce the volume and burden of EU legislation.

Last week, Commission President Barroso announced that the Commission is looking at over 200 pending proposals which may be amended or withdrawn if they are not consistent with Lisbon economic reform goals. During our presidency, we shall continue to contribute actively to both this initiative and the EU's ongoing programme for simplifying existing legislation.

**Mr. Redwood:** To ask the Secretary of State for Foreign and Commonwealth Affairs what plans there are under the UK presidency to develop the Dutch system of deregulation in the EU. [8880]

**Mr. Douglas Alexander** *[holding answer 4 July 2005]:* I refer the hon. Member to the White Paper on the UK's Presidency of the European Union (Cm 6611). We are committed to working with other member states and the EU institutions to develop and share best practice on implementing the Better Regulation Agenda, including work on measuring administrative burdens as developed by the Dutch Government. In May, 11 member states, including the UK, signed a joint letter to the Commission pressing for further EU-level action in this area.

**Mr. Redwood:** To ask the Secretary of State for Foreign and Commonwealth Affairs what proposals for deregulation in the EU he expects the UK to table under its presidency. [8881]

**Mr. Douglas Alexander** *[holding answer 4 July 2005]:* Progress on the Better Regulation Agenda is a priority for our EU presidency. I refer the hon. Member to the White Paper on the UK's Presidency of the European Union (Cm 6611) and to my reply to him today (UIN 8875).

**Mr. Redwood:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many directives he expects to be agreed during the UK's presidency of the EU. [8882]

**Mr. Douglas Alexander** *[holding answer 4 July 2005]:* As presidency we will seek to take forward the inherited legislative agenda and make progress on a number of dossiers. Where negotiations in the Council and Parliament indicate that consensus on a particular dossier is possible, we will seek agreement. It is not possible to predict how many dossiers will be agreed at this stage. We will want to ensure that the Union's legislative action is consistent with the Better Regulation Agenda.

### EU Summit (Sheffield)

**Mr. Greg Knight:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the total cost, including policing costs, was of the recent EU summit on Justice and Home Affairs held in Sheffield. [7426]

**Paul Goggins** *[holding answer 28 June 2005]:* I have been asked to reply.

It is not possible to provide final figures for those costs directly attributable to the Home Office as not all invoices have been received.

The current estimate is £880,000.With respect to policing costs, the force's current estimate of cost is £1.5 million.

### EU Travel Ban

**Mr. Hayes:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list individuals subject to an EU travel ban who have been permitted entry into the EU in the last three years. [8974]

**Dr. Howells:** The Government are not able to provide such a list, as the EU does not maintain information on individuals subject to travel bans who have been permitted entry into the EU.

### European Constitution

**Mr. Hayes:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list those countries that have declared that they will continue the ratification process for the EU constitution. [9039]

**Mr. Douglas Alexander:** Belgium, Luxembourg, Malta, Cyprus, Estonia and the Czech Republic intend to proceed with their ratification processes for the EU constitutional treaty. The Irish Government have announced that they will not set a date for their referendum. Poland have not decided how, if at all, to proceed with ratification and the Polish President has said that a referendum in 2005 looks "unrealistic". The Swedish Government have announced that it will seek to postpone its parliamentary ratification process and the Finnish Government have already postponed parliamentary ratification. The Danish and Portuguese Governments have postponed their referendums.

**Mr. Hayes:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the consequences under Article IV-443(4) of the proposed EU constitution of 20 countries ratifying the constitution. [9040]

**Mr. Douglas Alexander:** The operation of the article in question is explained in the commentary on the EU constitutional treaty published on 26 January (Cm 6459).

**Mr. Hayes:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on planned expenditure in support of the public information campaign in connection with the European constitution. [9049]

**Mr. Douglas Alexander:** In line with previous activity, the Foreign and Commonwealth Office leads the Government's campaign to provide public information in connection with the European Union. Apart from those relating to the UK's presidency of the EU, no final decisions have yet been made on general EU communications activities for financial year 2005–06.

### Haiti

**Ms Abbott:** To ask the Secretary of State for Foreign and Commonwealth Affairs what role the Government will play in supporting efforts to hold free and fair elections in Haiti; and whether the Government are planning to send representatives with the EU election observing team to be present during the elections. [8942]

**Mr. Douglas Alexander:** We are contributing to the international community's efforts to assist the Transitional Government in providing the necessary conditions for free and fair elections in late 2005. The UK contributes 7.43 per cent. of the assessed budget for the UN Stabilisation Mission in Haiti (MINUSTAH)—likely to be around £20 million in 2005–06. We supported the recent renewal and strengthening of MINUSTAH's mandate until February 2006, with an increase in troop numbers of approximately 750 over the election period. The European Commission plans to send an observation mission to Haiti in late 2005, but has yet to announce the make-up of that mission. The UK puts forward potential observers for all EU election observation missions.

### Iran

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects the UK, France and Germany to re-start negotiations with Iran on its use of nuclear technology. [8416]

**Dr. Howells:** Discussions continue between Iran and the UK, France and Germany (the "E3"), supported by the EU high representative, under the framework agreed in Paris in November 2004. The E3 have agreed to present further ideas, including on long-term arrangements for Iran's nuclear programme, at the end of July or the beginning of August. Officials are currently working on these ideas. Long-term arrangements must provide objective guarantees that Iran's nuclear programme is exclusively for peaceful purposes.

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the robustness of the electoral system in Iran following the recent presidential elections; and what discussions he has had with *(a)* the opposition in Iran and *(b)* the Iranian opposition in the UK on the implications of the election. [8417]

**Dr. Howells:** In his statement of 25 June, my right hon. Friend the Foreign Secretary expressed concern that there were serious deficiencies in the election process by international standards. A copy of the statement is available on the Foreign and Commonwealth Office's website: www.fco.gov.uk/policy/news/press releases. He noted that an unelected body—the Guardians Council—excluded most candidates who registered, and many other potential candidates were deterred by the election procedures from even putting their names forward. For the Iranian people to have a fully free choice about their country's future, they should be able to vote for candidates who

hold the full range of political views, not just candidates selected for them. In addition, several candidates, senior figures in the Government and election officials complained of widespread interference and electoral malpractice by the security forces and other elements linked to the regime.

The Foreign Secretary has had no formal contact with Iranian opposition groups, either in Iran or the UK.

**Daniel Kawczynski:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to improve relations with Iran. [8939]

**Dr. Howells:** Through a bilateral policy of critical engagement, the UK, France and Germany (the "E3') negotiation and the EU's dialogue with Iran, the Government seek to encourage Iran to address policies of concern, particularly regarding its nuclear and ballistic missile programmes; its approach to terrorism and opposition to the Middle East Peace Process; and its respect for human rights and fundamental freedoms. Our engagement is conditional. Progress in these areas will open up new opportunities for Iran. But we and the EU have made clear that relations with Iran can move forward only if Iran takes action to address our political concerns.

### Iraq

**Mr. Hayes:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the *(a)* timetable and *(b)* scope is of the Court of Auditors' investigation into a possible breach of the embargo to the former Iraqi regime; which companies are being investigated; and if he will make a statement. [9023]

**Mr. Douglas Alexander:** This is a question for the Court of Auditors. They are an independent institution. We cannot answer on their behalf.

### Lithuania

**Mr. Keetch:** To ask the Secretary of State for Foreign and Commonwealth Affairs what ministerial visits to Lithuania *(a)* have taken place in the past 12 months and *(b)* are planned for the next 12 months; and if he will make a statement. [6167]

**Mr. Douglas Alexander:** There have been five ministerial visits to Lithuania over the last year. My hon. Friend the Parliamentary Under-Secretary of State for Trade and Industry, (Mr. Sutcliffe) lobbied on the Working Time Directive in June 2004, the former hon. Member for Hove (Ivor Caplin), the then Parliamentary Under-Secretary of State at Ministry of Defence visited in January, my right hon. and noble Friend the former Minister of State at the Foreign and Commonwealth Office (Baroness Symons of Vernham Dean) attended a NATO ministerial meeting in April (there was no bilateral programme) and my hon. Friend the Parliamentary Under-Secretary of State Department for Environment, Food and Rural Affairs, (Mr. Bradshaw) was in Lithuania recently (13–14 June) as part of a pre-Presidency tour. I visited Lithuania on 27 June, and held talks with the President, Prime Minister and Foreign Minister.

My right hon. Friend the Foreign Secretary had planned to visit all the Baltic States in 2004, but parliamentary business intervened and the visit was postponed. It is not our practice to announce visits until they are firm. Because of the unpredictable nature of world events, final decisions on overseas visits are often not possible until very shortly before the day of travel.

The Foreign Secretary and most UK Ministers meet with their Lithuanian and other EU colleagues in the course of regular EU business.

### Middle East

**Lynne Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 28 June 2005, *Official Report*, column 1480W, on the Middle East, whether any of the UK's EU partners have raised the possibility of enforcing the human rights conditions of the EU-Israel Association Agreement with the UK. [9667]

**Mr. Douglas Alexander:** The EU has regularly raised issues of concern, including human rights, at EU/Israel Association Councils. We, with other member states, will consider in due course what issues to raise in advance of the EU/Israel Association Council scheduled to be held at the end of this year.

**Lynne Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 28 June 2005, *Official Report*, column 1480W, on the Middle East, when the EU-Israel Association Committee is next due to meet. [9668]

**Mr. Douglas Alexander:** The next EU-Israel Association Committee is expected to take place during the Austrian EU Presidency in the first half of 2006.

**Lynne Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 28 June 2005, *Official Report*, column 1480W, on the Middle East, if he will give an outline of Ariel Sharon's response to the UK's concerns on *(a)* the impact on human rights of barrier construction, *(b)* restrictions imposed on the freedom of movement of Palestinian people and *(c)* settlement expansion; and what assessment he has made of the response. [9669]

**Dr. Howells:** Prime Minister Sharon's stated position is that the barrier and restrictions on freedom of movement are defensive measures necessary to protect Israel against terrorism. On settlements, Prime Minister Sharon has stated that no new settlements are being built and has said that following the completion of disengagement, the Israeli Government will dismantle outposts built since March 2001.

The UK Government's consistent view is that, while Israel has the right to protect its citizens from terrorist attacks such as suicide bombings, which we condemn absolutely, Israel must act within international law. Settlement construction and the building of the barrier on occupied land are contrary to international law.

### Nepal

**Jeremy Corbyn:** To ask the Secretary of State for Foreign and Commonwealth Affairs what system is

in place to check the end-use control of items of military assistance that have been gifted to Nepal as non-lethal. [8632]

**Dr. Howells:** All of the military equipment the UK has gifted to Nepal since 2001 as part of our conflict prevention strategy has been non-lethal and cannot easily be adapted for offensive purposes. The main items of hardware have been two transport helicopters and two unarmed Short Take-Off and Landing (STOL) surveillance aircraft. We have also provided land rovers, bomb disposal equipment and basic individual equipment.

Both the helicopters and the STOL aircraft were provided on the basis of a Memorandum of Understanding between the UK and the Government of Nepal, under which the Nepalese have committed themselves not to use or adapt the aircraft for attack purposes. The Defence Attaché at the British Embassy in Kathmandu and his staff make regular random visits to inspect the helicopters, only one of which survives owing to accident, and the STOL aircraft to ensure that they have not been fitted with offensive capabilities. In the case of the STOL aircraft such fixtures would involve considerable structural alteration. We have seen no evidence to suggest that these aircraft have been armed or used improperly. Periodically we remind the Nepalese of their obligations as set out in the Memorandum of Understanding governing the use of this equipment.

### Non-EU Students

**Mr. Stephen O'Brien:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the likely effect of the decision to abolish the right of appeal against refused visa applications on the number of prospective non-EU students applying to higher education institutions in the UK. [8034]

**Mr. McNulty:** I have been asked to reply.

The Immigration, Asylum and Nationality Bill removes appeal rights for all students refused entry clearance, a policy that was announced in the Five Year Strategy Controlling our borders: Making migration work for Britain. Once the Act comes into effect genuine students will continue to be granted entry clearance to study in the United Kingdom. The majority of applications for entry clearance as a student are granted and data from 2003 indicates that only about one percent of students who gained entry into the UK did so as the result of a successful appeal. Since 2001–02 the number of people granted entry clearance to study has increased by over 20 per cent. from 121,466 to 146,538 in 2003–04. Entry into the UK to study should be a privilege and not a right and changes to the appeals system reflect this distinction. We will maintain appeal rights where fundamental issues are raised, such as when people are refused entry clearance to visit family members. Other countries, including Canada and Australia, confer no appeal rights on people who are refused entry clearance as students. Proposals are currently being developed to increase, in a manageable way, the number of people coming to the UK to study; to provide these people with a high quality education; and to ensure the integrity of the immigration control. The requirements of the new system will be as objective and verifiable as possible and for the system to be as quick and easy to operate. A formal consultation exercise will be undertaken.

### Russia

**Sir Menzies Campbell:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the security of nuclear weapons and related materials in Russia; and if he will make a statement. [9022]

**Mr. Straw:** The Russian authorities have made clear that they accord the highest priority to security at nuclear weapons storage sites.

With regard to nuclear materials, the UK is currently implementing a series of projects under the Global Partnership to enhance security of materials across the Former Soviet Union. A number of projects are already under way. Discussions are on-going with the Russian authorities to identify potential future projects for UK support. Initial visits to sites confirm that in many cases significant security measures are already in place, funded both by the Russian Federation and the international community. However, we are looking to take forward a number of both bilateral and multilateral projects to assist in improvements to the physical protection of certain other facilities.

### Treaty Challenges

**Mr. Hayes:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the occasions since 1997 where the Government have formally challenged the legal treaty basis for legislative activity at European Community level. [8983]

**Mr. Douglas Alexander:** The UK Government have formally challenged the legal treaty basis for legislative activity on two occasions. They are as follows:

C-66/04 UK *v.* Parliament and Council (ongoing)

C-217/04 UK *v.* Parliament and Council (ongoing).

### Turkey

**Mrs. James:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on Turkey's proposed accession to the European Union. [9594]

**Mr. Douglas Alexander:** The Government strongly supports Turkey's bid to join the EU. We look forward to opening accession negotiations with Turkey on 3 October 2005 as agreed by the European Council in December 2004 and subsequently reaffirmed by the June European Council.

### Visas

**David T.C. Davies:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many applications for visitors visas were *(a)* received and *(b)* refused in each of the last five years in (i) Nigeria,

(ii) Guyana, (iii) Pakistan, (iv) China and (v) India; and what proportion of those granted were granted at Tier One. [8793]

**Dr. Howells:** The information on applications for visitors visas for the countries and categories required, is as follows:

*Visit visa applications (VVA) received*

| | 1999–2000 | 2000–01 | 2001–02 | 2002–03 | 2003–04 |
|---|---|---|---|---|---|
| Nigeria | 70,557 | 77,818 | 99,449 | 134,793 | 107,911 |
| Guyana | 1,448 | 1,659 | 1,841 | 1,961 | 1,342 |
| Pakistan | 70,262 | 82,099 | 100,106 | 53,665 | 83,566 |
| China | 47,231 | 48,673 | 60,021 | 76,232 | 77,765 |
| India | 170,051 | 154,081 | 160,612 | 176,364 | 232,519 |

*VVA refused*

| | 1999–2000 | 2000–01 | 2001–02 | 2002–03 | 2003–04 |
|---|---|---|---|---|---|
| Nigeria | 9,669 | 9,145 | 14,665 | 30,905 | 33,189 |
| Guyana | 197 | 141 | 168 | 239 | 303 |
| Pakistan | 12,571 | 13,770 | 23,382 | 6,124 | 9,032 |
| China | 3,690 | 1,626 | 1,867 | 4,425 | 6,226 |
| India | 17,069 | 18,284 | 19,496 | 27,373 | 36,631 |

*Percentage Tier One non-settlement applications*

| | 1999–2000 | 2000–01 | 2001–02 | 2002–03 | 2003–04 |
|---|---|---|---|---|---|
| Nigeria | 93 | 90 | 94 | 90 | 91 |
| Guyana | 100 | 100 | 100 | 100 | 100 |
| Pakistan | 81 | 87 | 100 | 82 | 96 |
| China | 86 | 90 | 246 | 78 | 82 |
| India | 98 | 98 | 98 | 99 | 100 |

Statistics for the proportion of visitor visas granted at Tier One, applications where decisions are made without the need for an interview, are not available. The figures provided represent the percentage of non-settlement visa applications, which include visit visas, that were dealt with at Tier One within 24-hours.

**David T.C. Davies:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many appeals there have been against a refusal of a visitor's visa in each of the past five years; how many were granted; and what the cost to public funds was of those successful appeals. [8794]

**Bridget Prentice:** I have been asked to reply.

The following table contains details about the number of appeals against a refusal of a visitor's visa received by the Immigration Appellate Authority (IAA) from 2000 to 2004. The table also gives the percentage of appeals decided by the IAA that were granted. The Asylum and Immigration Tribunal, which replaced the IAA on 4 April 2005 does not split cost by case type and therefore we cannot provide the cost to public funds of the successful appeals without incurring disproportionate costs.

| | 2000 | 2001 | 2002 | 2003 | 2004 |
|---|---|---|---|---|---|
| Family visit visa appeals received[1] | 137 | 4,366 | 7,997 | 15,778 | 28,803 |
| Family visit visa appeal decisions[1] | 66 | 4,283 | 7,091 | 14,214 | 22,707 |
| Family visit visa appeal percentage granted[1] | 31 | 54 | 53 | 48 | 48 |

[1] The table excludes appeals to the Immigration Appeal Tribunal

### Zimbabwe

**Mr. Hayes:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many UK nationals have reported to his officials criminal activity undertaken against them in Zimbabwe without redress from the Zimbabwean authorities. [9026]

**Ian Pearson:** Officials in Harare and London are not aware of any criminal cases in Zimbabwe where no action has been taken by the authorities. They have, however, received complaints about the slowness of the judicial system.

## NORTHERN IRELAND

### Charity Law

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what representations he has received following the Government's proposals on charity law in Northern Ireland. [9520]

**Mr. Hanson:** Approximately 2,600 copies of the public consultation document on Charities Administration and Legislation in Northern Ireland were distributed by the Department for Social Development (DSD), and 106 responses were received

from a wide range of respondents. In addition officials attended 10 seminars across Northern Ireland presenting the key proposals.

The majority of respondents generally welcomed the key proposals to establish a Northern Ireland Charities Commission, a compulsory register for all charities operating in Northern Ireland and the submission of annual returns by charities; though some concerns were expressed about specific matters of operation.

DSD is presently reviewing the responses and monitoring progress of the draft Charities Bill in England. Final proposals will be submitted and considered shortly.

### Fast Response Team (DOE)

**Lady Hermon:** To ask the Secretary of State for Northern Ireland if he will establish a fast response team within the Department of the Environment *(a)* at weekends and *(b)* during public holidays to prevent (i) the felling of trees and (ii) the demolition of historic buildings prior to a tree preservation order or listing. [9124]

**Angela E. Smith:** The planning service already has local contact and response arrangements in place at divisional offices and the infrequency of such incidents would not justify the establishment of fast response teams. There would also be legal and financial implications to consider.

It is felt that a better use of scarce resources would be to re-examine current arrangements with a view to improving response times should such incidents occur.

### Higher Education (Overseas Students)

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many students from the European Union have been accepted to attend higher educational facilities in Northern Ireland in the next three years. [8778]

**Angela E. Smith:** Students may apply to courses at higher education institutions through the Universities and Colleges Administration Service (UCAS) or directly to the institutions. The lastest data available from UCAS show that at 24 March 2005, 19,064 applications from the European Union has applied to Northern Ireland Higher Education Institutions for entry in 2005. Of the 19,064 applicants, 14,887 were from Northern Ireland, 1,386 from Great Britain, 2,672 from Republic of Ireland and 119 from other European Union countries. Information on applicants accepted will be published by UCAS on their website during August 2005 (http://www.ucas.ac.uk/new/press/index.html).

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many students from countries outside the EU have been accepted to attend higher educational facilities in Northern Ireland in the next three years. [8779]

**Angela E. Smith:** Students may apply to courses at higher education institutions through the Universities and Colleges Administration Service (UCAS) or directly to the institutions. The latest data available from UCAS show that at 24 March 2005, 587 applications from outside the European Union has applied to Northern Ireland Higher Education Institutions for entry in 2005. Information on applicants accepted will be published by UCAS on their website during August 2005 (http://www.ucas.ac.uk/new/press/index.html).

### Housing Benefit

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many people in Northern Ireland were in receipt of housing benefit in each year since 2001. [9521]

**Mr. Hanson:** The number of people in receipt of housing benefit in each year since 2001 is as follows:

| | *Total* |
|---|---|
| 2001–02 | 173,631 |
| 2002–03 | 175,868 |
| 2003–04 | 169,017 |
| 2004–05 | 176,740 |

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many recipients of housing benefit there were in each district council area in Northern Ireland in the last year for which figures are available. [9523]

**Mr. Hanson:** The total number of recipients of housing benefit in each district council area in Northern Ireland in 2004–2005 is as follows:

| *Area* | *Tenants* | *Owner occupiers* |
|---|---|---|
| Antrim | 2,636 | 730 |
| Armagh | 2,991 | 1,754 |
| Ballycastle | 1,273 | 487 |
| Ballymena | 3,682 | 985 |
| Ballymoney | 1,866 | 690 |
| Banbridge | 2,210 | 927 |
| Bangor | 3,662 | 1,249 |
| Belfast | 33,773 | 8,676 |
| Carrickfergus | 2,277 | 630 |
| Castlereagh | 3,248 | 1,042 |
| Coleraine | 4,220 | 1,186 |
| Cookstown | 1,774 | 1,580 |
| Craigavon | 6,418 | 2,533 |
| Down | 3,810 | 1,552 |
| Dungannon | 2,943 | 2,226 |
| Fermanagh | 3,500 | 2,291 |
| Larne | 2,119 | 612 |
| Limavady | 2,193 | 1,040 |
| Lisburn | 6,487 | 2,199 |
| Londonderry | 12,861 | 3,911 |
| Magherafelt | 1,985 | 1,309 |
| Newry | 6,100 | 4,623 |
| Newtownabbey | 4,939 | 1,720 |
| Newtownards | 4,235 | 1,309 |
| Omagh | 3,400 | 1,604 |
| Strabane | 3,500 | 1,773 |
| Total | 128,102 | 48,638 |

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what level of fraud in housing benefit payments has been discovered in each year since 2001. [9525]

**Mr. Hanson:** The estimated levels of fraud in housing benefit payments, administered by NI Housing Executive, for the rented sector for each year since 2001 taken from the housing benefit review (HBR) are shown as follows:

| | *Percentage of benefit expenditure affected by fraud* |
|---|---|
| 2001–02 | 2.1 |
| 2002–03 | 1.9 |
| 2003–04 | 0.0 |

*Note:*
The HBR also provides an estimate for the level of expenditure affected by error. When added to the fraud figures above the percentage figures increase to 3.8 per cent., 3.8 per cent. and 1.9 per cent. for the three years above.

The estimate for 2004–05 is not yet available.

The levels of fraud in housing benefit payments, administered by Rates Collection Agency (RCA), for the owner occupied sector for each year since 2001 measured through internal investigations by the RCA's housing benefit branch are shown as follows:

| | *Percentage of benefit expenditure affected by fraud* |
|---|---|
| 2001–02 | [1] |
| 2002–03 | [1] |
| 2003–04 | 0.42 |
| 2004–05 | 0.19 |

[1] Figure not available.

### Housing Executive Rents

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what the change in Housing Executive rents was in each year since 1997. [9524]

**Mr. Hanson:** Northern Ireland Housing Executive rent increases from 1997 are as follows:

| | *Percentage* |
|---|---|
| 1997–98 | 4 |
| 1998–99 | 4.8 |
| 1999–2000 | 4.5 |
| 2000–01 | 4.5 |
| 2001–02 | 3 |
| 2002–03 | 3 |
| 2003–04 | 3.25 |
| 2004–05 | 3 |
| 2005–06 | 3.1 |

### Off-road Vehicles

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland (1) what measures are in place to tackle the illegal use of quads and scrambler bikes in Northern Ireland; [7825]

(2) if he will introduce legislation to give the Police Service of Northern Ireland power of seizure in the case of illegal use of scramblers and quads in Northern Ireland. [7826]

**Mr. Woodward:** Police currently have enforcement powers under the relevant aspects of the Road Traffic (Northern Ireland) Order 1995 when incidents of illegal use of quads and scramblers occur on roads or public places. Where certain grounds are met, the PSNI will report a person for prosecution.

Some District Commands, in particular those where a habitual problem exists, have adopted a pro-active approach to tackle this issue producing information leaflets which are distributed both to officers and members of the public. These outline the responsibilities of people using these vehicles and the minimum legal requirements associated with their use. In addition to the owners of such vehicles and the parents of children who ride them, contact has also been made with motorcycle retailers, reminding them of the need to encourage a responsible and legal use of such vehicles by members of the public.

The Government are committed to ensuring that the police have the powers they need to tackle illegal use of scramblers and quads. The Draft Road Traffic (Amendment) (Northern Ireland) Order 2005 , which is soon to be published for public consultation, will contain a provision to give the Police Service of Northern Ireland the powers to seize motor vehicles, including quads and scramblers, being driven on public roads while uninsured.

### Phoenix Natural Gas

**Lady Hermon:** To ask the Secretary of State for Northern Ireland whether Phoenix Natural Gas (PNG) Ltd. and its parent company East Surrey Holdings have confirmed to the Government in advance of their proposed takeover by Terra Firma that PNG will continue to comply with the regulatory agreement it reached with the Northern Ireland Authority for Energy Regulation in August 2004. [9454]

**Angela E. Smith:** Phoenix Natural Gas (PNG) and East Surrey Holdings have both confirmed their commitment to fully implementing the terms of the 2004 regulatory agreement to Government. Terra Firma has also indicated its intention to ensure that PNG continues to operate in accordance with the terms of the agreement.

### Planning (Enforcement/Appeals)

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many enforcement officers are employed by the planning service in each divisional planning area; and how many posts are vacant. [8798]

**Angela E. Smith:** The total complement of enforcement officers within the planning service is 49. There are currently six vacancies. The following table provides a breakdown of the figures by division.

| *Division* | *Complement* | *Number of vacancies* |
|---|---|---|
| Ballymena | 7 | 1 |
| Belfast | 8.5 | 1 |
| Craigavon | 7.5 | 0 |
| Downpatrick | 7.5 | 0 |
| Coleraine/Londonderry | 7.5 | 1 |
| Omagh/Enniskillen | 7 | 3 |
| HQ Special Studies Section | 4 | 0 |

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many planning appeals on the grounds of non-determination have been pursued by applicants in the Province since 2000. [8797]

**Angela E. Smith:** From 1 January 2000 to 30 June 2005 there have been 613 planning appeals lodged on the grounds of non-determination.

### Police Stations

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what plans he has for the outsourcing of cleaning services in police stations in Northern Ireland. [7828]

**Mr. Woodward:** In response to Recommendation 91 of the Patten Report, the Police Service of Northern Ireland carried out a review of the future arrangements for cleaning services. This review concluded in October 2004 and the project board concluded that the cleaning service to the PSNI Estate should be competitively tendered with a view to outsourcing.

The terms and conditions of service of cleaning staff is a matter for the Chief Constable. No decisions have yet been made. I understand that if any changes were made the standard of cleaning service would be maintained and any effects on staff would be managed within the TUPE framework.

### Schools

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how much of the education budget has been set aside for breakfast and after-school clubs in the South East Education and Library Board area for the next three years; and if he will make a statement. [6682]

**Angela E. Smith:** The South Eastern Education and Library Board has not set aside funding from its budget allocation for either breakfast or after-school clubs and has, at the moment, no plans to do so for the next two years.

However, the South Eastern Education and Library Board is involved in a bid to the Integrated Development Fund for funds totalling £2 million over three years. The bid focuses on schools in the Colin area and envisages action in four key areas—counselling services; breakfast and after school clubs; early years and youth interventions.

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how much he plans to allocate to improving the quality of school meals in the Province, broken down by Education and Library Board area. [6670]

**Angela E. Smith:** £2.5 million has been made available in 2005–06 to improve the quality of school meals in Northern Ireland, with further funding in subsequent years. The Department of Education is currently considering the results of the school meals pilot with individual school authorities in order to determine the best way forward and specific allocations for 2005–06.

Future years allocations will be determined nearer the time.

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what the policy of the Education and Library Boards in Northern Ireland is in relation to the provision of school transport for disabled children, with particular reference to those children who are temporarily accommodated in overnight short break accommodation for respite care; and how this policy was formulated. [9125]

**Angela E. Smith:** The policy for transport assistance does not differentiate between pupils on the grounds of disability, except where the pupil is in receipt of a statement of special educational needs that includes a requirement for the provision of transport.

Responsibility for the provision of transport assistance in respect of pupils availing of respite care, facilities rests with the Health and Social Services Trusts, since the respite venue is not the child's normal home. However, Education and Library Boards work in partnership with the relevant trust to facilitate such transport provision. For example, where there is surplus capacity on a board vehicle a concessionary seat may be offered to a pupil on the understanding that the concession may have to be withdrawn at any time.

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many teachers are on long-term stress-related sick leave in each board area, broken down by *(a)* primary and *(b)* post-primary levels of education. [8780]

**Angela E. Smith:** The number of teachers in each board area who are currently on stress-related sick leave is as follows:

*Current number of teachers on stress-related sick leave*
*(20+ continuous days)*

| *Board area* | *Primary (including Nursery)* | *Post-primary* |
|---|---|---|
| Belfast | 7 | 2 |
| Western | 6 | 8 |
| North Eastern | 11 | 3 |
| South Eastern | 6 | 4 |
| Southern | 7 | 15 |
| Total | 37 | 32 |

## HEALTH

### Abortions

**Mr. Amess:** To ask the Secretary of State for Health under which section of the Abortion Act 1967 the termination of pregnancy was performed for each of the maternal deaths associated with termination of pregnancy for the period 1981 to 1999; at what stage of gestation the pregnancy was in each case; and what the age of the mother was. [8121]

**Caroline Flint:** The following information has been taken from the relevant published triennial report on confidential inquiries into maternal deaths in the United Kingdom. This is the only information available as, after preparation of the report and before publication, all the maternal deaths report forms and related documents and files are destroyed. Between 1981 and 1999, there were 24 maternal deaths associated with termination of pregnancy.

Grounds for the abortion were only stated in the reports for one case, which said,

"fetal abnormalities incompatible with life."

The available information for gestation and age is shown in the following tables.

| *Gestation (weeks)* | *Number of cases* |
|---|---|
| Under 10 | 6 |
| 10 to 12 | 5 |
| 13 to 19 | 8 |
| 20 plus | 1 |
| "Early pregnancy" | 1 |
| "Mid trimester" | 3 |

| *Age (years)* | *Number of cases* |
|---|---|
| 16 | 1 |
| "20s" | 3 |
| "30s" | 4 |
| "Young woman" | 6 |
| Not stated | 3 |
| "Less than 35" | 4 |
| "More than 35" | 3 |

### Accident and Emergency Services

**Mr. Dismore:** To ask the Secretary of State for Health what the total number of accident and emergency attendances was for each NHS region for each of the last three years for which records were available. [7061]

**Mr. Byrne:** Data by strategic health authority is available on the Department's website at www.performance.doh.gov.uk/hospitalartivity/data_requests/a_and_e_attendances.htm.

### Adult Social Care

**Sandra Gidley:** To ask the Secretary of State for Health what plans she has to produce a White Paper on adult social care; and if she will make a statement. [9075]

**Mr. Byrne:** The Green Paper, "Independence, Well-being and Choice: our vision for the future of social care for adults in England", was published for consultation on 21 March 2005. The consultation period closes on 28 July 2005. We will need to take account of the responses we have received from the public before making any decisions about next steps.

### Alcohol Abuse

**Mr. Burstow:** To ask the Secretary of State for Health what assessment her Department has made of the number of children admitted to hospital where the primary diagnosis is mental and behavioural disorders due to the use of alcohol. [8015]

**Caroline Flint:** The latest data that is available for people up to the age of 17 admitted to hospital where the primary diagnosis is mental and behavioural disorders due to the use of alcohol for 2003–04 in England is 3,934.

The Government published the Alcohol Harm Reduction Strategy on 15 March 2004, which aims to prevent any increase in alcohol related harms in England.

**Steve Webb:** To ask the Secretary of State for Health how many alcohol-related incidents required a response by ambulance services in *(a)* England and *(b)* each ambulance trust in each year since 1997. [8093]

**Mr. Byrne:** The information requested is not centrally collected.

### Alliance Medical Ltd.

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to the answer of 16 June 2005, *Official Report*, columns 629–30W, to the hon. Member for North Durham (Mr. Jones), on Alliance Medical Ltd. what the nature was of the issues raised with Alliance Medical Ltd. and the strategic health authority. [8235]

**Mr. Byrne:** Representation was made regarding the utilisation of the existing national health service magnetic resonance imaging facility in the Durham and Tees Valley strategic health authority's area.

**Mr. Kevan Jones:** To ask the Secretary of State for Health how many complaints have been made through the central negligence scheme by patients receiving treatment provided by Alliance Medical. [7556]

**Mr. Byrne** *[holding answer 27 June 2005]:* The NHS Litigation Authority's clinical negligence scheme for trusts has not received any claims in relation to Alliance Medical Ltd.

**Mr. Kevan Jones:** To ask the Secretary of State for Health what dates have been set for review of Alliance Medical's contract to provide scanning services in the NHS. [7557]

**Mr. Byrne** *[holding answer 27 June 2005]:* Performance is monitored weekly, quarterly and annually in accordance with the contract.

**Mr. Kevan Jones:** To ask the Secretary of State for Health who is responsible for payment of utility bills incurred by Alliance Medical for the site it occupies in Middlesbrough. [8259]

**Mr. Byrne** *[holding answer 30 June 2005]:* The modest revenue costs incurred for utility bills are borne by the host national health service trust.

**Mr. Kevan Jones:** To ask the Secretary of State for Health (1) how many residents of Chester-le-Street have had scans provided by Alliance Medical; [8725]

(2) how many residents of Stanley have had scans carried out by Alliance Medical. [9394]

**Mr. Byrne** *[holding answer 4 July 2005]:* The information requested is not centrally collected.

### Alzheimer's Disease

**Sandra Gidley:** To ask the Secretary of State for Health what estimate she has made of the number of Alzheimer's patients who are being treated with antipsychotic drugs. [7937]

**Mr. Byrne:** The data requested are not collected by the Department.

### Care Homes

**Mr. Hoyle:** To ask the Secretary of State for Health how many care home beds in *(a)* Lancashire and *(b)* Chorley are operated (i) privately and (ii) by local authorities. [7624]

**Mr. Byrne:** At 31 March 2001, in Lancashire, 15,900 care home beds were provided by the private and voluntary sectors and 1,900 beds by the council. Data are not available for Chorley.

I understand from the Chair of the Commission for Social Care Inspection (CSCI) that figures for later years were collected by the National Care Standards Commission, now CSCI, but comparable details are not available.

**Mr. Hoyle:** To ask the Secretary of State for Health what the average cost per week is in of a care home bed in *(a)* Lancashire and *(b)* Chorley; and what the waiting time for a care bed is in (i) Chorley and (ii) Lancashire. [7625]

**Mr. Byrne:** Information is not held centrally on the average cost per week of care homes in Lancashire and Chorley.

Data on waiting times for care beds are not collected centrally. However, a list of residential vacancies at Lancashire County Council Quality Accredited Homes is distributed to the area social work teams on a weekly basis.

**Mr. Burstow:** To ask the Secretary of State for Health how many and what percentage of care homes for older people *(a)* exceeded, *(b)* met, *(c)* almost met and *(d)* did not meet the national minimum standard for medication in 2004–05. [6655]

**Mr. Byrne:** In 2004–05, 10,571 older peoples' care homes were inspected against standard nine, the medication standard, of the national minimum standards for care homes for older people.

34.4 per cent., of those homes inspected almost met the national minimum standard for medication. 54.3 per cent., met the standard and 1.2 per cent., exceeded it. 10.1 per cent., did not meet this requirement.

**Sandra Gidley:** To ask the Secretary of State for Health what assessment she has made of the extent of social isolation of residents in the care home sector. [7936]

**Mr. Byrne:** Standards 12 and 13 of the National Minimum Standards for care homes for Older People refer specifically to social contact. These standards should be taken into account by the Commission for Social Care Inspection when inspecting a home in conjunction with regulation 16 of the care homes regulations.

### Carer Assessments

**Mr. Burstow:** To ask the Secretary of State for Health how many carer assessments and reviews made under the Carers and Disabled Children Act 2000 were undertaken in each year since 2000, in each London borough. [8428]

**Mr. Byrne:** Information on the number of carer assessments carried out, separately or jointly with the client, for the years 2000–01 to 2003–04 is shown in the table.

*Number of carer assessments by councils with social services responsibilities in London—2000–01 to 2003–04*

*Rounded number*

| *Councils with social services responsibilities* | *2000–01* | *2001–02* | *2002–03* | *2003–04*[1] |
|---|---|---|---|---|
| London[2] | 17,790 | 21,230 | 34,910 | 40,080 |
| *Inner London* | | | | |
| Camden | 520 | 1,330 | 1,110 | 1,040 |
| Greenwich | 320 | 350 | 150 | 260 |
| Hackney | 130 | 350 | 380 | 900 |
| Hammersmith and Fulham | 590 | 700 | 700 | 1,560 |
| Islington | 570 | 470 | [3]— | 60 |
| Kensington and Chelsea | 150 | 300 | 680 | 780 |
| Lambeth | 210 | 400 | 300 | 850 |
| Lewisham | 200 | 1,150 | 2,050 | 1,870 |
| Southwark | 1,350 | 1,110 | 960 | 1,540 |
| Tower Hamlets | 620 | 320 | 150 | 2,190 |
| Wandsworth | 370 | 280 | 730 | 230 |
| Westminster | 1,060 | 840 | 1,140 | 1,520 |
| City of London | 10 | 30 | 40 | 40 |
| *Outer London* | | | | |
| Barking and Dagenham | 800 | 780 | 1,350 | 620 |
| Barnet | 1,760 | 1,730 | 3,050 | 700 |
| Bexley | 450 | 730 | 970 | 1,250 |
| Brent | 390 | 360 | 2,980 | 2,800 |
| Bromley | 500 | 410 | [3]— | 2,080 |
| Croydon | 2,100 | 1,730 | 1,980 | 2,450 |
| Ealing | 190 | 90 | 180 | 170 |
| Enfield | 30 | 50 | 340 | 2,210 |
| Haringey | 40 | 270 | 330 | 1,250 |
| Harrow | 1,590 | 480 | 550 | 1,540 |
| Havering | 550 | [3]— | 1,810 | 1,800 |
| Hillingdon | 330 | 810 | [3]— | [3]— |
| Hounslow | 780 | 590 | 490 | 1,080 |
| Kingston-upon-Thames | 190 | 260 | 400 | [3]— |
| Merton | 280 | 290 | 330 | 840 |
| Newham | 210 | 110 | 280 | 380 |
| Redbridge | 900 | 1,930 | 1,900 | 1,940 |
| Richmond upon Thames | 10 | 210 | 1,490 | 1,830 |
| Sutton | 320 | 260 | 320 | 930 |
| Waltham Forest | 300 | 480 | 1,570 | 700 |

[1] The carers return was redefined in 2003–04 to include carers assessed or reviewed. Data for previous years refers to assessments only. It is important to note this change when interpreting the data.

[2] Totals includes estimates for missing data.

[3] Missing data

RAP proforma A4.

### Community Equipment Services

**Mr. Oaten:** To ask the Secretary of State for Health when the next wave of tenders for provision of community equipment services will be advertised. [9438]

**Mr. Byrne** *[holding answer 4 July 2005]:* It is the responsibility of local health and social care services to renew community equipment service contracts.

Therefore, there will neither be a wave of tenders nor a national tender exercise.

### Dentistry

**Mr. Steen:** To ask the Secretary of State for Health if the Government will provide vouchers to be used for private dental care to people in areas where there is no access to an NHS dentist; and if she will make a statement. [6648]

**Mr. Lancaster:** To ask the Secretary of State for Health if she will offer a refund equivalent to the standard cost of the appropriate NHS treatment to patients who pay for private dental treatment due to the unavailability of a local NHS dentist. [7431]

**Ms Rosie Winterton** *[holding answer 23 June 2005]:* Our objective is to ensure that people have a well-informed choice between private and readily accessible national health service dental treatment. In addition, we wish to ensure people on low incomes, who are particularly vulnerable to dental disease and are exempt from dental charges, continue to receive free treatment. This would not be guaranteed through the provision of either vouchers or refunds, because the dentist could require the voucher to be topped, while the refund might not meet the full cost of private dental treatment. We are, therefore, concentrating resources on the reform of NHS dentistry. In this financial year, funding for NHS dentistry in England is set to rise by £250 million—an increase of 19 per cent., compared with spending in 2003–04. People requiring NHS dental treatment may contact NHS Direct, who are able to respond, to 90 per cent. of inquiries with information on a dental practice accessible within locally agreed standards.

**Sir Paul Beresford:** To ask the Secretary of State for Health how long applicants for Personal Dental Service contracts have waited on average for approval from her Department's bids panel in each month since July 2004. [9647]

**Ms Rosie Winterton** *[holding answer 4 July 2005]:* The maximum time agreed for applications from primary care trusts (PCTs) for personal dental services pilot contracts is 12 weeks. The 12-week period applies once the Department receives the application from the PCT. No applications wait longer than this for a decision, although some applications may take longer if the information provided by the PCT is incomplete.

**Sir Paul Beresford:** To ask the Secretary of State for Health pursuant to the answer to the hon. Member for Christchurch (Mr. Chope) of 20 June 2005, *Official Report*, column 790W, on dentistry, if she will list the names of those higher education institutions which have expressed interest in having a new dental school; whether in each case this includes satellite school status; and what the timetable is for the stages involved in announcing the siting of a new dental school. [9648]

**Ms Rosie Winterton** *[holding answer 4 July 2005]:* It would not be appropriate to publish this information at this first stage of the work of the joint implementation group (JIG). JIG expects to reach its conclusions around the end of the year when the location of the additional training places will be published.

**Sir Paul Beresford:** To ask the Secretary of State for Health what studies have been commissioned by her Department to evaluate the personal dental service (PDS) contract; and what information her Department receives from *(a)* primary care trusts and *(b)* individual dentists concerning PDS contracts in operation. [9649]

**Ms Rosie Winterton** *[holding answer 4 July 2005]:* A study of early personal dental services (PDS) pilots was conducted by the University of Birmingham for the Department, and published in 2002. Individual studies of options for change field sites are also available on the Modernisation Agency's website at: www.modernisingdentistry.nhs.uk. PPD pilot contracts are agreements between local primary care trusts and dental practices, and it is the responsibility of local primary care trusts to monitor and collect data on their operation.

### Diagnostic Scans

**Mr. Kevan Jones:** To ask the Secretary of State for Health what percentage of diagnostic scans in the NHS were carried out by private healthcare companies in the last year for which figures are available. [8258]

**Mr. Byrne** *[holding answer 30 June 2005]:* This information is not centrally available, as the Department do not collect data on the total number of national health service scans carried out in the independent sector.

### Domiciliary Care

**Mr. Burstow:** To ask the Secretary of State for Health how many *(a)* people and *(b)* households were receiving domiciliary care in each social service authority area in (i) 1992–93, (ii) 1997–98 and (iii) the most recent year for which figures are available. [5614]

**Mr. Byrne:** Information on the estimated number of households and clients receiving home help or home care during a sample week in September for the years 1992, 1997 and 2004, by council with social services responsibility has been placed in the Library. Figures for the number of clients receiving home care were not collected before September 2000.

**Mr. Blizzard:** To ask the Secretary of State for Health (1) what public financial support was provided for the training of domiciliary carers in the last year for which figures are available; [6921]

(2) how many domiciliary carers have achieved NVQ Level 2 in care; and what percentage this represents of those required to achieve this under the Care Standards Act 2000. [6923]

**Mr. Byrne:** We will pay a national training strategy grant of £94,859 million to local councils in 2005–06. We intend this to be used to support training and qualification for all social care staff. Local councils can use this funding to train their own staff and those employed in private and voluntary sector organisations providing social care services on their behalf. We will give a further £15 million national training strategy implementation grant to Skills for Care to support national vocational qualification training for social care staff employed in the private and voluntary sectors.

Information is not available on qualifications held by the domiciliary care workforce. The requirement in the Care Standards Act 2000 relating to domiciliary care is expressed in terms of the percentage of care delivered, not the percentage of workers qualified.

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to her Answer of 9 June 2005, *Official Report*, column 628W, on domiciliary care, what the timescale is for *(a)* the work officials are undertaking with outside bodies to consider the recording of adverse events in domiciliary care settings and *(b)* the review of national minimum standards. [7196]

**Mr. Byrne:** We intend to complete the work on the recording of adverse events in domiciliary care in co-operation with the review of the national minimum standards (NMS). We plan to complete the review of the NMS in 2006.

### Foundation Trusts

**Mr. Drew:** To ask the Secretary of State for Health how many *(a)* governors and *(b)* public governors there are of each foundation hospital trust; and how many public governors of each trust declare in their personal manifesto a declaration of interest that they (i) have medical qualifications and (ii) have worked in health. [4064]

**Mr. Byrne:** This is a matter for Monitor, the statutory name of which is the independent regulator of national health service foundation trusts. The Chairman will write to the hon. Member and a copy of his reply will be placed in the Library. Declarations of interests for governors are maintained by individual NHS foundation trusts and can be obtained by directly approaching them.

**Mr. Drew:** To ask the Secretary of State for Health what guidance she has issued to *(a)* foundation trusts and *(b)* Monitor on the funding trusts should make available (i) to encourage membership, recruitment and retention and (ii) to communicate with their electorates. [8114]

**Mr. Byrne** *[holding answer 30 June 2005]:* Schedule one of the "Health and Social Care (Community Health and Standards) Act 2003" sets out the minimum legislative requirements for the governance arrangements of national health service foundation trusts (NHSFTs). The Department provides a central programme of support to applicants preparing for foundation status, which includes guidance and direct financial assistance. Applicants are provided with guidance on developing governance arrangements, which gives information on the principles supporting the way NHSFTs are governed. This includes information on developing a representative membership base and communicating with the electorate.

It is for the independent regulator of NHSFTs, Monitor to consider authorisation as an NHSFT. As part of its assessment process, Monitor considers the suitability of an applicant by considering its governance plans, including the membership strategy and steps taken to ensure a representative membership. Once authorised, it is the responsibility of Monitor to oversee the operation of an NHSFT and ensure it remains with the terms of authorisation and legislative framework.

### General Practitioners

**Steve Webb:** To ask the Secretary of State for Health what mechanisms are in place to monitor the target for 48 hour access to a general practitioner. [8084]

**Mr. Byrne:** Data on access to general practitioner is collected monthly from primary care trusts via the primary care access survey.

Detailed information about the survey is published on the Department's website at:

www.dh.gov.uk/PolicyAndGuidance/PatientChoice/WaitingBookingChoice/WaitingBookingChoiceArticle/fs/en?CONTENT_ID=4079186&chk=NIdfeQ.

### General Social Care Council

**Mr. Burstow:** To ask the Secretary of State for Health when she expects to make an announcement concerning the next groups to be registered with the General Social Care Council. [9069]

**Mr. Byrne:** The General Social Care Council is currently completing the task of registering all qualified social workers in England. In September, the register will be extended to include social work students. During 2004, the Council carried out a widespread consultation about the order in which the remaining groups of social care staff should be brought into registration. I am considering that their report of the outcome of this consultation in the context of the continuing development of our social care policies following the publication of the social care Green Papers, "Independence, well-being and choice" and "Every Child Matters." I expect to announce my decision shortly.

### Haringey Teaching Primary Care Trust

**Lynne Featherstone:** To ask the Secretary of State for Health what recent assessment she has made of delayed discharge in hospitals located in the Haringey teaching primary care trust area; and if she will make a statement. [7809]

**Jane Kennedy:** The information requested is not available centrally.

### Health Direct

**Mr. Lansley:** To ask the Secretary of State for Health whether Health Direct will be established as a subsidiary of NHS Direct; whether NHS Direct and Health Direct will share the same access points; and if she will make a statement. [7477]

**Caroline Flint:** Health Direct will be set up from 2007. It will be developed as a telephone, internet and digital television service. The aim is to provide easily accessible information on health choices. It will include links to existing health improvement services, including diet, nutrition and support for parents.

A scoping study is being undertaken during 2005 to establish customer, operational and technical requirements for Health Direct. The decision to determine which are the most appropriate management and operational structures to deliver the Health Direct service will be taken in spring 2006, prior to commencement of a procurement phase, which we expect to complete by the end of 2006.

### Health Services (Contractors)

**Mr. Lansley:** To ask the Secretary of State for Health if she will list the independent sector providers

with whom *(a)* her Department has contracts for the provision of health services and *(b)* primary care trusts have commissioned directly to provide services; what services are provided under each contract; and how many patients have been treated under each contract. [3434]

**Mr. Byrne:** The information on the independent sector providers with which the Department has contracts is shown in the table. Information on contracts with the independent sector agreed by local national health service commissioners is not collected centrally.

| *Name of provider* | *Services provided* | *Number of patients treated to date* |
|---|---|---|
| Nations Healthcare | Ophthalmology, general surgery, orthopaedics and trauma | 600 |
| Partnership Healthcare Group | Trauma and orthopaedics | 3,100 |
| Birkdale Clinic | Ophthalmology, minor orthopaedics, knee arthroscopies, minor plastics, upper gastrointestinal endoscopies, minor dental surgery | 3,900 |
| OR International | Orthopaedics, ophthalmology and general surgery | [1]0 |
| Netcare | General surgery, ear, nose and throat, orthopaedics | 190 |
| Care UK Afrox | Orthopaedics | 170 |
| Capio | Various procedures including ophthalmology, general surgery, orthopaedics, | 500 |
| Interhealth | Orthopaedics, joint replacement | 420 |
| Mercury | Orthopaedics, general surgery, ophthalmology | [1]0 |
| Netcare | Ophthalmology—cataract | 14,000 |
| Capio/Nuffield | Orthopaedic, casemix expanded to include a wide range of procedures | 30,000 |
| Nuffield/BMI/BUP A | Orthopaedics | [1]0 |
| Alliance Medical Limited | Diagnostics | 54,500 |

[1] Patients have been referred but are not yet treated.

## Hepatitis C

**Mr. Laxton:** To ask the Secretary of State for Health what assessment she has made of the level of access to specialist assessment and treatment for people with hepatitis C infection. [7817]

**Caroline Flint:** In line with "Shifting the Balance of Power", decisions about the provision of accessible specialist assessment and treatment for people with hepatitis C infection through managed clinical networks, are for local determination. We understand that managed clinical networks have so far either been established or are being considered in London, South West peninsula, East Anglia, West Midlands, Trent, Liverpool and North East England.

**Mr. Laxton:** To ask the Secretary of State for Health what progress has been made in developing modelling techniques to assist in projecting numbers of patients needing specialist treatment and care for hepatitis C since the Action Plan for Hepatitis C was published. [7818]

**Caroline Flint:** The Department has funded the Health Protection Agency, working with the Medical Research Council's biostatistics unit, to provide estimates of the future burden of hepatitis C-related liver disease.

Results from this ongoing study will be submitted to a peer-reviewed journal for publication later this year.

**Mr. Laxton:** To ask the Secretary of State for Health what projections have been made for the incidence of hepatitis C in England. [7819]

**Caroline Flint:** Studies suggest that 0.5 per cent. of the general population in England, 250,000 people, has been infected with hepatitis C. As around 80 per cent. of people who have been exposed to the virus go on to develop chronic infection, it is estimated that 0.4 per cent. of the population, 200,000 people, are chronically infected with the hepatitis C virus.

There is no data available on the number of newly acquired hepatitis C infections in the general population (incidence). This is because acute hepatitis C infection does not usually cause symptoms and there are no laboratory tests that detect newly acquired hepatitis C infections.

## Hospital Workers (Drug Dependency)

**Keith Vaz:** To ask the Secretary of State for Health what research she has evaluated on drug dependency in hospital workers. [6211]

**Mr. Byrne:** The Department's guidance, "Taking alcohol and other drugs out of the NHS workplace", was re-issued this year as part of the "Management of Health, Safety and Welfare Issues for NHS Staff" by NHS Employers, which provides support to employers. This guidance reflects good practice.

## Hospital-acquired Infections

**Lynne Featherstone:** To ask the Secretary of State for Health how many cases of *(a)* methicillin-resistant *Staphyloccus aureus*, *(b)* vancomycin-intermediate *Staphyloccus aureus*, *(c) Clostridium difficile* associated diarrhoea, *(d)* vancomycin-resistant *Staphyloccus aureus* and *(e)* glycopeptide-resistant enterococci have been recorded in each hospital in England in each of the last five years for which figures are available. [7765]

**Jane Kennedy** *[holding answer 30 June 2005]:* Information on meticillin-resistant *Staphylococcus aureus* (MRSA) bloodstream infections is available in the Library and on the Department's website at

http://www.dh.gov.uk/PublicationsAndStatistics/Publications/PublicationsStatistics/PublicationsStatisticsArticle/fs/en?CONTENT_ID=4085951&chk=HBt2QD

This data has been collected since April 2001; the latest data covers the period to the end of March 2005.

The Health Protection Agency (HPA) antimicrobial resistance monitoring and reference laboratory is aware of only one confirmed case of vancomycin-intermediate *Staphylococcus aureus* in England to date.

Only three cases of vancomycin-resistant *Staphylococcus aureus* (VRSA) have been seen worldwide; none in England.

Since 1 January 2004, all acute national health service trusts have been required to report all cases of diarrhoea associated with *Clostridium difficile*. The data for 2004 is being prepared for publication and will subsequently be published annually. The HPA also runs a voluntary reporting system, but does not provide data by trust or by hospital.

Since 1 October 2003, all acute NHS trusts have been required to report all blood stream infections caused by glycopeptide-resistant enterococci. The data is being prepared for publication and will subsequently be published annually.

### In-flight Meals

**John Smith:** To ask the Secretary of State for Health (1) what representations she has received on the impact on the health of passengers of the salt and fat content of in-flight meals; [6804]

(2) if she will undertake a survey of the nutritional content of in-flight meals; [6805]

(3) what advice she gives to airline passengers on the salt content of in-flight meals. [6806]

**Caroline Flint:** The Food Standards Agency, in consultation with the Department and stakeholders, is in the process of setting target levels for salt in key product categories that contribute most to intakes. It is anticipated that all sectors of the food industry, including caterers, will work to meet these targets. We will ensure that suppliers of meals to airline passengers are included in this initiative and that airline companies are aware.

All adult consumers are advised to eat a balanced diet, but specific advice has not been issued to airline passengers about the salt content of in-flight meals.

I have not received any representations on the impact of in-flight meals on the health of passengers and have no plans to undertake a survey of such meals.

### Influenza Pandemic

**Patrick Mercer:** To ask the Secretary of State for Health what prioritisation system the Health Protection Agency has put in place for vaccinations in the event of an influenza pandemic. [8893]

**Caroline Flint:** The Government will make the decision for vaccination prioritisation based on advice from the joint committee on vaccination and immunisation (JCVI), an independent expert advisory committee, and the United Kingdom national influenza pandemic committee. The JCVI has provisionally advised the following order for vaccinating people:

Healthcare workers most at risk.

Essential service workers.

Clinical "high-risk" groups.

Closed communities such as nursing homes.

General population.

This list is contained in the UK pandemic influenza contingency plan.

### IVF Treatment

**Mrs. Dean:** To ask the Secretary of State for Health (1) how many primary care trusts have fully implemented the recommendation that all eligible patients should receive one NHS-funded IVF treatment; [7651]

(2) what assessment she has made of the impact of the decision to allow each eligible patient one NHS-funded IVF treatment on the number of IVF procedures carried out by the NHS; [7652]

(3) how many NHS-funded IVF treatments have been carried out in each strategic health authority area in each of the last eight years. [7653]

**Caroline Flint:** The Department does not collect information centrally on the number of national health service-funded invitro fertilization (IVF) treatments carried out. A survey of primary care trusts carried out by All Party Group on Infertility and the National Infertility Awareness Campaign has shown that the majority have worked to provide of at least one cycle of IVF for those who are eligible according to the guideline published by the National Institute for Health and Clinical Excellence.

### Kidney Transplants

**Mrs. Dean:** To ask the Secretary of State for Health if she will provide ringfenced funding for kidney transplants; and if she will make a statement. [7648]

**Mr. Byrne:** Primary care trusts are responsible for renal transplant commissioning through specialised commissioning arrangements. They are best placed to determine local needs and priorities and to ensure that they have the staff and facilities required to deliver high quality care. Ring-fenced funding is not appropriate.

### Malarial Infections

**Mr. Ian Austin:** To ask the Secretary of State for Health if she will make a statement on the use of fungal spores in reducing malarial infections. [7738]

**Caroline Flint:** We welcome this new development in the fight against malaria, which continues to claim the lives of one to two million people world-wide each year. Reducing morbidity and mortality due to malaria depends on a coordinated attack on the mosquito vector by personal protective measures, for example, insecticide-impregnated bed nets, and community mosquito control programmes, on prompt diagnosis and treatment of malaria in individual patients with antimalarial drugs. Vaccines are under development but will not be available in the short to medium term.

Recent reports have shown that adult Anopheles mosquitoes can be infected and killed by several species of fungi. The fungi can be sprayed on surfaces, cloths or netting.

Recent laboratory studies have shown that exposing adult Anopheles Stephens! mosquitoes that have been infected with rodent malaria to the fungus reduces the number of mosquitoes that are able to transmit infection by a factor of 80[1].

A recent trial in houses in a rural area of Tanzania showed that the fungus killed wild adult Anopheles gambiae mosquitoes, which are the major vector of malaria in Africa, and suggests that this method could significantly reduce the intensity of malaria transmission[2].

Further studies are required to assess the potential of this method of controlling mosquitoes for inclusion in a coordinated programme against malaria.

### Meat Inspectors

**Mr. Drew:** To ask the Secretary of State for Health what plans she has to encourage the employment of plant inspection assistants (PIAs) for the red meat industry; and when she is expecting to evaluate the effectiveness of the use of PIAs in the white meat industry; and if she will make a statement. [8594]

**Caroline Flint:** I am advised by the Food Standards Agency (FSA) that EU Regulation 854/2004 on the organisation of official controls on products of animal origin does not provide for the employment of plant inspection assistants (PIAs), except in slaughterhouses for poultry and lagomorphs. The employment of PIAs in red meat slaughterhouses could only be provided for by an amendment to that Regulation by the European Parliament and the Council using the codecision procedure on a proposal from the Commission.

Regulation 854/2004 requires the official veterinarian to carry out regular performance tests on the work of the PIAs. If these show that the work is unsatisfactory or affects the hygiene of the establishment, the PIAs must be replaced by official meat inspectors.

**Mr. Drew:** To ask the Secretary of State for Health how many meat inspectors were in employment in each of the last three years for which figures are available; and what the establishment was for each year. [8595]

**Caroline Flint:** The table shows the numbers of staff employed as meat hygiene inspectors (MHIs) and senior MHIs in the Meat Hygiene Service in each of the last three years as at 1 April.

| | *2003* | *2004* | *2005* |
|---|---|---|---|
| Meat hygiene inspectors | 1,023 | 1,014 | 981 |
| Senior meat hygiene inspectors | 159 | 151 | 137 |
| Total | 1,182 | 1,165 | 1,118 |

*Notes:*

1. MHI figures include a total of 25 full-time equivalent casual employees at April 2003 and 2004 and 30 in 2005, who work on an ad hoc basis.

2. Senior MHIs include the old senior grades, the supernumerary senior grades and the enhanced senior grades.

3. Also included are 65 full-time equivalent contract staff at April 2003, 43 at April 2004 and 42 at April 2005.

The figures shown are actual numbers employed to meet fluctuating service requirements. There is no formal establishment figure and staff are recruited to address staff turnover and to meet additional service requirements where necessary.

**Mr. Drew:** To ask the Secretary of State for Health if she will make a statement on the future of the Meat Hygiene Service, with particular reference to training levels for *(a)* inspectors and *(b)* plant inspection assistants. [8596]

**Caroline Flint:** I am advised by the Food Standards Agency (FSA) that the training requirements which apply from 1 January 2006 for both meat inspectors and plant inspection assistants are set out in European Union Regulation 854/2004, subject to any transitional measures that the Commission may adopt. The FSA intends to ensure that these requirements are complied with.

The FSA has no plans to change the current role of the Meat Hygiene Service.

### Monsanto Maize

**Alan Simpson:** To ask the Secretary of State for Health pursuant to the answer of 26 May 2005, *Official Report*, column 633W, on Monsanto's maize, what the effects were on rats fed on Monsanto's GM corn MON 863 in respect of *(a)* kidney size, *(b)* blood cell levels and *(c)* lymphocytes. [8600]

**Caroline Flint:** Monsanto conducted a standard 90-day feeding study in rats given diets containing 11 per cent. or 33 per cent. of MON 863 maize grain, or equivalent amounts of non-genetically modified (GM) maize grain. The results revealed a small difference in the parameters mentioned in the question between the animals fed the highest amount of MON 863 maize, compared with those in one given one of the diets containing non-GM maize. Such findings are not unusual in studies of this type, where several dozen parameters are being evaluated across a number of treatment groups and interpretation of the results requires expert analysis of the statistical basis for the apparent differences and their biological significance. These data have been analysed independently by expert groups in the United Kingdom and at the European Food Safety Authority, who have concluded that the results of the study are not indicative of adverse effects due to the consumption of MON 863 maize.

### MRI Scans (Durham)

**Mr. Kevan Jones:** To ask the Secretary of State for Health what the annual running cost is of the NHS scanner at the University Hospital North Durham was in 2004–05. [9396]

**Mr. Byrne** *[holding answer 4 July 2005]:* This information is not held centrally.

## NHS Acute Hospital Trusts

**Frank Dobson:** To ask the Secretary of State for Health whether NHS acute hospital trusts can *(a)* close beds, *(b)* close wards and *(c)* withdraw services without her consent. [7013]

**Mr. Byrne** *[holding answer 27 June 2005]:* Guidance on service change, "Keeping the NHS Local—A New Direction of Travel", was published on 14 February 2003. It sets out core principles for service change that the national health service must follow.

## NHS Direct

**Steve Webb:** To ask the Secretary of State for Health what the 10 most common reasons for calls to NHS Direct were during the last 12 months for which information is available. [8088]

**Mr. Byrne:** I refer the hon. Member to the reply I gave to the hon. Member for Sutton and Cheam (Mr. Burstow) on 28 June 2005, *Official Report*, column 1521W.

## NHS Staff

**Mr. Paul Goodman:** To ask the Secretary of State for Health how many and what proportion of people contracted to work within the NHS are not entitled to *(a)* sick pay and *(b)* holiday pay. [7601]

**Mr. Byrne** *[holding answer 27 June 2005]:* All staff working in the national health service are entitled to the statutory requirements for sick leave and holiday leave.

**Mr. Lansley:** To ask the Secretary of State for Health what the staff turnover is among *(a)* all medical staff, *(b)* all non-medical clinical staff and *(c)* all other staff in the NHS in the most recent period for which figures are available; and if she will estimate the current national average for staff turnover. [3433]

**Mr. Byrne:** The information requested is currently not held centrally.

## Obesity

**David Davis:** To ask the Secretary of State for Health what estimate she has made of the numbers of obese *(a)* adults and *(b)* children in (i) East Yorkshire and (ii) England; and how these figures compare with levels of obesity in other developed countries. [3659]

**Caroline Flint** *[holding answer 13 June 2005]:* The prevention and management of obesity are at the heart of many of the Government's priority areas and the foundation for all future work to tackle obesity has been laid out in the White Paper, "Choosing Health".

Information is not available in exactly the form requested. Figures from the Health Survey for England are shown in table 1.

*1: Obesity prevalence in England*

| *Adults[1] classed as obese as a proportion of the total sample* | *North and East Yorkshire and North East Lincolnshire strategic health authority* | *England* |
|---|---|---|
| Men (percentage) | 25.2 | 22.9 |
| Women (percentage) | 27.1 | 23.4 |
| *Number of adults surveyed* | | |
| Men | 486 | 5,966 |
| Women | 599 | 7,090 |

| *Children[2] classed as obese as a proportion of the total sample* | *Yorkshire and the Humber Government office region* | *England* |
|---|---|---|
| Boys *(percentage)* | 12.3 | 16.0 |
| Girls *(percentage)* | 12.5 | 15.9 |
| *Number of children surveyed* | | |
| Boys | 516 | 5,442 |
| Girls | 483 | 5,381 |

[1] Aged 16 and over with a body mass index (BMI) greater than 30.
[2] Aged 2–15 with a valid BMI measurement. United Kingdom national BMI percentile classification used to classify obesity in children.
*Note:*
Figures for adults are weighted to reduce bias from non-response to the survey.

| Spain | — | — | — | 6.8-[3] | 12.6[1] | 12.6 | 12.6-[1] | 13.1 |
| Sweden | — | — | — | 5.5-[1] | 9.2 | 9.2 | 10.2 | 9.7 |
| Switzerland | — | — | — | 5.4[2] | 7.7[2] | 7.7[1] | 7.7 | 7.7-[1] |
| Turkey | — | — | — | — | 12.0[3] | 12.0[2] | 12.0[1] | 12 |
| United Kingdom | — | — | 7.0 c | 14.0[1]c | 21.0 c | 22.0 c | 22.0 c | 23.0 c |
| United States | — | — | 15.0-[2]c | 23.3[1]c | 30.5 c | 30.5-[1]c | 30.6 c | 30.6-[1]c |

*Notes:*

*(a)* -1, -2, -3, 1, 2, 3 shows that data refers to 1, 2 or 3 previous or following year(s).

*(b)* Obesity rates are defined as the percentage of the population with a BMI over 30. The BMI is a single number that evaluates an individual's weight status in relation to height (weight/height$^2$ , with weight in kilograms and height in metres).

*(c)* For Australia, the United Kingdom and the United States, figures are based on health examinations, rather than self-reported information. Obesity estimates derived from health examinations are generally higher and more reliable than those coming from self-reports, because they preclude any misreporting of people's height and weight. However, health examinations are only conducted regularly in a few countries.

*Note:*

Definitions, sources and methods per country are available at www.irdes.fr/ecosante/OCDE/814010.html

OECD Health data 2005, June 2005

**Keith Vaz:** To ask the Secretary of State for Health how many people in the United Kingdom are obese; and what estimate has been made of the number of people who died as a result of obesity in each of the last five years. [3898]

**Caroline Flint:** The available information is given in the table. Although figures are requested for the United Kingdom, information in respect of obesity prevalence in Scotland and Wales is the responsibility of the devolved administrations. While the institutions in Northern Ireland are dissolved, responsibility rests with Ministers in the Northern Ireland office.

Obesity prevalence figures are taken from the results of the health survey for England for 2003, the latest year for which figures are available.

*Obesity prevalence in England*

| | |
|---|---|
| Adults classed as obese as a proportion of the total sample (percentage) | 22.6 |
| Number of adults surveyed[1] | 13,089 |
| Children classed as obese as a proportion of the total sample (percentage) | 16.6 |
| Number of children surveyed[2] | 2854 |

[1] Aged 16 and over with a body mass index (BMI) greater than 30.
[2] Aged 2–15 with a valid BMI measurement UK National BMI percentile classification used to classify obesity in children.

*Note:*

Adult figures are weighted to reduce bias arising from non-response to the survey.

Health survey for England 2003

With regard to how many obese people died in each of those years, whether a person was obese is not routinely recorded at death certification. However, data on deaths where the underlying cause was certified as obesity or where this condition contributed to the death are collected. The table shows the number of deaths in England and Wales where obesity was the underlying cause of death and where obesity contributed to the death, for the calendar years 1999 to 2003.

*Number of deaths where obesity (ICD-9 278.0; ICD-10 E66) was the underlying cause of death or contributed to the death, England and Wales, 1999–2003*

| | 1999 | 2000 | 2001 | 2002 | 2003 |
|---|---|---|---|---|---|
| Underlying cause | 165 | 161 | 183 | 182 | 219 |
| Contributed to death | 597 | 626 | 695 | 732 | 885 |
| Total number of deaths from all causes | 556,118 | 535,664 | 530,373 | 533,527 | 538,254 |

*Note:*

Data are for occurrences of death per calendar year.

Office for National Statistics

### Older People

**Mr. Burstow:** To ask the Secretary of State for Health for what reasons a measure of mental health was not included in the milestone in the National Service Framework for Older People that by April 2004 local health systems should be able to demonstrate year on year improvements in measures of health and well-being among older people. [8014]

**Mr. Byrne:** The milestones accompanying standard eight of the National Service Framework for Older People focus primarily on the promotion of physical well being.

### Park Hill, Egginton

**Mr. Greg Knight:** To ask the Secretary of State for Health what the total cost was of the purchase and refurbishment of Park Hill, Egginton, Derbyshire by the local health authority. [8714]

**Mr. Byrne:** This information is not held centrally.

Funding for primary care premises is allocated by the Department to strategic health authorities, which, in turn, distribute this funding to individual primary care trusts (PCTs). PCTs are responsible for deciding how these resources are used and which projects are given priority locally.

### Physiotherapists

**Mr. Andrew Mitchell:** To ask the Secretary of State for Health (1) how many training places have been available for those wanting to become physiotherapists in each of the last four years; [8635]

(2) how many physiotherapists have been employed by the NHS in each of the last four years. [8636]

**Mr. Byrne:** The tables show the number of students entering training to become a physiotherapist in each year since 2001–02 and the number of physiotherapists employed in the national health service in each year since 2001.

*Training commissions in England*

| | *Number* |
|---|---|
| 2001–02 | 1,780 |
| 2002–03 | 2,157 |
| 2003–04 | 2,343 |
| 2004–05 | 2,357 |

*Source:*
Strategic health authority quarterly monitoring returns

*NHS hospital and community health services: qualified physiotherapy staff in England as at 30 September each year*

| | *Headcount* | *Full-time equivalents* |
|---|---|---|
| 2001 | 16,212 | 12,992 |
| 2002 | 16,885 | 13,586 |
| 2003 | 17,922 | 14,455 |
| 2004 | 19,139 | 15,564 |

*Source:*
Health and Social Care Information Centre Non-Medical Workforce Census

**Mr. Rogerson:** To ask the Secretary of State for Health what measures her Department is taking to ensure there is an adequate number of posts available for newly-qualified physiotherapists. [8811]

**Mr. Byrne** *[holding answer 4 July 2005]:* Information collected by the Department does not break down physiotherapists by grade. As at September 2004, there were 19,139 physiotherapists employed in the national health service, which represents an increase of 4,896 or 34 per cent. since 1997.

The Department is working closely with the Chartered Society of Physiotherapy, the NHS workforce review team and NHS organisations to help junior physiotherapists to find first posts of employment. As a result of this collaborative work, there is an action plan in place to ensure local managers have access to a range of strategies across recruitment, commissioning and skill mix. It is the responsibility of local NHS employers and strategic health authorities to ensure there are sufficient numbers of physiotherapists to meet service needs.

**Greg Clark:** To ask the Secretary of State for Health how many people studied physiotherapy at university each year since 2002. [7285]

**Mr. Byrne:** The table shows the number of students entering training to become a physiotherapist in each year since 2001–02.

*Training commissions in England*

| | *Number* |
|---|---|
| 2001–02 | 1,780 |
| 2002–03 | 2,157 |
| 2003–04 | 2,343 |
| 2004–05 | 2,357 |

*Source:*
Strategic health authority quarterly monitoring returns.

### Primary Care Trusts

**Mr. Drew:** To ask the Secretary of State for Health what discussions she has had with the Deputy Prime Minister on the merits of linking re-organisation of primary care trusts with that of local government re-organisation. [8115]

**Mr. Byrne** *[holding answer 30 June 2005]:* None, but the Government continue to seek ways for the national health service and local government to work closely together.

### Private Sector Providers

**Frank Dobson:** To ask the Secretary of State for Health if she will place in the Library the monthly reports she receives from private sector providers. [7017]

**Mr. Byrne** *[holding answer 27 June 2005]:* The monthly reports received from independent sector providers contain patient and/or commercially confidential information. Therefore, it would not be appropriate to place these documents in the Library. The Department does, however, plan to publish information on clinical outcomes later this year.

## Radiographers

**Mr. Lansley:** To ask the Secretary of State for Health how many radiographers have been employed in the NHS in each year since 1991. [7458]

**Mr. Byrne:** The information requested is shown in the table.

*National health service hospital and community health services: radiography staff in England by area and level as at 30 September each specified year*[1]

### School Nurses

**Mrs. Dean:** To ask the Secretary of State for Health how many school nurses are employed in *(a)* East Staffordshire, *(b)* Staffordshire and *(c)* England. [7650]

**Mr. Byrne:** The number of school nurses in England, Shropshire and Staffordshire strategic health authority (SHA) and East Staffordshire primary care trust (PCT) is shown in the table.

*National health service hospital and community health services: Nurses working in school nursing in specified areas as at 30 September 2004*

*Headcount*

| | | *Total school nursing workforce* | *Qualified school nurses* | *Qualified nurses working in school nursing* | *Unqualified nurses working in school nursing* |

### Select Committee Reports

**Mr. Burstow:** To ask the Secretary of State for Health when she will respond to the reports of the Health Select Committee from the previous Parliament to which she has not yet responded. [9439]

**Ms Hewitt:** Responses to these reports will be published in due course.

### Sexually-transmitted Diseases

**Mrs. May:** To ask the Secretary of State for Health how many new diagnoses of *(a)* syphilis, *(b)* gonorrhoea, *(c)* chlamydia, *(d)* herpes and *(e)* genital warts were recorded by the Health Protection Agency in 2004 for (i) England and (ii) England and Wales. [10080]

**Caroline Flint:** The numbers of new diagnoses of syphilis, gonorrhoea, chlamydia, herpes and genital warts seen in genitor-urinary medicine clinics in England and Wales are published by the Health Protection Agency (HPA) in its report, "Diagnoses and rates of selected STIs seen at GUM clinics, United Kingdom: 2000–04," which is available on the HPA website at www.hpa.org.uk/infections/topics_az/hiv_and_sti/epidemiology/dataresource.htm

**Mr. Burns:** To ask the Secretary of State for Health (1) what screening services are available for men with suspected Chlamydia infection; what plans she has to improve these services; and if she will make a statement; [5534]

(2) what strategies her Department *(a)* has employed and *(b)* plans to combat chlamydia in men; and if she will make a statement; [5535]

(3) how many chlamydia infections in *(a)* men and *(b)* women were reported in each of the last five years for which figures are available; and if she will make a statement. [5536]

**Caroline Flint** *[holding answer 20 June 2005]:* For men who suspect that they have chlamydia, diagnoses and treatment are provided through genitor-urinary medicine (GUM) clinics. The public health White Paper, "Choosing Health—making healthy choices easier" published in November 2004 sets out a number of measures to improve access to, and modernise, GUM services. These measures are backed by £130 million additional revenue and capital investment over three years, and will support clinics in moving towards the target of maximum 48 hour waiting times for clinic appointments.

In terms of detecting asymptomatic chlamydia infection, the Department's policy is to promote greater uptake of chlamydia testing and treatment through the national chlamydia screening programme. This opportunistic programme targets sexually active men and women under 25, who are most at risk of infection. We recognise that there are particular challenges in encouraging young men to access chlamydia screening as they do not attend health services as regularly as young women. We are, therefore, encouraging local programmes to evaluate which venues work best in terms of screening young men, for example colleges, workplaces and sports facilities.

Young men and women are also targeted with information about chlamydia through our national sexual health media campaigns, including a major new campaign to be launched later this year, as announced in the White Paper.

The White Paper, also included a commitment to accelerate the roll-out of the national chlamydia screening programme, with the goal of making this available across the country by March 2007, backed by investment of an extra £80 million to achieve this aim.

The data requested is shown in the following table.

*Number of cases of genital Chlamydial infection diagnosed in genitourinary medicine clinics by sex in England: 1999–2003*

| | Sex | | |
|---|---|---|---|
| | *Male* | *Female* | *Total* |
| 1999 | 21,808 | 29,196 | 51,004 |
| 2000 | 26,632 | 34,815 | 61,447 |
| 2001 | 29,604 | 38,652 | 68,256 |
| 2002 | 34,509 | 43,980 | 78,489 |
| 2003 | 37,913 | 47,250 | 85,163 |

Health Protection Agency, KC60 Returns

## Smoking

**Keith Vaz:** To ask the Secretary of State for Health (1) whether the Government have commissioned research on the likely effects of allowing smoking in pubs where food is not prepared; [7128]

(2) what penalties the Government are planning to implement to enforce a future ban on smoking in public places. [7130]

**Caroline Flint:** We have launched a consultation on the smoke-free elements of the Health Improvement and Protection Bill. This includes proposals for offences and penalties. It also invites views on the proposals to exempt licensed premises, which do not prepare and serve food. We will be discussing the details of the proposals with key stakeholders during this time.

A copy of the consultation paper is available in the Library.

**Mrs. Ellman:** To ask the Secretary of State for Health what her assessment is of the extent of smoking-related illness in Liverpool. [6150]

**Mr. Byrne:** The estimated percentages of deaths attributable to smoking in primary care trusts (PCTs) in Liverpool is shown in the table.

*Estimated percentage of deaths attributable to smoking in Liverpool PCTs*

| | *Smoking deaths as a percentage of all deaths* | | |
|---|---|---|---|
| *PCT* | *Males* | *Females* | *All persons* |
| Central Liverpool | 22 | 11 | 16 |
| North Liverpool | 21 | 11 | 16 |
| South Liverpool | 24 | 14 | 19 |
| England | 22 | 12 | 17 |

*Notes:*
1. The "all persons" column represents the average for men and women.
2. The smoking attributable percentage data for PCTs provides figures relating to the percentage of deaths over 35 years of age from diseases related to smoking that are smoking attributable. Figures are provided for males, females and persons. The percentages are based on the estimate of smoking attributable mortality across the five years from 1998 to 2002 and the observed deaths, from those over 35, for 1998 to 2002.
3. The estimates of smoking attributable mortality as a percentage of all deaths are derived in the following way:
a) For London PCTs, the percentages are based on the estimate of smoking attributable mortality across five years of data from 1998 to 2002 and the observed number of deaths from all causes, all ages across these same five years.
b) For all other PCTs, the percentage is based on the annual average estimate of smoking attributable mortality across 1998 to 2002 and the observed number of deaths from all causes, all ages for 2002.The percentage is based on the annual average estimate of smoking attributable mortality across 1998–2002 and the observed number of deaths from all causes, all ages for 2002.
*Source:*
Data underlying the publication of The smoking epidemic in England, November 2004 —the Health Development Agency (HDA)—available on the HDA website at www.hda.nhs.uk/html/improving/smoking epidemic.html.

**Mrs. Spelman:** To ask the Secretary of State for Health what funding the Government has provided for tobacco policy support to *(a)* local authorities, *(b)* Government Offices for the Regions and *(c)* regional chambers in each year since 1997. [7510]

**Caroline Flint:** The Government do not provide funding for tobacco policy support to local authorities or regional chambers.

From 2003–04, amounts were allocated to each Government Office for the Region for tobacco control and funding of alliance work, which is shown in the following table.

£

| *Region* | *2003–04* | *2004–05* | *2005–06* |
|---|---|---|---|
| North East | 194,000 | 194,000 | 194,000 |
| Yorkshire and Humber | 218,000 | 218,000 | 218,000 |
| North West | 242,000 | 242,000 | 242,000 |
| West Midlands | 221,000 | 221,000 | 221,000 |
| East Midlands | 206,000 | 206,000 | 206,000 |
| Eastern | 217,000 | 217,000 | 217,000 |
| South East | 241,000 | 241,000 | 241,000 |
| South West | 214,000 | 214,000 | 214,000 |
| London | 247,000 | 247,000 | 247,000 |
| Total | 2,000,000 | 2,000,000 | 2,000,000 |

*Note:*
The sums in the table are indicative. Regions have the discretion to vary spending within the allocation.

## Solvent Abuse

**Mr. Amess:** To ask the Secretary of State for Health what research the Government have commissioned on the causes and effects of solvent abuse. [8332]

**Caroline Flint:** The Department has not commissioned any specific research into the causes and effects of volatile substance abuse (VSA).

The Department has, in partnership with the Home Office, the Department for Education and Skills and a wide range of external stakeholders, including the British Aerosol Manufacturers Association, St. George's University of London, ReSolv and the National Children's Bureau, produced a framework which sets out a strategic direction for addressing VSA. It is due to be published shortly.

**Mr. Amess:** To ask the Secretary of State for Health how many clinics in England provide services for the treatment of solvent abuse. [8376]

**Caroline Flint:** There are currently no clinics in England providing specific services for the treatment of volatile substance abuse (VSA).

However, young people treatment services work with young people with substance abuse issues including VSA.

The Department does not centrally collect information about service provisions for treatment of VSA for adults.

**Mr. Amess:** To ask the Secretary of State for Health when and where the Government's strategy on volatile substance abuse will be announced. [8377]

**Caroline Flint:** The Department is aiming to publish the volatile substance abuse framework shortly.

### Speech Therapists

**Chris Ruane:** To ask the Secretary of State for Health how many speech therapists there have been per 100,000 *(a)* adults and *(b)* children in each of the last 10 years. [8186]

**Mr. Byrne:** The table shows the ratio of speech and language therapists per 100,000 population under 18 years old and over 18 in each year since 1995.

The number of speech and language therapists per 100,000 population has increased from 8.96 in 1995 to 13.1 in 2004.

*National health service hospital and community health services: qualified speech and language therapeutic staff in England as at 30 September each year—by headcount and per 100,000 people in England*

*Headcount*

| | *1995* | *1996* | *1997* | *1998* | *1999* |
|---|---|---|---|---|---|
| Total Speech and Language Therapists | 4,335 | 4,705 | 4,871 | 5,031 | 5,185 |
| Estimated England population | 48,383,500 | 48,519,100 | 48,664,800 | 48,820,600 | 49,032,900 |
| Estimated England population under 18 | 11,113,600 | 11,183,600 | 11,214,000 | 11,207,200 | 11,209,800 |
| Estimated England population 18 and over | 37,269,900 | 37,335,500 | 37,450,800 | 37,613,300 | 37,823,100 |
| Speech and Language Therapists per 100,000 people | 8.96 | 9.70 | 10.01 | 10.31 | 10.57 |
| Speech and Language Therapists per 100,000 people under 18 | 39.01 | 42.07 | 43.44 | 44.89 | 46.25 |
| Speech and Language Therapists per 100,000 people 18 and over | 11.63 | 12.60 | 13.01 | 13.38 | 13.71 |

*Headcount*

| | *2000* | *2001* | *2002* | *2003* | *2004* |
|---|---|---|---|---|---|
| Total Speech and Language Therapists | 5,430 | 5,685 | 5,960 | 6,243 | 6,556 |
| Estimated England population | 49,233,300 | 49,449,700 | 49,646,900 | 49,855,700 | 50,056,900 |
| Estimated England population under 18 | 11,177,100 | 11,145,800 | 11,117,900 | 11,082,200 | n/a |

Office for National Statistics

### Water Fluoridation

**Sir John Butterfill:** To ask the Secretary of State for Health if she will make a statement on the report of the World Health Organisation in 2002 concerning the findings of the US National Toxicology Programme relating to rates of osteosarcoma among young males living in fluoridated areas. [7280]

**Caroline Flint:** We are aware that, on 6 June, a research organisation in the United States, the Environmental Working Group, published a press release asking the National Toxicology Program of the National Institutes of Health to list fluoride in tap water in its report on carcinogens, "based on its ability to cause a rare form of childhood bone cancer, osteosarcoma". The request refers to a doctoral thesis completed in 2001 by a student at Harvard School of Dental Medicine.

The systematic review of water fluoridation undertaken by the University of York identified over 3,000 reports of research projects on fluoridation of which 735 met their criteria for inclusion in their study. The researchers did not find any evidence of an association between water fluoridation and bone cancer, but we are not complacent and are committed to strengthening the evidence base. In this context, we have been informed by the oral health division of the Centers for Disease Control that the author of the thesis has invited them to review her findings as part of the peer review process conducted before a research study is published. We have asked to be kept informed.

## HOME OFFICE

### Airguns

**Mr. Mallins:** To ask the Secretary of State for the Home Department how many prosecutions have taken place against persons who have sold an air weapon to a person under 17 years in each of the last five years. [5158]

**Hazel Blears:** The information contained on the Home Office Court Proceeding database shows that in England and Wales from 1999 to 2003, there was one prosecution (in 1999) for selling or letting on hire a firearm to a person under 17 (Firearms Act 1968, sec. 24(1) Group III air weapons). Statistics on court proceedings for 2004 will be published in the autumn.

### Alcohol (Crime/Disorder Zones)

**Keith Vaz:** To ask the Secretary of State for the Home Department what research he has commissioned into the effects of designated alcohol disorder zones; and how these zones will be enforced. [4726]

**Hazel Blears:** We will monitor the use and impact of alcohol disorder zones once the Violent Crime Reduction Bill has completed its parliamentary passage, and come into force. We will be consulting stakeholders over the summer about the detail of how alcohol disorder zones would work in practice, including enforcement issues.

**Mr. Crabb:** To ask the Secretary of State for the Home Department how much was spent on police campaigns to tackle alcohol-related crime in each year from 1997. [7541]

**Hazel Blears:** The Home Office do not centrally collect information on how much is spent on police campaigns to tackle alcohol-related crime. Each force will have its own arrangements in place for resourcing alcohol-misuse enforcement activity.

### Antisocial Behaviour Orders

**Sarah Teather:** To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued to people aged under *(a)* 10 years, *(b)* 11 years, *(c)* 12 years, *(d)* 13 years, *(e)* 14 years, *(f)* 15 years, *(g)* 16 years, *(h)* 17 years and *(i)* 18 years in each London borough since 1999. [5265]

**Hazel Blears:** The information is given in the following table.

*The number of ASBOs issued at all courts, as reported to the Home Office, where restrictions were imposed within Greater London local government authority areas, from 1 April 1999 to 30 September 2004 (latest available).*

[1] Between 1 April 1999 and 31 May 2000 data were collected on aggregate numbers only by police force area (pfa). During this period a total of nine ASBOs were issued within Greater London pfa.

**Mike Penning:** To ask the Secretary of State for the Home Department if he will make a statement on the *(a)* number and *(b)* application of antisocial behaviour orders in Hemel Hempstead constituency. [5376]

**Hazel Blears:** Antisocial behaviour orders (ASBOs) have been available to the courts since one April 1999. From commencement up to 31 May 2000 data were collected, on aggregate numbers only, by police force area. From copies of the orders received, since 1 June 2000, we are able to determine the local government authority areas in which restrictions are imposed. The number of ASBOs issued, as notified to the Home Office, in the local government authority area of Dacorum borough council, in which the Hemel Hempstead constituency is situated, from 1 June 2000 to 30 September 2005 (latest available) is seven. It is for local agencies to decide upon the application of ASBOs across the Dacorum borough council area as part of their overall strategy to reduce antisocial behaviour.

**Mr. Clifton-Brown:** To ask the Secretary of State for the Home Department how many under 16-year-olds have breached the terms of their antisocial behaviour orders. [6220]

**Hazel Blears:** Of those antisocial behaviour orders reported to the Home Office as having been issued between 1 June 2000 and 31 December 2003, 199 were breached by persons aged under 16. Breach data for 2004 will be available towards the end of the year.

**John McDonnell:** To ask the Secretary of State for the Home Department what percentage of antisocial behaviour orders have been breached; and how many of those concerned were given a custodial sentence. [6460]

**Hazel Blears** *[holding answer 22 June 2005]:* Of the 1,892 antisocial behaviour orders reported to the Home Office as having been issued between 1 June 2000 and 31 December 2003, 793 or 42 per cent. were breached at least once in the same period. Of these, 437 or 55 per cent. resulted in a custodial sentence either on the first or later occasion. Breach data for 2004 will be available towards the end of the year.

**Mark Williams:** To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued in *(a)* the Dyfed Powys Constabulary and *(b)* the Ceredigion constituency in each year since their introduction. [7269]

**Hazel Blears:** The available information is given in the table.

*Number of ASBOs issued at all courts, as reported to the Home Office, within the Dyfed Powys criminal justice system area, and where restrictions have been imposed in the local government authority area of Ceredigion county council, by period, from 1 April 1999 to 30 September 2004*[1]

| | *Dyfed Powys*[2] | *Ceredigion county council*[3] |
|---|---|---|
| 1 April 1999 to 31 May 2000[4] | — | — |
| 1 June to 31 December 2000 | — | — |
| 2001 | — | — |
| 2002 | — | — |
| 2003 | 11 | 8 |
| 1 January to 30 September 2004 | 7 | — |
| Total | 18 | 8 |

[1] Latest available.

[2] Dyfed Powys criminal justice system area is coterminous with Dyfed Powys police force area.

[3] Unitary authority area in which restrictions are imposed.

[4] Between 1 April 1999 and 31 May 2000 data were collected on aggregate numbers only by police force area.

### Asset Recovery Scheme

**Chris Ruane:** To ask the Secretary of State for the Home Department how many full-time equivalent officers have been engaged by each police authority area in asset recovery in each year since the introduction of asset recovery listed in descending order. [6165]

**Hazel Blears** *[holding answer 27 June 2005]:* The number of asset recovery financial investigators in each police authority area in 2003–04 is set out in the table. These are the latest data available. The Home Office is funding 88 financial investigator posts on asset recovery in police forces at a cost of £2.6 million a year from 2002–03 to 2005–06. The Home Office is also funding five Multi-Agency Regional Asset Recovery Teams at a cost of up to £12 million per year.

*Number of financial investigators in Police Financial Investigation Units (2003–04)*

| | *Number of financial investigators* |
|---|---|
| Metropolitan Police Service | 47 |
| Greater Manchester Police | 14.33 |
| Avon and Somerset | 13.4 |
| Merseyside | 12.75 |
| City of London Police | 11.6 |
| Thames Valley Police | 10 |
| West Midlands | 10 |
| West Yorkshire | 9 |
| Cambridgeshire | 8.5 |
| Hampshire | 8 |

### Asylum Seekers

**Mr. Malins:** To ask the Secretary of State for the Home Department what estimate he has made of the number of failed asylum seekers in the UK. [2849]

**Mr. McNulty:** Information on the total number of asylum seekers currently in the UK, including failed asylum seekers, is not available. This could be obtained only at disproportionate cost by examination of individual case records. In addition some applicants may leave the United Kingdom without informing the Immigration Service. E-borders and ID cards will enable us to monitor this more precisely in the future. The Home Office published on 30 June, the outcome of the assessment of the applicability to the UK of the methods used by researchers and Government agencies in other countries to estimate the size of the illegal population. The methods had been identified in the report by the Migration Research Unit (MRU) of University College London on "Sizing the Illegally Resident Population in the UK". A copy of the RDS On-line report 29/05—"Sizing the unauthorised (illegal) migrant population in the United Kingdom in

2001" can be found at: http://www.homeoffice.gov.uk/rds/notes/june_summaries.html. As in other countries, the number of "unauthorised" or "illegal" migrants—including failed asylum seekers—in the UK is unknown. The MRU report published last year reviewed the methods used in other countries and assessed their viability for use in the UK. That report suggested that a method which could be applied in the UK is the "residual method" used in the United States. The new report details how that method has been applied in the UK. It must be emphasised that, while this method is one that can be used with data available for the UK, over-reliance must not be placed on this result in the absence of the means to produce other estimates using different methods.

**Andrew Rosindell:** To ask the Secretary of State for the Home Department what procedures are followed when an illegal asylum seeker is detected inside UK borders. [5404]

**Mr. McNulty:** The Immigration Nationality Directorate (IND) does not recognise the term "illegal asylum seeker". It is not illegal to seek asylum. However, a proportion of those who enter or remain in the United Kingdom illegally will subsequently seek asylum. IND will treat as an offender liable to be removed any person who has entered the United Kingdom without permission or who has obtained permission to enter the country by deception or who has overstayed. However, where a person states that they have a fear of return to their country of origin and claims asylum, the application is considered in the light of all the known circumstances before any action to remove is undertaken. Illegal entrants and overstayers are liable to detention or may be granted temporary admission with conditions to reside at a particular address and report regularly to an immigration reporting centre while their asylum claim is under consideration.

**Alistair Burt:** To ask the Secretary of State for the Home Department if he will list complaints made by asylum detainees against escort services to and from Yarl's Wood and Oakington in the last six months, broken down by *(a)* source and *(b)* date; and what the (i) outcomes and (ii) dates of the outcomes of the investigations into these complaints were. [8452]

**Mr. McNulty:** For reasons of confidentiality it is not possible to list by name the complaints received. In the last six months, 10 complaints were received from asylum detainees against escort services to and from Yarl's Wood and Oakington. Of these, three were received in January, one in March, two in April, and four in May. Eight of these cases have been referred to the police as the allegation was one of assault. In all of these eight cases the police investigation is still ongoing. In the remaining two cases the Escorting Contract Monitor for the UK Immigration Services carried out an internal investigation into the conduct of the escorts. Both complaints were found to be unsubstantiated.

**Alistair Burt:** To ask the Secretary of State for the Home Department how many complaints have been made by detainees about their treatment by escort services to and from Yarl's Wood detention centre in the last six months. [8456]

**Mr. McNulty:** In the last six months, 11 complaints have been received from detainees about their treatment by escort services to and from Yarl's Wood.

**Alistair Burt:** To ask the Secretary of State for the Home Department how many applications for asylum were received from Zimbabwean nationals in *(a)* 2000, *(b)* 2001, *(c)* 2002, *(d)* 2003 and *(e)* 2004; and if he will make a statement. [8457]

**Mr. McNulty:** Information on asylum applications for nationals of Zimbabwe are published quarterly and annually. The information requested is published in the annual bulletin Asylum Statistics United Kingdom 2003, and (data for 2004) Asylum Statistics: 4th Quarter 2004 United Kingdom. Copies are available from the Library and on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html

**Mr. Hood:** To ask the Secretary of State for the Home Department how many failed asylum seekers have been sent back to Zimbabwe in the past 18 months. [8839]

**Mr. McNulty:** Information on the destination for the removal of failed asylum seekers have only been available since the beginning of 2004. The latest published information on removal of asylum seekers covers the first quarter of 2005.In the 15 months from January 2004 until March 2005 195 principal asylum applicants were removed to Zimbabwe. A further 15 dependants of asylum seekers were removed to Zimbabwe in the same time period. These figures include people departing voluntarily after enforcement action has been initiated against them and people leaving under Assisted Voluntary Returns programmes run by the International Organisation for Migration. Figures have been rounded to the nearest five. Information on removals of asylum seekers for the second quarter of 2005 will be published in August on the Home Office website at http://www.homeoffice.gov.uk/rds/immigration1.html

**Kate Hoey:** To ask the Secretary of State for the Home Department how many asylum seekers are on hunger strike in Harmondsworth detention centre. [7593]

**Mr. McNulty:** As of the evening of 3 July, there were 16 detainees who were refusing food at Harmondsworth removal centre.

### British Citizens/Subjects

**Mr. Jim Cunningham:** To ask the Secretary of State for the Home Department what the differences are between a British citizen and a British subject; and if he will make a statement. [8965]

**Mr. McNulty:** All British citizens have the right of abode in the United Kingdom, and all are deemed to be "nationals of the United Kingdom" for the purposes of the Treaty Establishing the European Community. Most British subjects do not have the right of abode in the United Kingdom, but some do on the basis of a pre-1983 marital or ancestral connection with this country. British subjects who do have the right of abode here are deemed to be "nationals of the United Kingdom" for European Community purposes. Other distinctions

may stem from statutory or non-statutory rules for which the Home Office is not responsible, or from the laws of other countries.

**Mr. Jim Cunningham:** To ask the Secretary of State for the Home Department what travel regulations apply to British subjects married to British citizens. [8966]

**Mr. McNulty:** A British subject who is not expressed by the Immigration Act 1971 to have the right of abode in the United Kingdom is subject to control under the Act. The requirements applicable to such a person seeking to join a spouse who is present and settled in the United Kingdom are in part eight of Statement of Changes in Immigration Rules HC 395. Such travel regulations may be imposed on British subjects by any other state are, subject to any international agreements it may have entered into, a matter entirely for that state.

### Bus Drivers

**Sarah Teather:** To ask the Secretary of State for the Home Department how many bus drivers were charged with *(a)* drink driving, *(b)* speeding and *(c)* operating a mobile phone while driving in London in each of the last five years. [7462]

**Paul Goggins:** Information on the number of persons charged by the police by type of offence is not collected centrally.

### CCTV (Lancashire)

**Mr. Hoyle:** To ask the Secretary of State for the Home Department if he will make a statement on the funding for CCTV in Lancashire. [6610]

**Hazel Blears:** Lancashire will receive £3,189,361 from Home Office crime reduction funding streams in the financial year 2005–06. Crime reduction funding is allocated directly to the local Crime and Disorder Reduction Partnerships (CDRPs) through the Building Safer Communities Fund and to Basic Command Unit (BCU) Commanders through the BCU fund. These funding streams finance a variety of projects and interventions, including CCTV, to tackle local crime priorities. It is open to the CDRPs and BCU Commanders in Lancashire to decide whether to include CCTV projects in their spending plans and local crime reduction priorities.

### Community Support Officers

**Lynne Featherstone:** To ask the Secretary of State for the Home Department how many of the extra community support officers that the Government have proposed to recruit by 2008 are to be posted in London; and if he will make a statement. [5988]

**Hazel Blears:** At the end of March 2005 there were 6,300 CSOs in England and Wales. Of these, 2,143 were deployed by the Metropolitan police. We are providing significant, additional resources through the Neighbourhood Policing Fund (NPF) to support an increase in the numbers of CSOs to 24,000 by 2008. This investment will help forces deliver the commitment that by 2008 every area of the country will benefit from dedicated neighbourhood policing teams. We will announce later in the year, following discussions with the Association of Chief Police Officers and the Association of Police Authorities, what NPF funding will be allocated for each police authority. It will be for the commissioner to determine the deployment of CSOs within the Metropolitan police.

**Mr. McFadden:** To ask the Secretary of State for the Home Department how many police community support officers there are in Wolverhampton; and how many there are in the constituencies of Wolverhampton *(a)* South East, *(b)* South West and *(c)* North East. [9081]

**Hazel Blears:** Information on community support officer strength is not collected at constituency level. The Home Office Police Service Strength Statistical Bulletin, which will be published later this month , will provide data on the number of community support officers (CSOs) in each force at 31 March 2005.

**Mr. Hoyle:** To ask the Secretary of State for the Home Department how many community support officers are *(a)* on duty, *(b)* being trained and *(c)* to be trained in 2005–06 in Lancashire. [9117]

**Hazel Blears:** This information is not collected centrally. The training and deployment of Community Support Officers (CSOs) is an operational matter for the Chief Constable. The Home Office Police Service Strength Statistical Bulletin, which will be published later this month, will provide data on the number of CSOs at 31 March 2005.

**Mr. Hoyle:** To ask the Secretary of State for the Home Department what the working structure is between police community support officers and local community wardens in Chorley. [9118]

**Hazel Blears:** This information is not held centrally. The deployment of community support officers, including joint working with community wardens and other members of the extended policing family, is an operational matter for the chief constable.

### Crime

**Mr. Malins:** To ask the Secretary of State for the Home Department what percentage of crime was *(a)* alcohol-related and *(b)* drug-related in each of the last three years. [2831]

**Hazel Blears:** Routine crime statistics used for monitoring overall crime trends do not contain information on the offender's drinking or drug habits. It is therefore not possible to provide an estimate of the proportion of all crime that is either alcohol-related or drug-related. However, there is some information available on this area.

*(a)* The 2003 Offending, Crime and Justice Survey (OCJS) is a large scale nationally representative self-report offending survey of 10 to 65-year-olds living in private household in England and Wales. In the 2003 OCJS one in 10 incidents reported (10 per cent.) were committed when the offender had taken alcohol. Across offences as a whole, 6 per cent. of offenders said what happened was at least partly due to being drunk, when asked for their motivation for offending. A much higher proportion of criminal damage incidents (26 per cent.) and vehicle related thefts (16 per cent.) were attributed to drunkenness than violent incidents (7 per cent).

*(b)* Most crime by drug users is acquisitive crime. The Home Office sponsored New English and Welsh Arrestee Drug Abuse Monitoring (NEW-ADAM) survey, which involved interviewing and drug testing those arrested by the police, provides an insight into the proportion of crimes that are drug related. In interviews carried out between 1999 and 2001, 31 per cent. of all arrestees included in the survey and 43 per cent. of those held for property offences tested positive for opiates, such as heroin. However, this survey is not nationally representative. A new Arrestee Survey is currently being undertaken which will provide nationally representative information on the proportion of crime that is drug-related in the future.

**Mike Penning:** To ask the Secretary of State for the Home Department how many violent crimes there were in Hemel Hempstead constituency for each year since 1997. [5323]

**Hazel Blears:** The information requested is given in the tables. Hemel Hempstead comes within the Dacorum Crime and Disorder Reduction Partnership (CDRP) area and data at CDRP level has only been collected from 1999–2000. Since 1997, there have been two major changes to the way in which crime is recorded. The effect of the change in counting rules in 1998 was to artificially increase recorded violent crime nationally by more than 80 per cent. while it is estimated that the effect of the introduction of the National Crime Recording Standard (NCRS) in April 2002 caused a further 20 per cent. increase in recorded violent crime in its first year.

*Table 1: Recorded offences of violent crime in the Dacorum Crime and Disorder Reduction Partnership area 1999–2000 to 2001–02*

| | *Number of violent crimes* |
|---|---|
| 1999–2000 | 555 |
| 2000–01 | 607 |
| 2001–02 | 656 |

*Note:*
The data in this table is prior to the introduction of the National Crime Recording Standard. These figures are not directly comparable with those for later years.

*Table 2: Recorded offences of violent crime in the Dacorum Crime and Disorder Reduction Partnership area 2002–03 and 2003–04*

| | *Number of violent crimes* |
|---|---|
| 2002–03 | 927 |
| 2003–04 | 1,604 |

*Note:*
The data in this table takes account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

**Mr. Walker:** To ask the Secretary of State for the Home Department how many violent crimes were reported in Hertfordshire in each year since 1997; and if he will make a statement. [792]

**Hazel Blears:** The available information is given in the tables. Since 1997, there have been two major changes to the way in which crime is recorded. The effect of the change in counting rules in 1998 was to artificially increase recorded violent crime nationally by more than 80 per cent., while it is estimated that the effect of the introduction of the National Crime Recording Standard (NCRS) in April 2002 caused a further 20 per cent. increase in recorded violent crime in its first year.

*Table 1: Violent crimes[1] recorded by the police in Hertfordshire, 1997 to 2001–02*

| | *Number of offences* |
|---|---|
| 1997 | 2,890 |
| 1998–99[2] | 3,884 |
| 1999–2000 | 4,471 |
| 2000–01 | 5,390 |
| 2001–02 | 5,777 |

[1] Includes offences of violence against the person, sexual offences and robbery.
[2] Using the expanded coverage and revised counting rules which came into effect on 1 April1998.
*Note:*
The data in this table is prior to the introduction of the National Crime Recording Standard. These figures are not directly comparable with those for later years

*Table 2: Violent crimes[1] recorded by the police in Hertfordshire, 2002–03 and 2003–04*

| | *Number of offences* |
|---|---|
| 2002–03 | 9,082 |
| 2003–04 | 13,972 |

[1] Includes offences of violence against the person, sexual offences and robbery.
*Note:*
The data in this table takes account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years

**Dr. Kumar:** To ask the Secretary of State for the Home Department what percentage of reported crimes in Middlesbrough, South and East Cleveland were classified as *(a)* violent crimes and *(b)* distraction burglaries in each year since 1997. [5842]

**Hazel Blears:** The available information relates to the Middlesbrough Crime and Disorder Reduction Partnership (CDRP) area. The proportion of all recorded offences which were violent crimes was 8 per cent. in 2001–02, 13 per cent. in 2002–03 and 16 per cent. in 2003–04. Figures for earlier years are not available. Because of the introduction of the National Crime Recording Standard (NCRS) in April 2002, violent crime figures before and after that date are not directly comparable. It is estimated that the effect of the introduction nationally of the NCRS in April 2002 was a 20 per cent. increase in recorded violent crime in its first year. Distraction burglary figures are only available for 2003–04 and show that such offences accounted for 0.2 per cent. of all recorded crime in the Middlesbrough CDRP.

**Mr. Hands:** To ask the Secretary of State for the Home Department what the clear-up rates for *(a)* burglary, *(b)* robbery, *(c)* violent crime, *(d)* car crime and *(e)* sexual offences were in the London borough of Hammersmith and Fulham in the last year for which figures are available. [848]

**Hazel Blears:** The available information relates to the Hammersmith and Fulham Basic Command Unit and is given in the table.

*Clear-up rates for selected offences in the Hammersmith and Fulham Basic Command Unit—2003–04*

| *Offence* | *Percentage cleared up* |
|---|---|
| Domestic burglary | 8 |
| Robbery | 11 |
| Violent crime[1] | 24 |
| Theft of a vehicle | 10 |
| Theft from a vehicle | 1 |
| Sexual offences | 22 |

[1] Comprises of violence against the person, sexual offences and robbery.

**Mr. Paul Goodman:** To ask the Secretary of State for the Home Department if he will list the *(a)* agencies and *(b)* partnerships responsible for the reduction of crime in the Wycombe constituency. [6841]

**Hazel Blears** *[holding answer 23 June 2005]:* The partnership responsible for the reduction of crime and disorder under the provisions of the Crime and Disorder Act 1998 as amended by the Police Reform Act 2002 in the Wycombe constituency is the Wycombe Community Safety Partnership. The partnership consists of the statutory agencies named as responsible authorities in the Act, namely Wycombe district council, Buckinghamshire county council, Thames Valley police, Thames Valley police authority, Wycombe primary care trust and Buckinghamshire fire and rescue service. In addition, the following agencies form part of the Wycombe Community Safety Partnership; Buckinghamshire Drug Action Team, Thames Valley Probation Service, Wycombe Youth Offending Service, Crimestoppers and The Priory Centre.

**Bill Wiggin:** To ask the Secretary of State for the Home Department what crime detection rates have been in Wales in each year since the introduction of the National Crime Recording Standard, broken down by police force area. [1080]

**Hazel Blears:** The National Crime Recording Standard was introduced in April 2002 and the detection rates since that date are given in the following table.

*Detection rates for recorded crime in Wales*

| *Police force area* | *Percentage of offences detected*[1] *2002–03* | *2003–04* |
|---|---|---|
| Dyfed-Powys | 68 | 47 |
| Gwent | 48 | 45 |
| North Wales | 29 | 33 |
| South Wales | 29 | 29 |
| Wales | 36 | 35 |

[1] Changes in detection rates may have been influenced by ongoing effects of audits of the National Crime Recording Standard.

## Criminal Assets

**Bob Spink:** To ask the Secretary of State for the Home Department what criteria he used to decide the amount given to each police force from the extra £13 million in funding under the asset recovery incentive scheme. [5792]

**Hazel Blears:** As agreed with the Association of Chief Police Officers, incentive payments were based on the performance of each force in 2004–05 in the recovery of criminal assets. The amount given to each force was determined by their percentage contribution to the total value of cash forfeitures and confiscation orders obtained by the police service in 2004–05.

## Criminal Offences

**Mr. Allen:** To ask the Secretary of State for the Home Department how many criminal offences have been created in legislation sponsored by his Department since May 1997; and how many have been abolished. [6725]

**Hazel Blears:** The Home Office does not keep a central record of all the criminal offences that it has created or abolished. The latest information available shows that between one May 1997 and January 2004, the Home Office created 357 new criminal offences. This figure includes offences which have been modified or re-enacted.

## Disorder Penalty Notices

**Lynne Featherstone:** To ask the Secretary of State for the Home Department how many penalty notices for disorder for throwing objects at trains have been issued by the *(a)* Metropolitan police and *(b)* British Transport police in each of the last five years; and if he will make a statement. [5989]

**Paul Goggins:** In the period 1 January 2004 to 30 April 2005, the latest date for which figures are available, the number of penalty notices for disorder issued for throwing stones or things likely to cause damage or injury at trains is *(a)* six by the Metropolitan police and *(b)* two by the British Transport police. The British Transport police have yet to fully implement use of penalty notices nationally.

## DNA Records

**Lynne Featherstone:** To ask the Secretary of State for the Home Department how many DNA records were held by each police force in England in each of the last five years for which figures are available, broken down by *(a)* gender and *(b)* ethnicity; and if he will make a statement. [5727]

**Hazel Blears:** The information requested will be placed in the Library.

## Dog Theft

**Mr. Laurence Robertson:** To ask the Secretary of State for the Home Department what steps he is taking to reduce the incidence of dog theft; and if he will make a statement. [6137]

**Hazel Blears:** There is no national strategy to counter dog theft. Where this emerges as a pressing local crime issue, it would be for the police, in consultation with the Crime and Disorder Reduction Partnership, to take appropriate action.

## Domestic Violence

**Mr. Burstow:** To ask the Secretary of State for the Home Department how many *(a)* women and *(b)* men have been recorded as victims of domestic violence in each of the last five years, broken down by age. [5618]

**Hazel Blears:** Domestic violence is not separately identified in recorded crime statistics collected by the Home Office. Figures are available within the suite of Strategic Performance Indicators for the police, relating to domestic violence "incidents" notified by police forces in England and Wales, however this is whether or

not they are subsequently recorded as crimes. The British Crime Survey (BCS) routinely provides information on the number of incidents of domestic violence against men and women (but not on the actual number of victims), but this is not broken down by age (see the following table). The 2003–04 BCS estimated that there were, in total, 298,000 incidents of domestic violence against women in England and Wales, and 150,000 against men. The number of incidents of domestic violence as measured by the BCS has decreased by 42 per cent. from 1999 to 2003–04 BCS interviews. The BCS figures are estimates only. As they are derived from a sample they are subject to sampling error, also the context of the face-to-face BCS interview means the estimates are certain to be underestimates of the true extent due to the fact that some respondents may be unwilling to reveal experience of domestic violence to interviewers. To address this, self-completion components for those aged 16–59 on domestic violence have been included in the 1996, 2001, 2004–05, and 2005–06 BCS. Results from the 2001 BCS self-completion module on domestic violence were published in Home Office Research Study No. 276, deposited in the Library. This more confidential approach to measurement, revealed prevalence (percentage of population victim at least once) rates for last year domestic assault that were approximately five times higher than in the main face-to-face BCS. This report also provides the prevalence risk of domestic violence for men and women by age group (Table 5.12). This showed that risk of victimisation generally decreased with age, for both men and women.

*Number of BCS incidents of domestic violence, 1999 to 2003–04—England and Wales*

*Thousand*

| | *1999* | *2001–02* | *2002–03* | *2003–04* |
|---|---|---|---|---|
| Women | 560 | 514 | 366 | 298 |
| Men | 194 | 122 | 135 | 150 |

*Source:*
2000, 2001–02, 2002–03 and 2003–04 British Crime Surveys

**Mr. Malins:** To ask the Secretary of State for the Home Department how many *(a)* men and *(b)* women have been (i) charged with and (ii) convicted of assault involving domestic violence in each of the last five years for which figures are available; and what proportion were given a custodial sentence in each year. [6598]

**Hazel Blears** *[holding answer 23 June 2005]:* Statistics on the number of persons charged with an offence are not collected centrally. Offences involving domestic violence are not identifiable on the Home Office Court Proceedings database as no specific statute covers such offences. Prosecutions brought might range from common assault to homicide depending on the level of violence, and as the circumstances of the offences for which prosecutions are brought are not collected centrally, offences involving domestic violence cannot be distinguished from other offences within these categories. However, we have now developed a new Key Diagnostic Indicator with the Crown Prosecution Service that will complement the new Compass Case Management System, to track domestic violence cases. This new indicator was implemented in April 2005.

## Drugs

**Andrew Rosindell:** To ask the Secretary of State for the Home Department what steps the Government are taking to tackle the sale of drugs *(a)* on streets and *(b)* in nightclubs. [8539]

**Paul Goggins:** The Government's strategy is to intervene at all points in the drug supply chain. To this end it—has established a framework within which the police and other enforcement agencies deal with drugs supply, through the National Drugs Strategy, the National Policing Plan and the Police Performance Assessment Framework—has provided record funding to police forces to enable them to carry out their responsibilities. Expenditure on policing supported by Government grant or spent centrally on services for the police has increased by 39 per cent. or over £3 billion between 2000–01 and 2005–06—plans to spend £1.5 billion in support of the National Drugs Strategy in 2005–06—has created the Serious Organised Crime Agency to tackle organised and sophisticated criminal gangs who supply street dealers, and has put in place, through the Drugs Act 2005, additional powers to make it even more difficult for street dealers to avoid justice. Additionally the Government, in partnership with ACPO and others, actively promote best practice in policing drugs markets including issuing guidance for club owners and local authority licensing departments on drugs and nightclubs.

## Engagements

**Richard Ottaway:** To ask the Secretary of State for the Home Department what the Minister for Immigration's official engagements are for Thursday 30 June. [8336]

**Mr. McNulty:** I had several official engagements with ministerial colleagues and others on Thursday 30 June.

## Firearms Offences

**Lynne Featherstone:** To ask the Secretary of State for the Home Department how many people have been convicted of offences under the Anti-social Behaviour Act 2003 for carrying a replica or imitation firearm, broken down by *(a)* year and *(b)* police authority; and what the average sentence given for this offence was. [6902]

**Hazel Blears** *[holding answer 30 June 2005]:* Offences under the Anti-social Behaviour Act 2003, section 37 came into force on 20 January 2004. Statistics of court proceedings for 2004 will be published in the autumn.

**Mr. Garnier:** To ask the Secretary of State for the Home Department (1) if he will introduce a statutory definition of lethality in firearms legislation in relation to the definition of a firearm as a lethal-barrelled weapon; [8677]

(2) if he will introduce a limit of one joule of muzzle energy as the statutory limit to which firearms legislation should apply; [8678]

(3) when the Government's response to the Home Office Firearms Consultation 2004 will be published; and if he will ensure that future firearms legislation is based on its findings. [8679]

**Hazel Blears:** We received around 4,500 responses to the consultation paper on firearms controls. These have all been read and analysed and we are considering how we want to proceed. A summary of responses will be published. The need for a statutory definition of lethality linked to one joule of muzzle energy, or any other changes, will be considered in this context.

### Gun and Drug Crime

**Mr. Amess:** To ask the Secretary of State for the Home Department what research he has commissioned into the link between gun and drug crime. [3702]

**Hazel Blears:** The Home Office sponsored New English and Welsh Arrestee Drug Abuse Monitoring (NEW-ADAM) survey, which involved interviewing and drug testing those arrested by the police, included questions on carrying guns. A paper based on the data has been published by T H Bennett and K Holloway, "Possession and use of illegal guns among criminals in England and Wales" (Howard Journal of Criminal Justice, Vol 43, No three, pp 237–252). The Home Office has also conducted an arrestee survey which may highlight this issue. The results of this survey will be published later this year. There have also been discussions in the context of the Home Secretary's round table on gun crime, which has looked at possible links and appropriate interventions. This research is used to inform policy and legislative proposals. The Violent Crime Reduction Bill includes a number of measures designed to further tighten the firearms legislation, including a ban on the manufacture, import or sale of realistic imitation firearms, an increase from a maximum of six to 12 months sentence for carrying an imitation firearm in a public place without lawful authority or reasonable excuse, and an increase in the minimum age for possession of an air weapon to 18. The Bill also includes a new offence of using another person to look after, hide or transport a dangerous weapon. These measures complement existing legislation and demonstrate our determination to tackle gun crime.

### Happy Slapping

**Lynne Featherstone:** To ask the Secretary of State for the Home Department how many incidents of the practice known as 'happy slapping' were reported to the police in each of the last 12 months; and if he will make a statement. [6357]

**Hazel Blears:** The information requested is not collected centrally. An offence captured by the practice known as 'happy slapping' would be recorded according to how it is defined in law i.e. common assault, actual bodily harm etc.

### Illegal Immigration

**Andrew Rosindell:** To ask the Secretary of State for the Home Department how many illegal immigrants found within UK borders since 1997 have been convicted under the terrorism laws. [8532]

**Mr. McNulty:** The information requested is not available. It would be disproportionate to require the police and courts to obtain, verify and record this information in all cases. Information on nationality and immigration status can be a key part of the investigation of terrorist offences and the police and immigration service work closely together in these cases. The available evidence suggests that only a small number of foreign nationals, asylum seekers or refugees commit serious crimes. Statistics on the operation of the Prevention of Terrorism legislation from 1979 to 2001 are available on the Research and Statistics section of the Home Office website. Statistics since 11 September 2001, under the Terrorism Act 2000 are also available. These can be found in the terrorism section of the Home Office website.

### Indefinite Leave to Remain

**Sarah Teather:** To ask the Secretary of State for the Home Department when he expects all families who have applied for indefinite leave to remain under the one-off exercise to allow families who have been in the UK for at least three years to stay to be informed of the decision. [7469]

**Mr. McNulty:** It is not possible to provide a precise time scale of when all those currently being considered under the exercise will have had a decision made on their case. The time it takes to reach a decision depends both on individual circumstances and on the number of cases in the consideration process. Sometimes people do not complete the Family ILR Exercise Questionnaire properly, or fail to provide the documentation requested. The checks we conduct on potentially eligible applicants can also take some time to complete, depending on individual circumstances. We also encounter a number of complex cases that can take some time to resolve. The main factor, though, which makes providing a meaningful completion date for the exercise difficult, is the substantial number of cases we still have to consider. In addition, cases we had not previously identified for consideration under the exercise continue to come to light which we are also required to respond to. We are hoping to have completed consideration of the majority of cases by the end of April 2006. Key statistics relating to the Family ILR Exercise were published as part of the quarterly asylum statistics on 17 May. These show the current status of the exercise up to and including 31 March 2005 and are available to the public on the Home Office (HO) Research Development and Statistics (RDS) website. The full web address is:www.homeoffice.gov.uk/rds/immigration1.html. These statistics will be updated in August to cover the second quarter of 2005.

### Knives in School

**Mr. Willis:** To ask the Secretary of State for the Home Department how many incidents of school age children bringing knives or other offensive weapons into schools were *(a)* reported to the police and *(b)* resulted in prosecution or caution in each year between 1997 and 2005. [4260]

**Hazel Blears:** The Home Office collects recorded crime data on offences of possession of offensive weapons. Within that offence classification, there are two offences relating to possession of a blade or other offensive weapon on school premises. However, these

offences cannot be separately identified from other possession of weapons offences. The Court Proceedings Database holds details of number of defendants proceeded against and cautioned and these figures are given in the table. Figures for 2004 and 2005 are not yet available.

*Number of persons cautioned and proceeded against at magistrates courts for certain offences relating to knives on school premises—England and Wales 1997 to 20031*

| Statute | Offence description | Persons cautioned | | | | | | |
|---|---|---|---|---|---|---|---|---|
| | | 1997 | 1998 | 1999 | 20002 | 2001 | 2002 | 2003 |
| Criminal Justice Act 1988 Sec 139A(1)(5)(a) added by Offensive Weapons Act 1996 Sec 4(1) | Having an article with blade or point on school premises[3] | 11 | 30 | 22 | 36 | 48 | 46 | 40 |
| Criminal Justice Act 1988 Sec 139A(2)(5)(b) added by Offensive Weapons Act 1996 Sec 4(1) | Possession of offensive weapons without lawful authority or reasonable excuse on school premises | 19 | 31 | 28 | 40 | 46 | 29 | 60 |

| Statute | Offence description | Persons proceeded against | | | | | | |
|---|---|---|---|---|---|---|---|---|
| | | 1997 | 1998 | 1999 | 20002 | 2001 | 2002 | 2003 |
| Criminal Justice Act 1988 Sec 139A(1)(5)(a) added by Offensive Weapons Act 1996 Sec 4(1) | Having an article with blade or point on school premises[3] | 23 | 21 | 10 | 19 | 25 | 22 | 25 |
| Criminal Justice Act 1988 Sec 139A(2)(5)(b) added by Offensive Weapons Act 1996 Sec 4(1) | Possession of offensive weapons without lawful authority or reasonable excuse on school premises | 8 | 15 | 18 | 13 | 18 | 21 | 20 |

[1] These data are on the principal offence basis.
[2] Staffordshire police were only able to submit sample data for persons proceeded against and convicted in the magistrates courts in 2000. Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level and have been excluded from the table.
[3] Data excluded for West Mercia PFA, until clarification of these cases is obtained.

## Licensing Act

**Mr. Don Foster:** To ask the Secretary of State for the Home Department how many people in each *(a)* petty sessional division area and *(b)* police authority area have been (i) prosecuted and (ii) convicted under (A) section 172, (B) section 172A and (C) section 173 of the Licensing Act 1964 in each year since 1997; and if he will make a statement. [3248]

**Hazel Blears:** Statistics from the Home Office Court Proceedings Database on the number of people prosecuted and convicted under sections 172, 172A and 173 of the Licensing Act 1964, England and Wales, 1997–2003 are contained in the tables, broken down by police force area and petty sessional area. Statistics for 2004 will be available in the autumn. From 4 April 2005 the offence under section 172(3) of the Licensing Act 1964 (selling alcohol to a drunken person) became one for which penalty notices for disorder (PND) are available. Provisional data reported to the Home Office in April, latest available, shows that four PNDs were issued for this offence.

*Number of defendants proceeded against at magistrates courts and convicted at all courts for certain offences under the Licensing Act 1964, by petty sessional area, 1997–2003[1]*

| Offence description | Principal statute | Petty sessional area | 1997 | | 1998 | | 1999 | |

RDS—Office for Criminal Justice Reform

## Lunar House

**Richard Ottaway:** To ask the Secretary of State for the Home Department (1) whether the Minister for Immigration will attend the South London Citizens' Inquiry into Lunar house; [8337]

(2) for what reasons the Minister for Immigration decided not to give evidence to the South London Citizens' Inquiry into Lunar house. [8338]

**Mr. McNulty:** The Inquiry is focusing on how the Immigration and Nationality Directorate (IND) provides its services at Lunar house. In the light of this it was more appropriate for officials to attend rather than the Minister. Joanna Place and Jeremy Oppenheim, two of the senior directors in IND attended the Inquiry on 30 June.

## Methadone

**Mr. Fabian Hamilton:** To ask the Secretary of State for the Home Department what assessment he has made of the sources of methadone traded illegally. [6991]

**Hazel Blears** *[holding answer 28 June 2005]:* The Home Office have not conducted any systematic assessment of "black market" trading in methadone.

## Motoring Offences (London)

**Sarah Teather:** To ask the Secretary of State for the Home Department (1) how many people have been prosecuted for driving *(a)* without a licence, *(b)* without insurance and *(c)* without an MOT in each London borough in each of the last five years; [5451]

(2) how many people were prosecuted for having an untaxed vehicle in London in each of the last five years. [5450]

**Paul Goggins:** The following table shows (by London borough) the number of persons proceeded against for failure to produce a driving licence and for using a vehicle uninsured against third party risks. From the Home Office Court Proceedings Database it is not possible to separately identify the specific offence of driving a vehicle without a valid MOT certificate from other vehicle test offences, nor the offence of having an untaxed vehicle from other registration and licence offences.

*Number of persons[1] proceeded against for failing to produce a driving-licence[2] in Greater London by magistrates court/London borough, 1999–2003[3]*

[3] These data are on a principal offence basis

[4] Information held centrally does not allow a breakdown of cases by borough in the Inner London area

## Offensive Weapons

**Mr. Malins:** To ask the Secretary of State for the Home Department (1) how many persons have been *(a)* charged with, and *(b)* convicted of offences relating to unlawful (i) marketing of knives and (ii) publications in connection with the marketing of knives under sections 1 and 2 of the Knives Act 1997 in each of the last four years; and what proportion received a custodial sentence in each year; [6595]

(2) how many persons have been *(a)* charged with and *(b)* convicted of an offence under section 6 of the Offensive Weapons Act 1996 in each of the last five years for which figures are available; and what proportion received a custodial sentence in each year. [6596]

**Hazel Blears:** Statistics on the number of persons charged with a crime are not collected centrally. The information contained in the table gives the number of defendants proceeded against at the magistrates courts and found guilty at all courts for the offences requested, England and Wales 1999 to 2003. No sentences of immediate custody were given for these offences; the sentence breakdown for each offence has been provided. Statistics on court proceedings for 2004 will be published in the autumn.

*Number of defendants proceeded against at magistrates courts and found guilty and sentenced at all courts for certain knife offences[1]—England and Wales 1999 to 2003*

| Offence description | Statute | Year | Proceeded against | Found guilty | Sentenced |

[1] These data are on the principal offence basis

## Passports

**Sarah Teather:** To ask the Secretary of State for the Home Department how many people have been convicted for fraudulently using a UK passport in London in each of the last five years. [8201]

**Hazel Blears:** Data from the Home Office Court Proceedings database on the number of people found guilty of fraudulently using a UK passport under S.26(1)*(d)* Immigration Act 1971 in London, 1999 to 2003 is contained in the table.

*Number of offenders found guilty for offences under S.26 (1)(d) Immigration Act 1971 in London, 1999–2003*[1,2]

| | Number |
|---|---|
| 1999 | 4 |
| 2000 | 1 |
| 2001 | 2 |
| 2002 | 1 |
| 2003 | 2 |

[1] These data are on the principal immigration offence basis.

[2] Includes Metropolitan and City of London police force areas.

*Note:*

Statistics for 2004 court proceedings will be available in the autumn.

## Police

**Mr. Dismore:** To ask the Secretary of State for the Home Department for each London borough police officers, what the *(a)* establishment, *(b)* current number in post and *(c)* number on sickness absence and recuperative duties is; and if he will make a statement. [7069]

**Hazel Blears:** Data provided by the Metropolitan police on police officer numbers and budgeted workforce totals for each London Operational Command Unit at 31 March 2005, is shown in the following table. We do not hold comparable data on the number of officers in each operational command unit on sick leave or on recuperative duties.

*Police officer strength for London borough operational command units as at 31 March 2005*

| Territorial policing | Boroughs | Budgeted workforce total | Strength |
|---|---|---|---|
| BS | Kensington and Chelsea | 553.00 | 555.59 |
| CW | Westminster | 1,562.00 | 1,589.24 |
| EK | Camden | 817.00 | 845.41 |
| FH | Hammersmith and Fulham | 523.00 | 522.15 |
| GD | Hackney | 792.00 | 783.12 |
| HT | Tower Hamlets | 751.00 | 755.40 |
| JC | Waltham Forest | 536.00 | 542.84 |
| JI | Redbridge | 437.00 | 453.64 |
| KD | Havering | 360.00 | 381.32 |
| KF | Newham | 776.00 | 774.33 |
| KG | Barking and Dagenham | 413.00 | 418.48 |
| LX | Lambeth | 991.00 | 974.66 |
| MD | Southwark | 867.00 | 884.42 |
| NI | Islington | 675.00 | 679.95 |
| PL | Lewisham | 625.00 | 642.94 |
| PY | Bromley | 458.00 | 485.39 |
| QA | Harrow | 334.00 | 339.24 |
| QK | Brent | 678.00 | 675.40 |
| RG | Greenwich | 592.80 | 601.23 |
| RY | Bexley | 364.00 | 380.15 |
| SX | Barnet | 544.00 | 553.93 |
| TW | Richmond upon Thames | 285.00 | 284.00 |
| TX | Hounslow | 493.00 | 501.35 |
| VK | Kingston upon Thames | 276.00 | 292.79 |
| VW | Merton | 338.00 | 349.70 |
| WW | Wandsworth | 580.00 | 574.25 |
| XB | Ealing | 675.00 | 679.12 |
| XH | Hillingdon | 483.00 | 494.55 |
| YE | Enfield | 552.00 | 572.66 |
| YR | Haringey | 680.00 | 679.81 |
| ZD | Croydon | 660.00 | 689.01 |
| ZT | Sutton | 285.00 | 288.23 |
| | Borough total | 18,955.80 | 19,243.70 |

**Mr. Dismore:** To ask the Secretary of State for the Home Department (1) for each London borough by each rank up to chief inspector, *(a)* how many and *(b)* what percentage of police officers are aged (i) over 40, (ii) over 45 and (iii) over 50; and if he will make a statement; [7070]

(2) how many detectives in each London borough Metropolitan Police Service are in post; at what rank; how many hold *(a)* temporary, *(b)* acting and *(c)* trainees positions; how many have held that rank for less than two years; what the establishment is for each detective rank; and if he will make a statement. [7074]

**Hazel Blears:** The information requested is not centrally collected. The deployment of officers and police staff to borough operational command units is a matter for the commissioner of Police of the Metropolis.

**Mr. Drew:** To ask the Secretary of State for the Home Department what discussions he has had with the *(a)* Chief Constable and *(b)* Police Authority in Gloucestershire regarding structural re-organisation. [6386]

**Hazel Blears:** At the Association of Chief Police Officers' conference on 19 May, my right hon. Friend the Home Secretary made it clear that he did not believe that the current structure of 43 forces was the most efficient and effective arrangement for organising policing in England and Wales. He also made clear that he had no blueprint for force amalgamations, but that the initiative for such amalgamations should ideally be driven locally. To inform the way forward, the Home Secretary has commissioned Her Majesty's Inspectorate of Constabulary to examine the issue of force structures. As well as looking at the case for structural changes, Her Majesty's Inspectorate of Constabulary will also be examining the case for greater collaboration and co-operation between forces. Following the Home Secretary's speech, the chairman of the Gloucestershire

Police Authority raised the matter of force amalgamations with the Home Office Director of Policing Policy who relayed to the Chairman the position as set out above.

**Mr. Amess:** To ask the Secretary of State for the Home Department how many complaints have been made against police officers in each year since 1997 in *(a)* Southend and *(b)* Essex; and what action has been taken against the officers concerned. [4583]

**Hazel Blears:** The chief constable has responsibility for the day to day operational management of the force. I will ensure that he receives a copy of the question and replies to you directly in response to your concerns.

**Mr. Dismore:** To ask the Secretary of State for the Home Department if he will take steps to ensure that performance related pay for superintendents and chief superintendents reflects the *(a)* demands on, and *(b)* resources available to, the officer concerned; and if he will make a statement. [7071]

**Hazel Blears:** Performance-related pay for superintending ranks was introduced in September 2004 by mutual agreement. Both the official and staff sides are committed to its success and ensuring it is applied fairly and consistently. The operation of the scheme is being reviewed through the Police Negotiating Board.

**Mr. Drew:** To ask the Secretary of State for the Home Department pursuant to his answer of 7 June 2005, *Official Report*, column 518W, on police precepts, if he will provide figures per capita of the population for each police authority in each year from 1997–98 to 2005–06. [5246]

**Hazel Blears** *[holding answer 21 June 2005]:* The information is set out in the following table.

£

| | *Precept per head of population* | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|
| *Police authority* | *1997–98* | *1998–99* | *1999–2000* | *2000–01* | *2001–02* | *2002–03* | *2003–04* | *2004–05* | *2005–06* |
| Avon and Somerset | 17.47 | 18.56 | 20.68 | 23.12 | 24.93 | 28.73 | 39.52 | 44.51 | 46.62 |
| Bedfordshire | 17.41 | 18.64 | 20.54 | 22.46 | 23.64 | 26.58 | 31.84 | 36.63 | 38.52 |
| Cambridgeshire | 16.87 | 15.96 | 17.27 | 20.72 | 22.73 | 31.63 | 39.48 | 45.46 | 47.40 |
| Cheshire | 17.51 | 18.68 | 19.71 | 21.55 | 23.04 | 26.32 | 31.84 | 35.48 | 37.38 |
| Cleveland | 15.37 | 13.66 | 17.73 | 18.68 | 20.09 | 27.90 | 36.11 | 41.35 | 42.97 |

*Source:*

Office of the Deputy Prime Minister and the National Assembly for Wales.

**Mr. Ian Austin:** To ask the Secretary of State for the Home Department how many vehicles were purchased by police forces in England and Wales in the financial years 2001 to 2005; and how many, and what proportion of those were assembled in the UK. [6958]

**Hazel Blears:** This information is not held centrally. Decisions regarding procurement are operational matters for the Chief Constable and Police Authority.

## Project Iris

**Mr. Wallace:** To ask the Secretary of State for the Home Department what the cost is of the contract with SAGEM to supply the Iris based immigration system as part of Project Iris. [9028]

**Mr. McNulty:** The cost of the five year contract awarded to SAGEM to deliver the Iris biometric automated border entry system for pre-registered travellers at 10 airport terminals in the United Kingdom is £2.86 million.

## Public Order Act

**Mr. Malins:** To ask the Secretary of State for the Home Department how many people *(a)* over 18 years and *(b)* under 18 years were prosecuted for offences under section (i) 1, (ii) 2, (iii) 3, (iv) 4, (v) 4*(a)* and (vi) 5.5 of the Public Order Act 1986 in each of the last three years; and how many were convicted in each case. [5159]

**Hazel Blears:** The information contained in the following table gives the number of defendants proceeded against at the magistrates courts and found guilty at all courts for offences under the Public Order Act 1986, Secs one, two, three, four, 4A and five, in England and Wales from 2001 to 2003. Statistics on court proceedings for 2004 will be published in the autumn.

*Number of defendants proceeded against at magistrates courts and found guilty at all courts for certain offences under the Public Order Act 1986[1], England and Wales 2001 to 2003*

| | | 2003 | 26,698 | 18,400 |

[1] These data are on the principal offence basis.

[2] Includes offences: Racially aggravated fear or provocation of violence, Religiously aggravated fear or provocation of violence and Racially or religiously aggravated fear or provocation of violence.

[3] Includes offences: Racially aggravated causing intentional harassment, alarm or distress, Religiously aggravated causing intentional harassment, alarm or distress and Racially or religiously aggravated causing intentional harassment, alarm or distress.

[4] Includes offences: Racially aggravated harassment, alarm or distress, Religiously aggravated harassment, alarm or distress and Racially or religiously aggravated harassment, alarm or distress.

### Right of Abode

**Mr. Jim Cunningham:** To ask the Secretary of State for the Home Department what proportion of British nationals have the right of abode in the UK; and if he will make a statement. [8967]

**Mr. McNulty:** The expression "British national" is not used or defined in our nationality legislation, but is commonly understood to refer to the following:

British citizens;

British overseas territories citizens;

British overseas citizens;

British subjects;

British nationals (overseas); and

British protected persons.

Because these statuses are in most cases acquired through the automatic operation of law it is not possible to say precisely how many people fall into each category and, thus, what proportion have the right of abode in the United Kingdom.

### Shoplifting

**Mike Penning:** To ask the Secretary of State for the Home Department what proportion of shoplifters brought to police attention were *(a)* taken into custody, *(b)* charged, *(c)* prosecuted and *(d)* convicted in each year from 1997 to 2004. [5373]

**Hazel Blears:** Statistics on the number of people brought to the attention of the police for shoplifting who were taken into custody or charged are not centrally collected. Available information from the Home Office Court Proceeding database giving the number of persons prosecuted and found guilty for the offence "stealing from shops and stalls" England and Wales for the years 1997 to 2003 is shown in the table. Statistics on court proceedings for 2004 will be available in the autumn.

*Number of defendants proceeded against at magistrates courts and found guilty at all courts for offences under S1 Theft Act 1968, England and Wales, 1997 to 2003[1]—Offence: Stealing from shops and stalls*

| | *Proceeded against* | *Found guilty* |
|---|---|---|
| 1997 | 69,666 | 58,401 |
| 1998 | 77,915 | 66,690 |
| 1999 | 85,491 | 74,350 |
| 2000 | 89,050 | 77,542 |
| 2001 | 92,233 | 79,933 |
| 2002 | 92,664 | 80,167 |
| 2003 | 86,089 | 74,928 |

[1] These data are on the principal offence basis.

### Student Visas

**Mr. Stephen O'Brien:** To ask the Secretary of State for the Home Department what assessment he has made of the likely effect on the number of non-EU students studying in the UK of increasing the charges for student visas. [8035]

**Dr. Howells:** I have been asked to reply.

UKvisas is committed to working with the education sector through the newly formed Joint Education Task Force to examine any relationship between fees and student visa application numbers. Visa fees are generally a relatively small part of the overall students costs and there are many other factors; course costs, cost of living, exchange rates that influence the decision of where to study. Following the fee increase in 2002, the number of student applications during 2003–04 increased by approximately 24 per cent.

**Mr. Stephen O'Brien:** To ask the Secretary of State for the Home Department what representations he has received from the higher education sector on the likely impact of increased charges for student visas on future revenue for UK universities. [8041]

**Dr. Howells:** I have been asked to reply.

UKvisas wrote to stakeholders on 15 April about the proposed fee increases. UKvisas subsequently received a number of representations from individual higher and further educational establishments and from representative bodies including UKCOSA (the Council for International Education), Universities UK (UUK), Association of Colleges (AoC) Association of Independent Higher Education Providers (AIHEP), EnglishUK, National Union of Students (NUS). UKvisas wrote again to education stakeholders on 16 May, including with details of the costing methodology for the fee increase and details of the kinds of abuse being perpetrated in the student visa sector by bogus applicants.

My noble Friend the Foreign and Commonwealth Office Minister responsible for entry clearance (Lord Triesman of Tottenham), and my hon. Friend the Home Office Minister for Citizenship, Immigration and Nationality (Mr. McNulty), held a meeting with the education sector on 24 May to discuss stakeholder concerns and to explain the rationale for the fee increases. UKvisas is working to develop further the dialogue on visa matters with the education sector through the Home Office-chaired Joint Education task Force.

**Mr. Stephen O'Brien:** To ask the Secretary of State for the Home Department what estimate he has made of the effects of increasing the charges for student visas on future revenue for UK universities from fees paid by non-EU students. [8042]

**Dr. Howells:** I have been asked to reply.

There is no direct evidence of a causal relationship between visa fee levels and UK University income affecting one or the other. However UK visas is committed, including through its participation in the Joint Education Task Force, to developing further the dialogue with the education sector and improving the evidence base on all aspects of the impact of the visa operation on that sector.

**Mr. Stephen O'Brien:** To ask the Secretary of State for the Home Department what estimate he has made of the likely revenue from increasing charges for non-EU student visas. [8043]

**Dr. Howells:** I have been asked to reply.

In financial year 2005–06, estimated revenue from all student visa fees globally will be £24,430,815.

### Telecommunications Masts

**Mr. Gordon Prentice:** To ask the Secretary of State for the Home Department whether there have been preliminary results from the survey into the health effects of Tetra Systems being carried out by Imperial College announced in May 2003; and if he will make a statement. [8118]

**Hazel Blears:** The Health Monitoring Study being carried out by Imperial College will last for 15 years. Preliminary results are not expected for some time yet.

### Thames Valley Police

**Mr. Paul Goodman:** To ask the Secretary of State for the Home Department how many police officers were allocated to each local force within the Thames Valley police area in each year since 1997. [7041]

**Hazel Blears** *[holding answer 27 June 2005]:* Information on the number of officers in Basic Command Units has only been collected since 2002 and is set out in the table. Data for the position on 31 March 2005 will be published shortly on the Home Office website. The Basic Command Units have access to the force's additional centrally provided operational units, such as tactical support and crime support. The deployment of officers to Basic Command Units is an operational matter for the Chief Constable (Mr. Peter Neyroud).

*Basic Command Unit police officer strength—March 2001 to March 2004*

| *Basic Command Unit* | *March 2002* | *March 2003* | *March 2004* |
|---|---|---|---|
| Aylesbury Vale | 177 | 194 | 196 |
| Chiltern Vale | 298 | 293 | 321 |
| Milton Keynes | 343 | 346 | 371 |
| Northern Oxfordshire | 281 | 301 | 296 |
| Oxford | 316 | 317 | 336 |
| Reading and Wokingham | 369 | 387 | 434 |
| Slough and District | 254 | 264 | 297 |
| Southern Oxfordshire | 253 | 255 | 267 |
| Thames Forest | 309 | 307 | 339 |
| West Berkshire | 160 | 159 | 185 |

*Notes:*
1. March 2002 data provided to HM Inspectorate of Constabulary.
2. Subsequent years provided to Home Office Research, Development and Statistics Directorate.
3. All figures are full-time equivalent strength.

### Underage Drinking

**Alison Seabeck:** To ask the Secretary of State for the Home Department if he will seek to change the legislation relating to the drinking of alcohol to make it an offence to drink in public if a person is under the age of 18. [3892]

**Hazel Blears:** The Government carried out a fundamental review of the alcohol licensing regime which resulted in the Licensing Act 2003. The suggestion that a change to the legislation relating to the drinking of alcohol to make it an offence to drink in public if a person is under the age of 18 did not feature in the responses to the public consultation on those proposals, nor during the passage of the Bill through Parliament. The Confiscation of Alcohol (Young Persons) Act 1997, as amended by the Licensing Act 2003 to allow the confiscation of sealed containers, already provides the police with a power of confiscation where young people are drinking on the street. The 1997 Act was designed to allow the police to deal with situations where drinking causes a nuisance to others or may lead to further bad behaviour. It does not create an offence for a young person to have an alcoholic drink in a public place and the police are not under a duty to confiscate alcohol from underage drinkers. During the course of the legislation, Parliament made it clear that it did not wish the power to be used where young people's drinking was not perceived to be a problem, for instance at a family picnic.

### Violent Crime Reduction Bill

**Janet Anderson:** To ask the Secretary of State for the Home Department whether restaurants and hotels with publicly accessible bars will be exempt from the alcohol disorder zone proposals in the Violent Crime Reduction Bill. [5948]

**Hazel Blears:** The Violent Crime Reduction Bill provides for exemptions to be made from the charge in Alcohol Disorder Zones, where the principal use to which the premises is put do not include alcohol, and the availability of alcohol is not the main reason why individuals enter or remain on the premises. The intention is to exclude restaurants from the charge. Providing that a hotel also met the above criteria, then the establishment would be exempt from the charge.

### Zimbabwe

**Kate Hoey:** To ask the Secretary of State for the Home Department what his policy is on whether Zimbabwe is a safe country in which to return asylum seekers. [7591]

**Mr. McNulty:** I refer my hon. Friend to the statement made by my right hon. Friend the Home Secretary on 27 June 2005, *Official Report*, columns 1023–24W.

# Written Answers to Questions

*Wednesday 6 July 2005*

## LEADER OF THE HOUSE

### English Wine

**Mr. Dismore:** To ask the Leader of the House if he will ensure that English wine is made available at dinners, receptions and parties he hosts at which hospitality involving wine is appropriate *(a)* during the EU presidency and *(b)* generally; and if he will make a statement. [9153]

**Mr. Hoon:** I have no plans to host any dinners, receptions or parties specifically for the EU presidency, but—subject to value for money and where possible—British products are used.

### Special Advisers

**Bob Spink:** To ask the Leader of the House if he will list *(a)* the special advisers in his Department, *(b)* their specific areas of expertise and *(c)* the total cost of employing them in the latest year for which figures are available. [8828]

**Nigel Griffiths:** I refer the hon. Member to the answer given by my right hon. Friend the Prime Minister on 4 July 2005, *Official Report*, column 36W.

## DEPUTY PRIME MINISTER

### First-time Buyers

9. **Ian Lucas:** To ask the Deputy Prime Minister if he will make a statement on the recent proposals announced to help first-time buyers. [9721]

**Mr. David Miliband:** The Government want to offer everyone the opportunity of a decent home at a price they can afford. We set out our overarching proposals earlier this year in "Sustainable Communities: Homes for All." We published a consultation document, "HomeBuy—Expanding the Opportunity to Own," in April. We are currently considering the responses received. Copies of both of these documents can be found in the Library of the House.

### House Building Targets

10. **Bob Spink:** To ask the Deputy Prime Minister what mechanisms he will use to test the East of England Regional Spatial Strategy house building targets. [9722]

**Yvette Cooper:** An examination in public, before an independent panel, will test the proposed house building targets contained in the draft Regional Spatial Strategy for the East of England.

### Milton Keynes (Grid Road System)

11. **Mr. Lancaster:** To ask the Deputy Prime Minister what discussions he has had with the Secretary of State for Transport regarding the future of Milton Keynes's grid road system in relation to his sustainable communities plan for the city. [9723]

**Jim Fitzpatrick:** Both the Office of the Deputy Prime Minister and Department for Transport are aware of the local debate in Milton Keynes about whether to extend the grid road system in the city, although my right hon. Friend the Deputy Prime Minister has not met my right hon. Friend the Secretary of State for Transport to discuss it. I look forward to the local partners resolving this matter.

### Telecommunications Masts

13. **Annette Brooke:** To ask the Deputy Prime Minister what plans he has to review planning policy relating to telecommunications masts; and if he will make a statement. [9725]

**Yvette Cooper:** The Government's will be commissioning further research to identify the future direction of mobile phone technology and the need for mast developments. This forms part of a wider review the Government is undertaking of all the planning arrangements for telecommunication masts.

### Regional Fire Control Rooms

14. **Mike Penning:** To ask the Deputy Prime Minister what the timetable is for the establishment of regional fire control rooms. [9726]

**Jim Fitzpatrick:** The timetable for the control centre project is contingent upon a final decision being made on how best to take forward plans for modernisation of control centres.

We expect to make an announcement about locations shortly. Once this has been made we will then have a clearer view on what the overall timetable will be for their completion.

**Tony Baldry:** To ask the Deputy Prime Minister when he expects to announce the location of the regional control centre for the fire service in the south-east of England. [9281]

**Jim Fitzpatrick:** Discussions with developers in the south-east are taking slightly longer than in other regions. I expect to make an announcement on the location for the south-east regional control centre shortly after the announcements for the other centres.

### Planning Gain

15. **Keith Vaz:** To ask the Deputy Prime Minister what plans he has to review the law on planning gain. [9727]

**Yvette Cooper:** As set out in the March 2005 Budget report, the Government will respond to the recommendations in the Barker Review of Housing Supply, including a proposed Planning-gain Supplement, later this year.

The Government are also shortly due to publish a new circular on planning obligations which seeks to improve the operation of the system under the current legislative framework.

### Best Value

**Mrs. Spelman:** To ask the Deputy Prime Minister how many Best Value performance indicators each tier of local council were required to compile, *(a)* in each year since the introduction of Best Value and *(b)* in 2005–06. [9535]

**Mr. Woolas:** The information is set out in the following table:

| | *BVPIs and ACPIs* | *BVPIs* | | | | |
|---|---|---|---|---|---|---|
| | *2000–01*[1] | *2001–02* | *2002–03* | *2003–04* | *2004–05* | *2005–06* |
| Unitaries/ Met. boroughs | 189 | 123 | 95 | 97 | 98 | 94 |
| London | 189 | 121 | 94 | 95 | 95 | 93 |
| County councils | 134 | 105 | 76 | 75 | 76 | 59 |
| District councils | 91 | 65 | 51 | 53 | 51 | 57 |

[1] Includes Audit Commission Performance Indicators which were replaced entirely in 2001–02 by Best Value Performance Indicators.

### Correspondence

**Mr. Grieve:** To ask the Deputy Prime Minister when he will reply to the letter from the hon. Member for Beaconsfield of 15 June. [10100]

**Jim Fitzpatrick:** I replied to the hon. Member on 5 July.

### Doorways (Height)

**Daniel Kawczynski:** To ask the Deputy Prime Minister if he will take steps to raise the required height of doorways in new buildings from 6 ft 8 in to 7 ft. [9724]

**Yvette Cooper:** There are no proposals, nor has there been any consideration of proposals, to amend the Building Regulations to require doors to be built to any specific height.

### e-Government Regional Partnership Group

**Mrs. Spelman:** To ask the Deputy Prime Minister if he will make a statement on the role of his Department in the proposed e-Government Regional Partnership Group. [9532]

**Jim Fitzpatrick:** The Office of the Deputy Prime Minister (ODPM) currently funds nine local e-Government Partnerships representing each of the English regions to the tune of £300,000 for the period April 2004 to March 2006 to develop local e-Gov solutions that can then be made available to all authorities in each region as well as throughout the country.

The local e-Gov programme is to conclude on 31 March 2006. This is as originally planned and reflects the support necessary to deliver my right hon. Friend the Prime Minister's pledge that 100 per cent. of services would be available on-line by December 2005. We are migrating the outputs from the programme to ownership largely within the local authority community. The Regional e-Government Network—consisting of the nine regionally based partnerships, is part of that community. The network has come together as a way to collaborate and share knowledge and experience and reduce duplication of effort. The ODPM continues to be responsible for leading on local e-Government and related issues and has no plans to transfer this responsibility to any other body.

### Emergency Calls

**Sandra Gidley:** To ask the Deputy Prime Minister how many *(a)* genuine and *(b)* malicious false alarm fire emergency calls have been received in Hampshire in each year since 1997. [9797]

**Jim Fitzpatrick:** The number of false fire alarms attended by Hampshire fire and rescue service since 1997 is set out in the following table. Genuine false alarms are those generated by automatic equipment (due to apparatus) and by people believing that there was a fire (good intent).

*False fire alarms, by type, attended by Hampshire FRS. 1997–2004*

| | *Total false fire alarms* | *Good intent calls* | *Malicious calls* | *Due to apparatus* |
|---|---|---|---|---|
| 1997 | 10,027 | 2,619 | 662 | 6,746 |
| 1998 | 9,494 | 2,358 | 579 | 6,557 |
| 1999 | 9,351 | 2,371 | 640 | 6,340 |
| 2000 | 9,266 | 2,315 | 699 | 6,252 |
| 2001 | 10,035 | 2,627 | 826 | 6,582 |
| 2002[1] | 10,531 | 2,756 | 795 | 6,980 |
| 2003[1] | 10,333 | 2,945 | 788 | 6,600 |
| 2004[2] | 9,827 | 2,431 | 666 | 6,730 |

[1] Includes estimates for incidents not recorded during periods of industrial action in 2002 and 2003.
[2] Provisional
*Source:*
Fire and Rescue Service FDR3 returns to ODPM.

### Fire Service

**Mr. Amess:** To ask the Deputy Prime Minister how many fire crews have trained for Essex fire brigade in each of the last five years; and how many are on the waiting list for training. [9971]

**Jim Fitzpatrick:** This is a matter for the local fire and rescue service. The information requested is not held centrally and could be provided only at disproportionate cost.

### Flooding (North Yorkshire)

**Miss McIntosh:** To ask the Deputy Prime Minister if he will provide funds under the Bellwin Formula for the funding of repairs and clear-up following the recent floods in North Yorkshire; if he will ensure that payments are made swiftly; and if he will relax the deadline for applications. [9459]

**Jim Fitzpatrick:** Emergency financial assistance is available to the affected local authorities under the Bellwin scheme to help with their costs incurred in taking immediate action to safeguard life or property or to prevent severe inconvenience to the inhabitants of the area. Local authorities have one month from the end date of an incident in which to notify OPDM of an

intention to make a claim. This deadline is fixed but we are prepared to consider extending the usual two month eligible spending limit, subject to the relevant local authorities providing a reasonable case for this. To date one local authority in the North Yorkshire area has been in touch to register a possible Bellwin claim.

Once a valid claim is received, we will make payment as swiftly as possible. This is usually within 15 working days.

**Miss McIntosh:** To ask the Deputy Prime Minister if he will reconsider the restrictions on Bellwin Formula payments excluding claims for personal items. [9460]

**Jim Fitzpatrick:** Emergency financial assistance is available to the affected local authorities under the Bellwin scheme to help with their costs incurred in taking immediate action to safeguard life or property or to prevent severe inconvenience to the inhabitants of the area. It has been the policy of successive Governments not to pay compensation to householders or businesses for any losses suffered as a result of flooding as this is an insurable risk. If the Government were to underwrite insurable costs, it would remove the incentive for people to take out appropriate insurance cover with considerable dissatisfaction on the part of those who had chosen to take out cover. However, in cases of genuine hardship, help may be available from the social fund; details are available from Benefits Agency offices.

**Miss McIntosh:** To ask the Deputy Prime Minister if he will make available emergency funds to repair the damage to roads following the recent floods under the Bellwin formula in North Yorkshire county council area. [9466]

**Jim Fitzpatrick:** Emergency financial assistance is available to the affected local authorities under the Bellwin scheme to help with their costs incurred in taking immediate action to safeguard life or property or to prevent severe inconvenience to the inhabitants of the area. Such costs can include the immediate repairs to highways, pavements and footpaths but longer term repairs are deemed ineligible under Bellwin. The Department for Transport operate a scheme which specifically deals with emergency road repairs.

**Miss McIntosh:** To ask the Deputy Prime Minister if he will allocate emergency funds under the Bellwin formula to be made available for the clear-up of the countryside and carriageways of people's possessions and debris in North Yorkshire following the recent floods. [9468]

**Jim Fitzpatrick:** Emergency financial assistance is available to the affected local authorities under the Bellwin scheme to help with their costs incurred in taking immediate action to safeguard life or property or to prevent severe inconvenience to the inhabitants of the area. It has been the policy of successive Governments not to pay compensation to householders or businesses for any losses suffered as a result of flooding as this is an insurable risk. If the Government were to underwrite insurable costs, it would remove the incentive for people to take out appropriate insurance cover. However, in cases of genuine hardship, help may be available from the social fund; details are available from Benefits Agency offices.

## HMOs (Licence Fees)

**Sarah Teather:** To ask the Deputy Prime Minister what recent representations he has received from *(a)* landlord and *(b)* tenant organisations on houses in multiple occupation licensing fees; and what response he has made. [6420]

**Yvette Cooper:** I refer the hon. Member to the answer I gave to the hon. Member for Meriden (Mrs. Spelman) on 5 July 2005 (ref. 4872).

## Homeless (Hornsey and Wood Green)

**Lynne Featherstone:** To ask the Deputy Prime Minister if he will estimate the number of homeless people in Hornsey and Wood Green in each of the last five years; and if he will make a statement. [8402]

**Yvette Cooper:** Information about local authorities' actions under homelessness legislation is collected quarterly at local authority level and is in respect of households rather than persons. Hornsey and Wood Green are within the London borough of Haringey.

The number of households accepted by the borough as eligible for assistance, unintentionally homeless and in priority need for each year since 2000–01, and the number of households in temporary accommodation arranged by the borough under homelessness legislation as at 31 March in each year is tabled as follows. Information is also collected on the number of people who sleep rough—that is, those who are literally roofless on a single night—and these are also presented in the table.

The duty owed to a person accepted as eligible for assistance, unintentionally homeless and in priority need is to secure suitable accommodation. If a settled home is not immediately available, the authority may secure temporary accommodation until a settled home becomes available. As an alternative to the provision of temporary accommodation some authorities arrange for households to remain in their current accommodation (homeless at home), until a settled solution becomes available.

*London borough of Haringey reported activity on homelessness*

| | *Decisions[1] during the year* | | |
|---|---|---|---|
| | *Accepted[2] as owed a main duty* | *In temporary[3] accommodation as on 31 March* | *Rough sleepers (persons)* |
| 2000–01 | 1,436 | 3,709 | 2 |
| 2001–02 | 1,138 | 3,520 | 2 |
| 2002–03 | — | — | 8 |
| 2003–04 | — | 4,774 | 6 |
| 2004–05 | 1,175 | 5,309 | 4 |

'—'denotes an authority failed to provide a return for 1 or more quarters.

[1] Data shown where 4 quarterly returns were received.

[2] All households eligible under homelessness legislation, found to be unintentionally homeless and in a priority need category and consequently owed a main homelessness duty during the year.

[3] Households in accommodation either pending a decision on their homelessness application or awaiting allocation of a settled home following acceptance.

HOUSING Strategy Statistical Appendix (annual)

### Independent Tenant Advisers

**Mr. Drew:** To ask the Deputy Prime Minister if he will establish a register for independent tenant advisers; and if he will make a statement. [9959]

**Yvette Cooper:** The Office of the Deputy Prime Minister has no plans to establish a register for independent tenant advisers.

### Pensions

**Mrs. Spelman:** To ask the Deputy Prime Minister what the cost will be to local authorities of revoking the changes to the Local Government Pension Scheme in the Local Government Pension Scheme (Amendment) (No.2) Regulations 2004. [4282]

**Mr. Woolas:** A full statement on the outcome of the recently concluded statutory consultation exercise to amend the Local Government Pension Scheme (Amendment) (No.2) Regulations 2004 in England and Wales will be made shortly.

### Referendums

**Mrs. Spelman:** To ask the Deputy Prime Minister pursuant to his answer of 7 June 2005, *Official Report*, column 497W, on referendums, what the expenses limit for *(a)* political parties and *(b)* registered third parties in mayoral referendums. [5562]

**Mr. Woolas:** The expenses limit specified by The Local Authorities (Conduct of Referendums) (England) Regulations 2001 of 2,000, plus 5p per elector on the relevant register of local government electors, applies to expenses incurred by or on behalf of an individual or body for the purpose of promoting a particular result in a referendum. The same limit applies to all individuals and bodies, including political parties.

### Vehicle Fires

**Mrs. Spelman:** To ask the Deputy Prime Minister pursuant to the Answer of 20 June 2005, *Official Report*, column 822W, on vehicle fires, what the figures are for 2004. [9527]

**Jim Fitzpatrick:** The information requested for 2004 is contained in the following table.

*Deliberate road vehicle primary fires, by fire and rescue service area, 2004*

| *FRS area* | *2004*[1] |

Fire and Rescue Service FDR1 returns to ODPM.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Abandoned Vehicles

**Mark Tami:** To ask the Secretary of State for Environment, Food and Rural Affairs what guidance her Department provides to local authorities on the removal of abandoned vehicles. [9214]

**Mr. Bradshaw:** There is currently no central guidance supplied to local authorities on the removal of abandoned vehicles.

However, as part of the implementation of the Clean Neighbourhoods and Environment Act 2005, the government is in the process of drafting statutory guidance to local authorities on the discharge of their duty on abandoned vehicles. This guidance will be fully consulted on later in the year.

**Mrs. Spelman:** To ask the Secretary of State for Environment, Food and Rural Affairs how many abandoned vehicles were reported in each year for which figures are available in *(a)* England, *(b)* each government office region and *(c)* each local authority area. [9545]

**Mr. Bradshaw:** Local authorities are not asked to supply figures on how many reports of abandoned vehicles they receive, rather the number that they remove and destroy.

Numbers of abandoned vehicles reported does not give an accurate picture of the problem as a report of a vehicle being abandoned does not necessarily mean it will turn out to be abandoned. Also, reports can be malicious and single vehicles reported by more than one person.

### Bees

**Tim Loughton:** To ask the Secretary of State for Environment, Food and Rural Affairs for what reason the annual budget of the bee health progamme is being reduced by 20 per cent. [8347]

**Jim Knight** *[holding answer 30 June 2005]:* The decision to reduce expenditure on the bee health programme by around £250,000 per annum from 2008 was taken last year as part of a package of decisions on the future allocation of Defra's financial resources.

**Tim Loughton:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the threat of the varroa mite and other parasites to the UK bee population; and if she will make a statement. [8348]

**Jim Knight** *[holding answer 30 June 2005]:* Controlling varroa is still an important challenge to beekeeping today, but one which we believe beekeepers can manage through the application of good bee husbandry. The pest is now endemic across much of the UK and has become so despite its notifiable status. Defra has concluded that maintaining a statutory enforcement role for this pest is no longer appropriate and we plan to remove Varroosis from the list of notifiable diseases.

In terms of other bee parasites, the National Bee Unit has made an assessment of the exotic parasitic mite, tropilaelaps, and considers that its introduction could have a serious impact on UK beekeeping. We are developing contingency measures accordingly.

### Bovine Tuberculosis

**Mr. Austin Mitchell:** To ask the Secretary of State for Environment, Food and Rural Affairs how much has been paid for cattle slaughtered because of bovine tuberculosis since 2000; and to how many farmers. [9661]

**Mr. Bradshaw:** The following table provides details for compensation paid against cattle slaughtered since 2000 in Great Britain. Information about the numbers of farmers receiving compensation is not held centrally and could be obtained only at disproportionate cost.

*Compensation paid against cattle slaughtered*

| *Calendar year* | *Cattle slaughtered*[1,2] | *Compensation expenditure (£)*[3] |
|---|---|---|
| 2004 | 22,566 | [4]33,785,023 |
| 2003 | 23,177 | 38,215,285 |
| 2002 [5] | 23,013 | 28,898,623 |
| 2001 [5] | 6,320 | 7,074,125 |
| 2000 | 8,400 | 7,307,797 |

[1] TB Reactors plus Direct Contacts
[2] Data downloaded from State Veterinary Service database on 19 May 2005. All data provisional and subject to change as more data become available.
[3] TB Compensation data taken from the Animal Health 2004, Report of the Chief Veterinary Officer, page 161.
[4] provisional figures data taken from the Animal Health 2004, Report of the Chief Veterinary Officer, page 161.
[5] In 2001, the TB testing and control programme was largely suspended due to the foot and mouth disease (FMD) outbreak. When testing resumed in 2002, resources were concentrated on herds with overdue TB tests which would have had a longer period in which to contract the disease. Also the proportion of high risk herds tested immediately after the FMD outbreak was greater than that prior to the outbreak. As a result, data for 2001 and 2002 are not comparable with other years.

### BSE

**Mr. Hayes:** To ask the Secretary of State for Environment, Food and Rural Affairs what monitoring the UK Government have put in place following the discovery of BSE in a French goat; what discussions she has had with the French government; and if she will make a statement. [8986]

**Mr. Bradshaw:** In line with EU legislation agreed following the discovery of BSE in a French goat slaughtered in 2002 and the announcement of a possible UK case slaughtered in 1990 which is subject to further investigations, the UK has arranged for all goats aged over 18 months that die or are put down on farms to be tested for BSE. In addition all goats aged over 18 months slaughtered in abattoirs handling significant numbers of older goats will be tested.

The Veterinary Laboratories Agency (VLA) in its role as Community Reference Laboratory for TSEs is in regular contact with counterparts in France. The Food Standards Agency and Defra, including VLA, met the French Food Safety Agency in June and briefly discussed testing arrangements for goats.

### Cattle Restriction Orders

**Mr. Austin Mitchell:** To ask the Secretary of State for Environment, Food and Rural Affairs how many cattle herds are under restriction orders. [9660]

**Mr. Bradshaw:** On 30 April 2005, 4,164 cattle herds were under bovine TB restriction in England. This includes herds under restriction due to a TB breakdown and herds restricted due to an overdue TB test.

In addition, there are currently 36 cattle herds in Great Britain under restriction for cattle identification irregularities. These restrictions will be lifted once the correct identification requirements have been met.

### Cod Beck

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will take steps to speed up the proposed en-maining of the Cod Beck and bring it under the Main Rivers category. [9470]

**Mr. Morley:** Hambledon district council, have recently completed a feasibility study for a flood risk improvement scheme for Thirsk. The Environment Agency is working with my officials and the council to determine the most appropriate way of promoting such works.

Cod Beck is one of the watercourses for which we plan to transfer responsibility to the Environment Agency on 1 April 2006. If the current classification of the

watercourse creates difficulties in proceeding with a possible scheme we shall be prepared to consider bringing forward the proposed transfer date.

### Endangered Species

**Mark Tami:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department is taking to reverse declines in the numbers of each most endangered species in England. [9210]

**Jim Knight:** The Department is taking action in many ways. The three key measures are:

(i) Our work under the UK Biodiversity Action Plan which sets out targeted plans for 391 endangered species and 45 habitats across the UK. These plans are delivered by partnerships with the public, voluntary and private sectors. A review of the Action Plan in 2006 will ensure that the list of priority species and habitats remains relevant, and will revise targets for the individual action plans. This will include setting targets at the individual country level.

Under Section 74 of the Countryside and Rights of Way Act 2000, the Department prepared a list of habitats and species of principal importance in England. The England Biodiversity Strategy, launched by the Secretary of State in 2002, sets out the means by which the Government will comply with its duty under Section 74 to further the conservation of the listed species and habitats, including through the continued implementation of the Action Plans. The Strategy is one of Defra's key programmes;

(ii) Ensuring robust legal protection for endangered species and their habitats thorough legislation such as the Wildlife and Countryside Act 1981. The Department is currently reviewing Part I of the 1981 Act. This part of the 1981 Act is the principal piece of national legislation protecting our native birds, animals and plants. A consultation on the review was completed in March this year and a number of wildlife measures from the consultation have been included in the Natural Environment and Rural Communities (NERC) Bill;

(iii) Delivery of our PSA targets to bring into favourable condition by 2010 95 per cent. of all nationally important wildlife sites; and to reverse the long term decline in the number of farmland birds by 2020. This is being facilitated through our extensive network of protected sites and the agri-environment schemes.

### EU Tobacco Subsidies

**Mr. Hayes:** To ask the Secretary of State for Environment, Food and Rural Affairs how much EU financial support is available for growing low grade tobacco in 2005–06; what quantities of such tobacco are exported; to which countries; what discussions are taking place on reform of such practices; and if she will make a statement. [9027]

**Jim Knight:** The EU budget provision for tobacco premiums in 2005 is €916 million. Higher grade tobacco attracts a higher premium than tobacco which is of lower quality. The main destinations for export of EU grown tobacco in its raw state are Russia, the United States, the Ukraine, and Egypt. The quantities exported to these and other destinations in 2004 are set out in the following table.

The practice of supporting raw tobacco production is one the UK has consistently opposed and I am pleased to say that from 2006 it is to be phased out. Under the agreement reached by the Council of Ministers in Luxembourg in April 2004, direct support for tobacco will be brought to an end by 2010. Between 2006 and 2010 producer member states will have the option of retaining up to 60 per cent. of the tobacco premium as a coupled payment. From 2010, support will be completely decoupled from production, with 50 per cent. being transferred to the single payment and the remaining 50 per cent. to be used for restructuring programmes under the rural development programme.

*EU 15/25[1] exports of raw tobacco in 2004*

| *Metric tonnes* | |
|---|---|
| Russia | 38,881 |
| USA | 23,466 |
| Ukraine | 20,542 |
| Egypt | 14,853 |

### Flooding

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will expedite the flood alleviation scheme for *(a)* Thirsk and *(b)* other suggested flood defence projects in the area; and if she will relax the point scoring system on the project. [9471]

**Mr. Morley:** Defra has overall policy responsibility for flood and coastal erosion risk in England. We fund most of the Environment Agency's activities in this area and provide grant aid on a project-by-project basis to the other flood and coastal defence operating authorities (local authorities and internal drainage boards) to support their investment in improvement works. Improvement projects funded by Defra, including those of the Environment Agency, must meet specified economic, technical and environmental criteria and achieve an appropriate "priority score" to be eligible for funding. Defra does not build defences, nor direct the authorities on what specific projects to undertake. The works programme to manage risk is driven by the operating authorities.

Defra operates a priority scoring system to ensure that taxpayers' money is spent to best effect and to maximise the benefits achieved from a finite budget available for flood and coastal erosion risk management. The system is designed to be as logical, transparent and equitable as possible, with criteria published on our website. Prioritisation has to be based on risk and while I understand the desire for defences when areas flood, it is not, however, a defensible reason for allowing them to jump the queue ahead of areas where risks of future floods might be greater. Making an

exception for Thirsk would clearly depart from the principles of objectivity, fairness and a risk based approach.

A feasibility study has been carried out by Hambleton district council to examine the possibility of a flood alleviation scheme for Thirsk. The best way to take this forward will be explored jointly by Hambleton DC and the Environment Agency, with Defra advice as required.

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs what the reasons were for the delays in flood warning to be made public in connection with the recent floods in North Yorkshire. [9472]

**Mr. Morley:** Responsibility for flood warning arrangements rests with the Environment Agency.

I understand that on Friday 17 June 2005, Met Office forecasts to the Environment Agency indicated the likelihood of thunderstorms across North East Region over the weekend. However, due to the nature of the weather system, the Met Office were unable, even by Sunday lunchtime, to be more specific than to warn that most of the region was at continued risk of thunderstorms from the afternoon into the evening, and they had particular concern about the Pennines.

Three Flash Warnings of heavy rain were issued to the Environment Agency on Sunday 19 June at 13:57, 18:22 and 20:41 BST, but all the information related to "scattered heavy thunderstorms", "localised torrential downpours" and "localised flooding" with no direct time or location given to them.

The Environment Agency was alerted to the onset of property flooding at Thirsk and surrounding areas between 17:30 and 18:00 on 19 June;. While I understand that flooding at this stage was confined to surface water runoff, the Environment Agency nevertheless deployed operational staff to the area to report back on the situation.

At 20:00 on 19 June, alarm levels were received from the Environment Agency's instrumentation on Cod Beck upstream of Thirsk and consequently the Flood Watch for the area was issued at 20:10.

By 21:30, Environment Agency patrol staff on site reported a rapid rise of water levels in Cod Beck and the decision was therefore taken to issue the Flood Warning for Thirsk. The warning for flooding from Cod Beck itself was issued at 21:38 to 184 recipients. By this time there had been some flooding to property as a result of surface water and drainage problems but not from Cod Beck.

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make provision for the collection of animal carcasses to be free of cost to farmers following the flooding in North Yorkshire. [9474]

**Mr. Morley:** The Department does not have any provision for the free collection of animals lost in the recent flooding. However, although not compulsory, I understand that many farmers already insure their livestock against such eventualities and it is likely that the cost of collection and disposal of dead stock will be met by the insurance companies concerned.

## Fly-tipping

**Mr. Burstow:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 16 June 2005, *Official Report*, column 552W, on fly-tipping, if she will break the figures down by *(a)* location and *(b)* type for (i) each region and (ii) each London borough. [8420]

**Mr. Bradshaw:** The following data are from the Flycapture database which was established in April 2004 to record all fly-tips reported to and dealt with by waste collection authorities and the Environment Agency.

It is important to note that the data are probably an underestimate and will increase as more authorities submit returns and get better at collecting and reporting the data.

*Table 1: Number of fly-tipping incidents in each English region by land type*

| *Region* | *Highway* | *Footpath bridleway* | *Back alleyway* | *Railway* | *Council land* |
|---|---|---|---|---|---|
| East Midlands | 19,327 | 7,861 | 1,654 | 40 | 8,765 |

### Fruit Growing

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* value and *(b)* weight of fruit grown in the UK was in the last year for which figures are available, broken down by type of fruit. [9599]

**Jim Knight:** Information on the value and weight of fruit grown in the UK for the calendar year 2004 is presented in the following table.

*Value and weight of UK produced fruit for 2004*

| 2004 | Output (000 tonnes) | Value (£ million) |
|---|---|---|
| Dessert apples | 96.3 | 36.7 |
| Culinary apples | 108.3 | 40.9 |
| Pears | 22.7 | 7.9 |
| Plums | 13.6 | 9.4 |
| Cherries | 1.0 | 1.9 |
| Strawberries | 47.9 | 95.9 |
| Raspberries | 10.7 | 48.4 |
| Blackcurrants | 19.3 | 12.7 |
| Other soft fruit [1] | 5.1 | 19.9 |

[1] includes gooseberries, red and blackcurrants, loganberries and blackberries

### Gangmasters (Licensing) Act

**Jim Sheridan:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of the extent of *(a)* exploitation and *(b)* criminal activity by labour providers operating in second stage processing. [9571]

**Jim Knight:** As indicated in the Consultation Document on the draft Gangmasters (Exclusions) Regulations 2005 published on 28 February 2005, Defra has commissioned research to assess the extent of worker exploitation or illegal activity involving labour providers who supply workers to undertake second stage processing. A draft report has been received and we intend to publish this once it has been finalised.

**Jim Sheridan:** To ask the Secretary of State for Environment, Food and Rural Affairs what financial resources her Department plans to invest in enforcing the criminal offences of the Gangmasters (Licensing) Act 2004 *(a)* in the present financial year and *(b)* in the next three financial years; how many officers in her Department will have responsibilities for enforcing the criminal offences of the Act; how many of these enforcement officers will be existing staff; how many will be additional recruits; and what proportion of their time she estimates will be spent on enforcing the Act. [9572]

**Jim Knight:** The Gangmasters (Licensing) Act 2004 makes the Secretary of State responsible for appointing officers to enforce the criminal offences that the Act establishes. It is currently our intention to appoint officers of the Gangmasters Licensing Authority to undertake enforcement activities on behalf of Defra. The Regulatory Impact assessment that accompanied the Act indicated that the cost of enforcing the new legislation would be £2 million in a full year. This would enable the creation of an enforcement team of some 20 staff plus associated legal support. It is envisaged that the enforcement team will be additional to existing Government funded enforcement resources.

Gangmaster Licensing Authority staff involved in enforcement work may have other duties. However in aggregate the resource available to undertake enforcement work should equate to some 20 full-time equivalents in a full year.

It is anticipated that the offences of operating as a gangmaster without a licence and using an unlicensed gangmaster will be triggered in summer 2006. Enforcement capabilities will be built up gradually over the intervening period with the intention that the enforcement team will be at full strength when the offences come into effect. A programme for recruiting and training enforcement officers is being developed and funding will be made available in the current and next financial year to support this programme. We anticipate that the enforcement team's first full year of operation will be 2007–08 and that from that year onwards, expenditure on enforcement activities will be some £2 million per annum. It is not intended to seek to recover the cost of enforcement activities through licence fee income.

### GM Crops

**Alan Simpson:** To ask the Secretary of State for Environment, Food and Rural Affairs what position the Government took on each of the votes at the recent meeting of EU environment ministers on Commission proposals to require countries to lift national bans on specified GM crops. [8735]

**Mr. Morley:** The UK voted to support the Commission decisions calling for the member states to withdraw their safeguard actions invoked under Article 23 of Directive 2001/18 because the scientific evidence provided does not justify taking such action. While the UK is very willing to consider any evidence that restrictions on specified GM crops could be justified, no new evidence was submitted to back such a case.

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs how each EU country voted at the Environment Council in respect of the Commission proposal to rescind national bans on GM crops; and for what reasons the UK voted as it did. [9477]

**Mr. Morley** *[holding answer 4 July 2005]:* The majority of member states either voted against the Commission proposals to rescind national bans on certain specified GM crops, or abstained. The formal record of the Council meeting has not yet been published, so I cannot yet confirm how each member state voted. However once this information is available, I shall place a copy in the Library.

While the UK is always ready to consider new information relating to the risk assessment of approved GMOs, the UK voted to support the Commission decisions because in our view the actions taken by the member states to invoke safeguard actions are not justified by the scientific evidence and are not in compliance with the terms of Directive 2001/18. Under the terms of the Deliberate Release Directive safeguard action may only be taken if adequate scientific evidence is provided to justify the claim. In these cases the UK Advisory Committee on Releases to the Environment agree with the European Food Safety Authority that no new evidence has been brought forward for consideration.

### Household Water

**Mr. Dodds:** To ask the Secretary of State for Environment, Food and Rural Affairs what the average amount spent by each household in England on water supplies was in the last period for which figures are available. [8996]

**Mr. Morley:** Average household bills are only available for England and Wales combined as the boundaries of water and sewerage companies do not follow national boundaries. In 2005–06 households will spend on average £134 on water supplies and the average amount households will spend on sewerage is £144. The total average household bill for water and sewerage in England and Wales is £278.

### Nuclear Waste (Portsmouth)

**Mr. Hancock:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the Answer to the hon. Member for Leyton and Wanstead of 21 June 2005, *Official Report*, column 887W, on nuclear waste, what the location is of the radioactive waste in Portsmouth; how much material is stored; how long it has been stored in this location; from where the material originated; who is responsible for the security of the site; and if she will make a statement. [8630]

**Mr. Morley:** Information about the amount of intermediate (ILW) and low level (LLW) radioactive waste held in the UK, including that held at HM Naval Base Portsmouth, is regularly published in the UK Kingdom Radioactive Waste Inventory which provides periodic snapshots of waste stocks. The latest edition for 2001 was published in 2002. However, MOD has provided additional information to answer some of the hon. Member's questions.

At HM Naval Base Portsmouth solid LLW, very low-level (VLLW) and small quantities of ILW, are securely stored in a radioactive storehouse facility under the radiological control of the MOD Naval Base Radiation Safety Officer. The Inventory indicates that 3 cubic meters of LLW and less than 0.1 cubic meters of ILW are stored. ILW and LLW is stored for a maximum of three years before it is removal from the site, while VLLW is either disposed of immediately or stored for a period not exceeding 14 days.

The wastes primarily consists of naval equipment, such as dials, gauges, compasses and gaseous tritium light sources, which have been removed from naval vessels that have left service and are in the process of disposal. In addition, small quantities of LLW are also stored at the Naval Base on behalf of the Institute of Naval Medicine.

Security of the stored radioactive waste is maintained through the Captain of the Base.

### Primates as Pets

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs what the timetable is for the consultation on primates as pets. [10601]

**Jim Knight:** The question of keeping primates as pets will be considered as part of a wider consultation on the proposed use of the Government's powers under Article 8.2 of Council Regulation 338/97, which is planned for the end of July.

Under this power EU member states may take measures to prohibit the keeping of endangered species, including primates, although such action must be broadly consistent with the conservation objectives of the Regulation as a whole.

### Radioactive Waste Disposal

**Paul Flynn:** To ask the Secretary of State for Environment, Food and Rural Affairs following the release by NIREX on 10 June of the list drawn up by its consultants of 537 sites across the country deemed potentially geologically suitable to locate a nuclear waste disposal repository, if she will make it her policy to postpone for three months the deadline of 27 June set by the Committee on Radioactive Waste Management prior to the release of the list, for responses to its current second stage public consultation on radioactive waste management options. [9450]

**Mr. Morley** *[holding answer 5 July 2005]:* No. This previous site selection exercise was abandoned in 1997. UK Government and the devolved administrations subsequently established the independent Committee on Radioactive Waste Management (CoRWM), under the "Managing Radioactive Waste Safely" programme, to provide recommendation on the best option, or combination of options, for the long-term management of the UK's higher activity radioactive waste. CoRWM will deliver its recommendation by July 2006, in light of which future policy will be decided. Government have said that once the requirements for any future facility, or facilities, is known, in light of that policy decision, there will be an open and transparent discussion of the process and criteria to be adopted for site selection. The old Nirex list will not be the starting point for any future site selection process. There is no site selection process currently on-going. Hence there is no need or justification for extending the deadline for CoRWM's latest round of consultation.

### Seal products

**Mr. Hancock:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations she has received about the Canadian seal hunt. [6587]

**Jim Knight:** We have no record of representations received about the Canadian seal hunt as Defra officials forward any such correspondence or queries to the Foreign and Commonwealth Office who deal with this issue.

The Foreign and Commonwealth Office advise me that during the past 12 months (July 2004 to July 2005), they have received the following representations in relation to the seal hunt in Canada:

Letters from members of the public: 20

Letters from Members of Parliament: 24

Meetings with Foreign Office Ministers: 1

### Sugar Beet Growers

**Dr. Gibson:** To ask the Secretary of State for Environment, Food and Rural Affairs whether compensation payments to sugar beet growers will be paid at the same rate as to other EU growers; and whether the proposed mechanism for payment includes mandatory decoupling. [8363]

**Jim Knight:** Proposals published by the European Commission on 22 June as part of a package of sugar reform measures include an amendment to Council Regulation 1782/2003 which provides the legal framework for the Single Payment Scheme (SPS). That amendment would provide for new decoupled income support for beet growers which would be integrated into the model of the SPS that member state have already adopted. National financial ceilings for the SPS will be raised accordingly, by amounts calculated with reference to member states' sugar production quota levels. It follows that payment rates for sugar beet growers will not be uniform across the EU any more than they are in the SPS at the moment.

### Water Metering (Essex)

**Bob Spink:** To ask the Secretary of State for Environment, Food and Rural Affairs what her estimate is of the number of households in Essex which have water meters. [9257]

**Mr. Morley:** Information on the number of households with water meters is not available by county. The Office of Water Services (Ofwat) collects the information for each water company. In 2005–06 there are expected to be 258,000 households that have water meters in Essex and Suffolk Water's supply area.

These figures are published in Ofwat's "Tariff structure and charges 2005–06 report'.

### Whaling

**Daniel Kawczynski:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will press Norway to stop commercial whaling. [7905]

**Mr. Bradshaw:** We will continue to press Norway to desist from commercial whaling, which we believe contrary to the spirit of the International Whaling Commission moratorium. We made our objections very clear with regard to Norwegian whaling at the recent annual International Whaling Commission meeting in Korea. I also raised the matter with the Norwegian Fisheries Minister during a visit to Norway in November 2004.

### Yorkshire Water

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make representations to Yorkshire Water to ensure that regular maintenance is carried out on all pipes, drains and waterways. [9475]

**Mr. Morley:** Under section 94 of the Water Industry Act 1991, which is enforced by the Office of Water Services, it is the duty of every sewerage undertaker to provide, improve and extend a system of public sewers and to cleanse and maintain those sewers and lateral

drains which belong to or are vested in the undertaker to ensure that an area is and continues to be effectually drained.

## TREASURY

### Child Care Vouchers

**Mrs. May:** To ask the Chancellor of the Exchequer what discussions he has had concerning extending eligibility for childcare vouchers to the self-employed; and what estimates he has made of the costs of doing so. [9858]

**Dawn Primarolo:** It is a general principle of the tax system that relief is not given for private expenditure incurred to enable an employee to go out to work, but only for expenses incurred in the performance of his or her duties of employment. This means that the expense must be one that any other employee doing the same job would have to incur whatever his or her personal circumstances.

Allowing a tax deduction for the cost of childcare for all working parents, rather than through a targeted exemption, would be expensive and poorly targeted. We believe that financial help for parents towards childcare costs should be provided through the tax credits system. Self employed people can receive help with the cost of formal childcare through the childcare element of the working tax credit.

**Mrs. May:** To ask the Chancellor of the Exchequer what projections he has made of the take-up of the *(a)* electronic elements and *(b)* paper elements of the salary-sacrifice childcare voucher scheme. [9859]

**Dawn Primarolo:** In the Regulatory Impact Assessment published in April 2004, HMRC estimated that the number of employees using childcare vouchers for under-fives will increase from 30,000 in 2003 to 90,000 by 2009–10. There is no breakdown between electronic and paper vouchers.

Additionally, other forms of employer-provided childcare were expected to grow over the same period from 30,000 (the number of users of workplace nurseries) to 85,000 (including holiday play schemes and out of school clubs).

The Regulatory Impact Assessment can be accessed via www.hmrc.gov.uk/ria/emp-supp-childcare.pdf

**Mrs. May:** To ask the Chancellor of the Exchequer what estimates he has made of the cost to business of introducing childcare vouchers, with particular reference to small and medium sized companies. [9860]

**Dawn Primarolo:** This information can be found in the Regulatory Impact Assessment (RIA) at Paragraphs 15–21. The RIA can be assessed on the HMRC Website at www.hmrc.gov.uk/ria/emp-supp-childcare.pdf

**Mrs. May:** To ask the Chancellor of the Exchequer what estimate he has made of the cost to the Treasury of introducing childcare vouchers over the next three years; and from what budget this cost is to be met. [9861]

**Dawn Primarolo:** Estimated Exchequer costs to 2009–10 were included in paragraph 14 of the Regulatory Impact Assessments which can be accessed at the HMRC'S website at, www.hmrc.gov.uk/ria/emp-supp-childcare.pdf

Costings up to 2006–07 were included in the Pre-Budget Report and this can be accessed at www.hm-treasury.gov.uk/media/28B/c3/pbr03annexb227.pdf

**Mrs. May:** To ask the Chancellor of the Exchequer if he will assess the merits of allowing self-employed people to present a certificate from an Ofsted-registered child carer at the end of each tax year in order to claim a rebate on their tax return, in lieu of their ability to claim salary-sacrifice childcare vouchers. [9862]

**Dawn Primarolo:** Allowing a tax rebate for the cost of childcare for all self-employed parents would be expensive and poorly targeted. However, self-employed people can receive help with the cost of formal childcare through the childcare element of the working tax credit.

**Mrs. May:** To ask the Chancellor of the Exchequer which company administers the electronic vouchers element of the salary-sacrifice childcare vouchers scheme; and which computer systems are used for that administration. [9863]

**Dawn Primarolo:** The Government provides a tax and National Insurance contributions exemption on employer-provided childcare vouchers to encourage employers to help their employees with childcare costs.

It is up to employers whether the vouchers they provide are paper or electronic and also whether they administer schemes themselves or outsource to voucher provider companies.

A number of these companies offer employers an electronic facility for handling their employee childcare voucher schemes.

### Council Tax

**Mrs. Spelman:** To ask the Chancellor of the Exchequer which *(a)* external advisers, *(b)* academics and *(c)* consultants (i) his Department and (ii) the Valuation Office Agency have consulted on council tax revaluation. [9548]

**Dawn Primarolo:** The independent inquiry into local Government funding, led by Sir Michael Lyons, is considering the case for reforms to council tax, taking into account the forthcoming revaluation of domestic property. The inquiry has undertaken a wide programme of consultation.

Further to this, the Valuation Office Agency have consulted with relevant experts to develop their appraisal methodology. They have taken advice from Cole Layer Trumble (CLT) in respect of computer modelling and mass appraisal techniques; the International Association of Assessing Officers (IAAO), the International Property Tax Institute (IPTI), the Institute of Revenues, Rating and Valuation (IRRV) and the Royal Institution of Chartered Surveyors (RIGS) in respect of academic advice and input to international valuation standards and KPMG as business advisers.

### Departmental Advertising

**Mr. Burstow:** To ask the Chancellor of the Exchequer how much the *(a)* Department and *(b)* non-departmental bodies for which the Department is responsible has spent on advertising, in the last three years broken down by media type. [9502]

### Advertising

**David T.C. Davies:** To ask the Chancellor of the Exchequer how much the Department spent on advertising in each of the last five years. [10238]

**John Healey:** I refer to the answers given to the hon. Member for North-West Norfolk (Mr. Bellingham) on 21 February 2005, *Official Report*, column 810W, and to the hon. Member for Buckingham (Mr. Bercow) on 7 May 2002, *Official Report*, column 36W. The only type of advertising undertaken by the Treasury in the last five years has been advertising for the purpose of staff recruitment. The amounts spent on recruitment advertising, separate from other recruitment costs, are not available for years prior to 2002–03. The Treasury's estimated spending on staff recruitment advertising in 2004–05 was £151,000.

Expenditure on advertising by the Statistics Commission, the Treasury's only non-departmental public body, was £13,000 in 2002–03, £22,000 in 2003–04, and £12,000 in 2004–05.

Media used included both print and the internet.

### Hospital-acquired Infections

**Mr. Swire:** To ask the Chancellor of the Exchequer how many reported deaths in hospital there were from clostridium difficile O27 in each of the past five years. [9458]

**John Healey:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl to Mr. Hugo Swire, dated 6 July 2005:*

The National Statistician has been asked to reply to your recent question asking how many reported deaths in hospital there were from Clostridium difficile O27 in each of the last five years. I am replying in his absence. (9458)

It is not possible to distinguish between deaths associated with Clostridium difficile O27 and other strains of C. difficile. The vast majority of cases are diagnosed by the detection of specific toxins, and not the growth of C. difficile. However, typing, which is required to distinguish cases associated with C- difficile O27 from cases associated with other strains of C. difficile, requires growth of C. difficile. It is unlikely that the strain of C. difficile a patient had would be reported on their death certificate.

In the Tenth Revision of the International Classification of Diseases (ICD-10), deaths involving enterocolitis due to Clostridium difficile can all be identified from the code A04.7. Enterocolitis is the commonest illness caused by C. difficile infection. For causes other than enterocolitis that are also known to be associated with C. difficile, it is not possible to identify from ICD codes alone the number of deaths where C. difficile actually contributed to the death. For this reason, the only routinely available mortality statistics on C. difficile are those where it was associated with enterocolitis. These figures were provided in answer to a question from Mr. David Lidington MP, Hansard Written Answer 3764, page 49W.

### Hypothermia

**Mr. Amess:** To ask the Chancellor of the Exchequer what the excess winter mortality rates were in terms of *(a)* numbers and *(b)* percentages in (i) the United Kingdom, (ii) England, (iii) Scotland, (iv) Wales, (v) Greater London and (vi) the Southend area for (A) those aged (1) 60 to 64 years, (2) 65 to 79 years and (3) over 80 years and (B) all ages in each of the last five years. [9911]

**John Healey:** The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

*Letter from Colin Mowl to Mr. David Amess, dated 6 July 2005:*

The National Statistician has been asked to reply to your recent question asking what the excess winter mortality rates were in terms of *(a)* numbers, and *(b)* percentages in (i) the United Kingdom, (ii) England , (iii) Scotland, (iv) Wales, (v) Greater London, and (vi) the Southend area of those aged (A) 60 to 64 years, (B) 65 to 79 years, (C) over 80 years, and (D) all ages in each of the last five years. I am replying in his absence. (9911)

Estimates of excess winter mortality are not routinely calculated for the United Kingdom. However, figures for England and Wales and Government Office Regions in England are published. Estimates for winters to 2002/03 (with provisional figures for 2003/2004) can be found in the report, "Excess Winter Mortality—By Age Group and Region" on the National Statistics website at: http://www.statistics.gov.uk/STATBASE/ssdataset.asp?vlnk=7089

The most recent available excess winter mortality estimates for local authorities are for the winter 2002/03. Figures requested for Southend-on-Sea local authority are given in the table below for the years 1998/99 to 2002/03. An age-breakdown has not been provided because of the small numbers involved.

*Excess winter deaths[1] for the local authority of Southend-on-Sea, 1998–99 to 2002–03*

| *Winter* | *(a) Number of excess winter deaths[2]* | *(b) Percentage of excess winter mortality[3]* |
|---|---|---|
| 1998–99 | 160 | 23.8 |
| 1999–2000 | 200 | 29.7 |
| 2000–01 | 160 | 23.6 |
| 2001–02 | 110 | 16.8 |
| 2002–03 | 160 | 25.4 |

[1] Excess winter deaths are defined by the Office for National Statistics as the difference between the number of deaths during the four winter months (December to March) and the average number of deaths during the preceding four months (August to November) and the following four months (April to July).

[2] Rounded to the nearest 10.

[3] The percentage of excess winter mortality is calculated as the excess number of winter deaths divided by the average number of non-winter deaths, expressed as a percentage.

### Private Finance Initiative

**Alan Simpson:** To ask the Chancellor of the Exchequer how much the Government have so far committed to private finance initiative schemes; and what the future financial projections for PFI initiatives are for each of the next five years. [9613]

**John Healey:** The most recent published estimate of payments to be made under signed PFI contracts in future years can be found in table C19 of Budget 2005

available online at www.hm-treasury.gov.uk. Estimates for previous years can be found in previous Budget publications.

### Rural Banking Services

**Huw Irranca-Davies:** To ask the Chancellor of the Exchequer what measures the Government is taking to encourage banks to maintain banking services in small rural communities. [6943]

**Mr. Ivan Lewis:** All of the main high street banks and building societies are signed up to the Banking Codes, which has been recently independently reviewed. Out of the five recommendations made by the independent reviewer on bank closures, four were accepted outright. Through the Banking Codes there is now an obligation for subscribers to:

give customers extended notice of branch closure if the road distance of the nearest alternative branch is more than one mile in urban areas or more than four miles in rural areas;

explain how they continue to provide services after the branch has been closed in a way that is specific to local provision;

give notice of a substantial reduction in opening hours; and,

explain to small businesses how they continue to provide banking services, including any inter-bank agency arrangement, if they exist.

Our approach to improving services in rural areas is to work with communities to help them understand and articulate their needs to those who deliver services.

This sort of collaborative working, based on the principles in our strategy for rural areas, will ensure that communities benefit from our programmes to modernise, improve and support services and will enable communities to help themselves to meet the needs of local people.

### Ryscar House, Blackpool

**Mr. Frank Field:** To ask the Chancellor of the Exchequer what assessment he has made of the likely effects of the closure of Ryscar House, Blackpool will have on the number and accuracy of working tax and child tax credit awards. [8498]

**Mr. Hancock:** To ask the Chancellor of the Exchequer (1) what assessment has been made of the impact on *(a)* costs and *(b)* service to the public, of the closure of Ryscar House, Blackpool; [9170]

(2) if he will make it his policy to reverse the decision to close Ryscar House, Blackpool; [9171]

(3) what assessment he has made of the number of staff at Ryscar House who will opt for redundancy rather than moving to another part of the country as a result of the planned closure; what assessment he has made of the likely effects on benefit claimants; and if he will make a statement; [9172]

(4) if he will make available to trade unions the business case for the closure of Ryscar House, Blackpool. [9173]

**Dawn Primarolo** *[holding answer 30 June 2005]:* No decision has been taken to close the HM Revenue and Customs office at Ryscar House.

HMRC is preparing business plans to meet its efficiency savings for 2005–08, but no decision have yet been made in this process. It is therefore too early to say how any particular office might be affected. All proposals that are drawn up as part of this work will be subject to a comprehensive social, economic and service delivery impact assessment.

HMRC is committed to good industrial relations. It has established a programme of regular consultations with the trade unions to discuss major changes across the Department's businesses.

### Tax Avoidance Schemes

**Mr. Austin Mitchell:** To ask the Chancellor of the Exchequer if he will introduce legislation to ban accountancy, law and other firms from charging contingency fees for selling tax avoidance schemes. [9405]

**Dawn Primarolo:** The Government are committed to protecting the tax system against tax avoidance. Since 1997 the Government have taken a series of steps to prevent abuse of the tax system through structural reforms that made the system less vulnerable, closing loopholes in the law and improving the way that HM Revenue and Customs delivers its compliance function. In his 2004 Budget Statement, the Chancellor announced the introduction of disclosure rules for direct tax and VAT, to require notification of avoidance schemes. Contingency fees are one of the features of both direct tax and VAT avoidance that can trigger a disclosure requirement.

**Mr. Austin Mitchell:** To ask Mr Chancellor of the Exchequer if he will investigate the role of KPMG, PwC, Ernst and Young and Deloitte in devising and selling tax avoidance schemes. [9407]

**Dawn Primarolo:** As part of the Government's commitment to protect the tax system against tax avoidance, the Chancellor announced the introduction of disclosure rules for direct tax in his 2004 Budget Statement. These rules require all promoters to disclose certain tax avoidance schemes to HMRC. HMRC reviews each scheme.

**Mr. Austin Mitchell:** To ask the Chancellor of the Exchequer if he will introduce a general anti-avoidance rule to curb tax avoidance. [9409]

**Dawn Primarolo:** In his 2004 Budget Statement, the Chancellor announced that he did not intend to introduce a general anti-avoidance rule at this stage. The Government continue to keep under review a range of options to deter non-compliance and encourage voluntary compliance, ensuring fairness of the tax system.

### Tax Credits

**Mr. Laws:** To ask the Chancellor of the Exchequer how many people are employed in HM Revenue and Customs to handle *(a)* tax credit complaints, *(b)* telephone calls about tax credits and *(c)* compensation for HM Revenue and Custom's errors relating to tax credits; and if he will make a statement. [8566]

**Dawn Primarolo:** At 28 May 2005 HM Revenue and Customs (HMRC) had nearly 400 full-time equivalent staff working in the Tax Credit Office handling tax credit complaints. These staff also deal with compensation in accordance with complaints and redress procedures explained in the Department's code of practice 1: "Putting things right".

The number of full-time equivalent staff employed to work on dedicated tax credits helplines at 28 May 2005 was around 3,200. In addition, HMRC can use another 500 staff to answer tax credit calls at peak times.

**Mr. Laws:** To ask the Chancellor of the Exchequer (1) what proportion of tax credit appeals against overpayment have been upheld to date; and if he will make a statement; [8577]

(2) how many appeals against overpaid tax credits have been received by HM Revenue and Customs for each quarter since 2003 Q1; and if he will make a statement. [8582]

**Dawn Primarolo:** Taxpayers have a right of appeal against decisions about their tax credit entitlement and they are able to pursue with HMRC any disagreement concerning the recovery of an overpayment.

The Department's code of practice 26, "What happens if we have paid you too much tax credit?" describes their approach to overpayments and is available on the internet at: http://www.hmrc.gov.uk/leaflets/cop26.pdf

The code explains that the Department will not expect customers to pay back an overpayment if it arose because of their mistake and the customer could reasonably have thought their award was correct.

To 31 May 2005 the Tax Credit Office had dealt with around 151,000 disputed overpayment requests and written off the overpayment in around 36,000 cases (approximately 24 per cent.).

The Department began recording intake of disputed overpayment requests in May 2004. Intake each quarter from May 2004 is as follows:

| *Quarter* | *Disputes received* |
|---|---|
| April to June 2004 | 14,000 |
| July to September 2004 | 54,000 |
| October to December 2004 | 63,000 |
| January to March 2005 | 84,000 |
| April to 31 May 2005 | 56,000 |

**Mr. Laws:** To ask the Chancellor of the Exchequer what representations he received from the *(a)* Inland Revenue and *(b)* external IT suppliers about the timescale for the introduction of the new tax credits prior to April 2003; and if he will make a statement. [8599]

**Dawn Primarolo:** The development of Government policy on tax credits involved extensive discussions between Treasury Ministers and Inland Revenue Officials. I am not aware that Ministers received representations directly from external IT suppliers.

**Mr. Laws:** To ask the Chancellor of the Exchequer (1) how many people had in-year recovery of excess tax credits in *(a)* 2003–04 and *(b)* 2004–05; and what the total value of excess payments was in each year; [8813]

(2) what his estimate is of the number of excess payments of tax credit in the 2003–04 year which had been recovered by the end of the financial year; and if he will make a statement. [9248]

**Dawn Primarolo:** I refer the hon. Gentleman to the answers I gave him on 4 July 2005, *Official Report*, column 98W (8580) and column 102W (8022).

**Mr. Laws:** To ask the Chancellor of the Exchequer pursuant to the statement of 22 June 2005, *Official Report*, columns 801–14, by the Paymaster General, on tax credits, whether he has accepted in full the recommendations in paragraph *(a)* 5.41, *(b)* 5.51, *(c)* 5.65 and *(d)* 7.14 of the Parliamentary Ombudsman's report. [8021]

**Dawn Primarolo:** I refer the hon. Member to the written statement I made in the House on 26 May 2005, *Official Report*, columns 22–23WA and the oral statement I made to the House on 22 June 2005, *Official Report*, columns 801–14.

**Mr. Laws:** To ask the Chancellor of the Exchequer pursuant to the statement of 22 June 2005, *Official Report*, columns 801–14, by the Paymaster General, on tax credits, whether changes to the tax credit IT system are required to ensure that an in-year excess tax credit payment that is recoverable in accordance with COP 26 will be recovered at the same rate as those for previous year overpayments. [8024]

**Dawn Primarolo:** I refer the hon. Member to the statement I made to the House on 26 May 2005, *Official Report*, column 22WS.

**Mr. Laws:** To ask the Chancellor of the Exchequer pursuant to the statement of 22 June 2005, *Official Report*, columns 801–14, by the Paymaster General, on tax credits, whether changes to the tax credit IT system are required in order to comply with the recommendation in paragraph 5.17 of the Parliamentary Ombudsman's report; and whether he accepts the recommendation. [8025]

**Dawn Primarolo:** I refer the hon. Member to the statement I made on 26 May 2005, *Official Report*, column 22WS.

HMRC will urgently ensure that in cases of genuine hardship where the recovery of an overpayment is disputed, recovery can be suspended while the dispute is resolved.

### Tesco (VAT Avoidance)

**Mr. Austin Mitchell:** To ask the Chancellor of the Exchequer if he will take action against Tesco for selling CDs and DVDs on the internet in relation to VAT avoidance. [9406]

**Dawn Primarolo:** The Government do not intend to prevent businesses from using the internet to market sales of CDs and DVDs. However, we are aware that

some businesses are restructuring their operations in order to achieve VAT-free sales of certain goods to UK consumers. The Government are keeping this issue under close review.

### VAT (Condoms)

**Mr. Lansley:** To ask the Chancellor of the Exchequer what assessment he has made of the annual cost of exempting VAT on condoms; and if he will make a statement. [9252]

**Dawn Primarolo:** HM Revenue and Customs does not collect data on VAT from individual goods and services. The Government keeps all taxes under review and any assessments and subsequent changes are announced as part of the normal Budget process.

## EDUCATION AND SKILLS

### Arson Attacks

**Mr. Amess:** To ask the Secretary of State for Education and Skills how many arson attacks there were on schools in *(a)* Southend, *(b)* Essex and *(c)* each London borough in each of the last five years for which figures are available. [9935]

**Jacqui Smith:** Because the Office of the Deputy Prime Minister (ODPM) has overall policy lead for fire safety and arson reduction across Government Departments, it is ODPM rather than this Department that compiles statistics on fires in schools.

The latest data we have on school fires from ODPM cover the years 2000 to 2004. They are not able to provide figures for sub-fire brigade areas, such as Southend or the London boroughs. These are figures for Essex and Greater London.

*Deliberate fires in schools by year*

| *Area* | *2000* | *2001* | *2002* | *2003* | *2004* |
|---|---|---|---|---|---|
| England | 752 | 852 | 664 | 753 | 664 |
| Essex | 16 | 15 | 5 | 22 | 13 |
| Greater London | 59 | 90 | 22 | 54 | 49 |

Figures for 2004 are provisional, and those for 2002 and 2003 exclude incidents not recorded during periods of industrial action.

### Behaviour Improvement Programme

**Mr. Hoban:** To ask the Secretary of State for Education and Skills if she will list the local education authorities that have received funds under the Behaviour Improvement Programme; and how much each has received to enable them to tackle pupil behaviour in each year since 1997. [7703]

**Jacqui Smith:** The information requested has been placed in the Libraries.

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what targets have been set for the Behaviour Improvement Programme. [7704]

**Jacqui Smith:** The Behaviour Improvement Programme is intended to be tailored to local circumstances. Schools and measures are identified locally, and partnerships are monitored against the key objectives of improved behaviour, improved attendance, reduced unauthorised absence and reduced exclusions. Specific performance targets are agreed locally between the Excellence in Cities partnership and schools and are set for both individual terms and academic years, covering attendance, unauthorised absence and exclusions.

### Bullying

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what requirement there is for schools to make their anti-bullying policy available to *(a)* parents and *(b)* prospective parents. [9994]

**Jacqui Smith:** Under section S61 of the School Standards Framework Act 1998, all schools are required to publicise the school's anti-bullying policy in written form to the parents of those pupils registered at the school, as well as all members of the school community.

In addition the law requires that the policy is brought to the attention of pupils, parents, those employed by the school and those who provide their services to the school at least once a year. Our guidance also states that not only should the information be available to parents, but that they should be actively involved in its preparation and review.

At present there is no legal requirement to make the policy available to the parents of prospective pupils, but guidance states that all new pupils are provided with the policy.

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what guidance she has issued to schools on appropriate sanctions to deal with bullying. [9995]

**Jacqui Smith:** The "Bullying: Don't Suffer in Silence" packs issued by the Department contain clear guidance on appropriate sanctions to deal with bullying.

Where pupils do not respond to preventive strategies, we recommend that schools have a clear and sufficient range of sanctions in place to tackle the issue, and that these sanctions are publicised to the whole school community.

Suggested sanctions include, removal from the group/class, withdrawal from break and lunchtime privileges, completion of extra written work, carrying out a useful task in the school, detention, withholding participation in school trips and events not essential to the curriculum, and fixed period exclusion.

Where serious real or threatened violence is involved, the head teacher can permanently exclude the pupil. To further enforce this appeal panels and governing bodies have been advised that they should not normally seek to overrule such a decision on appeal.

In addition we advise that punishments that are humiliating or degrading should not be used, and that sanctions should be applied fairly and consistently to all pupils.

For further information, please visit http://www.dfes.gov.uk/bullying/ and view the "Bullying: Don't Suffer in Silence" pack.

**Mr. Hoban:** To ask the Secretary of State for Education and Skills pursuant to her answer of 21 June 2005, *Official Report*, column 990W, on bullying, if she will place in the Library a copy of the work commissioned by the Youth Crime Programme Board on the onset of offending and the impact of her Department's policies. [9997]

**Jacqui Smith:** The work undertaken by officials on the Youth Crime Programme Board was policy advice within Government, which would not be appropriate to place in the Library. This work drew on published research—in particular "Support from the Start," a review commissioned by my Department of the evidence on preventing youth offending, which is available in the Library.

**Mr. Hoban:** To ask the Secretary of State for Education and Skills pursuant to her Answer of 21 June 2005, *Official Report*, column 993W, on bullying, if she will place in the Library a copy of the effective practice digest that accompanies the anti-bullying Charter for Action. [9998]

**Jacqui Smith:** The information requested has now been placed in the House Libraries.

**Mr. Hoban:** To ask the Secretary of State for Education and Skills how the Anti-Bullying Alliance is accountable to the Department for its use of its Government grant. [10004]

**Jacqui Smith:** Expenditure by the ABA is subject to formal and informal monitoring to confirm that the grant awarded has been spent in accordance with the project plan agreed by the ABA and the Department.

The grant is payable under Regulation 15 of the Education (Grant) Regulations 1990 and is subject to Regulations 18(2) of those regulations.

We will be looking for auditors' confirmation that the grant has been claimed and used in compliance with the terms and conditions as set out in the grant allocation in year end accounts.

In addition, officials hold regular meetings with the ABA to monitor activity and review progress.

### Drug Awareness and Prevention (Southend)

**Mr. Amess:** To ask the Secretary of State for Education and Skills how many teachers who specialise in drug awareness and prevention are employed in schools in Southend West constituency. [9932]

**Jacqui Smith:** The information requested is not collected centrally.

### Education Maintenance Allowance

**Harry Cohen:** To ask the Secretary of State for Education and Skills if she will make extra provision available for 16 to 19-year-olds claiming the education maintenance allowance who live in London to reflect the higher cost of living. [9504]

**Maria Eagle:** We do not currently have any plans to make extra payments to young people claiming EMA who live in London. EMA is intended as a contribution towards the cost of staying on in further education rather than as part of family support.

Evidence from EMA pilots would not support the case for more generous arrangements in London. We piloted a less generous version of the scheme in London, using an income threshold of £20,000 rather than the standard £30,000 piloted elsewhere and now adopted nationally. This was done with the agreement of the London LEAs, in order to allow us to fund EMA across a larger area of inner London. The evidence indicated that this variant of EMA also increased participation among eligible young people.

### Educational Buildings (Sprinkler Systems)

**Lynne Jones:** To ask the Secretary of State for Education and Skills if she will make it her policy to make the fitting of sprinkler systems in educational buildings mandatory. [9641]

**Jacqui Smith:** Since April 2001, all new building work at schools has been subject to the Building Regulations, which are the responsibility of the Office of the Deputy Prime Minister (ODPM). These regulations do not currently require the installation of sprinklers in schools, but that does not prohibit local education authorities from specifying their use.

We believe that the decision on whether to install sprinklers is best taken locally. For example, in our Managing School Facilities guide 6, "Fire Safety", we give the example of a school in an area of high arson risk as being a suitable candidate for having sprinklers installed. However, we are mindful of the need to provide more detailed advice than before. Liaising with ODPM, we have therefore produced new draft guidance on fire safety—Building Bulletin (BB) 100, "Designing and Managing Against the Risk of Fire in Schools". It stresses the value of using risk assessments to determine what sort of fire detection and alarm systems should be used in each school, and whether or not sprinklers should be installed. The draft of BB 100 will be going out to public consultation shortly and should be published by the end of 2005.

Concurrently ODPM is carrying out a review of the fire safety aspects of the Building Regulations and its accompanying guidance Approved Document B (AD B). We understand that this should be completed in the early part of 2006.

### Essex Schoolchildren

**Bob Spink:** To ask the Secretary of State for Education and Skills how many children of school age in Essex are not attending either a state school or a private school. [8836]

**Jacqui Smith:** The information requested is shown in the table.

*Pupils educated otherwise than at school under arrangements made by the local education authority[1]—January 2005*

| | England | Essex local education authority |
|---|---|---|
| Pupils in hospital[2] | 243 | 0 |
| Other pupils not in school[3] | 16,741 | 333 |
| Total pupils not in school | 16,984 | 333 |

[1] Pupils of compulsory school age (5–15) as at 31 August 2004.
[2] Includes non-statemented pupils in hospital excluding pupils in maintained general hospital or special hospital schools.
[3] Includes other pupils not in school e.g. pupils taught at home, Traveller children, asylum seekers at FE colleges or with voluntary sector providers.
*Source:*
8B Survey

### Food Procurement

**Mr. Paice:** To ask the Secretary of State for Education and Skills how much was spent by her Department on public procurement of food in the most recent year for which figures are available; and what proportion of that expenditure was covered under Crown immunity on food safety matters. [5784]

**Maria Eagle:** The Department for Education and Skills spent on public procurement of food a total of £619,332.85 in the most recent year figures. The Crown is not "immune" from the requirements of health and safety legislation generally. No proportion of the Department's expenditure on food and catering is therefore covered under Crown immunity.

### Foster Care

**John Hemming:** To ask the Secretary of State for Education and Skills pursuant to the answer of 29 June 2005, *Official Report*, columns 1623–24W, on foster care, what assessment she has made of the reasons for the change in the amount spent on external foster care. [10008]

**Maria Eagle:** Changes in the amount spent on external foster care reflect decisions made by individual local authorities about how best to provide care for the children for whom they are responsible. Over 40,000 looked after children (out of approximately 61,000 children who are looked after by local authorities at any one time) are placed with foster carers. Decisions about spending on specific categories of foster care are made at local level, in the light of children's individual circumstances and needs. However, the emergence in recent years of a market in foster care, comprising statutory sector, voluntary sector and independent sector providers, has contributed to the development of greater choice in placements for looked after children and helps ensure that specialised needs can be met. The Government have taken forward a number of strands of work to encourage more strategic approaches, at local level, to the commissioning of placements and services, and to encourage greater awareness and understanding among commissioners of the cost implications of placement decisions.

### Further Education Funding

**Annette Brooke:** To ask the Secretary of State for Education and Skills how many local education authorities in England have received a reduced further education funding allocation in the 2005–06 settlement. [8500]

**Bill Rammell** *[holding answer 30 June 2005]:* Based upon current Learning and Skills Council records, 40 local education authorities in England have received a reduced further education funding allocation in the 2005–06 settlement in comparison with 2004–05.

### Key Stage 4

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what proportion of work related learning at Key Stage 4 takes place *(a)* in the classroom and *(b)* in work placements. [10038]

**Jacqui Smith:** Schools are not required to maintain records on how work related learning is delivered at Key Stage 4. It is taught across the curriculum, using work contexts to enrich subject teaching. For example, visitors to the classroom and the use of business-related materials provide good opportunities for work related learning, so out of school experiences are not the only way to acquire work related learning.

Work experience is an essential element of the statutory requirement, and reaches over 90 pr cent. of students for between one and two weeks at Key Stage 4.

### New Schools

**Mr. Hoban:** To ask the Secretary of State for Education and Skills (1) how many competitions have been held by local education authorities to find alternative providers for new schools; and what the outcome was of each; [10005]

(2) what guidance has been issued to local education authorities on holding competitions for new and replacement schools. [10006]

**Jacqui Smith:** There have been no competitions held by local authorities to find alternative providers for new schools. The current requirement for local authorities to hold a competition applies only where a local authority intends to publish proposals for a new school that does not replace an existing secondary school. Provisions in the Education Act 2005 will require a competition whenever proposals are required for a new secondary school, including one replacing an existing school as a result of reorganisation, unless the Secretary of State agrees that in a particular case individual proposals are more appropriate.

Existing guidance on holding competitions for new schools is contained in the "Information pack for Promoters and LEAs" issued in May 2003, and there is also information in the guidance for Decision Makers, which deals with statutory proposals of all kinds. Updated guidance on the new arrangements for school competitions will be issued, after consultation, when the extended provisions on school competitions are commenced.

### Parliamentary Government

**Mr. Amess:** To ask the Secretary of State for Education and Skills what steps her Department is taking to promote *(a)* knowledge of and *(b)* interest in parliamentary Government through schools. [9931]

**Jacqui Smith:** Understanding the role and operation of Parliament and Government in our democracy is an important part of citizenship education. Pupils learn about the institutions, issues, and practices of our democracy and how citizens can become involved in their community. The Department has supported a range of projects to engage pupils in this learning. These include working with the Hansard Society to run "Y Vote mock elections", giving pupils the opportunity to stand as party candidates, speech writers and canvassers in a mock election.

### Parliamentary Questions

**Mr. Gibb:** To ask the Secretary of State for Education and Skills when she expects to answer the Question reference 5018 tabled by the hon. Member for Bognor Regis and Littlehampton on 13 June. [10323]

**Jacqui Smith:** A response was issued on 5 July.

### Post-16 Education

**Vera Baird:** To ask the Secretary of State for Education and Skills when she will announce the funding regime for 16–19 years capital projects. [10091]

**Jacqui Smith:** The Learning and Skills Council plans to issue guidance on the operation of the new 16–19 capital fund later in the summer.

### School Fees

**Mr. Hoban:** To ask the Secretary of State for Education and Skills in what circumstances a local education authority may pay fees on behalf of a pupil attending an independent school. [10007]

**Jacqui Smith:** Local authorities have powers under section 517 of the Education Act 1996 to purchase places in independent schools. Under this provision a local authority may purchase places at an independent school if it is satisfied that there are insufficient places in all of its maintained schools or in those schools maintained by neighbouring authorities to enable the authority to provide education suitable to a pupil's age, ability and aptitude or to any special educational needs the pupil may have.

Section 128 of the Schools Standards and Framework Act 1998 provides for local authorities powers to purchase places at mainstream independent schools to be limited to circumstances prescribed in regulations. No regulations have been made under this section.

Section 348 of the 1996 Act also allows local authorities to pay fees on behalf of a child attending an independent school when the school is specified in a statement in respect of the child under section 324 of the act. Under this provision the local authority has to be satisfied:

(a) that his interests require the necessary special educational provision to be made for him at a school which is not a maintained school, and

(b) that it is appropriate for the child to be provided with education at the particular school.

### School Meals

**Mr. Burstow:** To ask the Secretary of State for Education and Skills if she will make it her policy to fund the full cost of meeting the recommendations of the School Meals Review Panel. [8061]

**Jacqui Smith:** The Panel will submit its recommendations to the Secretary of State in September. The recommendations will then go out to public consultation, and at this point an appraisal of implementation costs will be carried out. The Department has already pledged £220 million over three years, which is intended to supplement the income derived from, and offset the additional costs of improving school meals. At this point we do not anticipate providing any further funding.

### Student Numbers

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills pursuant to the Answer of 14 June 2005, *Official Report,* column 370W, on student numbers, what plans her Department has to produce projections of student numbers for subjects identified as significant for the competitiveness of the UK economy. [8183]

**Bill Rammell:** Although the Department collects data on number of students by subject of study for monitoring purposes, it does not and could not produce robust projections under the current system in which Higher Education Institutions are entirely free to decide for themselves which students should be admitted to individual subject courses on the basis of student demand and their own strategic priorities. However, we will review the position in the light of the advice we have recently received from the Higher Education Funding Council for England on subjects which are strategically important and will listen to the views of institutions, employers, and others with an interest before responding later in the year.

### Taxis

**David T.C. Davies:** To ask the Secretary of State for Education and Skills how much the Department has spent on taxis in each of the last five years. [6497]

**Maria Eagle:** The Department of Education and Skills was established in 2001 and the detailed information requested is not held centrally and can be obtained only at disproportionate cost.

All travel and subsistence is conducted in accordance with the requirements of the Ministerial Code, Travel by Ministers and the Civil Service Management Code.

### University Graduates

**Bob Spink:** To ask the Secretary of State for Education and Skills what research she has undertaken into *(a)* the length of time graduates take to find employment following graduation and *(b)* the starting salaries of new graduates. [8837]

**Bill Rammell:** From the Destinations of Leavers from Higher Education (DLHE) survey, we know that nearly three-quarters (71 per cent.) of full-time 2002/03 graduates were in employment six months after leaving (with a further 16 per cent. in further study alone and 7 per cent. assumed unemployed).

However, we also know that destinations at the six month point are not representative of longer-term outcomes. Therefore the Department also commissions and monitors wider research to investigate later transitions in and out of the labour market. A survey of 1995 graduates, tracked up to seven years after graduation, shows a significant rise in employment rates over time. After two years post-graduation, 84 per cent. of graduates were in work rising further still to 95 per cent. seven years after leaving[1].

Data on starting salaries is also available from the DLHE survey, showing that the median salary for 2002/03 leavers in full-time work was £17,000. Other sources include the Graduate Prospects annual survey of vacancies advertised in university careers centres; the most recent estimate showed a median starting salary of £18,000 for 2003/04. This is more representative of the salaries enjoyed by those entering graduate-level jobs (and over 80 per cent. of graduates enter these types of jobs within 3/4 years of graduation).

DfES also estimates that graduates earn, on average, around £120,000 more over their lifetime—in present value terms—than 2+A level holders.

This evidence is continually being updated. The statistical release for the 2003/04 DLHE will be published in July, and research commissioned by DfES tracking a cohort of 1999 graduates up to four years after leaving university will be published in the next few months. Further, the Department continues to monitor labour market data and new research as it emerges.

## HEALTH

### Adverse Incidents

**Mr. Burstow:** To ask the Secretary of State for Health how many medical device-related adverse incidents in 2004 were reported to have *(a)* 2, *(b)* 3 and *(c)* 4 causes. [8425]

**Jane Kennedy:** The information shown in the following table is derived from initial assessments of the causes of device failures based on incident reports submitted to the Medical Healthcare products Regulatory Agency. Different or additional causes may be confirmed following conclusion of incident investigations.

*Number of medical device related adverse incidents reported to have:*

| | |
|---|---|
| *(a)* two causes | 1,059 |
| *(b)* three causes | 301 |
| *(c)* four causes | 31 |
| Total number of incidents received in 2004 | 9,000 |

### Alliance Medical

**Mr. Kevan Jones:** To ask the Secretary of State for Health (1) what representations have been made to her Department by *(a)* chief executives and *(b)* chairs of strategic health authorities on the role of Alliance Medical in the NHS; [8261]

(2) what representations have been made to her Department by primary care trusts on the role of Alliance Medical in the NHS. [8262]

**Mr. Byrne** *[holding answer 30 June 2005]:* Some representations have been received about services which Alliance Medical Limited is contracted to provide, but detailed information on representations made is not disclosed, as they may be commercially sensitive and could be detrimental to the provision of free and frank advice.

### Antibiotics

**John Hemming:** To ask the Secretary of State for Health what research she has *(a)* commissioned and *(b)* undertaken on the prevalence of the prescription of antibiotics for viral infections. [7720]

**Jane Kennedy:** No specific research has been commissioned but we run education campaigns to convey the message that antibiotics do not work on most coughs and colds.

### Cancer Treatment

**Mr. Lansley:** To ask the Secretary of State for Health what recent estimate she has made of the cost to the NHS in England in a year of treating *(a)* prostate, *(b)* mouth and *(c)* facial skin cancer. [9953]

**Ms Rosie Winterton** *[holding answer 5 July 2005]:* Information on the costs of treating individual tumours is not collected centrally. Latest information indicates that nearly £3.4 billion was spent by primary care trusts in financial year 2003–04 in treating all cancers.

### Consultants

**Mrs. Dean:** To ask the Secretary of State for Health what plans she has to issue guidance on effective commissioning for those in the public and voluntary sectors who are commissioning work from external consultants. [7020]

**Jane Kennedy:** The Department provides detailed procurement guidance to its staff, with a direct link to the successful delivery toolkit, as explained by my hon. Friend the Financial Secretary to the Treasury (John Healey), in his reply of 27 June 2005, *Official Report*, column 1286W.

The National Health Service Purchasing and Supply Agency, together with the Office of Government Commerce, has awarded a series of framework agreements to provide specialist business, professional and information technology consultancy and services to the NHS. This can allow trusts to streamline certain elements of the procurement process.

### Cytology

**Sandra Gidley:** To ask the Secretary of State for Health if she will list the hospitals which *(a)* have

introduced liquid-based cytology and *(b)* are scheduled to introduce liquid-based cytology over the next year. [9898]

**Ms Rosie Winterton:** Since the National Institute for Health and Clinical Excellence published its appraisal of liquid based cytology (LBC) in October 2003, the following hospitals have introduced LBC for cervical screening:

Royal Hallamshire hospital (Sheffield)
Royal Victoria infirmary (Newcastle)
North Tyneside district general
Birmingham Women's Healthcare
County hospital Hereford
Northwick Park hospital (Middlesex)
Partnership Pathology Services—Guildford
Southmead hospital (Bristol)
Musgrove Park hospital (Taunton)
Norfolk and Norwich hospital
Addenbrookes hospital (Cambridge)
West Suffolk hospital (Bury St Edmunds)
Royal Liverpool hospital
University hospital Aintree
Warrington hospital
Arrowe Park hospital (Wirral)
Countess of Chester hospital
Victoria hospital (Blackpool)

The following hospitals intend to introduce LBC by March 2006:

Scunthorpe general hospital
York district hospital
Diana, Princess of Wales hospital (Grimsby)
Doncaster Royal infirmary
Leeds teaching hospitals
Calderdale Royal (Halifax)
Chesterfield and North Derby Royal
Derbyshire Royal infirmary
Kings Mill hospital (Mansfield)
Nottingham city hospital
Pilgrim hospital (Boston)
Lincoln county hospital
Good Hope hospital (Sutton Coldfield)
Princess Royal trust (Telford)
Chase Farm hospital (Enfield)
University college hospital (London)
Ealing hospital
Hammersmith hospitals
Queen Mary's hospital (Sidcup)
St Thomas's hospital (London)
Kingston hospital
St Hellier hospital (Surrey)
Darent Valley hospital (Dartford)
Medway Maritime
Pembury hospital (Tunbridge Wells)
Preston Hall (Mid-Kent Healthcare)
William Harvey hospital (Ashford)
Cheltenham general hospital
Gloucestershire Royal hospital
Derriford hospital (Plymouth)
Royal Cornwall hospital (Treliske)
Royal Devon and Exeter hospital
Torbay hospital
Bedford general hospital
Luton and Dunstable hospital
Queen Elizabeth II hospital (Welwyn Garden City)
Watford general hospital
Queen Elizabeth hospital (King's Lynn)
James Paget hospital (Great Yarmouth)
Whiston hospital (Merseyside)
Leighton hospital (Crewe)
Macclesfield district hospital
Blackburn Royal infirmary
Burnley general hospital
Chorley and district hospital
Royal Lancaster infirmary
Southport general infirmary
Birch Hill hospital (Rochdale)
Bury general hospital
Manchester Cytology Centre
Royal Bolton hospital
Royal Oldham hospital
Stepping Hill hospital (Stockport)
Tameside general hospital (Lancashire)

NHS cancer screening programmes

## Dentistry

**Steve Webb:** To ask the Secretary of State for Health if she will estimate the percentage of the population with no decayed, missing or filled teeth, broken down by *(a)* age and *(b)* social class, in each year since 1990. [6566]

**Ms Rosie Winterton:** Dental health surveys are carried out every 10 years. For adults—those aged 16 and over—the last survey was for 1998 and the results are published in "Adult Dental Health Survey. Oral Health in the United Kingdom 1998" ISBN 0-11-621268-3. That report contains analyses by age and by social class of the head of household, which includes the percentage of adults who are dentate and the percentage of dentate adults who have 24 or more sound and untreated teeth. The results are shown in Tables 1 and 2.

*Table 1: Dental status and number of teeth by age group, 1998, England*

*Percentage*

| *Age* | *Adults who are dentate* | *Dentate adults with 24 or more sound and untreated teeth* |
|---|---|---|
| 16–24 | 100 | 59 |
| 25–34 | 100 | 25 |
| 35–44 | 99 | 9 |
| 45–54 | 95 | 1 |
| 55–64 | 82 | 1 |
| 65 and over | 56 | 1 |

*Source:*
Adult Dental Heath Survey, 1998, tables 7.1.1 and 7.1.10.

*Table 2: Dental status and number of teeth by social class, 1998, England*

*Percentage*

| *Social class of head of household* | *Adults who are dentate* | *Dentate adults with 24 or more sound and untreated teeth* |
|---|---|---|
| I, II, III NM | 93 | 18 |
| III M | 86 | 13 |
| IV, V | 79 | 18 |

Source:
Adult Dental Heath Survey, 1998, tables 7.1.1 and 7.1.14.

For children, the dental health surveys were carried out in 1993 and 2003. The report for the year 2003, which, like the adult survey, records encouraging improvements in oral health, is available on the website of the Office for National Statistics at www.statistics.gov.uk/children/dentalhealth/. The report includes a separate report entitled, "Social factors and oral health in children", which shows decay experience results for 1993 and 2003 for 12 and 15-year-old children. The percentages of children with obvious decay experience in those years are shown in Tables 3 and 4.

*Table 3: Proportions of five, eight, 12 and 15-year-olds with obvious decay experience in permanent teeth, 1993 and 2003, England*

*Percentage*

| *Age* | *1993* | *2003* |
|---|---|---|
| Primary teeth | | |
| 5 | 43 | 41 |
| 8 | 59 | 54 |
| Permanent teeth | | |
| 8 | 17 | 12 |
| 12 | 50 | 31 |
| 15 | 60 | 46 |

*Note:*
Obvious decay experience includes decay into dentine, filled teeth and missing teeth due to decay.
*Source:*
Children's Dental Health in England, 2003, tables 1.1 and 1.7.

*Table 4: Proportions of 12 and 15-year olds with obvious decay experience in permanent teeth by social class, 1993 and 2003, United Kingdom*

*Percentage*

| *Household social class* | *12-year-olds in 1993* | *12-year-olds in 2003* | *15-year-olds in 1993* | *15-year-olds in 2003* |

Social factors and oral health in children, tables 5 and 6.

**Mr. Lancaster:** To ask the Secretary of State for Health how many people are on waiting lists for NHS dentists in Milton Keynes. [6975]

**Ms Rosie Winterton:** The information requested is not collected centrally.

**Sir Paul Beresford:** To ask the Secretary of State for Health what steps her Department is taking to recruit dentists in *(a)* Greece, *(b)* Portugal, *(c)* Germany, *(d)* Spain and *(e)* India; and what intermediary organisations are being used. [5837]

**Ms Rosie Winterton** *[holding answer 20 June 2005]:* In Greece, Portugal, Germany and Spain and India smaller numbers of dentists, typically between five and 15 at a time, are being recruited compared with those from Poland (230). No contracts have been set with a recruitment company for activity in Greece, Portugal, Germany, Spain or India.

In Germany and Spain, a desk officer in the British Consulate advises interested dentists of the recruitment process. In India, a desk officer based in the British High Commission advises dentists who passed the International Qualifying Exam Part A in India this year of the recruitment process. In Greece and Portugal, recruitment events have been held by the Department.

**Mr. Lancaster:** To ask the Secretary of State for Health how much has been spent on general dental practitioners in Milton Keynes over the last three years. [8389]

**Ms Rosie Winterton:** Primary care provided by independent general dental practitioners (GDPs) forms the major element of national health service dental services. Most GDPs operate within the national terms of the general dental service (GDS), although some have opted to provide similar patient services under local contracts agreed with their primary care trust (PCT) as part of the recently introduced personal dental service (PDS). Under the GDS, the main costs are the individual treatment fees, including patient registration payments, payable to dentists; under the PDS, dentists are usually paid a regular contract value for a defined level of NHS commitment. The gross cost of GDS fees and PDS contract payments in the area of the Milton Keynes PCT are shown in the table.

Expenditure on community and hospital dental services is determined by the relevant local NHS body and expenditure on services in the Milton Keynes area alone is not identifiable from data available centrally.

*Gross cost of General Dental and Personal Dental Services within the area of the Milton Keynes PCT*

*£ million*

| | *2002–03* | *2003–04* | *2004–5* |
|---|---|---|---|
| Gross GDS dental fees [1] | 6.484 | 6.867 | 6.572 |
| Gross PDS payments | 0 | 0 | [2]0.097 |
| Total | 6.484 | 6.867 | 6.669 |

*Notes:*
[1] Gross GDS fees include all adult and child treatment fees, continuing care and capitation payments, and commitment payments. Certain allowances and costs, such as reimbursement of business rates, seniority payments, and employers' superannuation contributions, are excluded.
[2] The PDS scheme in Milton Keynes PCT started on 28 January 2005 and this figure therefore represents approximately two months of payments.
*Notes:*
1. All costs are shown gross of any income contributed by dental charges payable by patients.
2. Figures extracted from payment data held by the Dental Practice Board.

**Mr. Lancaster:** To ask the Secretary of State for Health what has been the cost of running the Milton Keynes dental access centres in the last three years; and how much capital expenditure there was on setting up these centres. [8390]

**Ms Rosie Winterton:** The dental access centres in Milton Keynes are commissioned by the primary care trust and full cost information is not held centrally. However, the Department has made the following central contributions to the cost of this service over the last three years, which is shown in the table.

£

| | *Revenue* | *Capital* |
|---|---|---|
| 2002–03 | 373,000 | 160,000 |
| 2003–04 | 670,000 | 0 |
| 2004–05 | 779,000 | 0 |

**Mr. Lancaster:** To ask the Secretary of State for Health how many patients have been treated *(a)* by NHS general dental practitioners and *(b)* at dental access centres in Milton Keynes in each of the last three years. [8391]

**Ms Rosie Winterton:** The information requested is shown in the table.

*General dental services (GDS) and personal dental services (PDS)—number of patients who have been treated within the Milton Keynes Primary Care Trust (PCT) area*

| *Year (ending March)* | *GDS and PDS patients* | *Dental access centre patients* | *Patients who attended both* | *Total patients* |
|---|---|---|---|---|
| 2005 | 75,830 | 5,030 | 907 | 79,953 |
| 2004 | 82,119 | 3,744 | 1,046 | 84,817 |
| 2003 | 80,328 | 4,087 | 856 | 83,559 |

*Notes:*
1. GDS and PDS patients—patients who have been treated under GDS and PDS, excluding dental access centres during the year
2. Dental access centre patients—patients who have been treated in the dental access centre during the year
3. Patients who attended both—patients who have been treated in both of the above during the year
4. Total patients—number of individual patients treated in Milton Keynes PCT area during the year.

*Source:*
Dental Practice Board

**Mr. Prisk:** To ask the Secretary of State for Health how many dentists in the Hertford and Stortford constituency had live Personal Dental Services contracts by 1 June. [8413]

**Ms Rosie Winterton:** As at 31 May 2005, there were three registered dentists within Hertford and Stortford parliamentary constituency with a personal dental services contract. Hertford and Stortford parliamentary constituency is covered by South East Hertfordshire Primary Care Trust (PCT) and Royston, Buntingford and Bishops Stortford PCT.

### Diabetes

**Sarah Teather:** To ask the Secretary of State for Health how many *(a)* adults and *(b)* children were diagnosed with diabetes in London was in each of the last five years. [8322]

**Jane Kennedy:** The information requested is not collected centrally.

### Domestic Violence

**Mr. Drew:** To ask the Secretary of State for Health how many NHS trusts provide psychotherapy support for those affected by domestic violence. [8406]

**Ms Rosie Winterton:** The information is not centrally available.

### Edgware Hospital

**Mr. Dismore:** To ask the Secretary of State for Health pursuant to the answer of 28 June 2005, *Official Report*, column 1503W, what further work is necessary; when she expects a decision to be taken; and if she will make a statement. [9110]

**Jane Kennedy:** The Department continues to support the North Central London Strategic Health Authority (SHA) in this area with regard to the use of Alliance Medical Ltd. mobile magnetic resonance imaging (MRI) unit at Edgware Hospital. Further work is required to provide the necessary infrastructure to support the mobile MRI unit at Edgware Hospital and the time scale for this will be lead by the SHA.

### Health Care Acquired Infections

**Mr. Burstow:** To ask the Secretary of State for Health which health care acquired infections are subject to mandatory reporting; when that reporting commenced; which are not subject to mandatory reporting; and for what reasons. [7222]

**Jane Kennedy:** The components of the mandatory surveillance system for health care associated infection and the dates when reporting started are:

Bloodstream infections caused by *Staphylococcus aureus*, including susceptibility to methicillin (MRSA)—from 1 April 2001

Bloodstream infections caused by glycopeptide resistant enterococci—from 1 October 2003

Diarrhoea associated with *Clostridium difficile*—from 1 January 2004

Orthopaedic surgical site infections—from 1 April 2004

Serious untoward incidents—from September 2003.

The above were selected for mandatory surveillance because information on them has national relevance and they act as markers of infection control. Virtually all micro-organisms can cause health care associated infections and prioritisation is essential to ensure that only significant infections are included in the mandatory systems. We expect that new infections will be added in the future in line with scientific advice.

Information on infections not included in the mandatory system is available from the Heath Protection Agency's voluntary reporting systems and there are local surveillance systems.

**Mr. Lansley:** To ask the Secretary of State for Health whether she plans to include acinetobacter bacteraemia within the mandatory surveillance systems for hospital acquired infection; and if she will make a statement. [7451]

**Jane Kennedy:** There are no plans to include bacteraemias due to acinetobactor in the mandatory surveillance system at present. Decisions on extending surveillance will be made in the light of any advice from the Health Protection Agency's steering group on health care associated infections.

**Anne Main:** To ask the Secretary of State for Health how many *(a)* wards and *(b)* beds in (i) East and North Hertfordshire NHS Trust and (ii) West Hertfordshire NHS Trust were isolated owing to hospital-acquired infection incidence during (A) 2001–02, (B) 2002–03, (C) 2003–04 and (D) 2004–05; and if she will make a statement. [8732]

**Ms Rosie Winterton:** The information requested is not held centrally.

**Anne Main:** To ask the Secretary of State for Health how many people died as a result of *(a)* MRSA and *(b)* other hospital-acquired infections in hospitals in (i) East and North Hertfordshire NHS Trust and (ii) West Hertfordshire NHS Trust in (A) 2001–02, (B) 2002–03, (C) 2003–04 and (D) 2004–05; and if she will make a statement. [8733]

**Ms Rosie Winterton:** The information requested is not held centrally. However, the numbers of meticillin resistant *Staphylococcus aureus* bacteraemia reports for East and North Hertfordshire National Health Service Trust and West Hertfordshire NHS Trust are shown in the table.

| | *East and North Hertfordshire NHS Trust* | *West Hertfordshire NHS Trust* |
|---|---|---|
| 2001–02 | 72 | 77 |
| 2002–03 | 86 | 40 |
| 2003–04 | 56 | 45 |
| 2004–05 | 50 | 53 |

### MRI Scans

**Mr. Davey:** To ask the Secretary of State for Health (1) what steps she is taking to reduce waiting times for routine MRI scans; [8341]

(2) what representations she has received on waiting times for routine MRI scans; [8342]

(3) what assessment she has made of the effects of delayed MRI scans. [8343]

**Mr. Byrne:** To address concerns expressed from various sources about waits for magnetic resonance imaging (MRI) scans, we have introduced a target that, by 2008, no patient will have to wait more than 18 weeks from referral to start of hospital treatment. This will include any diagnostics tests or procedures leading up to the start of treatment. To support this, in addition to investing in additional capacity in the national health service, 40,000 additional MRI scans per annum have been procured from the independent sector through the use of state-of-the-art mobile scanning units. We are also in the process of procuring a further £200 million worth of diagnostic capacity from the independent sector, as announced by my right hon. Friend, the Prime Minister, in September 2004.

As part of their local delivery plans, strategic health authorities (SHAs) have been asked to produce trajectories showing planned reductions in maximum waiting times for such tests. New data systems will allow assessment of performance against the SHAs' trajectories.

### MRSA

**Lynne Featherstone:** To ask the Secretary of State for Health if she will list all known strains of MRSA; and if she will make a statement. [7802]

**Jane Kennedy:** The total number of strains is not known, but the Health Protection Agency receives around 7,000 methicillin resistant *Staphylococcus aureus* (MRSA) strains a year for typing on a voluntary basis to assist in the investigation of serious disease and outbreak investigation and control. Most hospital outbreaks in the United Kingdom are due to epidemic strains of MRSA, which can readily spread from person to person and affect more than one ward in more than two hospitals. A total of 17 epidemic strains have been identified in the United Kingdom to date and two strains, EMRSA 15 and EMRSA 16, predominate.

### NHS (Charges to Overseas Visitors)

**Sandra Gidley:** To ask the Secretary of State for Health what plans she has to amend the NHS (Charges to Overseas Visitors) Regulations 1989 to include HIV in those conditions exempted from charging. [9072]

**Jane Kennedy:** The NHS (Charges to Overseas Visitors) Regulations 1989, as amended, already state that diagnostic testing for HIV and any associated counselling is free of charge to all irrespective of their residency status. Overseas visitors not eligible for free hospital treatment are required to pay the full costs of any HIV treatment beyond the initial test and counselling. There are no plans at present to amend the regulations to change this.

### NHS Patients (Overseas Treatment)

**Lynne Featherstone:** To ask the Secretary of State for Health how many NHS patients have been treated in hospitals overseas in each of the last five years; and if she will make a statement. [9239]

**Jane Kennedy:** I refer the hon. Member to the reply my hon. Friend the Minister of State, Department of Health, (Ms Winterton) gave to the hon. Member for East Worthing and Shoreham (Tim Loughton) on 29 June 2005, *Official Report*, column 1612W.

### NHS Staff (Assault)

**Mr. Clappison:** To ask the Secretary of State for Health how many *(a)* doctors, *(b)* nurses and *(c)* other NHS staff have been the victims of offences of violence suffered in the course of their employment in each of the last 20 years. [7561]

**Jane Kennedy:** Information on assaults against national health staff by occupational grouping has not been collated centrally.

In April 2003, the NHS Security Management Service was created and assumed responsibility for the issue of tackling violence against NHS staff. In November 2003, a new national reporting system for physical assaults against NHS staff was introduced. Information concerning physical assaults against NHS staff is expected to be available from summer 2005.

### Patients Forums

**Mr. Lansley:** To ask the Secretary of State for Health what the total budget for supporting patients' forums is for the current financial year; and what the total budget for supporting community health councils was for the last financial year of their existence. [5600]

**Ms Rosie Winterton:** The total budget for supporting patients' forums for the current financial year is £25.9 million, comprising of £19.8 million for direct programme expenditure for forums, plus £6.1 million for regional support, as provided through the regional centres.

The total budget for supporting community health councils (CHCs) from 1 April to 1 December 2003, when CHCs were abolished, was £13.98 million.

### West Hertfordshire NHS Trust (Budget)

**Anne Main:** To ask the Secretary of State for Health what advice has been given by her Department to the West Hertfordshire NHS Trust concerning measures to alleviate its budgetary deficit; and if she will make a statement. [8734]

**Ms Rosie Winterton:** National health service organisations are expected to plan for and achieve financial balance each and every year. Any deficits of NHS trusts need to be matched by underspends by other NHS bodies each year. In the next year, NHS trusts which overspent should make a surplus in order to ensure that other bodies can utilise the underspends from the previous year.

It is the responsibility of strategic health authorities (SHAs) to deliver both overall financial balance for their local health communities and to ensure each and every body achieves financial balance. However, there is a degree of flexibility in how this is managed at a local level. In circumstances where a surplus cannot be generated in the following year, SHAs can agree a recovery plan which phases the recovery of deficits over a number of years. This would require other NHS organisations within the health economy to underspend over the same period. Clearly, any such arrangements would have to be subject to the agreement of local providers, commissioners and the managing SHA.

West Hertfordshire Hospital NHS Trust is working with primary care trusts to agree a recovery plan to ensure that it delivers national targets, meets the national standards for high quality health care and meets its statutory duties. Decisions on how this is best delivered within the West Hertfordshire health and social care system is a local decision and thus Bedfordshire and Hertfordshire SHA is working with the local NHS to support them in this process and ensure that there is the management capacity to produce and deliver the recovery plan.

## CULTURE, MEDIA AND SPORT

### English Wine

**Mr. Dismore:** To ask the Secretary of State for Culture, Media and Sport if she will ensure that English wine is made available at dinners, receptions and parties she hosts at which hospitality involving wine is appropriate *(a)* during the EU presidency and *(b)* generally; and if she will make a statement. [9159]

**Mr. Lammy:** The choice of wines at receptions and other occasions—where it is appropriate for wine to be served—is primarily an operational matter for the chosen supplier of catering services. My officials liaise with the organisers of such events and encourage the serving of British wines, wherever that would also ensure appropriate value for money.

### Olympics 2012

**Hugh Robertson:** To ask the Secretary of State for Culture, Media and Sport what financial estimate has been made of the total economic benefit to the UK of hosting the 2012 Olympics. [9147]

**Mr. Lammy** *[holding answer 4 July 2005]:* We expect a London Olympics to deliver significant economic benefits. The Games will attract investment, offer UK companies the opportunity to compete for billions of pounds worth of contracts, and provide a welcome boost to the UK tourism industry.

## TRADE AND INDUSTRY

### Car Servicing and Repair

**Charles Hendry:** To ask the Secretary of State for Trade and Industry (1) what recent surveys have been carried out by *(a)* his Department and *(b)* its agencies into car servicing and repair; and what the findings were of those surveys; [9345]

(2) what discussions the Office of Fair Trading has had with the Retail Motor Industry Federation concerning standards of servicing and repair for the car industry; [9346]

(3) what estimate he has made of the number of garages servicing cars in England and Wales; what assessment he has made of the quality of servicing and repair work done by such garages; and if he will make a statement; [9347]

(4) what recent estimate he has made of the number of cars serviced in a year in England; how many cars were examined in the recent survey into car servicing and repair conducted by the Trading Standards Institute for his Department; and what proportion of the total this represents. [9530]

**Mr. Sutcliffe:** The most recent survey carried out by my Department (Car Servicing and Repair: Mystery Shopping Research—available at www.dti.gov.uk) was published in September 2002. The OFT published their Report (Car Servicing and Repairs—available at www.oft.gov.uk) in August 2000. This pulled together survey results from a number of sources. The findings of

the surveys detailed in the OFT report were echoed substantially in the DTI survey. The findings are summarised as follows:

Five per cent. of garages were rated very good, indicating they had carried out a thorough service, according to the manufacturer's service schedule; about half were rated either poor or very poor. There was evidence that women were subject to greater exposure to detrimental practices: overall 40 per cent.. of garages missed one or more items on the service schedule, this rose to 51 per cent.. if the customer was female (33 per cent.. if male). Performance was generally poor on providing accurate information, for example proper quotes for servicing. 61 per cent.. missed at least one of the faults found by the project's inspectors, which should have been picked up in service. 71 per cent. did not show customers replaced parts. Exposure to detriment seemed endemic and there was no significant difference in ratings between types of garage: 53 per cent.. of independent garages and 50 per cent. of franchise dealers were rated either poor or very poor. Only 6 per cent. of independents and 4 per cent. of dealers achieved a very good rating and there was no significant difference between members of trade associations and non-members. "Fast-fit" centres faired a little better with 28 per cent. rated poor or very poor for overall quality of work; however, only 3 per cent.. carried out a thorough check and rectified both simple introduced faults.

Until September last year, when they withdrew their application, the Retail Motor Industry Federation was pursuing OFT approval for its code of practice. Since that time I understand that the Federation and the OFT have met several times to discuss the possibility of applying for approval for a revised code scheme.

The Retail Motor Industry Federation estimate that there are some 26,000 garages servicing cars in England and Wales. I have no doubt that there are very many garages in England and Wales which provide, or are capable of providing, very good quality servicing and repair work.

However, random mystery shopping research carried out over recent years by trading standards officers, *Which?* and the Department has produced results that show consistently that a high proportion of garages from across the industry does not provide consumers with the standard of service delivery to which I believe they are entitled. Regrettably, the industry has failed to produce evidence of a similar quality which shows otherwise.

The Retail Motor Industry Federation estimate that there are some 24 million cars serviced each year in the UK. The recent survey carried out by the Trading Standards Institute was not carried out on behalf of the Department. The Trading Standards Institute reported that they examined 88 cars in the course of their survey. This is clearly a very low proportion of the annual total of services. However, the poor results for the industry from that survey are entirely consistent with similar poor results in the similar surveys referenced above. Regrettably, there appears to be no sign of improvement in customer service delivery in this sector over the period since the OFT Report in 2000.

## Coal Reserves (South Wales)

**Huw Irranca-Davies:** To ask the Secretary of State for Trade and Industry what estimate he has made of the size of the remaining coal reserves in South Wales; and what assessment he has made of the economic viability of their extraction. [6622]

**Malcolm Wicks:** In 2002, the Department commissioned a study into coal reserves at existing deep mines in the UK. This was carried out by consultant mining engineers on behalf of the Department.

It concluded that as at December 2002 the three remaining deep mines had 3.65 million tonnes of reserves, which could be extracted under then current economic conditions, and a further 11.50 million tonnes of potential economic interest which had not been fully investigated or evaluated, and which would require major access development. Further details can be found at: www.dti.gov.uk/energy/coal/mine_reviews/remaining_reserves.shtml.

An earlier study, "Prospects for coal production in England, Scotland and Wales", published in 1999, also identified 20–25 million tonnes of recoverable coal at the Margam prospect.

Total deep mine production in South Wales since 2002 has been approximately 1.25 million tonnes.

## Colitis/Crohn's Disease

**Mr. Lansley:** To ask the Secretary of State for Trade and Industry what funding has been provided for research into *(a)* ulcerative colitis and *(b)* Crohn's disease by the Medical Research Council. [9511]

**Malcolm Wicks:** The Medical Research Council (MRC) spent £1.6 million in 2003–04 on research relevant to inflammatory bowel diseases, which include both ulcerative colitis and Crohn's disease.

It is for individual Research Councils to determine the research they wish to fund. Research excellence and importance to health are the primary considerations in MRC's funding decisions. Research proposals received by MRC undergo full peer review and assessment by one of the MRC's Research Boards.

## Colliery Spoil Heaps

**Mr. Neil Turner:** To ask the Secretary of State for Trade and Industry how many fires have occurred on former colliery spoil heaps since 1980, broken down by *(a)* former National Coal Board and *(b)* private tips. [7287]

**Malcolm Wicks** *[holding answer 27 June 2005]:* Given the varied ownership of both former National Coal Board/British Coal Corporation and private colliery tips, no such information is centrally available.

**Mr. Neil Turner:** To ask the Secretary of State for Trade and Industry who is responsible for monitoring the condition of *(a)* former National Coal Board and *(b)* private colliery spoil heap. [7288]

**Malcolm Wicks** *[holding answer 27 June 2005]:* In respect of any disused colliery tip, the primary responsibility for ensuring safety rests with the tip owner, although local authorities have certain powers to act where there may be a threat to public safety. Any active or closed tip continues to be the responsibility of the mine owner. The enforcement authority in respect of such tips is the Mines Inspectorate of the Health and Safety Executive.

### Corporate Social Responsibility

**Mr. Arbuthnot:** To ask the Secretary of State for Trade and Industry if he will introduce guidelines on corporate social responsibility for business similar to the guidelines introduced recently by the Department for Environment, Food and Rural Affairs on business impact on the environment; and if he will make a statement. [8976]

**Alun Michael:** I have no plans to introduce guidelines on corporate social responsibility (CSR) for business. CSR covers the social, environmental and economic impacts of business activities and a range of standards and guidelines already exist. DEFRA's consultation on revised guidelines for environmental reporting is part of the Government's approach of encouraging good practice. The Department was consulted on the guidelines and I added my support to the launch.

### Exports

**Malcolm Bruce:** To ask the Secretary of State for Trade and Industry whether it would require primary legislation to privatise the authority for issuing export licences. [8700]

**Malcolm Wicks:** No decisions have been taken on the XNP Services Review. If, we decided to outsource some, or all, of our export control services, we do not anticipate the need for any primary legislation.

**Mr. Arbuthnot:** To ask the Secretary of State for Trade and Industry what his Department's strategy is for helping UK exporters to penetrate new markets in *(a)* India and *(b)* China. [8810]

**Ian Pearson** *[holding answer 4 July 2005]:* Government have a well-defined strategy to help UK business succeed in China and India. Joint statements have been made by my right hon. Friend the Prime Minister and his counterparts in India and China establishing a framework for strategic partnership agreements aimed at enhancing our bilateral relations in a number of key areas, including trade and investment. My right hon. Friend the Secretary of State for Trade and Industry sits on the Joint Economic Trade Forum for China (JETC) and Joint Economic Trade Committee for India (JETCO), which are pivotal in bringing business issues to the attention of our relevant Ministries. Among other things, they explore the scope for co-operation across a number of key sectors, including energy and ICT. The Chancellor recently announced that the Asia Task Force will build on this work by identifying generic problems that British companies face in these markets. Ensuring that barriers are tackled where possible, and helping business overcome those that remain. Sector programmes have been developed in collaboration with industry, the Regional Development Agencies and devolved Administrations. These have been fed into UKTI's Business Plans for both China and India. They aim to develop our individual sector and wider market shares through a range of proactive activities and initiatives. We support a range of business to business led initiatives and support packages through our key delivery partners. In China these are the China British Business Council, and in India the Indo-British Partnership. In addition, UKTI directly supports numerous trade missions, seminars and trade show events to assist companies in penetrating these markets for the first time. For example, currently over 100 UKTI supported missions, seminars and trade show events are scheduled in China for 2005–06—a 25 per cent.. increase on the 2004–05 programme.

### Gas Reserves

**Mr. Jenkin:** To ask the Secretary of State for Trade and Industry (1) how many days' supply of *(a)* long range, *(b)* medium range and *(c)* short range strategic gas reserves there is; and how this figure is calculated; [7898]

(2) what the minimum *(a)* long range, *(b)* medium range and *(c)* short range strategic gas reserves available during (i) February and (ii) March were, expressed as (A) a percentage of total potential storage of that type and (B) the number of days' supply at peak demand. [7899]

**Malcolm Wicks:** While there are no specifically defined "strategic gas reserves" in the UK, there are levels of storage stocks known as Safety Monitors. These are determined as the minimum storage requirements to protect loads that can not be isolated from the network and also to support the process of isolating large loads from the network. The resultant storage stocks or monitors are designed to ensure that sufficient gas is held in storage to underpin the safe operation of the gas transportation system under severe conditions. There are separate safety monitors for each storage facility type (long, medium and short duration storage) each determined by National Grid Transco (NGT) to meet its Network Code requirements and under the terms of its Safety Case. Total shipper gas stocks should not fall below the relevant monitor level (which declines as the winter progresses). NGT is required to take action (which may include use of emergency procedures) in order to prevent a breach of these monitors. These monitors are calculated from:

(a) an assessment of the level of supply availability (beach supplies, Interconnector imports and storage) against severe winter demands of those loads that can not be isolated from the network, for example domestic loads and priority customers (ie hospitals)

(b) to provide network support while the larger loads where physically isolated.

For next winter NGT's current assessment of the storage monitors are.

| Storage type | Assumed storage capacity (GWh) | Safety Monitor requirement | Safety Monitor requirement (percentage) | Days supply (at peak deliverability) |
|---|---|---|---|---|
| Long duration storage (Rough) | 34,126 | 6,059 | 17.8 | 13.3 |
| Medium duration storage (MRS) | 7,322 | 954 | 13.0 | 3.2 |
| Short duration storage (LNG) | 1,817 | 988 | 54.4 | 1.9 |
| Total | 44,051 | 8,001 | 18.2 | |

According to the latest data, as of 29 June 2005, the Rough Storage Facility (long-range) is just over 70 per cent.. full. This is around 53 days deliverability at maximum withdrawal rates. Medium and short (LNG) duration storage is estimated to be around 60 per cent. and 70 per cent. full respectively. Transco publish updates on the levels of stocks in storage on their website: http://www.transco.co.uk/services/summops/storage.htm.

Statistics for February and March, as provided by NGT, are:

| Storage type | Assumed storage capacity (GWh) | Actual storage stock levels (GWh) | Percentage of assumed storage capacity | Days supply (at peak deliverability) |
|---|---|---|---|---|
| *February* | | | | |
| Long duration storage (Rough) | 34,126 | 11,973 | 35 | 26.3 |
| Medium duration storage (MRS) | 4,962 | 1,654 | 33 | 6.6 |
| Short duration storage (LNG) | 1,838 | 1,264 | 69 | 1.8 |
| Total | 40,926 | 14,891 | 36 | |
| *March* | | | | |
| Long duration storage (Rough) | 34,126 | 8,991 | 26 | 19.8 |
| Medium duration storage (MRS) | 4,962 | 1,878 | 38 | 7.5 |
| Short duration storage (LNG) | 1,838 | 938 | 52 | 1.3 |
| Total | 40,926 | 11,807 | 29 | |

### Mines Rescue Services

**Mr. Meale:** To ask the Secretary of State for Trade and Industry (1) what *(a)* financial support and *(b)* technical assistance his Department has given to Mines Rescue Services Ltd. in respect of (i) overseas trade missions and promotions and (ii) other activities in each of the last five years; [8860]

(2) what Government fiscal support has been provided to Mines Rescue Services Ltd. in each of the last five years; [8861]

(3) what his Department's relationship with Mines Rescue Services Ltd. is; [8862]

(4) what contracts his Department has entered into with Mines Rescue Services Ltd. in each of the last five years. [8863]

**Malcolm Wicks:** Mines Rescue Services Ltd. is a private sector company with which the Department has no direct relationship, contractual or otherwise.

The Department has provided no financial support or technical assistance to the company in respect of trade missions or promotions. However, as part of a package of measures established in 2003 to support the UK coal mining industry, the Department agreed to use best endeavours to identify and make available funding to Mines Rescue Services Ltd. (in its role as the provider of the statutory Mines Rescue Scheme) in the three year period 2003–04 to 2005–06. In respect of that commitment, my right hon. Friend the Secretary of State directed the Coal Authority, a DTI sponsored non-departmental public body, to pay £2.5million to Mines Rescue Services Ltd. in each of the years 2003–04 and 2004–05. This funding enabled Mines Rescue Services Ltd. to reimburse to UK deep-mine operators the production-related levy sums which the latter had paid to the company throughout that period.

As entirely separate arrangements, the Coal Authority has, over the period since its establishment in 1994, held a number of contracts with Mines Rescue Services Ltd. variously for the provision of training services, and services in respect of mines in the Authority's ownership. In April 2004 the Coal Authority let a contract to Mines Rescue Services Ltd. for the provision of an emergency response service to attend incidents such as ground collapses throughout the coalfields.

### Official Receiver

**Mr. Lancaster:** To ask the Secretary of State for Trade and Industry to whom the Official Receiver in his role as an Officer of the Court is accountable. [9565]

**Mr. Sutcliffe:** When acting as an officer of the court in the conduct of insolvency proceedings, the official receiver is subject to the control of the court in which the proceedings are based and is accountable to it.

### Post Office, Bank and Retail Closures

**Lynne Jones:** To ask the Secretary of State for Trade and Industry how many *(a)* local post offices, *(b)* local bank branches and *(c)* independent retail shops have closed in the last 10 years in (i) Birmingham, (ii) the West Midlands and (iii) England. [9507]

**Barry Gardiner:** Information on the number of local post offices that have closed is an operational matter for Post Office Ltd. The Chief Executive has been asked to reply direct to the hon. Member.

The number of local bank branch closures is not available.

DTI figures based solely on VAT de-registrations in the retail sector for Birmingham local authority, West Midlands Government Office Region and England are shown in the table for 1994 to 2003. These data are not available for 2004.

*VAT de-registrations in the retail sector, 1994–2003*

| | *Birmingham* | *West Midlands* | *England* |
|---|---|---|---|
| 1994 | 525 | 2,690 | 24,710 |
| 1995 | 470 | 2,390 | 22,495 |
| 1996 | 405 | 2,095 | 19,975 |
| 1997 | 440 | 2,000 | 18,920 |
| 1998 | 415 | 1,950 | 18,900 |
| 1999 | 380 | 1,825 | 18,305 |
| 2000 | 390 | 1,825 | 18,125 |
| 2001 | 360 | 1,755 | 17,045 |
| 2002 | 405 | 1,780 | 17,200 |
| 2003 | 355 | 1,785 | 17,435 |

*Source:*

Small Business Service analysis of ONS Inter Departmental Business Register data

VAT de-registrations do not give a complete picture of business closures. Businesses that de-register will not necessarily have closed. For example, they might continue to trade but at a turnover level below the VAT threshold. Only 1.8 million out of four million enterprises were registered for VAT at the start of 2003.

### Renewable Energy

**Mr. Hood:** To ask the Secretary of State for Trade and Industry what measures are being taken to encourage the use of renewable energy in Lanark and Hamilton East constituency. [8851]

**Malcolm Wicks:** Recent trends in renewable energy development have been highly encouraging. More new capacity has been constructed in the last few years than in the previous decade, and a significant amount is currently in the pipeline. This covers a wide range of technologies including onshore and offshore wind, solar and biomass. This has been a result of the Government's Renewables Obligation Order 2002, which established a market-based mechanism for the support and development of this sector.

The Government are also spending £500 million over the 2002–08 period to support emerging renewable energy technologies, such as wave and tidal.

I understand that within Lanarkshire itself there are two existing hydropower stations as well as some small-scale renewables, with a number of onshore wind projects currently in the planning stage.

**Norman Baker:** To ask the Secretary of State for Trade and Industry what assessment he has made of the potential for energy generation from tidal power. [9478]

**Alun Michael** *[holding answer 4 July 2005]:* The Department has carried out a study called ATLAS that looks at the marine resource around the UK including tidal power. A copy of the study can be found at www.dti.gov.uk/renewables/renew_atlaspages.htm.

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry what measures are being taken to *(a)* promote and *(b)* encourage the use of renewable energy in Lancashire. [9519]

**Malcolm Wicks:** Recent trends in renewable energy development have been highly encouraging. More new capacity has been constructed in the last few years than in the previous decade, and a significant amount is currently in the pipeline. This covers a wide range of technologies including onshore and offshore wind, solar and biomass. This has been a result of the Government's Renewables Obligation Order 2002, which established a market-based mechanism for the support and development of this sector.

The Government are also spending £500 million over the 2002–08 period to support emerging renewable energy technologies, such as wave and tidal.

Whilst this investment has not translated into capacity within Lancashire itself, there are onshore wind farm developments in planning and I recently approved the Scout Moor wind farm development in May. Furthermore, Renewables Northwest, a joint venture between the Regional Development Agency and United Utilities, has been working with local businesses companies on identifying opportunities and promoting the use of renewable energy in the area.

### Science Budget

**Dr. Iddon:** To ask the Secretary of State for Trade and Industry what real-terms percentage increase he expects in the science budget in each of the next three years. [9837]

**Malcolm Wicks:** Funding of the public science base, through DTI and DfES, is increasing at an average annual rate of 5.8 per cent in real terms over the Spending Review 2004 period. The Science Budget allocations through DTI for 2004–05 to 2007–08, including real-terms percentage increases, are set out in the table below:

*£ million*

| *Science budget* | *2004–05* | *2005–06* | *2006–07* | *2007–08* |
|---|---|---|---|---|
| Total | 2,734 | 3,087 | 3,235 | 3,452 |
| Annual increase | — | 353 | 148 | 217 |
| Percentage cash increase | — | 12.9 | 4.8 | 6.7 |
| Total (real terms at 2004–05 prices) | 2,734 | 3,011 | 3,078 | 3,203 |
| Annual increase | — | 277 | 67 | 125 |
| Percentage real increase | — | 10.1 | 2.2 | 4.1 |

### State Aid

**Mr. Hayes:** To ask the Secretary of State for Trade and Industry what current level of state aid has been authorised by the European Commission for each country. [8987]

**Ian Pearson:** There is no ceiling of aid but each member state is responsible for ensuring that the rules set out in the state aid frameworks are respected.

The Commission's State Aid Scoreboard reports on the aid given in eachmember state and can be found at http://europa.eu.int/comm/competition/state_aid/scoreboard.

### Textile Imports

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry what assessment he has made of the effect of imports from textile companies from China on the future of the textile industry in England. [9123]

**Alun Michael:** No specific assessment has been made of the effect of textile companies in China on the textile industry in this country but the likely impact of the ending of the Multi-Fibre Arrangement has been known for 10 years with a four stage phase out of quotas agreed as part of the GATT Uruguay Round. The UK cannot compete on low wages and the focus of UK manufacturing, including textiles, depends on raising investment, and applying science and innovation, best practice and skills to create better and more competitive products.

We are working in partnership with industry, trade unions, regional development agencies, and other stakeholders to deliver the Government's Manufacturing Strategy launched in May 2002, and reviewed in 2004. It sets out the actions needed to create a high value, high skill manufacturing sector capable of introducing new products and processes into our economy and creating new markets to deliver a boost to our prosperity.

### Work-related Stress

**Lynne Featherstone:** To ask the Secretary of State for Trade and Industry how many cases of work-related stress have been reported in his Department in each of the last three years; how much compensation was paid to employees in each year; how many work days were lost due to work-related stress in each year; at what cost; what procedures have been put in place to reduce work-related stress; at what cost; and if he will make a statement. [7872]

**Alan Johnson:** Data on absences relating to work-related stress is not collected separately in my Department. However, our counselling service provide detailed monitoring of the cases they deal with and since September 2003 25 staff have approached them for advice on work-related stress.

We are committed to maintaining a safe working environment for staff and reducing absences caused by any sickness or injury. The Department provides advice, including medical advice, and counselling services and training events that help both managers and staff tackle stress. These services are provided to help deal with a wide range of concerns and it is not possible to disaggregate the cost of those helping to alleviate work-related stress.

## INTERNATIONAL DEVELOPMENT

### Africa

**Mark Simmonds:** To ask the Secretary of State for International Development if he will make a statement on UK involvement in the creation of the new Infrastructure Consortium for Africa. [9262]

**Hilary Benn:** DFID convened a meeting in London on 5 May to discuss the creation of an Infrastructure Consortium for Africa. Senior level representatives attended from the G8, the African Union, The New Partnership for Africa's Development, the African Development Bank, The Economic Community for West African States, the World Bank, and the European Commission.

They recognised that infrastructure in Africa is key to accelerating growth, reducing poverty and promoting regional integration, and agreed the proposal for the establishment of an Infrastructure Consortium. DFID is working closely with other agencies on plans for a Consortium secretariat. Further details will be discussed at the inaugural meeting of the Consortium, with possible additional participants, to be held on 6 October 2005.

### Asian Tsunami

**Mr. Rob Wilson:** To ask the Secretary of State for International Development if he will make a statement on the *(a)* progress and *(b)* impact of his Department's aid to countries affected by the tsunami. [9983]

**Mr. Thomas:** Progress with the humanitarian relief effort following the Asian tsunami last December has gone well. A detailed breakdown of DFID's humanitarian relief spending can be obtained in the document entitled "A breakdown of DFID's Immediate Relief Response to the Indian Ocean Earthquake and Tsunami" which has been placed in the Libraries of the House.

The reconstruction phase of recovery is under way and progress is now being made, although it will take several years to complete. DFID has allocated £65 million to meet reconstruction needs. From this allocation I recently announced that £31 million has been committed to the Multi Donor Trust Fund in Indonesia, of which £6 million has so far been paid out. A further £5 million has been committed for technical assistance in Indonesia to help ensure timely, accountable and equitable provision of reconstruction assistance and rebuilding of livelihoods. A total of £2 million has been committed to Sri Lanka to help speed up implementation of reconstruction programmes and to ensure equitable distribution of assistance, and £3 million to India to provide technical assistance aimed at ensuring effective, transparent and equitable programming of tsunami reconstruction efforts. The remaining £24 million of the £65 million allocation for reconstruction has not yet been committed.

To assess the impact of this assistance, DFID humanitarian advisers will be undertaking a series of monitoring missions to affected countries during the summer to evaluate the effectiveness of the support provided with UK Government funds. The fact that much of DFID's relief and recovery assistance is being channelled through traditional partner organisations, including NGOs, should further ensure the funds are spent effectively. The National Audit Office is also undertaking a tracking study of DFID's relief and reconstruction response.

The impact of reconstruction spending will be assessed once the £65 million of allocated money is fully programmed and spending has commenced.

**Miss McIntosh:** To ask the Secretary of State for International Development what steps the Government is taking to assist non-governmental organisations, with particular reference to Oxfam, who have been charged customs duties to import four-wheel drive vehicles, necessary to carry supplies to victims of the December tsunami. [7731]

**Mr. Thomas:** DFID officials in Sri Lanka have been working closely with Oxfam to help them clarify the tax liability for vehicles imported to support their tsunami relief programmes. Oxfam subsequently discussed the issue with the Minister of Finance in Sri Lanka and I am pleased to say have received a refund of the duty paid.

The Oxfam case is not unique. A number of other NGOs face similar demands. While we recognise the Government of Sri Lanka's wish to maintain the integrity of its tax system, and to maximise revenue, we are concerned that the current regulations are not clearly articulated to importers, and nor are they consistently applied. As a result there are delays in getting goods and materials to needy communities. DFID and the international community have been working with the Government of Sri Lanka and NGOs to improve this situation. During my visit to Sri Lanka in June I specifically raised the import tax issue with the Secretary to the Treasury and asked that he issue comprehensive guidance. DFID staff in Colombo will continue to monitor.

## BBC Journalists

**Mark Simmonds:** To ask the Secretary of State for International Development what funding has been awarded to BBC journalists through the Commonwealth Broadcasting Association Department for International Development travel bursary fund in each year since 2000. [9269]

**Mr. Thomas:** Since 2000, BBC journalists have been awarded a total of £45,584 in funding through the Commonwealth Broadcasting Association/DFID travel bursary scheme.

| | £ |
|---|---|
| | *Amount* |
| 2000 | [1]— |
| 2001 | [1]— |
| 2002 | 29,260 |
| 2003 | 10,000 |
| 2004 | 6,324 |

[1] No funding.

## Iraq

**Andrew George:** To ask the Secretary of State for International Development what steps his Department takes to employ Iraqis in development work in that country. [8430]

**Hilary Benn:** DIFD recognises the importance of the involvement of Iraqi individuals, private sector companies and civil society organisations in the reconstruction of their country. We employ Iraqi people wherever appropriate, and stress to other donors and contractors the importance of employing Iraqis on their reconstruction work.

DFID's offices in Baghdad and Basra employ local staff to help manage our programmes, and Iraqi advisers assist in the implementation our Political Participation and Civil Society Funds. Through these funds, DFID helps to finance the work of Iraqi civil society organisations.

DFID's reconstruction programme in southern Iraq also employs Iraqi nationals. For example the Emergency Infrastructure Programme employed 3,000 workers on water supply projects in Basra. DFID consultants have established a database of southern Iraqi companies and experts, which is used by DFID and other donors to identify local capacity to undertake development work. DFID's new £40 million infrastructure project will offer sub-contracting opportunities for Iraqi engineers and construction workers. A DFID-funded employment programme has contracted 1.6 million days for work on local improvement projects.

United Nations agencies working in Iraq, to which DFID is contributing financially, largely employ Iraqi individuals, companies and non-governmental organisations to implement their reconstruction projects.

**Andrew George:** To ask the Secretary of State for International Development what progress has been made in the reconstruction of *(a)* schools and *(b)* hospitals in Iraq. [8432]

**Hilary Benn:** A number of donors are assisting the Iraqi Ministry of Education in school reconstruction projects in Iraq and considerable progress has been made. The United States Agency for International Development (USAID) is undertaking a countrywide programme which has so far rehabilitated over 2,510 schools. United Nations agencies are also carrying out school rehabilitation projects in Baghdad and southern Iraq. The World Bank has agreed an emergency school construction and rehabilitation project to finance the rehabilitation of about 140 schools and the construction of new buildings for about 110 schools which currently have unsafe or overcrowded facilities. The UN and World Bank projects are being financed through the International Reconstruction Fund Facility for Iraq, to which DFID has contributed £70 million. The UN, the World Bank, and USAID are also assisting with the provision of essential educational supplies, including textbooks and furniture.

The Iraqi Ministry of Health is leading on the rehabilitation of health services in Iraq, working closely with international agencies including the World Health Organisation (WHO). The Ministry of Health reports

that more than 75 hospitals and nearly all the primary care clinics which were damaged or looted during and after the 2003 conflict have been rehabilitated. Further work to construct and rehabilitate hospitals in Iraq is under way, and health services are gradually improving. More than $1 billion has been pledged by donors in support to the health sector. United States agencies are renovating 20 hospitals and constructing a new Paediatric Hospital in Basra, and the Japanese Government is funding the rehabilitation of 11 general hospitals. The World Bank has agreed a $25 million emergency health and rehabilitation project to finance the rehabilitation of emergency services in 12 hospitals. This is being funded from the International reconstruction Fund Facility for Iraq, managed jointly by the UN and World Bank, to which DFID has contributed £70 million.

Despite this considerable investment, it will still take several years for Iraq's education and health sectors to recover fully from the underinvestment and poor management of Saddam Hussein's regime, and approach the standards of service expected in developed countries.

**Andrew George:** To ask the Secretary of State for International Development if he will list the multilateral organisations providing aid and assistance to Iraq to which the UK Government have contributed since January; and how much was contributed to each organisation. [8433]

**Hilary Benn:** Since January 2005, the Government have contributed £358,573 to the United Nations Environment Programme and £10,000,000 to the Red Cross and Red Crescent movement for assistance in Iraq.

**Andrew George:** To ask the Secretary of State for International Development if he will list the contracts won by UK firms since January for reconstruction work in Iraq, broken down by value. [8436]

**Hilary Benn:** DFID-funded contracts for reconstruction in Iraq which have been won by UK firms since January 2005 are as follows:

£

| *Contract title and name of company* | *Current contract value* |
|---|---|
| World Bank Co-ordination Adviser (Enterplan Ltd.) | 142,938 |
| Emergency Public Administration Programme (Adam Smith International Ltd.) | 677,175 |
| Interim Iraq Security Sector Support—Ministry of the Interior (The Crown Agents for Overseas Government and Administrations Ltd.) | 2,260,800 |
| Deputy Security Manager, Baghdad (The Crown Agents for Overseas Government and Administrations Ltd.) | 107,440 |
| Southern Iraq Employment and Services Programme (MOTT Macdonald Ltd.) | 529,544 |
| Procurement of Accommodation Units for DFID projects (The Crown Agents for Overseas Government and Administrations Ltd.) | 99,535 |
| Emergency Response Fund (PA Infrastructure and Development Services (UK) Ltd.) | 427,548 |
| Iraq Infrastructure Services Programme—Procurement Specialist (The Crown Agents for Overseas Government and Administrations Ltd.) | 182,132 |

| Total | 11,400,972 |

Many UK firms have won contracts for reconstruction work in Iraq which have not been funded by the UK Government. British companies are not required to report details to the Government of such work.

### Middle East

**Huw Irranca-Davies:** To ask the Secretary of State for International Development if he will list the joint Israeli-Palestinian development projects that have received UK Government funding in the past five years. [9833]

**Dr. Howells:** I have been asked to reply.

Joint Israel-Palestinian development projects that have received UK Government funding since 2000 are:

Financial year 2003–04: Parents circle project (a series of peace/reconciliation lectures)

Financial year 2005–06: Peres Peace Centre project to train Palestinian school teachers

Financial year 2005–06 (funded until 2008): Management of water resources to reduce pollution risks (joint Israel/Palestinian/Jordanian project)

We have also supported projects with each individual party to promote development and Peace Process objectives.

### Sierra Leone

**Mr. Dismore:** To ask the Secretary of State for International Development if he will make a statement on the progress of debt relief to Sierra Leone. [8276]

**Hilary Benn:** Sierra Leone qualifies for debt relief under the Heavily Indebted Poor Countries (HIPC) initiative. In March 2002 Sierra Leone reached HIPC Decision Point, following production of an interim Poverty Reduction Strategy, which made it eligible for debt relief equivalent to US$600 million in net present value terms, or 80 per cent. of the country's outstanding (foreign) external debt as at the end of 2000.

Under the HIPC initiative, 10 out of 11 Paris club creditors (official bilateral creditors) agreed to provide debt relief to Sierra Leone. This was on Naples terms (equivalent to 65 per cent. debt cancellation/debt stock reduction), although France has agreed to extend relief on Cologne terms (equivalent to 90 per cent. debt cancellation/debt stock reduction). Comparable relief has been provided by non-official commercial creditors.

Additionally, the UK has gone beyond the requirements of the HIPC initiative and has written off 100 per cent. of all bilateral debts owed to it by HIPC countries. In the case of Sierra Leone, this means that debt repayments were suspended at HIPC Decision Point; the stock of debt will be written off at HIPC Completion Point.

The recent agreement by G8 Finance Ministers proposes a further significant reduction in debt payments for HIPC countries. It provides for all HIPC countries to have their International Monetary Fund, World Bank and African Development Fund debts written off after they reach HIPC Completion Point. Decisions on Completion Point are made following a period of implementation of a full Poverty Reduction Strategy (PRS). Sierra Leone's PRS was agreed earlier this year. It is likely that Completion Point will be reached in 2006. The agreement between G8 Finance Ministers will then apply to Sierra Leone.

**Mr. Dismore:** To ask the Secretary of State for International Development if he will make a statement on aid to Sierra Leone. [8277]

**Hilary Benn:** The UK is the largest bilateral donor to Sierra Leone. Our programme of support is set out in a 10-year Agreement with the Government of Sierra Leone (GoSL), signed in November 2002, under which we have committed up to £120 million over its first three years. The main areas of our programme are security sector reform; governance reform including public administration, decentralisation and public financial management; diamond sector reform; anti corruption measures; private sector development and budgetary support.

A particular feature of the Agreement is the inclusion of performance benchmarks, agreed annually between the UK Government and the GoSL, which commit the GoSL to reforms in the areas of focus referred to, in exchange for our support. Quarterly reviews of progress against the performance benchmarks are held with the Sierra Leone authorities.

Earlier this year, the GoSL and the donor community agreed a first full Poverty Reduction Strategy. This will guide future allocation of domestic resources and is the strategy against which donors, including the UK, will re-assess their programmes. The Poverty Reduction Strategy will be discussed between the GoSL and the international community at a Consultative Group meeting to be held later this year.

### Sub-Saharan Africa

**Mr. Clappison:** To ask the Secretary of State for International Development if he will rank EU member states by size of aid to *(a)* sub-Saharan Africa and *(b)* the 15 poorest sub-Saharan countries, expressed in terms of per head of population of donor country. [9771]

**Mr. Thomas:** The table shows that in 2003 (the latest date for which data are available) France, Germany and the UK were the three largest EU donors to sub-Saharan Africa in terms of total official development assistance (ODA). However Luxembourg, Belgium and Denmark gave the greatest amounts of ODA per head of their populations. The UK was the eighth largest donor in the EU on this measure, with £14.95 spent on ODA to sub-Saharan Africa for each person in the UK.

Considering only the 15 poorest countries in sub-Saharan Africa (based on GNI per capita)[1], the largest EU donors in terms of ODA per capita of the donor country were Belgium, Sweden and Luxembourg. The UK ranked ninth.

[1] The 15 poorest countries were: Sierra Leone, Malawi, Tanzania, Burundi, Democratic Republic of Congo, Guinea-Bissau, Ethiopia, Republic of Congo, Madagascar, Niger, Zambia, Nigeria, Mali, Eritrea and Kenya. (nb—no data available for Zimbabwe for 2003.)

*2003*

| | *Total net ODA to sub-Saharan Africa* | | | | *Total net ODA to poorest 15 sub-Saharan African countries* | | |

### Zimbabwe

**Andrew Rosindell:** To ask the Secretary of State for International Development what his assessment is of the consequences of famine for the Zimbabwean economy. [8542]

**Hilary Benn:** The large food production shortfall this year will result in even faster contraction of the economy in 2005, as well as increased pressure on very limited foreign exchange to pay for food imports.

High food prices and, in some places, lack of food supplies is likely to lead to widespread hunger but is unlikely to result in a famine. Recent assessments by organisations working at community level suggest that malnutrition is not presently high by emergency standards, but could become worse as many more people run out of food in coming months. By far the highest cause of death in Zimbabwe is HIV/AIDS, which kills more than 3,200 people per week.

Food shortages and HIV/AIDS will sadly affect the medium and longer-term capacity for economic growth in Zimbabwe in a range of ways. These include higher levels of school drop-outs, lack of funds to purchase inputs for the next planting season, nutritional impact on children affecting their future capacity to be productive, and women being forced into trading sex for food with the risk of further HIV transmission. DFID will continue to work with vulnerable groups to mitigate these negative consequences.

## DEFENCE

### Armed Forces Personnel

**Mr. Laws:** To ask the Secretary of State for Defence what the manpower levels of the *(a)* Royal Navy and *(b)* Royal Air Force are; and if he will make a statement. [9297]

**Mr. Touhig:** On 1 May 2005, the trained strength of the Regular Naval Service was 35,280. This represents a deficit of 2,770. In a briefing on the restructuring of the armed forces on 13 May this year, it was announced that RN trained requirement will reduce by some 1,500 to 36,000 by 2008.

On 1 May 2005, the trained strength of the Regular RAF was 48,760. This represented a surplus of 360 against the requirement. As part of the restructuring of the armed forces announced in this House on 21 July last year, it is planned to reduce RAF trained manpower to around 41,000 by April 2008.

UK regular forces includes Nursing Services and excludes Full Time Reserve Service personnel, mobilised reservists and Naval Activated reservists.

### Combat Vehicles (Manufacturing Capabilities)

**Mr. Jack:** To ask the Secretary of State for Defence what capabilities the UK has to manufacture *(a)* manned and *(b)* unmanned vehicles with stealth characteristics. [6831]

**Mr. Ingram:** The UK aerospace industry has a developing capability to incorporate stealthy techniques into the development and manufacture of manned and unmanned air vehicles. For security reasons we would not wish to comment on the detail of these techniques.

### Iraq

**Miss McIntosh:** To ask the Secretary of State for Defence if he will make a statement on the security situation in Iraq. [9570]

**John Reid:** Insurgents continue in their efforts to destabilise progress in Iraq. Although attacks continue, the numbers of these attacks have declined since the elections in January, with the majority confined to four out of 18 provinces in Iraq. The Iraqi Security Forces are conducting, both independently and with coalition support, an increasing number of counter-insurgency operations.

### Marine Noise Pollution

**Mr. Hancock:** To ask the Secretary of State for Defence (1) what recent representations he has received on the effects of marine noise pollution in UK waters generated by the activities of UK defence forces, with particular reference to Sonar 2087, on *(a)* marine mammals and *(b)* other marine life; and if he will make a statement; [9101]

(2) what recent research he has *(a)* commissioned and *(b)* evaluated on the effects of marine noise pollution in UK waters generated by the activities of UK defence forces on (i) marine mammals and (ii) other marine life, with particular reference to Sonar 2087; and if he will make a statement. [9102]

**Mr. Touhig:** The Ministry of Defence has an ongoing dialogue with non-governmental organisations (NGOs), members of the public and the media concerning Sonar 2087 and the potential for its effect on the environment. On 29 June 2005, the leader of the team responsible for the development of the Sonar 2087 system met with representatives of various NGOs in order to listen to and address their concerns.

As stated in the answer given by my predecessor to the hon. Member on 1 September 2004, *Official Report*, column 724W, the Ministry of Defence has a sustained programme of research into the effects of active sonar generally. This work is used to inform Environmental Impact Assessments on marine environments in which sonar might be used by the Royal Navy, rather than in the specific context of United Kingdom territorial waters. The environmental assessment reports relating to the Sonar 2087 sea trials conducted in 2002 and 2004 are now available for release and copies will be placed in the Library of the House.

### Meteorological Office

**Malcolm Bruce:** To ask the Secretary of State for Defence what the *(a)* estimated cost and *(b)* outturn cost of building and furnishing the Meteorological Office's Headquarters in Exeter was. [9233]

**Mr. Touhig:** The baseline cost of the Meteorological Office's relocation project (including the move from Bracknell and the relocation of staff) was set at

£98.3 million. The out turn cost was £106.2 million, which included an increase of £6.6 million to cover necessary additions to the original specification, and £1.3 million primarily related to staff relocation costs caused by the very high percentage of staff choosing to relocate.

**Malcolm Bruce:** To ask the Secretary of State for Defence how much the Meteorological Office has *(a)* sought and *(b)* received in (i) loans and (ii) one-off financial support from his Department in each of the last 10 years. [9234]

**Mr. Touhig:** The Meteorological Office became a Trading Fund in 1996. Initial loans provided from the Ministry of Defence to enable the Met Office to vest totalled £37.7 million. This loan was repaid by 2001. No further loans or financial support have been sought by the Met Office since.

**Malcolm Bruce:** To ask the Secretary of State for Defence how much revenue was generated from customers in the public and private sectors by *(a)* the weather centres in (i) Aberdeen, (ii) Belfast, (iii) Birmingham, (iv) Cardiff, (v) London and (vi) Manchester and *(b)* the Meteorological Office headquarters in Exeter in each year since 2000. [9235]

**Mr. Touhig:** The Meteorological Office civil centres are not stand alone business units. They are primarily forecasting production units drawing on, and contributing to, other parts of the Met Office in order to deliver outputs. It is not therefore possible to provide information on revenue generation by individual civil centres.

**Malcolm Bruce:** To ask the Secretary of State for Defence how much money has been provided by the Government to fund the Meteorological Office's National Programme in each year since 2000. [9238]

**Mr. Touhig:** The Meteorological Office is a Trading Fund, and accordingly no voted funds are provided to it by the Government. The Met Office earns revenue by providing customers with products and services they require. The revenue earned from central Government Departments in support of National Programmes (comprising the National Met Programme, Public Weather Services, Climate Research and Defence Services) is as follows:

| *Financial Year* | *£ million* |
|---|---|
| 2004–05 | 118 |
| 2003–04 | 113 |
| 2002–03 | 109 |
| 2001–02 | 107 |
| 2000–01 | 104 |

*Source:*
Met Office Annual Report and Accounts

## TRANSPORT

### A21

**Gregory Barker:** To ask the Secretary of State for Transport what representations he has received regarding the issuing of draft orders for the proposed upgrade of the A21. [8441]

**Dr. Ladyman:** The Highways Agency has not received any representations about the issuing of draft orders for the proposed A21 improvement schemes as none have yet been published. The priorities for the A21 improvement schemes are subject to advice by regional stakeholders.

### EU Working Hours Restrictions

**Mr. Todd:** To ask the Secretary of State for Transport what representations he has made to the EU on ensuring that the implementation of working hours restrictions in the transport sector is monitored in each EU member state. [3869]

**Dr. Ladyman:** We are aware that a number of member states have not yet implemented Directive 2002/15/EC on the organisation of the working time of persons performing mobile road transport activities. My Department has raised this with the Commission and understand that proceedings have been started against those member states.

### HGV Lanes

**Mr. Greg Knight:** To ask the Secretary of State for Transport if he will assess the merits of constructing heavy goods vehicles (HGV) crawler lanes along appropriate stretches of the M1 motorway coupled with restricting HGV's using lanes other than the crawler lane and the inside one as a means of reducing motorway congestion; and if he will make a statement. [9319]

**Dr. Ladyman:** The Highways Agency currently have no plans to construct heavy good vehicle (HGV) crawler lanes on the M1 motorway. However, they are intending to run a trial on the M42 in the West Midlands between junctions 10 and 11 northbound, that will restrict HGVs over 7.5 tonnes from using the outer lane of this two lane stretch of the motorway. The results from the trial will determine whether this measure should be deployed more widely.

The agency does have plans to construct crawler lanes at four locations elsewhere on the motorway network. These are at M27 junction 11 to 12, M5 junction 17 to 18A Northbound, M5 junction 19 to 20 southbound and M5 junction 19 to 20 northbound. However, at present there are no plans to restrict HGVs from using lanes other than the crawler lanes.

### Large Vehicle Tests

**Annette Brooke:** To ask the Secretary of State for Transport what representations he has received on the effectiveness of the Large Goods Vehicle and Passenger Carrying Vehicle Hazard Perception Test; and if he will make a statement. [8562]

**Dr. Ladyman:** We have recently received a representation from an instructor questioning the Hazard Perception assessment which learner lorry and bus drivers must satisfy to a suitable standard as part of their driving test.

The Hazard Perception Test was introduced in November 2002 for all categories of learner driver. It assesses competence at recognising hazards as they develop on the road. Research has identified this as a

key road safety skill linked to accident liability. Acknowledging their greater responsibilities, the pass mark for lorry and bus drivers is set higher than that for car drivers.

Hazard perception testing was introduced with the support of bodies representing the road freight and passenger transport industries, as well as road safety and driving instruction interests.

### Light Rail

**Mr. Duncan:** To ask the Secretary of State for Transport pursuant to the answer of 29 June 2005, *Official Report*, column 1554W, if he will estimate the amount of public sector finance spent on construction of light rail schemes in *(a)* Manchester, *(b)* Liverpool, *(c)* Leeds and *(d)* Portsmouth. [9505]

**Mr. Darling:** Around £150 million of public sector finance funded Manchester Metrolink phase I. Around £160 million of public sector finance funded Manchester Metrolink phase II. Around £199 million of public sector finance has been spent on Manchester Metrolink Phase III. Of this, £42 million was used for advance works, and £38 million was used for land purchase.

Around £36 million of public sector finance has been spent on Merseytram. Of this, around £16 million has been spent on utilities and construction work.

Around £39 million of public sector finance has been spent on Leeds Supertram. Of this, around £5 million has been spent on construction costs with around a further £14 million on land and property purchase.

Around £10 million of public sector finance has been spent on the South Hampshire Rapid Transit scheme. Of this, around £1.5 million spent on land purchase.

### Motorcycle Parking (London)

**Mr. Swire:** To ask the Secretary of State for Transport what recent discussions he has had with the Mayor of London on increasing the number of parking bays in London for motorcycles. [9880]

**Ms Buck:** The Mayor now has overall responsibility for traffic management in London. However, responsibility for parking in London generally rests with the relevant borough. It is a matter for individual boroughs to decide on the nature and scope of parking provision and control and to balance the needs of residents, emergency services, local business and those who work in and visit the area. Ministers have regular meetings with the Mayor at which a wide range of transport matters are discussed.

### Out-of-town Shopping Centres

**Lynne Jones:** To ask the Secretary of State for Transport what assessment he has made of the impact on traffic levels of the *(a)* expansion of out-of-town shopping centres and *(b)* reduction of local post offices, local bank branches and independent retail shops over the last 10 years. [9506]

**Ms Buck:** As set out in the Office of the Deputy Prime Minister's Planning Policy Statement 6: Planning for Town Centres, published in 2005 it is for local planning authorities, when selecting appropriate sites for allocation, to have regard to whether a new site is or will be accessible and well served by a choice of means of transport, especially public transport, walking and cycling, as well as by car; and the level of impact on car use, traffic and congestion.

My Department has made no assessment of the impact on traffic levels of the expansion of out-of-town shopping centres, reduction of local post offices, local bank branches and independent retail shops over the last 10 years. However, all applications for development are subject to the provisions set out in DTLR Circular 04/2001, "Control of Development Affecting Trunk Roads and Agreements with Developers under Section 278 of the Highways Act 1980". Under these provisions the Highways Agency requires detailed assessments of the traffic impacts of planning applications, including applications for new retail developments, which potentially impact on the trunk road network. In addition, Planning Policy Guidance Note 13: Transport, published in 2001 requires that, where developments will have significant transport implications, transport assessments should be prepared and submitted alongside the relevant planning application so that planning authorities can better assess the application.

### Press Officers

**Mr. Burstow:** To ask the Secretary of State for Transport how many press officers the Department and its predecessors employed in each year since 1997; and what the cost was in each year. [8132]

**Ms Buck:** The average number of full-time equivalent press officers employed by DfT and their cost for the years 2002–03 to 2004–05 broken down between the central department and the agencies is:

*Press officers*

| | *2002–03* | *2003–04* | *2004–05* |
|---|---|---|---|
| Transport (Central) | 12.71 | 13.8 | 13.8 |
| Driving Standards Agency | 2.0 | 2.0 | 2.0 |
| Driver and Vehicle Licensing Agency | 7.0 | 7.0 | 7.5 |
| Highways Agency | 6.0 | 6.0 | 6.0 |
| Maritime and Coastguard Agency | 2.0 | 2.0 | 2.0 |
| Vehicle Certification Agency | 0.0 | 0.0 | 0.0 |
| Vehicle and Operator Services Agency | 1.0 | 1.0 | 2.0 |

*£ million*

| | *2002–03* | *2003–04* | *2004–05* |
|---|---|---|---|
| Transport (Central) | [1]0.51 | 0.70 | 0.70 |
| Driving Standards Agency | 0.04 | 0.06 | 0.06 |
| Driver and Vehicle Licensing Agency | 0.14 | 0.15 | 0.18 |
| Highways Agency | 0.21 | 0.22 | 0.23 |
| Maritime and Coastguard Agency | 0.08 | 0.09 | 0.11 |
| Vehicle Certification Agency | 0.00 | 0.00 | 0.00 |
| Vehicle and Operator Services Agency | 0.02 | 0.02 | 0.04 |

[1] Covers the 10-month period from the creation of the department in late May 2002.

*Note:*

Agency figures are for the full year.

Information for each of the financial years between 1997 and 2002, when transport policy formed part of the remit of the former Department of Environment, Transport and the Regions and Department for Transport, Local Government and the Regions, is not available in a comparable format.

Detailed information on the numbers of permanent press officers employed in central departmental press offices, including the former Department of Transport (DoT) for the financial year 1996–97, was provided in a memorandum dated 16 June 1998 to the Select Committee on Public Administration and published in its report on the Government Information and Communication Service (HC 770) in July 1998 (http://www.publications.parliament.uk/pa/cm199798/cmselect/cmpubadm/770/77002.htm).

Staff numbers and costs for press officers in the Department's agencies in 1997–98 can be provided only at disproportionate cost.

## Roads

**Gregory Barker:** To ask the Secretary of State for Transport what steps have been taken by the Highways Agency to evaluate the environmental impacts of route improvements to the A21. [8443]

**Dr. Ladyman:** The environmental impact of all motorway and trunk road improvement schemes is evaluated and assessed as required under of the Highways (Assessment of Environmental Effects) Regulations 1999 and in accordance with the Highways Agency's Design Manual for Roads and Bridges (DMRB) Volume 5 "Assessment and Preparation of Road Schemes", Volume 10 "Environmental Design", and Volume 11 "Environmental Assessment". Improvements to the A21 are subject to these procedures, and includes consultation with the statutory environmental bodies, whose comments and concerns are taken on board where possible.

**Mr. Amess:** To ask the Secretary of State for Transport if he will make a statement on the effect of his recent announcement on road pricing on existing schemes in place on toll *(a)* roads, *(b)* bridges and *(c)* tunnels with particular reference to the planned extension of the M6 toll road to Manchester. [8589]

**Dr. Ladyman:** In line with its manifesto commitment, the Government are examining the potential of moving away from the current system of motoring taxation towards a national system of road pricing. The issue of how this would interact with tolling concessions would need careful consideration in any scheme design.

**Gregory Barker:** To ask the Secretary of State for Transport what guidance he gives to the Highways Agency on assessing road improvement schemes associated with accident block spots. [8451]

**Dr. Ladyman:** All Highways Agency improvement schemes are assessed against the five criteria outlined in the Government's New Approach To Appraisal (NATA): safety, economy, environment, accessibility and integration.

The safety and economic benefits of a scheme are calculated according to the methodology given in the Cost Benefit Analysis (COBA) manual (Design Manual for Roads and Bridges Vol. 13). This takes account of the latest data on accident rates, and their costs. The methodology estimates the reduction in number of personal injury accidents due to the proposed road improvement.

The COBA manual is published by The Stationary Office. Advice regarding the application of NATA is included in "Applying the New Multi-modal Approach to Appraisal to Highway Schemes" (known as "The Bridging Document") published by the Department for Transport and available on their Transport Analysis Guidance website, WebTAG www.webtag.org.uk.

## Safety Cameras

**Mr. Michael Foster:** To ask the Secretary of State for Transport how many personal injury collisions, including collisions involving fatalities, occurred at the site of each fixed speed camera in the Worcester constituency in the year *(a)* before and *(b)* after installation of each. [8971]

**Dr. Ladyman:** The Department does not hold or record this information on a constituency basis. The information requested will be available from the West Mercia Safety Camera Partnership. They can be contacted via their website at www.speedaware.org.uk.

## Seafarers

**Mr. Hancock:** To ask the Secretary of State for Transport how many UK citizens are employed as seafarers on UK registered ships, broken down by *(a)* officers and *(b)* crew. [8611]

**Dr. Ladyman:** We do not keep separate records of the numbers of UK seafarers by the flag state of the ship on which they are employed. The estimated numbers of UK merchant navy officer and ratings are as follows.

| | *2004* |
|---|---|
| Officers | 15,800 |
| Ratings | 9,600 |
| Total | 25,400 |

*Notes:*

1. Officer and ratings estimates comprise deck, engine, technical and hotel/catering grades. Cadets are excluded.

2. Estimates for 2004 are taken from "UK Seafarer Statistics", published by DfT.

**Mr. Hancock:** To ask the Secretary of State for Transport how many seafarer officers *(a)* have been trained and *(b)* are in training, since the introduction of the tonnage tax. [8612]

**Dr. Ladyman:** A tonnage tax company is required to recruit and train one officer trainee each year for every 15 officer posts in its fleet. The approved cumulative training commitment for each year that the scheme has operated is in the following table.

| | Approved CTC |
|---|---|
| 2000–01 | 70 |
| 2001–02 | 365 |
| 2002–03 | 762 |
| 2003–04 | 1,094 |
| 2004–05 | [1]1,275 |

[1] with one return outstanding

### Tonnage Tax Scheme

**Mr. Hancock:** To ask the Secretary of State for Transport what the minimum requirements are for a company to take part in the tonnage tax scheme; what the mechanisms are for checking compliance; and if he will make a statement. [8615]

**Dr. Ladyman:** A company can take part in tonnage tax if:

it is within the charge to corporation tax,

it operates qualifying ships, and

those ships are strategically and commercially managed in the United Kingdom.

HM Revenue and Customs apply the same compliance standards to tonnage tax as they do to the rest of the tax regime.

A unique feature of the UK's tonnage tax system is the minimum training obligation, which requires each tonnage tax company to recruit and train one officer trainee each year for every 15 officer posts in its fleet. Before electing to enter tonnage tax, each company or group must first obtain approval from the Department for Transport for a Core Training Commitment (CTC) which shows how they intend to meet the minimum training obligation. Achievement of the CTC is monitored from reports submitted to DfT every four months.

## WORK AND PENSIONS

### Child Support Agency

**David T.C. Davies:** To ask the Secretary of State for Work and Pensions when people paying 34 per cent. of their income to the Child Support Agency for the upkeep of two children will have their contributions reduced to the 20 per cent. stipulated under new Child Support Agency guidelines; and if he will make a statement. [5234]

**Mr. Plaskitt** *[holding answer 20 June 2005]:* A new Chief Executive of the Agency has recently taken up post. He will be reporting to Ministers over the summer on proposals to improve the agency's performance.

Changes to the levels of contributions in old scheme cases as a result of conversion to the new scheme will only be made once we are sure both the system and business processes are robust.

### Sign Language and Lip-speakers

**Malcolm Bruce:** To ask the Secretary of State for Work and Pensions how much financial support the Government have provided for *(a)* sign language interpreters and *(b)* lip-speakers in each year since 1997. [928]

**Mrs. McGuire:** This information is not held centrally.

## FOREIGN AND COMMONWEALTH AFFAIRS

### Departmental Antiques

**Mr. Hayes:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the non-furniture antiques classified by his Department as an asset. [9044]

**Mr. Straw:** This information is not readily available without a disproportionate amount of data analysis.

### European Union

**Kate Hoey:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the projected *(a)* gross and *(b)* net UK contributions to the EU budget for each year are in the period 2006 to 2013 with (i) the UK abatement calculated on the existing formula and (ii) the UK abatement calculated according to the method proposed by the Luxembourg presidency during the European Council summit. [9908]

**Mr. Ivan Lewis:** I have been asked to reply.

As the Prime Minister explained in his statement to the House on 20 June 2005, the final Luxembourg proposal on Own Resources tabled at the June 2005 European Council would have cost the UK an estimated €25 billion over the next Financial Perspective (2007–13). This would have been the effect on both the UK net contribution and gross contribution post abatement, in commitment terms at 2004 prices compared to the current Own Resources system. These estimates are based on Treasury calculations.

### Iran

**Mark Simmonds:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of reports of ballot rigging in the Iranian election; and if he will make a statement. [9267]

**Dr. Howells:** Senior members of the Iranian Government and election officials, as well as several of the candidates, have complained of widespread interference, including by the security forces. We have made clear our concern, which is widely shared in the EU and elsewhere. The EU has also expressed regret that a large majority of candidates, including many reformists and all the women, were excluded from the elections, making a genuine democratic choice difficult. We continue to urge the Iranian Government to allow its citizens to benefit from the full range of democratic freedoms and human rights.

### Israel

**Huw Irranca-Davies:** To ask the Secretary of State for Foreign and Commonwealth Affairs what consideration his Department has given to providing support to the Hand in Hand Centre for Jewish and Arab Education in Israel. [9851]

**Dr. Howells:** We are impressed by the proposed projects for expanding the impact of bilingual, multicultural Arab-Jewish education in Israel run by the Hand in Hand Centre for Jewish and Arab Education. We are currently considering providing support.

### Middle East

**Mark Lazarowicz:** To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the cost of damage caused to projects funded by the European Union in Gaza and the West Bank as a result of actions by *(a)* the Israeli security services and *(b)* other groups active in the area. [9783]

**Dr. Howells:** Volume 2 of the International Development Committee report on Development Assistance and the Occupied Palestinian Territories, published in February 2004, gives the estimated figure for "physical damages inflicted by Israel Defence Force attacks to EU funded development projects" as just under £25 million. This covers the period May 2001 to February 2004. We are not aware of any estimates made since February 2004.

We are not aware of any estimate being made for damage to EU funded projects caused by the actions of other groups in the area.

**Huw Irranca-Davies:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his assessment is of the contribution of joint Jewish-Arab educational projects to peace-making between Israeli and Palestinians. [9852]

**Dr. Howells:** Any initiatives which encourage Israelis and Palestinians to work together as partners for peace, and encourage mutual respect and understanding, are welcome. We therefore welcome the contribution of joint Jewish-Arab educational projects to peace-making between Israelis and Palestinians.

**Huw Irranca-Davies:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his assessment is of the threat posed by Hezbollah to the relationship between Israel and the Palestinian Authority. [9854]

**Dr. Howells:** Terrorist attacks by Hezbollah, and the Palestinian rejectionist groups it supports, risk disrupting relations between the Palestinian Authority and Israel and cause many innocent casualties. These groups must cease terrorist attacks forthwith.

**Huw Irranca-Davies:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his latest assessment is of the compliance with Security Council Resolution 1559 of *(a)* Hezbollah and *(b)* Syria. [9855]

**Dr. Howells:** The UK supports full implementation of UN Security Council Resolution (UNSCR) 1559, including the disarmament of Hezbollah. We acknowledge that this is a complex issue and one that must be a Lebanese-led process. We stand ready to support the new Lebanese Government with the implementation of UNSCR 1559.

As required by UNSCR 1559, Syria has withdrawn its troops from Lebanon and we await the report of the UN Secretary-General's UN verification team to Lebanon to assess the presence of Syrian troops and intelligence personnel. The UK believes that Syria can play a more positive role in the full implementation of UNSCR 1559.

**Huw Irranca-Davies:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his assessment is of the threat posed by Hamas to the prospects for Abu Mazen fulfilling commitments on security, economic and political reform made at the London Meeting in March. [9856]

**Dr. Howells:** Hamas's involvement in terrorism disrupts relations between the Palestinian Authority and Israel and causes many innocent casualties. Such actions undermine Palestinian President Abbas' authority and the Palestinian Authority's ability to meet its commitments on security, and economic and political reform made at the London meeting.

The UK notes the commitment made by Hamas, and other Palestinian groups, to President Abbas in Cairo in March to adopt a conditional cease-fire until the end of 2005. The UK calls for Hamas to go further and renounce violence for good, and choose participatory politics as the only means of working towards a lasting peace in the Middle East.

### Moldova

**Mr. Hancock:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to facilitate a British Council presence in Moldova. [9434]

**Mr. Straw:** The British Council currently covers Moldova from its office in Romania, from where, among other things, it manages scholarship programmes for Moldavians, conducts English language testing and arranges arts events for Moldova in conjunction with the British embassy. In addition the Council has a library close to the Moldovan border which serves around 500 Moldovan students.

If a British Council presence in Moldova became desirable, taking into account demand, resources and competing pressures, the Foreign and Commonwealth office would assist as appropriate.

### Morocco

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will intercede in the cases of the Saharawi activists held in Moroccan jails. [9769]

**Dr. Howells:** We are aware of recent reports regarding the arrest and subsequent detention of Saharawi activists following demonstrations in Western Sahara. In our capacity as EU President, the UK will discuss this issue with EU partners and agree appropriate action.

### Organisation for the Prevention of Chemical Weapons

**Lynne Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 22 June 2005, *Official Report*, column 1081W, what assessment he has made of the reasons that damages were awarded to the former Director General of the Organisation for the Prevention of Chemical Weapons, other than for loss of earnings. [9642]

**Dr. Howells:** Following the original judgment of the International Labour Organisation Administrative Tribunal (ILOAT) and the subsequent review of the level of damages awarded, requested by the Organisation for the Prohibition of Chemical Weapons (OPCW) with the support of States Party, which resulted in a reduced award to Mr. Bustani for material damages, the UK and other States Party accepted the judgment and supported OPCW's payment of the award, since ILOAT judgments are final.

### Palestine

**Huw Irranca-Davies:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the postponement of Palestinian elections. [9853]

**Dr. Howells:** We support the efforts of Palestinian President Abbas to ensure that a credible election system is in place, and encourage the Palestinian Authority to complete the implementation of the remaining recommendations from the European Commission's Observation Mission. That said, we hope that the elections will take place as soon as possible with minimum slippage from the original time frame. We look forward to free, fair and credible Palestinian elections.

### Shell

**Mr. Llwyd:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will meet representatives of overseas community organisations to discuss concerns about the social and environmental consequences of Shell's operations in *(a)* Nigeria, *(b)* South Africa, *(c)* the Philippines, *(d)* Brazil and *(e)* Russia. [9182]

**Ian Pearson:** There are no plans for my right hon. Friend the Foreign Secretary to meet any such overseas representatives. Questions about Shell's operations in other countries are for the company to answer.

The Foreign and Commonwealth Office is however in regular contact with Shell and other energy companies across all aspects of their corporate performance, including corporate social responsibility. This includes the UN Global Compact, the Extractive Industries Transparency Initiative and the Voluntary Principles on Security and Human Rights.

### UN Convention Against Corruption

**Alan Simpson:** To ask the Secretary of State for Foreign and Commonwealth Affairs when the UK expects to ratify the United Nations Convention Against Corruption. [9243]

**Ian Pearson:** The Government hope to be in a position to ratify the UN Convention against Corruption by the end of this year.

### United Nations

**Chris Huhne:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many members of the United Nations are full or partial democracies; and how many there were *(a)* 10 years ago and *(b)* 20 years ago. [9894]

**Dr. Howells:** There is no commonly agreed, objective means of measuring whether a country is a full or partial democracy. However, certain NGOs, such as Freedom House, and academic institutions, such as the University of Maryland, assess annually the performance of countries against a range of indicators, which together provide some measure of how well a country's democracy is functioning. We draw on these and other resources to assess trends and estimate that from 1975 to 2005, the number of democracies in the world has increased from around 40 to over 140. These countries are not all full democracies, but exhibit at least some characteristics of a democracy. We welcome this trend.

### Visa Applications

**Mike Gapes:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many visit visa applications made in July 2004 have yet to be finally concluded, including appeal proceedings; and if he will make a statement. [9670]

**Dr. Howells:** UKvisas hold no statistics on the number of visit visa applications made in July 2004 that have yet to be concluded because of an outstanding appeal.

**Mike Gapes:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the length of time taken by the British high commission, Islamabad to process a visa application from the time the application is received by Gerry's/FedEx until the person receives a visa or a refusal. [9447]

**Dr. Howells:** Gerry's/FedEx aims to deliver visa applications submitted to their offices to the visa section of the British high commission, Islamabad on the following day.

Once in receipt of the applications, the British high commission in Islamabad aims to decide all straightforward non-settlement visa applications within seven working days and all straightforward settlement applications within 12 weeks of receiving the application there.

## CONSTITUTIONAL AFFAIRS

### Administration of Estates (Small Payments) Act

**Mr. Vaizey:** To ask the Minister of State, Department for Constitutional Affairs if she will raise the current threshold of £5,000, set under the Administration of Estates (Small Payments) Act 1965, for the repayment of investments to personal representatives of the deceased without a grant of probate. [9680]

**Bridget Prentice:** Currently, there are no plans to raise the threshold.

### Asylum Seekers (Legal Aid)

**Mr. Jim Cunningham:** To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on the review which the Legal Service Commission has announced on legal aid services provided to asylum seekers. [9757]

**Bridget Prentice:** In most areas of the country there are an adequate number of suppliers and the LSC acts to ensure that any local gaps in supply are addressed as quickly as possible. The LSC is undertaking a needs analysis exercise to further match supply to demand. Since the changes were introduced, the number of firms and organisations undertaking this work has fallen, but during 2004–05 the net reduction was less than 10 per cent. This is in the context of a significant fall in asylum numbers from a peak of over 84,000 to 32,000 in 2004–05.

**Mr. Jim Cunningham:** To ask the Minister of State, Department for Constitutional Affairs what plans her Department has to evaluate the new funding arrangements for legal aid services on asylum and immigration issues which came into effect in April 2004. [9758]

**Bridget Prentice:** There is now sufficient information available to commence an analysis of the impact of the changes made to the asylum and immigration legal aid arrangements in April 2004. DCA officials will be working with the Legal Services Commission (LSC), Home Office and the Asylum and Immigration Tribunal to look at the impact on the asylum and immigration system as a whole. The operation of the new cost controls was subject to a review involving key stakeholders from the legal professions in July 2004.

**David Davis:** To ask the Minister of State, Department for Constitutional Affairs what the cost was of legal aid for asylum and immigration cases in each year since 1997. [9593]

**Bridget Prentice:** The legal aid expenditure[1] for asylum and immigration cases in each year since 1997 are as follows:

| | *£ million* |
|---|---|
| 1996–97 | 26.1 |
| 1997–98 | 35.2 |
| 1998–99 | 53.3 |
| 1999–2000 | 61.4 |
| 2000–01 | 81.1 |
| 2001–02 | 129.4 |
| 2002–03 | 176.2 |
| 2003–04 | 203.0 |

[1] It is now practice to quote expenditure/budgets in resource terms. However, since the question covers years prior to the adoption of resource accounting the answer has been given in cash terms for the purpose of continuity.

Before April 2003 there was no separate, specific budget set for expenditure on immigration and asylum matters. In co-operation with the Home Office, we set up a Single Asylum Fund (SAF) to improve overall control of immigration spend. The figures given above for expenditure in that year form part of the SAF budget.

**David Davis:** To ask the Minister of State, Department for Constitutional Affairs what the cost was of legal aid for asylum and immigration cases in each year since 1997. [9593]

**Bridget Prentice:** The legal aid expenditure[1] for asylum and immigration cases in each year since 1997 are as follows:

| | *£ million* |
|---|---|
| 1996–97 | 26.1 |
| 1997–98 | 35.2 |
| 1998–99 | 53.3 |
| 1999–2000 | 61.4 |
| 2000–01 | 81.1 |
| 2001–02 | 129.4 |
| 2002–03 | 176.2 |
| 2003–04 | 203.0 |

[1] It is now practice to quote expenditure/budgets in resource terms. However, since the question covers years prior to the adoption of resource accounting the answer has been given in cash terms for the purpose of continuity.

Before April 2003 there was no separate, specific budget set for expenditure on immigration and asylum matters. In co-operation with the Home Office, we set up a Single Asylum Fund (SAF) to improve overall control of immigration spend. The figures given above for expenditure in that year form part of the SAF budget.

### Court Apparel

**Mr. Purchase:** To ask the Minister of State, Department for Constitutional Affairs if she will issue guidance to the courts regarding acceptable dress for barristers appearing in court in order to discourage barristers from wearing wigs and gowns. [9371]

**Ms Harman:** The wearing of wigs and gowns in court by barristers is already governed by guidance in the form of Practice Directions made by the Lord Chancellor.

The Lord Chancellor has no immediate plans to make further directions, prior to the implementation of Constitutional Reform Act 2005 and the Concordat planned for April of next year.

### Legal Aid

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs whether it is her intention that decisions on means-testing for criminal legal aid can be made on the day of the relevant court appearance, under the provisions of the Criminal Defence Service Bill. [9774]

**Bridget Prentice:** Under the proposed scheme empowered by the Criminal Defence Service Bill, a decision on means testing may be made at any time from the commencement of the case onwards, including on the day of appearance in court.

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs whether she plans to introduce a test for compliance with means-testing for criminal legal aid similar to that used for civil legal aid. [9775]

**Bridget Prentice:** Along with the means test for civil legal aid, the criminal means test proposed under the Criminal Defence Service Bill would be subject to a declaration that the evidence supplied is true and complete. Claims may be investigated by the Legal Services Commission that given information is indeed

truthful, complete and accurate. This investigation would take a similar form to that of the investigation for claims for civil legal aid.

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs whether she plans to give solicitors responsibility for *(a)* processing claims for legal aid and *(b)* obtaining documentary evidence under the means-testing provisions in the Criminal Defence Service Bill. [9776]

**Bridget Prentice:** Under the new scheme proposed by the Criminal Defence Service Bill, solicitors would not be responsible for processing claims for legal aid. This will be the responsibility of the Legal Services Commission. In practice however, the Commission would delegate this authority to grant teams within the courts who will carry out this function under a service level agreement between Her Majesty's Court Service and the Legal Services Commission. Solicitors may wish to assist their clients in completing the application forms, as defendants will be covered for this under the Advice and Assistance scheme.

Evidentiary requirements would be simplified under the proposed scheme. It would be the responsibility of the defendant to produce no more than a single wage slip or bank statement confirming their income. The new scheme will be transparent and administratively simple.

## NORTHERN IRELAND

### Child Support Agency

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland if he will make a statement on the operation of the Child Support Agency in Northern Ireland. [9526]

**Mr. Hanson:** The agency produces an annual report and accounts, which provides detailed information on its performance against both ministerial and internal targets. The agency's report for 2004–05 will be laid in both the House of Commons and the Northern Ireland Assembly on 14 July 2005. Following this, the report will be available in the public domain.

### Driving Standards

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what qualifications are required to be an examiner of those who are approved driving examiners; and what plans he has to review those requirements. [9829]

**Angela E. Smith:** Initial assessment of driving examiners is carried out by the Driver and Vehicle Testing Agency's (DVTA) Supervising Examiners (SEs). This is followed by training and assessment by the Driving Standards Agency's (DSA) trainers at Cardington.

DVTA SEs are selected through internal promotion procedures. Candidates undergo initial screening, followed by a seven-week course in Cardington, which includes learning, coaching and assessment techniques. The selection process for Cardington trainers includes assessment of presentation skills, in-car instruction and classroom sessions and is followed by a three-week training course.

The agency's process for assessing driving examiners and SEs is based on the DSA model. There are currently no plans to review these requirements.

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what the driving test pass rate for each test centre in Northern Ireland was in each of the last five years. [9828]

**Angela E. Smith:** The driving test pass rate for tests carried out at each of the Driver and Vehicle Testing Agency's centres is provided in the following table.

*Percentage*

| *Centre* | *2000* | *2001* | *2002* | *2003* | *2004* | *2005 to date* |
|---|---|---|---|---|---|---|
| Armagh | 54 | 48 | 52 | 54 | 57 | 54 |
| Ballymena | 49 | 49 | 46 | 44 | 40 | 43 |
| Belfast Balmoral | 39 | 41 | 34 | 37 | 32 | 36 |
| Belfast Castlereagh | 35 | 46 | 42 | 41 | 37 | 39 |
| Coleraine | 53 | 49 | 52 | 48 | 47 | 49 |
| Cookstown | 58 | 46 | 50 | 47 | 52 | 54 |
| Craigavon | 51 | 44 | 45 | 45 | 52 | 54 |
| Downpatrick | 62 | 60 | 60 | 59 | 65 | 58 |
| Enniskillen | 68 | 66 | 64 | 67 | 57 | 59 |
| Larne | 56 | 45 | 42 | 42 | 38 | 41 |
| Lisburn | 56 | 49 | 44 | 45 | 38 | 37 |
| Londonderry | 56 | 45 | 46 | 46 | 42 | 40 |
| Newry | 58 | 51 | 51 | 55 | 56 | 57 |
| Newtownards | 60 | 56 | 53 | 54 | 52 | 53 |
| Omagh | 56 | 50 | 50 | 56 | 55 | 57 |
| Overall Pass Rate | 53 | 48 | 47 | 47 | 47 | 38 |

### Housing Benefit

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what is the average time taken by the Northern Ireland Housing Executive to process housing benefit applications in Northern Ireland was in 2004–05. [9522]

**Mr. Hanson:** The average time taken by the Northern Ireland Housing Executive to process housing benefit applications in Northern Ireland at May 2005 is as follows:

37.61 days for a new application

5.18 days for a change in circumstances in an existing case

91.4 per cent. of claims were processed within 14 days of receipt of all necessary evidence/information.

### Police Service

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many civilians are employed by the Police Service of Northern Ireland, and in what categories of employment. [7827]

**Mr. Woodward:** In June the Police Service of Northern Ireland employed the equivalent of 3,475 civilians. These can be broken down as follows.

| Category | Main grant | Main grant agency | Patten funded | Patten funded agency | Other funded | Other funded agency |
|---|---|---|---|---|---|---|
| Accident Investigator | — | 1 | — | — | — | — |
| Accounting Technician | 5 | — | — | — | — | — |
| Admin Assistant | 493.25 | 125.5 | — | — | 2 | 1 |
| Admin Officer | 464.25 | 28.75 | 1 | — | 3 | 1 |
| Ancillary | 22.5 | — | — | — | — | — |
| Architectural Liaison Officer | — | 1 | — | — | — | — |
| Armourer Technical Grade 2 | 4 | — | — | — | — | — |
| Assistant Secretary Grade 5 | 1 | — | — | — | — | — |
| Assistant Crime Controller | — | 1.75 | — | — | — | — |
| Assistant Emergency Planner | — | 1 | — | — | — | — |
| Ass. Investigating Officer | — | 53 | — | — | — | — |
| Ass. Solicitor Grade 5 | 1 | — | — | — | — | — |

## Pupil Exclusions

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many pupils were excluded from schools in each education and library board area as a result of violence or threatening behaviour in each of the last three years for which figures are available. [9127]

**Angela E. Smith:** The reasons for suspension were first collected in 2002/03 school year and relate to the number of individual suspensions not the number of pupils suspended. The reason for a suspension is categorised by a school into one often possibilities.

The information on relevant individual suspensions for 2002/03 school year is as follows:

| | BELB | WELB | NEELB | SEELB | SELB | Total |
|---|---|---|---|---|---|---|
| Physical attack on staff | 75 | 99 | 91 | 64 | 36 | 365 |
| Verbal abuse of staff | 385 | 382 | 459 | 366 | 434 | 2,026 |
| Physical attack on pupil | 293 | 392 | 434 | 347 | 387 | 1,853 |
| Verbal abuse of pupil | 17 | 14 | 42 | 49 | 29 | 151 |
| Bullying of pupil | 53 | 52 | 66 | 57 | 61 | 289 |

The detailed suspension data for 2003/04 submitted by the Southern Education and Library Board (SELB) has still to be fully analysed. When this has been done in the near future, I will write to the hon. Member and provide the SELB statistics. The 4-Board information for 2003/04 school year is as follows:

| | BELB | WELB | NEELB | SEELB | SELB | Total |
|---|---|---|---|---|---|---|
| Physical attack on staff | 73 | 72 | 49 | 79 | n/a | 273 |
| Verbal abuse of staff | 473 | 486 | 534 | 352 | n/a | 1,845 |
| Physical attack on pupil | 400 | 353 | 521 | 345 | n/a | 1,619 |
| Verbal abuse of pupil | 22 | 46 | 43 | 23 | n/a | 134 |
| Bullying of pupil | 73 | 64 | 84 | 49 | n/a | 270 |

The reasons for expulsion were first collected in 2003/04 and are available on the Department's website at: www.deni.gov.uk/facts_figures/education_stats/index_other.htm.

The numbers involved are relatively small and are not disaggregated between education and library boards because of the risk that a school/pupil may be identifiable.

## School Buses

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what steps are being taken to improve safety on school buses in Northern Ireland. [9747]

**Angela E. Smith:** Compared to other modes, travelling to school by bus is already a safe means of transport. However, the issue of safety on school buses is currently under consideration by the Department of the Environment in its assessment of the four key recommendations of the Northern Ireland Assembly's inquiry into home to school transport. It is expected that the findings of this work, which is being carried out in partnership with the Department for Regional Development and the Department of Education, will be published later this year.

Furthermore, Education and Library Boards (ELBs) have been working towards the goal of providing seat belts on all new ELB vehicles in accordance with legislative requirements. At current rates this will take at least six years. To date, seat belts have been fitted on 63 per cent. of ELB vehicles.

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many children use education and library board buses on average each day. [9748]

**Angela E. Smith:** In 2004/05 a total of 27,880 pupils were eligible to use Education and Library Board buses each day.

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many accidents involving children on education and library board buses occurred in each of the last five years. [9749]

**Angela E. Smith:** The number of accidents reported to the PSNI, involving pupils on Education and Library Board vehicles in the last five years, is as follows:

| | *Number* |
|---|---|
| 2000 | 4 |
| 2001 | 8 |
| 2002 | 6 |
| 2003 | 8 |
| 2004 | 4 |
| 2005 | [1]4 |

[1] To date

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what estimate he has made of the cost of the removal of the policy of three for two seating on school buses by education and library boards. [9750]

**Angela E. Smith:** Three Education and Library Boards no longer apply the three-for-two seating arrangement. The estimated capital cost in the remaining Western and South Eastern Boards is some £1.2 million for the purchase of an additional 16 new vehicles (eight per board).

The phasing out of three-for-two seating will proceed as part of the process to introduce seat belts in all board vehicles.

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what estimate he has made of the cost of a no-standing on school buses policy by education and library boards. [9751]

**Angela E. Smith:** The introduction of a "no standing" policy in relation to school bus transport is one of the issues currently under consideration by the Department of the Environment in its assessment of the four key recommendations of the Northern Ireland Assembly's inquiry into home to school transport. This assessment, which also investigates the abolition of "3 for 2", the fitting of seat belts and the provision of improved signage and lighting, will include a detailed analysis of the costs of implementing these recommendations.

It is expected that the findings of this work, which is being carried out in partnership with the Department for Regional Development and the Department of Education, will be published later this year.

### Sign Language

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what his policy is on the use of sign language in schools in Northern Ireland. [7634]

**Angela E. Smith:** The general aim of local deaf education is to teach deaf and hearing impaired children to speak wherever possible. This happens with hearing impaired children in mainstream schools and special education units for the hearing impaired, attached to those schools. Occasionally, a child attending a unit needs to be taught, at least partly, through the medium of sign language and this would be provided by the teacher and classroom assistant, where appropriate.

The only local school to use sign language on a regular basis is Jordanstown Special School, which employs "Total Communication" methods ie a mixture of speech, lip reading and signing.

The Council for the Curriculum, Examinations and Assessment, addresses deafness as a disability in a number of ways in the revised curriculum. It will be more holistic and flexible, with greater emphasis on real-world skills, such as communication, and a specific element of Learning for Life and Work. Legislation will be in place by September 2006 and the revised curriculum will be introduced on a phased basis stretching to 2009/10.

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what resources have been allocated to help schools and colleges in Northern Ireland employ tutors in the use of sign language. [7822]

**Angela E. Smith:** The Department provides £1 million under the Additional Support Fund in further education which, among other things, can be used to provide assistance towards the cost of sign language interpreters. It is impossible, however, to disaggregate the actual amount spent specifically for this facility.

## HOME OFFICE

### Advisory Council for the Misuse of Drugs

**Mrs. Gillan:** To ask the Secretary of State for the Home Department which members of the Advisory Council for the Misuse of Drugs have an expertise in *(a)* schizophrenia, *(b)* neurology and *(c)* toxicology; and what the extent of that expertise is in each case. [4043]

**Paul Goggins:** The following members of the Advisory Council on the Misuse of Drugs have an expertise in one or more of the following areas of schizophrenia/mental health, neurology and toxicology:

Professor Sir Michael Rawlins, Professor of Pharmacology, University of Newcastle.

Dr. Margaret Birtwistle, Specialist General Practitioner in Substance Misuse.

Carmel Clancy, Principal Lecturer, Mental Health and Addictions, Middlesex University.

Professor Ilana Crome, Professor of Addiction Psychiatry, Keel University Medical School.

Robyn Doran, Mental Health Nurse specialising in Substance Misuse.

Professor Robin Ganellin, Emeritus Professor of Medicinal Chemistry.

Dr. Clare Gerada, General Practitioner, London Practise and Primary Care lead for Drug Misuse.

Professor Leslie Iversen, Professor of Pharmacology, University of Oxford.

Dr. John Marsden, Research Psychologist, Institute of Psychiatry.

Professor David Nutt, Professor of Psychopharmacology, University of Bristol.

Dr. Richard Pates, Consultant Clinical Psychologist.

Dr. Roy Robertson, General Practitioner.

Dr. Mary Rowlands, Consultant Psychiatrist in Substance Misuse.

Members are appointed on the basis of their individual qualities, expertise and knowledge. The extent of this expertise and knowledge is reflected in the fact that they are leading experts in their respective fields.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department for what reasons he has restricted the investigation of the Advisory Council for the Misuse of Drugs into only the stronger varieties of cannabis. [4867]

**Paul Goggins:** The Advisory Council on the Misuse of Drugs (ACMD) has been asked by the Home Secretary to consider the recent studies into links and associations between taking any strength of cannabis and the development of mental health problems. The ACMD will consider these studies in terms of its overall assessment of the classification of cannabis. The ACMD has also been directed to consider the reports of increased prevalence of cannabis with high levels of Tetrahydrocannabinol(THC).

### African Children

**Mr. Hands:** To ask the Secretary of State for the Home Department how many African boys he estimates have disappeared in the United Kingdom since September 2001. [6764]

**Hazel Blears:** This data is not collected centrally.

### Airguns

**Mr. Malins:** To ask the Secretary of State for the Home Department how many crimes involving the firing of *(a)* an air pistol and *(b)* an air rifle were recorded in each of the last five years. [5157]

**Hazel Blears:** The available information relates to crimes recorded by the police in which firearms are reported to have been used. Statistics are available for air weapons, but air pistols and air rifles cannot be separately identified within this category. The available statistics for air weapons are published in Table 2.03 of Home Office Statistical Bulletin 02/05, "Crime in England and Wales 2003/04: Supplementary Volume 1: Homicide and Gun Crime". A copy is available in the Library.

It should be noted that for an offence in which a firearm is reported to be used, the firearm does not have necessarily have to be fired. It could be used as a blunt instrument against a person or used as a threat.

### Antisocial Behaviour

**Andrew Rosindell:** To ask the Secretary of State for the Home Department what steps the Government is taking to tackle anti-social behaviour. [8550]

**Hazel Blears:** The TOGETHER campaign was set up to ensure that anti-social behaviour is dealt with swiftly and effectively by local services. The first phase was about equipping practitioners with the tools and the know-how. We have seen some good results: Over 4,500 Anti-Social Behaviour Orders (ASBOs), over 150 crack house closure orders and over 400 dispersal orders have been issued.

As part of the next phase on the campaign, we will ensure we give the right help and support to communities so they know what they can do to tackle problems of anti-social behaviour and what they can expect from local services. As announced on the 29th June 2005, from 1st July 2005 provisions from the Serious Organised Crime and Police Act 2005, will give vulnerable witnesses in ASBO cases the protection and support they need in court.

There will also be the lifting of automatic reporting restrictions to allow the local media to give details of those who breach their ASBOs.

Funding for Individual Support Orders (ISOs) for young people between the ages of 10 and 17 years of age will be increased by £500,000. ISOs can be attached to an ASBO and direct the young person to activities and support to address the underlying causes of their anti-social behaviour. This can include anger management courses and alcohol and drug misuse programmes.

**Bob Spink:** To ask the Secretary of State for the Home Department (1) how many anti-social behaviour orders have been issued in the Essex Police Authority Area; and how many have been breached; [9488]

(2) how many people have received a custodial sentence for breach of an anti-social behaviour order in Essex; [9489]

(3) how many people have been taken to court for breach of an anti-social behaviour order in Essex; and how many have been found guilty. [9490]

**Hazel Blears:** The Court Proceedings Database held by my Department holds breach proceedings only where there has been a conviction. Data on convictions for breach of an Anti-Social Behaviour Order (ASBO) are currently available from one June 2000 to 31 December 2003. During this period my Department received notification of 15 persons receiving ASBOs in the Essex criminal justice system area which is coterminous with the police authority area. Of these, two were convicted of breaching their ASBO on one or more occasions. Both received a custodial sentence for at least one of the breaches.

Breach data for 2004 will be available towards the end of the year.

### Antisocial Behaviour Orders

**Mrs. Gillan:** To ask the Secretary of State for the Home Department (1) what guidance his Department has issued to magistrates in England and Wales in respect of applications for antisocial behaviour orders; [7944]

(2) what guidance his Department has issued to local authorities in England and Wales in respect of applications for antisocial behaviour orders; [7945]

(3) what guidance his Department has issued to police authorities in England and Wales in respect of applications for anti-social behaviour orders. [7946]

**Hazel Blears:** Our publications "A Guide to Antisocial Behaviour Orders and Acceptable Behaviour Contracts" and "Guidance on Publicising Antisocial Behaviour Orders" together with information provided by our TOGETHER website and Action Line, provides comprehensive guidance for all practitioners, including police authorities, magistrates and local authorities. Joint guidance issued by the Home Office, Youth Justice Board and the Association of Chief Police Officers provides Youth Offending Teams with advice on their role in preventing and reducing antisocial behaviour. The Justices' Clerks' Society and the Judicial Studies Board have both published specific guidance and training material for magistrates on the use of ASBOs. In addition, Her Majesty's Courts Service has recently issued new guidance on ASBOs for judges sitting in the magistrates, crown and county courts.

**Lynne Featherstone:** To ask the Secretary of State for the Home Department how many anti-social behaviour orders have been issued in each London borough; and if he will make a statement. [8127]

**Hazel Blears:** The available information is given in the table.

*The number of ASBOs issued at all courts, as reported to the Home Office, where restrictions are imposed within local authority areas in Greater London, 1 June 2000[1] to 30 September 2004 (latest available)*

| *Area* | *Number issued* |
|---|---|
| Barking and Dagenham | 1 |
| Barnet | 10 |
| Bexley | 16 |
| Brent | 10 |
| Bromley | 7 |
| Camden | 65 |
| City of London | 4 |
| Croydon | 14 |
| Ealing | 12 |
| Enfield | 4 |
| Greenwich | 11 |
| Hackney | 7 |
| Hammersmith & Fulham | 8 |
| Haringey | 9 |
| Harrow | 5 |
| Havering | 5 |
| Hillingdon | 8 |
| Hounslow | 18 |
| Islington | 8 |
| Kensington and Chelsea Royal Borough | 8 |
| Kingston-on-Thames | 3 |
| Lambeth | 14 |
| Lewisham | 13 |
| Merton | 10 |
| Newham | 5 |
| Richmond upon Thames | 8 |
| Southwark | 11 |
| Sutton | 7 |
| Tower Hamlets | 9 |
| Waltham Forest | 7 |
| Wandsworth | 12 |
| Westminster | 24 |
| Total | 355 |

[1] Between 1 April 1999 and 31 May 2000 data were collected on aggregate numbers only by police force area (pfa). During this period a total of nine ASBOs were reported within the Greater London pfa.

**Assaults (Race/Religion)**

**David T.C. Davies:** To ask the Secretary of State for the Home Department what estimate he has made of the number of *(a)* Muslims, *(b)* Sikhs, *(c)* Jews, *(d)* Christians and *(e)* Hindus who were victims of an unprovoked assault in which race or religion was assessed as a factor in the last year for which figures were available. [8069]

**Paul Goggins:** The information requested is not collected centrally.

**David T.C. Davies:** To ask the Secretary of State for the Home Department how many victims of assaults, in which race was assessed as a factor, were of *(a)* white European, *(b)* white British, *(c)* African-Caribbean and *(d)* gipsy traveller extraction in each of the last three years for which figures are available. [8070]

**Paul Goggins:** The information requested is not collected centrally.

**Asset Recovery Scheme**

**Chris Ruane:** To ask the Secretary of State for the Home Department how much was recovered under the asset recovery scheme in each police authority area for *(a)* each year since inception and *(b)* as a cumulative total by descending value. [6155]

**Hazel Blears** *[holding answer 27 June 2005]*: The police asset recovery incentivisation scheme came into operation in 2004–05. Police force performance on recovering the proceeds of crime is measured by the value of cash forfeitures and confiscation orders obtained by a force. The value of orders obtained by each police force in 2004–05 is shown in the table.

| *Police force* | *Total value of cash forfeitures and confiscation orders obtained by the police service in 2004–05 (£)* |
|---|---|
| Metropolitan Police Service | 26,426,648.39 |
| National Crime Squad | 11,940,373.79 |
| Lancashire Constabulary | 3,743,146.94 |
| Greater Manchester Police | 3,453,431.70 |
| Merseyside Police | 2,908,711.21 |
| Cambridgeshire Constabulary | 2,695,434.41 |
| Derbyshire Constabulary | 2,540,453.70 |
| West Yorkshire Police | 2,265,457.57 |
| City of London Police | 2,211,123.08 |
| West Midlands Police | 2,053,433.63 |
| Avon and Somerset Constabulary | 1,959,930.23 |
| Kent Police | 1,926,936.62 |
| Police Service of Northern Ireland | 1,769,094.32 |
| Nottinghamshire Police | 1,336,612.41 |
| South Yorkshire Police | 1,330,077.48 |
| Devon and Cornwall Constabulary | 1,182,881.95 |
| Cumbria Constabulary | 1,124,156.05 |
| Northamptonshire Police | 1,063,417.47 |
| Dorset Police | 1,050,401.06 |
| Sussex Police | 1,002,181.72 |
| West Mercia Constabulary | 999,467.06 |
| Norfolk Constabulary | 911,868.06 |
| Northumbria Police | 909,645.62 |
| Leicestershire Constabulary | 891,588.29 |
| Thames Valley Police | 750,663.61 |
| Surrey Police | 648,947.84 |
| Cheshire Constabulary | 541,557.19 |
| Wiltshire Constabulary | 482,559.71 |

| Police force | Total value of cash forfeitures and confiscation orders obtained by the police service in 2004–05 (£) |
|---|---|
| Durham Constabulary | 477,399.45 |
| Gwent Police | 442,673.90 |
| Hertfordshire Constabulary | 440,353.93 |
| Suffolk Constabulary | 430,715.69 |
| South Wales Police | 400,577.52 |
| Gloucestershire Constabulary | 390,468.23 |
| Hampshire Constabulary | 333,792.86 |
| Lincolnshire Police | 307,912.23 |
| British Transport Police | 281,376.94 |
| Staffordshire Police | 260,405.82 |
| Humberside Police | 255,656.67 |
| Cleveland Police | 230,220.07 |
| North Yorkshire Police | 205,081.94 |
| Dyfed-Powys Police | 201,061.20 |
| Essex Police | 192,804.57 |
| Bedfordshire Police | 154,828.69 |
| North Wales Police | 109,758.12 |
| Warwickshire Police | 57,357.29 |
| Total value of orders | 85,292,646.23 |

**Sarah Teather:** To ask the Secretary of State for the Home Department how much was recovered in criminal assets by the Metropolitan Police in each year since 1997; and how much was distributed to the Metropolitan Police from criminal assets recovered in each year. [7476]

**Hazel Blears:** The information is not available in the format requested. The total value of cash forfeitures and confiscation orders obtained by the Metropolitan Police Service was £5,868,992 in 2003–04 and £26,426,648 in 2004–05. Money from recovered assets is distributed to the police service under the police incentivisation scheme which came into operation in 2004–05. Under the scheme the Metropolitan Police Service received £4,027,855 on the basis of its performance in 2004–05 .

## Asylum Seekers

**Alistair Burt:** To ask the Secretary of State for the Home Department on how many occasions in the last six months escorted detainees from Yarl's Wood Detention Centre have refused to board aircraft in pursuance of a deportation order and been returned to Yarl's Wood; and if he will make a statement. [8506]

**Mr. McNulty** *holding answer 29 June 2005]:* From December 2004—May 2005, 114 escorted detainees from Yarl's Wood have refused to board an aircraft in pursuance of a deportation or following refusal of leave to enter or remain in the United Kingdom and been returned to Yarl's Wood.

**Andrew Rosindell:** To ask the Secretary of State for the Home Department how many asylum seekers have been accepted into the UK since 1997; and how many of these were *(a)* Nigerian, *(b)* Algerian, *(c)* Iraqi, *(d)* Chinese, *(e)* Bangladeshi, *(f)* Pakistani, *(g)* Turkish, *(h)* Albanian, *(i)* Bosnian, *(j)* Mexican, *(k)* Sudanese, *(l)* Zimbabwean and *(m)* Palestinian. [8535]

**Mr. McNulty:** The requested information on when asylum seekers arrive in the UK is not available. Data on applications by asylum seekers, by nationality, are based on the date when an application is made. Data on applications, and on initial decision outcomes and appeal outcomes are published in the annual bulletin Asylum Statistics United Kingdom 2003, and (data for 2004) Asylum Statistics: 4th Quarter 2004 United Kingdom. Copies are available in the Library of the House and on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

The tables show application, initial decision and appeal outcome data, where available, for Bosnia-Herzegovina, Mexico and Palestine that are currently not available on the website.

*Asylum applications received in the United Kingdom, excluding dependants, and initial decisions[1] on applications, 1997–2004[2], nationals of Bosnia-Herzegovina*

*Principal applicants*

| | *Applications* | | | *Decisions* | | | | |
|---|---|---|---|---|---|---|---|---|

[3] Provisional figures.

**Mrs. James:** To ask the Secretary of State for the Home Department if he will make a statement on UK immigration policy on Kurdish asylum seekers and refugees from Turkey. [9595]

**Mr. McNulty:** Asylum and human rights claims by Kurdish asylum seekers from Turkey are, like those of all claimants, from all countries, considered on their individual merits in accordance with our obligations under the 1951 UN Refugee Convention and the European Convention on Human Rights (ECHR). If the claimant meets the definition of a refugee in the 1951 Refugee Convention, they are granted asylum. If they do not qualify for asylum, but there are other circumstances that make them particularly vulnerable and engage our obligations under the ECHR, they are granted humanitarian protection or discretionary leave. If an application is refused, and any appeal is unsuccessful, then we expect the individual concerned to leave the UK voluntarily. If they do not, we consider that it is entirely reasonable for us to enforce the return of that individual

### Ball Bearing Guns

**Miss McIntosh:** To ask the Secretary of State for the Home Department how many prosecutions there were for the illegal use of ball bearing guns in public places in *(a)* North Yorkshire and *(b)* in England and Wales in the last year for which figures are available. [7725]

**Hazel Blears:** It is not possible for the statistics collected centrally on the Home Office Court Proceedings Database to distinguish ball bearing guns or more accurately, airsoft weapons from other imitation firearms.

### Burglary

**Andrew Rosindell:** To ask the Secretary of State for the Home Department how many house burglaries there have been since 1996; and if he will make a statement. [8464]

**Hazel Blears:** The information requested is published in Table 2.04 of Home Office Statistical Bulletin 10/04 entitled "Crime in England and Wales 2003–04". A copy of this publication is available in the Library.

### Child Trafficking

**Lynne Featherstone:** To ask the Secretary of State for the Home Department what recent discussions he has had with *(a)* his EU counterparts and *(b)* senior police officers on tackling (i) child prostitution and (ii) child trafficking; what proposals were examined; and if he will make a statement. [2900]

**Paul Goggins:** Child prostitution and trafficking are abhorrent crimes, and the Government have acted swiftly to set tough penalties for these offences. There have been no recent discussions with EU officials or senior police officers on tackling child prostitution. However, guidance on Safeguarding Children Involved in Prostitution was circulated to the police and other agencies in May 2000 as supplementary to the wider Working Together to Safeguard Children. The guidance stresses the need to treat children involved in prostitution primarily as victims of abuse, provides advice to agencies on ways to work together to safeguard and promote the child's welfare and encourages proactive policing so that, wherever possible, action is taken against the exploiters through the criminal justice system. New offences with severe penalties were introduced in the Sexual Offences Act 2003 to enable the police to take firm action against anyone paying for the sexual services of a child, causing or inciting child prostitution, arranging or facilitating child prostitution, controlling a child prostitute, or trafficking a child into or within the UK for sexual exploitation. The Government are currently conducting a review of prostitution which includes consideration of action on child abuse through prostitution and people trafficking for the purposes of sexual exploitation. The Association of Chief Police Officers has contributed to the review and will continue to be involved in discussions on how to tackle these issues. In the case of child trafficking, despite a few high profile instances of children being trafficked into and through the UK, there is insufficient information to say if this is a growing problem. However, the nature of the crime demands that is treated very seriously. Government have introduced criminal sanctions covering child traffickers. In addition to the Sexual Offences Act 2003, measures in the new Asylum and Immigration Act 2004 make it an offence to traffic for other purposes, for example, domestic servitude or benefit fraud. The Government have also tasked Reflex, the government's multi-agency response to organised immigration crime, with co-ordinating intelligence on the problem of trafficking. The Metropolitan Police led an Operation (Paladin) to profile unaccompanied children arriving at Heathrow. This threw up a number of child protection issues that

might not otherwise have come to light. Officials from the Immigration and Nationality Directorate met the Metropolitan Police on 15 June 2005 and have agreed to take forward the creation of a permanent multi-agency partnership team based at Heathrow. The team will address the specific safeguarding needs of unaccompanied minors. We have made people trafficking a priority for our presidency of the EU. During our presidency we aim to improve co-operation among member states so that we achieve operational results and prosecutions, making it impossible for organised immigration crime businesses to operate within the EU. We want to encourage greater police co-operation through EUROPOL and the sharing of best practice on investigations and prosecutions by raising awareness of the role of Eurojust. We will also be working closely with our EU partners to ensure that the Hague Programme commitment for the EU Commission and EU Council to draw up an action plan on trafficking is met. In addition to discussions within the EU, trafficking is an important issue for the G8. Tackling trafficking and smuggling was discussed at the recent G8 ministerial meeting in Sheffield on 15–17 June. Ministers considered progress with existing G8 initiatives which impact on trafficking, including tackling document fraud, information sharing and co-operation through Interpol.

### Cigarette/Alcohol Sales

**Keith Vaz:** To ask the Secretary of State for the Home Department what measures are in place to prevent the sale of *(a)* cigarettes and *(b)* alcohol to underage consumers, with particular reference to enforcement; and if he will make a statement. [6487]

**Hazel Blears:** The sale of tobacco to children under 16 is prohibited by the Children and Young People (Protection from Tobacco) Act 1933 and the law is enforced by Trading Standards Officers. The sale of alcohol to people under the age of 18 is regulated by the Licensing Act 1964 (to be replaced by Licensing Act 2003 from November 2005), and the law is enforced by Trading Standards Officers and the Police.

In the "Choosing Health" White Paper, the Government set out proposals for new powers to ban retailers from selling tobacco products, on a temporary or permanent basis, if they repeatedly flout the law. The Violent Crime Reduction Bill includes proposals for a new power for the Police and Trading Standards Officers to ban the sale of alcohol at licensed premises for up to 48 hours if they persistently sell to under-18s.

### City of London Police

**Lynne Featherstone:** To ask the Secretary of State for the Home Department how many police officers there were in the City of London Police in each year since 1994; and what projections there are for numbers of officers in the next 10 years. [8119]

**Hazel Blears:** The table sets out police officer and police (support) staff strength for the 10 years to September 2004. The Home Office does not collect projections of police officer strength. It is for the Commissioner of the City of London Police to determine the number of officers, subject to the budget agreed by the City of London Corporation.

*City of London Police—Strength March 1994 to September 2004*

| *Year (as at 31 March)* | *Police Office Numbers* | *Police (Support) Staff* |
|---|---|---|
| 1994 | 893 | 332 |
| 1995 | 885 | 345 |
| 1996 | 870 | 324 |
| 1997 | 859 | 347 |
| 1998 | 825 | 334 |
| 1999 | 778 | 314 |
| 2000 | 732 | 285 |
| 2001 | 703 | 233 |
| 2002 | 764 | 247 |
| 2003 | 808 | 268 |
| 2004 | 853 | 291 |
| 2004 (30 Sept) | 875 | 284 |

*Note:*
All figures are full-time equivalents

### Clear-up Rates

**Mr. Dodds:** To ask the Secretary of State for the Home Department what the average clear-up rate for *(a)* murder, *(b)* assault and *(c)* burglary in *(i)* England and *(ii)* Wales has been in each year since 2001. [7513]

**Hazel Blears:** The information requested is given in the table.

*Detection rates for recorded crime in England*
*Percentage of offences detected*[1, 2]

| *Year* | *Murder* | *Common assault*[3] | *Burglary* |
|---|---|---|---|
| 2001/02 | 83 | 79 | 20 |
| 2002/03 | 89 | 66 | 20 |
| 2003/04 | 92 | 64 | 20 |

[1] Changes in detection rates may have been influenced by ongoing effects of audits of the National Crime Recording Standard.
[2] Offences detected in the current year may have been initially recorded in an earlier year and for this reason some percentages may exceed 100.
[3] Includes offences of common assault and racially aggravated common assault.

*Detection rates for recorded crime in Wales*
*Percentage of offences detected*[1, 2]

| *Year* | *Murder* | *Common assault*[3] | *Burglary* |
|---|---|---|---|
| 2001/02 | 120 | 44 | 11 |
| 2002/03 | 91 | 40 | 12 |
| 2003/04 | 120 | 37 | 12 |

[1] Changes in detection rates may have been influenced by ongoing effects of audits of the National Crime Recording Standard.
[2] Offences detected in the current year may have been initially recorded in an earlier year and for this reason some percentages may exceed 100.
[3] Includes racially aggravated common assault.

### Community Support Officers

**Mr. McFadden:** To ask the Secretary of State for the Home Department how many police community support officers there are, broken down by police force area; and what the expected number in each area will be when the expansion in numbers is complete. [9082]

**Hazel Blears:** Figures provided by police forces indicate that there were around 6,300 community support officers (CSO)s in England and Wales at 31March 2005. Audited figures, including a breakdown

of CSO numbers by police force area, will be included in the next police strength statistical bulletin to be published later this month. The Neighbourhood Policing Fund (NPF) will provide significant additional resource to help forces recruit 24,000 CSOs by 2008. This investment will help deliver our commitment that every community will have access to a dedicated neighbourhood policing team by 2008. We will announce later in the year the funding allocated to each police authority under the NPF.

### Convention Against Trafficking

**Andrew George:** To ask the Secretary of State for the Home Department when the Government intends to sign and ratify the Council of Europe Convention Against Trafficking. [8560]

**Paul Goggins:** The UK has not yet taken the decision on whether or not to sign the Council of Europe Convention on Action against Trafficking in Human Beings and has no timetable for adoption at present. There are certain provisions in the Convention which present concerns for the UK and which remain under active consideration. We want to resolve these issues before taking a decision on signature. We support fully all of the aims of the Convention and we too want to see widespread action to tackle this abhorrent trade at source, to protect and support the victims and bring those responsible to justice.

We will be gathering evidence about how the Convention measures are operating in other European transit or destination countries where they have been introduced. We also want to work with non-Government organisations (NGOs) and others working in the field of human trafficking to ensure that we explore thoroughly with them the potential benefits and disadvantages of the approach set out in the Convention.

During the UK's Presidency of the EU the Government intends to treat combating trafficking in human beings as one of its Justice and Home Affairs priorities. We are committed to agreeing a wide-ranging EU action plan before the end of 2005 and will jointly host with Eurojust a conference focusing on investigating and prosecuting traffickers. We are considering other ways of highlighting this issue during our Presidencies of the G8 and EU, both at Ministerial and official levels.

The Government is committed to tackling trafficking in human beings, domestically and internationally, and is determined that the measures we take bring the criminals responsible for it to justice, protect the victims of trafficking, but do not undermine our ability to control our borders.

### Correspondence

**Mr. Mullin:** To ask the Secretary of State for the Home Department if he will ask Mr Ken Sutton to inform him when he will reply to the letter from the hon. Member for Sunderland, South of 13th May regarding Mr Mahdi Hosseini, reference M1077781. [9940]

**Mr. McNulty:** Mr Ken Sutton replied on 4 July 2005.

### Crack Houses

**Mr. Hoyle:** To ask the Secretary of State for the Home Department how many crack houses in Lancashire have been closed in the last five years. [9115]

**Hazel Blears:** No information is held for the full period in question but Lancashire Constabulary has used powers under the Anti-social Behaviour Act 2003 to close down 25 premises since commencement of the Act on 20 January 2004.

### Crime

**Mr. Dismore:** To ask the Secretary of State for the Home Department how many crimes were committed in each London borough in *(a)* 1997 and *(b)* 2004, listed in descending order of number of crimes. [8278]

**Hazel Blears:** Data for all recorded crime in 2003–04 by Basic Command Unit (BCD) are provided in the table. Figures for all crime at BCU level were not collected centrally prior to 2001–02.

*Number of recorded offences in London Basic Command Units (BCUs), 2003–04*

| *Basic Command Unit* | *Number of offences* |
|---|---|
| City of Westminster | 79,296 |
| Camden | 51,016 |
| Lambeth | 49,937 |
| Southwark | 46,276 |
| Islington | 40,816 |
| Newham | 40,615 |

| Bishopsgate * | 5,200 |
| Snowhill* | 4,050 |
| Total | 1,070,177 |

Bishopsgate and Snowhill are City of London Police BCUs

**Mr. Hepburn:** To ask the Secretary of State for the Home Department what the most common form of crime committed by young people of school age was in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England and Wales in the latest year for which figures are available. [8354]

**Hazel Blears:** Statistics on the age of persons committing crimes are not available from the recorded crime series.

**Mr. Hepburn:** To ask the Secretary of State for the Home Department how many young people of school age have been the victims of crime in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England and Wales, in each year since 1997. [8364]

**Hazel Blears:** The information requested is not collected centrally. Apart from specific sexual offences, it is not possible to identify the age of the victim in the recorded crime statistics.

**Mr. Hands:** To ask the Secretary of State for the Home Department how many areas have been designated under section 30 of the Anti-social Behaviour Act 2003 in *(a)* each London borough, *(b)* England and *(c)* England and Wales in the past 12 months. [3425]

**Hazel Blears:** It is estimated that dispersal powers have been authorised in over 400 areas in England and Wales between January 2004, when the powers came into force and September 2004. The Commissioner of the Metropolitan Police tells me that, between January and December 2004, the Metropolitan Police authorised 63 dispersal areas under section 30 of the Anti-social Behaviour Act 2003. A breakdown by London borough is shown in the following table.

*London boroughs: Dispersal areas—January to December 2005*

| | *Number* |
|---|---|
| Barnet | 1 |
| Brent | 2 |
| Bromley | 6 |
| Camden | 2 |
| Croydon | 4 |
| Dagenham | 2 |
| Ealing | 5 |
| Enfield | 4 |
| Greenwich | 1 |
| Hackney | 1 |
| Hammersmith and Fulham | 3 |
| Haringey | 1 |
| Hillingdon | 5 |
| Hounslow | 3 |
| Islington | 4 |
| Lambeth | 2 |
| Lewisham | 1 |
| Merton | 2 |
| Newham | 1 |
| Redbridge | 2 |
| Richmond | 3 |
| Romford | 1 |
| Tower Hamlets | 2 |
| Waltham Forest | 1 |
| Wandsworth | 1 |
| Westminster | 3 |
| Total | 63 |

## Criminal Assets

**Bob Spink:** To ask the Secretary of State for the Home Department how much each police force retained from the recovery of proceeds of crime in the last year for which figures are available. [5794]

**Hazel Blears:** The amount of money each police force will receive from £13 million available under the police incentivisation scheme in 2004–05 is shown in the table.

| *Police force* | *Police force share of £13 million (£)* |
|---|---|
| Metropolitan Police Service | 4,027,855.00 |
| National Crime Squad | 1,819,909.00 |
| Lancashire Constabulary | 570,517.00 |
| Greater Manchester Police | 526,360.00 |
| Merseyside Police | 443,335.00 |
| Cambridgeshire Constabulary | 410,828.00 |
| Derbyshire Constabulary | 387,207.00 |
| West Yorkshire Police | 345,293.00 |
| City of London Police | 337,011.00 |
| West Midlands Police | 312,977.00 |
| Avon and Somerset Constabulary | 298,726.00 |
| Kent Police | 293,697.00 |
| Police Service of Northern Ireland | 269,639.00 |
| Nottinghamshire Police | 203,722.00 |
| South Yorkshire Police | 202,726.00 |
| Devon and Cornwall Constabulary | 180,291.00 |
| Cumbria Constabulary | 171,340.00 |
| Northamptonshire Police | 162,082.00 |
| Dorset Police | 160,098.00 |
| Sussex Police | 152,749.00 |
| West Mercia Constabulary | 152,335.00 |
| Norfolk Constabulary | 138,984.00 |
| Northumbria Police | 138,645.00 |
| Leicestershire Constabulary | 135,893.00 |
| Thames Valley Police | 114,413.00 |
| Surrey Police | 98,910.00 |
| Cheshire Constabulary | 82,542.00 |
| Wiltshire Constabulary | 73,550.00 |
| Durham Constabulary | 72,764.00 |
| Gwent Police | 67,471.00 |
| Hertfordshire Constabulary | 67,117.00 |
| Suffolk Constabulary | 65,648.00 |
| South Wales Police | 61,055.00 |
| Gloucestershire Constabulary | 59,514.00 |
| Hampshire Constabulary | 50,876.00 |
| Lincolnshire Police | 46,931.00 |
| British Transport Police | 42,886.00 |
| Staffordshire Police | 39,690.00 |
| Humberside Police | 38,966.00 |
| Cleveland Police | 35,089.00 |
| North Yorkshire Police | 31,258.00 |
| Dyfed-Powys Police | 30,645.00 |
| Essex Police | 29,387.00 |
| Bedfordshire Police | 23,598.00 |
| North Wales Police | 16,729.00 |
| Warwickshire Police | 8,742.00 |
| Total available for incentive payments | 13,000,000.00 |

**Bob Spink:** To ask the Secretary of State for the Home Department what advice and support his Department has given to police forces that have underperformed in recovering the proceeds of crime. [9261]

**Hazel Blears:** The then Home Secretary wrote to all Chief Constables last November following publication of the Joint Criminal Justice Inspectorates' Thematic report on the implementation of the Proceeds of Crime Act 2002 (POCA). His letter encouraged forces to adopt the report's recommendations on improving performance on asset recovery. I am pleased to say that a number of the recommendations have been implemented. In particular, a senior officer has been appointed as POCA champion in all forces. Local Criminal Justice Boards have been set asset recovery

targets for 2005–06, agreed with the Association of Chief Police Officers and others, as part of the drive to improve performance at local level.

Last month we issued to police forces and others a new National Best Practice Guide to the enforcement of confiscation orders. It covers the criminal confiscation process from financial investigation and prosecution to the making and enforcing of a confiscation order.

I have recently written to all Chief Constables notifying them of their force's share of recovered receipts under the police asset recovery incentive scheme. I encouraged them to make maximum use of POCA powers to recover more criminal assets so that each force gets back more in incentive payments, and to invest the money in financial investigation which is the gateway to asset recovery. We have also introduced an assessment incorporating asset recovery targets which will compare force performance. These new measures and the additional incentive funding will help encourage Chief Constables to make asset recovery an integral part of criminal investigation.

In addition , the Association of Chief Police Officers has issued guidance to all forces on improving performance on asset recovery.

**Bob Spink:** To ask the Secretary of State for the Home Department what assessment he has made of reasons for difference in performance of police forces in recovering the proceeds of crime. [9277]

**Hazel Blears:** The difference in performance of police forces in the recovery of the proceeds of crime is largely attributable to the use made by each force of the powers in the Proceeds of Crime Act 2002 to seize and confiscate criminal assets. The Joint Criminal Justice Inspectorates' Thematic report on the implementation of the Proceeds of Crime Act 2002 published last November made a number of recommendations for improving police force performance in this area of work. The report acknowledged the effectiveness of the new powers when they are actually used but concluded that asset recovery is not yet a mainstream enforcement tool for police forces. I am pleased to say that a number of the report's recommendations have been implemented, and we are encouraging forces to make financial investigation and asset recovery an integral part of criminal investigation.

## Criminal Cases Review Commission

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department how many judicial review actions against the Criminal Cases Review Commission have been resolved without a final decision in court. [4489]

**Fiona Mactaggart:** There have been 104 judicial review actions against the Commission which have been resolved without a final decision in court. These include cases where there has been a pre-action protocol letter but no further proceedings were taken once the Commission replied, where the applicant has withdrawn the application, where leave has been refused by a single judge, and where leave has been refused by the full court on oral renewal.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department how many judicial reviews against the Criminal Cases Review Commission have been upheld by the court. [4490]

**Fiona Mactaggart:** There have been two judicial reviews against the Commission which have been upheld in court.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department how many and what percentage of cases referred to the Court of Appeal by the Criminal Cases Review Commission, result in acquittal. [4491]

**Fiona Mactaggart:** At 31 May 2005 the Commission had referred 274 cases to the appeal courts. Of these, 223 had been heard. Appeals were allowed in 155 cases, dismissed in 65 cases, and judgment had been reserved in the remaining three. That was 70 per cent. allowed and 30 per cent. dismissed.

## Criminal Justice Act 1988

**Mr. Malins:** To ask the Secretary of State for the Home Department how many *(a)* prosecutions and *(b)* convictions under section 139 of the Criminal Justice Act 1988 have taken place in each of the last five years; and what proportion of defendants convicted under this section were given custodial sentences. [4782]

**Fiona Mactaggart** *[holding answer 16 June 2005]:* The information contained in the table gives the number of defendants proceeded against at the magistrates courts and found guilty and sentenced at all courts for offences under the Criminal Justice Act 1988, Sec 139, England and Wales 1999 to 2003. Statistics on court proceedings for 2004 will be published in the autumn.

*Number of defendants proceeded against at magistrates courts and found guilty and sentenced to immediate custody at all courts under Criminal Justice Act 1988, Sec 139[1], England and Wales 1999 to 2003*

| *Offence description* | *Statute* | *Year* | *Proceeded against* | *Found guilty* | *Sentenced* | *Immediate custody* | *Percentage sentenced to immediate custody* |
|---|---|---|---|---|---|---|---|
| Having an article with blade or point in public place | Criminal Justice Act 1988, Sec 139 as amended by Offensive Weapons Act 1996, Sec 3 | 1999 | 4,549 | 3,532 | 3,548 | 534 | 15 |
| | | 2000 | 4,616 | 3,511 | 3,518 | 499 | 14 |
| | | 2001 | 5,752 | 4,299 | 4,303 | 589 | 14 |
| | | 2002 | 6,889 | 5,281 | 5,269 | 766 | 15 |
| | | 2003 | 6,839 | 5,308 | 5,311 | 755 | 14 |
| Having an article with blade or point on school premises[2] | Criminal Justice Act 1988, Sec 139A(1)(5)*(a)* added by Offensive Weapons Act 1996, Sec 4(1) | 1999 | 10 | 9 | 9 | 1 | (11) |
| | | 2000 | 19 | 17 | 17 | 3 | (18) |
| | | 2001 | 25 | 23 | 23 | 1 | (4) |
| | | 2002 | 22 | 19 | 19 | 1 | (5) |
| | | 2003 | 25 | 29 | 29 | 3 | (10) |

*Number of defendants proceeded against at magistrates courts and found guilty and sentenced to immediate custody at all courts under Criminal Justice Act 1988, Sec 139[1], England and Wales 1999 to 2003*

| Offence description | Statute | Year | Proceeded against | Found guilty | Sentenced | Immediate custody | Percentage sentenced to immediate custody |
|---|---|---|---|---|---|---|---|
| Possession of offensive weapons without lawful authority or reasonable excuse on school premises | Criminal Justice Act 1988, Sec 139A(2)(5)*(b)* added by Offensive Weapons Act 1996, Sec 4(1) | 1999 | 18 | 20 | 20 | 3 | (15) |
| | | 2000 | 13 | 11 | 18 | 6 | (33) |
| | | 2001 | 18 | 18 | 19 | 3 | (16) |
| | | 2002 | 21 | 17 | 21 | 5 | (24) |
| | | 2003 | 20 | 14 | 21 | 4 | (19) |
| | Total | 1999 | 4,577 | 3,561 | 3,577 | 538 | 15 |
| | | 2000 | 4,648 | 3,539 | 3,553 | 508 | 14 |
| | | 2001 | 5,795 | 4,340 | 4,345 | 593 | 14 |
| | | 2002 | 6,932 | 5,317 | 5,309 | 772 | 15 |
| | | 2003 | 6,884 | 5,351 | 5,361 | 762 | 14 |

[1] These data are on the principal offence basis.
[2] Data excludes prosecutions and convictions for West Mercia PFA, until clarification of these cases is obtained.
*Note:*
Figures in brackets are based on totals of less than 100.

### Deepcut Barracks

**Lembit Öpik:** To ask the Secretary of State for the Home Department when he expects the Devon and Cornwall constabulary to conclude its investigation into the inquiry by Surrey Police into the four deaths at the Deepcut army barracks between 1995 and 2002; and if he will make a statement. [7132]

**Hazel Blears:** The Inquiry Team had hoped to complete the report by June of this year. However, that deadline is likely to be extended by a few months. It will be discussing with Surrey Police and the IPCC recent disclosures from the Army and once those discussions have been concluded it will be better placed to give a final date for completion.

### Dispersal Orders

**Mr. Gordon Prentice:** To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness of dispersal orders; and if he will make a statement. [8050]

**Hazel Blears:** I refer my hon. Friend to the reply I gave him on 20 June 2005, *Official Report*, column 754W.

### Drink-driving

**Lynne Featherstone:** To ask the Secretary of State for the Home Department pursuant to the answer of 20 June 2005, *Official Report*, column 755W, on drink-driving, how many *(a)* arrests and *(b)* convictions for drink-driving resulted in custodial sentences in each of the last 10 years, broken down by police authority. [7942]

**Hazel Blears:** The information requested on arrests is not collected centrally.

Information taken from the Home Office Court Proceedings Database on convictions and custodial sentences for drink-driving offences by police force area 1997 to 2003 (latest available) is given in the table. Data for 2004 will be available early in 2006.

*Findings of guilt and immediate custodial sentences at all courts for offences of driving etc. after consuming alcohol or taking drugs by police force area, England and Wales 1997–2003*

*Number of offences*

| | 1997 | | 1998 | | 1999 | | 2000 | |

n/a = Not available.

[1] Immediate custody includes sentences of Secure Training Order, Detention and Training Order, Young Offender Institution and Unsuspended sentence of imprisonment.

[2] Staffordshire police force were only able to submit sample data for persons proceeded against and convicted in the magistrates courts for the year 2000. Although sufficient to estimate higher orders of data, these data are not robust enough at detailed level and have been excluded from the table.

### Driving Offences

**Mr. Kidney:** To ask the Secretary of State for the Home Department what assessment he has made of the responses to his consultation on proposed offences for drivers causing deaths. [6171]

**Fiona Mactaggart:** The consultation paper on the Review of Road Traffic Offences involving Bad Driving was published on 3 February and put forward a radical set of proposals to create an effective framework of offences to deal with bad driving and to help create safer roads for everyone. The consultation exercise ended on 6 May and we are currently analysing the responses received. A number of different views have been expressed and we are considering all comments very carefully. A summary and proposals for next steps will be published in due course.

### Emergency Call Response Times

**Sarah Teather:** To ask the Secretary of State for the Home Department what the average response time was to an emergency call to the police in each London borough in each year since 1997. [7472]

**Paul Goggins:** The information requested is not collected centrally. Her Majesty's Chief Inspector of Constabulary (HMCIC) publishes statistics of the percentage of 999 calls answered within local target time. The latest available statistics relate to 2002–03 and 2003–04 and are published in Table 5 of HMCIC's Annual Report. The publication is available via the Home Office website at: http://www.official-documents.co.uk/document/deps/hc/hc171/171.pdf The equivalent figures for earlier years are available from previous annual reports, copies of which should be in the Library. These statistics are only available at police force area level and figures are not available for the London boroughs.

### Employees (Assault)

**Mr. Clappison:** To ask the Secretary of State for the Home Department how many employees in the railway industry have been the victims of offences of violence suffered in the course of their employment in each of the last 20 years. [7589]

**Hazel Blears:** The requested information cannot be supplied as there is no specific offence of assault on a railway industry worker defined by statute. Such incidents are recorded by the police depending on the severity of the violence used and in accordance with the relevant legislation, for example more or less serious wounding or common assault, and cannot be separately identified from recorded crime series data. The Health and Safety Executive (HSE) records data relating to physical assaults on railway staff that are reportable under the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995 (RIDDOR). The most recently published information is provided in the table.

*Assaults reported under RIDDOR. 1997/98 to 2003/04*

| Year | Number of assaults |
|---|---|
| 1997/98 | 335 |
| 1998/99 | 382 |
| 1999/00 | 379 |
| 2000/01 | 462 |
| 2001/02 | 352 |
| 2002/03 | 354 |
| 2003/04 | 263 |

### Firearms

**Andrew Rosindell:** To ask the Secretary of State for the Home Department how many illegal firearms have been confiscated since 1997. [8521]

**Hazel Blears:** Statistics are not collected centrally on the number of illegal firearms confiscated.

**Andrew Rosindell:** To ask the Secretary of State for the Home Department (1) what steps the Government are taking to stop vigilante groups selling illegal firearms; [8523]

(2) what steps the Government are taking to tackle organised drug gangs buying illegal firearms; [8547]

(3) what plans the Government have to hold a further national firearms amnesty. [8517]

**Hazel Blears:** It is already an offence to buy, sell or possess a prohibited firearm and, on conviction, an offender can expect to receive a minimum sentence of five years. We are working closely with the Association of Chief Police Officers, the National Criminal Intelligence Service, Her Majesty's Revenue and Customs and other agencies to ensure that these laws are enforced.

The legislation is being further tightened by measures in the Violent Crime Reduction Bill, which received its Second Reading on 20 June. These measures include:

tougher manufacturing standards to prevent imitation firearms being converted to fire live ammunition;

tougher sentences for carrying imitation firearms;

a ban on the sale of primers without valid firearms certificates;

a ban on the manufacture or sale of imitation firearms other than those which would not be mistaken for real firearms; and

a new offence of using another person to hide or carry a gun or knife.

We are also working closely with community groups to tackle gun crime, particularly among young people who may be drawn into drug and gun crime through becoming involved in a street gang.

We have no plans at present for a further national amnesty but this is something which we will keep under review in consultation with the police.

**Andrew Rosindell:** To ask the Secretary of State for the Home Department how many *(a)* automatic weapons, *(b)* shot guns, *(c)* revolvers and *(d)* rifles have been confiscated in each year since 1997; and if he will make a statement. [8548]

**Hazel Blears:** Statistics are not collected centrally on the number of illegal firearms confiscated.

**Mr. Paice:** To ask the Secretary of State for the Home Department (1) what plans the Government has to introduce a statutory definition of lethality in relation to the definition of a firearm as a lethal-barrelled weapon; [9423]

(2) if he will make one joule of muzzle energy the statutory limit to which firearms legislation applies; [9424]

(3) when the Government's response to the Firearms Consultation 2004 will be published. [9425]

**Hazel Blears:** We received around 4,500 responses to the consultation paper on firearms controls. These have all been read and analysed and we are considering how we want to proceed. A summary of responses will be published. The need for a statutory definition of lethality linked to one joule of muzzle energy will be considered in this context.

### Firearms Amnesty

**Andrew Rosindell:** To ask the Secretary of State for the Home Department how many firearms were handed in to the police during the last amnesty. [8559]

**Hazel Blears:** The last firearms amnesty was from 31 March 2002 to 30 April 2003. A total of 43,908 guns were handed in during that time. This compares to 22,939 guns during the previous amnesty in June 1996.

### Fresh Talent: Working in Scotland Scheme

**Stewart Hosie:** To ask the Secretary of State for the Home Department what support his Department will make available to migrants under the Fresh Talent: Working in Scotland scheme who wish to apply for more permanent visa status. [9451]

**Mr. McNulty** *[holding answer 5 July 2005]*: The Scottish Executive's Relocation Advisory Service will have a continuing role in supporting those migrants who wish to extend their stay beyond that granted under the scheme. The Home Office is advising participants to contact the Relocation Advisory Service.

**Stewart Hosie:** To ask the Secretary of State for the Home Department if he will extend the Fresh Talent: Working in Scotland scheme to include students at universities overseas taking courses conducted in partnership with Scottish universities. [9453]

**Mr. McNulty** *[holding answer 5 July 2005]*: Eligibility for the scheme is based on the institution which awards the qualification and not where the student starts their course or spends the majority of their time studying. All participants must have been awarded their qualification by a relevant Scottish institution and have lived in Scotland for an appropriate period during their studies but they can have spent some time studying overseas.

### G8 (Scotland)

**Mr. Gale:** To ask the Secretary of State for the Home Department if he will list, by county force for England and Wales, the number of police officers that will be seconded to cover the G8 conference in Scotland. [8253]

**Hazel Blears:** The deployment of police officers from English and Welsh police authorities is on a mutual aid basis. The arrangements relating to mutual aid between police forces in Scotland and elsewhere in the United Kingdom are contained in section 98 of the Police Act 1996.

The chief officer in each police authority is responsible for determining the number of police personnel that can be released for G8 duties. In making that decision the chief officers will ensure that there will be no significant impact on local police services.

| *Police Authority Area* | *Police Personnel to be deployed in Scotland* |

| Wiltshire | 66 |
| Total | 6,430 |

**Anne Milton:** To ask the Secretary of State for the Home Department how many police officers from *(a)* England and Wales and *(b)* Surrey he expects will provide support at the G8 Summit at Gleneagles; and what plans have been made to cover police duties where police officers are seconded to the G8 summit. [8874]

**Hazel Blears:** The deployment of police officers from English and Welsh police authorities is on a mutual aid basis. The arrangements relating to mutual aid between police forces in Scotland and elsewhere in the United Kingdom are contained in section 98 of the Police Act 1996.

The chief officer in each police authority is responsible for determining the number of police personnel that can be released for G8 duties. In making that decision the chief officers will ensure that there will be no significant impact on local police services.

## Gating Orders

**Dr. Whitehead:** To ask the Secretary of State for the Home Department when he expects to lay an order before Parliament implementing section 2 gating orders under the Clean Neighbourhoods and Environment Act 2005. [7283]

**Hazel Blears:** The Home Office are currently drafting the regulations required under Section two of the Clean Neighbourhoods and Environment Act 2005. Before this section is commenced, relevant agencies will be given an opportunity to comment on the content of the draft regulations. Following the completion of the regulations, this provision will be commenced at the earliest opportunity.

## Gun Crime

**Sarah Teather:** To ask the Secretary of State for the Home Department how many deaths were caused by gun crime in each London borough in each of the last five years. [8301]

**Hazel Blears:** The information requested is not collected centrally. Statistics on deaths caused by firearms is only available at police force area level.

**Sarah Teather:** To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness of Operation Trident; and if he will make a statement. [8324]

**Hazel Blears:** Operation Trident, established London-wide in 1999, has had a significant effect in reducing gun-enabled crime in London. In the 12 months to May 2005, there was a 6 per cent. reduction in such crimes in the Metropolitan Police Service area. Community support for Trident is a vital component of

its success and has been developed via the Independent Advisory Group (IAG), which remains at the heart of Trident strategy. We encourage the development of similar IAGs in other areas as a model of good practice in community engagement.

### Human Trafficking (Ministerial Meeting)

**Sandra Gidley:** To ask the Secretary of State for the Home Department if he will make a statement on the outcome of the inter-ministerial meeting on human trafficking which took place in February; and when he expects the next meeting to take place. [7820]

**Paul Goggins:** At the inter-ministerial meeting on trafficking in February Ministers considered a wide range of issues. These included the legislative framework on trafficking; support for victims, including the scope of the evaluation of the POPPY Scheme; and plans for the UK presidency of the EU. Ministers agreed that trafficking should be a priority for the UK presidency of the EU, and at the next meeting, which is arranged for the 7 July 2005, Ministers will consider the programme of work on trafficking which is planned for our presidency.

### Identity Cards

**Alan Simpson:** To ask the Secretary of State for the Home Department what discussions he has had with the US Administration regarding its plans to include radio frequency identification chips in its requirements for passports and identity cards for foreign nationals visiting the US. [8602]

**Andy Burnham:** The UK Passport Service has had regular technical discussions at senior official level with the US State Department on biometric passports and the incorporation of RFID (Radio Frequency Identification) chips into these passports. Both countries will be observing the International Civil Aviation Standards for the use of RFID chips in travel documents. The US Government in their recent announcement extending the Visa Waiver deadline to October 2006 indicated that they would be holding several technical conferences later this year to ensure workable technical standards for biometric passports. The UK Passport service will be represented at these conferences. There have been no discussions with the US Administration on radio frequency chips in Identity Cards.

**Dr. Cable:** To ask the Secretary of State for the Home Department what the latest estimate is of costs of *(a)* processing applications and enrolment, *(b)* producing cards, *(c)* database design, *(d)* producing identification numbers, *(e)* application checks, *(f)* updating the register and *(g)* operating costs for the identity card scheme in the starting and operating phases under the different scenarios of a voluntary and compulsory card, indicating expected margins of error. [9253]

**Andy Burnham** *[holding answer 7 July 2005]:* The latest cost estimates were published in the Regulatory Impact Assessment which was published on 25 May 2005 alongside the Identity Cards Bill. The current best estimate is that the total average running costs for issuing passports and ID cards to UK nationals is estimated at £584 million. This includes the costs of processing applications and enrolments, producing cards, producing identification numbers, application checks, updating the Register and operating costs. It does not include the cost of database design which is a resource set up cost. It would not be appropriate to disclose either the breakdown of the current best estimate of running costs or any set up costs at this stage, as this would hinder the Department's ability to obtain value for money in the forthcoming procurement process.

A large part of [illegible] costs cover the issuing of ID cards alongside passports and voluntary applications for ID cards. Estimating the costs of issuing cards on a compulsory basis would depend on the timing of the move to compulsion and the nature of any compulsion order approved by Parliament. It is therefore not possible to provide such a scenario.

**Dr. Cable:** To ask the Secretary of State for the Home Department if he will estimate *(a)* the revenue from the expected fees from cardholders, *(b)* the revenue from fees charged for data access, *(c)* financial support from the Home Office budget and *(d)* additional support from the Treasury for the identity card scheme, indicating margins of error and distinguishing set up and operating stages of the project. [9254]

**Andy Burnham** *[holding answer 4 July 2005]:* The latest cost estimates were published in the Regulatory Impact Assessment which was published on 25 May 2005 alongside the Identity Cards Bill. The current best estimate is that the total average running costs for issuing passports and ID cards to UK nationals is estimated at £584 million. It would not be appropriate at this stage to disclose details of the estimate of the balance of funding which will come from the different types of fee which may be set under the powers in clause 37 of the Bill. Disclosing this information would hinder the Department's ability to obtain value for money in the forthcoming procurement process.

**Dr. Cable:** To ask the Secretary of State for the Home Department what the *(a)* revised global figure and *(b)* estimated margin of error is for the cost of the identity card scheme under the different scenarios of a voluntary and compulsory card distinguishing between *(i)* start-up and *(ii)* continuing costs. [9255]

**Andy Burnham** *[holding answer 4 July 2005]:* The latest cost estimates were published in the Regulatory Impact Assessment which was published on 25 May 2005 alongside the Identity Cards Bill. It would not be appropriate at this time to publish an estimate of set-up costs as this may hinder the Department's ability to obtain value for money in the forthcoming procurement phase.

The current best estimate for the total average annual running costs for issuing passports and ID cards to UK nationals is estimated at £584 million. This estimate does include appropriate allowances for the running cost impact of some set-up costs, for example the cost of capital. As for the "margin of error" the estimates of both set-up costs and running costs include allowances for contingency and optimism bias. It would not be

appropriate to disaggregate the running cost estimate at this stage for the same reason as it would not be appropriate to publish the set-up cost estimate.

A large part of the running costs cover the issuing of ID cards alongside passports and voluntary applications for ID cards. Estimating the costs of issuing cards on a compulsory basis would depend on the timing of the move to compulsion and the nature of any compulsion order approved by Parliament. It is therefore not possible to provide such a scenario.

### Illegal Alcohol Sales

**Mr. Crabb:** To ask the Secretary of State for the Home Department what the total amount of fines imposed on those convicted of selling alcohol to minors was in *(a)* 1984, *(b)* 1997 and *(c)* 2004. [7542]

**Hazel Blears:** The total amount of fines imposed on those convicted of selling alcohol to minors is as follows: 1984, £4,950 and for 1997, £25,381. The data for 2004 is expected to be available towards the end of the year.

**Mr. Amess:** To ask the Secretary of State for the Home Department (1) how many prosecutions there have been in *(a)* Essex and *(b)* Southend under the Intoxicating Substances (Supply) Act 1985 in each year since 1997; [8331]

(2) how many prosecutions there have been under the *(a)* Cigarette Lighter Refill (Safety) Regulations 1999 and *(b)* Intoxicating Substances (Supply) Act 1985 in each year since 1997. [8375]

**Paul Goggins:** The information contained in the table gives the number of defendants proceeded against under the Intoxicating Substances (Supply) Act 1985, England and Wales 1997 to 2003. There were no prosecutions as notified to the Home Office Court Proceedings database in the Essex police force area or South-East Essex petty sessional area.

Information collected centrally by the Home Office does not separately identify offences under the Cigarette Lighter Refill (Safety) Regulations 1999.

Statistics on court proceedings for 2004 will be published in the autumn.

*Number of defendants proceeded against at magistrates courts under the Intoxicating Substances (Supply) Act 1985[1], England and Wales 1997 to 2003*

| | Proceeded against |
|---|---|
| 1997 | 11 |
| 1998 | 4 |
| 1999 | 9 |
| 2000 | — |
| 2001 | 1 |
| 2002 | — |
| 2003 | 2 |

[1] These data are on the principal offence basis.

### Jamaican Gangs

**Mark Simmonds:** To ask the Secretary of State for the Home Department what estimate has been made of the number of Jamaican criminal gangs operating in the UK; what discussions have taken place with the Jamaican authorities regarding this matter; and what steps are being taken to tackle crimes perpetrated by such gangs. [8289]

**Hazel Blears:** There are no official estimates of the number of organised crime groups, by nationality or other categorisation, operating in the UK. The varying degrees of cohesiveness and difficulty in establishing nationality makes such estimates impractical.

The Government are in close and regular contact with Jamaican authorities about criminal activities which have implications for our two countries. We have provided assistance to the Government of Jamaica's Operation Kingfish which was launched last October and is targeting criminals on the island some of whom have UK connections. In addition there are UK liaison officers in Kingston providing links between the relevant law enforcement authorities of the two countries. Operation Airbridge which started in June 2002 has been very successful in reducing the number of cocaine couriers travelling by air from Jamaica to the UK.

Some forces such as the Metropolitan Police Service and Avon and Somerset Constabulary have set up operations (Trident and Atrium) which deal with particular crime difficulties in their areas in which there are links to Jamaican nationals or persons of Jamaican origin.

### London Probation Service

**Lynne Featherstone:** To ask the Secretary of State for the Home Department what the *(a)* budget and *(b)* expenditure of the London Probation Service was in each year since 1995; and if he will make a statement. [2864]

**Fiona Mactaggart:** The budget for the London Probation Service from 1995 is set out in the attached table and gives information relating to the London Probation Service prior to the establishment of the London Probation Board on one April 2001. Prior to 2001, the Home Office did not collect this information. Both the budget and expenditure for 2001–02 onwards are as set out in the table.

*Budgetary Information for London Probation Service 1994–2005*

| Financial Year | Budget £m | Expenditure £m |
|---|---|---|
| 1994/95 | 72.0 | |
| 1995/96 | 72.1 | |
| 1996/97 | 78.9 | |
| 1997/98 | 77.8 | |
| 1998/99 | 77.1 | |
| 1999/2000 | 80.4 | |
| 2001/02 | 97.3 | 100.3 |
| 2002/03 | 106.6 | 107.8 |
| 2003/04 | 110.4 | 112.1 |
| 2004/05 | 107.1 | |
| 2005/06 | 121.7 | |

### Metropolitan Police (Compensation Payments)

**Sarah Teather:** To ask the Secretary of State for the Home Department how much was paid in compensation by the Metropolitan Police Authority in each year since 1997. [8325]

**Hazel Blears:** The Commissioner of Police for the Metropolis is responsible for the operational management of, and allocation of funding by, the force. I will ensure that he receives a copy of the question and replies to the hon. Lady directly in response to her concerns.

### Mr. Thomas Maguire

**Mr. Burstow:** To ask the Secretary of State for the Home Department when the enhanced disclosure application for Mr Thomas Maguire will be completed. [8263]

**Andy Burnham:** *[holding answer 30 June 2005]*: The Enhanced Disclosure for Mr Thomas Maguire was issued on 29June.

### North Wales Police Authority

**Mr. David Jones:** To ask the Secretary of State for the Home Department if he will make a statement on the employment status of Mr Peter Bolton, Assistant Clerk to the North Wales Police Authority. [8248]

**Hazel Blears:** Mr Bolton remains an employee of the North Wales Police Authority.

### Offensive Weapons

**Harry Cohen:** To ask the Secretary of State for the Home Department what guidance his Department has given on the standard of evidence that would be required to initiate a prosecution for an offence of using another person to hide or carry a gun or a knife; and if he will make a statement. [9348]

**Hazel Blears:** The Code for Crown Prosecutors provides for a two stage test before a criminal prosecution can be commenced. A case must firstly pass the evidential test. This requires that a crown prosecutor (or police officer) must be satisfied that there is enough evidence to provide a realistic prospect of a conviction. This is an objective test and means that a jury, or bench of magistrates or judge hearing a case alone, and properly directed in accordance with the law, is more likely than not to convict the defendant of the charge alleged.

If the case passes the evidential test, crown prosecutors or (police officers) must decide if a prosecution is in the public interest. It would be very unusual indeed for there not to be a strong public interest in prosecuting a case involving firearms or weapons.

### Passports

**Mr. Burstow:** To ask the Secretary of State for the Home Department what estimate his Department has made of *(a)* the number of fraudulent applications for passports and *(b)* the number detected in each of the last five years. [6946]

**Andy Burnham:** It is widely recognised that the very nature of identity fraud makes it difficult to be precise when estimating the scale of the problem in terms of the number of fraudulent passport applications. Based on the results of an exercise involving the detailed scrutiny of some 10,000 passport applications, extrapolated across a whole year, the UK Passport Service (UKPS) estimate that the level of fraud may run at around 0.18 per cent. of applications received. Approximately half of the cases identified in this exercise involved false declarations but the individual was otherwise entitled to a passport. The remaining cases featured identity fraud.

With around 6.5 million passports applications per year this suggests the possibility of around 11,700 fraudulent applications per year. Of these, half, around 5,850, might involve identity fraud with a similar number of cases in which deception has been practised but the individual would otherwise be entitled to a passport.

This exercise was run during a peak period of passport demand and represented a snap shot of the possible level of fraud at one particular time of year. UKPS is currently developing a more flexible and robust system for estimating the level of fraud which will take account of the seasonally of passport demand and other variables.

As regards the number of fraudulent applications detected, UKPS has recently introduced a new and comprehensive fraud casework and management information system. This system was rolled out and operational in all Passport Offices by the beginning of March 2005. It is now used for the progression of cases of suspected fraud and the collection, collation and analysis of information relating to passport fraud. Prior to the introduction of this system information relating to frauds detected was collated through manual processes. The figures which are available for the last five years are derived from those manual processes and are given as follows:

| | *Number* |
|---|---|
| 2000–2001 | 1,484 |
| 2001–2002 | 2,419 |
| 2002–2003 | 1,973 |
| 2003–2004 | [1]2,651 |
| 2004–2005 | 1,497 |

[1] Figure incorporates cases from major investigations not previously published

UKPS is committed to strengthening its fraud detection capability while maintaining an excellent standard of service to the public. As set out in the UKPS, Corporate and Business Plan for 2005–2010, the Agency is engaged in a range of initiatives to improve identity authentication and to increase its effectiveness in preventing and detecting fraud. These initiatives include:

Strengthening identity authentication arrangements through access to public/private databases, and the interviewing of all first-time applicants from October 2006.

Developing the use of Omnibase, which provides secure access to passport information to other Government Departments to detect and prevent fraudulent applications and abuse of issued passports;

Continued strengthening of staff capability to fight fraud through professional development, improved training, and better systems, and equipment;

Piloting the use of facial recognition technology in the passport application process to complement existing automatic checks.

**Mr. Burstow:** To ask the Secretary of State for the Home Department what estimate his Department has made of the number of *(a)* lost, *(b)* stolen and *(c)* unavailable passports in circulation in the UK in each of the last five years. [6947]

**Andy Burnham:** The UK Passport Service is not in a position to provide information on the number of lost, stolen and unavailable passports in circulation in the last five years. The UK Passport Service can provide information on the number of passports reported lost, stolen and unavailable in those years, and this is shown in the following table. In December 2003 new more comprehensive arrangements for the reporting and recording of lost, stolen, and recovered passports were introduced. Prior to then information was not routinely collected.

*UK passports lost, stolen and unavailable*

| | *Number* |
|---|---|
| 2000 | 125,073 |
| 2001 | 148,230 |
| 2002 | 166,358 |
| 2003 | 221,445 |
| 2004 | 238,216 |

Since 2000, 53,685 passports have been reported as found.

**Mr. Burstow:** To ask the Secretary of State for the Home Department how many claims for lost passports the Passport Agency has received in each of the last five years. [6959]

**Andy Burnham:** The UKPS does not routinely collect specific information on compensation claims for lost passports, where losses are due to failures by the UKPS and its contractors. The UKPS does keep information on passports lost to en route to customers. These figures are shown in the table.

*Passport lost en route to customers*

| *Year* | *Passport lost* |
|---|---|
| 2000 | 3,851 |
| 2001 | 2,541 |
| 2002 | 2,982 |
| 2003 | 3,593 |
| Feb 2004—31 March 2005 | 683 |

The Royal Mail delivered passports until February 2004 when Special Mail Services commenced the secure delivery of passports.

**Mr. Gregory Campbell:** To ask the Secretary of State for the Home Department pursuant to the answer of 13 June 2005, *Official Report*, column 167W, on passports, if he will waive the fee for nationality payable by those born in the Republic of Ireland and now residing in Northern Ireland before they may obtain a British passport. [9293]

**Andy Burnham:** To qualify for a British Passport, citizens of the Republic of Ireland now living in Northern Ireland, who do not have a claim to British subject status through birth prior to 1949, must apply to naturalise. The British Nationality Act 1981 requires that a certificate of naturalisation shall not be granted unless the fee payable has been paid. There is no discretion to waive the fee.

## People Trafficking

**Sandra Gidley:** To ask the Secretary of State for the Home Department what plans he has to raise people trafficking with his EU counterparts during the UK presidency. [9074]

**Paul Goggins:** We have made human trafficking a priority for the UK presidency of the EU. We are in the process of planning agendas and discussion papers for both formal and informal ministerial meetings and other ministerial discussions. We are looking at the options for a high level discussion on trafficking. Tackling trafficking was discussed at the recent G8 ministerial meeting in Sheffield on 15–17 June.

In addition, the Hague Programme commits the EU Commission and EU Council to drawing up an action plan on trafficking, and we are currently discussing with the Commission and EU partners the best way to focus discussion on this during our presidency at a working level. We want to deliver an action plan which is evidence-based, action-orientated, takes an end-to-end approach and provides a basis for positive action against trafficking.

We are committed to improving operational co-operation and will hold a joint seminar with Eurojust in October on organised immigration crime which will open a dialogue with EU partners on the investigation and prosecution of trafficking cases. Council working groups will also be considering a range of relevant initiatives.

## Police

**Andrew Rosindell:** To ask the Secretary of State for the Home Department what steps the Government is taking to tackle institutional racism in the Metropolitan Police. [8551]

**Hazel Blears:** The Government is working with the Metropolitan Police Service, (MPS) and with all other forces, to eliminate racism from policing.

The Race Relations (Amendment) Act 2000, places a positive duty on all public authorities, including the MPS, to promote race equality. In the MPS this duty is driven by its Race Equality Scheme, which was republished on 31 May 2005. Training, procurement activities and access to information and services are also included within the Race Equality Scheme. All corporate policies have been assessed for their impact on diverse groups and are published together with arrangements for ongoing monitoring, consultation and review.

In addition, the MPS was one of the first forces to adopt the new national assessment procedures for police recruitment. The assessment centre tests candidates' attitudes to race and diversity. Those who do not score sufficiently highly are not offered a job — irrespective of how well they do in the rest of the selection process. I understand that the MPS has also produced guidance

for potential recruits and training school staff on appropriate behaviour, tolerance, respect and politeness. This puts a responsibility on new recruits and training school staff to eliminate and not tolerate racist behaviour.

In December 2003, the Metropolitan Police Authority commissioned Sir Bill Morris to review professional standards and employment matters in the Metropolitan Police Service. The Inquiry was launched in January 2004 and its report was published in December 2004. Taking forward the recommendations of the Inquiry will form part of the MPS's continued to commitment to tackle institutional racism.

**Lynne Featherstone:** To ask the Secretary of State for the Home Department what discussions his Department has held with local authorities regarding the Police Reform II White Paper, Building Communities, Beating Crime, on *(a)* increasing accountability and *(b)* community and locally elected officials determining policing priorities; and if he will make a statement. [8096]

**Hazel Blears:** We had responses from, amongst others, the Association of Police Authorities (APA), Local Government Association, the Welsh LGA, the County Councils Network and 14 local authorities to the White Paper. Both ministers and officials have regular discussions with the APA and local government representatives on a variety of issues, including ways of strengthening the accountability of the police service. We will be consulting both police and local authorities over the details of the Government's plans to confer powers on local people to trigger action by community safety partners in response to persistent local problems. The community and locally elected representatives already have a significant say in determining policing priorities through Police Authorities, whose membership includes a majority of elected councillors. Police Authorities have a central duty to determine the policing priorities for the area in consultation with the local community.

**Mr. Drew:** To ask the Secretary of State for the Home Department what his Department's contingent liability is for the potential cost of failure of the Airwave contract; what assessment he has made of the level of risk of failure of the Airwave contract; and if he will list the factors that he has identified could lead to a failure of the Airwave contract. [6343]

**Hazel Blears:** There are no contingent liabilities with regard to the Airwave contract. Roll-out of the Airwave network is now complete, with no operational, technological or health and safety issues to be resolved.

**Sarah Teather:** To ask the Secretary of State for the Home Department how many *(a)* deaths and *(b)* serious injuries occurred in police custody in London in each of the last five years. [8302]

**Hazel Blears:** The number of deaths during or following police contact in London for each of the last five years is as follows. All deaths relate to the Metropolitan Police area. There have been no deaths within the City of London Police area. The Home Office does not collate statistics on the number of injuries in police custody.

| | |
|---|---|
| 1999–2000 | 16 deaths, 10 in police custody |
| 2000–2001 | seven deaths, two in police custody |
| 2001–2002 | nine deaths, three in police custody |
| 2002–2003 | 17 deaths, nine in police custody |
| 2003–2004 | 15 deaths, six in police custody |

**Mrs. Spelman:** To ask the Secretary of State for the Home Department what the average cost to public funds, including national insurance contributions and pension contributions, of employing a *(a)* community warden or neighbourhood warden, *(b)* police community support officer and *(c)* police constable in England is expected to be in 2005–06. [5609]

**Hazel Blears:** The information requested is not collected centrally and could be obtained only at disproportionate cost.

**Mr. Dismore:** To ask the Secretary of State for the Home Department how much was contributed to the Metropolitan Police by each London borough through the Metropolitan Police precept in each of the last three years; how much each borough is expected to contribute in the 2005–06 financial year; what these figures represent as a percentage of the overall budget of *(a)* the authority concerned and *(b)* the Metropolitan Police in each year; what the ratio of contribution to the precept by borough to number of police officers in post in the borough (i) was in respect of each borough in each year and (ii) is in respect of each borough in 2005–06; and if he will make a statement. [8280]

**Hazel Blears:** These are matters for the Metropolitan Police Authority and the Greater London Authority which determines the police precept. I will ensure that they receive a copy of the question and reply to my hon Friend directly in response to your concerns.

**Mike Penning:** To ask the Secretary of State for the Home Department if he will make a statement on the level of efficiency savings his Department has required Hertfordshire constabulary to find in each year since 1997. [5374]

**Hazel Blears:** An efficiency target for the police service was introduced in 1999–2000. From that year until 2004–05 each Police authority was required to make efficiency gains each year of 2 per cent. of net revenue expenditure. A new target was set in Spending Review 2004. For the period from 2005–06 to 2007–08 authorities are required to make cumulative efficiency gains of 3 per cent. per year, half of the total to consist of cashable gains. Details of Hertfordshire's performance from 1999–2000 to 2004–05 (estimated) and the value of the target for 2005–06 are set out in the table.

*Efficiency targets and performance: Hertfordshire constabulary, 1999–2000 to 2007–08*

| | 1999–2000 | 2000–01 | 2001–02 | 2002–03 | 2003–04 | 2004–05 | 2005–06 |
|---|---|---|---|---|---|---|---|
| Net revenue expenditure (£ million) | 102.4 | 121.1 | 131.8 | 133.0 | 143.0 | 152.7 | 161.1 |
| Efficiency target (percentage) | 2 | 2 | 2 | 2 | 2 | 2 | 3 |
| Efficiency target (value £ million) | 2.0 | 2.4 | 2.6 | 2.7 | 2.9 | 3.1 | 4.8 |
| Gains achieved (percentage)[1] | 2.39 | 2.03 | 2.50 | 2.30 | 2.27 | 2.00 | — |
| Gains achieved (£ million)[1] | 2.45 | 2.46 | 3.30 | 3.06 | 3.25 | 3.1 | — |

[1] For 2004–05 the achievement figure is an estimate by HM Inspectorate of Constabulary based on the position at 31 December 2004. A final figure will be available later this year.

*Note:*

Net Revenue expenditure for 2006–07 and 2007–08, and the value of the efficiency target will be determined when a budget is set for those years.

**Lynne Featherstone:** To ask the Secretary of State for the Home Department what the Government's definition is of a police officer. [8097]

**Hazel Blears:** The term "police officer" is not defined in primary legislation, but it was used in the police conduct regulations 2004 (SI 2004/645), where it is defined in regulation 3(1) as a member of a police force or special constable.

**Mr. Bacon:** To ask the Secretary of State for the Home Department if he will make a statement on the powers of the police in relation to illegal raves on private land. [5136]

**Hazel Blears:** Section 63 of the Criminal Justice and Public Order Act 1994 allows police in certain circumstances to direct rave goers to leave an event. If they refuse, police are provided with a power of arrest and they also have powers to seize sound equipment in certain circumstances. The Anti-Social Behaviour Act 2003 extended powers in relation to illegal raves taking place indoors and to make it an offence for a person given a direction under section 63 to attend any other trespassory rave within 24hours.

**Lynne Featherstone:** To ask the Secretary of State for the Home Department how many *(a)* police patrol vehicles, *(b)* police vans, *(c)* unmarked police vehicles and *(d)* other police vehicles are available in Greater London; and if he will make a statement. [8116]

**Hazel Blears** *[holding answer 4 July 2005]:* This information requested is not collected centrally.

## Prisons

**Mr. Stephen O'Brien:** To ask the Secretary of State for the Home Department what the projected funding for prison education for *(a)* male young offenders, *(b)* male adult offenders, *(c)* female young offenders and *(d)* female adult offenders is for each year between 2005 and 2010, broken down by subject. [3244]

**Fiona Mactaggart:** The needs of offender learners are individual and vary considerably depending on the particular cohort in a particular prison establishment at a particular time. For the financial year 2005–06, the following table shows learning and skills funding, for offenders in custody, that can be assigned to a particular category and gender of offender as appropriate. The changing needs of offender learners means that this information cannot be projected beyond 2005–06, and information on subjects could be provided only at disproportionate cost.

| *Young offenders* | *2005–06 funding (£)* |
|---|---|
| Male | 18,443,567.00 |
| Female | n/a |
| Total male and female | 18,443,567.00 |
| *Juveniles* | |
| Male | 9,832,187.00 |
| Female | 534,246.00 |
| Total male and female | 10,366,433.00 |
| *Adult* | |
| Male | 73,856,880.00 |
| Female | 10,044,734.00 |
| Total male and female | 83,901,614.00 |
| *Total* | |
| Male | 102,132,634.00 |
| Female | 10,578,980.00 |
| Total male and female | 112,711,614.00 |

**Mr. Stephen O'Brien:** To ask the Secretary of State for the Home Department how many designated education hours were lost in the Prison Service in 2003–04 due to staff shortages. [3246]

**Fiona Mactaggart:** The Prison Service does not collect this information centrally and could be provided only at a disproportionate cost.

**Mr. Laurence Robertson:** To ask the Secretary of State for the Home Department, pursuant to the answer of 13 June 2005, *Official Report*, column 170W, on prisons, on what grounds the Prison Service is appealing the Employment Tribunal decision; and if he will make a statement. [6203]

**Fiona Mactaggart:** The employment tribunal decision to which this question refers remains the subject of litigation and it would therefore not be appropriate to comment.

**Steve Webb:** To ask the Secretary of State for the Home Department if he will list the private finance initiative contracts that exist between prisons and Jarvis plc. [5937]

**Fiona Mactaggart:** There are no private finance initiative contracts between Jarvis plc and prisons in England and Wales.

**Colin Burgon:** To ask the Secretary of State for the Home Department how many inmates there are in each *(a)* prison and *(b)* young offender institution in England and Wales, broken down by *(i)* parliamentary constituency and *(ii)* local authority area. [5820]

**Fiona Mactaggart:** The information requested, as recorded on the Prison Service IT system on 31 May 2005, is provided in the table. Information is not available by local authority area. A breakdown by constituency has therefore been provided.

*Population of prison establishment, by establishment and parliamentary constituency England and Wales, 31 May 2005*

| Constituency | Establishment | Population |
|---|---|---|
| Arundel and South Downs | Ford | 530 |
| Aylesbury | Aylesbury | 379 |
| Banbury | Bullingdon | 974 |
| Bedford | Bedford | 463 |
| Berwick-upon-Tweed | Acklington | 866 |
| Berwick-upon-tweed | Castington | 383 |
| Birmingham Ladywood | Birmingham | 1,413 |

| Total | | 76,141 |

**Mrs. Dean:** To ask the Secretary of State for the Home Department what plans he has to increase the number of work opportunities in prisons. [5778]

**Fiona Mactaggart:** Work for prisoners in prison can largely be divided into three main areas. These include activities that take place within prison industry workshops; work to service and maintain prisons, for

example, working in kitchens and laundries; and, various land based activities such as market garden work, ground maintenance and landscaping.

There are ongoing plans to increase both work opportunities and the relevance of such activities for prisoners in all these areas. These plans include additional workshops at a number of prisons; increasing the number of prisoners employed in land based activities; and, increased training and qualifications across a large number of work activities. The plans recognise that providing work opportunities for prisoners in prison is important in a number of ways. Such opportunities can introduce and maintain the work ethic; help occupy prisoners' time in custody constructively and can make a significant contribution to the resettlement agenda.

### Public Protection Panels

**John McDonnell:** To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness of the Multi-agency Public Protection Panel Arrangements; and if he will make a statement. [4789]

**Fiona Mactaggart** *[holding answer 16 June 2005]:* Multi-agency Public Protection Arrangements (MAPPA) are regularly reviewed at a local level by Strategic Management Boards (SMB), formed of senior staff from the Police, Probation and Prison Service. Since 2001–02, each SMB has produced an annual report on the MAPPA arrangements. These reports show that the arrangements have made a significant difference to the way the public is protected from the risks posed by sexual and violent offenders. I have also commissioned an independent study of MAPPA by De Montfort University, due to be published later this year, and a joint inspection by Her Majesty's Inspectorate of Probation, Her Majesty's Inspectorate of Prisons and Her Majesty's Inspectorate of Constabulary, starting in September. All of these reports will be made available in the Library once they are published.

### Shooting

**Mr. Swire:** To ask the Secretary of State (1) for the Home Department whether he plans to review the guidelines on the shooting of foxes and ground game at night; [6051]

(2) whether he plans to introduce an age limit for the shooting of foxes and ground game at night; [6054]

(3) what discussions he has had with the *(a)* British Association for Shooting and Conservation and *(b)* other shooting organisations about the guidelines relating to the shooting of foxes and ground game at night. [6052]

**Hazel Blears:** I understand that Defra has no plans to review the current policy on shooting of foxes and ground game at night. Consequently there has been no need to consult stakeholders. Under the provisions of the Firearms Act 1968 a person under 14 may not be granted a firearm certificate in any circumstances. A person between 14 and 17 may be granted a certificate in order to possess a firearm provided that the police are satisfied that the individual concerned is fit to possess the gun without being a danger to the public safety and has a good reason for possessing it. We are currently considering the many responses to the consultation paper we issued last year on how our firearms controls and laws might be revised.

### South Wales Police

**Mrs. James:** To ask the Secretary of State for the Home Department how many community support officers there are in South Wales Police H Division; and if he will make a statement. [9596]

**Hazel Blears:** The deployment of Community Support Officers (CSOs) is an operational matter for the Chief Constable (Barbara Wilding). The Home Office Police Service Strength Statistical Bulletin, which will be published later this month , will provide data on the number of (CSOs) in each police force at 31 March 2005. Information on Community Support Officer (CSO) strength is not collected at Basic Command Unit level.

**Mrs. James:** To ask the Secretary of State for the Home Department what changes there have been in police numbers in South Wales Police H Division since 1997. [9597]

**Hazel Blears:** Information on strength at basic Command Unit (BCU) level is collected annually and reflects the position at the end of March for each year. Information on BCU strength is only available from 2002 and is set out in the table. The deployment of officers to BCUs is a matter for the Chief Constable (Barbara Wilding) and within the "H" Swansea Divison deployment of officers is a matter for the Divisional Commander.

Information on the number of police officers in BCUs for 31 March 2005 will be published later this month.

*"H" Swansea Division—Police Numbers 2002 to 2004*

| *Year (as at 31 March)* | *Number of Police Officers* |
|---|---|
| 2002[1] | 464 |
| 2003[2] | 500 |
| 2004[2] | 498 |

[1] HM Inspectorate of constabulary database
[2] Home Office Research, Development and Statistics Directorate, Police Statistics

### Stolen Cars

**Andrew Rosindell:** To ask the Secretary of State for the Home Department what estimate he has made of the number of cars stolen in England and Wales for sale in foreign countries since 1990. [8463]

**Hazel Blears:** The recorded crime statistics do not have details of the number of cars stolen for sale in foreign countries.

### Tetra

**Mr. Hoyle:** To ask the Secretary of State for the Home Department which police authorities are not using Tetra. [9116]

**Hazel Blears:** Airwave, the new police radio system, is now available to all 51 police forces in England, Wales and Scotland. Airwave currently has over 125,000 users, and is expected to be fully operational in most forces by the summer of 2006.

### Transsexual Prisoners

**Lynne Jones:** To ask the Secretary of State for the Home Department when his Department will publish guidelines on the treatment of transsexual prisoners. [4695]

**Fiona Mactaggart:** The Prison Service now hopes to publish these guidelines later this year.

### Vehicle Registration/Taxation

**Mark Tami:** To ask the Secretary of State for the Home Department what range of penalties is available for conviction of individuals who fail to register their vehicles in their name. [9207]

**Paul Goggins:** Following summary conviction for failure to supply the correct details for registration, there is a possible maximum fine at level three on the standard scale (currently £1,000). Community rehabilitation and curfew orders are also available under the Criminal Justice Act 2003.

Using an incorrectly registered vehicle became a separate offence on 1 July, likewise with a maximum level three fine on summary conviction. A fixed penalty of £30 may also be offered.

### Violent Crime Bill

**Nia Griffith:** To ask the Secretary of State for the Home Department whether the provisions of the Violent Crime Bill relating to replica guns include the sale of *(a)* such guns and *(b)* plastic ammunition from catalogues from companies based (i) in the UK and (ii) abroad. [6032]

**Hazel Blears:** Clause 30 of the Violent Crime Reduction Bill makes it an offence to manufacture, sell or import a realistic imitation firearm whose appearance makes it indistinguishable, for all practical purposes, from a particular make or model of firearm or from a firearm falling within an existing category of firearm. The ban does not cover plastic ammunition. It will apply to all methods of sale. People who buy from companies based abroad will not be able to import their purchases.

### Volunteering

**Mr. Andrew Turner:** To ask the Secretary of State for the Home Department how many volunteers have been *(a)* recruited and *(b)* identified by the Experience Corps since its inception; and of those how many *(a)* have been actively volunteering as a result of being identified and *(b)* were already actively volunteering. [8710]

**Paul Goggins** *[holding answer 4 July 2005]*: The Experience Corps explicitly targeted individuals with little or no previous experience of volunteering. Whilst the Home Office has not continued to monitor volunteers within the Experience Corps, the organisation states that a significant number of these volunteers are still engaged in a range of volunteering opportunities.

### Weapons (Possession/Amnesty)

**Andrew Rosindell:** To ask the Secretary of State for the Home Department (1) how many people have been convicted of the possession of an illegal weapon in each London borough since 1996; [8516]

(2) how many people have been convicted of gun crimes in each year since 1997; [8520]

(3) how many people aged 14 to 24 years old have been convicted of carrying an illegal knife since 1997. [8546]

**Hazel Blears:** The information contained in the first table gives the number of offenders found guilty of "Possession of offensive weapons without lawful authority or reasonable excuse", by London borough, 1996 to 2003.

It is not possible to identify the number of offenders found guilty of gun crime as the individual circumstances of the offence are not collected.

The information contained in the second table gives the number of offenders aged 14 to 24, found guilty of "having an article with a blade or point in a public place", England and Wales 1997 to 2003.

Statistics on court proceedings for 2004 will be published in the autumn.

*Number of offenders[1] found guilty of "possession of offensive weapons without lawful authority or reasonable excuse"[2], by police force area and magistrates court/London borough, 1996 to 2003*

| *Magistrates courts/borough* | *1996* | *1997* | *1998* | *1999* | *2000* | *2001* | *2002* | *2003* |

| Total Greater London | 923 | 983 | 862 | 718 | 857 | 1,151 | 1,470 | 1,246 |

[1] These data are on the principal offence basis.
[2] Includes "possession of offensive weapons without lawful authority or reasonable excuse on school premises".
[3] Information held centrally does not allow a breakdown of cases by borough in the inner London area.
[4] Cases included with adult courts from 1998.

*Number of offenders[1] aged 14 to 24 years found guilty at all courts for "having an article with a blade or point in a public place"[2], England and Wales 1997 to 2003*

| | *Found guilty* |
|---|---|
| 1997 | 1,607 |
| 1998 | 1,752 |
| 1999 | 1,622 |
| 2000 | 1,799 |
| 2001 | 2,388 |
| 2002 | 2,606 |
| 2003 | 2,552 |

[1] These data are on the principal offence basis.
[2] Includes: "having an article with a blade or point on school premises"

**Mr. Paul Goodman:** To ask the Secretary of State for the Home Department how many weapons have been handed in to police in the High Wycombe area under the recent amnesty; and if he will make a statement. [7602]

**Hazel Blears** *[holding answer 27 June 2005]:* The information requested is not collected centrally.

## Young Offenders

**John McDonnell:** To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness of provision for young offenders; and if he will make a statement. [4788]

**Fiona Mactaggart** *[holding answer 16 June 2005]:* The key measure of the effectiveness of the youth justice system is a reduction in the rate of re-offending. To measure the extent to which offenders re-offend we measure whether or not they are reconvicted within one year. Our target is to reduce juvenile re-offending rates by 5 per cent. by 2004.The latest results, published in February 2005, show that the rate of juvenile reconvictions has reduced by 4.9 per cent. between 1997 and 2003. This is good progress towards our target and evidence that this Government's policies are making an impact.

**Mrs. Dean:** To ask the Secretary of State for the Home Department how many *(a)* men, *(b)* women and *(c)* young offenders are in prison; and how many on average were in prison in each category in each of the last 10 years. [5779]

**Fiona Mactaggart:** On 31 May 2005 there were 61,416 adult males aged 21 years and over, 4,017 adult females aged 21 years and over, and 10,708 young persons aged under 21 held in prison establishments in England and Wales, as recorded on the Prison Service IT system. Averages for each of the last 10 years, as recorded on the Prison Service IT system, are provided in the following table. Figures for young persons include some 21-year-olds who have not been reclassified as adults, and includes both male and female inmates.

*Average population in prison establishments[1], by age group and sex*

*England and Wales*

| | *Adult males* | *Adult females* | *Young persons* |
|---|---|---|---|
| 1995 | 40,628 | 1,702 | 8,630 |
| 1996 | 43,649 | 1,935 | 9,696 |
| 1997 | 47,979 | 2,297 | 10,838 |
| 1998 | 51,191 | 2,650 | 11,456 |
| 1999 | 50,700 | 2,781 | 11,289 |
| 2000 | 50,685 | 2,851 | 11,065 |
| 2001 | 52,142 | 3,216 | 10,942 |
| 2002 | 55,708 | 3,681 | 11,396 |
| 2003 | 58,221 | 3,869 | 10,947 |
| 2004 | 59,897 | 3,950 | 10,809 |

# Written Answers to Questions

*Thursday 7 July 2005*

## CABINET OFFICE

### Civil Contingencies

**Miss McIntosh:** To ask the Chancellor of the Duchy of Lancaster if he will make a statement on the work of the Civil Contingencies Secretariat. [9575]

**Mr. Jim Murphy:** The Civil Contingencies Secretariat (CCS) was set up in 2001 to improve the UK's resilience against disruptive challenges, working in partnership with others at the national, regional and local levels to enhance arrangements for anticipating, assessing, preventing, preparing for, responding to and recovering from all types of disruptive challenge.

The CCS drives the delivery of improved resilience across the government and the public sector by making sure that the Government can continue to function and deliver public services during a crisis. It achieves this through risk assessment and horizon-scanning activity to identify and assess potential and imminent disruptive challenges to the domestic UK, and by working with others to improve the capability of all levels of government, the wider public sector and the private and voluntary sectors to manage potential challenges.

A key focus of the CCS's work over the last year has been the Civil Contingencies Act which received Royal Assent in November 2004. The Act and supporting regulations, guidance and non-legislative measures will deliver a single framework for civil protection in the United Kingdom. Part 1 of the Act establishes a clear set of roles and responsibilities for organisations with a role in emergency planning and response at the local level. As enabling legislation, this part of the Act is heavily reliant on supporting regulations and guidance, which are currently under development. Part 2 of the Act modernises the United Kingdom's emergency powers framework and is already in force.

### EU Presidency

**Mr. Dismore:** To ask the Chancellor of the Duchy of Lancaster if he will take steps to ensure that English wine is served *(a)* exclusively and *(b)* at the request of guests at meals, parties and receptions hosted by his Department during the EU presidency; and if he will make a statement. [8872]

**Mr. Hutton:** In planning presidency events, the Cabinet Office's principal objective is to source the most suitable venue for each event in terms of facilities, accessibility and overall value for money. Wherever possible, conference organisers will make arrangements to serve British produce, including English wine.

## CULTURE, MEDIA AND SPORT

### British Board of Film Classification

**Mike Penning:** To ask the Secretary of State for Culture, Media and Sport if she will list the examiners at the British Board of Film Classification; what the professional background of each is; and if she will make a statement. [10386]

**James Purnell:** The British Board of Film Classification (BBFC) is an independent company and my right hon. Friend has no locus to provide the information the hon. Member requests. Examiners employed by the BBFC make recommendations on film classification to the BBFC's director, David Cooke, who has the responsibility for all such decisions. Ultimately, it is for local authorities to decide whether to accept the classification awarded by the BBFC to films for cinema release or to impose their own.

### Digital Television

**Mrs. James:** To ask the Secretary of State for Culture, Media and Sport what assistance will be given to *(a)* pensioners and *(b)* people on low incomes to switch to digital television. [9780]

**James Purnell:** The Government are committed to ensuring that the interests of the most vulnerable consumers are protected during digital switchover and have proposed that the BBC help establish and fund appropriate support. We will announce details of the scope of this assistance in due course.

As part of the process of detailed scheme design, we and the BBC will run a trial later this year in the Bolton ward of Hulton, in association with SwitchCo and Bolton metropolitan borough council. The aim of the trial is to assess the effectiveness of various forms of assistance, with leaflets, telephone helplines and support from carers and social workers among the methods being piloted.

### Licensing Act 2003

**Mr. Moss:** To ask the Secretary of State for Culture, Media and Sport what recent representations she has received from sports clubs about the impact on them of the Licensing Act 2003. [9455]

**James Purnell:** Since 16 May, my Department has received 22 letters from sports clubs via their constituent MPs, one letter from the National Golf Clubs Advisory Association and another from the English Golf Union, and two letters from individual sports clubs. Most of the letters have concerned the impact of the 2003 Act's fee structure on the running of sports club bars. My Department recently announced the Independent Review Panel, chaired by Sir Les Elton, which will review fee levels and associated costs, including those payable by amateur sports clubs.

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport what estimate her Department has made of the number of premises licence applications for variations to include live music that will be made under the transitional provisions for the Licensing Act 2003 by *(a)* 6 August and *(b)* 24 November; and if she will make a statement. [10191]

**James Purnell:** The Government estimate that during the transitional period, 65 per cent. of all applications to convert existing licences into new premises licences will include some form of variation. We have no estimate on what proportion of variations would involve live music. The Government established the Live Music Forum to promote the take-up of reforms in the Licensing Act 2003 relating to the performance of live music.

### Ofcom

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport what means her Department uses to assess the effectiveness of Ofcom in upholding its duties to citizens and consumers; and if she will make a statement. [10043]

**James Purnell:** The Office of Communications (Ofcom) is a public corporation, operating independently from Government, principally under the terms of the Communications Act 2003 and the Office of Communications Act 2002. The Office of Communications Act requires Ofcom to report annually to the Secretary of State on the carrying out of their functions during the financial year and a copy of this report is laid before each House. In addition, DCMS and DTI Ministers and their departmental officials meet regularly with the Ofcom chairman and senior officials to discuss issues relating to the exercise of Ofcom's statutory functions.

### Radio Station Licences

**Mr. Rob Wilson:** To ask the Secretary of State for Culture, Media and Sport how many applications there were for local radio station licences in *(a)* 2004 and *(b)* to date in 2005. [9982]

**James Purnell:** The matter raised is the responsibility of the Office of Communications (Ofcom) independent regulator. Accordingly, my officials have asked the Chief Executive of Ofcom to respond directly to the hon. Member. Copies of the Chief Executive's letter will be placed in the Libraries of both Houses.

## DEFENCE

### Gibraltar

**Mr. Hoyle:** To ask the Secretary of State for Defence if he will make a statement on the future of RAF Gibraltar; and how many and what types of aircraft use the base. [7207]

**Mr. Ingram:** The Ministry of Defenee is committed to the future of Gibraltar and its defence outputs, including the airport.

There are no permanently based aircraft at RAF Gibraltar but the base is available for use by all the United Kingdom military aircraft except Tri-Star, VC10 and E3 due to runway length performance restrictions.

The following aircraft have used the base in the last year:

*UK military*

C130
C17
Tornado F3
Tornado GR4
Jaguar
Nimrod
BA 146
BA 125
Hawk
Puma
Merlin
Chinook
Sea Harrier
Falcon DA 20
Lynx

*Foreign military*

C130
CP140
C12
Fokker 50
C560
C26
P3
Learjet
C160
Lynx
Sea King
Sea Hawk
CN235
C40

In 2004 there were 1,358 military movements.

Details of civil flights are not held. The largest civil aircraft regularly handled is the B757. Schedules are flown by B757 and A320 but numerous types, from light aircraft/powered gliders upwards, are regular visitors.

**Mr. Hoyle:** To ask the Secretary of State for Defence how many other nations' air forces have used RAF Gibraltar in the last three years; and how many and what type of aircraft were involved. [7208]

**Mr. Ingram:** Aircraft from the eight other nations' air forces have used Gibraltar in the last three years. 61 aircraft of the following types were involved: C130, C26, C12, P3, C40, Learjet, Sea Hawk, CP140, C160, C560, CN235, Fokker 50, Lynx, and Sea King.

### Maritime Forces

**Dr. Julian Lewis:** To ask the Secretary of State for Defence if he will list the *(a)* Royal Navy and *(b)* Royal Fleet Auxiliary vessels which are not at full operational readiness in consequence of the STOROB process of cannibalisation. [9696]

**Mr. Ingram:** No units are at a reduced state of readiness as a result of the STOROB process.

### Prisoners of War

**Mr. Tyrie:** To ask the Secretary of State for Defence whether the report made to Multi-National Division (South East) by the *(a)* Prisoner of War Registration

Unit and *(b)* Prisoner Monitoring Team at Camp Bucca has been forwarded to his Department; and if he will make a statement. [7900]

**Mr. Ingram:** To the best of our knowledge, no reports made by the Prisoner of War Registration Unit or Prisoner of War Monitoring Team were forwarded to the Ministry of Defence.

### RN Patrol Boats

**Dr. Julian Lewis:** To ask the Secretary of State for Defence if he will make a statement on the current whereabouts of the three Royal Naval patrol boats seized by Iran in June 2004; what representations he has made to the government of Iran since their seizure; and what his assessment is of the date of their likely return to the UK. [9765]

**John Reid:** Current information indicates that the three patrol boats are being held in South West Iran. We have maintained a dialogue with the Iranian authorities since June 2004 and, at every opportunity, continue to press for their return.

## DEPUTY PRIME MINISTER

### Advertisements

**Mark Tami:** To ask the Deputy Prime Minister what definition his Department uses of a *(a)* fixed and *(b)* mobile site for posters and advertisements. [9223]

**Yvette Cooper:** There is no definition of a fixed or mobile site. The definition of "site" is in the Town and Country Planning (Control of Advertisements) Regulations 1992. Sites are not characterised as fixed or mobile. The extent of the site is a matter for the local planning authority to decide bearing in mind all the circumstances of the case.

### Affordable Housing

**Mr. Hoyle:** To ask the Deputy Prime Minister how many *(a)* affordable homes and *(b)* homes for rent were provided with public funds in Lancashire in each of the last five years, broken down by district council area. [8895]

**Yvette Cooper:** The following table shows the number of low-cost home ownership units for sale, and units for rent, provided with public funds through the Housing Corporation in local authorities in Lancashire from 2000–01 to 2004–05.

| | *2000–01* | | *2001–02* | | *2002–03* | | *2003–04* | | *2004–05* | |
|---|---|---|---|---|---|---|---|---|---|---|
| | *(a) Sale* | *(b) Rent* | *(a) Sale* | *(b) Rent* | *(a) Sale* | *(b) Rent* | *(a) Sale* | *(b) Rent* | *(a) Sale* | *(b) Rent* |
| Burnley | 16 | 16 | 0 | 4 | 0 | 0 | 0 | 0 | 0 | 6 |
| Chorley | 0 | 15 | 0 | 18 | 0 | 14 | 4 | 12 | 13 | 9 |
| Fylde | 0 | 2 | 0 | 45 | 7 | 36 | 7 | 20 | 0 | 29 |
| Hyndburn | 0 | 44 | 0 | 35 | 0 | 10 | 0 | 13 | 0 | 6 |
| Lancaster | 16 | 61 | 0 | 20 | 28 | 41 | 2 | 7 | 6 | 36 |
| Pendle | 0 | 30 | 0 | 63 | 0 | 38 | 0 | 19 | 0 | 1 |
| Preston | 13 | 170 | 0 | 68 | 9 | 71 | 8 | 91 | 17 | 13 |
| Ribble Valley | 19 | 15 | 5 | 11 | 0 | 0 | 0 | 0 | 0 | 8 |
| Rossendale | 17 | 3 | 0 | 20 | 0 | 8 | 0 | 13 | 0 | 0 |
| South Ribble | 2 | 41 | 8 | 37 | 10 | 59 | 10 | 2 | 22 | 16 |
| Wyre | 3 | 152 | 12 | 36 | 0 | 68 | 48 | 33 | 0 | 23 |
| Total Lancashire | 86 | 549 | 25 | 357 | 45 | 345 | 79 | 210 | 58 | 147 |

The figures include properties provided through the Housing Corporation Approved Development Programme, the Local Authority Social Housing Grant (LASHG) and Transitional LASHG; and the Safer Communities Social Housing Fund.

Figures do not include Right to Acquire or Voluntary Purchase Grant sales, as these are losses to social housing stock.

### Council Tax

**Miss McIntosh:** To ask the Deputy Prime Minister if he will reconsider the proposed capping of Hambleton district council's tax. [9461]

**Mr. Woolas:** The Office of the Deputy Prime Minister has been giving careful consideration to the challenges which the designated authorities have made to the caps proposed by my right hon. Friend the Deputy Prime Minister, the Secretary of State and we aim to announce decisions before the summer recess. Any in year capping will be subject to approval of an order by the House of Commons.

**Mrs. Spelman:** To ask the Deputy Prime Minister what expenditure in total has been incurred so far on the council tax revaluation in England by *(a)* his Department, *(b)* the Valuation Office Agency and *(c)* other Government Departments and agencies. [9529]

**Mr. Woolas:** The information is as follows:

(a) The cost of council tax revaluation for the Office of the Deputy Prime Minister is not separately identified.

(b) The Valuation Office Agency incurred costs of £31.8 million up to 31 March 2005.

(c) The cost for the Valuation Tribunal Service is not separately identified.

### English Partnerships

**Mr. Hoyle:** To ask the Deputy Prime Minister how much land English Partnerships owns in each Lancashire district. [8897]

**Yvette Cooper:** English Partnerships currently owns around 800 hectares of land in Lancashire, including two recently acquired former hospital sites at

Whittingham, Preston (81 ha) and Lancaster Moor (18.5 ha), which can be broken down by district as follows:

| *District* | *Hectares* |
|---|---|
| Preston | 567.2 |
| South Kibble | 59.4 |
| Chorley | 54.6 |
| Skelmersdale | 99.5 |
| Lancaster | 18.5 |

**Mr. Sheerman:** To ask the Deputy Prime Minister what recent discussions he has had with English Partnerships on securing a better return on resources under its ownership. [9803]

**Yvette Cooper:** English Partnerships seeks to ensure that its resources and assets are utilised efficiently and effectively in support of Government's objectives for sustainable communities.

The Office of the Deputy Prime Minister has regular meetings with English Partnerships at all levels to discuss its programme and utilisation of resources. One of the key elements of this is the annual corporate planning process where English Partnerships' Corporate plan is discussed and agreed by ODPM officials and Ministers.

Effective use of resources and value for money are primary considerations and English Partnerships' project appraisal and approvals processes are kept under regular review.

### Fire Service (Essex)

**Mr. Amess:** To ask the Deputy Prime Minister how many attacks have taken place on fire crews in *(a)* Southend and *(b)* Essex in each of the last five years. [9970]

**Jim Fitzpatrick:** I understand from the Essex County Fire and Rescue Service that information on attacks has been collected for the last two months, and that during this period they have recorded two attacks. It is not known whether either was in Southend.

**Mr. Amess:** To ask the Deputy Prime Minister what the average response time was to an emergency call to the Fire Brigade in each Essex borough in each of the last eight years for which figures are available. [9972]

**Jim Fitzpatrick:** The information requested is not held centrally and could be provided only at disproportionate cost.

### Flooding (North Yorkshire)

**Miss McIntosh:** To ask the Deputy Prime Minister if he will propose a moratorium on planning applications for construction of buildings on *(a)* functional flood plains and *(b)* areas that have recently experienced flooding problems. [9467]

**Yvette Cooper:** Owners and developers of land cannot be prevented from submitting applications, but Planning Policy Guidance note (PPG) 25 advises that permissions for built development should be wholly exceptional in the functional floodplains, where water has to flow or be stored in times of flood. The exceptions are limited to essential transport and utilities infrastructure that has to be there, or recreational and amenity facilities suitable for a waterside location. PPG25 applies a sequential test to new development in all areas considered to be at risk of flooding, so as to direct development to areas of lower risk. It requires a flood risk assessment to accompany applications for planning permission in all areas at risk of flooding.

### Housing Market Renewal Pathfinder

**Mr. Gordon Prentice:** To ask the Deputy Prime Minister what assessment he has made of the merits of establishing urban development corporations in the Housing Market Renewal Pathfinder areas in England; and if he will make a statement. [9387]

**Yvette Cooper:** Housing market renewal pathfinder intervention areas are tightly defined to encompass largely residential areas with the greatest concentrations of housing in low demand. The pathfinder partnerships of local authorities, the private sector and others are working well together to renew housing markets. Urban Regeneration Companies or other regeneration vehicles are active in the areas of many pathfinders and co-operation between the two brings a strong economic development dimension into pathfinder strategies and programmes.

### London Housing Board

**Clive Efford:** To ask the Deputy Prime Minister (1) when he expects to receive the London Housing Board's recommendations on funding allocations for 2006 to 2008; [9399]

(2) if he will place a copy of the London Housing Board's recommendations on funding allocations for 2006 to 2008 in the Library; [9400]

(3) when he expects to reach a decision on the London Housing Board's recommendations on funding allocations for 2006 to 2008. [9401]

**Yvette Cooper:** The Office of the Deputy Prime Minister has recently received the London Housing Board's submission setting its recommendations on the allocation of Regional Housing Pot funds for 2006–07 and 2007–08. The submission and the associated London Housing Strategy are being placed on the Government Office for London's website (www.gos.gov.uk/gol). We will be announcing decisions on their, and other regions, recommendations shortly.

### Mobile Phone Masts

**Mr. Mates:** To ask the Deputy Prime Minister what assessment he has made of the effectiveness of planning procedures for mobile phone masts. [9697]

**Yvette Cooper:** Current planning guidance for all electronic communication developments is set out in planning policy guidance note 8 (revised) (PPG8). The

Office of the Deputy Prime Minister has also issued a Code of Best Practice on Mobile Phone Network Development. It provides more detailed advice than is contained in planning policy guidance note 8.

In September last year the Office of the Deputy Prime Minister commissioned the University of Reading and Arup to undertake an independent study to assess the impact that the code of best practice on mobile phone network development has had since its introduction. The report will be published in due course. On 4 April I announced the Government will be commissioning further research to identify the future direction of mobile phone technology and the future need for mast developments.

### Motorway Advertisements

**Mark Tami:** To ask the Deputy Prime Minister what his policy is on the siting of advertisements on land adjacent to motorways. [9225]

**Yvette Cooper:** Outdoor advertisements are controlled by local planning authorities under the Town and Country Planning (Control of Advertisements) Regulations 1992.

Most advertisements on land directly facing motorways and major roads require the express consent from the relevant local planning authority as well as prior permission from the landowner before they may be displayed lawfully. When considering whether an advertisement should be allowed to be displayed, the local planning authority must consider amenity and public safety aspects on a site-specific basis.

Local planning authorities have enforcement powers to deal with advertisements displayed unlawfully.

### Neighbourhood Renewal Support Fund

**Jim Cousins:** To ask the Deputy Prime Minister what the floor targets for Neighbourhood Renewal Support Fund are; what the performance of Newcastle upon Tyne against those targets was; and what the average performance against those targets in *(a)* the North East and *(b)* England was. [9872]

**Mr. Woolas:** Floor targets are an advance in how Government tackles disadvantage. They are delivered by Government Departments and contribute to the overarching Office of the Deputy Prime Minister's Public Service Agreement, (PSA) 1 target, on neighbourhood renewal and social exclusion.

Floor targets for neighbourhood renewal:

Help reduce the gap between the poorest areas and the rest of the country.

Show what the priorities should be at a local level.

Make sure that where public services are failing, they get better.

Areas in receipt of Neighbourhood Renewal Fund resources focus on delivering floor targets and targets agreed locally.

The latest floor target performance data we hold centrally have been made available in the Library of the House, although more up to date data may be available locally. These graphs show the performance of Newcastle upon Tyne, the North East average, the average performance of all areas in receipt of Neighbourhood Renewal Fund, and the England average for each of the key outcome areas (health, education, crime, worklessness, and liveability). We do not have a graph for housing, as centrally we only have data on council-owned dwellings.

Further floor target performance data can be found at Floor Targets Interactive http://www.neighbourhood.gov.uk/page.asp?id=21

**Jim Cousins:** To ask the Deputy Prime Minister if he will place in the Library *(a)* the assessment of each (i) output and (ii) super output area of the city of Newcastle upon Tyne against the factors in the matrix of deprivation and *(b)* the rating of each post-2004 electoral ward in the city of Newcastle against (A) each factor and (B) the combined indicator in the index of deprivation. [9873]

**Mr. Woolas:** The Indices of Deprivation 2004 (ID 2004) was created only at lower layer Super Output Area level (SOA), with summaries of the SOA level data at local authority and county council levels. It is therefore only possible to provide ranks for each SOA in Newcastle upon Tyne against the seven individual domains and the overall Index of Multiple Deprivation (IMD 2004) and this information has been made available in the Library of the House.

### New Build (Lancashire)

**Mr. Hoyle:** To ask the Deputy Prime Minister how many homes have been built in Lancashire in each of the last five years, broken down by district council area. [8896]

**Yvette Cooper:** The annual numbers of new build completions reported for each of the housing authorities in Lancashire since 2000–01 are tabled as follows.

*Numbers of new build completions*

| | *2000–01* | *2001–02* | *2002–03* | *2003–04* | *2004–05* |
|---|---|---|---|---|---|
| Blackburn and Darwen | 524 | 400 | 407 | 347 | 221 |
| Blackpool | 227 | 521 | 206 | 141 | 290 |
| Burnley | 260 | 96 | 77 | 132 | 81 |
| Chorley | 412 | 404 | 464 | 385 | 229 |
| Fylde | 241 | 184 | 248 | 327 | 215 |
| Hyndburn | 178 | 143 | 164 | 169 | 170 |
| Lancaster | 284 | 172 | 459 | 500 | 192 |
| Pendle | 207 | 272 | 159 | 158 | 177 |
| Preston | 360 | 401 | 82 | 289 | 718 |
| Ribble Valley | 198 | 172 | 187 | 226 | 157 |

*Numbers of new build completions*

| | 2000–01 | 2001–02 | 2002–03 | 2003–04 | 2004–05 |
|---|---|---|---|---|---|
| Rossendale | 59 | 148 | 158 | 208 | 318 |
| South Kibble | 237 | 330 | 523 | 269 | 345 |
| West Lancashire | 340 | 274 | 411 | 256 | 422 |
| Wyre | 493 | 398 | 368 | 381 | 208 |

*Source:*
Returns (P2/NHBC) to ODPM on building control completions.

## Planning (London)

**Mr. Buritow:** To ask the Deputy Prime Minister on how many occasions the Mayor of London exercised his power to direct a refusal of a planning application in each of the last five years for each London borough; and how many were subsequently subject to an appeal where permission was *(a)* granted and *(b)* not granted. [9443]

**Yvette Cooper:** The information is in the following tables.

*2001*

| Borough | Direct Refusal | Direction withdrawn | Appeal SofS Granted | Appeal SofS Refused |
|---|---|---|---|---|
| Barking and Dagenham | 1 | — | — | 1 |
| Brent | 1 | — | — | 1 |
| Bromley | 1 | 1 | — | — |
| Greenwich | 1 | 1 | — | — |
| Harrow | 1 | 1 | — | — |
| Lambeth | [1]1 | — | — | — |
| Merton | 1 | 1 | — | — |
| Tower Hamlets | 1 | 1 | — | — |
| Westminster | 1 | 1 | — | — |

*2002*

| Borough | Direct refusal | Direction withdrawn | Appeal SofS Granted | Appeal SofS Refused |
|---|---|---|---|---|
| Brent | 2([1]1) | 1 | — | — |
| Bromley | 2 | — | 1 | 1 |
| Havering | [1]1 | — | — | — |
| Hillingdon | 1 | — | 1 | — |
| Lewisham | [1]1 | — | — | — |
| Southwark | 1 | 1 | — | — |

*2003*

| Borough | Direct refusal | Direction withdrawn | Appeal SofS Granted | Appeal SofS Refused |
|---|---|---|---|---|
| City | 1 | 1 | — | — |
| Lambeth | 1 | 1 | — | — |

*2004*

| Borough | Direct refusal | Direction withdrawn | Appeal SofS Granted | Appeal SofS Refused |
|---|---|---|---|---|
| Richmond | 1 | 1 | — | — |
| Southwark | [2]1 | — | — | — |
| Sutton | 2 | 2 | — | — |

*2005*

| Borough | Direct refusal | Direction withdrawn | Appeal SofS Granted | Appeal SofS Refused |
|---|---|---|---|---|
| Havering | [3]1 | — | — | — |
| Lewisham | 1 | 1 | — | — |
| Newham | [3]1 | — | — | — |
| Southwark | 1 | 1 | — | — |

[1] No appeal.
[2] Awaiting appeal decision.
[3] Still considering whether to appeal.

## Safer Stronger Communities Fund

**John Hemming:** To ask the Deputy Prime Minister what the allocation for Birmingham local authority is from the Safer Stronger Communities fund for 2005–06; and what the population of Birmingham local authority area is. [9175]

**Mr. Woolas:** The Safer Stronger Communities fund (SSCF) allocation from the Office of the Deputy Prime Minister (ODPM) for Birmingham in 2005–06 and the population of Birmingham local authority area are detailed in the table:

*Safer Stronger Communities Fund*

| | |
|---|---|
| Region | West Midlands |
| Unitary/district/CDRP | Birmingham |
| Community Empowerment Networks (CENs) | £1,314,023 |
| Neighbourhood Management Pathfinders (NMPs) | — |
| Street crime wardens (SCW) | £229,343 |
| 2005–06 ODPM total | £1,543,366 |
| Population estimate | 992,100 |

**John Hemming:** To ask the Deputy Prime Minister what the allocation for Walsall local authority is from the Safer Stronger Communities fund for 2005–06; and what the population of Walsall local authority area is. [9176]

**Mr. Woolas:** The Safer Stronger Communities fund (SSCF) allocation from the Office of the Deputy Prime Minister (ODPM) for Walsall in 2005–06 and the population of Walsall local authority area are detailed in the table:

*Safer Stronger Communities Fund*

| | |
|---|---|
| Region | West Midlands |
| Unitary/district/CDRP | Walsall |
| Community Empowerment Networks (CENs) | £562,142 |
| Neighbourhood Management Pathfinders (NMPs) | — |

*Safer Stronger Communities Fund*

| | |
|---|---|
| Street crime wardens (SCW) | — |
| 2005–06 ODPM total | £562,142 |
| Population estimate | 252,400 |

**John Hemming:** To ask the Deputy Prime Minister what the allocation for Wolverhampton local authority is from the Safer Stronger Communities fund for 2005–06; and what the population of Wolverhampton local authority area is. [9177]

**Mr. Woolas:** The Safer Stronger Communities fund (SSCF) allocation from the Office of the Deputy Prime Minister (ODPM) for Wolverhampton in 2005–06 and the population of Wolverhampton local authority area are detailed in the table:

*Safer Stronger Communities Fund*

| Region | West Midlands |
|---|---|
| Unitary/district/CDRP | Wolverhampton |
| Community Empowerment Networks (CENs) | £602,392 |
| Neighbourhood Management Pathfinders (NMPs) | — |
| Street crime wardens (SCW) | £225,466 |
| 2005–06 ODPM total | £827,858 |
| Population estimate | 238,900 |

### Social Housing

**Daniel Kawczynski:** To ask the Deputy Prime Minister if he will provide additional support for Shrewsbury and Atcham borough council for the provision of social housing. [8696]

**Yvette Cooper:** Decisions on the overall funding for provision of additional social and other affordable housing in 2006–07 and 2007–08 through the Housing Corporation's Affordable Housing Programme will be taken over the summer. Detailed allocations to individual local authority areas will be made early next year in the light of priorities identified in Regional Housing Strategies and the quality and value for money of bids made to the Housing Corporation.

### Standards Board for England

**Sarah Teather:** To ask the Deputy Prime Minister what the running costs were of the Standards Board for England in each of the last five years. [8296]

**Mr. Woolas:** Information on the amount of grant provided to the Standards Board for England each year is given as follows.

| | *Grant (£ million)* |
|---|---|
| 2001–02 | 2.646 |
| 2002–03 | 6.514 |
| 2003–04 | 8.944 |
| 2004–05 | 8.94 |
| 2005–06 (expected) | 9.181 |

**Sarah Teather:** To ask the Deputy Prime Minister how many cases were reported to the Standards Board for England in each of the last five years; and in how many cases standards were found to have been breached. [8297]

**Mr. Woolas:** Information on the total number of cases received each year by the Standards Board for England since its establishment, and the number of determinations where breaches of the code of conduct for members were confirmed, is given as follows.

| | *2002–03* | *2003–04* | *2004–05* |
|---|---|---|---|
| Total cases received by the Standards Board | 2,948 | 3,566 | 3,861 |
| Determinations made by the Adjudication Panel or local Standards Committees confirming a breach of the code | 29 | 162 | 119 |

**Sarah Teather:** To ask the Deputy Prime Minister what the average cost of an investigation by the Standards Board for England was in 2004–05. [8303]

**Mr. Woolas:** The Standards Board for England estimates that the current average cost of an investigation into allegations of a breach of the code of conduct is around £5,000 per case.

### Surgery Car Parking

**Mr. Gordon Prentice:** To ask the Deputy Prime Minister what guidance he gives planning authorities concerning car parking requirements for *(a)* dental surgeries and *(b)* general practitioners surgeries in residential areas; and if he will make a statement. [9384]

**Yvette Cooper:** The Office of the Deputy Prime Minister has not given guidance on this specific topic. General guidance on parking in planning policy guidance note (PPG) 13 "Transport" stresses the need to restrict the amount of parking in new developments as part of a package of planning and transport measures, to promote sustainable travel choices. Local authorities should in development plan documents set maximum levels of parking for broad classes of development which may include surgeries, and parking for disabled people should be additional to these maximum parking standards.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Bovine TB

**Mr. Leigh:** To ask the Secretary of State for Environment, Food and Rural Affairs how many cattle were slaughtered in the last recorded month as a result of bovine TB. [10116]

**Mr. Bradshaw:** Latest provisional TB statistics for Great Britain indicate that 1,964 cattle were slaughtered as bovine tuberculosis reactors or direct contacts in May 2005.

### Environmental Policies

**Mark Lazarowicz:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on her environmental priorities for the UK presidency of the European Union. [10114]

**Margaret Beckett:** A key priority is climate change action, working with EU partners and internationally, prior to the Kyoto convention meeting in Montreal. Also, progress on the "REACH" chemicals regulation and the EU Sustainable Development Strategy.

### EU Sugar Regime

14. **Mr. Dunne:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the implications for the British sugar industry of the European Commission's proposals for reform of the EU sugar regime. [10121]

**Margaret Beckett:** The Commission's proposals are a step change towards removing the market distortions which stop UK processors and growers benefiting from their relative efficiency and comparative advantage. The package includes a voluntary restructuring scheme and decoupled support payments to help in the adjustment process.

### Fisheries

**Mr. Hayes:** To ask the Secretary of State for Environment, Food and Rural Affairs how many fatalities of UK fishermen she estimates were caused by fishing vessels operated by other EU states in each of the last five years; and if she will make a statement. [9024]

**Dr. Ladyman:** I have been asked to reply.

The information requested is not held by the Department for Transport (DfT).

The Marine Accident Investigation Branch (MAIB) of DfT record details of fatalities aboard UK registered fishing vessels. From 1999 to 2004 there were 80 fatalities to crew of UK registered fishing vessels. The nationalities of these are not recorded, but are likely to be predominantly UK. None of these fatalities has been recorded by MAIB as involving a fishing vessel registered in another EU state.

### Fly-tipping

**Mark Tami:** To ask the Secretary of State for Environment, Food and Rural Affairs what advice her Department gives to local authorities on measures to combat fly-tipping. [9208]

**Mr. Bradshaw:** Guidance was issued to local authorities, and others, on the new powers to tackle fly-tipping that were included in the Clean Neighbourhoods and Environment Act 2005 and which were commenced with effect from 7 June. The 2005 Act contains further powers for local authorities to issue fixed penalty notices for some offences. The Department is funding ENCAMS to provide training for local authorities on how to use these powers later in 2005, in advance of the powers being commenced in April 2006.

We are funding the Environment Agency through a project known as Flycapture Enforcement to provide additional training for local authority enforcement officers and local authority lawyers on how to successfully build cases against those responsible for fly-tipping offences and on hew to use the full range of enforcement powers that are now available to them. It is hoped that this training will be available from September.

Finally, we have commissioned the Jill Dando Institute of Crime Science to carry out research into the causes and incentives of fly-tipping. One of the outputs of this work will be a good practice guide for local authorities on effective strategies for reducing fly tipping levels in their area. This should be available in the spring of 2006.

### Newcastle Brown Ale

**Jim Cousins:** To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* product specification, *(b)* production and *(c)* content disclosures were required as a result of the granting of protected geographical indicator status to Newcastle Brown Ale in 1998; and in what form such disclosures were made. [9875]

**Jim Knight:** Newcastle Brown Ale was registered as a Protected Geographical Indication (PGI) under Article 17 of EC Regulation 2081/92 on the protection of geographical indications and designations of origin for agricultural products and foodstuffs. Article 17, which no longer applies, required the applicant to send the full product specification, including a list of raw materials and the method of production, to the competent authority in their member state. Article 17 did not require the publication of a summary specification in the *Official Journal* of the European Union. However, a copy of the, summary specification is available at www.defra.gov.uk/foodnn/foodname/UKingdom/newbrown.htm.

**Jim Cousins:** To ask the Secretary of State for Environment, Food and Rural Affairs what consultations were carried out on the proposed removal of protected geographical indicator status from Newcastle Brown Ale; in what form comments were sought; and how many replies were received. [9876]

**Jim Knight:** Defra wrote to the relevant industry organisations on 9 July 2004 and invited written comments from them. In addition, officials were already in correspondence with CAMRA (Campaign for Real Ale) about the application by the producers for cancellation of the registration of protected geographical indication status for Newcastle Brown Ale. The Department has, to date, received two replies, including the correspondence from CAMRA.

### Pet Cemeteries

**Mr. Andrew Turner:** To ask the Secretary of State for Environment, Food and Rural Affairs when the hon. Member for Wight will receive the substantive reply promised in the Prime Minister's letter of 2 June concerning his response of 25 May 2005, *Official Report*, column 699, about pet cemeteries. [10089]

**Mr. Bradshaw** *[holding answer 6 July 2005]:* I wrote to the hon. Member on 4 July and explained that I was taking up the issue with the Environment Agency on the subject of fees for the regulation of pet cemeteries. I will write to the hon. Member substantively in due course and place a copy of my letter in the Library.

## Press Officers

**Mr. Burstow:** To ask the Secretary of State for Environment, Food and Rural Affairs how many press officers the Department and its predecessors employed in each year since 1997; and what the cost was in each year. [8137]

**Jim Knight:** Defra was set up in June 2001. Figures relating to the number of press officers by the Departments subsumed into the new Department would not correspond accurately to the scope of the current press office.

Year on year comparisons since that date are as follows:

| *As at June* | *Press officers* |
|---|---|
| 2001 | 22 |
| 2002 | 22 |
| 2003 | 22 |
| 2004 | 18 |
| 2005 | 24 |

The numbers vary within the course of any one year.

The information on costs of press officers could be provided only at disproportionate cost. However, the salary and directly related costs for all permanent and temporary staff for both press officers and support staff were as follows:

| *Financial year* | *£ million* |
|---|---|
| 2001–02 | 1.3 |
| 2002–03 | 1.2 |
| 2003–04 | 1.1 |
| 2004–05 | 1.3 |

## Rural Pathfinders

**Charlotte Atkins:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the Rural Pathfinders in England; on what date each was established; and what outcomes they have achieved since inception. [10385]

**Jim Knight:** There are eight rural delivery pathfinders, one in each of the Government Office regions (outside London):

Dorset;

Fens area of Cambridgeshire, Norfolk and Peterborough;

Hampshire;

Humber sub-region (covering East Riding of Yorkshire Council, North Lincolnshire and North East Lincolnshire);

Lancashire;

Peak District Rural Action Zone (covering the Derbyshire High Peak and Dales, Staffordshire Moorlands and East Staffordshire areas of the Peak District National Park);

Shropshire; and

West Durham (covering Teesdale and Wear Valley).

Announced as part of the Government's Rural Strategy in July 2004, the pathfinders were formally-launched on 14 March 2005 and will run through to April 2007. It is too early to expect outcomes from the work to date but the pathfinders have been working closely with their local and regional partners to develop a shared agreed business plan to tackle local priorities and identify practical solutions to gaps, blockages or failures in service delivery to rural customers.

**Charlotte Atkins:** To ask the Secretary of State for Environment, Food and Rural Affairs what the terms of reference of the Rural Pathfinder for the Peak District are; which other agencies are involved in its work; and if she will make a statement. [10416]

**Jim Knight:** As set out in the "pathfinders prospectus" published in March 2005, a copy of which has been made available in the Library of the House, the overall aim of the rural delivery pathfinders is to explore and test opportunities for more joined up, flexible and effective approaches to rural delivery at a local level. This includes innovation in rural development and delivery of services in rural areas, and better prioritisation of existing resources, in line with local priorities, towards areas, communities and people with the greatest needs. The prospectus sets out in more detail the overarching framework within which all pathfinders, including the one in the Peak District Rural Action Zone, are operating.

In the Peak District RAZ pathfinder, the focus is on access to services with particular emphasis on access to support a sustainable rural economy and community regeneration. Local priorities for action include affordable housing, sustainable tourism, promoting local distinctiveness, learning and skills, and enhancing and sustaining a high quality environment. More detail can be found in the outline business plan published at the pathfinders launch on 14 March 2005 (and to be found at http://wwwdefra.gov.uk/rural/ruraldelivery/pathfinders/default.htm)

From the outset the pathfinder has aimed for an inclusive approach; the cross-border nature of the area makes this imperative. The steering group formed to oversee the preparatory work for the pathfinder involves two Local Strategic Partnerships (Derbyshire and Staffordshire), six local authorities, a National Park Authority, a sub-regional Strategic Partnership, the voluntary and community sector, representation from the Natural England confederation, a Rural Community Council, a Government Office and RDA. further linkages are being developed with other partners within the East and West Midlands.

The pathfinders represent a key element of DEFRA's agenda to ensure that decisions on service delivery can be taken closer to the customer. We have allowed local areas to set the agenda for what they tackle. This is critical because we are embarked on a radical process of improving the way in which we support rural delivery, as outlined in Rural Strategy 2004. The pathfinders provide us and our delivery partners with an opportunity to recognise and respond to difficulties and opportunities and better meet rural needs.

## FOREIGN AND COMMONWEALTH AFFAIRS

### Guinea-Bissau

**Mark Simmonds:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment has been made of the *(a)* transparency and *(b)* legitimacy of the recent election in Guinea-Bissau. [9251]

**Ian Pearson:** The European Union Election Observation Mission, along with other international observers, considered the first round of presidential elections to have been peaceful and generally well administered in line with international principles for democratic elections. On 23 June the UN Security Council expressed its satisfaction with the peaceful and orderly manner in which the polls took place. We welcome the fact that all candidates have now accepted the results of the poll and encourage all parties in Guinea-Bissau to continue to respect the democratic process when the second round of elections takes place on 24 July.

### Liberia

**Mr. Rob Wilson:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he has taken to facilitate the trial of former Liberian President Charles Taylor for violation of international humanitarian law. [9984]

**Ian Pearson:** The UK Government believe that Charles Taylor should face justice at the Special Court for Sierra Leone. We have made this clear to the Nigerian Government and will continue to do so. We remain in discussion with Nigeria and our international partners over the next steps.

### Witchcraft

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has passed to the Home Office information the Department has gathered on the impact on children of being accused of witchcraft, with particular reference to countries in Africa. [9119]

**Ian Pearson:** We have not to date passed any information on this subject to the Home Office because we do not hold anything relevant. We do, however, forward information from our overseas posts to home Departments where relevant.

## HEALTH

### Advertising Campaigns

**Mr. Andrew Turner:** To ask the Secretary of State for Health if she will list the health-related advertising campaigns commissioned since February 2002, indicating the *(a)* objectives, *(b)* start and end dates, *(c)* media used, *(d)* criteria used to assess the effectiveness, *(e)* extent to which effectiveness criteria were met, *(f)* agency used and *(g)* cost of each. [6726]

**Jane Kennedy** *[holding answer 23 June 2005]:* The Department's advertising is commissioned through the Central Office of Information. Expenditure from 2001–02 to 2004–05 is shown in the following table. Information on objectives, start and end dates, media used criteria used to assess the effectiveness, extent to which effectiveness criteria were met and agency used can be provided only at disproportionate cost.

£ million

| | Advertising expenditure | | | |
|---|---|---|---|---|
| Campaign | 2002–03 | 2003–04 | 2004–05 | 2005–06[1] |
| Antibiotics | 0.44 | 0.42 | — | — |
| Campaign against living miserably (CALM) | 0.10 | — | — | — |
| Drugs | 1.5 | 1.5 | 0.91 | 0.9 |
| Influenza | 2.0 | 1.6 | 1.5 | — |
| Hepatitis C | — | — | — | — |
| Immunisation | 1.0 | 2.0 | — | 0.01 |
| "Mind Out for Mental Health" | 0.15 | — | — | — |
| National health service, including nurse recruitment | 4.225 | 4.9 | 5.80 | .002 |
| NHS Direct | 0.58 | 0.75 | — | — |
| Organ donation | 0.21 | — | — | — |
| Prescription fraud | 0.30 | — | — | — |
| Sexwise/teenage pregnancy | 1.6 | 2.0 | — | — |
| Sexual health | 1.5 | 1.5 | 1.12 | — |
| NHS dentistry recruitment | — | — | 0.12 | — |
| Social/care worker recruitment | 1.23 | 4.62 | 1.80 | — |
| Smoking | 7.87 | 17.76 | 20.36 | 0.24 |
| Tuberculosis awareness | 0.09 | — | — | — |
| Winter—"Get the Right Treatment", "Ask about Medicines" day | 0.25 | 1.75 | 0.54 | — |
| E111 | — | — | 0.32 | 0.483 |
| Total | 23.045 | 38.8 | 32.4 | 1.635 |

[1] To date.

### Alcohol Abuse (Children)

**Sarah Teather:** To ask the Secretary of State for Health how many children were admitted to hospital in each London strategic health authority owing to alcohol-related problems in 2004–05. [8205]

**Jane Kennedy:** The table shows the latest figures available for finished admission episodes and alcohol-related problems for under 18 age group in London strategic health authorities in 2003–04. Please note that "alcohol related" is not a clearly defined condition and there may be some differences in the diagnostic codes used for different cases. The table includes diagnosis codes for alcohol-related diseases, which are defined by a primary diagnosis of mental and behavioural disorders due to alcohol, alcoholic liver disease or toxic effect of alcohol.

*Counts of finished admission episodes for selected alcohol-related diseases[1] by London SHA of residence— Age at admission between 0–17 years*

| | | Finished admission episodes |
|---|---|---|
| Q04 | North West London | 86 |
| Q05 | North Central London | 62 |
| Q06 | North East London | 86 |
| Q07 | South East London | 88 |
| Q08 | South West London | 135 |
| | Total | 457 |

[1] Alcohol-related diseases defined as following ICD-10 codes recorded in primary diagnosis

F10 Mental and behavioural disorders due to use of alcohol

K70 Alcoholic liver disease

T51 Toxic effect of alcohol

Notes:

1. A finished admission episode is the first period of in-patient care under one consultant within one health care provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

2. The primary diagnosis is the first of up to 14 (7 prior to 2002–03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was in hospital.

3. Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

### Asthma

**Sarah Teather:** To ask the Secretary of State for Health how many *(a)* adults and *(b)* children per 100 population diagnosed with asthma there are in each London borough. [8208]

**Jane Kennedy:** The Department does not collect figures on adults and children per 100 population diagnosed with asthma.

The table shows the count of finished admission episodes and counts per 100 population for admitted care episodes in national health service hospitals where asthma was the primary diagnosis, in each London local authority district of residence in 2003–04.

*Primary diagnosis asthma (ICD-10 codes 345–346). Finished admission episodes. London local authority of residence National health service hospitals, England 2003–04*

[1] Mid-2003 Resident Population Estimates for all London boroughs is provided by Demography and Geography, Health and Social Care Information Centre

*Notes:*

*Finished admission episodes*

A finished admission episode is the first period of in-patient care under one consultant within one health care provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

*Diagnosis (Primary Diagnosis)*

The primary diagnosis is the first of up to 14 (7 prior to 2002–03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was in hospital.

*Ungrossed Data*

Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

*Low Numbers*

Due to reasons of confidentiality, figures between 1 and 5 have been suppressed and replaced with "*".

Hospital Episode Statistics (HES), Health and Social Care Information Centre

### Attention Deficit Hyperactivity Disorder

**Mrs. May:** To ask the Secretary of State for Health what estimate she has made of the number of children diagnosed with attention deficit hyperactivity disorder in each year since 1997. [9912]

**Mr. Byrne:** This information is not collected centrally. The National Institute for Clinical Excellence appraisal of the use of Methylphenidate in treating attention deficit hyperactivity disorder (ADHD), published in October 2000, estimated the prevalence of all types of

ADHD at around 5 per cent., of school-aged children, or approximately 345,000 six to 16-year-olds in England.

### Bacteriophages

**Mr. Lansley:** To ask the Secretary of State for Health what assessment she has made of the suitability of bacteriophage in methods to reduce MRSA infection; and what representations she has received on such suitability. [3360]

**Jane Kennedy:** The available evidence suggests that bacteriophages may have a role in helping to control health care acquired infections, such as methicillin-resistant "Staphylococcus aureus" (MRSA). It is for any company or individual, who believes they have a product that has an effective role to play in combating health care acquired infections to refer to the rapid review panel, when appropriate.

### Blood Donations

**Sarah Teather:** To ask the Secretary of State for Health how many people have given blood in London in each of the last five years. [8312]

**Jane Kennedy:** Information on the number of donors and donations of blood collected in the Greater London area between 2000 and 2005 is shown in the table.

*Thousand*

| | *Active donors* | *Collections* |
|---|---|---|
| 2000–01 | 188.5 | —[1] |
| 2001–02 | 176.8 | 238.6 |
| 2002–03 | 172.5 | 226.3 |
| 2003–04 | 164.8 | 216.7 |
| 2004–05 | 152.9 | 196.0 |

[1] The National Blood Service (NBS) collects such information in a different geographical format, so it is unable to provide information on the number of collections in the Greater London area for 2000–01.

*Source:*
NBS

### Children's Hospices

**Lynne Featherstone:** To ask the Secretary of State for Health if she will list children's hospices, broken down by region; and if she will make a statement. [8045]

**Mr. Byrne:** There are now 35 registered children's hospices in England. In addition, a small number are at the planning stage. A full list of the current hospices is shown in the following table.

*Registered children's hospices in England*

| *Hospice* | |
|---|---|
| *South East* | |
| Chestnut Tree House | Arundel |
| Christopher's (Children's Hospice) | Guildford |
| Demelza House Children's Hospice | Sittingbourne |
| Helen House and Douglas House | Oxfordshire |
| Naomi House Children's Hospice | Winchester |
| *London* | |
| Richard House Children's Hospice | Beckton, London |
| Haven House | Woodford Green, London |
| *South West* | |
| Children's Hospice South West | Barnstaple |
| *East of England* | |
| East Anglia Children's Hospice | Ipswich |
| East Anglia Children's Hospice | Milton, Cambridge |
| East Anglia Children's Hospice | Quidenham, Norwich |
| Pasque Hospice | Luton |
| Little Haven Children's Hospice | Benfleet, Essex |
| *West Midlands* | |
| Acorns Children's Hospice | Birmingham |
| Acorns Children's Hospice | Walsall |
| Hope House Children's Respite Hospice | Oswestry |
| The Donna Louise Trust | Stoke on Trent |
| *East Midlands* | |
| The Leicestershire and Rutland Hospice | Leicester Loughborough |
| Rainbow Children's Hospice | |
| *North West* | |
| Zoe's Place (baby hospice) | Liverpool |
| Claire House Children's Hospice | Bebington, Wirral |
| Derian House Children's Hospice | Chorley |
| Life Health Centre | Liverpool |
| Trinity—The Hospice In The Fylde | Bispham |
| Francis House | Manchester |
| Eden Valley Hospice | Carlisle |
| *North East* | |
| Butterwick Hospice Children's Unit | Stockton on Tees |
| Butterwick Hospice Stockton | Stockton on Tees |
| St. Oswald's Children's Hospice | Newcastle upon Tyne |
| St. Oswald's Hospice | Newcastle upon Tyne |
| Zoe's Place | Normanby, Middlesbrough |
| *Yorkshire and The Humber* | |
| Martin House | Wetherby |
| St. Andrew's Children's Hospice | Grimsby |
| St. Andrew's Hospice | Grimsby |
| St. Hugh's Hospital | Grimsby |

### Departmental Advertising Expenditure

**Mr. Burstow:** To ask the Secretary of State for Health how much *(a)* the Department and *(b)* non-departmental bodies for which the Department is responsible spent on advertising in 2004–05, broken down by media type. [8019]

**Jane Kennedy:** Media spend on advertising for the Department for 2004–05 was £32.7 million. The breakdown is shown in the following table.

*£ million*

| *Media type* | *Amount* |
|---|---|
| Press | 6.8 |
| Regional press | 2.1 |
| Television | 17.8 |
| Radio | 3.5 |
| Outdoor posters | 2.3 |
| Online | 0.2 |

We have no central record of advertising spend by non-departmental bodies, and could not obtain these without incurring disproportionate cost.

### Departmental Advice

**Mr. Burstow:** To ask the Secretary of State for Health when her Department's advice "Clostridium Difficile:

Infection Prevention and Management" was last reviewed; and what plans she has to audit compliance with it. [8017]

**Jane Kennedy:** "Clostridium Difficile: Infection Prevention and Management" has not been formally reviewed, but we will be discussing options for this with the Health Protection Agency, in light of the lessons we have learned since its publication and any recommendations that may arise from the Healthcare Commission inquiry into the recent *Clostridium Difficile* outbreak. The guidance is still relevant in its current form. There are no plans for an audit for compliance with this guidance.

### Diagnostic and Treatment Centres

**Mr. Drew:** To ask the Secretary of State for Health if she will list diagnostic and treatment centres, broken down by *(a)* location and *(b)* specialism. [6810]

**Mr. Byrne:** The information requested has been placed in the Library.

### Diversity Training

**Keith Vaz:** To ask the Secretary of State for Health whether *(a)* medical students and *(b)* student nurses receive diversity training; and what research the Government have commissioned on the effects of diversity training for (i) medical students and (ii) student nurses. [9615]

**Mr. Byrne:** The Department does not set the curriculums for health professional training. This is a matter for the statutory and professional bodies. However, we do share a commitment with them that all health professionals are trained to acquire, the skills and knowledge to deliver a high quality health service to the diverse range of individuals, cultures and groups with whom they have contact.

### East Sussex Hospitals Trust

**Mr. Waterson:** To ask the Secretary of State for Health on what dates the Department's Recovery and Support Unit visited East Sussex Hospitals Trust; whether it has reported to Ministers; and what actions she plans to take as a result of their intervention. [9782]

**Caroline Flint:** The Department's recovery and support unit (RSU) has not visited the East Sussex Hospitals National Health Service Trust.

In line with "Shifting the Balance of Power", the RSU addresses all performance issues, including performance at the East Sussex Trust, through the Surrey and Sussex Strategic Health Authority (SHA). It is not standard practice for the RSU to intervene directly with trusts.

The RSU continues to discuss specific performance issues relating to East Sussex Hospitals NHS Trust with the SHA.

### Ethical Recruitment

**Mr. Baron:** To ask the Secretary of State for Health what percentage of recruiting agencies used by the NHS were signed up to the Department's Code of Practice on ethical recruitment in each of the last three years for which figures are available. [9823]

**Mr. Byrne** *[holding answer 5 July 2005]:* Compliance with the code is recorded on the NHS Employers' website at: www.nhsemployers.org/doc/recruitment_code_of_practice.pdf.

115 recruitment agencies were invited to sign up to the code via the website at the end of 2002. By February 2003, 64 agencies had replied with confirmation that they complied with the provisions of the code. By August 2004, the number had increased to 164.

A revised code was published in December 2004, which tightened arrangements for locum recruitment and the private sector.

As at June 2005, the number of agencies currently named on the Code of Practice website is 237.

**Mr. Baron:** To ask the Secretary of State for Health what measures are in place to ensure that the NHS abides by its Code of Practice on ethical recruitment. [9824]

**Mr. Byrne** *[holding answer 5 July 2005]:* A list of commercial recruitment agencies compliant with the Code of Practice is kept on the NHS Employers' website at www.nhsemployers.org/workforce/list_of_agencies.asp

NHS Employers monitors the use of agencies by the national health service and checks that the agency used is on the website list.

NHS Employers checks that agencies are compliant with the code and makes inquiries if there is evidence an NHS employer or an agency is in breach of the code.

**Mr. Baron:** To ask the Secretary of State for Health what measures are in place to ensure that the NHS does not recruit from the private sector health care workers who have migrated to the UK from countries which would be excluded under her Department's Code of Practice on ethical recruitment had they been recruited directly into the NHS. [9825]

**Mr. Byrne:** *[holding answer 5 July 2005]:* A person given leave to remain in the United Kingdom enjoys the same protection from racial discrimination and access to equal opportunities as other UK nationals when seeking employment.

**Mr. Baron:** To ask the Secretary of State for Health what measures are in place to ensure that the NHS does not contract out services to private sector organisations which have not signed up to the Department's Code of Practice on ethical recruitment. [9826]

**Mr. Byrne** *[holding answer 5 July 2005]:* The Code of Practice covers the recruitment and employment of health care professionals. Compliance with the Code of Practice is a contractual obligation for all independent sector providers and recruitment agencies working with the national health service.

### General Practitioner Cover

**Mr. Willis:** To ask the Secretary of State for Health how much was allocated by her Department in each primary care trust in England for out-of-hours general practitioner services in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06; and if she will make a statement. [6231]

**Mr. Byrne:** Information showing the amount of money allocated by the Department to each primary care trust in England for out-of-hours general practitioner services in 2003–04, 2004–05 and 2005–06 has been placed in the Library.

### Healthcare-associated Infections

**Mr. Hendrick:** To ask the Secretary of State for Health when she will introduce legislation to combat healthcare-associated infection; and if she will make a statement. [10922]

**Jane Kennedy:** I will be publishing tomorrow a consultation document that sets out detailed proposals for tackling health care associated infections, as outlined in the Gracious Speech. Copies will be available in the Library, and on the Department's website at: www.dh.gov.uk/Consultations/LiveConsultations/fs/en.

### Hospital Admissions (Accidents)

**Mr. Lansley:** To ask the Secretary of State for Health what the rate of hospital admission for serious accidental injury has been per 100,000 population in each year since 1995. [9515]

**Caroline Flint:** The available trend data for rate of hospital admission for serious accidental injury are shown in the table.

*Age standardized hospital admission rate for serious accidental injury per 100,000 population*

| *Financial year* | *Number of persons, all ages, England* |
|---|---|
| 1995–96 | 315.9 |
| 1996–97 | 319.3 |
| 1997–98 | 314.3 |
| 1998–99 | 319.1 |
| 1999–2000 | 324.9 |
| 2000–01 | 313.4 |
| 2001–02 | 312.7 |
| 2002–03 | 327.8 |

Notes:
1. Serious accidental injury is defined as an accidental injury resulting in a hospital in-patient stay exceeding three days. The data are estimates derived from information held in the hospital episode statistics system, which contains details of patients admitted to and treated in national health service hospitals in England.
2. Rates are directly age-standardised rates per 100,000 population, standardised against the European standard population.

### Influenza Pandemic

**Patrick Mercer:** To ask the Secretary of State for Health (1) what plans the Government has for emergency assistance to the national infrastructure in the event of an influenza pandemic; [8892]

(2) whether the Health Protection Agency has carried out an assessment of the economic impact of an influenza pandemic; [8894]

(3) what plans the Health Protection Agency has for mortuary facilities in the event of an influenza pandemic; and whether the plans have been rehearsed. [8898]

**Caroline Flint:** The Department, as lead Department, is working with the Civil Contingencies Secretariat (CCS) and with other Departments on cross-Government preparations for an influenza pandemic. One of the issues being covered in this work is the possible economic impact of a influenza pandemic on the United Kingdom as a whole, taking into account the uncertainty about the nature and scale of a pandemic and its impact. This work is being informed by the Health Protection Agency (HPA) which supports the Department through the provision of expert advice and some operational capacity.

Good business continuity planning will reduce the impact of an influenza pandemic and Government Departments are working closely with key national industries to ensure they are as prepared as possible. The Home Office is assessing whether existing public and national health service mortuaries can cope with excess deaths during an influenza pandemic—in order to identify what extraordinary arrangements might be required to enhance current arrangements, including the provision of additional temporary facilities for the storage of bodies ahead of funerals taking place.

**Patrick Mercer:** To ask the Secretary of State for Health what plans the Health Protection Agency has for the provision of hospital beds in the event of an influenza pandemic. [8901]

**Caroline Flint:** The provision of hospital beds in the event of an influenza pandemic is the responsibility of local national health service trusts, and is not a matter for the Health Protection Agency. The NHS is experienced in managing demand for hospitals beds, and local trusts will have plans in place to deal with increased demand.

In order to assist the NHS in planning for an influenza pandemic, the Department has published the United Kingdom influenza pandemic contingency plan and also the operational guidance for NHS planners. Both these documents make clear that NHS organisations will need to prepare for significant demand for services, and the UK plan gives guidance on the level of demand that the NHS might expect.

### London SHAs (Staff)

**Mr. Burstow:** To ask the Secretary of State for Health how many people are directly employed as *(a)* medical and dental staff and *(b)* non-medical staff in each London strategic health authority. [8016]

**Jane Kennedy:** The information requested is shown in the table.

*National health service hospital and community health services: total non-medical staff employed by specified organisations by main staff group as at 30 September 2004*

*Headcount*

| | *London SHAs North Central* | *North East* | *North West* | *South East* | *South West* |
|---|---|---|---|---|---|
| All staff | 161 | 191 | 131 | 148 | 106 |
| Medical and dental staff | 8 | 11 | 5 | 6 | 4 |
| All non-medical staff | 153 | 180 | 126 | 142 | 102 |
| *of which:* | | | | | |
| Qualified nursing, midwifery and health visiting | 5 | 11 | 0 | 2 | 0 |
| Central functions | 44 | 125 | 45 | 57 | 9 |
| Managers and senior managers | 104 | 44 | 81 | 83 | 93 |

Health and Social Care Information Centre Medical and Dental Workforce Census 2004

### Lung Disease

**John Cummings:** To ask the Secretary of State for Health how many people in the Easington primary care trust area suffer from *(a)* chronic bronchitis and emphysema and *(b)* pneumoconiosis. [8938]

**Mr. Byrne:** Data on the incidence of chronic bronchitis and emphysemia and pneumoconiosis are not available centrally.

These conditions are all very closely related and represent one of the most important conditions in the United Kingdom and one of the commonest reasons for admission to hospital. The principle cause is smoking. The national service framework (NSF) for coronary heart disease already has a reduction in cigarette smoking as one of its major targets. We have also banned tobacco advertising and made smoking reduction aids available on national health service prescription. Less important contributory factors are atmospheric pollution and recurrent chest infections.

Strategic health authorities and primary care trusts have all received the NSF for long-term conditions. While the NSF is principally concerned with improving health and social care services for people with a long-term neurological condition, it will address some of the generic issues that are important to people living with a disability that is not necessarily neurological in origin. The principles in the NSF apply equally to improving quality of life and promoting independent living for anyone living with a long-term condition.

### Lutein/Zeaxanthin

**Damian Green:** To ask the Secretary of State for Health if she will take steps to enable the drugs *(a)* Lutein and *(b)* Zeaxanthin to be made available on prescription; and if she will make a statement. [1986]

**Jane Kennedy:** We have no plans to make Lutein and Zeaxanthin available on prescription on the national health service.

### NHS Direct

**Julia Goldsworthy:** To ask the Secretary of State for Health how many complaints have been made by members of the public regarding the service they received from NHS Direct; and how many were upheld. [6289]

**Mr. Byrne:** I understand from the chair of NHS Direct that during the year April 2004 to March 2005 NHS Direct answered 6,584,000 calls. From these calls, NHS Direct received 1,469 complaints. Of these complaints, 1,128 were able to be resolved locally and 341 required further escalation.

Following investigation, 153 of the complaints were upheld, approximately 0.002 per cent., of the total calls answered.

**Frank Dobson:** To ask the Secretary of State for Health for what reasons she is proposing to change the status of NHS Direct. [9093]

**Mr. Byrne** *[holding answer 4 July 2005]:* The proposed change in the status of NHS Direct is a natural progression of its development to provide and develop responsive health information and advice to the public. It is part of the wider review of arm's length bodies (ALBs) by the Department, which was published in July 2004 by the then Secretary of State for Health. The review set out an overall strategy to improve the efficiency and effectiveness of the ALB sector, resulting in a reduction in their number. In the ALB review, a commitment was made to work with NHS Direct to change its governance arrangements.

### NHS Professionals

**Anne Milton:** To ask the Secretary of State for Health (1) what percentage of NHS trusts implemented NHS professionals by the end of April; [8785]

(2) what NHS professionals' budget *(a)* was in 2004–05 and *(b)* is in 2005–06. [8786]

**Mr. Byrne:** In April 2005, NHS professionals was providing services to 43 per cent. (102) of the 236 national health service trusts in England.

NHS professionals' central budget allocation from the Department was £30.5 million in 2004–05 and is £23 million in 2005–06.

### NHS Trust Deficits

**Frank Dobson:** To ask the Secretary of State for Health whether the Bradford Acute Trust was in deficit before it became a Foundation Trust. [10012]

**Mr. Byrne** *[holding answer 5 July 2005]:* The Bradford Teaching Hospitals National Health Service Trust moved to Foundation Trust status on 1 April

2004. The retained surplus or deficit of the Bradford Teaching Hospitals NHS Trust for the year 1 April 2003 to 31 March 2004 was zero, as reported by the audited summarisation schedules for the trust.

### NHS Trusts (Financial Consultants)

**Anne Main:** To ask the Secretary of State for Health how much each NHS trust spent on external financial consultants during the financial period *(a)* 2001–02, *(b)* 2002–03, *(c)* 2003–04 and *(d)* 2004–05. [8731]

**Mr. Byrne:** The information requested is not collected centrally.

### Nurses

**Lynne Featherstone:** To ask the Secretary of State for Health how many nursing vacancies there were on 31 May, broken down by primary care trust; and if she will make a statement. [8233]

**Mr. Byrne:** The information requested is not available centrally for 31 May 2005.

### Scanning Services

**Mr. Kevan Jones:** To ask the Secretary of State for Health what the average waiting time for a scan in County Durham and Tees Valley Strategic Health Authority area was in the last period for which figures are available. [9760]

**Mr. Byrne** *[holding answer 5 July 2005]:* This data are not collected centrally.

**Mr. Kevan Jones:** To ask the Secretary of State for Health (1) how many residents of Sacriston have had scans carried out by Alliance Medical; [9761]

(2) how many residents of Great Lumley have had scans carried out by Alliance Medical. [10382]

**Mr. Byrne** *[holding answer 5 July 2005]:* The information requested is not centrally available.

**Mr. Davey:** To ask the Secretary of State for Health what estimate she has made of waiting times for routine MRI scans in *(a)* Kingston and Surbiton, *(b)* South West London, *(c)* London and *(d)* England. [8340]

**Mr. Byrne:** No estimate has been made, as the Department has not previously collected data on diagnostic waits.

### Sexual Health

**John Cummings:** To ask the Secretary of State for Health (1) how many young people between the ages of 16 and 18 years have been diagnosed with a sexually transmitted disease in the Easington Primary Care Trust area in the last three years; [8936]

(2) how many cases of sexually transmitted diseases have been diagnosed in the Easington Primary Care Trust area in each of the last three years, broken down by disease. [8937]

**Mr. Byrne:** This information is not collected centrally. However, the information can be obtained from the Health Protection Agency at genito urinary medicine (GUM) clinic level. There is no GUM clinic in the Easington Primary Care Trust area.

### Sickness Absence

**Mr. Burstow:** To ask the Secretary of State for Health what the rate of sickness absence for *(a)* medical staff, *(b)* non-medical clinical staff and *(c)* all other staff has been in each (i) primary care trust and (ii) strategic health authority in London in each year since 1997. [8245]

**Jane Kennedy:** Sickness absence rates are not collected for different groups of staff. However, the table shows a single sickness absence figure for each London national health service organisation between 1999 and 2004.

*Sickness and absence rates for London organisations: 1999–2004*

| | *Organisation* | *1999* | *2000* | *2001* | *2002* | *2003* | *2004* |

*Notes:*

1. Sickness absence rate is defined as the amount of time lost through absences as a percentage of staff time available. This does not cover maternity leave, carers' leave or any periods of absence agreed under family friendly/flexible working policies.
2. General practitioners and their staff are not included in the above figures.
3. "—" values indicate that either no response was made by the organisation or the organisation did not yet exist in that year.

### Social Care

**Mr. Burstow:** To ask the Secretary of State for Health how pilot areas will be chosen to test the proposals for individual budgets for social care. [9441]

**Mr. Byrne:** The programme of individual budget pilots is still in the early stages of development. We are working closely with older people, disabled people, other users and stakeholders to establish an appropriate mechanism to test the individual budget model and select local authority areas for piloting. We anticipate that pilot areas will cover a range of geographical locations and local authority types. "Improving the Life Chances of Disabled People" also recommended working with organisations that are already making progress in this area.

### South West London and St. George's Mental Health Trust

**Tim Loughton:** To ask the Secretary of State for Health (1) how many staff have been killed by residents of in-patient wards in South West London and St. George's Mental Health Trust in each of the last 10 years; [8633]

(2) what steps are being taken to ensure the safety of staff working in psychiatric hospitals in South West London and St. George's Mental Health Trust; [8634]

(3) which categories of staff within the South West London and St. George's Mental Health Trust have access to risk assessments of mental health in-patients. [8639]

**Jane Kennedy:** The South West London Strategic Health Authority has reported that one member of staff was killed by an in-patient of the trust in 2003. The trust has a number of measures in place to protect its staff, which include:

Reports of all incidents of violence to staff to the national health service security management service and active pursuit of prosecution. It has secured five convictions to date.

Staff are supported by a police liaison officer, an ex-policeman, who ensures prompt police response to trust concerns.

A zero tolerance policy for drugs and alcohol, as these are elements that contribute to violence and aggression.

Regular drug dog searches are conducted on all trust sites, in conjunction with Wandsworth Prison.

Risk assessments are conducted on all patients.

All staff have risk assessment training.

All working areas have completed lone working assessments and have action plans in place to reduce the risk of working alone, both on trust sites and in the community.

There is a programme of new build to ensure that the buildings are fit for purpose and are safe for both patients and staff.

A leadership and development programme is under way for all ward managers, which includes improving the therapeutic environment of the wards; a poor therapeutic environment contributes to violence.

The trust took part in the Healthcare Commission national audit of violence and is implementing learning points from this work.

Robust inquiries are conducted into all serious incidents. Learning points are identified and where necessary support is given to particular wards where there may be patients with challenging behaviour.

Risk assessments are shared with members of the multidisciplinary team who directly care for the patient. They may also be shared on a need-to-know basis with other agencies, such as social care, the police and other trusts, following NHS information governance principles. In certain circumstances, risk assessments will also be shared with the patient's carers.

## HOME OFFICE

### Abandoned Vehicles

**Mark Tami:** To ask the Secretary of State for the Home Department how many *(a)* prosecutions and *(b)* convictions have resulted from proceedings against the individuals believed to have abandoned vehicles in each of the last five years, broken down by police authority area in England and Wales. [9242]

**Paul Goggins:** It is not possible, from the information held on the Home Office court proceedings database, to identify prosecutions for abandoning vehicles separately from other types of unauthorised dumping under the Refuse Disposal (Amenity) Act 1978.

### Domestic Violence

**Mr. Rob Wilson:** To ask the Secretary of State for the Home Department how many calls have been received by the National Domestic Violence Helpline since its introduction; and what the cost of its operation has been. [9989]

**Yvette Cooper:** I have been asked to reply.

Statistics provided to the Office of the Deputy Prime Minister by Refuge and Women's Aid show that between its launch on 15 December 2003 and 31 May 2005, there have been 336,835 calls to the National Domestic Violence Helpline (0808 2000 247).

The Helpline is run in partnership between Refuge and Women's Aid. Figures on the cost of its operation are not centrally held.

### Mobile Phones

**Jim Dowd:** To ask the Secretary of State for the Home Department what measures he is taking to encourage compliance with the ban on the use of hand-held mobile phones while driving a motor vehicle on the public highway. [10451]

**Paul Goggins:** Enforcement of this new offence is an operational matter for chief officers of police. The likelihood of police detection is increased by the introduction of intercept teams linked to the operation of Automatic Number Plate Recognition systems, for which we announced funding of £15 million in November last year. A clause in the Road Safety Bill, currently before Parliament, aims to increase penalties by making the offence subject to endorsement of three penalty points and a £60 fixed penalty.

### Passports

**Mr. Burstow:** To ask the Secretary of State for the Home Department if he will list for each of the last

12 months the average time a passport application took to be processed by the UK Passport Agency; and if he will make a statement. [6954]

**Andy Burnham:** The average processing times provided in the table relate to the time taken to issue single, straightforward, properly completed applications by the UK Passport Service for the last 12 months.

| *Month* | *Average processing time* |
|---|---|
| June | 5.5 |
| July | 5.5 |
| August | 6.0 |
| September | 5.0 |
| October | 4.0 |
| November | 3.0 |
| December | 3.5 |
| January | 3.5 |
| February | 4.5 |
| March | 4.5 |
| April | 4.5 |
| May | 5.0 |

### Racial and Religious Hatred Bill

**Anne Snelgrove:** To ask the Secretary of State for the Home Department what assessment he has made of the likely effects on freedom of speech of the Racial and Religious Hatred Bill. [8071]

**Paul Goggins:** The only limitation placed on free speech by the Racial and Religious Hatred Bill is the prevention of words or material that stir up racial or religious hatred. The Government believe this is a proportionate measure, a view shared by the Joint Committee on Human Rights who, in their report on the proposed measures published in March 2005, accepted the existence of a serious, albeit limited, problem of incitement to hatred on religious grounds. The report considered that the measures proposed in the Bill were unlikely to give rise to any violation of the right to freedom of expression under Article 10 of the European Convention on Human Rights.

The Government are determined to preserve the right to engage in free and vigorous debate about religion, including the right to criticise religious beliefs and practices. This is an entirely different matter from inciting hatred of people because they belong to a particular religious group.

### Sexual Offences Act

**Mr. Burstow:** To ask the Secretary of State for the Home Department what data his Department is collecting to evaluate the effectiveness of sections 15 and 123 to 129 of the Sexual Offences Act 2003; and when the first full year of data will be available. [8077]

**Paul Goggins:** In order to evaluate the effectiveness of sections 15 and 123 to 129 of the Sexual Offences Act 2003, we are collecting statistical data relating to recorded crime, prosecutions and convictions, as well as evidence from statutory and non-statutory bodies who work within the field of sexual offending.

The recorded crime data relating to section 15 will be available from 21 July 2005, covering the period from 1 May 2004 until 31 March 2005. Information on the number of risk of sexual harm orders (sections 123 to 129) will be collected from the courts annually and the figures for 2004 will be available in the autumn of 2005.

## LEADER OF THE HOUSE

### Government Bills (Explanatory Notes)

**Mr. Amess:** To ask the Leader of the House if he will list the occasions, in each of the last three sessions, when Explanatory Notes to Government Bills have not been made available *(a)* on the same day that a Bill is published and *(b)* within three sitting days. [9684]

**Nigel Griffiths:** This information is not recorded and could be obtained only at disproportionate cost. Guidance to Departments emphasises that every effort should be made to publish Explanatory Notes at the same time as the Bill.

### Parliamentary Education (Schools)

**Mr. Amess:** To ask the Leader of the House what steps he is taking to promote knowledge of, and interest in, both Houses of Parliament through schools. [9683]

**Nigel Griffiths:** My right hon. Friend is keen to work with Members to promote a better understanding of Parliament through schools. Following the report of the Select Committee on the Modernisation of the House on "Connecting Parliament with the Public" last year, the House of Commons Commission agreed to a significant expansion of the services of the Parliamentary Education Unit. Two Communications and Outreach Officers have now been appointed in order to further promote the work of Parliament in schools and through local education authorities. Two additional Visits Officers will be recruited shortly to increase the range and number of visits programmes available to schools wanting to visit Parliament.

### Sitting Hours

**Mr. Amess:** To ask the Leader of the House if he will list the occasions when the House has sat later than 2.00 am in each session since 1976. [9681]

**Nigel Griffiths:** I have placed the information requested in the Library of the House.

**Mr. Amess:** To ask the Leader of the House if he will list the occasions when a Standing Committee has sat later than 2.30 am in each session since 1976. [9682]

**Nigel Griffiths:** The information requested is a matter of public record, available in Standing Committee Hansard, but could be collated only at disproportionate cost.

## SCOTLAND

### Proceeds of Crime Act

**Mr. David Hamilton:** To ask the Secretary of State for Scotland how much has been seized in Midlothian as a consequence of prosecutions under the Proceeds of Crime Act 2002. [8196]

**David Cairns:** My hon. Friend may be aware that this is a devolved matter and the information requested is not broken down by constituency or local authority area. However, since the commencement of the Proceeds of Crime Act 2002 in March 2003, the Financial Crime Unit of the Crown Office has successfully obtained confiscation orders for over £3,300,000 worth of assets gained from criminal activity for the whole of Scotland to date. In addition, restraint orders have been granted for over £47,224,000 worth of assets in the period to March 2005.

### Work-related Stress

**Lynne Featherstone:** To ask the Secretary of State for Scotland how many cases of work-related stress have been reported in his Department in each of the last three years; how much compensation was paid to employees in each year; how many work days were lost due to work-related stress in each year; at what cost; what procedures have been put in place to reduce work-related stress; at what cost; and if he will make a statement. [7871]

**David Cairns:** The staff in the Scotland Office are on loan from either the Scottish Executive or the Department for Constitutional Affairs but neither Department maintains central records of absences due to work-related stress. The Scotland Office has not paid any compensation for work-related stress.
